#### **Publicly Quoted or Traded Securities:**

The goal of this section is to provide a clear understanding of the share information for its publicly quoted or traded equity securities. Use the fields below to provide the information, as applicable, for all outstanding classes of securities that are publicly traded/quoted.

Trading symbol: <u>DUTV</u>

Exact title and class of securities outstanding: Common Stock with a par value \$0.001 per share

CUSIP: **25400G107** 

Par or stated value: 0.001

Total shares authorized: 7.000.000.000 as of date: May 31. 2024
Total shares outstanding: 4,980,118,129 as of date: May 31. 2024

Total number of shareholders of record: 625 as of date: May 31, 2024

Please provide the above-referenced information for all other publicly quoted or traded securities of the issuer. None

#### Other classes of authorized or outstanding equity securities that do not have a trading symbol:

The goal of this section is to provide a clear understanding of the share information for its other classes of authorized or outstanding equity securities (e.g., preferred shares that do not have a trading symbol). Use the fields below to provide the information, as applicable, for all other authorized or outstanding equity securities.

Exact title and class of the security: Series C Convertible Preferred Stock

CUSIP (if applicable): NA
Par or stated value: 0.001

Total shares authorized: 5,000,000,000 as of date: May 31, 2024 4,910,000,000 as of date: May 31, 2024

Total number of shareholders of record: NA

Please provide the above-referenced information for all other classes of authorized or outstanding equity securities.

#### <u>None</u>

#### Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

### <u>Holders of each Common stock share shall be entitled to one vote for each share of stock owned by the shareholder.</u>

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

Holders of each Series C Convertible Preferred stock share shall be entitled to vote ten times the number of votes that each shareholder of the Company's Common Stock is entitled to vote.

Holders of each Series C Convertible Preferred stock share shall vote together with the Common shareholders in one class. Holders of each Series C Convertible Preferred stock share shall have the right of conversion for each one share of said stock issued to one Common share.

3. Describe any other material rights of common or preferred stockholders.

#### None.

 Describe any material modifications to the rights of holders of the company's securities that have occurred over the reporting period covered by this report.
 None.

#### 3) Issuance History

The goal of this section is to provide disclosure with respect to each event that resulted in any changes to the total shares outstanding of any class of the issuer's securities in the past two completed fiscal years and any subsequent interim period.

Disclosure under this item shall include, in chronological order, all offerings and issuances of securities, including debt convertible into equity securities, whether private or public, and all shares, or any other securities or options to acquire such securities, issued for services. Using the tabular format below, please describe these events.

### A. Changes to the Number of Outstanding Shares for the two most recently completed fiscal years and any subsequent period.

Indicate by check mark whether there were any changes to the number of outstanding shares within the past two completed fiscal years:

No:  $\square$  Yes:  $\boxtimes$  (If yes, you must complete the table below)

Example: A company with a fiscal year end of December 31<sup>st</sup> 2023, in addressing this item for its Annual Report, would include any events that resulted in changes to any class of its outstanding shares from the period beginning on January 1, 2022 through December

Use the space below to provide any additional details, including footnotes to the table above:

<sup>1</sup>Shares placed into escrow in anticipation of equity exchange agreement that was consummated between DUTV and Feed Earth Now, LLC effective March 31, 2024. DUTV and Feed Earth Now, LLC, in concert with the equity exchange agreement, directed the escrow holder Jones & Haley, PC to cancel such shares in exchange for new issuances. Cancellation of the shares held in escrow was completed by the Transfer Agent on July 9, 2024.

#### **Promissory and Convertible Notes**

31, 2023 pursuant to the tabular format above.

Common: <u>4,980,118,129</u> Preferred: <u>4,910,000,000</u>

Indicate by check mark whether there are any outstanding promissory, convertible notes, convertible debentures, or any other debt instruments that may be converted into a class of the issuer's equity securities:

Use the space below to provide any additional details, including footnotes to the table above: None

#### 4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. Ensure that these descriptions are updated on the Company's Profile on <a href="https://www.OTCMarkets.com">www.OTCMarkets.com</a>.

