## **CEO Comments**

Denise Morrison, Campbell's President and Chief Executive Officer, said, "Despite what continues to be a very challenging consumer environment, Campbell remains focused on becoming a leaner, more effective and efficient company. We're unsatisfied with our third-quarter organic sales growth, which was largely due to a weaker U.S. soup season, some challenges in *V8* beverages and a weather-related disruption to our fresh carrot supply. Importantly, we understand the factors affecting our top-line performance and are addressing them. Year-to-date organic sales are down slightly. We expect organic sales to grow in the fourth quarter and next fiscal year, behind more robust innovation and marketing. Third-quarter adjusted EBIT declined, but was better than expected. Our year-to-date adjusted EBIT increase of 15 percent reflects our improved gross margin performance and the benefits of our three-year cost savings program and organization redesign.

"Today we updated our guidance, raising our outlook for adjusted EPS. We continue to stay focused on driving sustainable, profitable net sales growth and creating shareholder value."

#### Third-Quarter Results

Sales decreased 2 percent to \$1.870 billion driven by a decline in organic sales and the adverse impact of currency translation, partly offset by the benefit from the acquisition of Garden Fresh Gourmet. Organic sales decreased 2 percent driven by lower volume and higher promotional spending, partly offset by higher selling prices.

Gross margin decreased from 35.9 percent to 35.3 percent. Excluding items impacting comparability, adjusted gross margin increased 0.4 points. The increase in adjusted gross margin was primarily driven by productivity improvements and higher selling prices, partially offset by higher supply chain costs and inflation, as well as higher promotional spending. The increase in supply chain costs was primarily driven by higher carrot costs in the quarter due to the adverse impact of weather conditions on crop yields.

Marketing and selling expenses increased 7 percent to \$228 million. Excluding items impacting comparability, adjusted marketing and selling expenses increased 5 percent to \$219 million primarily due to higher advertising and consumer promotion expenses. Administrative expenses increased 8 percent to \$154 million. Excluding items impacting comparability, adjusted administrative expenses increased 4 percent to \$132 million primarily due to higher incentive compensation costs, as well as inflation, an increase in costs to support long-term innovation and the acquisition of Garden Fresh Gourmet, partly offset by the benefits from cost savings initiatives.

EBIT decreased 6 percent to \$268 million. Excluding items impacting comparability, adjusted EBIT decreased 5 percent to \$312 million reflecting higher advertising and consumer promotion expenses, higher administrative expenses and lower volumes, partly offset by a higher gross margin percentage.

Net interest expense of \$28 million was comparable to the prior year. The tax rate decreased 7.5 percentage points to 22.9 percent. Excluding items impacting comparability, the adjusted tax rate decreased 3.1 percentage points to 28.5 percent primarily due to lower taxes on foreign earnings, partly offset by the geographic mix of earnings.

#### **Nine-Month Results**

Sales decreased 2 percent to \$6.274 billion driven by the adverse impact of currency translation and a decline in organic sales, partly offset by the benefit from the acquisition of Garden Fresh Gourmet. Organic sales decreased 1 percent driven by lower volume, partly offset by higher selling prices.

EBIT decreased 1 percent to \$997 million. Excluding items impacting comparability, adjusted EBIT increased 15 percent to \$1.214 billion reflecting a higher adjusted gross margin percentage and the benefits from cost savings initiatives, partly offset by higher incentive compensation costs, the adverse impact of currency translation and volume declines.

Net interest expense increased \$5 million to \$83 million reflecting higher average interest rates on the debt portfolio. The tax rate decreased 0.9 percentage points to 29.5 percent. Excluding items impacting comparability, the adjusted tax rate increased 1.0 percentage point to 31.8 percent. This increase was primarily due to the geographic mix of earnings, and lapping the favorable resolution of an intercompany pricing agreement between the U.S. and Canada in the prior year, partly offset by lower taxes on foreign earnings.

Cash flow from operations increased to \$1.183 billion from \$971 million a year ago primarily due to higher cash earnings and lower working capital requirements.

#### Fiscal 2016 Guidance

Campbell has updated its fiscal 2016 guidance. Campbell expects sales to change by -1 to 0 percent (unchanged from previous guidance); adjusted EBIT to grow by 11 to 13 percent (previously 10 to 13 percent); and adjusted EPS to grow by 11 to 13 percent (previously 9 to 12 percent), or \$2.93 to \$3.00 per share. This guidance includes an estimated 2 percentage-point negative impact from currency translation, as well as the impact of the Garden Fresh Gourmet acquisition.

#### Americas Simple Meals and Beverages

Sales decreased 3 percent in the quarter to \$999 million. Excluding the negative impact of currency translation, segment sales decreased 2 percent driven by declines in soup and *V8* beverages, partly offset by gains in *Prego* pasta sauces and *Plum* products. U.S. soup sales decreased 5 percent driven by declines in ready-to-serve and condensed soups, partly offset by gains in broth.

Segment operating earnings increased 1 percent to \$225 million. The increase was primarily driven by a higher gross margin percentage, partly offset by lower volumes and increased marketing and selling expenses.

### Global Biscuits and Snacks

Sales decreased 2 percent in the quarter to \$608 million. Excluding the negative impact of currency translation, segment sales decreased 1 percent driven by declines in Kelsen, partly offset by gains in Pepperidge Farm *Goldfish* crackers, and soups and beverages in Australia. Excluding the negative impact of currency translation, sales of Arnott's biscuits were comparable to the prior year with gains in Indonesia offset by declines in sweet biscuit varieties in Australia.

