

Alternative Reporting Standard: Disclosure Guidelines for the Pink[®] Market

Federal and state securities laws require issuers to provide *current information* to the public markets. With a view to facilitating compliance with these laws, OTC Markets Group has created these Disclosure Guidelines (“Guidelines”)¹ that set forth the disclosure obligations that make up the “Alternative Reporting Standard” for Pink companies. Companies on the Pink Market that do not make disclosure directly to the SEC (via EDGAR), a banking regulator, or a non-U.S. regulatory authority may provide disclosure under our “Alternative Reporting Standard.” We use information provided by companies under these Guidelines to designate the appropriate tier in the Pink Market: Current Information or Limited Information.²

Pink Current Information Tier

To qualify for the Current Information Tier:

1. **Subscribe to the OTC Disclosure & News Service:** To submit an application, visit [Gateway](#) to sign in or create a new account. Allow OTC Markets Group 2-4 weeks to process your application and provide authorized user credentials to OTCIQ.

2. **Publish Initial Disclosure:** Upload the following documents through OTCIQ:

- Annual Report for the most recently completed fiscal year.
- All Quarterly Reports for the Current Fiscal Year.

Annual or Quarterly Reports are composed of:

- **Disclosure Statements:** Disclosure information pursuant to these Guidelines for the applicable period. Available as a fillable form beginning on page 4 of these Guidelines.
- **Financial Statements:** Qualifying Financial Statements in accordance with the Financial Statement Requirements specified in Item 9 of these Guidelines.

Qualifying Financial Statements include:

- Audit Letter, if audited
- Balance Sheet
- Statement of Income
- Statement of Cash Flows
- Statement of Retained Earnings (Statement of Changes in Stockholders’ Equity)
- Notes to Financial Statements

3. **Publish Attorney Letter:** If financial statements are not audited by a PCAOB registered firm, companies must retain U.S. counsel to review their disclosure and provide a letter to OTC Markets Group with respect to adequate current information by providing the following:

¹ These Guidelines have been designed to encompass the “current information” requirements under state and federal securities laws, such as Rules 10b-5 and 15c2-11 of the Securities Exchange Act of 1934 (“Exchange Act”) as well as Rule 144 of the Securities Act of 1933 (“Securities Act”), and state Blue Sky laws. However, these Guidelines have not been reviewed by the U.S. Securities and Exchange Commission or any state securities regulator. These Guidelines do not constitute legal advice, and OTC Markets Group makes no assurance that compliance with our disclosure requirements will satisfy any legal requirements. These Guidelines may be amended from time to time, in the sole and absolute discretion of OTC Markets Group, with or without notice.

² OTC Markets Group may require companies with securities designated as “Caveat Emptor” or other compliance flags to make additional disclosures to qualify for the Pink Current Information tier.

- **Attorney Letter Agreement:** The attorney for the company must submit a signed Attorney Letter Agreement according to the [Attorney Letter Agreement Instructions](#).
 - **Attorney Letter:** After the attorney reviews the company's disclosure, publish the "Attorney Letter With Respect to Current Information" through OTCIQ. Attorney Letters must be in accordance with the [Attorney Letter Guidelines](#).
4. **Verify Profile:** Verify the Company Profile through OTCIQ. This includes the complete list of current officers, directors, and service providers; outstanding shares; a business description; contact information; and the names of all company insiders and beneficial owners of 10% or more of the outstanding units or shares of any class of any equity security of the issuer.
 5. **OTC Markets Group Processing of Reports:** Allow OTC Markets Group to process the posted documents (typically three to five business days) and provide any comments. Companies will only be evaluated for Current Information once all required documentation has been submitted. A new Attorney Letter is required upon amendment of any referenced report.
 6. **Ongoing Requirements:** To qualify for Current Information on an ongoing basis, companies must:
 - Publish reports through OTCIQ on the following schedule:
 - Quarterly Report within **45 days** of the quarter end
 - Annual Report within **90 days** of the fiscal year end
 - Attorney Letter within **120 days** of the fiscal year end if financial statements are unaudited.
 - Maintain a Verified Profile. At least once every six months, review and verify the Company Profile through OTCIQ.
 - Maintain Transfer Agent Verified share data. If your transfer agent participates in the [Transfer Agent Verified Shares Program](#), then your securities must have current share data verified by the transfer agent.
 - Maintain an Active standing in the Company's State of Incorporation.