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

DUTV primary focus is on green technologies, such as liquid microbial products, to replace traditional pollution-causing fertilizers while cleaning up lakes and rivers. The fully organic certified product can be made on-site with the company's Easy FEN module, located in distributed rural villages and cities. The company's patented Modular Energy Production Systems (MEPS) can create biofuels from waste trees causing forest fires, municipal garbage, and residual crop waste at distributed remote locations. All of this occurs while sequestering large amounts of carbon dioxide.

Additionally, the company sells and manufactures the modular Easy Nano Void product line, which utilizes a patented technology creating trillions of tiny gaseous bubbles per gallon of solution. This revolutionary product can quickly clean up algae-infested lakes and ponds, toxic industrial waste, revolutionize composting, and improve irrigation for crops such as fruits, vegetables, vineyards, and cannabis without costly membranes or filters.

The Company has also licensed a patented, world-changing technology to dramatically increase the output production of oil wells by 160% to 500%. The end goal of this technology is to provide all the transitional petroleum the world will ever need without drilling another oil well. The technology can also be utilized to quickly clean up oil spills.

Effective March 31, 2024, the Company signed a Stock Purchase Agreement with the Feed Earth Now, LLC ("FEN") a privately owned limited liability company organized in the state of Illinois, to acquire a majority interest (51%) in FEN, in exchange for common and preferred stock. In addition, the Company also acquired 81% interest in the Easy Energy

Systems Technologies, LLC ("EEST") and an 81% interest in Easy Modular Manufacturing, Inc. ("EMM") in exchange for common and preferred stock.

Easy Modular Manufacturing, Inc. is in the business of providing disruptive technologies into a number of industries with its largest portion of sales since its initial inception into the oil and gas industry. The system is a licensed and patented nano bubble technology that prior testing demonstrates will enable an oil well to near double its output capacity. It does this by pushing the extremely small nanometer sized nitrogen bubbles thousands of feet underground back into the far underground rock crevice's at the bottom of the oil well. In essence serving as an "underground nano meter sized oil and gas exploration system." All of these deployed Easy Nano Void Modular systems are connected via remote wireless system with all packets of data very tightly streamed back and forth wirelessly to a central location where all modules deployed can be monitored and enhanced in real time. Additionally, the same suite of technology has been found to dramatically increase the production of Cannabis. Easy Modular Manufacturing, Inc. has also been making sales into the industry.

As the prior business of DUTV incurred loss carry forward -and the current and planned future business of Easy Modular Manufacturing, Inc. combined with the technologies of Easy Energy Systems Technologies, LLC are all similar and encompass the same industries; it is the intent of the post-merger DUTV company to utilize the approximately \$12 million in DUTV loss carryforwards in the combined DUTV company going forward. This will serve to reduce DUTV income taxes going forward. The merger is not being done solely for tax purposes, but placing all of the various entities under the one publicly traded DUTV company will better enable the company to obtain financing to be able to provide the funds to bring its technology to the entire world. The use of the tax loss is merely a side benefit and not the primary reason for the merger.

B. List any subsidiaries, parent company, or affiliated companies.

#### **Subsidiaries:**

- 1- Feed Earth Now, LLC Majority Interest 51%
- 2- Easy Energy System Technologies, LLC Majority Interest 81%
- 3- Easy Energy Modular Manufacturing, Inc. Majority Interest 81%
- C. Describe the issuers' principal products or services.

The Company brought in new green technologies through subsidiary companies, and then manufacture, sell and service these modularized technologies under the DUTV public company umbrella.

#### 5) Issuer's Facilities

The goal of this section is to provide investors with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer. Describe the location of office space, data centers, principal plants, and other property of the issuer and describe the condition of the properties. Specify if the assets, properties, or facilities are owned or leased and the terms of their leases. If the issuer does not have complete ownership or control of the property, describe the limitations on the ownership.

40 Good Counsel Drive, Suite 200 Mankato, MN 56001

#### 6) All Officers, Directors, and Control Persons of the Company

Using the table below, please provide information, as of the period end date of this report, regarding all officers and directors of the company, or any person that performs a similar function, regardless of the number of shares they own.

In addition, list all individuals or entities controlling 5% or more of any class of the issuer's securities.

If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity. Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer.

The goal of this section is to provide investors with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial owners.

