

Alternative Reporting Standard: Pink® Basic Disclosure Guidelines

Federal securities laws, such as Rules 10b-5 and 15c2-11 of the Securities Exchange Act of 1934 (“Exchange Act”) as well as Rule 144 of the Securities Act of 1933 (“Securities Act”), and state Blue Sky laws, require issuers to provide *current information* to the public markets. With a view to facilitating compliance with these laws, OTC Markets Group has created these Pink Basic Disclosure Guidelines (“Guidelines”).¹ These Guidelines set forth the disclosure obligations that make up the “Alternative Reporting Standard” for Pink companies. These Guidelines have been designed to encompass the “Catch All” information required in Rule 15c2-11,² however they have not been reviewed by the U.S. Securities and Exchange Commission or any state securities regulator. We use information provided by companies under these Guidelines to designate the appropriate tier in the Pink Market: Current Information or Limited Information.³

These Guidelines may be amended from time to time, in the sole and absolute discretion of OTC Markets Group, with or without notice. The information provided by companies under these Guidelines is subject to our [Privacy Policy](#).

Pink Current Information Tier

Companies that make the information described below publicly available on a timely basis may qualify for the Current Information Tier.

Qualification Process:

1. **Subscribe to the OTC Disclosure & News Service:** by submitting an application through [Gateway](#). Allow OTC Markets 2-4 weeks of application processing time.
2. **Upload Initial Disclosure:** Upload the following documents through OTCIQ:
 - **All Quarterly Reports** for Current Fiscal Year – must include Disclosure Statement and Financial Reports listed below
 - **Annual Report** for Most Recently Completed Fiscal Year– must include Disclosure Statement and Financial Reports listed below
 - **Annual Report** for Prior Completed Fiscal Year – must include Financial Reports listed below
 - **Disclosure Statements:** Disclosure information pursuant to these Guidelines for the applicable period. (see the fillable form starting on Page 4).
 - **Financial Statements:** Financial reports must be prepared according to U.S. GAAP or International Financial Reporting Standards (IFRS) but are not required to be audited. Required financial statements include:
 - Audit Letter, if audited
 - Balance Sheet
 - Statement of Income
 - Statement of Cash Flows
 - Statement of Retained Earnings (Statement of Changes in Stockholders’ Equity)

¹ This is not legal advice, and OTC Markets Group makes no assurance that compliance with our disclosure requirements will satisfy any legal requirements.

² Publication of information pursuant to these Guidelines does not guarantee or ensure that the Company will be designated as having “current information” or eligible for public quotations pursuant to Rule 15c2-11 or any other applicable regulation.

³ OTC Markets Group may require companies with securities designated as Caveat Emptor to make additional disclosures in order to qualify for the Pink Current Information tier.

- Notes to Financial Statements
3. **Attorney Letter** (only required if not providing audited financials): If financial statements are not audited by a PCAOB registered firm, companies must retain U.S. counsel to review their disclosure and provide a letter to OTC Markets Group with respect to adequate current information by providing the following:
 - **Attorney Letter Agreement**: The attorney must submit a signed Attorney Letter Agreement according to the [Attorney Letter Agreement Instructions](#). The attorney is required to submit an Attorney Letter Agreement for each company that engages the attorney for the purpose of providing this Letter.
 - **Attorney Letter**: After a qualified attorney reviews the Disclosure Statement, upload the “Attorney Letter With Respect to Current Information” in accordance with the [Attorney Letter Guidelines](#) through OTCIQ. Attorney Letters must reference all required reports as set forth in Section 2 above.
 4. **Verified Profile**: The Company must verify the Company Profile through OTCIQ, including, but not limited to, a complete list of officers, directors, and service providers; outstanding shares; a business description; contact information; and the name of all company insiders. Company insiders are defined as the beneficial owner of more than 10% of the outstanding units or shares of any class of any equity security of the issuer.
 5. **OTC Markets Group Processing of Disclosure**: Allow OTC Markets Group to process the posted documents (typically three to five business days) and provide any comments. Companies will only be evaluated for Current Information once all required documentation has been submitted. A new Attorney Letter is required upon amendment of any referenced report.
 6. **Ongoing Disclosure Requirements**: To qualify for Current Information on an ongoing basis, companies must:
 - Upload reports through OTCIQ on the following schedule:
 - Quarterly Report within **45 days** of the quarter end
 - Annual Report within **90 days** of the fiscal year end
 - Attorney Letter within **120 days** of the fiscal year end
 - Maintain a Verified Profile. At least once every six months, review and verify the Company’s profile information through OTCIQ.

