Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

Each share of common stock has the right to one vote per share on all matters voted on by the shareholders. The holders of common stock are entitled to receive dividends as declared by the Board of Directors out of funds legally available therefor. The holders of common stock have no preemptive or subscription rights and there are no redemption or sinking fund provisions applicable to the common stock.

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

Series A Preferred

Each share of Series A Preferred Stock is convertible into 1,500 shares of Common Stock and has voting rights equal to 1,500 shares of Common Stock.

Subsequent to 12/31/2022 and as of the date hereof, the Series A Preferred Stock has been exchanged for 10,000,000 shares of Series C Preferred Stock. Each share of the Series C Preferred Stock is convertible into 1,500 shares of Common Stock, subject to maximum conversion limitations, but has no voting rights.
Series B Preferred

Series B Preferred Stock accrue a dividend at the rate of 5% of the Series B Original Issue Price (\$10 per share) per annum. Such accrued and unpaid dividend shall be convertible into shares of Common Stock of the Company.

Each share of Series B Preferred Stock shall be convertible, at the option of the holder thereof, at any time and from time to time, and without the payment of additional consideration by the holder thereof, into that number of fully paid and nonassessable shares of Common Stock (whether whole or fractional) that have a Fair Market Value, in the aggregate, equal to the Series B Original Issue Price, as adjusted as provided herein. "Fair Market Value" shall mean as of any date of determination, 80% of the average closing price of a share of Common Stock on the principal exchange or market on which such shares are then trading for the 5 trading days immediately preceding such date. Therefore, to determine the number of shares issuable the Series B Original Issue Price, as adjusted, is divided by the Fair Market Value, the quotient being the number of shares of Common Stock issued upon conversion. For example, if the Series B Original Issue Price is \$10 and the Fair Market Value is \$.005, then $10.00/.005 = 2,000$ shares of Common stock would be issued.

Series C Preferred

The holders of the Series C Preferred Stock shall be entitled to any dividend that is payable to the holders of the Corporation's Common Stock. The Series C Preferred Stock will, with respect to dividend rights and rights upon liquidation, winding-up or dissolution, rank: (a) senior to the Corporation's Common Stock, \$0.001 par value per share ("Common Stock"); (b) senior with respect to any other series of Preferred Stock, as set forth in the

Certificate of Designations with respect to such Preferred Stock; and (c) junior to all existing and future indebtedness of the Corporation.

Except as provided by law or by the other provisions of the Articles of Incorporation or this designation, holders of Series C Preferred Stock shall have no voting rights.

Each share of Series C Preferred Stock shall be convertible, at the option of the holder thereof, at any time and from time to time, and without the payment of additional consideration by the holder thereof, into 1,500 (One Thousand Five Hundred) fully paid and nonassessable shares of Common Stock. The conversion right is subject to maximum conversion limitations of 4.9% of the total issued and outstanding shares of Company Common Stock, which may be waived on 61 days' notice, but in any case, may not exceed 9.999% of the total issued and outstanding shares of Company Common Stock.

Series D Preferred

The holder of the Series D Preferred is entitled to cast that number of votes on all matters presented for stockholder vote to the stockholders of the Corporation that when taking into account the votes entitled to be cast by the Series D Preferred stockholder is equal to seventy-five percent (75%) of the total shares authorized to vote on such matter(s) and such holder shall vote along with holders of the Corporation's Common Stock on such matters.

The Series D has no pre-emptive or conversion rights.

Series E Preferred

The holders of the Series E Preferred Stock shall be entitled to any dividend that is payable to the holders of the Corporation's Common Stock.

In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Corporation or Deemed Liquidation Event, each share of Series E Preferred Stock shall automatically be converted into shares of Common Stock at the then applicable conversion rate.

On any matter presented to the shareholders of the Corporation for their action or consideration at any meeting of shareholders of the Corporation (or by written consent of shareholders in lieu of meeting), each holder of outstanding shares of Series E Preferred Stock shall be entitled to cast the number of votes equal to the number of whole shares of Common Stock into which the shares of Series E Preferred Stock held by such holder are convertible.

