Supplementary Explanation

[Performance-based remunerations]

Recipients: Directors (excluding Outside Directors and part-time Directors)

Regarding the method of determining the payment amount, the payment amount for each individual is based on the base amount by position provided in the internal rules, the director remuneration rules and their detailed rules (hereinafter referred to as the "Director Remuneration Rules"), and an amount taking into account the target attainment level of the performance index for the fiscal year is added. The payment amount for respective Directors, except for the Representative Directors, is an amount taking into account the qualitative evaluation by the Representative Directors in addition to the payment amount above.

The indices used for the assessment of performance-based remuneration and their weights are as follows. These indices were selected so as to give well-balanced incentives for both the Group's growth and improving profitability. In view of the importance of commitment to shareholders and investors, the expected values for business performance released at the beginning of the fiscal year are used as the target values for these indices in principle.

The payment amount of performance-based remuneration for each individual is calculated in accordance with the Director Remuneration Rules, etc. based on the results of business performance for the fiscal year. The Compensation Committee as an arbitrary committee then verifies the individual payment amount and the validity and appropriateness of the total payment amount. The total payment amount of the performance-based remuneration is approved at the Ordinary General Shareholder Meeting. A Board of Directors meeting is held immediately after the Ordinary General Shareholder Meeting to determine the individual payment amount by recipient.