Pink Limited Information Tier

Companies that make the information described below publicly available through OTCIQ may qualify for the Limited Information Tier.

7. **Annual Financial Statements**: Companies must upload the below financial statements for a completed Fiscal Year within the past 16 months. Financial reports must be prepared according to U.S. GAAP or International Financial Reporting Standards (IFRS) but are not required to be audited.
 - Audit Letter, if audited
 - Balance Sheet
 - Statement of Income
 - Statement of Cash Flows
 - Statement of Retained Earnings (Statement of Changes in Stockholders’ Equity)
 - Notes to Financial Statements
8. **Verified Profile**: The Company must verify the Company Profile through OTCIQ, including, but not limited to, a complete list of officers, directors, and service providers; outstanding shares; a business description; contact information; and the name of all company insiders. Company insiders are defined as the

beneficial owner of more than 10% of the outstanding units or shares of any class of any equity security of the issuer.

9. **Ongoing Disclosure Requirements:** To Qualify for Limited Information on an ongoing basis, companies must:

- Upload reports through OTCIQ on the following schedule:
 - Annual Report (including the required financial statements outlined in Item 8) within 120 days of the fiscal year end
- Review and Verify the Company's profile information through OTCIQ at least once every 12 months.

Current Reporting of Material Corporate Events

In addition to the disclosure requirements above, companies are expected to release quickly to the public any news or information regarding corporate events that may be material to the issuer and its securities (including adverse information). Persons with knowledge of such events are considered to be in possession of material nonpublic information and may not buy or sell the issuer's securities until or unless such information is made public. If not included in the issuer's previous public disclosure documents or if any of the following events occur after the publication of such disclosure documents, the issuer shall publicly disclose such events by disseminating a news release **within four (4) business days** following their occurrence and posting such news release through an Integrated Newswire or OTCIQ.⁴

Material corporate events include:

- Entry into or termination of a material definitive agreement
- Completion of an acquisition or disposition of assets, including but not limited to merger transactions
- Creation of a direct financial obligation or an obligation under an off-balance sheet arrangement of an issuer
- Triggering events that accelerate or increase a direct financial obligation or an obligation under an off-balance sheet arrangement
- Costs associated with exit or disposal activities
- Material impairments
- Sales of equity securities
- Material modification to rights of security holders
- Changes in issuer's certifying accountant
- Non-reliance on previously issued financial statements or a related audit report or completed interim review
- Changes in control of issuer
- Departure of directors or principal officers; election of directors; appointment of principal officers
- Amendments to articles of incorporation or bylaws; change in fiscal year
- Amendments to the issuer's code of ethics, or waiver of a provision of the code of ethics
- Any changes to litigation the issuer may be involved in, or any new litigation surrounding the issuer

⁴ "Integrated Newswire" shall mean a newswire service that is integrated with the OTC Disclosure & News Service and is included on OTC Markets Group's list of Integrated Newswires, as published on <https://www.otcmarkets.com/corporate-services/products/disclosure-and-news-service>

- Officer, director, or insider transactions in the issuer's securities
- Disclosure of investor relations, marketing, brand awareness, and stock promotion activities which might reasonably be expected to materially affect the market for its securities or otherwise deemed material by the issuer
- Changes to the company's shell status
- Other events the issuer determines to be material

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2024

NOTE 1 – ORGANIZATION

TransAKT Ltd. (the “Company”) was incorporated under the laws of the Province of Alberta on June 3, 1997. The Company completed the acquisition of Green Point Resources Inc. on October 18, 2000 whereby it became a publicly traded company listed on the Canadian Venture Exchange. In 2004 the Company voluntarily delisted from the TSX Venture Exchange and retained a listing on the Over the Counter Bulletin Board in the United States.

