Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

No dividend. 1:1 voting rights

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

Series A Preferred:

- **Issuance.** Shares of Preferred Stock may only be issued in exchange for the partial or full retirement of debt held by Management, employees or consultants, or as directed by a majority vote of the Board of Directors. The number of Shares of Preferred Stock to be issued to each qualified person (member of Management, employee or consultant) holding a Note shall be determined by the following formula:

For retirement of debt:

$$\sum_{i=1}^{X_i} \text{number of shares of Series A Preferred Stock to be issued where } X_i + X_i + Z_i \dots + X_i \text{ represent the discrete notes and other obligations owed the lender (holder), which are being retired.}$$

- **Voting.** If at least one share of Series A Preferred Stock is issued and outstanding, then the total aggregate issued shares of Series A Preferred Stock at any given time, regardless of their number, shall have voting rights equal to four times the sum of: i) the total number of shares of Common Stock which are issued and outstanding at the time of voting, plus ii) the total number of shares of Series B and Series C Preferred Stocks which are issued and outstanding at the time of voting.

Each individual share of Series A Preferred Stock shall have the voting rights equal to:

[four times the sum of: (all shares of Common Stock issued and outstanding at time of voting + all shares of Series B and Series C Preferred Stocks

issued and outstanding at time of voting}}]

divided by:

[the number of shares of Series A Preferred Stock issued and outstanding at the time of voting]

- Conversion. If at least one share of Series A Preferred Stock is issued and outstanding, then the total aggregate issued shares of Series A Preferred Stock at any given time, regardless of their number, shall be convertible into the number of shares of Common Stock which equals four times the sum of: i) the total number of shares of Common Stock which are issued and outstanding at the time of conversion, plus ii) the total number of shares of Series B and Series C Preferred Stocks which are issued and outstanding at the time of conversion.

Each individual share of Series A Preferred Stock shall be convertible into the number of shares of Common Stock equal to:

[four times the sum of: (all shares of Common Stock issued and outstanding at time of conversion + all shares of Series B and Series C Preferred Stocks issued and outstanding at time of conversion)]

divided by:

[the number of shares of Series A Preferred Stock issued and outstanding at the time of conversion]

- Dividends. none
- Liquidation Preference. none
- Registration. none
- Transfer. Subject to compliance with federal, state or jurisdictional securities laws, the Series A Preferred Stock are freely assignable and transferable by the holder.

Series B Preferred:

- Issuance. The initial price of each share of Series B Preferred Stock shall be \$2.50.
- The price of each share of Series B Preferred Stock may be changed either through a majority vote of the Board of Directors through a resolution at a meeting of the Board, or through a resolution passed at an Action Without Meeting of the unanimous Board, until such time as a listed secondary and/or listed public market develops for the shares.

- LOCK-UP RESTRICTIONS ON CONVERSION. Shares of Series B Preferred Stock may not be converted into shares of Common Stock for a period of: a) six (6) months after purchase, if the Company voluntarily or involuntarily files public reports pursuant to Section 12 or 15 of the Securities Exchange Act of 1934; or b) twelve (12) months if the Company does not file such public reports.
- Voting. Each share of Series B Preferred Stock shall have ten votes for any election or other vote placed before the shareholders of the Company.
- Conversion and anti-dilution. Each share of Series B Preferred Stock shall be convertible, at any time, and/or from time to time, into the number of shares of the Corporation's common stock, par value \$0.0001 per share (the "Common Stock") equal to the price of the Series B Preferred Stock as stated in 11.6 of the Bylaws, divided by the par value of the Common Stock, subject to adjustment as may be determined by the Board of Directors from time to time (the "Conversion Rate"). For example, assuming a \$2.50 price per share of Series B Preferred Stock, and a par value of \$0.0001 per share for Common Stock, each share of Series B Preferred Stock would be convertible into 25,000 shares of Common Stock. Such conversion shall be deemed to be effective on the business day (the "Conversion Date") following the receipt by the Corporation of written notice from the holder of the Series B Preferred Stock of the holder's intention to convert the shares of Series B Stock, together with the holder's stock certificate or certificates evidencing the Series B Preferred Stock to be converted promptly after the Conversion Date, the Corporation shall issue and deliver to such holder a certificate or certificates for the number of full shares of Common Stock issuable to the holder pursuant to the holder's conversion of Series B Preferred Shares in account with the provisions of this Section. The stock certificate(s) evidencing the Common Stock shall be issued with a restrictive legend indicating that it was issued in a transaction exempt from registration under the Securities Act of 1933, as amended (the "Securities Act"), and that it cannot be transferred unless it is so registered, or an exemption from registration is available, in the opinion of counsel to the Corporation.
- The Common Stock shall be issued in the same name as the person who is the holder of the Series B Preferred Stock unless, in the opinion of counsel to the Corporation, such transfer can be made in compliance with applicable securities laws. The person in whose name the certificate(s) of Common Stock are so registered shall be treated as a holder of shares of Common Stock of the Corporation on the date the Common Stock certificate(s) are so issued.
-
- All shares of Common Stock delivered upon conversion of the Series B Preferred Shares as provided herein shall be duly and validly issued and fully paid and non-assessable. Effective as of the Conversion Date, such converted Series B Preferred Shares shall no longer be deemed to be outstanding and all rights of the holder with respect to such shares shall immediately terminate except the right to receive the shares of Common Stock issuable upon such conversion,
 - c. The Corporation covenants that, within 30 days of receipt of a conversion notice from any holder of shares of Series B Preferred Stock wherein which such conversion would create more shares of Common Stock than are authorized, the Corporation will increase the authorized