Each share of Series E Preferred Stock shall be convertible, at the option of the holder thereof, at any time and from time to time, and without the payment of additional consideration by the holder thereof, into that number of fully paid and nonassessable shares of Common Stock (whether whole or fractional) equal to 0.05% of the total number of shares of Common Stock outstanding at the Conversion Time.

3. Describe any other material rights of common or preferred stockholders.

NA

4. Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.

NA

3) Issuance History

*The goal of this section is to provide disclosure with respect to each event that resulted in any changes to the total shares outstanding of any class of the issuer's securities **in the past two completed fiscal years and any subsequent interim period.***

CBD OF DENVER, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

Note 1- DESCRIPTION OF BUSINESS AND SUMMARY OF ACCOUNTING PRINCIPLES

CBD of Denver Inc. ("CBDD," "we," "our," or the "Company"), was formed as a corporation in the state of Nevada on March 2, 2007. On January 5, 2010 we filed a certificate of conversion from a non-Delaware corporation pursuant to Section 265 of the Delaware General Corporation Law. The Company has developed its own brand of CBD products and related social networking.

In January 2023, the Company acquired 100% equity ownership interest in Libra 9 GmbH, which is engaged in the business of selling certain products including the Magic Lappen and an anti-slip product. In May 2024, Axel Reinke, resigned as CEO and director of the Company and the Company began to begin the process of divesting Libra 9 GmbH.

In July 2023, the Company acquires Luxora Holding AG. Through Luxora the Company offers consulting services to participants in the legal cannabis markets. Luxora intends to lease fully equipped production units to newly authorized cannabis clubs in Germany and provide a range of paid consulting services regarding cultivation, legal and compliance aspects to the clubs.

Going Concern

The Company incurred net loss of \$123,565 and a profit of \$1,000,668 in the three months ended June 30, 2024 and 2023, respectively. As of June 30, 2024 and December 31, 2023, the Company had an accumulated deficit of \$5,249,791 and \$5,029,569, respectively. These factors raise a substantial doubt about the Company's ability to continue as a going concern. The Company plans to increase its income by strengthening its sales force, providing attractive sales incentive program, and increasing marketing and promotion activities. Management also intends to raise additional funds by way of a private or public offering, or by obtaining loans from banks or others. While the Company believes in the viability of its strategy to generate sufficient revenue and in its ability to raise additional funds on reasonable terms and conditions, there can be no assurances to that effect. The ability of the Company to continue as a going concern is dependent upon the Company's ability to further implement its business plan and generate sufficient revenue and its ability to raise additional funds by way of a public or private offering. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Income Taxes

The Company accounts for income taxes under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income and the reversal of deferred tax liabilities during the period in which related temporary differences become deductible. When appropriate, a valuation allowance is established to eliminate the Company's deferred tax assets if it is more likely than not that none of the deferred tax assets will be realized.

The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon settlement with the tax authorities. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs. The Company records interest related to unrecognized tax benefits in interest expense and penalties in income tax expense. The Company has determined that it had no significant uncertain tax positions requiring recognition or disclosure.

The Company accounts for income taxes in interim periods in accordance with FASB ASC 740-270, "Interim Reporting." The Company has determined an estimated annual effective tax rate. The rate will be revised, if necessary, as of the end of each successive interim period during the Company's fiscal year to its best current estimate. The estimated annual effective tax rate is applied to the year-to-date ordinary income (or loss) at the end of the interim period.

Note 1- DESCRIPTION OF BUSINESS AND SUMMARY OF ACCOUNTING PRINCIPLES (continued)

Revenue Recognition

Pursuant to ASC Topic 606, Revenue from Contracts with Customers, or ASC 606, the Company recognizes revenue upon transfer of control of goods, in an amount that reflects the consideration that is expected to be received in exchange for those goods. The Company does not allow for the return of products so does not establish an allowance for returns.

