Accounts Receivable

Accounts receivable is reported at the customers' outstanding balances, less any allowance for doubtful accounts. Interest is not accrued on overdue accounts receivable.

Allowance for Doubtful Accounts

An allowance for doubtful accounts on accounts receivable is charged to operations in amounts sufficient to maintain the allowance for uncollectible accounts at a level management believes is adequate to cover any probable losses. Management determines the adequacy of the allowance based on historical write-off percentages and information collected from individual customers. Accounts receivable are charged off against the allowance when collectability is determined to be permanently impaired.

Stock Based Compensation

When applicable, the Company will account for stock-based payments to employees in accordance with ASC 718, "Stock Compensation" ("ASC 718"). Stock-based payments to employees include grants of stock, grants of stock options and issuance of warrants that are recognized in the consolidated statement of operations based on their fair values at the date of grant.

The Company accounts for stock-based payments to non-employees in accordance with ASC 505-50, "Equity-Based Payments to Non-Employees." Stock-based payments to non-employees include grants of stock, grants of stock options and issuances of warrants that are recognized in the consolidated statement of operations based on the value of the vested portion of the award over the requisite service period as measured at its then-current fair value as of each financial reporting date.

The Company calculates the fair value of option grants and warrant issuances utilizing the Binomial pricing model. The amount of stock-based compensation recognized during a period is based on the value of the portion of the awards that are ultimately expected to vest. ASC 718 requires forfeitures to be estimated at the time stock options are granted and warrants are issued to employees and non-employees, and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The term "forfeitures" is distinct from "cancellations" or "expirations" and represents only the unvested portion of the surrendered stock option or warrant. The Company estimates forfeiture rates for all unvested awards when calculating the expense for the period. In estimating the forfeiture rate, the Company monitors both stock option and warrant exercises as well as employee termination patterns. The resulting stock-based compensation expense for both employee and non-employee awards is generally recognized on a straight-line basis over the period in which the Company expects to receive the benefit, which is generally the vesting period.

Loss per Share

The Company reports earnings (loss) per share in accordance with ASC Topic 260-10, "Earnings per Share." Basic earnings (loss) per share is computed by dividing income (loss) available to common shareholders by the weighted average number of common shares available. Diluted earnings (loss) per share is computed similar to basic earnings (loss) per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. Diluted earnings (loss) per share has not been presented since there are no dilutive securities.

Cash and Cash Equivalents

For purpose of the statements of cash flows, the Company considers cash and cash equivalents to include all stable, highly liquid investments with maturities of three months or less.

Concentration of Credit Risk

The Company primarily transacts its business with one financial institution. The amount on deposit in that one institution may from time to time exceed the federally insured limit.

Depreciation

Equipment is stated at cost less accumulated depreciation. Major improvements are capitalized while minor replacements, maintenance and repairs are charged to current operations. Depreciation is computed by applying the straight-line method over the estimated useful lives, which are generally three to five years.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Business segments

ASC 280, "Segment Reporting" requires use of the "management approach" model for segment reporting. The management approach model is based on the way a company's management organizes segments within the company for making operating decisions and assessing performance. The Company determined it has eighteen operating segments as of December 31, 2022.

Income Taxes

The Company accounts for its income taxes under the provisions of ASC Topic 740, "Income Taxes." The method of accounting for income taxes under ASC 740 is an asset and liability method. The asset and liability method requires the recognition of deferred tax liabilities and assets for the expected future tax consequences of temporary differences between tax bases and financial reporting bases of other assets and liabilities.

Recent Accounting Pronouncements

The Company continually assesses any new accounting pronouncements to determine their applicability to the Company. Where it is determined that a new accounting pronouncement affects the Company's financial reporting, the Company undertakes a study to determine the consequence of the change to its financial statements and assures that there are proper controls in place to ascertain that the Company's financials properly reflect the change. The Company currently does not have any recent accounting pronouncements that they are studying, and feel may be applicable.

Note 3. Income Taxes

Deferred income tax assets and liabilities are computed annually for differences between financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

The effective tax rate on the net loss before income taxes differs from the U.S. statutory rate as follows:

	<u>06/30/2024</u>
U.S statutory rate	21.00%
Less valuation allowance	-21.00%
Effective tax rate	0.00%

The significant components of deferred tax assets and liabilities are as follows:

	<u>06/30/2024</u> Deferred tax assets	
Net operating losses /Income	\$	0
Deferred tax liability		

Net deferred tax assets		\$0)
Less valuation allowance		0)
Deferred tax asset - net valuation allowance	\$	0

The Company adopted the provisions of ASC 740-10-50, formerly FIN 48, and “Accounting for Uncertainty in Income Taxes”. The Company had no material unrecognized income tax assets or liabilities as of June 30, 2024.

The Company’s policy regarding income tax interest and penalties is to expense those items as general and administrative expense but to identify them for tax purposes. During the period ending June 30, 2024 there were no income tax, or related interest and penalty items in the income statement, or liabilities on the balance sheet. The Company files income tax returns in the U.S. federal jurisdiction and Nevada state jurisdiction. We are not currently involved in any income tax examinations.

Note 9. Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. Currently, the Company has limited operating history and has incurred operating losses, and as of the period ending June 30, 2024, the Company had an accumulated deficit.

These factors raise substantial doubt about the Company’s ability to continue as a going concern. Management believes that the Company’s capital requirements will depend on many factors including the success of the Company’s development efforts and its efforts to raise capital. Management also believes the Company needs to raise additional capital for working capital purposes. There is no assurance that such financing will be available in the future. The conditions described above raise substantial doubt about our ability to continue as a going concern. The financial statements of the Company do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classifications of liabilities that might be necessary should the Company be unable to continue as a going concern.

Note 10. Subsequent Events

On January 1, 2023, the Issuer removed ILDA INVESTMENT LTD UK as an investment of Gaensel Energy Group, Inc. The Issuer will be moving for the return of 10,000,000 shares of common stock that was issued to its principal, Juan Manuel Sastoque W, of Bogota, Colombia, as consideration for ten percent (10%) of its common stock.

On or about July 24, 2023, the principal of the accounting firm who had prepared all the European financial statements for the entities located in Italy and Switzerland, Antonio Siclari, died in Italy. From August 2023, the issuers management has been requesting information for the preparation of the 3rd Quarter financial statements and also negotiations for the possible reorganization of the issuer operations. As of November 14, 2023, the Issuer was unable to obtain any updates other then there were no quarterly financials available due to the closure of Mr. Siclari offices and the entities were engaging replacement accountants; additionally we were advised on November 20, 2023⁴, there was no possibility of any financial information until the annual reports were completed after 31 December 2023 due to the change in the accountants. Therefore, based on advice of counsel, the Issuer will be reporting solely the information available and not reporting any income, change in cash flow for the period ending 30 September 2023 and will report only the financials for Gaensel Energy Group, Inc., the parent.

As of the date of this filing, an agreement has been reached to obtain the controlling interest of Global Development Advisors Limited led by the Issuer’s President Peter Koley. The Issuer is a party to an escrow agreement to change the control of the Issuer’s control Preferred Series A shares and complete merger agreements. The Issuer will make appropriate Change of Control Supplemental Filings and required forms by OTC Markets immediately upon the completion of the Change of Control.

⁴⁴ Please be advised that none of the italy and Switzerland based subsidiaries are able to produce financials until the annual reports due 31 December 2023. The accountant who was providing the quarterly financials, Antonello Siclari, is deceased and all the clients required a change to new accounting firms.

Best regards
