Stock-Based Compensation

The Company accounts for its stock-based compensation based upon provisions in ASC Topic 718 *Compensation-Stock Compensation*. The Company utilizes the fair value of the stock issued as the measure of the value of services obtained to record the stock issued for compensation.

The Company regularly reviews long-lived assets for indicators of impairment. Management's judgments regarding the existence of impairment indicators are based on performance. Future events could cause management to conclude that impairment indicators exist and that the value of long-lived assets is impaired. The Company amortized these assets over their estimated useful lives beginning January 1, 2014, and revalued them at the December 31, 2020, merger. NOTE 3 - GOING CONCERN

The accompanying financial statements have been prepared assuming that the company will continue as a going concern. The Company commenced operations in the first quarter of 2003. Since inception, it has incurred losses and negative cash flows from operations. The Company has been dependent upon external financing, including private sales of securities and borrowings from its CEO to fund operations. The Company has reported operating loss of \$79,886 for the period ended September 30, 2024 and \$ 465,853 for the year ended December 31, 2023, from consolidated revenues of \$88,833 and \$159,893 from the respective periods. The Company has an inception to date accumulated deficit of \$8,304,955. Of the accumulated deficit, \$4,783,862 was for non-cash transaction wherein stock was issued for services, settlement of debt including interest, and the result of restructuring its subsidiaries. This raises doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might result from this uncertainty.

Management has substantially increased the Company's profitability and cash flow with the introduction in 2020 of its own branded high energy drink and the acquisition of its Italian subsidiaries and affiliate interests.

Management continues to seek additional debt or equity funding. There is no assurance that its efforts will be successful, or that the Company will be able to obtain additional debt or equity financing on terms acceptable to the Company. Failure to raise needed funds on satisfactory terms could have a material adverse impact on the Company's business, operating results or financial condition.

On July 17, 2023, the Company entered into a distribution agreement with Ferraro Foods, one of the country's largest specialty distributors of food and foodservice supplies to Italian restaurants and pizzerias in the eastern United States. The collaborative effort is expected to significantly expand the Company's distribution of its Dino Luzzi energy drink.

NOTE 4 – ACQUISITION AND CONSOLIDATION OF SUBSIDIARIES

On January 1, 2022, the Company executed a Gentleman's Agreement with Can International (Can) a private Company in Italy wherein the Company purchased a fifty-one percent (51%) interest in Can International. The Company completed the purchase with the payment of \$5,426 or 5,100 Euros.

The Company has consolidated the financial statements for the period ending September 30, 2024 and the year ended December 31, 2023 as follows:

NOTE 6 - PROVISION FOR INCOME TAXES

Deferred tax assets and liabilities are recorded based on the differences between the financial statement and tax bases of assets and liabilities and the tax rates in effect when these differences are expected to reverse.

In the Company's opinion, it is uncertain whether they will generate sufficient taxable income in the future to fully utilize the net deferred tax asset. Accordingly, a valuation allowance equal to the deferred tax asset has been recorded. The total deferred tax asset is \$1,770,520 which is calculated by multiplying a 22% estimated tax rate by the items making up the deferred tax account, the estimated NOL through September 30, 2023, is \$8,047,821.