Topic 606 established that the Company recognize revenue using the following five-step model:

- Identification of the contract, or contracts, with a customer;
- Identification of the performance obligations in the contract;
- Determination of the transaction price;
- Allocation of the transaction price to the performance obligations in the contract; and
- Recognition of revenue when or as, the Company satisfies a performance obligation.

Revenue is recognized at the point in the time once the Company satisfies its performance obligation which occurs when title and possession of products have transitioned to the customer, typically upon delivery of the products.

Stock-Based Compensation

The Company accounts for share-based compensation awards in accordance with ASC 718, "Compensation – Stock Compensation". The cost of services received from employees and non-employees in exchange for awards of equity instruments is recognized in the consolidated statement of operations based on the estimated fair value of those awards on the grant date and amortized on a straight-line basis over the requisite service period or vesting period. The Company records forfeitures as they occur.

Earnings Per Share

Earnings per share is computed by dividing net income by the weighted-average number of shares outstanding. To the extent that outstanding securities are anti-dilutive, they are excluded from the calculation of diluted earnings per share.

Impairment of long-lived assets

The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to the future undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. No impairment of long-lived assets was recognized for the three months ended June 30, 2024 and 2023.

Foreign Currency Translation

The functional currency of our international subsidiaries is the local currency. We translate the financial statements of these subsidiaries to U.S. dollars using year-end rates of exchange for assets and liabilities, and average rates of exchange for revenue, costs, and expenses. Translation gains and losses are recorded in accumulated other comprehensive income as a component of stockholders' equity.

The exchange rates used to translate amounts in EUR into U.S. Dollars for the purposes of preparing the consolidated financial statements are as follows:

June 30, 2024	1CHF=1.1176 USD
The average exchange rate in the three months ended June 30, 2024	1CHF=1.0997 USD

Note 1- DESCRIPTION OF BUSINESS AND SUMMARY OF ACCOUNTING PRINCIPLES (continued)

Segments

Our chief operating decision-maker is our Chief Executive Officer who makes resource allocation decisions and assesses performance based on financial information presented on a consolidated basis. There are no segment managers who are held accountable by the chief operating decision-maker, or anyone else, for operations, operating results, and planning for levels or components below the consolidated unit level. Accordingly, we have determined that we have a single reportable segment and operating segment structure.

Leases

The Company follows ASC 842 and determines if an arrangement is a lease or contains a lease at inception. Operating leases are included in operating lease right-of-use (“ROU”) assets, and operating lease liabilities (current and non-current) in the Company’s consolidated balance sheets. Finance leases are included in property and equipment, and finance lease liabilities (current and non-current) in the Company’s consolidated balance sheets.

The Company has elected not to recognize lease assets and liabilities for leases with an initial term of 12 months or less.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to credit risk consist primarily of accounts and other receivables. The Company does not require collateral or other security to support these receivables. The Company conducts periodic reviews of the financial condition and payment practices of its customers to minimize collection risk on accounts receivable.

For the six months ended June 30, 2024 and 2023, one customer accounted for more than 10% of the Company’s total sales.

For the six months ended June 30, 2024 and 2023, one vendor accounted for more than 10% of the Company’s total purchase.

Fair Value of Measurements

The Company adopted FASB ASC 820 “Fair Value Measurements,” which defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Additionally, the inputs used to measure fair value are prioritized based on a three-level hierarchy. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

- Level 1:** Unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2:** Input other than quoted market prices that are observable, either directly or indirectly, and reasonably available. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the Company.
- Level 3:** Unobservable inputs. Unobservable inputs reflect the assumptions that the Company develops based on available information about what market participants would use in valuing the asset or liability.

An asset or liability’s level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Availability of observable inputs can vary and is affected by a variety of factors. The Company uses judgment in determining fair value of assets and liabilities, and Level 3 assets and liabilities involve greater judgment than Level 1 and Level 2 assets or liabilities.

