4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. Ensure that these descriptions are updated on the Company's Profile on www.OTCMarkets.com.

- A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

The Company seeks to build a portfolio of global businesses in the healthtech, cleantech, energy, and artificial intelligence (AI) sectors. Its strategy involves the acquisition of intellectual properties or equity stakes in businesses that specialize in the development of such technologies, or in related products and services.

During Q4 2023, the Company expanded into the energy sector by acquiring specific assets from AZ Desert LLC ("AZD"), an oil and gas investment and holding company. AZD holds varying percentage working interests in 36 leases, encompassing more than 200 wells, primarily located in the state of Oklahoma. This transaction has been unwound due to AZD's exploration partner's lack of performance. The Company is exploring a different business structure within the same area of business.

The Company is also actively engaged in seeking partnerships, joint ventures, mergers, and acquisitions that can transfer publicly traded value to private enterprises. By actively pursuing these collaborative and strategic opportunities, the Company aims to enhance its market presence and financial performance. This approach not only helps in scaling the business operations of private enterprises but also in realizing their potential value in the public market. The goal is to create a symbiotic relationship where both the Company and the private entities can benefit from shared resources, expertise, and market exposure, ultimately leading to mutual growth and success in their respective industries.

To expand the Company's revenue stream, a new division has been formed to provide private credit financing services to enterprises globally, whereby borrowers are matched with international private lenders and investors. The Company will earn income from finance success fees. It also has the option to acquire a certain percentage of client equity, form joint ventures, or represent clients in reverse mergers with U.S.-listed companies.

The Company has also been developing an AI-enabled loan processing system to support its new private credit financing services. The platform utilizes advanced artificial intelligence technologies to help prepare the documents, evaluate the feasibility of projects and match them with the most appropriate funding sources. This AI-driven approach ensures higher precision in aligning clients' needs with suitable equity and debt financing options.

The Company is currently evaluating several blockchain projects aimed at mining and decentralized finance (DeFi) applications, recognizing the transformative potential of these technologies. Blockchain's decentralized structure offers enhanced security, transparency, and operational efficiency, while DeFi enables financial services without traditional intermediaries, opening new avenues for global financial inclusion and innovation.

- B. List any subsidiaries, parent company, or affiliated companies.

The Company consists of a wholly owned subsidiary Wanderport International, LLC.

C. Describe the issuers' principal products or services.

The Company is positioning to offer B2B and B2C products and services related to healthtech, cleantech, energy, and AI through financing, joint ventures, mergers and acquisitions.

5) Issuer's Facilities

The goal of this section is to provide investors with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer. Describe the location of office space, data centers, principal plants, and other property of the issuer and describe the condition of the properties. Specify if the assets, properties, or facilities are owned or leased and the terms of their leases. If the issuer does not have complete ownership or control of the property, describe the limitations on the ownership.

The Company headquarters is located at 5465 Legacy Dr, Suite 650 Plano, TX 75024. The Company does not own or have any mortgages on these or any other facilities. As the business grows, there will be a requirement for additional space however, the nature and size of the space will be determined in the future.

6) All Officers, Directors, and Control Persons of the Company

Using the table below, please provide information, as of the period end date of this report, regarding all officers and directors of the company, or any person that performs a similar function, regardless of the number of shares they own.

In addition, list all individuals or entities controlling 5% or more of any class of the issuer's securities. If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity. Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer.

The goal of this section is to provide investors with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial owners.

Names of All Officers, Directors and Control Persons	Affiliation with Company (e.g. Officer Title /Director/Owner of more than 5%)	Residential Address (City / State Only)	Number of shares owned	Share type/class	Ownership Percentage of Class Outstanding	Names of control person(s) if a corporate entity

(Unaudited)

NOTE 1 - NATURE OF OPERATIONS

The Company seeks to build a portfolio of global businesses in the healthtech, cleantech, energy, and artificial intelligence (AI) sectors. Its strategy involves the acquisition of intellectual properties or equity stakes in businesses that specialize in the development of such technologies, or in related products and services.

During Q4 2023, the Company expanded into the energy sector by acquiring specific assets from AZ Desert LLC (“AZD”), an oil and gas investment and holding company. AZD holds varying percentage working interests in 36 leases, encompassing more than 200 wells, primarily located in the state of Oklahoma. This transaction has been unwound due to AZD's exploration partner's lack of performance. The Company is exploring a different business structure within the same area of business.

The Company is also actively engaged in seeking partnerships, joint ventures, mergers, and acquisitions that can transfer publicly traded value to private enterprises. By actively pursuing these collaborative and strategic opportunities, the Company aims to enhance its market presence and financial performance. This approach not only helps in scaling the business operations of private enterprises but also in realizing their potential value in the public market. The goal is to create a symbiotic relationship where both the Company and the private entities can benefit from shared resources, expertise, and market exposure, ultimately leading to mutual growth and success in their respective industries.