number of shares of Common Stock sufficient to satisfy such holder of shares of Series B submitting such conversion notice.

- Shares of Series B Preferred Stock are anti-dilutive to reverse splits, and therefore in the case of a reverse split, are convertible to the number of Common Shares after the reverse split as would have been equal to the ratio established in Section 11.4(a) prior to the reverse split. The conversion rate of shares of Series B Preferred Stock, however, would increase proportionately in the case of forward splits, and may not be diluted by a reverse split following a forward split.
- Dividends. The holders of Series B Preferred Stock shall be entitled to receive dividends when, as and if declared by the Board of Directors, in its sole discretion.
- Liquidation Preference. Upon any liquidation, dissolution or winding up of the Corporation, whether voluntary or involuntary, before any distribution or payment shall be made to the holders of any stock ranking junior to the Series B Preferred Stock, the holders of the Series B Preferred Stock shall be entitled to be paid out of the assets of the Corporation an amount equal to \$1.00 per share or, in the event of an aggregate subscription by a single subscriber for Series B Preferred Stock in excess of \$100,000, \$0.997 per share (as adjusted for any stock dividends, combinations, splits, recapitalizations and the like with respect to such shares) (the "Preference Value"), plus all declared but unpaid dividends, for each share of Series B Preferred Stock held by them. After the payment of the full applicable Preference Value of each share of the Series B Preferred Stock as set forth herein, the remaining assets of the Corporation legally available for distribution, if any, shall be distributed, ratably, to the holders of the Corporation's Common Stock.

Series C Preferred:

- Issuance. Shares of Series C Preferred Stock may be issued to holders of debt of the company, as determined by a majority vote of the Board of Directors, or others, as determined by a majority vote of the Board of Directors.
- Voting. Each share of Series C Preferred Stock shall have one vote for any election or other vote placed before the shareholders of the Company.
- Conversion and anti-dilution.
 - A. Each share of Series C Preferred Stock shall be convertible, at any time, and/or from time to time, into 500 shares of the Corporation's common stock, par value \$0.0001 per share (the "Common Stock"). Such conversion shall be deemed to be effective on the business day (the "Conversion Date") following the receipt by the Corporation of written notice from the holder of the Series C Preferred Stock of the holder's intention to convert the shares of Series C Stock, together with the holders stock certificate or certificates evidencing the Series C Preferred Stock to be converted.
 - B. Promptly after the Conversion Date, the Corporation shall issue and deliver to such holder a certificate or certificates for the number of full shares of Common Stock issuable to the holder pursuant to the holder's conversion of

