

DAKOTA GOLD

Revitalizing The Homestake District Of South Dakota

NYSE American: DC

Investor Presentation | November 2024

dakotagoldcorp.com

Dakota Gold is a South Dakota-based, responsible gold exploration and development company with a specific focus on revitalizing the Homestake District in Lead, South Dakota.

Disclaimer

Forward-Looking Statements

This presentation contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. When used in this presentation, the words “plan,” “target,” “anticipate,” “believe,” “estimate,” “intend,” “potential,” “will” and “expect” and similar expressions are intended to identify such forward-looking statements. Any express or implied statements contained in this presentation that are not statements of historical fact may be deemed to be forward-looking statements, including, without limitation: our expectations regarding the drilling to be completed in 2024 and 2025; our expectations for the improvement and growth of the mineral resources; the grade potential of the drilling completed after the effective date of the Initial Assessment; the timing for the updated S-K 1300 Initial Assessments to be released in 2025 or thereafter; and our overall expectation for the possibility of near-term production at the Richmond Hill project. These forward-looking statements are based on assumptions and expectations that may not be realized and are inherently subject to numerous risks and uncertainties, which could cause actual results to differ materially from these statements. These risks and uncertainties include, among others: the execution and timing of our planned exploration activities; our use and evaluation of historic data; our ability to achieve our strategic goals; the state of the economy and financial markets generally and the effect on our industry; and the market for our common stock. The foregoing list is not exhaustive. For additional information regarding factors that may cause actual results to differ materially from those indicated in our forward-looking statements, we refer you to the risk factors included in Item 1A of the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2023, as updated by annual, quarterly and current reports that we file with the SEC, which are available at www.sec.gov. We caution investors not to place undue reliance on the forward-looking statements contained in this presentation. These statements speak only as of the date of this presentation, and we undertake no obligation to update or revise these statements, whether as a result of new information, future events or otherwise, except as may be required by law. We do not give any assurance that we will achieve our expectations.

All references to “\$” in this presentation are to U.S. dollars unless otherwise stated.

DAKOTA GOLD : INVESTMENT THESIS

Key attributes that make Dakota Gold stand out as a unique investment opportunity from peer companies:

Robert
Quartermain
Co-Chair,
President & CEO

“Dakota Gold is advancing its Richmond Hill project to a surface heap leach gold operation by ~2029 and expanding the high-grade mineralization discovered at Maitland.”

1. Our principal projects are on private land in South Dakota, a mining friendly jurisdiction
2. The projects are located in the **historic Homestake district** which has seen continuous mining since 1878 and **produced approximately 45 million ounces of gold**
3. The Homestake Mine operated from 1878 to 2002 producing over 40 million ounces of gold: our **Maitland project is along strike from Homestake** where we have discovered high grade gold like that in the mine
4. The Wharf Mine has produced over 4 million ounces of gold since 1982 and our **Richmond Hill project is analogous to Wharf** where we have defined a near surface oxide resource which we continue to expand through drilling
5. The **existing Richmond Hill permit could be amended to allow restart and expansion** with State and County approval
6. **Key management personnel who have worked at the Homestake and Wharf Mines bring that experience** to our exploration and development programs. Local knowledge and experience has significant value for Dakota Gold and its shareholders

Richmond Hill Gold Project

- 2,749 mineral acres
- Private Land
- Adjacent to Wharf Mine
- Shallow mineralization: oxide, mix and hypogene
- S-K 1300 Maiden Resource
1.33 M oz of Indicated Gold
1.13 M oz of Inferred Gold

