Best-Selling F-Series, Vans Lead in Q2; Hybrids Grow 56%, EVs Up 61%

- Ford remains America's No.1 truck seller, led by best-selling F-Series and strong gains for Maverick, America's most affordable pickup
- Ford Transit, America's No. 1 selling van, posts new first half sales record
- Maverick Hybrid, F-150 Hybrid sales best-ever quarterly results
- Ford is America's No. 2 electric vehicle brand; EV sales up 61 percent in Q2
- Company poised for continued growth with new Explorer, Lincoln Aviator, Mustang Mach-E Rally, extended-range E-Transit deliveries starting soon

DEARBORN, Mich., July 3, 2024 – Ford Motor Company's exciting and differentiated U.S. product lineup is resonating with customers, evidenced by second-quarter sales gains across vans, trucks, Lincoln, and hybrid and electric vehicles.

Ford is the number one selling pickup manufacturer in the world and its F-Series truck lineup remains America's best-selling, outselling second place Silverado by 71,000 and Ram by 173,000 trucks through June of this year. Maverick and Maverick Hybrid – the No. 1 selling hybrid truck in the U.S. – set new first half records. F-Series sales totaled 199,463 in Q2, up 30 percent from Q1.

Transit, America's best-selling van posted a new first half sales record. Ford set an all-time record for SUV sales during the first half of 2024, topping the previous record set in 2017. And importantly, customers continue to find value in Ford software and service offerings that make their lives easier.

"From the urban customer who wants the capability of a small pickup like Maverick to the businesses that rely on Transit vans to help drive the American economy, the distinctive Ford lineup is resonating with customers," said Andrew Frick, president, Ford Blue. "Hybrid and electric vehicles are driving growth, as are post-purchase experiences, like BlueCruise hands-free highway driving, the Ford Pro Intelligence software platform and remote vehicle servicing options."

Ford total vehicle sales for the second quarter were up 1 percent year-over-year. Total truck sales (including pickups and vans) of 308,920 were up 5 percent compared to 2023, representing Ford's best Q2 truck sales performance since 2019.

F-150, Ranger and all-new Lincoln Nautilus production continues to scale, and more new vehicles are on the way. The new Ford Explorer will soon begin shipping to dealers, followed by the new Lincoln Aviator, Mustang Mach-E Rally and extended-range E-Transit.

Maverick, F-150 Boost Ford Hybrid Sales 56 Percent

Ford hybrid sales increased 56 percent to 53,822 – a new quarterly sales record since Ford first offered hybrid models more than two decades ago.

Leading the way: the Maverick, America's best-selling hybrid pickup, with sales totaling 40,420 through the first half of the year. Customers who seek capability, space, versatility and efficiency are turning to Maverick – even if they've never owned a truck or Ford vehicle before. Approximately 60 percent of all Maverick Hybrid customers come from other brands, and many are trading in their small SUVs and compact cars for the affordable midsize Maverick pickup.

Maverick's largest market is California and, based on the most recent registration data, Maverick is the top choice among female consumers in the midsize pickup segment.

Second to Maverick among hybrid pickups is the new F-150 Hybrid, with sales totaling 33,674 through the first half of the year, up 38 percent. Sales of the new 2024 F-150 Hybrid model started in the second quarter and steadily climbed through the three-month period, helping to lift overall Ford truck sales to a 5 percent gain for the quarter. F-150 Hybrid represented 20 percent of non-EV F-150 sales for Q2. No other competitor has the advantage of Ford's truck powertrain lineup of gas, hybrid and electric vehicles.

Electric Vehicle Sales Surge; Ford No. 2 EV Brand

Electric vehicle sales increased 61 percent in the second quarter with 23,957 sold and are up 72 percent for the year. With 44,180 total EVs sold for the first half of the year, Ford brand electric vehicles trail only Tesla.

Mustang Mach-E and F-150 Lightning are drawing customers from other brands; 62 percent of F-150 Lightning and 54 percent of Mustang Mach-E sales are new to Ford.

Mustang Mach-E sales rose 46 percent over last year and are up 58 percent through the first half of the year. Year-to-date sales represent Mustang Mach-E's best performance since launch.

Sales of America's No. 1 selling electric truck, the F-150 Lightning, totaled 15,645 through June of this year. F-150 Lightning sales for Q2 totaled 7,902, up 77 percent from a year ago.

The Ford E-Transit was America's best-selling electric van with total first half sales of 6,301, more than double the amount sold during the first half of 2023. During Q2, E-Transit sales were up 96 percent. This represents E-Transit's best quarterly sales since its debut in 2022.

