

Alternative Reporting Standard: Pink® Basic Disclosure Guidelines

Federal securities laws, such as Rules 10b-5 and 15c2-11 of the Securities Exchange Act of 1934 (“Exchange Act”) as well as Rule 144 of the Securities Act of 1933 (“Securities Act”), and state Blue Sky laws, require issuers to provide *current information* to the public markets. With a view to facilitating compliance with these laws, OTC Markets Group has created these Pink Basic Disclosure Guidelines (“Guidelines”).¹ These Guidelines set forth the disclosure obligations that make up the “Alternative Reporting Standard” for Pink companies. These Guidelines have been designed to encompass the “Catch All” information required in Rule 15c2-11,² however they have not been reviewed by the U.S. Securities and Exchange Commission or any state securities regulator. We use information provided by companies under these Guidelines to designate the appropriate tier in the Pink Market: Current Information or Limited Information.³

These Guidelines may be amended from time to time, in the sole and absolute discretion of OTC Markets Group, with or without notice. The information provided by companies under these Guidelines is subject to our [Privacy Policy](#).

Pink Current Information Tier

Companies that make the information described below publicly available on a timely basis (90 days after fiscal year end for Quarterly Reports; 45 days after each fiscal quarter end for Quarterly Reports) may qualify for the Current Information Tier.

Qualification Process:

1. Subscribe to the OTC Disclosure & News Service by submitting an [OTCIQ Order Form](#) (available on www.otciq.com).
2. Upload the following documents through OTCIQ:
 - **Quarterly Reports** for Current Fiscal Year– must include Disclosure Statement and Financial Reports listed below
 - **Quarterly Report** for Most Recently Completed Fiscal Year– must include Disclosure Statement and Financial Reports listed below
 - **Quarterly Report** for Prior Completed Fiscal Year – must include Financial Reports listed below
 - **Disclosure Statements:** Disclosure information pursuant to these Guidelines for the applicable period. (see the fillable form starting on Page 4).
 - **Financial Statements:** Financial reports must be prepared according to U.S. GAAP or International Financial Reporting Standards (IFRS) but are not required to be audited. Required financial statements include:
 - Balance Sheet
 - Statement of Income
 - Statement of Cash Flows
 - Statement of Retained Earnings (Statement of Changes in Stockholders’ Equity)
 - Notes to Financial Statements
 - Audit Letter, if audited
3. If financial statements are not audited by a PCAOB registered firm, provide the following:
 - **Attorney Letter Agreement:** Submit a signed Attorney Letter Agreement according to the [instructions](#) on www.otcmarkets.com.
 - **Attorney Letter:** After following the appropriate procedures with a qualified attorney, upload an “Attorney Letter With Respect to Current Information” in accordance with the [Attorney Letter Guidelines](#) through OTCIQ. Attorney Letters must reference all required reports as set forth in Section 2 above.

¹ This is not legal advice, and OTC Markets Group makes no assurance that compliance with our disclosure requirements will satisfy any legal requirements.

² Publication of information pursuant to these Guidelines also does not guarantee or ensure that the Company will be designated as having “current information” or eligible for public quotations pursuant to Rule 15c2-11 or any other applicable regulation.

³ OTC Markets Group may require companies with securities designated as Caveat Emptor to make additional disclosures in order to qualify for the Pink Current Information tier.

4. Verified Profile: Verify the Company Profile through OTCIQ. Profile information includes, but is not limited to, a complete list of officers, directors and service providers, outstanding shares, a business description and contact information.
5. Allow OTC Markets Group to process the posted documents (typically three to five business days) and provide any comments.
6. Companies will be only be evaluated for Current Information once all required documentation has been submitted. A new Attorney Letter is required upon amendment of any referenced report.
7. To qualify for Current Information on an ongoing basis, companies must upload reports through OTCIQ on the following schedule:
 - Quarterly Report within **45** days of the quarter end
 - Quarterly Report within **90 days** of the fiscal year end
 - Attorney Letter within **120 days** of the fiscal year end.

Pink Limited Information Tier

Companies that make the information described below publicly available through OTCIQ for a period within the prior 6 months may qualify for the Limited Information Tier.

