# Note 1 - Organization

Unique Global Innovative Solutions Corporation (the "Company") formerly Gourmet Provisions International Corporation was incorporated November 20, 2003. The Company's mission is to be a leading national franchiser. The Company has a store conversion strategy which targets existing pizza shops as potential franchisees. The Company will provide all franchisees with a customer call center, state-of-the-art point-of-sale system, economies of scale buying power and other services to potentially increase the new store's profit margins. The Company has wholly owned subsidiaries—Jose Madrid Salsa, PopsyCakes and Pizza Fusion.

The Company was a party to a reverse merger on February 9, 2006. The reverse merger was between Unique Global Innovative Solutions Corporation (formerly known as Gourmet Provisions International Corporation) and their wholly owned subsidiary Coastal Communications, Inc. Because of the reverse merger, all existing assets of Coastal Communications, Inc. have been removed from the financial statements. In addition, all the liabilities of Coastal Communications, Inc. were removed from the financial statements. As a result, the financial statements include the following: The balance sheet consists of the net remaining assets at historical cost after the reverse merger. The statement of operations includes only the income and expenses of Unique Global Innovative Solutions Corporation (formerly known as Gourmet Provisions International Corporation).

### Note 2 – Summary of Significant Accounting Policies

Management's Use of Estimates: The Company's consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these consolidated financial statements requires that the Company make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses and related disclosures. On an ongoing basis, the Company evaluates its estimates, including those related to revenue recognition, the fair value and useful lives of intangible assets, property and equipment, income taxes, and contingencies, among others. Actual results could differ from those estimates.

Revenue Recognition: One of the Company's business model is to sell franchise agreements to customers. The revenue from these sales are recorded when the agreement to purchase the franchise is executed by the customer. The Company also derives revenues from the sale of its food products consisting of salsa, pizza, restaurant food and candied pretzels.

## For the Nine Months Ended September 30, 2024 and 2023

# Note 2 - Summary of Significant Accounting Policies (continued)

Revenue is recorded when all the following have occurred: (1) persuasive evidence of an arrangement exists, (2) asset is transferred to the customer without further obligation, (3) the sales price to the customer is fixed or determinable, and (4) collectability is reasonably assured.

Cost of Sales: Cost of sales represents costs directly related to the production and third-party manufacturing of the Company's products.

Products sold are typically sold directly to the customer at the point of sale; costs associated with shipping and handling is shown as a component of cost of sales.

Basis of Presentation. The financial statements include the accounts of Unique Foods Corp and its wholly owned subsidiaries along with a variable interest entity in the California restaurant prepared in accordance with accounting principles generally accepted in the United States of America. The accrual basis is the basis of accounting used. All significant intercompany balances and transactions have been eliminated.

Risk and Uncertainties - The Company is subject to risks common to companies in the service industry, including, but not limited to, litigation, development of new technological innovations and dependence on key personnel.

Fair Value of Financial Assets and Financial Liabilities- The Company follows paragraph 825-10-50-10 of the FASB Accounting Standards Codification for disclosures about fair value of its financial instruments and paragraph 820-10-35-37 of the FASB Accounting Standards Codification ("Paragraph 820-10-35-37") to measure the fair value of its financial instruments. Paragraph 820-10-35-37 establishes a framework for measuring fair value in accounting principles generally accepted in the United States of America (U.S. GAAP) and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, Paragraph 820-10-35-37 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of fair value hierarchy defined by Paragraph 820-10-35-37 are described below:

## For the Nine Months Ended September 30, 2024 and 2023

# Note 2 - Summary of Significant Accounting Policies (continued)

Level Quoted market prices available in active markets for identical assets or liabilities as of the reporting date.

Level Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date.

Level Pricing inputs that are generally observable inputs and not corroborated by market data.

The carrying amounts of the Company's consolidated financial assets and liabilities, such as cash, accounts receivable, inventory, goodwill, accounts payable, accrued interest, derivative liabilities, notes payable and customer deposits approximate their fair values because of the short maturity of these instruments. The Company's bank note payable approximates the fair value of such an instrument based upon management's best estimate of interest rates that would be available to the Company for similar consolidated financial arrangement at September 30, 2024.