Provide the name of any other service provider(s) that **that assisted**, **advised**, **prepared**, **or provided information with respect to this disclosure statement**. This includes counsel, broker-dealer(s), advisor(s), consultant(s) or any entity/individual that provided assistance or services to the issuer during the reporting period.

Name: N/A

#### 9) Disclosure & Financial Information

A. This Disclosure Statement was prepared by (name of individual):

Name: <u>Mark Gaalswyk</u>

Title: Chief Executive Officer
Relationship to Issuer: Officer and Director

B. The following financial statements were prepared in accordance with:

☐ IFRS

☑ U.S. GAAP

C. The following financial statements were prepared by (name of individual):

Name: Sarah Ahmed

Title: Independent Accountant

Relationship to Issuer: Accountant

Describe the qualifications of the person or persons who prepared the financial statements: Master's in Accounting

& Finance

Provide the following qualifying financial statements:

- Audit letter, if audited;
- o Balance Sheet;
- Statement of Income;
- Statement of Cash Flows;
- Statement of Retained Earnings (Statement of Changes in Stockholders' Equity)
- Financial Notes

#### **Financial Statement Requirements:**

- Financial statements must be published together with this disclosure statement as one document.
- Financial statements must be "machine readable". Do not publish images/scans of financial statements.
- Financial statements must be presented with comparative financials against the prior FYE or period, as applicable.
- Financial statements must be prepared in accordance with U.S. GAAP or International Financial Reporting Standards (IFRS) but are not required to be audited.

#### 10) Issuer Certification

\_

<sup>&</sup>lt;sup>5</sup> The financial statements requested pursuant to this item must be prepared in accordance with US GAAP or IFRS and by persons with sufficient financial skills.

#### Principal Executive Officer:

The issuer shall include certifications by the chief executive officer and chief financial officer of the issuer (or any other persons with different titles but having the same responsibilities) in each Quarterly Report or Annual Report.

The certifications shall follow the format below:

#### I, Mark Gaalswyk certify that:

- 1. I have reviewed this Disclosure Statement for Digital Utilities Ventures, Inc;
- Based on my knowledge, this disclosure statement does not contain any untrue statement of a material fact or
  omit to state a material fact necessary to make the statements made, in light of the circumstances under
  which such statements were made, not misleading with respect to the period covered by this disclosure
  statement; and
- 3. Based on my knowledge, the financial statements, and other financial information included or incorporated by reference in this disclosure statement, fairly present in all material respects the financial condition, results of operations and cash flows of the issuer as of, and for, the periods presented in this disclosure statement.

#### September 13, 2024

/s/ Mark Gaalswyk - CEO/President/Secretary/Director (Digital Signatures should appear as "/s/ [OFFICER NAME]")

#### Principal Financial Officer:

#### I, Mark Gaalswyk certify that:

## DIGITAL UTILITIES VENTURES, INC. NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MAY 31. 2024

#### **Note 1 - Nature and Continuance of Operations**

#### **Organization**

Digital Utilities Ventures, Inc. (the Company) was incorporated under the laws of the State of Delaware on June 13, 1991. Presently, the Company' primary focus is on green technologies, such as liquid microbial products, to replace traditional pollution-causing fertilizers while cleaning up lakes and rivers. The fully organic certified product can be made on-site with the company's Easy FEN module, located in distributed rural villages and cities. The company's patented Modular Energy Production Systems (MEPS) can create biofuels from waste trees causing forest fires, municipal garbage, and residual crop waste at distributed remote locations. All of this occurs while sequestering large amounts of carbon dioxide.

Additionally, the company sells and manufactures the modular Easy Nano Void product line, which utilizes a patented technology creating trillions of tiny gaseous bubbles per gallon of solution. This revolutionary product can quickly clean up algae-infested lakes and ponds, toxic industrial waste, revolutionize composting, and improve irrigation for crops such as fruits, vegetables, vineyards, and cannabis without costly membranes or filters.

The Company has also licensed patented, world-changing technology to dramatically increase the output production of oil wells by 160% to 500%. The end goal of this technology is to provide all the transitional petroleum the world will ever need without drilling another oil well. The technology can also be utilized to quickly clean up oil spills.

