Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

Common Stock shareholders are entitled to one vote for each share held on all matters submitted to shareholders for a vote. Common stock shareholders are eligible to receive dividends in the event a dividend is declared, but do not have any other rights or preferences.

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

Series A Preferred – Our Series A Preferred stock ranks senior to all other classes of stock and has the following rights and preferences:

- **Dividends:** In the event the Company declares a dividend, each holder of Series A Preferred stock shall be entitled to receive a dividend equal in amount and kind to that payable to the holders of Common stock at a rate that assumes a full conversion of the holder's Series A shares into Common stock.
- **Liquidation Preference:** In the event of any liquidation, dissolution or winding up of the Company, the holders of record of shares of Series A Preferred shall be entitled to receive, immediately prior and in preference to any distribution to the holders of the Company's Common Stock, a liquidation preference equal to \$110 per share.
- **Conversion:** Each share of Series A Preferred stock is convertible into 1,000 shares of Common stock.
- **Voting:** Each share of Series A Preferred stock is entitled to 100,000 votes on any matter submitted to shareholders for a vote.
- **Adjustment for Stock Splits:** In the event of a reverse stock split, the Conversion Ratio will be adjusted proportionately such that, after such reverse stock split, each share of Series A Preferred converts into the same number of shares of Common Stock into which it was convertible immediately preceding such reverse stock split.

Series B Preferred – Our Series B Preferred stock ranks senior to our Common stock, but junior to the Series A Preferred stock. Our Series B Preferred stock has the following rights and preferences:

- **Dividends:** None.
- **Conversion:** Each share of Series A Preferred stock is convertible into 20,000 shares of Common stock, subject to a 4.99% limitation on beneficial ownership.
- **Voting:** None.
- **Adjustment for Stock Splits:** In the event of a reverse stock split, the Conversion Ratio will be adjusted proportionately such that, after such reverse stock split, each share of Series A Preferred converts into the same number of shares of Common Stock into which it was convertible immediately preceding such reverse stock split.

3. **Describe any other material rights of common or preferred stockholders.**

None

4. **Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.**

None

3) **Issuance History**

*The goal of this section is to provide disclosure with respect to each event that resulted in any changes to the total shares outstanding of any class of the issuer's securities **in the past two completed fiscal years and any subsequent interim period.***

Disclosure under this item shall include, in chronological order, all offerings and issuances of securities, including debt convertible into equity securities, whether private or public, and all shares, or any other securities or options to acquire such securities, issued for services. Using the tabular format below, please describe these events.

A. Changes to the Number of Outstanding Shares for the two most recently completed fiscal years and any subsequent period.

Indicate by check mark whether there were any changes to the number of outstanding shares within the past two completed fiscal years:

4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. Ensure that these descriptions are updated on the Company's Profile on www.OTCMarkets.com.

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

Discount Print USA, Inc. is a print brokerage firm that offers low-priced high-quality printing services to a wide variety of businesses as well as companies attending trade shows in major cities throughout the entire United States. We offer digital and offset printing services through a website geared towards major cities throughout America. We plan to eventually have virtual offices in every major city so we can capture business from conventions and businesses throughout the United States. These offices are low-cost suites in various metropolitan areas and cities that serve primarily as a physical local pick-up location for nationwide clients. Customer traffic is driven through an extensive on-line presence through major internet search engines (i.e. Google, etc.) with locally addressed listings throughout the country. This effectively streamlines the Company's overhead costs and increases margins and profit revenue without compromising customer service and product delivery.

B. List any subsidiaries, parent company, or affiliated companies.

None

C. Describe the issuers' principal products or services.

We provide printing services and then outsource the print jobs to various printing wholesalers who complete the job and then ship directly to our customers. Additionally, being based in Las Vegas, Nevada, we have developed a division which specializes in convention printing services throughout the United States. We market tradeshow booth displays, large format printing, and a large variety of printing products such as brochures/flyers, business cards, calendars, door hangers, envelopes, foam board printing, gator board printing, sintra (PVC) board signs, presentation folders, tradeshow booth displays, large format printing, modular displays, outdoor displays and much more.

