4) Issuer's Business, Products and Services

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

The Company is a leading innovator in the construction industry, dedicated to delivering high-quality, affordable homes, custom homes, and commercial construction projects to customers throughout the US, including the Sunbelt states. The Company specializes in residential development, focused on creating vibrant communities with expert craftsmanship and sustainable practices.

As demographic forces, easing interest rates, and economic growth in the US Sunbelt region continue to drive residential home demand, Management is confident that its construction business will thrive in the years ahead. Market trends show that the next generation of home buyers are searching for affordable and sustainable homes. As such, the Company's residential developments, affordable housing, and build-to-rent properties provide value at multiple price points (see details below).

Additional services provided by the Company include renovation, outdoor living and pools, design and architecture, along with commercial buildings and other large projects, providing additional revenue streams in the Company's business model.

B. List any subsidiaries, parent company, or affiliated companies.

In May of 2021, the Company acquired two subsidiaries. Operations for both were transferred effective as of July 1, 2021, as follows:

- 1. SafeBus Technologies Inc. – Producer of student tracking and notification products. Company acquired 100% control*
- 2. Assembled Products, Inc. - Manufacturer and production plant for Company's products. Company acquired 100% control*

During the first quarter of 2021, the Company entered into binding agreements to acquire two private US companies engaged in businesses that complement and enhance the Company's current product and service offerings, which Management believed would accelerate revenue and earnings growth. Both of these purchases were completed during the Second quarter of 2021.

The Company purchased 100% of the assets of Assembled Products, Inc., a small manufacturing plant located Rogersville, Alabama, for a total of US \$ 2.6M in cash and stock. The Company has had an ongoing partnership with Assembled Products for several years, and heretofore has utilized them as the primary vendor in the manufacture of the Company's patented Kiddie Voice™ vehicle alarm systems, along with vehicle and industrial backup units. Of the purchase price, \$1.5M was designated for the purchase of the plant property.

The Company acquired 100% of SafeBus Technologies, Inc., a private Wyoming technology company headquartered in Atlanta, Georgia, for 80M restricted common shares and US \$560,000 cash. At the time, the Company began selling SafeBus Technologies' line of child safety products and services to its current customer base, with the goal of augmenting the Company's expansive product offering designed to protect children being transported on school buses and daycare vans.

ATWEC TECHNOLOGIES, INC
Notes to the Financial Statements
September 30,, 2024

Note 1 - Organization and Principal Activities

ATWEC Technologies, Inc., a Nevada c-corporation, originally incorporated on February 23, 1987, is publicly traded on the OTC Markets under the symbol 'ATWT'. ATWEC is a US-based technology company, with offices in Memphis, TN and manufacturing center in Rogersville, AL, which develops, markets, and sells a unique line of cutting-edge security devices, designed to protect the transportation of child students, while aiding administrators, and giving parents valuable "peace of mind". The Company has invested substantial resources towards the production and sale of its Kiddie Systems TM product line, being sold to schools, churches, and day care centers throughout North America. The Company has taken an active role in helping to pass sweeping statewide legislation designed to protect children, with states now mandating the Company's safety devices, and imposes fines and other penalties for organizations not in compliance. This development has caused a marked demand for the Company's products and services, with additional gains projected through 2022-23.

The unaudited financial statements included herein were prepared from the available records of the Company and adjusted for comparative purposes. These financial statements reflect all adjustments which, in the opinion of management, are necessary to provide the results of operations and financial position for the year ended September 30,, 2024. Significant adjustments may be required upon the financial statements being audited to be in conformity with Generally Accepted Accounting Principles of the United States of America.

Effective June 1, 2024, the Company entered into a Reverse Merger with The Birch Company, LLC, a developer of quality, affordable housing options with development projects in multiple states.

Note 2 - Going Concern

With the reverse merger effective June 1, 2024, the Company appears to be on the road to a profitable financial position and the prior concerns on Going Concern do not appear necessary at this time..

Note 3 - Summary of Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements are prepared in accordance with generally accepted accounting principles in the United States of America ("US GAAP"). The consolidated financial statements include the account of ATWEC Technologies, Inc. and all of its current lines of business, including Kiddie Systems™ products and services, alarm monitoring services, and other newly developed vehicle security.

Statement of Cash Flows

In accordance with Financial Accounting Standards Board ("FASB") guidance, cash flow from the Company's operations is calculated based upon the functional currency. As a result, amounts related to assets and liabilities reported on the statement of cash flows may not necessarily agree with changes in the corresponding balances on the balance sheet.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results when ultimately realized could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits in banks with maturities of three months or less, and all highly liquid investments which are unrestricted as to withdrawal or use, and which have original maturities of three months or less. Fair Value of Financial Instruments estimates fair values of cash, property and equipment, and due to stockholder, none of which are held for trading purposes, approximates their carrying value because of short-term maturity of these instruments or the stated interest rates are indicative of market interest rates.