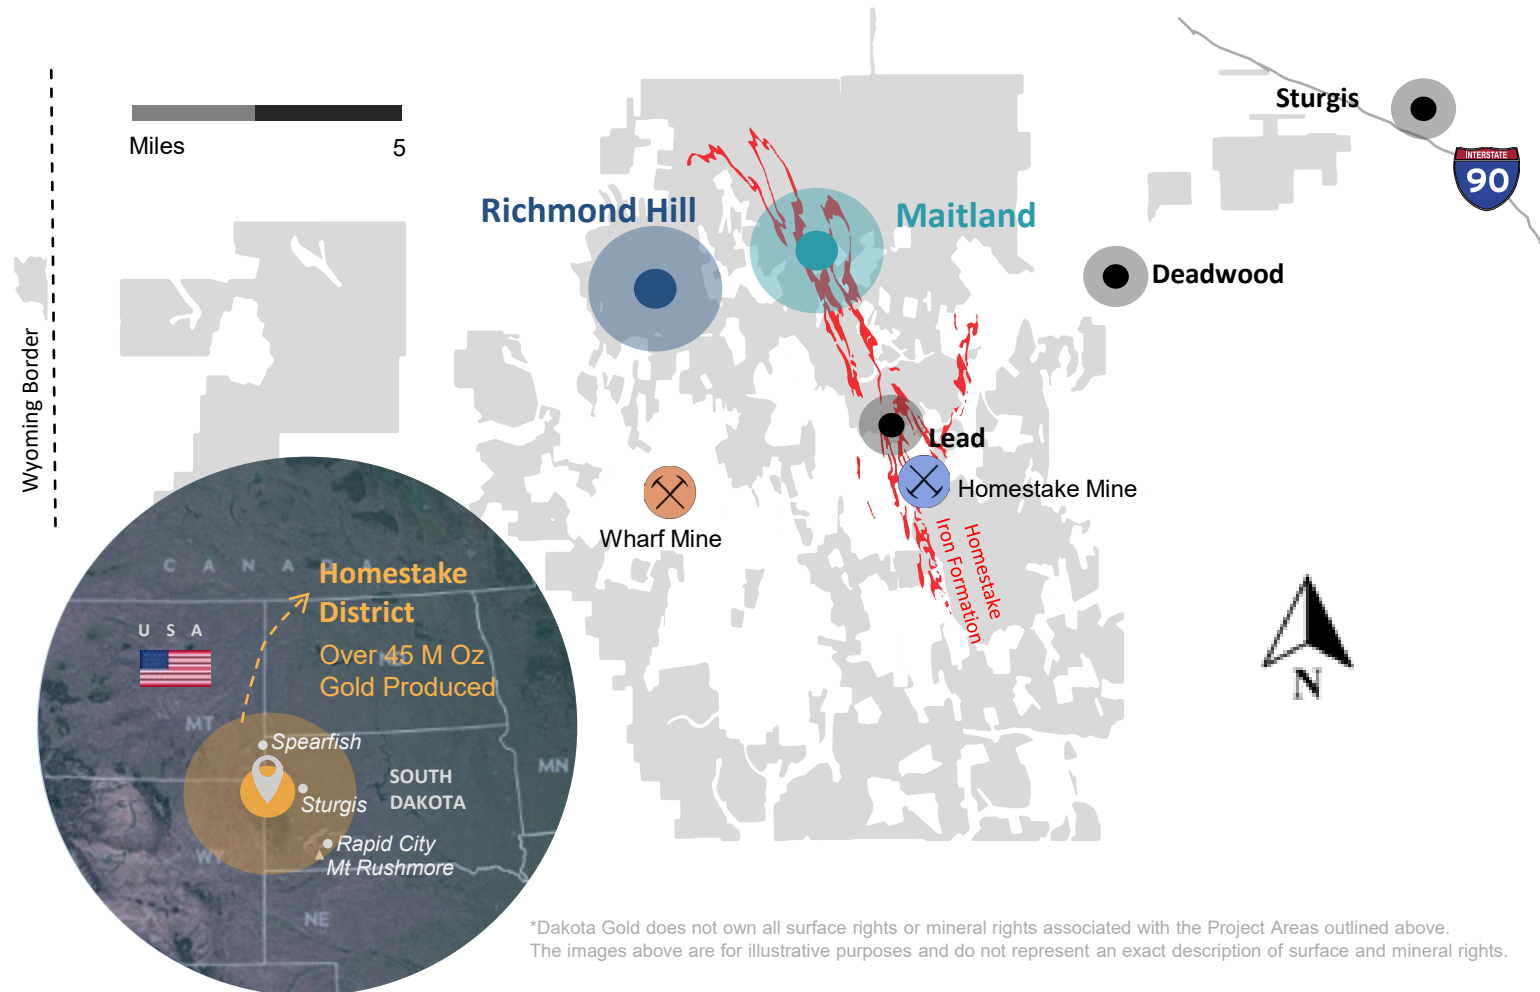

Maitland Gold Project

- 2,112 mineral acres
- Private Land
- Contiguous with Homestake Mine
- Two Discoveries:
 - JB Gold Zone Homestake Mine-style gold mineralization (iron formation)
 - Unionville Zone shallow Tertiary epithermal gold mineralization

Homestake District: New Opportunities

Legend - Homestake District and Key Projects

- Dakota Gold Land Package
- Richmond Hill – Private Land
- ⊗ Homestake - ~40 M Oz Gold Historic Production
- ⚡ Homestake Iron Formation
- Maitland - Private Land
- ⊗ Wharf – 4 M Oz Gold Produced Active Mine

*Dakota Gold does not own all surface rights or mineral rights associated with the Project Areas outlined above. The images above are for illustrative purposes and do not represent an exact description of surface and mineral rights.

Richmond Hill Gold Project – Developing One of the Next Gold Mines in the USA

- Drilling commenced March 2022
- S-K 1300 Maiden Resource
1.33 M oz of Indicated Gold at 0.80 g/t Au
1.13 M oz of Inferred Gold at 0.61 g/t Au
- Adjacent to the 4 M oz Wharf Mine that reported \$119 M in free cash flow from 76,000 oz of gold year to date as Sep 30, 2024
- Updated S-K 1300 resource in Q1 2025 expected to include an additional 88 drill holes totaling approximately 17,000 meters
- Updated Initial Assessment with Cash Flow in Q2 2025

Coeur's Wharf Mine - Operating Parameters

Shawn Campbell
CFO

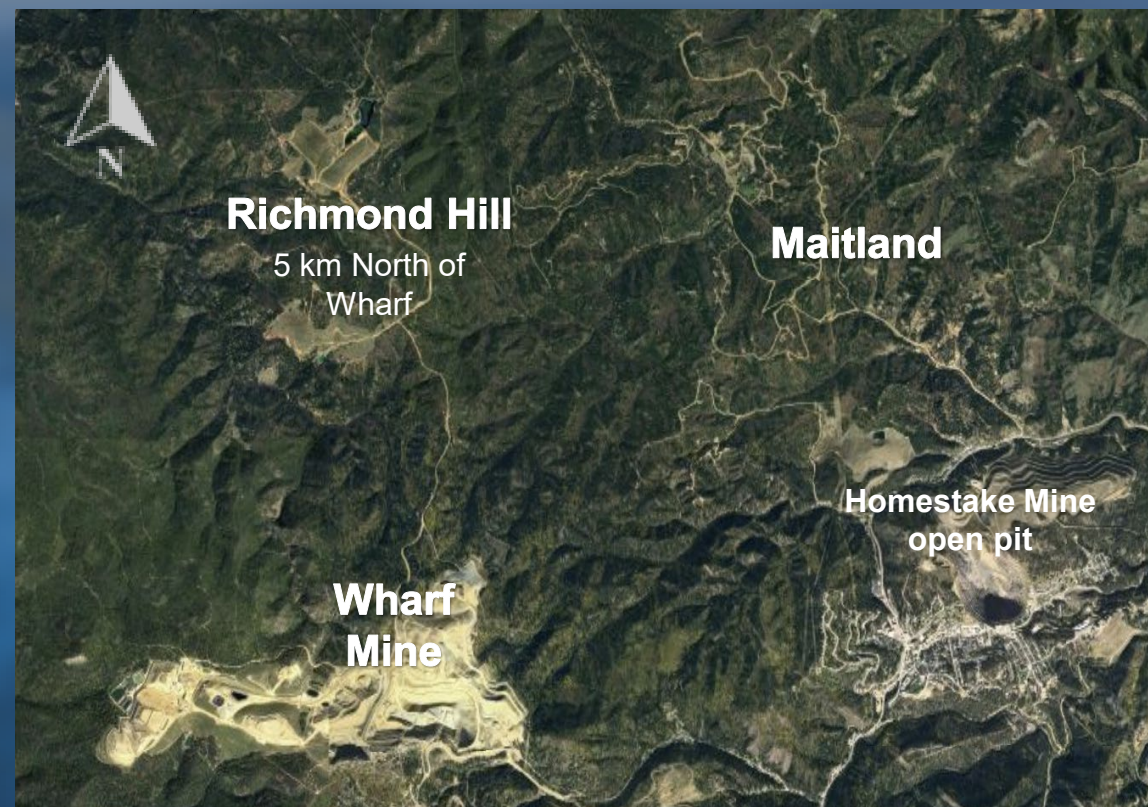

“Since Coeur acquired Wharf for \$99.5 million in 2015, it has not only replaced reserves but increased them by 204,000 ounces for a total of 764,000 as of Dec 31, 2023, and it has generated a total of \$526 million FCF, making it a very profitable open pit mine in the US.”

