Forward-looking Statements

This presentation and the exhibits hereto may contain statements that are not historical information and are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements give current expectations or forecasts of future events and are not guarantees of future performance. These forward-looking statements include, but are not limited to, projections, statements regarding the Company's expected future performance (including expected results of operations and financial guidance), future financial condition, anticipated operating results, strategy plans, future liquidity and financial position. Statements can generally be identified as forward looking because they include words such as "believes," "anticipates," "expects," "intends," "plans," "will," "estimates," "potential," "target," "predict," "project," "seek," and variations thereof or "could," "should" or words of similar meaning. Statements that describe the Company's future plans, objectives or goals are also forward-looking statements, which reflect the current views of the Company with respect to future events and are subject to assumptions, risks and uncertainties that could cause actual results to differ materially. Although the Company believes that these forward-looking statements are based upon reasonable assumptions regarding, among other things, the economy, its knowledge of its business, and key performance indicators that impact the Company, these forward-looking statements involve risks, uncertainties and other factors that may cause actual results to differ materially from those expressed in or implied by the forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. The factors that may affect the Company's results include, among others: the Company's recent emergence from the Chapter 11 Cases and the Dutch Scheme Proceedings, which could adversely affect our business and relationships; the significant variance of our actual financial results from the projections that were filed with the U.S. Bankruptcy Court and Dutch Court; the overall impact of the global supply chain complexities on the Company and its business, including delays in sourcing key components as well as longer transport times, especially for container ships and U.S. trucking, given the Company's reliance on suppliers, subcontractors and availability of raw materials and other components; the Company's ability to generate sufficient cash or have sufficient access to capital resources to service its debt, which, if unsuccessful or insufficient, could force the Company to reduce or delay investments and capital expenditures or to dispose of material assets or operations, seek additional debt or equity capital or restructure or refinance its indebtedness; the Company's ability to comply with the covenants contained in the agreements governing its debt; the Company's ability to successfully convert its backlog into sales, including our ability to overcome supply chain and liquidity challenges; the ultimate impact of infectious disease outbreaks and other public health emergencies, including further adverse effects to the Company's supply chain, and maintenance of increased order backlog; the Company's ability to successfully meet its cost-reduction goals and continue to achieve benefits from its cost-reduction initiatives and other strategic initiatives; the success of the Company's new products, including its DN Series line and EASY family of retail checkout solutions, and electronic vehicle charging service business; the impact of a cybersecurity incident or operational failure on the Company's business; the Company's ability to attract, retain and motivate key employees; the Company's reliance on suppliers, subcontractors and availability of raw materials and other components; changes in the Company's intention to further repatriate cash and cash equivalents and short-term investments residing in international tax jurisdictions, which could negatively impact foreign and domestic taxes; the Company's success in divesting, reorganizing or exiting non-core and/or non-accretive businesses and its ability to successfully manage acquisitions, divestitures, and alliances; the ultimate outcome of the appraisal proceedings initiated in connection with the implementation of the Domination and Profit Loss Transfer Agreement with the former Diebold Nixdorf AG (which was dismissed in the Company's favor at the lower court level in 2022) and the merger/squeeze-out (which was dismissed in the Company's favor in 2023); the impact of market and economic conditions, including the bankruptcies, restructuring or consolidations of financial institutions, which could reduce the Company's customer base and/or adversely affect its customers' ability to make capital expenditures, as well as adversely impact the availability and cost of credit; the impact of competitive pressures, including pricing pressures and technological developments; risks related to our international operations, including geopolitical instability and wars; changes in political, economic or other factors such as currency exchange rates, inflation rates (including the impact of possible currency devaluations in countries experiencing high inflation rates), recessionary or expansive trends, disruption in energy supply, taxes and regulations and laws affecting the worldwide business in each of the Company's operations; the Company's ability to maintain effective internal controls; unanticipated litigation, claims or assessments, as well as the outcome/impact of any current/pending litigation, claims or assessments; the effect of changes in law and regulations or the manner of enforcement in the U.S. and internationally and the Company's ability to comply with applicable laws and regulations; and other factors included in the Company's filings with the Securities and Exchange Commission (the "SEC"), including its Annual Report on Form 10-K for the year ended December 31, 2023 as filed with the SEC on March 8, 2024, and its Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2024. Except to the extent required by applicable law or regulation, the Company undertakes no obligation to update these forward-looking statements to reflect future events or circumstances or to reflect the occurrence of unanticipated events. You should consider these factors carefully in evaluating forward-looking statements and are cautioned not to place undue reliance on such statements.