Series C Preferred Shares in accordance with the provisions of this Section. The stock certificate(s) evidencing the Common Stock shall be issued with a restrictive legend indicating that it was issued in a transaction exempt from registration under the Securities Act of 1933, as amended (the "Securities Act"), and that it cannot be transferred unless it is so registered, or an exemption from registration is available, in the opinion of counsel to the Corporation. The Common Stock shall be issued in the same name as the person who is the holder of the Series C Preferred Stock unless, in the opinion of counsel to the Corporation, such transfer can be made in compliance with applicable securities laws. The person in whose name the certificate(s) of Common Stock are so registered shall & treated as a holder of shares of Common Stock of the Corporation on the date the Common Stock certificate(s) are so issued, All shares of Common Stock delivered upon conversion of the Series C Preferred Shares as provided herein shall be duly and validly issued and fully paid and non-assessable. Effective as of the Conversion Date, such converted Series C Preferred Shares shall no longer be deemed to be outstanding and all rights of the holder with respect to such shares shall immediately terminate except the right to receive the shares of Common Stock issuable upon such conversion.

- C. The Corporation covenants that, within 30 days of receipt of a conversion notice from any holder of shares of Series C Preferred Stock wherein which such conversion would create more shares of Common Stock than are authorized, the Corporation will increase the authorized number of shares of Common Stock sufficient to satisfy such holder of shares of Series C submitting such conversion notice.
- D. Shares of Series C Preferred Stock are anti-dilutive to reverse splits, and therefore in the case of a reverse split, are convertible to the number of Common Shares after the reverse split as would have been equal to the ratio established in Section 12.4(a) prior to the reverse split. The conversion rate for shares of Series C Preferred Stock, however, would increase proportionately in the case of forward splits, and may not be diluted by a reverse split following a forward split.
- Dividend. The holders of Series C Preferred Stock shall be entitled to receive dividends when, as and if declared by the Board of Directors, in its sole discretion.
- Liquidation Rights. Upon any liquidation, dissolution or winding up of the Corporation, whether voluntary or involuntary, before any distribution or payment shall be made to the holders of any stock ranking junior to the Series C Preferred Stock the holders of the Series C Preferred Stock shall be entitled to be paid out of the assets of the Corporation an amount equal to \$1.00 per share or, in the event of an aggregate subscription by a single subscriber for Series C Preferred Stock in excess of \$100,000, \$0.997 per share (as adjusted for any stock dividends, combinations, splits, recapitalizations and the like with respect to such shares) (the "Preference Value"), plus all declared but unpaid dividends, for each share of Series C Preferred Stock held by them. After the payment of the full applicable Preference Value of each share of the Series C Preferred Stock as set forth herein, the remaining assets of the Corporation legally available for distribution, if any, shall be distributed ratably to the holders of the Corporation's Common Stock.

ITOKK, INC.
NOTES TO UNAUDITED FINANCIAL STATEMENTS
SEPTEMBER 30, 2024

NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS

iTokk, Inc. (the "Company") was incorporated in the State of Nevada on September 19, 2003.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

These unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP") and the rules and regulations of the Securities and Exchange Commission ("SEC"). These financial statements and the notes attached hereto should be read in conjunction with the financial statements and notes included in the Company's financial statements for its fiscal year ended June 30, 2024. In the opinion of the Company, all adjustments, including normal recurring adjustments necessary to present fairly the financial position of the Company, as of September 30, 2024, and the results of its operations and cash flows for the three months then ended have been included. The results of operations for the interim period are not necessarily indicative of the results for the full year ending June 30, 2025.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include the estimated useful lives of property and equipment. Actual results could differ from those estimates.

Fair Value of Financial Instruments

The Company follows paragraph 825-10-50-10 of the FASB Accounting Standards Codification for disclosures about fair value of its financial instruments and paragraph 820-10-35-37 of the FASB Accounting Standards Codification ("Paragraph 820-10-35-37") to measure the fair value of its financial instruments. Paragraph 820-10-35-37 establishes a framework for measuring fair value in accounting principles generally accepted in the United States of America under U.S. GAAP and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, Paragraph 820-10-35-37 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of fair value hierarchy defined by Paragraph 820-10-35-37 are described below:

Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date.

Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date.

Level 3: Pricing inputs that are generally unobservable inputs and not corroborated by market data.

Accruals and related-party payables have fair values that approximate the carrying value due to the short-term nature of these instruments. Derivative liabilities are measured using level 3 inputs.