In October 2004 the Company purchased certain assets of IP Mental Inc., a Taiwan based Voice over Internet Protocol (VoIP) company. The company name was changed from TransAKT Corp. to TransAKT Ltd. on September 29, 2006. The Company designs and develops Voice over Internet Protocol (“VoIP”) solutions and mobile payment terminals for the consumer electronics industry.

On November 15, 2006 TransAKT Ltd and the shareholders of Taiwan Halee International Co. Ltd. (HTT), entered into a Share Exchange Agreement in which TransAKT Ltd. acquired 100% of Taiwan Halee International Co. Ltd.’s outstanding common stock. HTT was incorporated under the laws of Republic of China in 1985. HTT is engaged in designing, manufacturing and distribution of Taiwan telecommunications equipment. The acquisition has been accounted for as a reverse acquisition under the purchase method of accounting. Accordingly, the merger of the two companies has been recorded as a recapitalization of HTT, with HTT being treated as the continuing entity.

On August 12, 2010, the Company filed the Registration Statement (Form S-4) in connection with the continuation of the Company from Alberta to Nevada. Based upon the number of common shares of TransAKT Ltd., a Nevada corporation (“TransAKT Nevada”), to be issued to the shareholders of TransAKT Ltd., an Alberta corporation (“TransAKT Alberta”), on a one-for-one basis upon completion of the Continuation and based on 102,645,120 shares of common stock of TransAKT Ltd., an Alberta corporation, issued and outstanding as of August 12, 2010.

The Articles of Conversion of TransAKT Nevada provides that the authorized capital of the TransAKT will be 300,000,000 shares of common stock, par value \$0.001 per share and 200,000,000 shares of preferred stock, par value \$0.001 per share.

On July 26, 2012, the Company acquired 100% equity of Vegfab Agricultural Technology Co. Ltd. (the “Vegfab”), a company incorporated under the laws of the Republic of China (“ROC, Taiwan”). Vegfab is mainly engaged in selling agricultural equipment used to grow vegetables using simulated sunlight from LED lamps in hydroponic systems.

On January 4, 2013, the Company entered into a Share Purchase and Sale Agreement with a shareholder pursuant to which the Company sold to him 100% of all issued and outstanding securities of its wholly owned subsidiary Taiwan Halee International Corporation (“HTT”). In consideration of the sale of HTT, the shareholder has

transferred to the Company 45,000,000 previously issued common voting shares of TransAKT with a deemed value of \$0.04 per share or \$1.8 million in the aggregate.

On October 30, 2013, Million Talented Ltd., a related party 50% owned by the Company's president and director, contributed \$516 (equals to HKD 4,000) to obtain 40% ownership of TransAKT Bio Agritech Ltd., formerly named as TransAKT (H.K) Ltd., ("TransAKT H.K."). TransAKT H.K. was incorporated in Hong Kong on November 20, 2007. It had no operation until 2013. TransAKT H.K.'s primary business is conducting research and development on new agricultural technology relating to the Company's business.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements include the accounts of TransAKT (BVI) Limited and its wholly owned subsidiaries, TransAKT Bio Agritech Ltd., collectively referred to within as the Company. All material intercompany accounts, transactions, and profits have been eliminated in consolidation.

Going Concern

The Company has incurred a net loss of \$9,262 and \$9,202 during the six months ended June 30, 2024 and 2023, respectively, and has an accumulated deficit of \$22,795,539 and \$22,781,175 as of June 30, 2024 and June 30, 2023, respectively.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. This basis of accounting contemplates the recovery of the Company's assets and the satisfaction of liabilities in the normal course of business. This presentation presumes funds will be available to finance ongoing research and development, operations and capital expenditures and permit the realization of assets and the payment of liabilities in the normal course of operations for the foreseeable future.