Use of non-GAAP Financial Information

To supplement our condensed consolidated financial information presented in accordance with GAAP, the company considers certain financial measures that are not prepared in accordance with GAAP, including Non-GAAP results, adjusted diluted earnings per share, free cash flow (use) and free cash flow conversion, net debt, EBITDA, adjusted EBITDA, constant currency results, and Combined results for the Predecessor and Successor Companies with removal of the impacts of Fresh Start Accounting. The company calculates constant currency by translating the prior year results at current year exchange rates. The company uses these Non-GAAP financial measures, in addition to GAAP financial measures, to evaluate our operating and financial performance and to compare such performance to that of prior periods and to the performance of our competitors. Also, the company uses these Non-GAAP financial measures in making operational and financial decisions and in establishing operational goals. The company also believes providing these Non-GAAP financial measures to investors, as a supplement to GAAP financial measures, helps investors evaluate our operating and financial performance and trends in our business, consistent with how management evaluates such performance and trends. The company also believes these Non-GAAP financial measures may be useful to investors in comparing its performance to the performance of other companies, although its Non-GAAP financial measures are specific to the company and the Non-GAAP financial measures of other companies may not be calculated in the same manner. We provide EBITDA and Adjusted EBITDA because we believe that investors and securities analysts will find EBITDA and adjusted EBITDA to be useful measures for evaluating our operating performance and comparing our operating performance with that of similar companies that have different capital structures and for evaluating our ability to meet our future debt service, capital expenditure and working capital requirements. We consider free cash flow (use) to be a liquidity measure that provides useful information to management and investors about the amount of cash generated by the business that, after the purchase of property and equipment and capitalized software development, changes in cash of assets held for sale and the use of cash for M&A, and excluding the use/proceeds of cash for the settlement of foreign exchange derivative instruments, can be used for debt servicing, strategic opportunities, including investing in the business, making strategic acquisitions, strengthening the balance sheet and paying dividends. Unlevered free cash flow (use) provides incremental visibility into the company's liquidity by excluding cash used for interest payments from free cash flow (use). Free Cash Flow Conversion is a liquidity ratio that measures the company's ability to convert operating profits into free cash flow and is calculated as Free Cash Flow over Adjusted EBITDA. For more information, please refer to the section, "Notes for Non-GAAP Measures."

2) Non-GAAP metric. See "Supplemental Slides" for additional information.

3) With respect to the company's adjusted EBITDA, free cash flow and free cash flow conversion outlook for 2024, it is not providing a reconciliation to the most directly comparable GAAP financial measures because it is unable to predict with reasonable certainty those items that may affect such measures calculated and presented in accordance with GAAP without unreasonable effort. These measures primarily exclude future restructuring and refinancing actions and net non-routine items. These reconciling items are uncertain, depend on various factors and could significantly impact, either individually or in the aggregate, operating profit and net income calculated and presented in accordance with GAAP.

Long-term Foundational Building Blocks

Implementing best practices from investment grade companies and creating value for shareholders

Improve capital structure and fortify balance sheet

Maintain net leverage⁽¹⁾ at approximately 1.5x and lower interest expense

Drive more linear and stronger free cash flow conversion

Improve free cash flow conversion⁽²⁾ to +40% over the next 12 months

Eliminate spend and complexity related to corporate restructuring

Reduce professional fees and normalize working capital

Implement balanced capital allocation strategy

Return capital to shareholders leveraging returns-based mindset

(1) Net leverage calculated using net debt divided by trailing twelve month adjusted EBITDA - see "Supplemental Slides" for additional information