Pink Limited Information Tier

Companies that do not meet the requirements of the Pink Current Information tier set forth above may still qualify for the Pink Limited Information Tier by meeting the following minimum disclosure requirements.

1. **Annual Financial Statements:** Publish one set of Qualifying Annual Financial Statements which cover the past 2 completed fiscal years, provided the most recently completed fiscal year is within the past 16 months.
2. **Verified Profile:** The Company must verify the Company Profile through OTCIQ, including, but not limited to, a complete list of officers, directors, and service providers; outstanding shares; a business description; contact information; and the name of all company insiders. "Company Insiders" shall include the beneficial owner of 10% or more of the outstanding units or shares of any class of any equity security of the issuer.
3. **Ongoing Requirements:** To qualify for Limited Information on an ongoing basis, companies must:
 - Publish reports on the following schedule:
 - Annual Financial Statements as outlined in Item 9 within 120 days of the fiscal year end. Should a change in FYE occur, no more than 16 months may elapse from the fiscal year end of the prior Annual Financial Statement.
 - Review and Verify the Company's profile information through OTCIQ at least once every 12 months.
 - Maintain Transfer Agent Verified share data. If your transfer agent participates in the [Transfer Agent Verified Shares Program](#), then your securities must have current share data verified by the transfer agent.

Current Reporting of Material Corporate Events

In addition to the disclosure requirements above, all companies on the Pink market are expected to promptly release to the public any news or information regarding corporate events that may be material to the issuer and its securities (including adverse information). Persons with knowledge of such events are considered to be in possession of material nonpublic information and may not buy or sell the issuer's securities until or unless such information is made public. If not included in the issuer's previous public disclosure documents, or if the material events occurs after the publication of such disclosure documents, the issuer shall publicly disclose such events by disseminating a news release **within four (4) business days** following their occurrence and posting such news release through an Integrated Newswire or the OTC Disclosure & News Service.³

Material corporate events may include:

- Changes to the company's shell status. Please refer to our [FAQ on Shell Companies](#)
- Changes in control of issuer
- Departure of directors or principal officers; election of directors; appointment of principal officers
- Entry into or termination of a material definitive agreement or material agreement not made in the ordinary course of business
- Completion of an acquisition or disposition of assets, including but not limited to merger transactions
- Creation of a direct financial obligation or an obligation under an off-balance sheet arrangement of an issuer
- Triggering events that accelerate or increase a direct or contingent financial obligation including any default or acceleration of an obligation or an obligation under an off-balance sheet arrangement
- Costs associated with exit or disposal activities including material write-offs and restructuring; Material impairments
- Unregistered sales of equity securities
- Material modification to rights of security holders
- Changes in issuer's certifying accountant
- Non-reliance on previously issued financial statements or a related audit report or completed interim review
- Change in a company's fiscal year; Amendments to articles of incorporation or bylaws that were not previously disclosed in a proxy statement or other such disclosure statement.
- Amendments to the issuer's code of ethics, or waiver of a provision of the code of ethics
- Any changes to litigation the issuer may be involved in, or any new litigation surrounding the issuer
- Officer, director, or insider transactions in the issuer's securities
- Disclosure of investor relations, marketing, brand awareness, and stock promotion activities which might reasonably be expected to materially affect the market for its securities or otherwise deemed material by the issuer
- A company's bankruptcy or receivership
- Termination or reduction of a business relationship with a customer that constitutes a specified amount of the company's revenues
- Any material limitation, restriction, or prohibition, including the beginning and end of lock-out periods, regarding the company's employee benefits, retirement and stock ownership plan
- Earnings releases
- Other materially different information regarding key financial or operation trends from that set forth in periodic reports
- Other events the issuer determines to be material

³ "Integrated Newswire" shall mean a newswire service that is integrated with the OTC Disclosure & News Service and is included on OTC Markets Group's list of Integrated Newswires, as published on <https://www.otcmarkets.com/corporate-services/ir-tools-services>

Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

Each share of Common Stock entitles the beneficial owner to one vote on all matters on which stockholders are permitted to vote under Nevada law, including the election of directors. The stockholders of the corporation do not have a preemptive right to acquire the corporation's unissued shares except to the extent the articles of incorporation so provide. The Company's shares of Common Stock do not have cumulative voting rights. Dividends are paid at the discretion of the Board of Directors.

