BELLEVUE, Wash.--(BUSINESS WIRE)-- Savers Value Village, Inc. (NYSE: SVV) is proud to announce that it has been named "Highly Commended" in the SDG Pioneer Award category at the Reuters Sustainability Awards 2024. This prestigious honor recognizes the company's significant contributions to sustainable business practices, positively impacting society and the environment.

The Reuters Sustainability Awards are renowned for celebrating exceptional leadership in sustainable business.

For over 70 years, the Savers Value Village family of thrift stores has encouraged communities to embrace secondhand shopping as a sustainable choice. The company's mission revolves around a triple bottom line approach—people, planet, and profit—ensuring that its operations generate positive impacts across all sectors.

"Being recognized at the Reuters Sustainability Awards is a testament to our mission to champion reuse and inspire a future where secondhand is second nature," said Mark Walsh, Chief Executive Officer of Savers Value Village. "We believe that thrift not only benefits individuals and communities but is also a vital component of a sustainable future."

In the last five years alone, Savers Value Village has successfully repurposed over 3.2 billion pounds of reusable clothing and household items, diverting them from landfills and generating critical revenue for its non-profit partners to fund their essential community programs.

As the secondhand market continues to gain traction, Savers Value Village is poised to lead the thrift experience for years to come, redefining retail and demonstrating that what's good for the planet is also good for business.

Sustainability Awards winners were determined on the basis that the organization has been agenda-leading in sustainability in the period January 2023 – June 2025.