Effective March 31, 2024, the Company signed a Stock Purchase Agreement with the Feed Earth Now, LLC (FEN) a privately owned limited liability company organized in the state of Illinois, to acquire a majority interest (51%), in exchange for common and preferred stock. In addition, the Company also acquired 81% interest in the Easy Energy Systems Technologies, LLC (EEST) and Easy Modular Manufacturing, Inc. in exchange for common and preferred stock.

Easy Modular Manufacturing is in the business of providing disruptive technologies into a number of industries with its largest portion of sales since its initial inception into the oil and gas industry. The system is a licensed and patented nano bubble technology that prior testing demonstrates will enable an oil well to near double its output capacity. It does this by pushing the extremely small nanometer sized nitrogen bubbles thousands of feet underground back into the far underground rock crevice's at the bottom of the oil well. In essence serving as an "underground nano meter sized oil and gas exploration system." All of these deployed Easy Nano Void Modular systems are connected via remote wireless system with all packets of data very tightly streamed back and forth wirelessly to a central location where all modules deployed can be monitored and enhanced in real time. Additionally, the same suite of technology has been found to dramatically increase the production of Cannabis. Easy Modular Manufacturing has also been making sales into the cannabis industry.

As the prior business of DUTV incurred loss carry forward and the current and planned future business of Easy Modular Manufacturing, Inc. combined with the technologies of Easy Energy Systems Technologies, LLC are all similar and encompass the same industries; it is the intent of the post-merger DUTV company to utilize the approximately \$12 million in DUTV loss carryforwards in the combined DUTV company going forward. This will serve to reduce DUTV income taxes going forward. The merger is not being done solely for tax purposes, but placing all of the various entities under the one publicly traded DUTV company will better enable the company to obtain financing to be able to provide the funds to bring its technology to the entire world. The use of the tax loss is merely a side benefit and NOT the primary reason for the merger

The company currently has both corporate offices and manufacturing facilities in Mankato, MN.

#### **Going Concern**

These consolidated financial statements have been prepared on a going concern basis. The Company's ability to continue as a going concern is dependent upon the ability of it to generate profitable operations in the future and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. The outcome of these matters cannot be predicted with any certainty at this time. These factors raise substantial doubt that the company will be able to continue as a going concern for a period of one year from the issuance of these financial statements. Management plans to continue to provide for its capital needs by the issuance of common stock and related party advances. These consolidated financial statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary should the Company be unable to continue as a going concern.

#### Note 2 - Summary of Significant Accounting Policies

#### **Principles of Consolidation and Basis of Presentation**

The consolidated financial statements include the accounts of the Company and its majority-owned subsidiaries, Feed Earth Now LLC. (FEN), Easy Energy Systems Technologies, LLC (EEST) and Easy Modular Manufacturing, Inc. (EMM) since March 31, 2024. The consolidated financial statements are presented on accrual basis in accordance with US GAAP and all significant intercompany transactions have been eliminated in consolidation. The Company adopted year-end is May 31.

#### **Use of Estimates**

The preparation of financial statements in accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. A change in managements' estimates or assumptions could have a material impact on the Company's financial condition and results of operations during the period in which such changes occurred.

Actual results could differ from those estimates.

#### **Impairment of Long-lived Assets**

The Company reviews long-lived assets for impairment when circumstances indicate the carrying amount of an asset may not be recoverable based on the undiscounted future cash flows of the asset. If the carrying amount of the asset is determined not to be recoverable, a write-down to fair value is recorded. Fair values are determined based on quoted market values, discounted cash flows, or external appraisals, as applicable. The Company reviews long-lived assets for impairment at the individual asset or the asset group level for which the lowest level of independent cash flows can be identified.

#### Basic and diluted earnings per share

Basic earnings per share are based on the weighted-average number of shares of common stock outstanding. Diluted Earnings per share is based on the weighted-average number of shares of common stock outstanding adjusted for the effects of common stock that may be issued as a result of the following types of potentially dilutive instruments:

- Warrants.
- Employee stock options, and
- Other equity awards, which include long-term incentive awards.