ASSET OVERVIEW

Ownership	100% Coeur Mining
Employees	243 as of Dec 31, 2023
Claims	7,852 net acres
Type	Open pit and heap leach
Processing	Crushing, “on-off” heap leaching, spent ore neutralization, carbon absorption/desorption
Metals	Electrolytic cathodic sludge
Mine Life	~6 years

WHARF MINE PRODUCTION Year to Date as at Sep 30, 2024	
Free Cash Flow	\$119.7 million
Gold Production	76,066 ounces
CAS per ounce	\$941/oz
Total Ore Mined	4.1 mt
Avg Strip Ratio	2.2

RESERVES & RESOURCES as of Dec 31, 2023		
	Ounces	Gold Grade
P&P Reserves	764,000	0.028 oz/t
M&I Resources	498,000	0.021 oz/t
Inferred Resources	149,000	0.021 oz/t

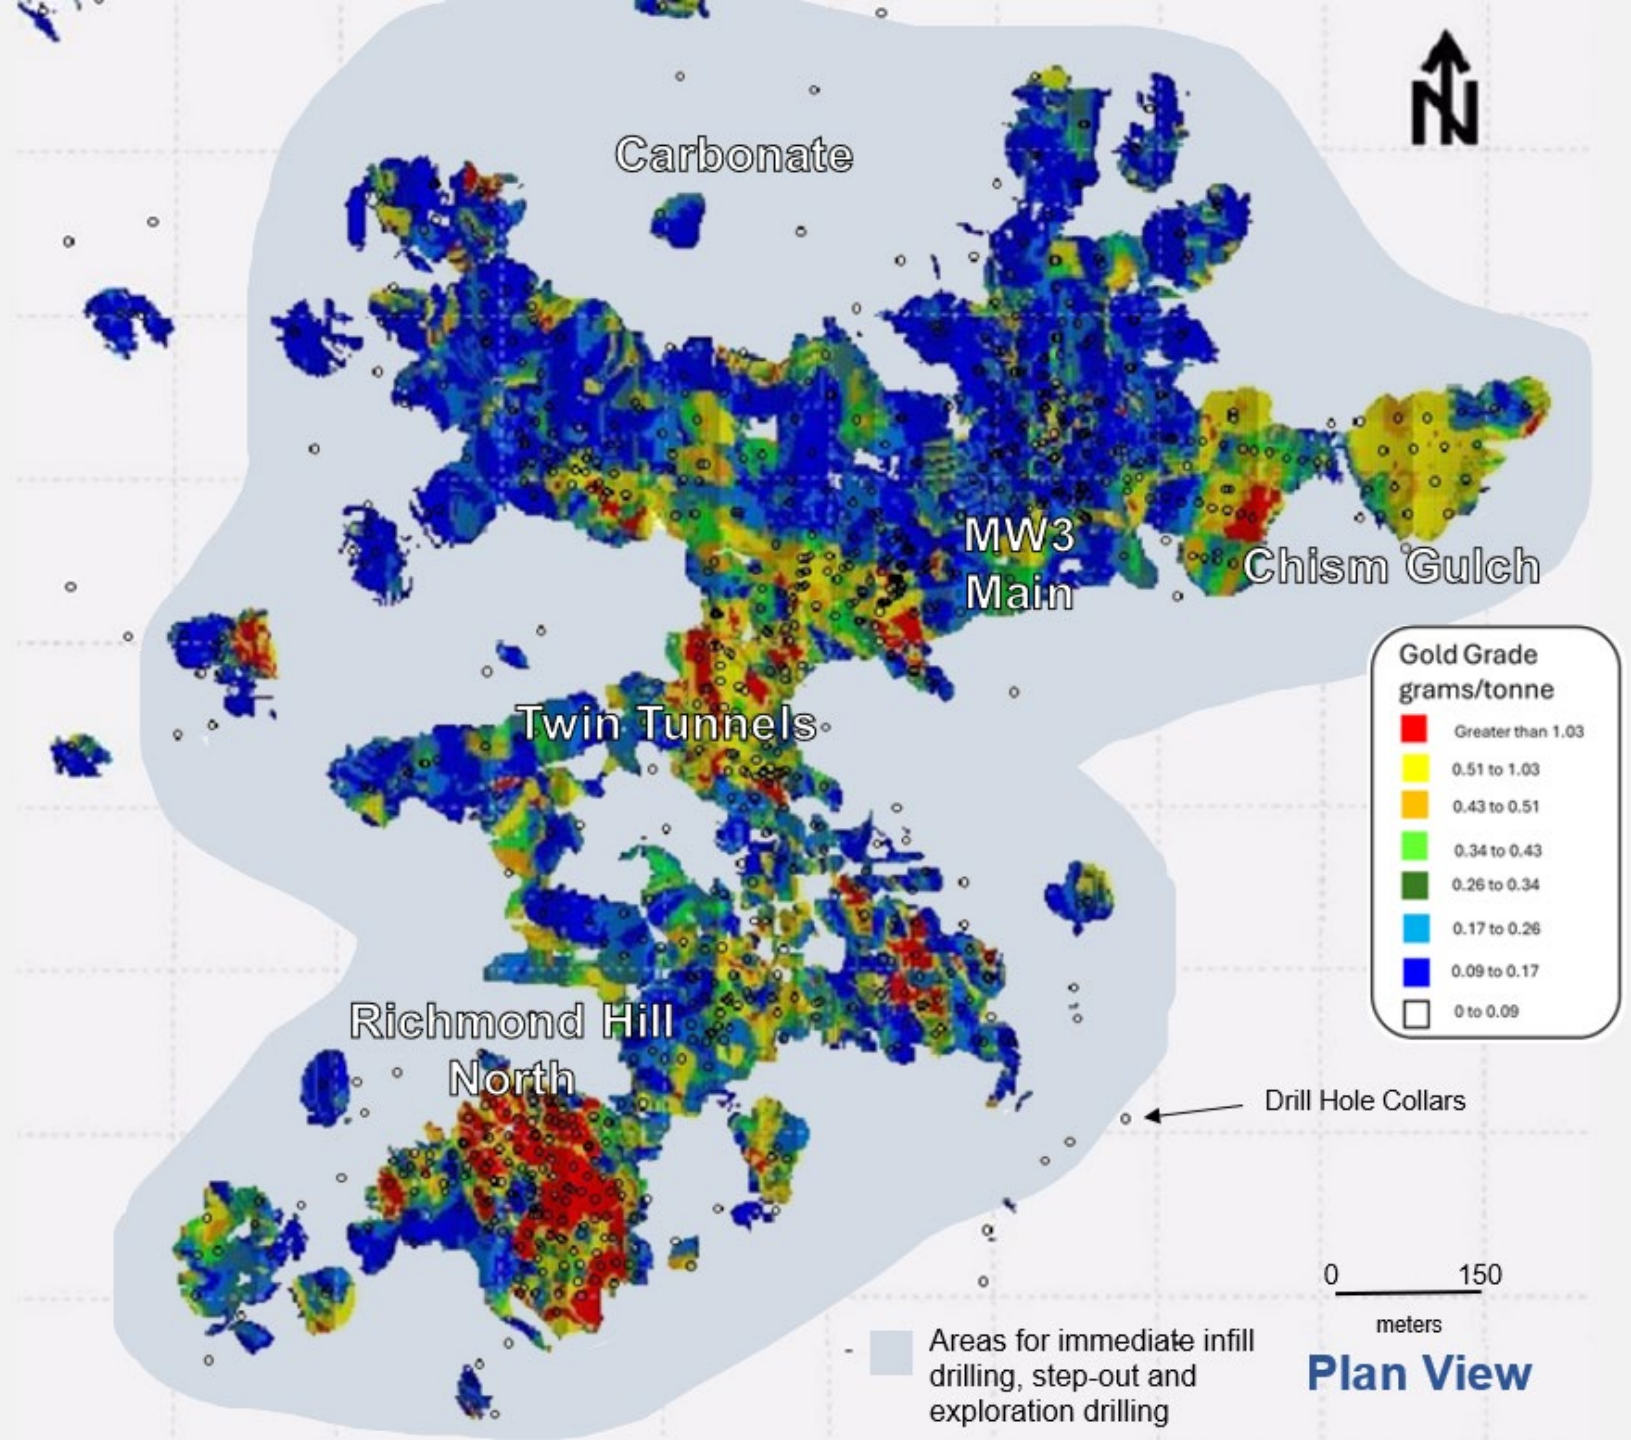

Source: Latest available public company information

Richmond Hill - Potential Step-Out & Infill Areas

- Three of the six breccia pipes tested
- Shallow mineralization with portions outcropping
- Resource is open in most directions
- High-grade potential – Drilling completed post S-K 1300 cut off (not included in maiden resource) includes:
 - 51.7 meters of 1.15 g/t Au;
 - 22.9 meters of 1.99 g/t Au;
 - 42.8 meters of 1.71 g/t Au; and
 - 60.9 meters of 1.68 g/t Au
- Updated S-K 1300 resource in Q1 2025 expected to include an additional 88 drill holes totaling approximately 17,000 meters

Richmond Hill - Permitting

- **The Project Area is virtually 100% private land** – since the Project is not located on Federal lands, State and Local governments are expected to be the primary permitting entities
- **South Dakota Large Scale Mine Permit 445** - Much of the Project Area is currently being managed as a closed mine under an existing permit for open pit mining. We anticipate the permit would be amended to restart and expand operations under a new mine plan

Patrick Malone
Senior Vice President

“Richmond Hill’s private land position and status as an inactive mine provide a pathway from feasibility through permitting to production financing.

Competencies I acquired as Barrick’s former VP of Permitting and Closure will allow me to support our team in advancing Richmond Hill into production.”