The ability of the Company to continue research and development projects and realize the capitalized value of proprietary technologies and related assets is dependent upon future commercial success of the technologies and raising sufficient funds to continue research and development as well as to effectively market its products. Through December 31, 2022, the Company has not realized commercial success of the technologies, nor have they raised sufficient funds to continue research and development or to market its products.

There can be no assurances that there will be adequate financing available to the Company and the consolidated financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the outcome of this uncertainty.

The Company has taken certain restructuring steps to provide the necessary capital to continue its operations. These steps included: (1) Tightly budgeting and controlling all expenses; (2) The Company plans to continue actively seeking additional funding opportunities; (3) The company is seeking for other business opportunities to create sources of income.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States ("GAAP") requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition

Revenues are recognized when finished products are shipped to customers and both title and the risks and rewards of ownership are transferred and collectability is reasonably assured. The Company's revenues are recorded upon confirmed acceptance after inspection by the customers of the Company.

Exchange Gain (Loss):

During the years ended December 31, 2023 and June 30, 2024, the transactions of TransAKT Bio Agritech Ltd. were denominated in foreign currency and were recorded in Hong Kong Dollar (HKD) at the rates of exchange in effect when the transactions occur. Exchange gains and losses are recognized for the different foreign exchange rates applied when the foreign currency assets and liabilities are settled.

Translation Adjustment

The Company financial statements are presented in the U.S. dollar (\$), which is the Company's reporting currency, while its functional currency is Hong Kong Dollar (HKD). Transactions in foreign currencies are initially recorded at the functional currency rate ruling at the date of transaction. Any differences between the initially recorded amount and the settlement amount are recorded as a gain or loss on foreign currency transaction in the consolidated statements of income. Monetary assets and liabilities denominated in foreign currency are translated at the functional currency rate of exchange ruling at the balance sheet date. Any differences are taken to profit or loss as a gain or loss on foreign currency translation in the statements of income.

In accordance with ASC 830, Foreign Currency Matters, the Company translates the assets and liabilities into U.S. dollar (\$) using the rate of exchange prevailing at the balance sheet date and the statements of operations and cash flows are translated at an average rate during the reporting period. Adjustments resulting from the translation from HKD into U.S. dollar are recorded in stockholders' equity as part of accumulated other comprehensive income.

Comprehensive Income

Comprehensive income includes accumulated foreign currency translation gains and losses. The Company has reported the components of comprehensive income on its statements of stockholders' equity.

Advertising

Advertising expenses consist primarily of costs of promotion for corporate image and product marketing and costs of direct advertising. The Company expenses all advertising costs as incurred.

Income Taxes

The Company accounts for income taxes in accordance with ASC 740, Income Taxes, which requires that the Company recognize deferred tax liabilities and assets based on the differences between the financial statement carrying amounts and the tax basis of assets and liabilities, using enacted tax rates in effect in the years the differences are expected to reverse. Deferred income tax benefit (expense) results from the change in net deferred tax assets or deferred tax liabilities. A valuation allowance is recorded when, in the opinion of management, it is more likely than not that some or all of any deferred tax assets will not be realized.

Statement of Cash Flows

In accordance with generally accepted accounting principles (GAAP), cash flows from the Company's operations are based upon the local currencies. As a result, amounts related to assets and liabilities reported on the statement of cash flows will not necessarily agree with changes in the corresponding balances on the balance sheet.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk are accounts receivable and other receivables arising from its normal business activities. The Company has a diversified customer base. The Company controls credit risk related to accounts receivable through credit approvals, credit limits and monitoring procedures. The Company routinely assesses the financial strength of its customers and, based upon factors surrounding the credit risk, establishes an allowance, if required, for un-collectible accounts and, as a consequence, believes that its accounts receivable credit risk exposure beyond such allowance is limited.

Cash and Cash Equivalents

Cash and cash equivalents include cash in hand and cash in time deposits, certificates of deposit and all highly liquid debt instruments with original maturities of three months or less.