The FASB ASC Topic 260, Earnings per Share, requires the Company to include additional shares in the computation of earnings per share, assuming dilution. Diluted earnings per share assume that all diluted options were converted or exercised. Dilution is computed by applying the treasury stock method. Under this method, options are assumed to be exercised at the time of issuance, and as if funds obtained thereby were used to purchase common stock at the average market price during the period.

The Company has not issued warrants or entered into any agreements requiring the Company to do so at a future date. Therefore, dilutive, and basic losses per common share are equal.

#### **Revenue Recognition**

We recognize revenue when persuasive evidence of an arrangement exists, delivery has occurred or products have been sold, the purchase price is fixed or determinable and collectability is reasonably assured.

Our customers place orders for our products pursuant to their purchase orders and we are paid by our customers pursuant to our invoices. Each invoice calls for a fixed payment in a fixed period of time. We recognize revenue by selling our products under our customers' purchase orders and our related invoices to our customers. Revenue related to the sales of our products to our customers is recognized as the products are sold and amounts are paid, using the straight-line method over the term of the sales transaction. Prepayments, if any, received from customers prior to the products being delivered are recorded as advance from customers. In these cases, when the products are sold, the amount recorded as advance from customers is recognized as revenue.

#### **Income Taxes**

The Company uses the asset and liability method of accounting for income taxes in accordance with FASB ASC Topic 740. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the financial statements carrying amounts of existing assets and liabilities and loss carryforwards and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in

which those temporary differences are expected to be recovered or settled. The Company records a valuation allowance to reduce deferred tax assets to the amount that is believed more likely than not to be realized.

The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such positions are then measured based on the largest benefit that has a greater than 50% likelihood of being realized upon settlement.

#### **Fair Value of Financial Instruments**

The Company applies fair value accounting for all financial assets and liabilities and non-financial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. The Company defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities, which are required to be recorded at fair value, the Company considers the principal or most advantageous market in which the Company would transact and the market-based risk measurements or assumptions that market participants would use in pricing the asset or liability, such as risks inherent in valuation techniques, transfer restrictions and credit risk. Fair value is estimated by applying the following hierarchy, which prioritizes the inputs used to measure fair value into three levels and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Inputs that are generally unobservable and typically reflect management's estimate of assumptions that market participants would use in pricing the asset or liability.

The Company's valuation techniques were used to measure the fair value of money market funds and certain marketable equity securities were derived from quoted prices in active markets for identical assets or liabilities. The valuation techniques used to measure the fair value of all other financial instruments, all of which have counterparties with high credit ratings, were valued based on quoted market prices or model driven valuations using significant inputs derived from or corroborated by observable market data.

In accordance with the fair value accounting requirements, companies may choose to measure eligible financial instruments and certain other items at fair value. The Company has not elected the fair value option for any eligible financial instruments.

#### **Stock Based Compensation**

Share-based compensation issued to employees is measured at the grant date, based on the fair value of the award, and is recognized as an expense over the requisite service period. The Company measures the fair value of the share-based compensation issued to non-employees at the grant date using the stock price observed in the trading market (for stock transactions) or the fair value of the award (for non-stock transactions), which were more reliably determinable measures of fair value than the value of the services being rendered.

During the year ended May 31, 2024, 198,000,000 common shares were issued in stock-based compensation.

#### **Recent Accounting Pronouncements**

Recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the AICPA, and the SEC did not, or are not believed by management to, have a material impact on the Company's present or future financial statements.

#### **Property and Equipment**

Property and equipment are carried at cost. Expenditures for maintenance and repairs are charged against operations.

Renewals and betterments that materially extend the life of the assets are capitalized. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is reflected in income for the period.

Depreciation is computed for financial statement purposes on a straight-line basis over estimated useful lives of the related assets. The estimated useful lives of depreciable assets are:

|                        | Estimated Useful Life |
|------------------------|-----------------------|
| Furniture and Fixtures | 5-10 years            |
| Computer Equipment     | 2-5 years             |
| Vehicles               | 5-10 years            |

For federal income tax purposes, depreciation is computed under the modified accelerated cost recovery system. For audit purposes, depreciation is computed under the straight-line method. We have not purchased property or equipment since inception.

