43rd Hotter'N Hell Wraps Up Ride

Wichita Falls- The final rider in the Hotter'N Hell Hundred ride has crossed the finish line.

The ride saw Hell's Gate close at 12:00 pm because of a high and dangerous wet bulb temperature. The Medical Director made the call to re-route all 100- mile riders who had not pass that checkpoint to the 100k route.

There was a total of 13 medical patients with 11 taken to the hospital. Of those, none were critical, 7 were injured and would need to receive care later, and 6 were deemed minor injuries or illnesses. Counts only include patients who received complete medical assistance by first responders during the ride.

The Event/Emergency Operations Center is now deactivated.