Fair Value of Financial Instruments

In the first quarter of fiscal year 2008, the Company adopted Accounting Standards Codification subtopic 820-10, Fair Value Measurements and Disclosures ("ASC 820-10"). ASC 820-10 defines fair value, establishes a framework for measuring fair value, and enhances fair value measurement disclosure. ASC 820-10 delays, until the first quarter of fiscal year 2009, the effective date for ASC 820-10 for all non-financial assets and non-financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). The adoption of ASC 820-10 did not have a material impact on the Company's financial position or operations.

Effective October 1, 2008, the Company adopted Accounting Standards Codification subtopic 820-10, Fair Value Measurements and Disclosures (“ASC 820-10”) and Accounting Standards Codification subtopic 825-10, Financial Instruments (“ASC 825-10”), which permits entities to choose to measure many financial instruments and certain other items at fair value. Neither of these statements had an impact on the Company’s unaudited condensed consolidated financial position, results of operations or cash flows. The carrying value of cash and cash equivalents, accounts payable and short-term borrowings, as reflected in the balance sheets, approximate fair value because of the short-term maturity of these instruments.

Stock-based Compensation

The Company records stock-based compensation expense pursuant to ASC 718-10, “*Share Based Payment Arrangement*,” which requires companies to measure compensation cost for stock-based employee compensation plans at fair value at the grant date and recognize the expense over the employee’s requisite service period. The Company’s expected volatility assumption is based on the historical volatility of Company’s stock or the expected volatility of similar entities. The expected life assumption is primarily based on historical exercise patterns and employee post-vesting termination behavior. The risk-free interest rate for the expected term of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

Stock-based compensation expense is recognized based on awards expected to vest, and there were no estimated forfeitures as the Company has a short history of issuing options. ASC 718-10 requires forfeitures to be estimated at the time of grant and revised in subsequent periods, if necessary, if actual forfeitures differ from those estimates.

Net Loss Per Share

The Company has adopted Accounting Standards Codification subtopic 260-10, Earnings Per Share (“ASC 260-10”) which specifies the computation, presentation and disclosure requirements of earnings per share information. Basic earnings per share have been calculated based upon the weighted average number of common shares outstanding. Common equivalent shares are excluded from the computation of the diluted loss per share if their effect would be anti-dilutive.

Intangible assets

Intangible assets include a patent. With the adoption of FASB ASC Topic 350, “Intangibles”, intangible assets with a definite life are amortized on a straight-line basis. The patent is being amortized over its estimated life of 10 years. Intangible assets with a definite life are tested for impairment whenever events or circumstances indicate that a carrying amount of an asset (asset group) may not be recoverable. An impairment loss would be recognized when the carrying amount of an asset exceeds the estimated undiscounted cash flows used in determining the fair value of the asset. The amount of the impairment loss to be recorded is calculated by the excess of the asset’s carrying value over its fair value. Fair value is generally determined using a discounted cash flow analysis. Costs related to internally develop intangible assets are expense as incurred.

Recent accounting pronouncements

The FASB issued an Accounting Standards Update (ASU) that helps organizations address certain stranded income tax effects in accumulated other comprehensive income (AOCI) resulting from the Tax Cuts and Jobs Act.

ASU No. 2018-02, Income Statement—Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income, provides financial statement preparers with an option to reclassify stranded tax effects within AOCI to retained earnings in each period in which the effect of the change in the U.S. federal corporate income tax rate in the Tax Cuts and Jobs Act (or portion thereof) is recorded.

The ASU requires financial statement preparers to disclose:

- A description of the accounting policy for releasing income tax effects from AOCI;
- Whether they elect to reclassify the stranded income tax effects from the Tax Cuts and Jobs Act; and
- Information about the other income tax effects that are reclassified.

The amendments affect any organization that is required to apply the provisions of Topic 220, Income Statement—Reporting Comprehensive Income, and has items of other comprehensive income for which the related tax effects are presented in other comprehensive income as required by GAAP.

