Worldwide operational results, excluding the net impact of acquisitions and divestitures, were negatively impacted by declines in the Baby Care and Oral Care businesses, mostly offset by growth in over-the-counter products, including **TYLENOL**[®] analgesics and upper respiratory products, and **NEUTROGENA**[®] beauty products.

Worldwide Pharmaceutical sales of \$36.3 billion for the full-year 2017 represented an increase of 8.3% versus the prior year with an operational increase of 8.0% and a positive impact from currency of 0.3%. Domestic sales increased 6.7%; international sales increased 10.8%, which reflected an operational increase of 10.1% and a positive currency impact of 0.7%. Excluding the net impact of acquisitions and divestitures, on an operational basis, worldwide sales increased 4.2%, domestic sales increased 3.1% and international sales increased 5.8%.^{*}

Worldwide operational sales growth was negatively impacted by approximately 1.8 points due to a positive adjustment of U.S. rebate accruals in the first half of 2016, which did not repeat in the first half of 2017.

Worldwide operational results, excluding the net impact of acquisitions and divestitures, were driven by new products and the strength of core products. Strong growth in new products include **DARZALEX**[®] (daratumumab), for the treatment of patients with multiple myeloma, **IMBRUVICA**[®] (ibrutinib), an oral, once-daily therapy approved for use in treating certain B-cell malignancies, a type of blood or lymph node cancer and **TREMFYA**[®] (guselkumab), for the treatment of adults living with moderate to severe plaque psoriasis.

Additional contributors to operational sales growth included **STELARA**[®] (ustekinumab), a biologic for the treatment of a number of immune-mediated inflammatory diseases, **INVEGA**[®] **SUSTENNA**[®]/**XEPLION**[®]/**TRINZA**[®] (paliperidone palmitate), long-acting, injectable atypical antipsychotics for the treatment of schizophrenia in adults, **ZYTIGA**[®] (abiraterone acetate), an oral, once-daily medication for use in combination with prednisone for the treatment of metastatic, castration-resistant prostate cancer, and **XARELTO**[®] (rivaroxaban), an oral anticoagulant, partially offset by declines in **REMICADE**[®] (infliximab), a biologic approved for the treatment of a number of immune-mediated inflammatory diseases, due to biosimilar entrants.

During the quarter, the U.S. Food and Drug Administration (FDA) approved **JULUCA**[®] (rilpivirine and dolutegravir), the first, complete, single-pill, two-drug regimen for the treatment of human immunodeficiency virus type 1 (HIV-1) infection; a 10 mg once-daily dose of **XARELTO**[®] (rivaroxaban) for reducing the continued risk for recurrent venous

thromboembolism after completing at least six months of initial anticoagulation therapy; and SIMPONI ARIA[®] (golimumab) for the treatment of adults with active psoriatic arthritis or active ankylosing spondylitis. The European Commission approved TREMFYA[®] (guselkumab) for the treatment of adults with moderate to severe plaque psoriasis and granted approval to broaden the existing marketing authorization for ZYTIGA[®] (abiraterone acetate) plus prednisone / prednisolone to include the treatment of newly-diagnosed high-risk metastatic hormone-sensitive prostate cancer.

Regulatory applications for approval were submitted to the FDA and European Medicines Agency to expand the current indication of DARZALEX[®] (daratumumab) for use in combination with bortezomib, melphalan and prednisone, as a treatment for newly diagnosed patients with multiple myeloma ineligible for autologous stem cell transplantation. In addition, a supplemental New Drug Application was submitted to the FDA for two new XARELTO[®] (rivaroxaban) vascular indications: reducing the risk of major cardiovascular (CV) events such as CV death, heart attack or stroke in patients with chronic coronary and/or peripheral artery disease (CAD/PAD), and for reducing the risk of acute limb ischemia in patients with PAD.

Excluding the net impact of acquisitions and divestitures, on an operational basis, worldwide sales increased 1.5%, domestic sales were flat and international sales increased 3.0%.*

Worldwide operational results, excluding the net impact of acquisitions and divestitures, were driven by electrophysiology products in the Cardiovascular business; endocutters and biosurgicals in the Advanced Surgery business; ACUVUE[®] contact lenses in the Vision Care business; and wound closure products in the General Surgery business, partially offset by declines in the Diabetes Care business and spine products in the Orthopaedics business.

* Operational sales growth excluding the net impact of acquisitions and divestitures, as well as adjusted net earnings, adjusted diluted earnings per share and operational adjusted diluted earnings per share excluding after-tax intangible amortization expense and special items, are non-GAAP financial measures and should not be considered replacements for, and should be read together with, the most comparable GAAP financial measures. Except for guidance measures, reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures can be found in the accompanying financial schedules of the earnings release and the Investor Relations section of the company's website at www.investor.jnj.com. Johnson & Johnson does not provide GAAP financial measures on a forward-looking basis because the company is unable to predict with reasonable certainty the ultimate outcome of legal proceedings, unusual gains and losses, acquisition-related expenses and purchase accounting fair value adjustments without unreasonable effort. These items are uncertain, depend on various factors, and could be material to Johnson & Johnson's results computed in accordance with GAAP.

** The provisional estimates are based on the Company's initial analysis of the Tax Cuts and Jobs Act (the "Act") as of January 18, 2018. Given the significant complexity of the Act, anticipated guidance from the U. S. Treasury about implementing the Act, and the potential for additional guidance from the Securities and Exchange Commission or the Financial Accounting Standards Board related to the Act, these estimates may be adjusted during 2018.
