**LVYUAN GREEN BUILDING MATERIAL TECHNOLOGY CORP.
NOTES TO FINANCIAL STATEMENTS**

NOTE 1: ORGANIZATION AND PRINCIPAL ACTIVITIES

Lvyuan Green Building Material Technology Corp. (the “Company”) was incorporated in the State of Nevada on January 10, 2013 as Green Supplements Online Inc. We changed our name to Lvyuan Green Building Material Technology Corp. on September 24, 2015.

Our business model was to buy nutrition and dietary products from different manufacturers and resell those products under our private label. Our source of revenue from operations was to be reselling nutrition and dietary supply products. The line of nutrition and dietary products that we intended to market was to be standard non-proprietary supplements and other products that contained our label. Currently, we have not yet initiated any product development efforts nor generated any revenue to date.

NOTE 2; SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Company maintains its general ledger and journals with the accrual method of accounting for financial reporting purposes. The financial statements and notes are representations of management. Accounting policies adopted by the Company conform to U.S. GAAP and have been consistently applied in the presentation of financial statements. The accompanying financial statements are presented in U.S. dollars in conformity with accounting principles generally accepted in the United States of America and pursuant to the rules and regulations of the SEC.

Net loss per common share

The Company complies with accounting and disclosure requirements of FASB ASC 260, “Earnings Per Share.” Net loss per common share is computed by dividing net loss applicable to common stockholders by the weighted average number of common shares outstanding for the period. At April 30, 2024 and 2023, the Company did not have any dilutive securities or other contracts that could, potentially, be exercised or converted into common stock and then share in the earnings of the Company. As a result, diluted loss per common share is the same as basic loss per common share for the period.

Use of estimates

The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Management makes these estimates using the best information available at the time the estimates are made; however actual results could differ materially from those estimates.

Recently issued or adopted standards

The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company’s results of operations, financial position or cash flow.

NOTE3 : GOING CONCERN STATEMENT

As of April 30, 2024, the Company had an accumulated deficit of \$310,528 which raises substantial doubt about the Company's ability to continue as a going concern. Management anticipates that fees associated with filing of Exchange Act reports including accounting fees and legal fees and payment of annual corporate fees will not exceed \$75,000 within next 12 months. We do not currently intend to retain any entity to act as a "finder" to identify and analyze the merits of potential target businesses. Management intends to search for a business combination by contacting various sources including, but not limited to, our affiliates, lenders, investment banking firms, private equity funds, consultants and attorneys and does not plan to conduct a complete and exhaustive investigation and analysis of a business opportunity. Management decisions, therefore, will likely be made without detailed feasibility studies, independent analysis, market surveys and the like which, if we had more funds, would be desirable. If the management can find a suitable target company, we will have to budget for additional fees relating to the investigation into the target company (including due diligence and possibly visiting the facilities) and consummating the reverse merger, which may cost between \$125,000 to \$150,000. We expect that the expenses for the next 12 months and beyond such time will be paid with amounts that may be loaned to or invested in us by our stockholders, management or other investors. Since we have minimal assets and will continue to incur losses due to the expenses associated with being a reporting company under the Exchange Act, we may cease business operations if we do not timely consummate a business combination.

Currently, our ability to continue as a going concern is dependent upon our ability to generate future profitable operations and/or to obtain the necessary financing to meet our obligations and repay our liabilities arising from normal business operations when they come due. Our ability to continue as a going concern is also dependent upon our ability to find a suitable target company and enter into a possible reverse merger with such a company. Management's plan includes obtaining additional funds by equity financing through a reverse merger transaction and/or related party advances. However, there is no assurance of additional funding being available.

Our management anticipates that it will likely be able to effect only one business combination, due primarily to our limited financing and the dilution of interest for present and prospective stockholders, which is likely to occur as a result of our management's plan to offer a controlling interest to a target business in order to achieve a tax-free reorganization.

In identifying, evaluating and selecting a target business, we may encounter intense competition from other entities having a business objective similar to ours. There are numerous blank check companies that have gone public in the United States that have significant financial resources, that are seeking to carry out a business plan similar to our business plan. Many of these entities are well established and have extensive experience identifying and effecting business combinations directly or through affiliates. Many of these competitors possess greater technical, human and other resources than us and our financial resources will be relatively limited when contrasted with those of many of these competitors.

NOTE 4: ACCRUED LIABILITIES.

As of April 30, 2024, and April 30, 2023, the Company had \$82,225 and \$58,615 in current liabilities, respectively. The accrued liabilities mainly consist of a shareholder advance for the payment of Professional fees.

NOTE 5: RELATED PARTIES

As of April 30, 2024 the outstanding balance due related party from advances was \$52,420. The related party has common directors and is the owner of the preferred shares of the Company.

NOTE 6: INCOME TAX

The Company accounts for income taxes under SFAS No. 109 (now contained in FASB Codification Topic 740-10-25, Accounting for Uncertainty in Income Taxes), which requires the asset and liability approach to accounting for income taxes. Under this method, deferred tax assets and liabilities are measured based on differences between financial reporting and tax bases of assets and liabilities measured using enacted tax rates and laws that are expected to be in effect when

differences are expected to reverse. As of April 30, 2024, we had a net operating loss carry-forward of approximately \$310,528 and a deferred tax asset of \$65,211 using the statutory rate of 21%. The deferred tax asset may be recognized in future periods. However, due to the uncertainty of future events we have booked valuation allowance of \$60,253. FASB ASC 740 prescribes recognition threshold and measurement attributes for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FASB ASC 740 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

	April 30, 2024	April 30, 2023
Deferred Tax Asset	\$ 65,211	\$ 60,253
Valuation Allowance	(65,211)	(60,253)
Deferred Tax Asset (Net)	\$ - -	\$ - -

The Company files an income tax return in the U.S. federal jurisdiction and may file income tax returns in various U.S. states and foreign jurisdictions. Generally, the Company is subject to income tax examinations by major taxing authorities during the three year period prior to the period covered by these financial statements.

Due to the change in ownership provisions of the Tax Reform Act of 1986, net operating loss carry forwards of approximately \$286,918 for Federal income tax reporting purposes are subject to annual limitations. Should a change in ownership occur net operating loss carry forwards may be limited as to use in future years.

NOTE 7: EQUITY

The Company has two classes of stock, preferred and common. The preferred shares have preference and are convertible into common shares.

The Company issued preferred and common shares during the year ended April 30, 2022. As the Company's stock is not traded the Board of Directors evaluated the fair value of the service rendered in exchange for the shares issued and determined the value of the shares should be issued at par.

Preferred shares

On August 4, 2021 the Company issued 30,000,000 shares of preferred stock with a value of \$30,000 for service. The preferred shares have preference upon over common and are convertible to common shares as which time each preferred share has voting rights of 20 votes.

NOTE 8: SUBSEQUENT EVENTS

The Company has analyzed its operations from April 30, 2024 through the date these financial statements were issued and has determined that it does not have any material subsequent events to disclose in these financial statements except as noted above in this footnote than noted above.
