The Stock Purchase Agreement resulted in a change of control. On November 26, 2021, Mr. Chiang resigned all positions with the Company and Carlos Salgado was appointed as CEO and Chairman. During the period as of March 31, 2024 Necuh Callejo resigned from his position as a CFO of the Company.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Company's unaudited financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (U.S. GAAP), and pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC) and reflect all adjustments, consisting of normal recurring adjustments, which management believes are necessary to fairly present the financial position, results of operations and cash flows of the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of credit risk

Financial instruments which potentially subject the Company to concentration of credit risk consist of cash deposits and customer receivables. The Company maintains cash with various major financial institutions. The Company performs periodic evaluations of the relative credit standing of these institutions. To reduce risk, the Company performs credit evaluations of its customers and maintains reserves when necessary for potential credit losses.

Cash and cash equivalents

We consider all highly liquid securities with original maturities of three months or less when acquired to be cash equivalents. There were no cash equivalents as of December 31, 2022 and 2021.

Stock-based compensation

We account for equity-based transactions with employees and non-employees under the provisions of FASB ASC Topic 718, "Compensation – Stock Compensation" (Topic 718), which establishes that equity-based payments to employees and non-employees are recorded at the grant date the fair value of the equity instruments the entity is obligated to issue when the employees and non-employees have rendered the requisite service and satisfied any other conditions necessary to earn the right to benefit from the instruments. Topic 718 also states that observable market prices of identical or similar equity or liability instruments in active markets are the best evidence of fair value and, if available, should be used as the basis for the measurement for equity and liability instruments awarded in these share-based payment transactions. However, if observable market prices of identical or similar equity or liability instruments are not available, the fair value shall be estimated by using a valuation technique or model that complies with the measurement objective, as described in FASB ASC Topic 718.

Recent Accounting Pronouncements

The Company has implemented all applicable accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

NOTE 3 - GOING CONCERN

The accompanying unaudited financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has no revenue and has an accumulated deficit as of September 30, 2022. The Company requires capital for its contemplated operational and marketing activities. The Company's ability to raise additional capital through the future issuances of common stock is unknown. The obtainment of additional financing, the successful development of the Company's contemplated plan of operations, and its transition, ultimately, to the attainment of profitable operations are necessary for the Company to continue operations. These conditions and the ability to successfully resolve these factors raise substantial doubt about the Company's ability to continue as a going concern. The financial statements of the Company do not include any adjustments that may result from the outcome of these uncertainties.

NOTE 4 - RELATED PARTY TRANSACTIONS