	Fair Value at September 30, 2024	(Level 1)	(Level 2)	(Level 3)
Derivative liabilities	\$ 665,234	\$ -	\$ -	\$ 665,234

	Fair Value at June 30, 2024			
		(Level 1)	(Level 2)	(Level 3)
Derivative liabilities	\$ 410,136	\$ -	\$ -	\$ 410,136

Derivative Financial Instruments

The Company evaluates its convertible notes to determine if such instruments have derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the statements of operations. For stock-based derivative financial instruments, the Company uses a weighted-average Black-Scholes-Merton option pricing model to value the derivative instruments at inception and on subsequent valuation dates. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period.

Basic and Diluted Loss Per Share

Under ASC 260 “Earnings Per Share,” the Company presents basic and diluted earnings (loss) per-share (“EPS”) amounts on the face of the statements of operations. Basic EPS is computed by dividing income (loss) available to common stockholders (the numerator) by the weighted-average number of common shares outstanding (the denominator) during the period. Shares issued during the period and shares reacquired during the period are weighted for the portion of the period that they were outstanding. The computation of diluted EPS is similar to the computation of basic EPS except that the denominator is increased to include the number of additional common shares that would have been outstanding if the dilutive potential common shares had been issued. Potentially diluted shares are not presented when the effect of the computations are anti-dilutive due to the losses incurred. Accordingly, there is no difference in the amounts presented for basic and diluted loss per share.

Recently issued accounting pronouncements

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

NOTE 3 - GOING CONCERN

The Company’s unaudited financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern that contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not established any source of revenue to cover its operating costs and has an accumulated deficit. These conditions raise substantial doubt about the company’s ability to continue as a going concern. The Company will engage in limited activities without incurring significant liabilities that must be satisfied in cash until a source of funding is secured. The Company will offer noncash consideration and seek equity lines as a means of financing its operations. If the Company is unable to obtain revenue producing contracts or financing or if the revenue or financing it does obtain is insufficient to cover any operating losses it may incur, it may substantially curtail or terminate its operations or seek other business opportunities through strategic alliances, acquisitions or other arrangements that may dilute the interests of existing stockholders.

NOTE 4 – CONVERTIBLE DEBT

On November 14, 2014, the Company issued a \$62,500, 10% convertible promissory note to Tangiers Investments LLC. The Note matured on November 14, 2015, at which time the interest rate increased to the default rate of 20%. The note is convertible into shares of common stock at a price equal to 50% of the average closing price of the Company’s common stock during the 30 consecutive Trading Days prior to the date on which Holder elects to convert all or part of the Note. As of September 30, 2024, there is \$58,000 and \$109,603 of principal and interest, due on the note, respectively. As of June 30, 2024, there is \$58,000 and \$106,703 of principal and interest, due on the note, respectively.

On September 30, 2022, the Company entered into a management agreement with Selkirk Global Holdings, LLC. The agreement is for a monthly fee of \$20,000. At any time the balance due is convertible into the Company’s common stock at a price equal to 75% of the lowest thirty day closing of the Company’s common stock during the 30 consecutive trading days prior to the date on which the holder elects to convert all or part of the Note.

On March 14, 2024, the Company issued a \$50,000, 10% convertible promissory note to Wonderland Asset Management, LLC, (the “Note”). The Note matures March 31, 2025, has a 10% OID and is convertible into the Company’s common stock at a price equal to 55% of the average closing price of the Company’s common stock during the 20 consecutive trading days prior to the date on which the holder elects to convert all or part of the Note. The Note is being funded through the direct payment of Company expenses. As of September 30, 2024, \$12,971 has been used for expenses, plus \$1,297 OID. The derivative liability has been calculated on the total funds advanced plus OID.

A summary of the activity of the derivative liability for the note above is as follows:

Balance at June 30, 2024	\$ 410,136
Derivative gain due to mark to market adjustment	255,098
Balance at September 30, 2024	<u>\$ 665,234</u>

NOTE 5 – RELATED PARTY TRANSACTIONS

As of June 30, 2024, the Company was indebted to the former President of the Company in the amount of \$113,727. The amount was unsecured, non-interest bearing and had no fixed terms of repayment.

As of June 30, 2024, the Company was indebted to a company controlled by the former President of the Company in the amount of \$130,950. The amount was unsecured, non-interest bearing and had no fixed terms of repayment.
