Introduction

Our Mission

Verisign enables the world to connect online with reliability and confidence, anytime, anywhere

We remain fully focused on operating secure, stable, and reliable internet infrastructure, upon which the world depends

- Our critical internet infrastructure and the expertise of our teams enable us to reliably and accurately provide the critical DNS navigation service that people around the world rely on more than ever for commerce, work, education, healthcare, and much more
- In July we marked 27 years of uninterrupted availability of the .com/.net DNS
- We continue to operate our registry services for .com and .net and our root operations at the rigorous standards of performance and availability governed by our agreements with ICANN
- We continue to enhance our critical internet infrastructure, services and capabilities

Q&A Appendix

Non-GAAP Financial Measures

Verisign provides quarterly and annual financial statements that are prepared in accordance with generally accepted accounting principles (GAAP). Along with this information, management typically discloses and discusses certain non-GAAP financial measures on investor conference calls and related events. The non-GAAP financial measures included in this presentation are Adjusted EBITDA and Free cash flow.

Adjusted EBITDA is a non-GAAP financial measure and is calculated in accordance with the terms of the indentures governing Verisign's 2025 and 2027 senior notes. Adjusted EBITDA refers to net income before interest, taxes, depreciation and amortization, stock-based compensation, and unrealized gain / loss on hedging agreements.

Free cash flow is a non-GAAP financial measure defined as cash flow from operating activities, less capital expenditures.

Management believes that these non-GAAP financial measures supplement the GAAP financial measures by providing investors with additional information that allows them to have a clearer picture of Verisign's operations and financial performance and the comparability of Verisign's operating results from period to period. The presentation of these non-GAAP financial measures is not meant to be considered in isolation nor as a substitute for financial measures prepared in accordance with GAAP.

The tables herein include a reconciliation of the non-GAAP financial measures to the comparable financial measures reported in accordance with GAAP for the given periods.