The amendments are effective for all organizations for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Early adoption is permitted. Organizations should apply the proposed amendments either in the period of adoption or retrospectively to each period (or periods) in which the effect of the change in the U.S. federal corporate income tax rate in the Tax Cuts and Jobs Act is recognized.

The FASB has issued Accounting Standards Update (ASU) No. 2018-05, Income Taxes (Topic 740): Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 118. ASU 2018-05 amends certain SEC material in Topic 740 for the income tax accounting implications of the recently issued Tax Cuts and Jobs Act (Act).

ASU 2018-05 adds the following guidance, among other things, to the FASB Accounting Standards Codification™ regarding the Act:

- **Question 1:** If the accounting for certain income tax effects of the Act is not completed by the time a company issues its financial statements that include the reporting period in which the Act was enacted, what amounts should a company include in its financial statements for those income tax effects for which the accounting under Topic 740 is incomplete?

- **Answer 1:** In a company's financial statements that include the reporting period in which the Act was enacted, a company must first reflect the income tax effects of the Act in which the accounting under Topic 740 is complete. These completed amounts would not be provisional amounts. The company would then also report provisional amounts for those specific income tax effects of the Act for which the accounting under Topic 740 will be incomplete but a reasonable estimate can be determined. For any specific income tax effects of the Act for which a reasonable estimate cannot be determined, the company would not report provisional amounts and would continue to apply Topic 740 based on the provisions of the tax laws that were in effect immediately prior to the Act being enacted. For those income tax effects for which a company was not able to determine a reasonable estimate (such that no related provisional amount was reported for the reporting period in which the Act was enacted), the company would report provisional amounts in the first reporting period in which a reasonable estimate can be determined.

- **Question 2:** If an entity accounts for certain income tax effects of the Act under a measurement period approach, what disclosures should be provided?

- **Answer 2:** The staff believes an entity should include financial statement disclosures to provide information about the material financial reporting impacts of the Act for which the accounting under Topic 740 is incomplete, including:

a. Qualitative disclosures of the income tax effects of the Act for which the accounting is incomplete;

b. Disclosures of items reported as provisional amounts;

c. Disclosures of existing current or deferred tax amounts for which the income tax effects of the Act have not been completed;

- d. The reason why the initial accounting is incomplete;
- e. The additional information that is needed to be obtained, prepared, or analyzed in order to complete the accounting requirements under Topic 740;
- f. The nature and amount of any measurement period adjustments recognized during the reporting period;
- g. The effect of measurement period adjustments on the effective tax rate; and
- h. When the accounting for the income tax effects of the Act has been completed.

ASU 2018-05 is effective upon inclusion in the FASB Codification.

FASB Releases ASU No. 2018-09. The FASB has released Accounting Standards Update (ASU) No. 2018-09, Codification Improvements. ASU 2018-09 affects a wide variety of Topics in the Codification including:

- Amendments to Subtopic 220-10, Income Statement— Reporting Comprehensive Income—Overall. The guidance in paragraph 220-10-45-10B(b) states that taxes not payable in cash are required to be reported as a direct adjustment to paid-in capital. This requirement conflicts with other guidance in Topic 740, Income Taxes, Subtopic 805-740, Business Combinations—Income Taxes, and Subtopic 852-740, Reorganizations—Income Taxes, which generally states that income taxes and adjustments to those accounts upon a business combination or a bankruptcy that is eligible for fresh-start reporting must be recognized in income. ASU No. 2018-09 clarifies the guidance in paragraph 220-10-45-10B by removing the generic phrase taxes not payable in cash and adding guidance that is specific to certain quasi-reorganizations.
- Amendments to Subtopic 470-50, Debt—Modifications and Extinguishments. The guidance in paragraph 470-50-40-2 requires that the difference between the reacquisition price of debt and the net carrying amount of extinguished debt be recognized in income in the period of extinguishment. The guidance in that paragraph was not amended by FASB Statement No. 155, Accounting for Certain Hybrid Financial Instruments, or FASB Statement No. 159, The Fair Value Option for Financial Assets and Financial Liabilities; therefore, it does not specifically address extinguishments of debt when the fair value option is elected. ASU No. 2018-09 clarifies that:
 1. When the fair value option has been elected on debt that is extinguished, the net carrying amount of the extinguished debt equals its fair value at the reacquisition date, and
 2. Related gains or losses in other comprehensive income must be included in net income upon extinguishment of the debt.
- Amendments to Subtopic 480-10, Distinguishing Liabilities from Equity—Overall. The guidance in paragraph 480-10-25-15 prohibits the combination of freestanding financial instruments within the scope of Subtopic 480-10 with noncontrolling interest, unless the combination is required by Topic 815, Derivatives and Hedging. The example in paragraphs 480-10-55-55 and 480-10-55-59 conflicts with that guidance by stating that freestanding option contracts with the terms in Derivative 2 should be accounted for on a combined basis with the noncontrolling interest. The source of the example in paragraph 480-10-55-59 is from EITF Issue No. 00-4, “Majority Owner’s Accounting for a Transaction in the Shares of a Consolidated Subsidiary and a Derivative Indexed to the Noncontrolling Interest in That Subsidiary.” Issue 00-4 was nullified by FASB Statement No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity, but a conforming amendment to the example in paragraph 480-10-55-59 was not made to align it with the guidance in Statement 150. The amendment in this Update conforms the guidance in paragraphs 480-10-55-55 and 480-10-55-59 with the guidance in Statement 150.

- Amendments to Subtopic 718-740, Compensation—Stock Compensation—Income Taxes. The guidance in paragraph 718-740-35-2, as amended, is unclear on whether an entity should recognize excess tax benefits (or tax deficiencies) for compensation expense that is taken on the entity's tax return. The amendment to paragraph 718-740-35-2 in ASU No. 2018-09 clarifies that an entity should recognize excess tax benefits (that is, the difference in tax benefits between the deduction for tax purposes and the compensation cost recognized for financial statement reporting) in the period when the tax deduction for compensation expense is taken on the entity's tax return. This includes deductions that are taken on the entity's return in a different period from when the event that gives rise to the tax deduction occurs and the uncertainty about whether (1) the entity will receive a tax deduction and (2) the amount of the tax deduction is resolved.
- Amendments to Subtopic 805-740, Business Combinations— Income Taxes. The amendments to paragraph 805-740-25-13 removes a list of three methods for allocating the consolidated tax provision to an acquired entity after acquisition that is inconsistent with guidance in Topic 740. The three methods for tax allocation described in paragraph 805-740-25-13 do not follow the broad principles of being systematic, rational, and consistent with Topic 740. The amendment removes the allocation methods in paragraph 805-740-25-13 and conforms the guidance in Subtopic 805-740 with the guidance in Topic 740.
- Amendments to Subtopic 815-10, Derivatives and Hedging— Overall. The amendment to paragraphs 815-10-45-4 and 815-10-45-5 in ASU No. 2018-09 clarifies the circumstances in which derivatives may be offset. Under certain specific conditions, derivatives may be offset if three of the four criteria in paragraph 210-20-45-1 are met. One of the criteria—the intent to set off—is not required to offset derivative assets and liabilities for certain amounts arising from derivative instruments recognized at fair value and executed with the same counterparty under a master netting agreement.
- Amendments to Subtopic 820-10, Fair Value Measurement— Overall. The amendments to paragraph 820-10-35-16D in ASU No. 2018-09 clarify the Board's decisions about the measurement of the fair value of a liability or instrument classified in a reporting entity's shareholder's equity from the perspective of a market participant that holds an identical item as an asset at the measurement date. A technical inquiry questioned how transfer restrictions embedded in an asset should affect the fair value of the corresponding liability or equity instrument from the perspective of the issuer. The amendments correct the wording of paragraph 820-10-35-16D to clarify how an entity should account for those restrictions. The amendments are not intended to substantively change the application of GAAP. However, it is possible that the amendments may result in a change to existing practice for some entities.