#### Intangible Assets

Intangible assets with finite lives are amortized over their estimated useful lives. Intangible assets with indefinite lives are not amortized but are tested for impairment annually or whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. No impairment was recognized for the year ended May 31, 2024, and the year ended May 31, 2023.

#### Goodwill

Good will is representing the excess of fair value of net assets acquired during the multiple business acquisition. Goodwill is tested annually at year end for impairment or more frequently if events or circumstances indicate that it is more likely than not that the fair value would be significantly less than its' carrying amount.

#### **Commitments and Contingencies**

The Company follows ASC 440 & ASC 450, subtopic 450-20 of the FASB Accounting Standards Codification to report accounting for contingencies and commitments respectively. Certain conditions may exist as of the date the financial statements are issued, which may result in a loss to the Company, but which will only be resolved when one or more future events occur or fail to occur.

The Company assesses such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company or un-asserted claims that may result in such proceedings, the Company evaluates the perceived merits of any legal proceedings or un-asserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein.

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Company's financial statements. If the assessment indicates that a potentially material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, and an estimate of the range of possible losses, if determinable and material, would be disclosed.

Loss contingencies considered remote are generally not disclosed unless they involve guarantees, in which case the guarantees would be disclosed. Management does not believe, based upon information available at this time, that these matters will have a material adverse effect on the Company's financial position, results of operations or cash flows. However, there is no assurance that such matters will not materially and adversely affect the Company's business, financial position, and results of operations or cash flows.

#### Note 3 – Business Acquisition

As on March 31, 2024, the Company entered into stock purchase agreement and acquired 81% interest of Easy Modular Manufacturing, Inc. (EMM) (a private entity) for 1,475,000,000 shares of Common Stock and 2,000,000,000 shares of Series "C" convertible Preferred Stock. Fair value of Common stock issued was \$0.0041 per share and of preferred share was \$0.001 per share. Net assets acquired at the time of acquisition were (\$239,876). Additionally, 103,657,500 shares of Common Stock and 140,243,902 shares of Series "C" convertible Preferred Stock in DUTV were issued and being held in escrow for exchange in 6 months for the related party debt. This acquisition resulted in the goodwill of \$10,871,881 as follows.

| Total Net Assets excluding goodwill | (238,876)  |
|-------------------------------------|------------|
| Goodwill                            | 10,871,888 |
| <b>Total Net Assets</b>             | 10,633,012 |
| Equity - Controlling                | 8,612,740  |
| Equity - NCI                        | 2,020,272  |
| Total Equity                        | 10,633,012 |

As on March 31, 2024, the Company entered into stock purchase agreement and acquired 81% interest of Easy Energy Systems Technologies, LLC. ("EEST") for 1,475,000,000 shares of Common Stock and 2,000,000,000 shares of Series "C" convertible Preferred Stock. Fair value of Common stock issued was \$0.0041 per share and of preferred share was \$0.001 per share. Net assets acquired at the time of acquisition were (\$29). Additionally, 321,342,500 shares of Common Stock and 434,756,098 shares of Series

"C" convertible Preferred Stock in DUTV were issued and being held in escrow for exchange in 6 months for the related party debt. This acquisition resulted in the goodwill of \$12,098,499 as follows.

| Total Net Assets excluding goodwill | (29)       |
|-------------------------------------|------------|
| Goodwill                            | 12,098,499 |
| <b>Total Net Assets</b>             | 12,098,470 |
| Equity - Controlling                | 9,799,760  |
| Equity - NCI                        | 2,298,709  |
| Total Equity                        | 12,098,470 |

Effective March 31, 2024 DUTV acquired 51% of Feed Earth Now. (FEN) for 100,000,000 shares of Common Stock and 140,000,000 shares of Series "C" convertible Preferred Stock. The fair value of Common stock was 0.0041 per share and of preferred share was 0.001 per share. Net assets acquired at the time of acquisition were 355,890. This acquisition resulted in the good will of \$1,212,738 as follows:

| Total Net Assets excluding goodwill | 355,890   |
|-------------------------------------|-----------|
| Goodwill                            | 1,212,738 |

Effective May 01, 2024, the Company did debt restructuring and as a result the Company recorded net loss on debt extinguishment of \$171,892. After debt restructuring, principal amount payable on these notes is \$4,133,798 while Interest accrued is \$19,252 as of May 31, 2024.