As of the balance sheet date, the estimated fair values of the financial instruments approximated their fair values due to the short-term nature of these instruments.

Note 1- DESCRIPTION OF BUSINESS AND SUMMARY OF ACCOUNTING PRINCIPLES (continued)

Use of Estimates

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. On a continual basis, management reviews its estimates, utilizing currently available information, changes in facts and circumstances, historical experience, and reasonable assumptions. After such reviews, and if deemed appropriate, those estimates are adjusted accordingly. Actual results could differ from those estimates.

Research and Development Costs

Research and development costs relating to the development of new products and processes, including significant improvements and refinements to existing products, are expensed when incurred in accordance with the FASB ASC 730, "Research and Development." Research and development costs were immaterial for the three months ended June 30, 2024 and 2023.

Related Parties

The Company adopted FASB ASC 850, Related Party Disclosures, for the identification of related parties and disclosure of related party transactions.

Recent Accounting Pronouncements

In August 2020, the FASB issued ASU 2020-06, Debt - Debt with Conversion and Other Options (Subtopic 470- 20) and Derivatives and Hedging - Contracts in Entity's Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity's Own Equity ("ASU 2020-06"), which simplifies the accounting for certain financial instruments with characteristics of liabilities and equity. This ASU (1) simplifies the accounting for convertible debt instruments and convertible preferred stock by removing the existing guidance in ASC 470-20, Debt: Debt with Conversion and Other Options, that requires entities to account for beneficial conversion features and cash conversion features in equity, separately from the host convertible debt or preferred stock; (2) revises the scope exception from derivative accounting in ASC 815-40 for freestanding financial instruments and embedded features that are both indexed to the issuer's own stock and classified in stockholders' equity, by removing certain criteria required for equity classification; and (3) revises the guidance in ASC 260, Earnings Per Share, to require entities to calculate diluted earnings per share (EPS) for convertible instruments by using the if-converted method. In addition, entities must presume share settlement for purposes of calculating diluted EPS when an instrument may be settled in cash or shares. For SEC filers, excluding smaller reporting companies, ASU 2020-06 is effective for fiscal years beginning after December 15, 2021 including interim periods within those fiscal years. Early adoption is permitted, but no earlier than fiscal years beginning after December 15, 2020. For all other entities, ASU 2020-06 is effective for fiscal years beginning after December 15, 2023, including interim periods within those fiscal years. Entities should adopt the guidance as of the beginning of the fiscal year of adoption and cannot adopt the guidance in an interim reporting period. The Company is currently evaluating the impact that ASU 2020-06 may have on its financial statements and related disclosures.

In March 2023, the FASB issued ASU 2023-01, Lease (Topic 842): Common Control Arrangements, which clarifies the accounting for leasehold improvements associated with leases between entities under common control (hereinafter referred to as common control lease). ASU 2023-01 requires entities to amortize leasehold improvements associated with common control lease over the useful life to the common control group (regardless of the lease term) as long as the lessee controls the use of the underlying asset through a lease, and to account for any remaining leasehold improvements as a transfer between entities under common control through an adjustment to equity when the lessee no longer controls the underlying asset. This ASU will be effective for fiscal years beginning after December 15, 2023, including interim periods within those fiscal years. Early adoption is permitted for both interim and annual financial statements that have not yet been made available for issuance. An entity may apply ASU 2023-01 either prospectively or retrospectively. The Company is currently evaluating the impact that the adoption of ASU 2023-01 will have on its consolidated financial statement presentation and disclosures.

Note 2- DEBT

Notes payable - CBDD

Notes payable amounted to \$253,214 as of December 31, 2021. On February 7, 2020, the Company entered into an agreement with the note holder in which principal, interest and penalties totaling \$813,214.11 (the "Debt") would be exchanged for 1,000,000,000 (one billion) shares of the Company's common stock.