8. Financial Statements: Financial reports must be prepared according to U.S. GAAP or International Financial Reporting Standards (IFRS) but are not required to be audited.
 - Balance Sheet
 - Statement of Income
 - Statement of Cash Flows
 - Statement of Retained Earnings (Statement of Changes in Stockholders' Equity)
 - Notes to Financial Statements
 - Audit Letter, if audited
9. Verified Profile: The Company must verify the Company Profile through OTCIQ, including, but not limited to, a complete list of officers, directors and service providers; outstanding shares; a business description and contact information.

Current Reporting of Material Corporate Events

Companies are expected to release quickly to the public any news or information regarding corporate events that may be material to the issuer and its securities (including adverse information). Persons with knowledge of such events would be considered to be in possession of material nonpublic information and may not buy or sell the issuer's securities until or unless such information is made public. If not included in the issuer's previous public disclosure documents or if any of the following events occur after the publication of such disclosure documents, the issuer shall publicly disclose such events by disseminating a news release within 4 business days following their occurrence and posting such news release through an Integrated Newswire or OTCIQ.⁴

Material corporate events include:

- Entry into or termination of a material definitive agreement
- Completion of an acquisition or disposition of assets, including but not limited to merger transactions
- Creation of a direct financial obligation or an obligation under an off-balance sheet arrangement of an issuer
- Triggering events that accelerate or increase a direct financial obligation or an obligation under an off-balance sheet arrangement
- Costs associated with exit or disposal activities
- Material impairments
- Sales of equity securities
- Material modification to rights of security holders
- Changes in issuer's certifying accountant
- Non-reliance on previously issued financial statements or a related audit report or completed interim review
- Changes in control of issuer

⁴ "Integrated Newswire" shall mean a newswire service that is integrated with the OTC Disclosure & News Service and is included on OTC Markets Group's list of Integrated Newswires, as published on <https://www.otcm Markets.com/corporate-services/products/disclosure-and-news-service>

- Departure of directors or principal officers; election of directors; appointment of principal officers
- Amendments to articles of incorporation or bylaws; change in fiscal year
- Amendments to the issuer's code of ethics, or waiver of a provision of the code of ethics
- Any changes to litigation the issuer may be involved in, or any new litigation surrounding the issuer
- Officer, director, or insider transactions in the issuer's securities
- Disclosure regarding stock promotion campaigns deemed material by the issuer
- Other events the issuer considers to be of importance

Metatron, Inc
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the Six Months Ended June 30, 2022 and 2021

1. Organization and Basis of Presentation

Organization and Combination

Metatron, Inc (“Metatron” or the “Company”) was incorporated in the State of Delaware on November 17, 2000. Metatron maintains its principal executive offices in Dover, Delaware, United States.

Basis of Presentation

The Financial Statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”) and the rules and regulations of OTC Markets, Inc. (“OTC”).

Business Operations

The Company is a development stage company targeting acquisition opportunities with recurring revenue streams to maximize shareholder value.

Going Concern

The Company's financial statements have been presented on the basis that the Company is a going concern, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. As reflected in the accompanying financial statements, the Company has no assets on hand, has had no operating revenues, and has had no operating cash flows. During the three and six months ended June 30, 2022, the Company had a net loss of \$25,676 and \$51,891 and an accumulated deficit of \$8,137,930 as of June 30, 2022.

As a result, management has concluded that there is substantial doubt about the Company's ability to continue as a going concern within one year of the date that the accompanying financial statements are issued. The ability of the Company to continue as a going concern is dependent upon the Company's ability to raise additional funds and implement its business plan, and to ultimately achieve sustainable operating revenues and profitability. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

If cash resources are insufficient to satisfy the Company's ongoing cash requirements, the Company would be required to obtain funds, if available, although there can be no certainty, from its shareholders or officers.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period. Management bases its estimates on historical experience and on various assumptions that are believed to be reasonable in relation to the financial statements taken as a whole under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Management regularly evaluates the key factors and assumptions used to develop the estimates utilizing currently available information, changes in facts and circumstances, historical experience and reasonable assumptions. After such evaluations, if deemed appropriate, those estimates are adjusted accordingly. Actual results could differ from those estimates. Significant estimates are expected to include those related to assumptions used in calculating accruals for potential liabilities, valuing equity instruments issued for services, and the realization of deferred tax assets.

Income Taxes

The Company accounts for income taxes under an asset and liability approach for financial accounting and reporting for income taxes. Accordingly, the Company recognizes deferred tax assets and liabilities for the expected impact of differences between the financial statements and the tax basis of assets and liabilities.