Orion Mine Finance - Financing Support

Robert
Quartermain
Co-Chair,
President & CEO

"I had the privilege to work with Orion in arranging the \$540 million construction package for the Brucejack Mine. We are fortunate to have them as major shareholders and their balance sheet support."

On October 20, 2023, Orion Mine Finance became Dakota Gold's largest shareholder and agreed to provide a non-binding proposal for up to \$300 million of financing support to the Company for the purposes of financing the construction and development of the Company's assets.

Richmond Hill - Ready to become one of the next independent US gold mines, in a market with limited assets

Maitland Gold Project

– JB Gold Zone

- In 2024, Dakota Gold completed 35 drill holes at Maitland including 14 daughter holes totaling 25,172 meters.
- Since commencing exploration in 2022, Dakota Gold has completed 73 drill holes totaling 63,448 meters at Maitland.
- Three distinct ledges (34, 35, 36) have been discovered at Maitland in the JB Gold Zone.
- The width, grade and stratigraphy of intercepts identified are analogous to the gold mineralization found in the West Ledge System at the historic Homestake Mine which produced ~6 million ounces of gold.
- Average grade of the West Ledges was 11.63 g/t Au over an average thickness of 6.1 meters.
Average grade of the JB Gold Zone is 10.76 g/t Au over an average thickness of 4.0 meters.
- We are awaiting final assays from 2024 drill program, and our geology team led by James Berry is assessing our 2024 results that will inform our 2025 drill plans.

Homestake Corridor - Long Section

NW

SE

MAITLAND PROPERTY
Potential For New Mine Opportunities

FORMER HOMESTAKE MINE
40 Million Ounces Gold Produced

Maitland Gold Project

James Berry
Vice President
Exploration

“The opportunity we see at Maitland is unique in that we have the possibility to access two distinct types of mineralization.

The Homestake Mine and Maitland is Banded Iron Formation, similar to the Musselwhite deposit in Ontario, Canada which contained approximately 6.3 million ounces of gold at a grade of ~6 g/t Au.”