Segment operating earnings declined 8 percent to \$86 million. The decrease was primarily driven by higher incentive compensation costs and the negative impact of currency translation.

## Campbell Fresh

Sales increased 6 percent in the quarter to \$263 million. Excluding the impact from the acquisition of Garden Fresh Gourmet, segment sales declined 4 percent reflecting lower sales in carrots, partly offset by gains in *Bolthouse Farms* premium refrigerated beverages and salad dressings.

Segment operating earnings decreased 28 percent to \$13 million. The decrease in operating earnings was primarily driven by higher carrot costs, partly offset by productivity improvements.

Sales and costs of carrots were negatively impacted in the quarter by the adverse impact of weather conditions on crop yields.

# **Unallocated Corporate Expenses**

Unallocated corporate expenses for the quarter were \$54 million compared to \$40 million in the prior year. The current quarter included \$54 million of charges related to a pension benefit mark-to-market adjustment and \$13 million of charges related to the implementation of the new organizational structure and cost savings initiatives. The current quarter also included a \$25 million gain from the settlement of a claim related to the Kelsen acquisition. The prior-year quarter included \$26 million of charges related to a pension and postretirement benefit mark-to-market adjustment and \$9 million of charges related to the implementation of the new organizational structure and cost savings initiatives. The remaining increase in expenses

was primarily related to higher incentive compensation costs.

In fiscal 2016, the company changed the method of accounting for the recognition of actuarial gains and losses for defined benefit pension and postretirement plans and the calculation of expected return on pension plan assets. These changes in accounting policy have been retrospectively applied to all periods presented.

# Reconciliation of GAAP to Non-GAAP Financial Measures Third Quarter Ended May 1, 2016

Campbell Soup Company uses certain non-GAAP financial measures as defined by the Securities and Exchange Commission in certain communications. These non-GAAP financial measures are measures of performance not defined by accounting principles generally accepted in the United States and should be considered in addition to, not in lieu of, GAAP reported measures.

# **Organic Net Sales**

The company believes that organic net sales, which exclude the impact of currency and acquisitions, improves the comparability of year-to-year results. A reconciliation of net sales as reported to organic net sales follows.

## **Items Impacting Gross Margin and Earnings**

The company believes that financial information excluding certain items that are not considered to be part of the ongoing business improves the comparability of year-to-year results. Consequently, the company believes that investors may be able to better understand its gross margin and earnings results excluding these transactions.

The following items impacted gross margin and/or earnings:

- (1) In fiscal 2016, the company changed the method of accounting for the recognition of actuarial gains and losses for defined benefit pension and postretirement plans and the calculation of expected return on pension plan assets. Historically, actuarial gains and losses associated with benefit obligations were recognized in Accumulated other comprehensive loss in the Consolidated Balance Sheets and were amortized into earnings over the remaining service life of participants to the extent that the amounts were in excess of a corridor. Under the new policy, actuarial gains and losses will be recognized immediately in the Consolidated Statements of Earnings as of the measurement date, which is typically the end of the fiscal year, or more frequently if an interim remeasurement is required. In addition, the company will no longer use a market-related value of plan assets, which is an average value, to determine the expected return on assets but rather will use the fair value of plan assets. The company excludes the impact of the mark-to-market adjustments resulting from these accounting changes in evaluating performance. These changes in accounting policy have been retrospectively applied to all periods presented. In the third quarter of fiscal 2016, the company incurred losses of \$54 million in Costs and expenses (\$34 million after tax, or \$.11 per share) due to mark-to-market adjustments. In the third quarter and nine-month period of fiscal 2015, the company incurred losses of \$26 million in Costs and expenses (\$16 million after tax, or \$.05 per share). For the year ended August 2, 2015, the company incurred losses of \$138 million in Costs and expenses (\$87 million after tax, or \$.28 per share) due to mark-to-market adjustments.
- (2) In fiscal 2015, the company implemented a new enterprise design and initiatives to reduce costs and to streamline its organizational structure. In the third quarter of fiscal 2016, the company recorded Restructuring charges of \$2 million and implementation costs and other related costs of \$13 million in Administrative expenses related to these initiatives (aggregate impact of \$9 million after tax, or \$.03 per share). Year-to-date, the company recorded Restructuring charges of \$35 million and implementation costs and other related costs of \$35 million in Administrative expenses related to the fiscal 2015 initiatives. The company also recorded a reduction to Restructuring charges of \$3 million related to the fiscal 2014 initiative to improve supply chain efficiency in Australia. The aggregate after-tax impact of Restructuring charges, implementation costs and other related costs was \$42 million, or \$.14 per share. In the third quarter and nine-month period of fiscal 2015, the company recorded Restructuring charges of \$9 million and implementation costs of \$9 million in Administrative expenses related to the fiscal 2015 initiatives (aggregate impact of \$11 million after tax, or \$.04 per share). For the year ended August 2, 2015, the company recorded Restructuring charges of \$102 million and implementation costs of \$22 million in Administrative expenses related to the fiscal 2015 initiatives (aggregate impact of \$78 million after tax, or \$.25 per share).
- (3) In the third quarter of fiscal 2016, the company recorded a gain of \$25 million in Other expenses/(income) (\$.08 per share) from a settlement of a claim related to the Kelsen acquisition.