Accounts Receivable

Accounts receivables are recorded at the invoice amount and do not bear interest. The Company extends unsecured credit to its customers in the ordinary course of business but mitigates the associated risks by performing credit checks and actively pursuing past due accounts. An allowance for doubtful accounts is established and determined based on managements' assessment of known requirements, aging of receivables, payment history, the customers current credit worthiness, and the economic environment. Recoveries of balances previously written off are also reflected in this allowance.

Concentrations of Credit Risk

Financial instruments that subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents. The Company maintains its cash and cash equivalents with high-quality institutions. Deposits held with banks may exceed the amount of insurance provided on such deposits. Generally, these deposits may be redeemed upon demand and therefore bear minimal risk.

Property, Plant and Equipment

Property, plant, and equipment are carried at cost. The cost of repairs and maintenance is expensed as incurred; major replacements and improvements are capitalized. When assets are retired or disposed of, the cost and accumulated depreciation are removed from the accounts, and any resulting gains or losses are included in income in the year of disposition.

The Company recognizes the depreciation of its property, plant, and equipment on a straight-line basis over the estimated useful lives of the assets based on their costs less 5% residual value. The useful lives for property, plant and equipment are estimated as follows:

Plant and machinery	7 - 10 years
Motor vehicles	3 to 5 years
Office equipment and furniture	5 to 10 years
Leasehold Improvements	5 to 10 years

Other Assets

The Company capitalizes the costs associated with obtaining patents, trademarks, or other intellectual property associated with its business. Such costs are amortized over the estimated useful life of such assets using the straight-line method, unless such useful life is deemed indefinite. Investments total \$1,740,000,, and include amounts invested in other stocks and directly into the purchase of Safeguard Alarm and Guard Services, a TN security corporation, whereby the Company acquired their assets including the firm's security alarm accounts, client list, marketing, TN licenses, goodwill, and accounts receivable. On May 28, 2021, two additional subsidiaries were added: SafeBus Technologies, Inc. and Assembled Products, Inc. The Company acquired 100% of control of each company and intends to begin operations effective July 1, 2021.

Goodwill

Goodwill is an accounting concept meaning the value of an entity over and above the value of its assets, or expressing the intangible but quantifiable 'prudent value' of an ongoing business beyond its assets resulting in part from the reputation of the Company with its customers. As is given herein, goodwill is defined as the value between the proposed purchase price of the Company and the sum of the fair net value of the net assets. If another company were to acquire the Company, that company must recognize goodwill as an asset in its financial statements and present it as a separate line item on its balance sheet. In this sense, goodwill serves as the balancing sum that allows one company to provide accounting information regarding its purchase of another firm for a price substantially different from its book value.

Intellectual Property

Intellectual Property is a broad categorical description for the set of intangibles owned and legally protected by a company from outside use or implementation without consent. Intellectual property can generally consist of patents, trade secrets, copyrights, trademarks, or ideas and content. The Company has obtained several informal valuations on the value of its product concepts and trademarks, along with its patent no. US 7,646,288 82 "Occupant Warning System for School or Day Care Bus and Van", which ensures that a driver and others will be alerted by a unique warning system that prevents children from being forgotten or left in vehicles. The Company has defined the value of the patent as a variable amount, increasing as the patent grows in value with the increased sales, and spreading acceptance and usage of its safety devices in North America, and this value has remained consistent since 2014, totaling \$1,552,690 as of 12/31/21. However, developments in 2022 questioned the valuations and all assets and related liabilities pertaining to the intellectual property were eliminated.

Income Taxes

The Company accounts for income tax under the provisions of Statements of Financial Accounting Standards No. 109, which requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the consolidated financial statements. Deferred income taxes are provided using the liability method. Under the liability method, deferred income taxes are recognized for all significant temporary differences between the tax and financial statement bases of assets and liabilities. In addition, the Company is required to record all deferred tax assets, including future tax benefits of capital losses carried forward, and to record a "valuation allowance" for any deferred tax assets where it is more likely than not that the asset will not be realized.

Note 4 - Accounts Receivable

The Company's accounts receivable at September 30,, 2024 and December 31, 2023 were \$ 48,185 and \$ 29,859, respectively.

Note 5 - Accrued Wages

Accrued wages are comprised of past salaries for all officers and directors of the Company, who have not been paid for prior services performed, for the Company's benefit. The Company has issued shares in prior years, so as to reduce this amount, and has been successful in maintaining a manageable amount owed. Although the Company has compensated its officers and directors with cash and stock payments since inception, its ongoing lack of sufficient working capital has often forced its key insiders to forego, or defer, substantial compensation, in the form of "accrued wages". As such, the Company's total Accrued Wages outstanding now totals \$80,969 and \$ 80,969 as September 30,, 2024 and December 31, 2023, respectively.