The Company does not have any assets or liabilities measured at fair value on a recurring or a non-recurring basis, consequently, the Company did not have any fair value adjustments for assets and liabilities measured at fair value at September 30, 2024, nor gains or losses are reported in the statement of operations that are attributable to the change in unrealized gains or losses relating to those assets and liabilities still held at the reporting date for the periods ended September 30, 2024 and 2023.

Cash and Cash Equivalents - For the purposes of the Consolidated Statements of Cash Flows, the Company considers highly liquid investments with an original maturity of years or less to be cash equivalents.

Impairment of Long-Lived Assets: The Company evaluates the recoverability of its fixed assets and other assets in accordance with section 360-10-15 of the FASB Accounting Standards Codification for disclosures about Impairment or Disposal of Long-Lived Assets. Disclosure requires recognition of impairment of long-lived assets in the event the net book value of such assets exceeds its expected cash flows. If so, it is impaired and is written down to fair value, which is determined based on either discounted future cash flows or appraised values. The Company adopted the statement on inception. No impairments of these types of assets were recognized during the periods ended September 30, 2024 and 2023.

# For the Nine Months Ended September 30, 2024 and 2023

# Note 2 - Summary of Significant Accounting Policies (continued)

Income Taxes: The Company accounts for income taxes under Section 740-10-30 of the FASB Accounting Standards Codification. Deferred income tax assets and liabilities are determined based upon differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the statements of operations in the period that includes the enactment date.

Fixed Assets: The Company's property and equipment consisting of building improvements, restaurant and office equipment, software, and furniture are stated at cost and depreciated over their estimated useful lives ranging from 5-7 years of the respective assets. Depreciation is computed using the straight-line method. Book depreciation for the periods ended September 30, 2024 and 2023is\$1,553 and \$1,553, respectively. Expenditures for maintenance and repairs are charged to expense as incurred.

Property and equipment are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Upon sale or retirement of property and equipment, the related cost and accumulated depreciation are removed from the accounts and any gain or loss is reflected in the statements of operations.

Advertising Costs - Advertising costs are expensed as incurred. The Company does not incur any direct-response advertising costs.

Income(Loss) Per Share - Net income(loss) per common share is computed pursuant to section 260-10-45 of the FASB Accounting Standards Codification. Basic net income(loss) per share is computed by dividing net income(loss) by the weighted average number of shares of common stock outstanding during the period. Diluted net income(loss) per share is computed by dividing net loss by the weighted average number of shares of common stock and potentially outstanding shares of common stock during each period. There were no potentially dilutive shares outstanding as of September 30, 2024 and 2023.

# For the Nine Months Ended September 30, 2024 and 2023

# Note 2 - Summary of Significant Accounting Policies (continued)

Inventory - Inventory, consisting of finished food products purchased, is located on the premises of our respective subsidiaries, and is stated at the lower of cost or market using the

first in first out method. No allowances were necessary at September 30, 2024. The Company periodically reviews historical sales activity to determine potentially obsolete items and evaluates the impact of any anticipated changes in future demand.

Share-Based Payments - The Company acquires nonmonetary assets including goods for its common stock. The goods are recorded at the fair value of the nonmonetary asset exchanged or at an independent quoted market price for items exchanged.

The Company accounts for stock-based compensation using the fair value method following the guidance set forth in section 718-10 of the FASB Accounting Standards Codification for disclosure about Stock-Based Compensation. This section requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exceptions). That cost will be recognized over the period during which an employee is required to provide service in exchange for the award- the requisite service period (usually the vesting period). No compensation cost is recognized for equity instruments for which employees do not render the requisite service.

Comprehensive Income (Loss) - The Company reports comprehensive income and its components following guidance set forth by section 220-10 of the FASB Accounting Standards Codification which establishes standards for the reporting and display of comprehensive income and its components in the consolidated financial statements. There were no items of comprehensive income (loss) applicable to the Company during the period covered in the consolidated financial statements.

Accounts Receivable and Allowance for Doubtful Accounts – We grant credit to customers based on an evaluation of their financial condition but most of our sales are immediately collected in cash at the point of sale. The estimate of the allowance for doubtful accounts, which is charged off to bad debt expense, is based on management's assessment of current economic conditions and historical collections experience.

As of September 30, 2024 and 2023, the Company did not have an allowance for doubtful accounts. For the periods ended September 30, 2024 and 2023 the Company had \$-0- in bad debt expense.