The Company records a valuation allowance to reduce its deferred tax assets to the amount that is more likely than not to be realized. In the event the Company was to determine that it would be able to realize its deferred tax assets in the future in excess of its recorded amount, an adjustment to the deferred tax assets would be credited to operations in the period such determination was made. Alternatively, should the Company determine that it would not be able to realize all or part of its deferred tax assets in the future, an adjustment to the deferred tax assets would be charged to operations in the period such determination was made.

The Company is subject to U.S. federal income taxes and franchise taxes of the State of Delaware. The Company's operations during the six months ended June 30, 2022 and the year ended December 31, 2021 were nominal.

As the Company's net operating losses in the respective jurisdictions in which it operates have yet to be utilized, all previous tax years remain open to examination by the taxing authorities in which the Company currently operates. The Company had no unrecognized tax benefits as of June 30, 2022 and December 31, 2021 and does not anticipate any material amount of unrecognized tax benefits within the next 3 months.

The Company accounts for uncertainties in income tax law under a comprehensive model for the financial statement recognition, measurement, presentation and disclosure of uncertain tax positions taken or expected to be taken in income tax returns as prescribed by GAAP. The tax effects of a position are recognized only if it is "more-likely-than-not" to be sustained by the taxing authority as of the reporting date. If the tax position is not considered "more-likely-than-not" to be sustained, then no benefits of the position are recognized. As of June 30, 2022 and December 31, 2021, the Company had not recorded any liability for uncertain tax positions. In subsequent periods, any interest and penalties related to uncertain tax positions will be recognized as a component of income tax expense.

Stock-Based Compensation

The Company issues common stock and intends to issue stock options to officers, directors and consultants for services rendered. Options will vest and expire according to terms established at the issuance date of each grant. Stock grants, which are generally time vested, will be measured at the grant date fair value and charged to operations ratably over the vesting period.

The fair value of stock options granted as stock-based compensation will be determined utilizing the Black-Scholes option-pricing model, and can be affected by several variables, the most significant of which are the life of the equity award, the exercise price of the stock option as compared to the fair market value of the common stock on the grant date, and the estimated volatility of the common stock. Estimated volatility will be based on the historical volatility of the Company's common stock over an appropriate calculation period, or, if not available, by reference to the volatility of a representative sample of comparable public companies. The risk-free interest rate will be based on the U.S. Treasury yield curve in effect at the time of grant. The fair market value of the common stock will be determined by reference to the quoted market price of the Company's common stock on the grant date, or, if not available, by reference to an appropriate alternative valuation methodology.

The Company will recognize the fair value of stock-based compensation awards in general and administrative costs or in software development costs, as appropriate, in the Company's consolidated statements of operations. The Company will issue new shares of common stock to satisfy stock option exercises.

As of June 30, 2022, the Company did not have any outstanding stock options.

Earnings (Loss) Per Share

The Company's computation of earnings (loss) per share ("EPS") includes basic and diluted EPS. Basic EPS is measured as the income (loss) attributable to common stockholders divided by the weighted average common shares outstanding for the period. Diluted EPS is similar to basic EPS but presents the dilutive effect on a per share basis of potential common shares (e.g., convertible notes payable, convertible preferred stock, warrants and stock options) as if they had been converted at the beginning of the periods presented, or issuance date, if later. Potential common shares that have an anti-dilutive effect (i.e., those that increase income per share or decrease loss per share) are excluded from the calculation of diluted EPS.

Loss per common share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the respective periods. Basic and diluted loss per common share is the same for all periods presented because there is no convertible debt, convertible preferred stock, warrants or stock options outstanding.

Fair Value of Financial Instruments

The authoritative guidance with respect to fair value established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels and requires that assets and liabilities carried at fair value be classified and disclosed in one of three categories, as presented below. Disclosure as to transfers in and out of Levels 1 and 2, and activity in Level 3 fair value measurements, is also required.

Level 1. Observable inputs such as quoted prices in active markets for an identical asset or liability that the Company has the ability to access as of the measurement date. Financial assets and liabilities utilizing Level 1 inputs include active-exchange traded securities and exchange-based derivatives.