- Other Tertiary Targets
- Tertiary Intersections
4 g/t Au / 6.4 m average

Opportunities at JB Gold Zone & Potential Size of the Prize

Homestake – Musselwhite Plan View Comparison

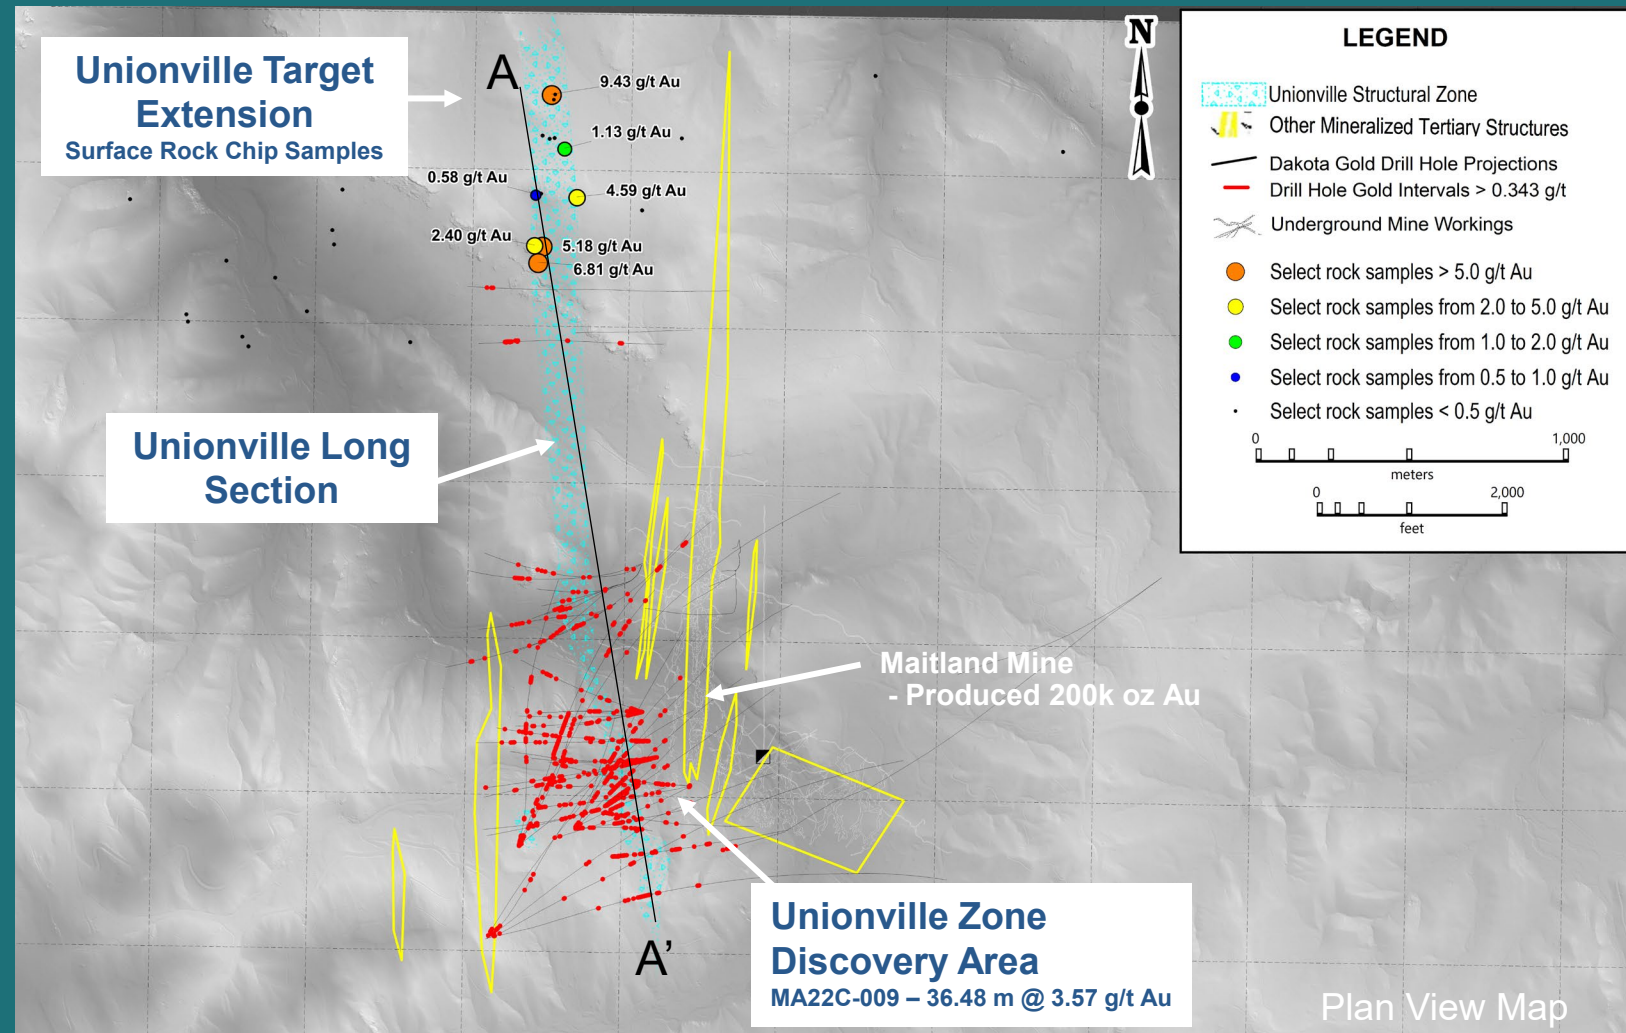

Maitland – Unionville Zone

- Exploration drill results to date show a near surface Tertiary epithermal gold system opportunity that could expedite development of the deeper JB Gold Zone below.
- Unionville Target Extension Strike length could extend to over 3,000 meters to the North and is open to the South.
- Parallel mineralized Tertiary structures including historic Maitland Mine shown on the map have yet to be drill tested.
- The Unionville Tertiary mineralization has an average width of 6.4 meters and an average grade of 4 g/t Au.

James Berry
Vice President
Exploration

“Tertiary mineralization was untested at the historic Homestake Mine and it represents an exciting new opportunity to explore further at Maitland.”