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

The Series B Super Voting Preferred stock is senior to all other classes of common stock. The beneficial owner of the Series B Super Voting Preferred stock shall vote on all matters subject to a vote of the stockholders; shall vote with the common stockholders; and shall be entitled to that number of votes equal to the total number of eligible votes of issued and outstanding common shares and all other securities, plus 100,000 votes. The intention of the corporation is that the beneficial owner of the Series B Voting Preferred stock shall have effective voting control of the corporation on a fully diluted basis.

3. Describe any other material rights of common or preferred stockholders.

The Series B Super Voting Preferred stock holder shall not receive dividends. Any amendment to the designated rights of the beneficial owner of the Series B Super Voting Preferred stock shall only occur with the consent of the beneficial owner.

4. Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.

None.

3) Issuance History

The goal of this section is to provide disclosure with respect to each event that resulted in any changes to the total shares outstanding of any class of the issuer's securities **in the past two completed fiscal years and any subsequent interim period**.

Disclosure under this item shall include, in chronological order, all offerings and issuances of securities, including debt convertible into equity securities, whether private or public, and all shares, or any other securities or options to acquire such securities, issued for services. Using the tabular format below, please describe these events.

4) Issuer’s Business, Products and Services

The purpose of this section is to provide a clear description of the issuer’s current operations. (Please ensure that these descriptions are updated on the Company’s Profile on www.otcmarkets.com).

A. Summarize the issuer’s business operations (If the issuer does not have current operations, state “no operations”)

Oicindra is a precious metals processing company that markets its proprietary methods to extract and leach precious metals from ore. Oicindra’s target market is precious metals mining operations. Oicindra’s proprietary process significantly improves on environmental hazards typically associated with processing ore to extract valuable precious metals significantly reducing the use of mercury by small- & medium-scale miners, and the use of cyanide by medium- & large-scale miners. Oicindra’s solution requires no chemicals to leach the precious metals from the ore. This translates into no pollution for precious metals processing operation managed by Oicindra.

B. List any subsidiaries, parent company, or affiliated companies.

None.

C. Describe the issuers’ principal products or services.

Oicindra markets its proprietary services, methods, and extraction services to mining operations seeking to extract and leach precious metals from ore. Oicindra’s target market is precious metals mining operations. Oicindra’s proprietary process significantly improves on environmental hazards typically associated with processing ore to extract valuable precious metals significantly reducing the use of mercury by small- & medium-scale miners, and the use of cyanide by medium- & large-scale miners. Oicindra’s solution requires no chemicals to leach the precious metals from the ore. This translates into ZERO POLLUTION for precious metals processing operation managed by Oicindra.

5) Issuer’s Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

The Company maintains its office and principal place of business at 1057 Whitney Ranch Drive, Suite 300, Henderson, NV 89014. The offices are rented on a month-to-month basis.

6) Officers, Directors, and Control Persons

Using the table below, please provide information, as of the period end date of this report, regarding any officers, or directors of the company, individuals or entities controlling more than 5% of any class of the issuers securities, or any person that performs a similar function, regardless of the number of shares they own. **If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity in the note section.**

Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer.

The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial shareholders.

Oicentra, Inc.

Notes to the Financial Statements

For the six months ended June 30, 2024, and 2023

NOTE 1 - ORGANIZATION AND OPERATIONS

Current Operations

Oicentra, Inc. (“ OICT ” or the “ Company “), a Nevada corporation, is a venture capital company that focuses on equity and debt financing.