Level 2. Inputs, other than quoted prices included within Level 1, which are directly observable for the asset or liability or indirectly observable through corroboration with observable market data. Financial assets and liabilities utilizing Level 2 inputs include fixed income securities, non-exchange-based derivatives, mutual funds, and fair-value hedges.

Level 3. Unobservable inputs in which there is little or no market data for the asset or liability which requires the reporting entity to develop its own assumptions. Financial assets and liabilities utilizing Level 3 inputs include infrequently-traded non-exchange-based derivatives and commingled investment funds and are measured using present value pricing models.

The Company will determine the level in the fair value hierarchy within which each fair value measurement falls in its entirety, based on the lowest level input that is significant to the fair value measurement in its entirety. In determining the appropriate levels, the Company will perform an analysis of the assets and liabilities at each reporting period end.

The carrying value of financial instruments (consisting of cash and accounts payable and accrued expenses) is considered to be representative of their respective fair values due to the short-term nature of those instruments.

Property and Equipment

Property and equipment is recorded at cost. Major improvements are capitalized, while maintenance and repairs that do not improve or extend the useful life of the respective assets are charged to expense as incurred. Gains and losses from disposition of property and equipment are included in income and expense when realized. Depreciation of property and equipment is provided using the straight-line method over an estimated useful life of three years.

The Company recognizes depreciation of property and equipment in general and administrative costs in the

Company's consolidated statement of operations.

Leases

Effective January 1, 2019, the Company adopted Accounting Standards Update 2016-02, Leases (Topic 842) ("ASU2016-02"), which requires a lessee to record a right-of-use asset and a corresponding lease liability at the inception of the lease initially measured at the present value of the lease payments. ASU 2016-02 requires recognition in the statement of operations of a single lease cost that is calculated as a total cost of the lease allocated over the lease term, generally on a straight-line basis. The Company did not have any leases within the scope of ASU 2016-02 at June 30, 2022.

Recent Accounting Pronouncements

In June 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments ("ASU 2016-13"). ASU 2016-13 significantly changes how entities measure credit losses for most financial assets, including accounts and notes receivables. ASU 2016-13 will replace the current "incurred loss" approach with an "expected loss" model, under which companies will recognize allowances based on expected rather than incurred losses. Entities will apply the provisions of ASU 2016-13 as a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which ASU 2016-13 is effective. As small business filer, ASU 2016-13 will be effective for the Company for interim and Quarterly reporting periods beginning after December 15, 2022. Management is currently in the process of assessing the impact of adopting ASU-2016-13 on the Company's financial statements and related disclosures.

Other recent accounting pronouncements issued by the FASB, including its Emerging Issues Task Force, and the American Institute of Certified Public Accountants, did not or are not believed by management to have a material impact on the Company's present or future financial statements and related disclosures.

5. Commitments and Contingencies

Legal Contingencies

The Company has no known commitments and contingencies.

Impact of COVID-19 on the Company

The global outbreak of COVID-19 has led to severe disruptions in general economic activities, as businesses and governments have taken broad actions to mitigate this public health crisis. Although the Company has not experienced any significant disruption to its business to date, these conditions could significantly negatively impact the Company's business in the future.

The extent to which the COVID-19 outbreak ultimately impacts the Company's business, future revenues, results of operations and financial condition will depend on future developments, which are highly uncertain and cannot be predicted, including, but not limited to, the duration and spread of the outbreak, its severity and longevity, the actions to curtail the virus and treat its impact (including an effective vaccine), and how quickly and to what extent normal economic and operating conditions can resume. Even after the COVID-19 outbreak has subsided, the Company may be at risk of experiencing a significant impact to its business as a result of the global economic impact, including any economic downturn or recession that has occurred or may occur in the future.

Currently, capital markets have been disrupted by the crisis, as a result of which the availability, amount and type of financing available to the Company in the near future is uncertain and cannot be assured and is largely dependent upon evolving market conditions and other factors.

The Company intends to continue to monitor the situation and may adjust its current business plans as more information and guidance become available.

6. Subsequent Events

The Company performed an evaluation of subsequent events through the date on which these consolidated financial statements were issued. There were no material subsequent events which affected, or could affect, the amounts or disclosures in the financial statements.

Financial statement information is considered current until the due date for the subsequent report (as set forth in the qualifications section above). To remain qualified for Current Information, a company must post its Quarterly Report within 90 days from its fiscal year-end date and Quarterly Reports within 45 days of each fiscal quarter-end date.