To expand the Company's revenue stream, a new division has been formed to provide private credit financing services to enterprises globally, whereby borrowers are matched with international private lenders and investors. The Company will earn income from finance success fees. It also has the option to acquire a certain percentage of client equity, form joint ventures, or represent clients in reverse mergers with U.S.-listed companies.

The Company has also been developing an AI-enabled loan processing system to support its new private credit financing services. The platform utilizes advanced artificial intelligence technologies to help prepare the documents, evaluate the feasibility of projects and match them with the most appropriate funding sources. This AI-driven approach ensures higher precision in aligning clients’ needs with suitable equity and debt financing options.

The Company will initially concentrate on working with clients in North America, Europe, and Asia to refine its AI-enabled loan processing technique. Once the system is fully implemented and the technology is thoroughly tested, the Company may launch it as a paid SaaS platform.

Working with the Company, clients can expect to benefit from a variety of advantages including:

- Global Reach – Access to a broad network of funders and financial professionals worldwide
- AI-Powered Evaluation – Cutting-edge technology for precise business assessment and funding alignment
- Customized Financial Solutions – Strategic advice and solutions tailored to each client’s specific needs and circumstances
- Expert Guidance – Professional assistance through every step of the financing process

The Company is currently evaluating several blockchain projects aimed at mining and decentralized finance (DeFi) applications, recognizing the transformative potential of these technologies. Blockchain’s decentralized structure offers enhanced security, transparency, and operational efficiency, while DeFi enables financial services without traditional intermediaries, opening new avenues for global financial inclusion and innovation.

The Company is also taking steps to enhance its share structure and balance sheet to support anticipated growth. To improve the share structure, the Company plans to create classes of preferred shares, and certain common shares will be exchanged for them for long-term holding, thus reducing the total outstanding shares.

To improve the balance sheet, the Company is working with its note holders to convert the notes into shares and use them as equity to secure larger loans for its clients and acquisition candidates. Leveraging private credit financing eliminates the need to sell the securities, thus avoiding pressure on the Company’s share price.

Accounting period

The Company has adopted an annual calendar accounting period of January 1st through December 31st.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES AND LIQUIDITY

Critical Accounting Policies

Our significant accounting policies are disclosed in the Notes to our Unaudited Financial Statements ended September 30, 2024 and December 31, 2023. Particular points of our policies require the application of management judgment in making estimates and assumptions that affect the amounts reported in the financial statements and disclosures made in the accompanying notes. Those estimates and assumptions are based on historical experience and various other factors deemed to be applicable and reasonable under the circumstances. The use of judgment in determining such estimates and assumptions is by nature, subject to a degree of uncertainty. Accordingly, actual results could differ from the estimates made and all is “subject to revision”.

Basis of the Presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America by the Issuer and in the opinion of management, include all adjustments consisting only of normal recurring accruals considered necessary to present fairly the Company’s financial position at September 30, 2024 and the results of operations for the

year ended December 31, 2023. The preparation of financial statements in conformity with accounting principles generally accepted in United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Unaudited Quarterly Report and Interim Financial Statements

The accompanying unaudited Quarterly Report has been prepared on a basis consistent with generally accepted accounting principles in the United States (“GAAP”) for quarterly or annual report information and pursuant to the rules of the Securities and Exchange Commission (SEC”). In the opinion of management, the accompanying unaudited financial statements reflect all adjustments, consisting of only normal and recurring adjustments, necessary for a fair presentation of the results of operations, financial position and cash flows for the periods presented. The results of operations for the periods presented are not necessarily indicative of the results expected for any future period.

Summary of Significant Accounting Policies

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Principle of Consolidation and Presentation

The accompanying financial statements include the accounts of Wanderport International.

Use of estimates

The preparation of the accompanying financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates and assumptions that directly affect the results of reported assets, liabilities, revenue, and expenses. Actual results may differ from these estimates and could be subject to revision.

Revenue Recognition

The Company will recognize product revenue when persuasive evidence of an arrangement exists, delivery has occurred, the fee is fixed or determinable, and collection is probable. In instances where final acceptance of the product is specified by the customer, revenue is deferred until all acceptance criteria have been met. No provisions were established for estimated product returns and allowances based on the Company's historical experience. All orders are customized with substantial down payments. Products will be released upon receipt of the remaining funds.