Business Plan

Oicentra, Inc., formerly known as INSCOR, is a precious metals processing company that markets its proprietary methods to extract and leach precious metals from ore. Oicentra’s target market is precious metals mining operations. Oicentra’s proprietary process significantly improves on environmental hazards typically associated with processing ore to extract valuable precious metals significantly reducing the use of mercury by small- & medium-scale miners, and the use of cyanide by medium- & large-scale miners. Oicentra’s solution requires no chemicals to leach the precious metals from the ore. This translates into no pollution for precious metals processing operation managed by Oicentra.

Corporate Management

The Company is managed by Keith Mc Allister, who serves as OICT’s acting CEO, President, and Treasurer.

Corporate History

The Company was incorporated under the name Mobile Wireless Security, Inc. on May 5, 2003 in Nevada. The Company was a development stage company whose business focused on research & development and software solutions for providing software security to users of mobile communications devices. The Company’s research and development activities focused on (i) User authentication and configuration to require passwords or Personal Identification Numbers; (ii) Enabling two factor authentication for sensitive transactions; (iii) Download security; (iv) Anti-malware capability; (v) Installation of security updates; and (vi) Encryption of data.

On October 8, 2004, the Company amended its Articles of Incorporation to increase the number of authorized shares to 500,000,000 with a par value of \$0.0001 per share.

On October 26, 2004, the Company filed Articles of Merger with the Nevada Secretary of State’s office disclosing its merger with Advanced Definition Systems, Inc., a company whose business focused on the design of network systems architecture. This merger was not successful, and the Company continued with its research and development operations as a development stage company. During this time, the Company actively conducted operations and sought out mergers and acquisitions that would help finance operations and continue its business plans.

On November 24, 2004, the Company amended its Articles of Incorporation to decrease its issued and authorized stock via a reverse stock split in the ratio of 1 for 1,000 shares.

On November 14, 2005, the Company amended its Articles of Incorporation to decrease its issued and authorized stock via a reverse stock split in the ratio of 1 for 1,000 shares.

Due to the Company’s difficulty to further and finance its research and development activities after the unsuccessful merger with Advanced Definition Systems, Inc., the Company’s Board of Directors and President determined to explore other business opportunities.

In 2006 the Company was presented with opportunities for possible mergers with business entities in the oil and gas industries. The Company actively held investigations and conducted due diligence with a number of possible merger candidates, and coincidentally

held management meetings, board meetings and meetings of key shareholders holding a majority of the voting rights in the Company, regarding the Company changing business direction and plans and adopting a plan of operation focused on the oil and gas industry, specifically focusing on exploration and development.

These efforts led the Company to material acquisition negotiations and due diligence investigations in the oil and gas space. The Company filing an Amendment to its Articles of Incorporation on May 31, 2006 changing its name to Hightowers Petroleum Holdings, Inc. in anticipation of its merger with a group of privately held oil and gas assets. This transaction failed to close, but the Company determined to continue with its oil and gas planning based on the amount of time and effort devoted to the space for approximately two years. The Company amended its Articles of Incorporation on July 12, 2006 to change its name to International Oil and Gas Holdings Corp. Thereafter, the Company continued to try to leverage its research, development, networking and operational growth strategies to advance its oil and gas development ambitions.

On September 21, 2006, the Company amended its Articles of Incorporation to increase the number of its authorized shares to 1,000,000,000 with a par value of \$0.0001.

On October 11, 2006, the Company amended its Articles of Incorporation to decrease its issued and authorized stock via a reverse stock split in the ratio of 1 for 5 shares.

On May 14, 2008, amended its Articles of Incorporation to decrease its issued and authorized stock via a reverse stock split in the ratio of 1 for 10,000 shares.

During the period from July 12, 2006 to May 3, 2011, the Company remained in the development stage while attempting to enter the oil and gas industry. The Company attempted to attract partners, additional investors, mergers and acquisitions and joint ventures for the acquisition and/or exploration of oil and gas claims, and also explored options for also entering the oil and gas space to obtain related equipment for lease or sale necessary to extract, process and otherwise explore for oil and gas with unrelated third parties. The Company was ultimately unsuccessful in these start up efforts and in 2011 the Company determined to discontinue its development stage efforts in the oil and gas space in favor of a different opportunity presented by INSCOR, Inc.