(2) With respect to the company's long-term free cash flow conversion outlook, it is not providing a reconciliation to the most directly comparable GAAP financial measures because it is unable to predict with reasonable certainty those items that may affect such measures calculated and presented in accordance with GAAP without unreasonable effort. Restructuring and transition - personnel expenses incurred during 2024 and 2023 relate to the cost savings initiative focused on operational simplification and automation of processes, and include severance and payroll of employees transitioning out of the organization. Costs of third parties assisting with the execution of the program are categorized as Transformation - other. Financial restructuring costs incurred in 2024 and 2023 are advisor fees for the Company's restructuring process to optimize the capital structure that do not qualify for capitalization. Held for sale business are the results of a formerly majority-owned business that the Company sold in Q3 2023 that are excluded from the metrics used to evaluate the core business and assign resources. Amortization of fair valued assets expense is taken against the intangible assets established in purchase accounting as management believes that this is useful information which were eliminated upon application of Fresh Start Accounting. Legal deal matters primarily relates to third-party expenses and fees paid by the company and vendor adjustments in a foreign jurisdiction.

To supplement our condensed consolidated financial statements presented in accordance with GAAP, the company utilizes certain financial measures that are not prepared in accordance with GAAP, including Non-GAAP results, EBITDA and Adjusted EBITDA, adjusted earnings per share, free cash flow (use) and net debt. Restructuring and transition - personnel expenses incurred in the first three months of 2023 relate to the cost savings initiative focused on operational simplification and automation of processes, and include severance and payroll of employees transitioning out of the organization. Costs of third-parties assisting with the execution of the program are categorized as Transformation - other. Refinancing related costs incurred in the first three months of 2023 are advisor fees for the Company's ongoing discussions to increase liquidity and optimize the capital structure that do not qualify for capitalization. Held for sale non-core European retail business is the results of a majority-owned business that the company is committed to sell, that are excluded from the metrics used to evaluate the core business and assign resources. Amortization of Wincor Nixdorf purchase accounting intangible assets (non-cash) expense is taken against the intangible assets established in purchase accounting as management believes that this is useful information. Legal/deal expense primarily relates to third-party expenses and fees paid by the company for M&A activity. Crisis in Ukraine costs primarily relate to humanitarian efforts for our employees and their families, as well as expenses incurred in connection with the economic sanctions levied and steps taken to-date to liquidate our Russian distribution subsidiary. North America ERP impairment was the result of the decision made by management to indefinitely suspend ERP implementation and strategically shift the digital transformation initiatives to the Company's distribution subsidiaries which have a much greater opportunity for process standardization and related cost reductions. Russia/Ukraine impairment relates to the charges taken against trade receivables from customers in the region that were doubtful of being collected and specific inventory and other assets which are not likely to be recoverable.

The company defines EBITDA as net loss excluding income tax benefit/expense, net interest expense, and depreciation and amortization expense. Adjusted EBITDA is EBITDA excluding the effects of the following items: share-based compensation, amortization of cloud-based software implementation costs, foreign exchange gain/loss net, miscellaneous net, equity in earnings of unconsolidated subsidiaries, restructuring and transformation expenses, refinancing related costs, non-routine expenses, the adjusted EBITDA loss of our held for sale noncore business, and reorganization items, net as outlined in Note 1 of the Non-GAAP measures. The company excluded the amortization of Fresh Start fair valued assets and Wincor Nixdorf purchase accounting intangible assets from nonroutine expenses, net in the Adjusted EBITDA reconciliation. Deferred financing fee amortization is included in interest expense; as a result, the company excluded from the depreciation and amortization caption. Depreciation and amortization expense was excluded from Held for sale noncore business. Amortization of cloud-based software implementation represents amortization of capitalized implementation costs related to cloud-based software arrangements that are included in selling and administrative expenses but are not considered GAAP depreciation and amortization. Reorganization items, net includes all income, expenses, gains, or losses that are incurred or realized as a result of the restructuring proceedings. These are Non-GAAP financial measures used by management to enhance the understanding of our operating results. EBITDA and Adjusted EBITDA are key measures we use to evaluate our operational performance. We provide EBITDA and Adjusted EBITDA because we believe that investors and securities analysts will find EBITDA and Adjusted EBITDA to be useful measures for evaluating our operating performance and comparing our operating performance with that of similar companies that have different capital structures and for evaluating our ability to meet our future debt service, capital expenditures, and working capital requirements. However, EBITDA and Adjusted EBITDA should not be considered as alternatives to net income as a measure of operating results or as alternatives to cash flows from operating activities as a measure of liquidity in accordance with GAAP.