## For the Nine Months Ended September 30, 2024 and 2023

# Note 2 - Summary of Significant Accounting Policies (continued)

Pursuant to Section 850-10-20 the related parties include a. affiliates of the Company; b. Entities for which investments in their equity securities would be required, absent the election of the fair value option under the Fair Value Option Subsection of Section 825–10–15, to be accounted for by the equity method by the investing entity; c. trusts for the benefit of employees, such as pension and profit-sharing trusts that are managed by or under the trusteeship of management; d. principal owners of the Company; e. management of the Company; f. other parties with which the Company may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests; and g. Other parties that can significantly influence the management or operating policies of the transacting parties or that have an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests.

The consolidated financial statements shall include disclosures of material-related party transactions, other than compensation arrangements, expense allowances, and other similar items in the ordinary course of business. However, disclosure of transactions that are eliminated in the preparation of consolidated or combined financial statements is not required in those statements. The disclosures shall include: a. the nature of the relationship(s) involved; b. a description of the transactions, including transactions to which no amounts or nominal amounts were ascribed, for each of the periods for which income statements are presented, and such other information deemed necessary to an understanding of the effects of the transactions on the financial statements; c. the dollar amounts of transactions for each of the periods for which income statements are presented and the effects of any change in the method of establishing the terms from that used in the preceding period; and d. amounts due from or to related parties as of the date of each balance sheet presented and, if not otherwise apparent, the terms and manner of settlement.

Contingencies—The Company follows subtopic 450-20 of the FASB Accounting Standards Codification to report accounting for contingencies. Certain conditions may exist as of the date the consolidated financial statements are issued, which may result in a loss to the Company, but which will only be resolved when one or more future events occur or fail to occur. The Company assesses such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company or unasserted claims that may result in such proceedings, the Company evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein.

# For the Nine Months Ended September 30, 2024 and 2023

# Note 2 - Summary of Significant Accounting Policies (continued)

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Company's financial statements. If the assessment indicates that a potentially material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, and an estimate of the range of possible losses, if determinable and material, would be disclosed.

Loss contingencies considered remote are generally not disclosed unless they involve guarantees, in which case the guarantees would be disclosed. However, there is no assurance that such matters will not materially and adversely affect the Company's business, consolidated financial position, and consolidated results of operations or consolidated cash flows.

Principles of Consolidation – The consolidated financial statements include the estimated accounts of Jose Madrid Salsa and Pizza Fusion. All inter-company accounts and transactions have been eliminated in consolidation.

Recent Accounting Pronouncements - The Company has reviewed all recently issued, but not yet effective, accounting pronouncements and do not believe the future adoption of any such pronouncements may be expected to cause a material impact on its consolidated financial condition or the results of its operations.

### **FASB Accounting Standards Codification**

In August 2020, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2020-06, Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity's Own Equity (Subtopic 815-40) ("ASU 2020-06") to simplify accounting for certain financial instruments. ASU 2020-06 eliminates the current models that require separation of beneficial conversion and cash conversion features from convertible instruments and simplifies the derivative scope exception guidance pertaining to equity classification of contracts in an entity's own equity. The new standard also introduces additional disclosures for convertible debt and freestanding instruments that are indexed to and settled in an entity's own equity. ASU 2020-06 amends the diluted earnings per share guidance, including the requirement to use the if-converted method for all convertible instruments. ASU 2020-06 is effective January 1, 2022 and should be applied on a full or modified retrospective basis, with early adoption permitted beginning on January 1, 2021. The Company is currently assessing the impact, if any, that ASU 2020-06 would have on its financial position, results of operations or cash flows.

## For the Nine Months Ended September 30, 2024 and 2023

# Note 2 - Summary of Significant Accounting Policies (continued)

Other pronouncements issued by the FASB or other authoritative accounting standards groups with future effective dates are either not applicable or are not expected to be significant to the Company's financial position, results of operations or cash flows.