The amendments to paragraphs 820-10-35-18D through 35-18F and 820-10-35- 18H through 35-18L revise the current guidance to allow portfolios of financial instruments and nonfinancial instruments accounted for as derivatives in accordance with Topic 815 to use the portfolio exception to valuation. The amendments improve guidance by adding wording that explicitly states that a group of financial assets, financial liabilities, nonfinancial items accounted for as derivatives in accordance with Topic 815, or a combination of these items that otherwise meet the criteria to do so are permitted to apply the portfolio exception for measuring fair value of the group. This allows entities to measure fair value on a net basis for those portfolios in which financial assets and financial liabilities and nonfinancial instruments are managed and valued together.

- Amendments to Subtopic 940-405, Financial Services—Brokers and Dealers—Liabilities. Paragraph 940-405-55-1 contains incomplete guidance about offsetting on the balance sheet. The current guidance focuses only on explicit settlement dates as a determining criterion for offsetting when, in fact, an entity should consider all the requirements in Section 210-20-45, Balance Sheet—Offsetting—Other Presentation Matters, to determine whether a right of offset exists. There is similar guidance in paragraph 942-210-45-3. Paragraphs 940-405-55-1 and 942-210-45-3 originated from two different AICPA Audit and Accounting Guides and paraphrase the guidance in Subtopic 210-20, albeit each slightly differently. The Board decided to amend both paragraphs so that the industry Topic guidance refers to the complete guidance for offsetting.
- Amendments to Subtopic 962-325, Plan Accounting—Defined Contribution Pension Plans—Investments—Other. The amendment to Subtopic 962-325 removes the stable value common collective trust fund from the illustrative example in paragraph 962-325-55-17 to avoid the interpretation that such an investment would never have a readily determinable fair value and, therefore, would always use the net asset value per share practical expedient. Rather, a plan should evaluate whether a readily determinable fair value exists to determine whether those investments may qualify for the practical expedient to measure at net asset value in accordance with Topic 820.

Transition and Effective Date. The transition and effective date guidance is based on the facts and circumstances of each amendment. Some of the amendments in ASU No. 2018-09 do not require transition guidance and will be effective upon issuance of ASU No. 2018-09. However, many of the amendments do have transition guidance with effective dates for annual periods beginning after December 15, 2018, for public business entities.

In addition, there are some conforming amendments in ASU No. 2018-09 that have been made to recently issued guidance that is not yet effective that may require application of the transition and effective date guidance in the original ASU. For example, there are conforming amendments to Topic 820 and Subtopic 944-310, Financial Services—Insurance—Receivables, that are related to the amendments in Accounting Standards Update No. 2016-01, Financial Instruments—Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities, which require application of the transition and effective date guidance in that ASU.

The FASB has issued Accounting Standards Update (ASU) No. 2018-17, Consolidation (Topic 810): Targeted Improvements to Related Party Guidance for Variable Interest Entities, that reduces the cost and complexity of financial reporting associated with consolidation of variable interest entities (VIEs). A VIE is an organization in which consolidation is not based on a majority of voting rights.

The new guidance supersedes the private company alternative for common control leasing arrangements issued in 2014 and expands it to all qualifying common control arrangements.

Under the new standard, a private company could make an accounting policy election to not apply VIE guidance to legal entities under common control (including common control leasing arrangements) when certain criteria are met. This accounting policy election must be applied by a private company to all current and future legal entities under common control that meet the criteria for applying the alternative. A private company will be required to continue to apply other consolidation guidance, specifically the voting interest entity guidance.

Additionally, a private company electing the alternative is required to provide detailed disclosures about its involvement with, and exposure to, the legal entity under common control.

The ASU also amends the guidance for determining whether a decision-making fee is a variable interest. The amendments require organizations to consider indirect interests held through related parties under common control on a proportional basis rather than as the equivalent of a direct interest in its entirety (as currently required in GAAP). Therefore, these amendments likely will result in more decision makers not consolidating VIEs.

For organizations other than private companies, the amendments in this ASU are effective for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years. The amendments in this ASU are effective for a private company for fiscal years beginning after December 15, 2020, and interim periods within fiscal years beginning after December 15, 2021.