Maitland – Unionville Zone Long Section

MAITLAND – UNIONVILLE ZONE
LONG SECTION VIEW LOOKING EAST

- Modeled mineralization zone with drillhole pierce points and grade-thickness contours

- To date 25 drill hole intersections have been made into the tertiary Unionville Zone averaging a grade of ~ 4 g/t Au over 6.4 meters

Patrick Malone
Senior Vice President

“Dakota Gold is committed to sustainable development as a core value, as further articulated in our Environmental and Community Relations Policies.”

Dakota Gold is a Responsible Miner – Sustainability Highlights 2023

HEALTH AND SAFETY

- Achieved **3 YEARS** with **ZERO** Lost Time Incidents (2021 to 2023)
- Voluntarily provided full Mine Safety & Health Administration training to our workforce
- Employed 40 full-time & 2 part-time employees, 4 interns, 10 consultants, and 40 contractors

ENVIRONMENT

- **ZERO** Reportable Environmental Incidents since commencing drill programs in 2022

COMMUNITY

- **Over \$59,000** Direct Investments to Local Community and professional organizations, and educational institutions in South Dakota
- **More than \$26.5 Million** Invested in South Dakota through payroll, payments to vendors and contractors and purchases on land and buildings
- **Hosted 17** Community Engagement Events

GOVERNANCE

- Co-Chairs, Steve O’Rourke and Robert Quartermain sit on ESG Committee
- Adopted or updated and made available on our website the following policies

Code of Ethics	Community Relations Policy
Environmental Policy	Anticorruption Policy

Directors and Management

BOARD OF DIRECTORS

Robert Quartermain
*Co-Chair, Director,
President and CEO*

Past Executive Chairman of Pretium Resources Inc. Inducted to Canadian Mining Hall of Fame in 2022.

Stephen O'Rourke
*Co-Chair, Director
and Managing
Director*

Former President of Global Petroleum Exploration for BHP Billiton.

Gerald Aberle
COO, Director

Homestake Mining Company (22 years). Co-founder of DTRC.

Amy Koenig
*Lead Independent
Director*

VP, Governance, Corporate Secretary & Deputy General Counsel for Black Hills Corporation. Director for Children's Home Society of South Dakota.

Alice Schroeder
Director

Serves or has served on numerous public company boards including Carbon Streaming Corp., Natus Medical Inc., HSBC North America Holdings Inc., and Prudential plc.

Jennifer Grafton
Director

Senior VP & Associate General Counsel of E2open Parent Holdings Inc.

MANAGEMENT

Patrick Malone
*SVP & Chief Legal
Officer*

Former Vice President at Barrick Gold and President of Homestake Mining Company of California. Over twenty years of in-house legal and experience with permitting and closing mining operations.

Shawn Campbell
CFO

Former Chief Financial Officer of GT Gold Corp. Experience with both Goldcorp and Newmont.

James Berry
VP, Exploration

Worked for Barrick at Homestake and for Goldcorp at Wharf, in the Homestake District. Previously VP, Exploration for Romarco Minerals.

Carling Gaze
*VP of IR and Corp
Communications*

Former Senior Investor Relations and Corporate Communications Associate of Pretium Resources Inc. with over 15 years of experience in the mining and natural resource industry.

Mark Rantapaa
VP Operations

Operations Manager of Black Hills Operations at DTRC. Over 25 years with Barrick Gold Corporation.

Ron Everett
*Sr. Manager –
Business*

Mayor of Lead, and former Administration Manager of Wharf Mine and Richmond Hill Mine.

Timm Comer
*Environmental
Director*

Three decades of experience in environmental permitting, policy development, and compliance program implementation of mining properties with effective operation, reclamation, and closure focus.

Bill Gehlen
*Sr. Manager -
Geology*

Former Manager, Corporate Development at Gold Standard Ventures and former Manager, Resource Development with OceanaGold.

Elizabeth Sailer
*VP, External
Relations*

Over twenty years of experience in public, governmental and media relations, communications and partnership collaborations throughout South Dakota.

2024 Transformational Year Leading to the Next Era of the Homestake Gold District

~\$25 Million Exploration Program Underway

Advanced Studies on Richmond Hill in Q1 2025

Richmond Hill Gold Project –

- Continue infill and step-out drilling
- Updated S-K 1300 resource planned in Q1 2025
- Updated Initial Assessment with Cash Flow planned for Q2 2025
- Baseline environmental studies for permitting underway

Maitland Gold Project –

- Continue step-out drilling
- Follow up on JB Gold Zone Discovery
 - Phase II directional drilling to halve distance between holes
- Follow up on Unionville Zone Discovery

Appendix

Richmond Hill - Conceptual Pit-Constrained Maiden Resource Estimate at Variable Cutoff Grades

REDOX	CLASSIFICATION	AU G/T	TONNES	OUNCES AU
Oxide	Indicated	0.65	14,979,000	314,000
Mixed	Indicated	0.74	22,849,000	547,000
Hypogene	Indicated	1.04	14,001,000	469,000
TOTAL	Indicated	0.80	51,829,000	1,330,000

Oxide	Inferred	0.49	27,437,000	429,000
Mixed	Inferred	0.63	19,957,000	407,000
Hypogene	Inferred	0.86	10,668,000	296,000
TOTAL	Inferred	0.61	58,062,000	1,132,000

Announced April 30, 2024

See S-K 1300 Initial Assessment Table 1.1

Notes:

- Mineral resources are not mineral reserves and do not have demonstrated economic viability.
- There is no certainty that all or any part of the estimated mineral resources will be converted into mineral reserves.
- Pit-constrained resources are stated at a range of cutoff gold grades depending on oxide state.
- Oxide recovery = 87%, mixed recovery = 65%, hypogene recovery = 42%.
- Mineral resource tonnage and contained metal have been rounded to reflect the accuracy of the estimate, and numbers may not add due to rounding.
- Mineral resource tonnage and grades are reported as undiluted.
- MRE is current as of October 5, 2023.
- Pit-Constrained at \$1,900/oz; Royalty = 3.8%; Mill & G&A Cost = \$8.00; Mine Cost = \$1.80.
- Cutoff grade Au g/t : Oxide 0.21 g/t, Mixed 0.29 g/t, Hypogene 0.44 g/t
- Pit slope at 50 degrees

Richmond Hill Proposed Mine Site Plan

Maitland

– JB Gold Zone

Hole MA23C-026

Multiple High-grade Homestake-style Mineralization Hits

- Highest-Grade Intercept To Date at Maitland 4.871 oz/ton Au over 3.4 feet (167.0 g/t Au over 1.0 meter)
- 14 sample intervals in Homestake Formation with visible gold between 2283.3 and 2539.6 feet and an additional occurrence at 5113 feet in the lower portion of the hole.
- MA23C-026 also intersected 0.037 oz/ton Au over 39.8 feet (1.26 g/t Au over 12.1 meters) in a new Tertiary zone of epithermal gold mineralization in the upper part of the drill hole, located approx. 500 feet west of the Unionville Zone discovery area. This mineralization appears to be in a distinct Tertiary-age structural zone west and parallel to the Unionville Zone.

