# STAR8 Corporation NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

#### 1. Organization and Formation

The Issuer was originally formed in the State of Delaware on July 15, 1987. Also, in 1987 the Issuer merged with A.R.I. Inc., and changed its name to Advanced Recording Instruments Inc. In 1995, the Issuer again changed its name to Instrumental Enterprises. In 1997, the Issuer changed its name to Immunis Holding Corp and operated as such until 2010. On September 28, 2010, the Issuer acquired 100% of 1664914 Ontario Limited, affected a 1 for 100 reverse-split and changed its name to Star8 Corporation. Star8 is preparing to launch a smart mobile phone that is targeted at the pre-paid mobile phone market delivering an ultralow cost mobile email and messaging phone. The solution will be broadly marketed to the pre-paid consumer market giving the Company a large potential market from which to draw customers. The Issuer is currently completing a technology acquisition to assist in the development of its lost cost mobile email phone. The Issuer has also begun to seek out potential financing required to execute on the business plan.

On February 22, 2023 the Company acquired two subsidiaries (1) Caffe Lingo, Inc. (Delaware) and Impagliazzo Holdings Group, Inc. (Delaware). Both entities filed to do business in the State of Florida under the name of Cafe Domino FL01 LLC.

Cafe Domino is strategically positioned to capitalize on the financial strain experienced by consumers. Our company offers a remarkable product at a reasonable price, catering to the growing demand for high-quality coffee.

Our plan is to establish Cafe Domino as a leader in the coffee industry by embracing innovation and staying ahead of the market trends. To do this, we will take advantage of the current preferences of gourmet coffee enthusiasts while still maintaining affordable prices. One of the key strategies we will implement is expanding our reach into untapped markets.

#### Basis of Presentation

The accompanying condensed consolidated financial statements have been prepared by us, without audit. In the opinion of our management, all adjustments considered necessary for a fair presentation have been included. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. We believe that the disclosures provided are adequate to make the information presented not misleading.

#### 2. Going Concern

These financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities in the normal course of our business. As reflected in the accompanying financial statements, Star8 had an accumulated deficit of \$525,942 as of June 30, 2024. Also, as of December 31, 2023, we had limited liquid and capital resources. We are currently largely dependent upon obtaining sufficient short and long term financing in order to continue running and expanding our operations. The foregoing factors raise substantial doubt about our ability to continue as a going concern. Ultimately, our ability to continue as a going concern is dependent upon our ability to attract new sources of capital, exploit the growing telecom services market in order to attain a reasonable threshold of operating efficiency and achieve profitable operations. The financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern.

#### 3. Recent Accounting Pronouncements

- In January 2010, the FASB issued ASU No. 2010-06 regarding fair value measurements and disclosures and improvement in the disclosure about fair value measurements. This ASU requires additional disclosures regarding significant transfers in and out of Levels 1 and 2 of fair value measurements, including a description of the reasons for the transfers. Further, this ASU requires additional disclosures for the activity in Level 3 fair value measurements, requiring presentation of information about purchases, sales, issuances, and settlements in the reconciliation for fair value measurements. This ASU is effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. We are currently evaluating the impact of this ASU; however, we do not expect the adoption of this ASU to have a material impact on our consolidated financial statements.
- In February 2010, the FASB issued ASU No. 2010-09 regarding subsequent events and amendments to certain recognition and disclosure requirements. Under this ASU, a public company that is a SEC filer, as defined, is not required to disclose the date through which subsequent events have been evaluated. This ASU is effective upon the issuance of this ASU. The adoption of this ASU did not have a material impact on our consolidated financial statements. In April 2010, the FASB issued ASU No. 2010-18 regarding improving comparability by eliminating diversity in practice about the treatment of modifications of loans accounted for within pools under Subtopic 310-30 - Receivable - Loans and Debt Securities Acquired with Deteriorated Credit Quality ("Subtopic 310-30"). Furthermore, the amendments clarify guidance about maintaining the integrity of a pool as the unit of accounting for acquired loans with credit deterioration. Loans accounted for individually under Subtopic 310-30 continue to be subject to the troubled debt restructuring accounting provisions within Subtopic 310-40, Receivables— Troubled Debt Restructurings by Creditors. The amendments in this Update are effective for modifications of loans accounted for within pools under Subtopic 310-30 occurring in the first interim or annual period ending on or after July 15, 2010. The amendments are to be applied prospectively. Early adoption is permitted. We are currently evaluating the impact of this ASU; however, we do not expect the adoption of this ASU to have a material impact on our consolidated financial statements.
- In September 2009, in accordance with accounting pronouncements that applies to arrangements with multiple deliverables and provides another alternative for determining the selling price of deliverables. In addition, the residual method of allocating arrangement consideration is no longer permitted under this guidance. The guidance is effective for fiscal years beginning on or after July 15, 2010. We are currently evaluating the potential impact, if any, of the adoption of this guidance on our consolidated financial statements.
- In September 2009, in accordance with accounting pronouncements which removes non-software components of tangible products and certain software components of tangible products from the scope of existing software revenue guidance, resulting in the recognition of revenue similar to that for other tangible products. It also requires expanded qualitative and quantitative
  - disclosures. The guidance is effective for fiscal years beginning on or after June 15, 2010. We are currently evaluating the potential impact, if any, of the adoption of this guidance on our consolidated financial statements.
- In June 2009, in accordance with accounting pronouncements for determining whether an entity is a variable interest entity ("VIE") and requires an enterprise to perform an analysis to determine whether the enterprise's variable interest or interests give it a controlling financial interest in a VIE. Under this guidance, an enterprise has a controlling financial interest when it has a) the power to direct the activities of a VIE that most significantly impact the entity's economic performance and b) the obligation to absorb losses of the entity or the right to receive benefits from the entity that could potentially be significant to the VIE. The guidance also requires an enterprise to assess whether it has an implicit financial responsibility to ensure that a VIE operates as designed when determining whether it has power to direct the activities of the VIE that most significantly impact the entity's economic performance. The guidance also requires ongoing assessments of whether an enterprise is the primary beneficiary of a VIE, requires enhanced disclosures and eliminates the scope exclusion for qualifying special-purpose entities. The guidance is effective for fiscal years beginning after November 15, 2009. We are currently evaluating the potential impact, if any, of the adoption of this guidance on our consolidated financial statements. Management does not believe that there are any recently-issued, but not yet effective, accounting standards that could have a material effect on the

accompanying financial statements.