Related party payables are accumulated operating expenses paid by shareholders on behalf of the company. Balances outstanding are \$209,980 and \$264,656 as of May 31, 2024 and May 31, 2023 respectively.

#### **Note 6. Commitments and Contingencies**

No Commitments or Contingencies exist as on May 31, 2024 and May 31, 2023.

#### **Note 7. Income Taxes**

The Company has a net operating loss carried forward of approximately \$9,741,722 available to offset taxable income in future years which commence expiring in fiscal 2033. The Company is subject to United States federal and state income taxes at an approximate rate of 21%.

There was no income tax expense for the period ended May 31, 2024 and May 31, 2023. The reconciliation and the tax effects of temporary differences that give rise to significant portions of the net deferred tax assets at the U.S. statutory rate of 21% on May 31, 2024 and May 31, 2023 are as follows:

|                          | May 31, 2024      | May 31, 2023    |
|--------------------------|-------------------|-----------------|
| Deferred tax assets      |                   |                 |
| Net operating losses     | \$<br>(9,741,722) | \$ (10,580,648) |
| Deferred tax liability   |                   |                 |
| Net deferred tax assets  | 2,045,761         | 2,221,936       |
| Less valuation allowance | (2,045,761)       | (2,221,936)     |
|                          | \$<br>-           | \$ -            |

#### **Note 8– Subsequent Events**

In July 2024, the company signed a contract with Arrowhead Country Club, in Glendale, AZ. A course which is owned by Arcis Golf, one of the largest golf course companies in the USA with 62 golf courses nationwide. The contract was to provide Easy Nano Void Technology combined with Terreplenish liquid microbial technology to clean up a dirty, stinky algae infested pond. The pond had been a constant problem for many years and all other technologies tried by others previously failed. The surrounding houses together with the city had even filed criminal complaints with class action lawsuits threatened. The problem was all over the local Arizona news. The company needed a solution and as soon as possible.

DUTV with its subsidiary Easy Modular Manufacturing, Inc. successfully cleaned up the smell and algae from the problematic pond very quickly by utilizing the patented Easy Nano Void Technology combined with its proprietary fully organic Terreplenish liquid microbial beneficial bacteria. The company was paid for its services, but more importantly, the test has led to follow-on longer-term agreements with the Arcis for this one course. Assuming further success, the goal is to increase the use of the products nationwide at many of the other golf courses. The typical per course annual fee is about \$100,000 per year, which appears to cut in half the prior annual expenses for a golf course to maintain its fairways, greens and ponds. To the best of our knowledge, there is no other company providing this combination of products to either the golf or agricultural industries that can both be used as a non-petroleum based fully organic fertilizer, and also used to quickly clean up algae infested ponds, lakes and rivers. Traditional fertilization technologies often pollute lakes, rivers and ponds. All of this can be achieved while reducing rainfall or irrigation needs by up to 20%. Fertilizer polluted lakes and rivers could soon become a thing of the past if this combined technology is adapted nationwide.

In August of 2024, the company performed additional demonstration and testing of its combined Easy Nano Void and Terreplenish liquid microbial technology at a company in California with over 1 million tons of composting activities per year. The initial observed results hold the potential to eliminate a number of the problems found in the waste food and biomass composting industry. Assuming the results continue, it is expected to result in sizeable contracts with this large compost company before the end of calendar year 2024.

Lastly, the company is receiving strong interest from oil well service companies interested in utilizing the recently manufactured Easy Nano Void 450 to enhance the output production of oil wells. Initial tests performed over the past 6 months, by experienced oil industry partners, on 5 different oils well tests, have shown that oil well production could be increased by 150 to 500% by utilizing this licensed patented oil well production enhancement technology. The need to drill additional oil wells in the world to simply provide "transitional energy" could quickly become a thing of the past – if all existing oil wells simply increased their production utilizing this disruptive technology.

The Company evaluated all events or transactions that occurred after May 31, 2024 through September 12, 2024. The Company determined that it does not have any subsequent event other than those disclosed above requiring recording or disclosure in these financial statements.