Maitland

– JB Gold Zone

Drill Hole MA24C-038

James Berry
Vice President
Exploration

"Based on my experience working in the Homestake Mine, at Maitland we have intersected higher grade mineralization that is shallower than exploration results from the upper portion of the West Ledge system at Homestake, which ultimately produced more than 6 million ounces of gold."

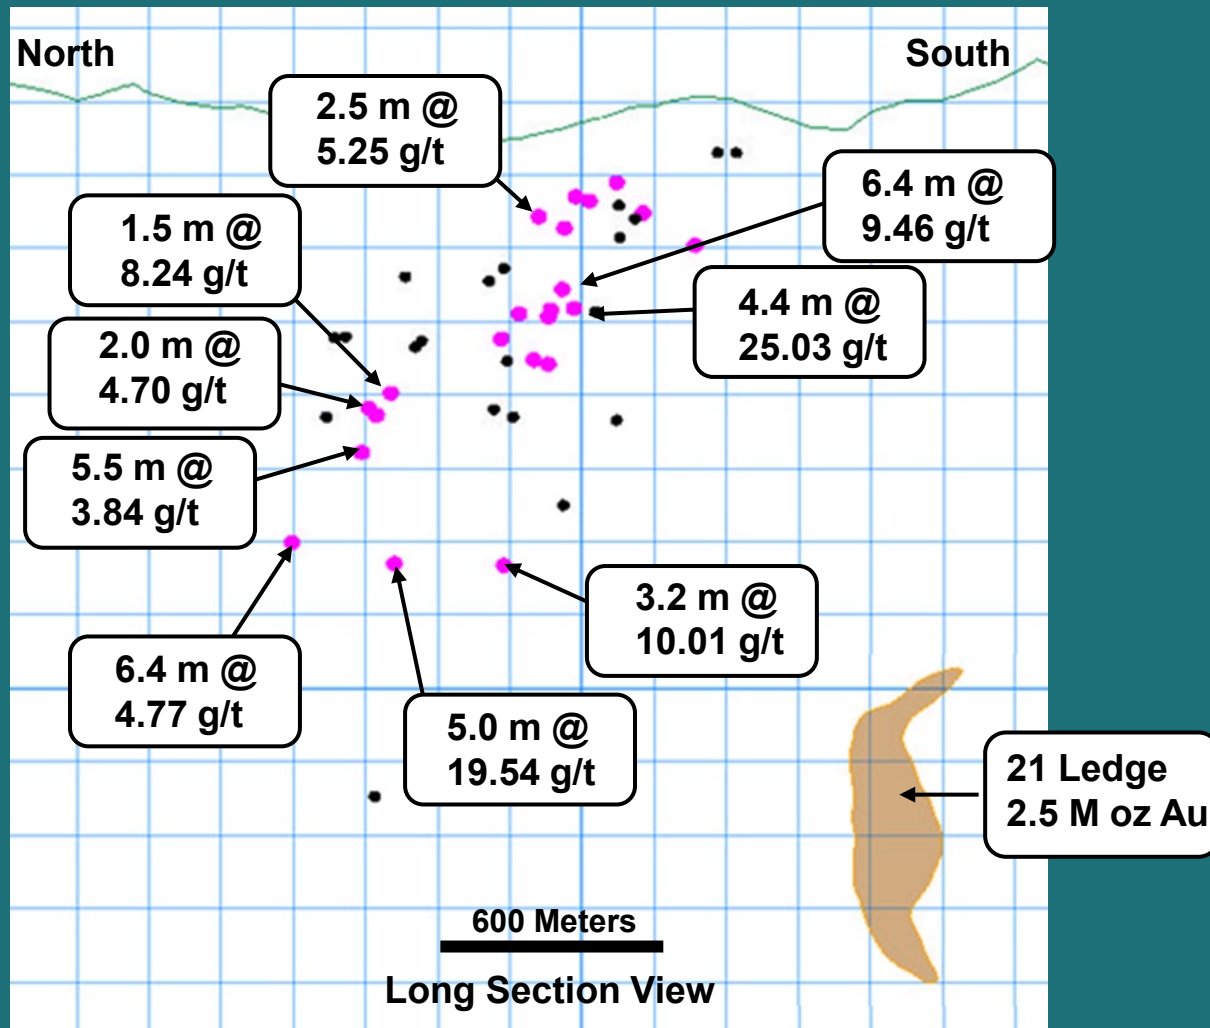

- The growing array of drill holes targeting Homestake Mine-style gold mineralization has now produced multiple high-grade gold intercepts in at least three distinct ledges within the JB Gold Zone at Maitland: 34 Ledge, 35 Ledge and 36 Ledge.
- Drill hole MA24C-036 returned 9.36 grams/tonne gold over 2.6 meters, and drill hole MA24C-038 returned 25.03 grams/tonne over 4.4 meters. Both holes are located in 36 Ledge on the west side of the Maitland mineralized gold trend and the gold mineralization intersections are shallow at approximately 500 meters below surface.
- Drilling at Maitland is transitioning from wider spacing of approximately 250 meters, to tighter spacing to delineate the ledges now outlined which remain open along strike and to depth.