All convertible notes payable were evaluated and determined not to be conventional convertible debt instruments and, therefore, because of certain terms and provisions including liquidating damages under the

associated registration rights agreement the embedded conversion option was bifurcated and has been accounted for as a derivative liability instrument, therefore, classified as a liability on the balance sheet. The accounting guidance also requires that the conversion feature and warrants be recorded at fair value for each reporting period with changes in fair value recorded in the consolidated statements of operations.

Cash requirements in the next twelve months

Over the subsequent twelve months (2024-2025) Wanderport Corporation has identified several areas requiring capital. (1) Funding our continuing business development and working capital needs. (2) Additional efforts associated with investing in the Company's core activities. Please see LIQUIDITY AND CAPITAL RESOURCES AND FINANCE below for more information about our fund raising possibilities moving forward. More specifically, financing, if obtained, will be used to fund overhead, marketing and inventory. Funding could also be for the order process with letters of credit and the internal staff structure in the company and the establishment of larger headquarters; travel and sales. Since the establishment of the Company, Wanderport has adopted a strategy of growing the Company in a controlled manner to minimize spending and expenditures while using its own capital sources (i.e.: sales, officers' investment and private money). Wanderport may also use a portion of expected product sale net proceeds for the possible acquisition of additional businesses and technologies or the establishment of joint ventures that are complementary to our current or future business. We cannot be certain that we will complete any acquisition or joint venture or, that if completed, any acquisition or joint venture will be successful. We cannot be certain that we will be able to obtain financing to attain the goals and enhancements discussed above.

Liquidity and Capital Resources and Finance

There may be a possibility but not a certainty of offering common shares in a SEC Regulation A private placement offering at some point within 2024 or 2025. Additional financing may be raised through either shareholder rights offerings, secondary offerings that consist of private individuals and institutions (otherwise known as PIPE's; Private Equity into Public Entity), conversion of debt to equity and or issuing options or warrants. This may or may not occur during this calendar fiscal year. This could provide financing required to repay debt and/or grow operations at the planned rate. There is no assurance the Company will be able to raise any of the funds required to finance the expansion of our business either in this or any other period.

Net Loss per Share

Basic net loss per share includes no dilution and is computed by dividing net loss available to common shareholders by the weighted average number of common stock outstanding for the period. Diluted net loss per share does not differ from basic net loss per share since potential shares of common stock are anti-dilutive for all periods presented.

Management does not believe there would have been a material effect on the accompanying financial statements had any recently issued, but not yet effective, accounting standards been adopted in the current period.

Off-Balance Sheet Arrangements

As of the date of this report, the Company has no off-balance sheets arrangements

Accrued Expenses

None

Furniture and Leasehold Improvements

Furniture and leasehold improvement are recorded at cost. Maintenance and repair cost are expenses as incurred. Depreciation is provided using 20% per year.

Property and equipment

The Company does not own property. The Company owns several coffee related pieces of equipment.

Equipment

Equipment, if and when procured, will be recorded at cost. Maintenance and repair cost will be expensed as incurred. Depreciation will be at 20% per year.

Income Taxes

Income tax expense is based on pretax financial accounting income. Deferred tax assets and liabilities are recognized for the expected tax consequences of temporary differences between the tax bases of assets and liabilities and their reported amounts. The Company records a valuation allowance to reduced deferred tax assets to the amount that is believed more likely than not to be realized.

NOTE 3 – GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company had a net income for the nine months ended September 30,2024 of \$3,863. The Company's continuation as a going concern is dependent on its ability to meet its obligations, to obtain additional financing as may be required and ultimately to attain profitability. These financial statements do not include any adjustments that might result from the outcome of this uncertainty.

To successfully grow the business, the Company must decrease losses, improve its cash position, establish its revenue base, and succeed in its ability to raise additional capital through a combination of primarily public or private equity offering.

As of September 30, 2024 the Company had current and total liabilities of \$627,769 compared to current and total liabilities of \$755,115 at December 31, 2023. At September 30, 2024 total assets were \$162,200 of which \$5,134 were liquid assets (cash or equivalent) compared to the year ended December 31, 2023 where total assets were \$157,837 of which \$1,271 were liquid assets (cash or equivalent). At the nine months ended September 30, 2024, the Company has an accumulated income of \$3,863 and has an accumulated deficit of \$5,311,963 compared to an accumulated loss of \$1,104 for nine months ended September 30, 2023 and an accumulated deficit of \$5,315,826 at December 31, 2023.

NOTE 4 – SUBSEQUENT EVENTS

None

NOTE 5 – RECENTLY ISSUED ACCOUNTING STANDARDS

Management does not believe that any recently issued but not yet adopted accounting standards will have a material effect on the Company's results of operations or on the reported amounts of its assets and liabilities upon adoption.