Note 6.- Notes Payable

As of September 30,, 2024 and December 31, 2023, Notes Payable are comprised of several key investors all owed money by the Company for investments given to the Company in prior fiscal years, when the Company, for a total amount outstanding of \$ 124,091 and \$ 124,091, at September 30,, 2024 and December 31, 2023, respectively. The Company entered into three-year promissory notes with these investors for the balances, with interest stated at 6% per annum. However, each investor has communicated that they will waive the interest on each note providing the amounts due will be converted to common stock in due course. As such, no interest has been accrued on the promissory notes.

As of September 30,, 2024 and December 31, 2023, Vendor Notes Payable are comprised of several key vendors or service providers owed money by the Company for products and services provided to the Company in prior fiscal years, when the Company felt it necessary to obtain these products and services during the normal course of business, for a total amount outstanding of \$ 19,750 and \$ 19,750, at September 30,, 2024 and December 31, 2023, respectively.

Note 8 - Investment in Other Companies

In May 2021, as referred to in Note 7, the majority of debt to vendors was eliminated through using the 3 (a) (10) process whereby a third party was provided 68 Million shares to independently sell in return for retiring the debt and provided capital to the Company. In turn, the Company used the funds to purchase two subsidiaries; Safebus (Atlanta, GA) for \$640,000 and an Assembly unit (Alabama) for a cash payment of \$1,100,000.

There is a current dispute with the Assembly unit from Alabama regarding the wording of their agreement, however, the Company believes that any misunderstanding will quickly be worked out.

Note 9 - Convertible Secured Promissory Notes

Between June 26, 2020, the Company issued twelve (12) convertible notes to EROP Capital, LLC. Below is a table of each individual note, its inception and maturity date, interest rate (all 8.00%), and the accrued interest.

Note 10. Common Stock Issuances

During the previous two fiscal years and through September 30,, 2024, the Company issued its common stock as follows:

On February 16, 2022, the Company issued 45,487,356 shares of common stock to reduce additional Convertible Debt owed.

On June 1, 2022, the Company issued 80,000,000 shares of common stock to SafeBus Technologies, Inc. to complete the terms of the acquisition (see Note 11).

On June 8, 2022, the Company issued 3,000,000 shares of common stock for a cash investment.

On July 15, 2022, the Company issued 10,000,000 shares of common stock for a consulting services rendered to the Company. On July 15, 2022, the Company issued 75,000,000 shares of common stock to an officer to reduce debt on the books.

On July 15, 2022, the Company issued 10,000,000 shares of common stock to a vendor to relieve debt.

On April 6, 2023, the Company issued 1,000,000 shares of common stock to a cash investor

Also on April 6, 2023, the Company issued 2,2380,952 shares shares of common stock to a cash investor

Also on April 6, 2023, the Company issued 1,000,000 shares of common stock for services rendered.

On July 1, 2024, the Company issued the following shares of common stock:

67,000,000 to reduce the accrued interest of the holder of the convertible notes.
60,000,000 to owners of the company that merged with the company on June 1, 2024
20,000,000 for services rendered to the Company

Note 11 - Stock Payable

On May 28, 2021, with respect to the purchase of SafeBus Technologies, Inc., the Company agreed to issue 80,000,000 shares of its Common Stock. On June 1, 2022, the stock was issued leaving the Company not owing any further stock payable.

Note 12 - Commitments and Contingencies

Capital and Lease Commitments

As of September 30, 2024, the Company has no significant capital and lease commitments outstanding.

Legal Proceedings

The Company is not currently involved in any litigation. There is no action, suit, proceeding, inquiry or investigation before or by any court, public board, government agency, self-regulatory organization or body pending, to the knowledge of the Company's Board of Directors.

Note 13 - Adjustments to the Books and Records

Due to the limited books and records currently maintained by the Company, it was necessary to use prior submitted reports available through OTC Markets. Unfortunately, many of these statements contained significant errors and omissions. To the extent possible, these statements have corrected the reporting, including restating past results.

Many years ago, Goodwill was recognized for the purchase of a subsidiary. Given the number of years the amount has been carried and not amortized, the Company has elected to write off the entire balance. Results of operations for the two subsidiaries purchased in May, 2021, have not been consolidated with these statements due to accounting issues regarding maintenance of the records.

NOTE 14- Subsequent Events

Management has evaluated subsequent events through the date the financial statements were available to be issued. Based on this evaluation, no additional material events were identified which require adjustment or disclosure in these financial statements.