Hole #	From m	To m	Depth m	Interval m	Gold g/t	From ft	To ft	Depth ft	Interval ft	Gold Oz/ton	Mineral Type	g x m
MA24C-036	621.8	624.4	478.2	2.6	9.36	2040.0	2048.6	1569.0	8.6	0.273	Homestake	24
MA24C-038	608.4	612.8	496.8	4.4	25.03	1996.0	2010.5	1630.0	14.5	0.730	Homestake	110

Maitland – JB Gold Zone

Analogous to West Ledge System

Homestake Mine - West Ledge System (17, 19, 21 Ledge) 2.74 g/t Gold Cut-off

Total of ~6 million ounces of gold produced

- Ledge 17 – 1.4 M oz
- Ledge 19 – 1.4 M oz
- Ledge 21 – 2.5 M oz

AVERAGE GOLD GRADE

- JB Gold Zone: 10.76 g/t Au
- West Ledge System: 11.63 g/t Au

AVERAGE THICKNESS

- JB Gold Zone: 4.0 meters
- West Ledge System: 6.1 meters

Richmond Hill Gold Project Option

- Option Agreement with Barrick to acquire 2,726 acres of surface and mineral rights with facilities
- Remaining consideration to exercise option:
 - 400,000 shares in Dakota Gold
 - 1% NSR on gold produced
 - Assumption of all associated liabilities
- Option period: Oct 14, 2021 until March 7, 2026

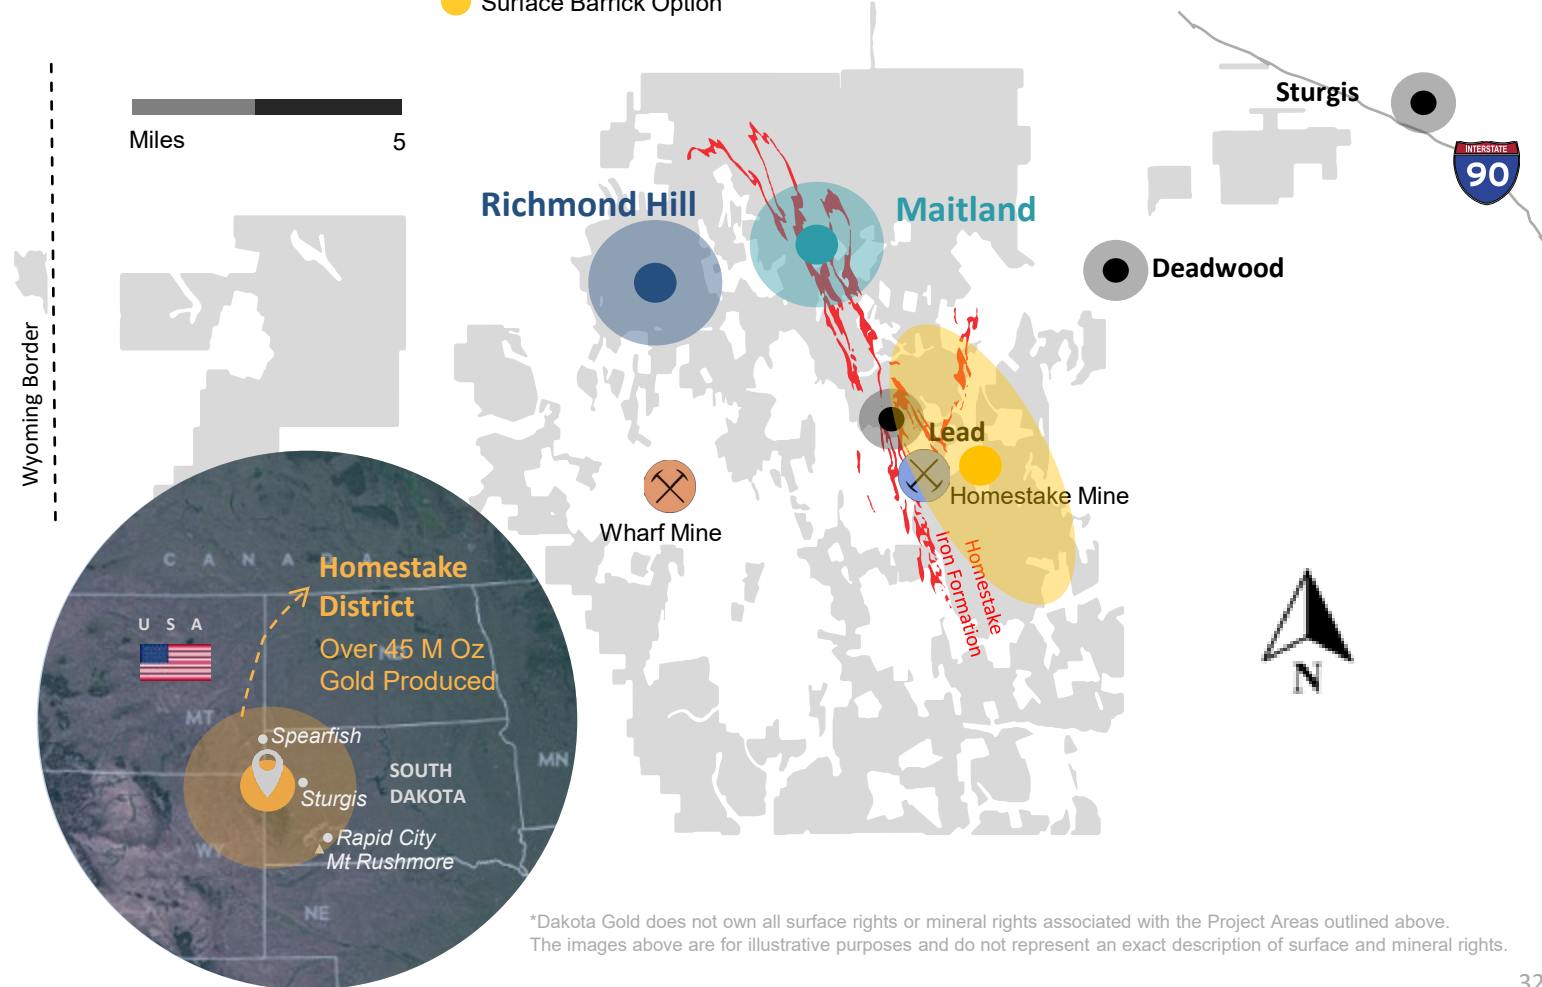

Surface Barrick Option Agreement

- Option Agreement with Barrick to acquire 4,261 acres of surface rights with attendant facilities and data
- Remaining consideration to exercise option:
 - 3,000,000 shares in Dakota Gold
 - 2.5% NSR (applicable only to gold recovered from Grizzly Gulch tailings impoundment)
 - Assumption of all associated liabilities
- Surface rights provide ideal location for future Maitland processing facilities
- Option period: Oct 14, 2021 until March 7, 2026