# **Stock Compensation**

In March 2016, the FASB issued ASU 2016-09, *Stock Compensation,* which is intended to simplify the accounting for share-based payment award transactions. The new standard will

modify several aspects of the accounting and reporting for employee share-based payments and related tax accounting impacts, including the presentation in the statements of operations and cash flows of certain tax benefits or deficiencies and employee tax withholdings, as well as the accounting for award forfeitures over the vesting period. The guidance is effective for fiscal years beginning after December 15, 2016, including interim periods within that year, and will

be adopted by the Company in the first year of fiscal 2018. The Company anticipates the new standard will not result in an increase in the number of shares used in the calculation of diluted

earnings per share and will not add volatility to the Company's effective tax rate and income tax expense due to its net operating loss carryforward. The magnitude of such impacts will depend in part on whether significant employee stock option exercises occur.

## **Subsequent Events**

(Included in Accounting Standards Codification ("ASC") 855 "Subsequent Events", previously SFAS No. 165 "Subsequent Events")

SFAS No. 165 established general standards of accounting for and disclosure of events that occur after the balance sheet date, but before the consolidated financial statements are issued or available to be issued ("subsequent events"). An entity is required to disclose the date through which subsequent events have been evaluated and the basis for that date. For public entities, this is the date the consolidated financial statements are issued. SFAS No. 165 does not apply to subsequent events or transactions that are within the scope of other GAAP and did not result in significant changes in the subsequent events reported by the Company. SFAS No. 165 became effective for interim or annual periods ending after September 15, 2009 and did not impact the Company's consolidated financial statements. The Company evaluated for subsequent events through the issuance date of the Company's consolidated financial statements. No recognized or non-recognized subsequent events were noted.

by Holder will be converted into Common Stock of the Company at a 50% discount to the lowest per share price quoted for the Company's Common Stock during the thirty (30) trading days immediately prior to but not including the Conversion Date.

In July and August 2023, the Company issued \$20,000 in Convertible Notes Payable. These Convertible Notes bear 12% interest per year and will be converted into Common Stock of the Company at a 30% discount to the lowest share price quoted for the Company's Common Stock during the ten (10) trading days immediately prior to but not including the Conversion Date. If, however, an Uplisting has not occurred on or prior to the Conversion Date, then the amount so converted by Holder will be converted into Common Stock of the Company at a 50% discount to the lowest per share price quoted for the Company's Common Stock during the thirty (30) trading days immediately prior to but not including the Conversion Date.

The balance outstanding of principal was \$285,000 and accrued interest was \$59,825on the Convertible Notes Payable as of September 30, 2024.

ASC Topic 815 ("ASC 815") requires that all derivative financial instruments be recorded on the balance sheet at fair value. Fair values for exchange traded securities and derivatives are

based on quoted market prices. Where market prices are not readily available, fair values are determined using market-based pricing models incorporating readily observable market data

and requiring judgment and estimates. The Company has evaluated the terms and conditions of the conversion features contained in the notes and warrants to determine whether they represent embedded or freestanding derivative instruments under the provisions of ASC 815.

The Company determined that the conversion features contained in the notes and warrants represent freestanding derivative instruments that meet the requirements for liability classification under ASC 815. As a result, the fair value of the derivative financial instruments in the notes and warrants is reflected in the Company's balance sheet as a liability. The fair value of the derivative financial instruments of the convertible notes and warrants was measured at the inception date of the notes and warrants and each subsequent balance sheet

date. Any changes in the fair value of the derivative financial instruments are recorded as non-operating, non-cash income or expense at each balance sheet date.

The Company valued the conversion features in its convertible notes using the Black-Scholes model. The Black-Scholes model values the embedded derivatives based on a risk-free rate of return ranging from 0.02% to 0.02%, grant dates at the beginning of the year, the term of convertible note, conversion prices is lesser of 1) \$0.015, or 2) 50% of stock bid price at date

# Note 7 - Going Concern and Uncertainty

The Company has suffered recurring losses from operations since inception. In addition, the Company has yet to generate an internal cash flow from its business operations. These factors raise substantial doubt as to the ability of the Company to continue as a going concern.

Management's plans about these matters encompass the following actions: 1) obtain funding from new investors to alleviate the Company's liquid working deficiency, and 2) implement a plan to generate sales. The Company's continued existence is dependent upon its ability to resolve it liquidity problems and increase profitability in its current business operations. However, the outcome of management's plans cannot be ascertained with any degree of certainty. The accompanying consolidated financial statements do not include any adjustments that might result from the outcome of these risks and uncertainties.
