<u>James F. DeSocio</u>, President & CEO of Intellinetics, stated, "Our strategy to accelerate our sales through strategic solutions partners, and continue to grow our subscription sales so that we are less reliant on one-time sales, is gaining traction. While our growth in Software as a Service was offset by the reduction in scope from our single largest monthly customer in Q3, our diversity in revenue sources and ability to absorb this impact is a testament to our minimal exposure to any single customer. We're also encouraged by our investors' continued support and commitment to see our strategy bear fruit."

DeSocio continued, "On August 14th, we were pleased to announce our partnership with

software publisher Software Unlimited, Inc. I'm happy to share that we've closed our first orders through this relationship. We anticipate more relationships with other segment leaders moving forward. These partnerships will be transformational for us; I am excited by the sheer potential. We're convinced our partnership strategies and focus on select niche markets will enable us to provide greater revenue consistency and higher growth."

Non-GAAP Financial Measure

Intellinetics uses non-GAAP Adjusted EBITDA as a supplemental measure of our performance that is not required by, or presented in accordance with, accounting principles generally accepted in the United States (GAAP).

A non-GAAP financial measure is a numerical measure of a company's financial performance that excludes or includes amounts so as to be different from the most directly comparable measure calculated and presented in accordance with GAAP in the statement of income, balance sheet or statement of cash flows of a company. Adjusted EBITDA is not a measurement of financial performance under GAAP and should not be considered as an alternative to net income, operating income, or any other performance measure derived in accordance with GAAP, or as an alternative to cash flow from operating activities or a measure of our liquidity. Intellinetics urges investors to review the reconciliation of non-

GAAP Adjusted EBITDA to the comparable GAAP Net Loss, which is included in this press release, and not to rely on any single financial measure to evaluate Intellinetics' financial performance.

We believe that Adjusted EBITDA is a useful performance measure and is used by us to facilitate a comparison of our operating performance on a consistent basis from period-to-period and to provide for a more complete understanding of factors and trends affecting our business than measures under GAAP can provide alone. We define "Adjusted EBITDA" as earnings before interest expense, any income taxes, depreciation and amortization expense, and other non-cash expenses such as share-based compensation, note conversion warrant expense and other financing related transaction costs.