INSCOR, Inc.'s business focused and specialized in providing significant funding solutions utilizing high cash-value life insurance contracts combined with low-cost financing. INSCOR's business plan was tailored to municipalities, other government entities and corporations, and offered its services to facilitate low-cost solutions to funding retiree and other employee benefits. In addition, INSCOR marketed a variation of the plan to affluent individuals as well.

In 2018 the Company returned to the mining industry and the Company intends to discover and acquire land leases on properties known to have gold deposits. Oicentra's target market is precious metals mining operations. Oicentra's proprietary process significantly improves on environmental hazards typically associated with processing ore to extract valuable precious metals significantly reducing the use of mercury by small- & medium-scale miners, and the use of cyanide by medium- & large-scale miners. Oicentra's solution requires no chemicals to leach the precious metals from the ore. This translates into no pollution for precious metals processing operation managed by Oicentra.

On September 13, 2021, the Company amended its Articles of Incorporation to increase its authorized shares to five billion common shares, par value \$0.0001, and designated a series of preferred shares entitled Series B Super Voting Preferred Stock.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for financial information.

Use of Estimates

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities

at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Specifically, such estimates were made by the Company for stock compensation expenses. Actual results could differ from those estimates.

Financial Instruments

Pursuant to ASC Topic 820, Fair Value Measurements, an entity is required to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. ASC 820 prioritizes the inputs into three levels that may be used to measure fair value:

- Level 1 applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.
- Level 2 applies to assets or liabilities for which there are inputs other than quoted prices that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.
- Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

Net Loss Per Share

Basic net loss per share is computed by dividing the net loss attributable to common stockholders by the weighted average number of shares of common stock outstanding during the period. Diluted loss per share gives the effect to all dilutive potential common shares outstanding during the period, including stock options, warrants and convertible instruments. Diluted net loss per share excludes all potentially issuable shares if their effect is anti-dilutive. Because the effect of the Company's dilutive securities is anti-dilutive, diluted net loss per share is the same as basic loss per share for the periods presented.

Recently Adopted Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect and that may impact its financial statements and does not believe that there are any other new pronouncements that have been issued that might have a material impact on its financial position or results of operations.

Income Taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets, including tax loss and credit carry forwards, and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Deferred income tax expense represents the change during the period in the deferred tax assets and deferred tax liabilities. The components of the deferred tax assets and liabilities are individually classified as current and non-current based on their characteristics. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

On December 18, 2019, the FASB issued ASU 2019-12 which modifies ASC 740 to simplify the accounting for income taxes. The ASU's amendments are based on changes that were suggested by stakeholders as part of the FASB's simplification initiative (i.e., the Board's effort to reduce the complexity of accounting standards while maintaining or enhancing the helpfulness of information provided to financial statement users).

ASC 740-10-25, "Accounting for Uncertainty in Income Taxes", is intended to clarify the accounting for uncertainty in income taxes recognized in a company's financial statements and prescribes the recognition and measurement of a tax position taken or expected to be taken in a tax return. ASC 740-10-25 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

Under ASC 740-10-25, evaluation of a tax position is a two-step process. The first step is to determine whether it is more-likely-than-not that a tax position will be sustained upon examination, including the resolution of any related appeals or litigation based on the technical merits of that position. The second step is to measure a tax position that meets the more-likely-than-not threshold to determine the amount of benefit to be recognized in the financial statements. A tax position is measured at the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement.

Tax positions that previously failed to meet the more-likely-than-not recognition threshold should be recognized in the first subsequent period in which the threshold is met. Previously recognized tax positions that no longer meet the more-likely-than-not criteria should be de-recognized in the first subsequent financial reporting period in which the threshold is no longer met.