5) Issuer's Facilities

The goal of this section is to provide investors with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer. Describe the location of office space, data centers, principal plants, and other property of the issuer and describe the condition of the properties. Specify if the assets, properties, or facilities are owned or leased and the terms of their leases. If the issuer does not have complete ownership or control of the property, describe the limitations on the ownership.

On October 25th, 2023, we entered into a lease agreement (the "Lease") for 1305 square feet of office space located at 5125 W Oquendo Rd. #9, Las Vegas, NV 89118. The Lease has a 12-month term with an option to renew for an additional 12 months. We pay \$1,550 per month pursuant to the terms of the Lease.

6) All Officers, Directors, and Control Persons of the Company

Using the table below, please provide information, as of the period end date of this report, regarding all officers and directors of the company, or any person that performs a similar function, regardless of the number of shares they own.

In addition, list all individuals or entities controlling 5% or more of any class of the issuer's securities. If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity. Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer.

The goal of this section is to provide investors with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial owners.

NOTE 1 - ORGANIZATION AND NATURE OF BUSINESS

Discount Print USA (“the Company”), Inc was incorporated in the State of Wyoming on June 17, 2019. The Company has minimal operations currently. The Company’s principal business consists of producing flyers, posters and printing images.

NOTE 2 - GOING CONCERN

The Company's financial statements are prepared using generally accepted accounting principles in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs and allow it to continue as a going concern for a period of one year from the issuance of these financial statements. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations. These factors raise substantial doubt about the Company’s ability to continue as a going concern.

In order to continue as a going concern, the Company will need, among other things, additional capital resources. Management's plan is to obtain such resources for the Company by obtaining capital from management and significant shareholders sufficient to meet its minimal operating expenses and seeking equity and/or debt financing. However, management cannot provide any assurances that the Company will be successful in accomplishing any of its plans.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plans described in the preceding paragraph and eventually secure other sources of financing and attain profitable operations. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTE 3 – SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

Our financial statements are prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). In connection with the preparation of the financial statements, we are required to make assumptions and estimates about future events that affect the reported amounts of assets, liabilities, revenue, expenses and the related disclosures. We base our assumption and estimate on historical experience and other factors that management believes are relevant at the time our financial statements are prepared. On a periodic basis, management reviews the accounting policies, assumptions and estimates to ensure that our financial statements are presented fairly and in accordance with GAAP. However, because future events and their effects cannot be determined with certainty, actual results could differ from the estimates and assumptions, and such differences could be material.

Use of Estimates

In connection with the preparation of the financial statements, we are required to make assumptions and estimates about future events that affect the reported amounts of assets, liabilities, revenue, expenses and the related disclosures. We base our assumption and estimate on historical experience and other factors that management believes are relevant at the time our financial statements are prepared. On a periodic basis, management reviews the accounting policies, assumptions and estimates to ensure that our financial statements are presented fairly and in accordance with GAAP. However, because future events and their effects cannot be determined with certainty, actual results could differ from the estimates and assumptions, and such differences could be material.

Cash and Cash Equivalents

The Company considers all highly liquid investments with the original maturities of three months or less to be cash equivalents. As of June 30, 2024 and June 30, 2023, the Company had a balance of \$4,132 and 18,710, respectively, in cash in the bank.

Loss per Common Share

The Company computes basic and diluted net loss per share amounts in accordance with ASC Topic 260, "Earnings per Share." Basic loss per share is computed by dividing net income (loss) available to common shareholders by the weighted average number of shares of common stock outstanding during the reporting period. Diluted loss per share reflects the potential dilution that could occur if convertible notes to issue common stock were converted resulting in the issuance of common stock that could share in the loss of the Company.

For the years ended June 30, 2024 and 2023, warrants and convertible notes payable were dilutive instruments.

	June 30, 2024	June 30, 2023
	(Shares)	(Shares)
Warrants	22,067,678	22,067,678
Convertible Notes Payable	12,833,400	12,833,400
Total	24,500,067	24,500,067

Stock-based compensation

The Company recognizes compensation expense for all stock-based compensation awards based on the grant-date fair value estimated in accordance with the provisions of ASC 718.