Revenue Recognition

The Company recognizes revenues from the sales of oil and natural gas to its customers and presents them disaggregated on the Company's Consolidated Statements of Operations. The Company enters into contracts with customers to sell its oil and natural gas production. Revenue on these contracts is recognized in accordance with the five-step revenue recognition model prescribed in Accounting Standard Codification ("ASC") 606. Specifically, revenue is recognized when the Company's performance obligations under these contracts are satisfied, which generally occurs with the transfer of control of the oil and natural gas to the purchaser. Control is generally considered transferred when the following criteria are met: (i) transfer of physical custody, (ii) transfer of title, (iii) transfer of risk of loss and (iv) relinquishment of any repurchase rights or other similar rights. Given the nature of the products sold, revenue is recognized at a point in time based on the amount of consideration the Company expects to receive in accordance with the price specified in the contract. Consideration under the oil and natural gas marketing contracts is typically received from the purchaser one to two months after production.

NOTE 3 - GOING CONCERN

The accompanying financial statements have been prepared on a going concern basis which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As shown in the financial statements, the Company has incurred recurring net losses since its inception and has raised limited capital. The Company had net losses of \$180 and \$9,999,980 for the six months ended June 30, 2024, and June 30, 2023, respectively. The Company's accumulated deficit was \$115,305,167 and \$115,305,231 as of June 30, 2024, and December 31, 2023, respectively. These factors raise substantial doubt regarding the Company's ability to continue as a going concern. The financial statements do not include any adjustment relating to the recoverability and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. The Company is taking certain steps to provide the necessary capital to continue its operations. These steps include but are not limited to: 1) focus on our new business model and 2) raising equity or debt financing.

NOTE 4 – CASH AND CASH EQUIVALENTS

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. As of June 30, 2024, and December 31, 2023, the Company held cash and cash equivalents of \$84 and \$20, respectively.

NOTE 5 – PROPERTY, PLANT, AND EQUIPMENT

The Company had property, plant, and equipment, net, of \$94,900 and \$94,900 as of June 30, 2024, and December 31, 2023. The amount of \$94,900 as of June 30, 2024, consists of 40 acres of land located in Mohave County, Arizona.

NOTE 6 – ACCOUNTS PAYABLE

The Company had accounts payable outstanding of \$0 and \$0 as of June 30, 2024, and December 31, 2023.

NOTE 7 – PREFERRED STOCK

The Company is authorized to issue 1 share of Series B Super Voting Preferred Stock, with a par value of \$0.0001.

The Series B Super Voting Preferred stock is senior to all other classes of common stock. The beneficial owner of the Series B Super Voting Preferred stock shall vote on all matters subject to a vote of the stockholders; shall vote with the common stockholders; and shall be entitled to that number of votes equal to the total number of eligible votes of issued and outstanding common shares and all other securities, plus 100,000 votes. The intention of the corporation is that the beneficial owner of the Series B Voting Preferred stock shall have effective voting control of the corporation on a fully diluted basis.

The Series B Super Voting Preferred stockholder shall not receive dividends. Any amendment to the designated rights of the beneficial owner of the Series B Super Voting Preferred stock shall only occur with the consent of the beneficial owner.

On November 15, 2022, the Company issued 1 share of Series B Preferred Stock to its CEO Keith McAllister as officer compensation.

The Company had 1 share of Series B Preferred Stock issued and outstanding as of June 30, 2024, and December 31, 2023.

NOTE 8 – COMMON STOCK

The Company is authorized to issue 5,000,000,000 shares of Common Stock, with a par value of \$0.0001.

During the year ended December 31, 2022, the Company issued 25,799,998 shares of common stock in exchange for consulting services. The shares were valued based on the closing stock price on the date of grant which is the best evidence of fair value.

During the year ended December 31, 2023, the Company issued 2,000,000 shares of common stock, 1,000,000 each to two separate parties, which per management were exchanged for consulting services. The shares were valued at their close of \$5 per share per OTC Markets as of the date of issuance, June 6, 2023.

The Company had 449,131,998 and 449,131,998 common shares issued and outstanding as of June 30, 2024, and December 31, 2023, respectively.

NOTE 9 – COMMITMENTS AND CONTINGENCIES