At the Company's discretion, the Company may choose to compensate the present director, as well as compensate future directors, with stock-based compensation. For the present, only expenses are reimbursed for the present director's participation on the board of directors.

Fair Value of Financial Instruments

ASC 820, Fair Value Measurements, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 describes three levels of inputs that may be used to measure fair value:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation.

If the inputs used to measure the financial assets and liabilities fall within more than one level described above, the categorization is based on the lowest level of input that is significant to the fair value measurement of the instrument.

Income Taxes

We record a provision for income taxes for the anticipated tax consequences of the reported results of operations using the asset and liability method. Under this method, we recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial reporting and tax basis of assets and liabilities, as well as for operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using the tax rates that are expected to apply to taxable income for the years in which those tax assets and liabilities are expected to be realized or settled. We record a valuation allowance to reduce our deferred tax assets to the net amount that we believe is more likely than not to be realized.

We recognize tax benefits from uncertain tax positions only if we believe that it is more likely than not that the tax position will be sustained on examination by the taxing authorities based on the technical merits of the position. Although we believe that we have adequately reserved for our uncertain tax positions, we can provide no assurance that the final tax outcome of these matters will not be materially different. We make adjustments to these reserves when facts and circumstances change, such as the closing of a tax audit or the refinement of an estimate. To the extent that the final tax outcome of these matters is different than the amounts recorded, such differences will affect the provision for income taxes in the period in which such determination is made and could have a material impact on our financial condition and operating results.

New Accounting Pronouncements, Recently Adopted Accounting Pronouncements

The Company considers all new pronouncements and management has determined that there have been no recently adopted or issued accounting standards that had or will have a material impact on its financial statements.

Property and Equipment

Property and equipment are carried at the lower of cost or net realizable value. All property and equipment with a cost of \$1,000 or greater are capitalized. Major betterments that extend the useful lives of assets are also capitalized. Normal maintenance and repairs are charged to expense as incurred. When assets are sold or otherwise disposed of, the cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is recognized in operations.

Property and equipment consist of a vehicle, which is depreciated on a straight-line basis over its expected useful life of 5 years.

Revenue Recognition

The Company follows Financial Accounting Standards Board (“FASB”), Accounting Standards Codification (“ASC”) Topic 606, Revenue from Contracts with Customers. Under ASC Topic 606, revenue is recognized when a customer obtains control of promised goods or services and is recognized in an amount that reflects the consideration that an entity expects to receive in exchange for those goods or services. In addition, the standard requires disclosure of the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The amount of revenue that is recorded reflects the consideration that the Company expects to receive in exchange for those goods. We apply the following five-step model in order to determine this amount: (i) identification of the promised goods in the contract; (ii) determination of whether the promised goods are performance obligations, including whether they are distinct in the context of the contract; (iii) measurement of the transaction price, including the constraint on variable consideration; (iv) allocation of the transaction price to the performance obligations; and (v) recognition of revenue when (or as) we satisfy each performance obligation. We only apply the five-step model to contracts when it is probable that we will collect the consideration to which we are entitled in exchange for the goods or services we transfer to our customer which primarily consists from the production of flyers, posters and printing images. Once a contract is determined to be within the scope of ASC Topic 606, at contract inception we review the contract to determine which performance obligations we must deliver and which of these performance obligations are distinct. We recognize as revenues the amount of the transaction price that is allocated to the respective performance obligation when the performance obligation is satisfied or as it is satisfied. Generally, our performance obligations are transferred to customers at a point in time, typically upon delivery.

Trade Accounts Receivable and Concentration Risk

The Company records accounts receivable at the invoiced amount and does not charge interest. The Company reviews the accounts receivable by amounts due from customers which are past due to identify specific customers with known disputes or collectability issues. In determining the amount of the reserve, the Company makes judgments about the creditworthiness of significant customers based on ongoing credit evaluations. The Company will also maintain a sales allowance to reserve for potential credits issued to customers. The Company will determine the amount of the reserve based on historical credits issued.

There was no provision for doubtful accounts recorded at June 30, 2024 and 2023. The Company recorded \$0 in bad debt expense for the years ended June 30, 2024 and 2023.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.