Three of every four E-Transit sales this year are from repeat customers as businesses see for themselves the lower maintenance and fuel costs that come with an electric vehicle.

Transit Posts Record Sales; Ford Pro Intelligence Subscriptions Rise

Ford has led the commercial van segment for 45 straight years and is off to a record Transit start this year. In Q2, Ford Transit and E-Series combined accounted for half of the full-size commercial van segment. Now in its 10th year, Transit, America's best-selling van, posted sales of 82,164 vans in the first half of the year – up 28 percent.

F-Series Super Duty sales continue to grow with first half sales up 8 percent.

Ford Pro Intelligence software platform now has approximately 600,000 subscribers, based on end of quarter estimates, up about 33 percent since last year and 7 percent compared to Q1.

Ford Brand SUVs Post Record First-Half Sales

Ford-brand SUVs had a record first half on sales of 406,467 – up 3 percent, led by Explorer, America's best-selling three-row SUV, with sales totaling 104,803.

Escape sales were up 15 percent for the half on sales of 74,538 small SUVs, while Expedition was up 10 percent.

All-New Nautilus Leads Lincoln Sales Gains

Sales at Lincoln accelerated in Q2 on the strong reception to the all-new Lincoln Nautilus. Overall, Lincoln sales were up 19 percent, with Nautilus leading the way on sales of 8,273 SUVs. In Q2, Nautilus hybrid represented 44 percent of all Nautilus sales. Corsair sales were up 17 percent in Q2, while Aviator sales were up 90 percent.

Customers are drawn to the new Lincoln Digital Experience in the Nautilus, which received a Wards Ten Best Interior and UX recognition for its new panoramic screen. Lincoln and Ford will carry the screen into future vehicle interiors.

Remote Services Continued Rapid Growth

Ford and Lincoln dealers continue to give customers a time-saving life hack. The number of appointments for Remote Services – in which technicians drive out to service a customer's vehicle – and Pickup & Delivery – in which a dealer employee picks up a customer's vehicle, services it and delivers it back to them – reached 1.8 million during the first six months of 2024.

That's a 175 percent increase compared with the same period in 2023.

###

About Ford Motor Company

Ford Motor Company (NYSE: F) is a global company based in Dearborn, Michigan, committed to helping build a better world, where every person is free to move and pursue their dreams. The company's Ford+ plan for growth and value creation combines existing strengths, new capabilities and always-on relationships with customers to enrich experiences for customers and deepen their loyalty. Ford develops and delivers innovative, must-have Ford trucks, sport utility vehicles, commercial vans and cars and Lincoln luxury vehicles, along with connected services. The company does that through three customer-centered business segments: Ford Blue, engineering iconic gas-powered and hybrid vehicles; Ford Model e, inventing breakthrough EVs along with embedded software that defines exceptional digital experiences for all customers; and Ford Pro, helping commercial customers transform and expand their businesses with vehicles and services tailored to their needs. Additionally, Ford provides financial services through Ford Motor Credit Company. Ford employs about 176,000 people worldwide. More information about the company and its products and services is available at corporate.ford.com.

*U.S. sales volume reflects transactions with (i) retail and fleet customers (as reported by dealers), (ii) government and (iii) Ford management. Average transaction pricing based on J.D. Power and Associates PIN data.

Cautionary Note on Forward-Looking Statements

Statements included or incorporated by reference herein may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on expectations, forecasts, and assumptions by our management and involve a number of risks, uncertainties, and other factors that could cause actual results to differ materially from those stated, including, without limitation:

- Ford is highly dependent on its suppliers to deliver components in accordance with Ford's
 production schedule and specifications, and a shortage of or inability to acquire key components
 or raw materials, such as lithium, cobalt, nickel, graphite, and manganese, can disrupt Ford's
 production of vehicles;
- To facilitate access to the raw materials and other components necessary for the production of
 electric vehicles, Ford has entered into and may, in the future, enter into multi-year commitments
 to raw material and other suppliers that subject Ford to risks associated with lower future demand
 for such items as well as costs that fluctuate and are difficult to accurately forecast;
- Ford's long-term competitiveness depends on the successful execution of Ford+;
- Ford's vehicles could be affected by defects that result in recall campaigns, increased warranty
 costs, or delays in new model launches, and the time it takes to improve the quality of our
 vehicles and services could continue to have an adverse effect on our business;
- Ford may not realize the anticipated benefits of existing or pending strategic alliances, joint ventures, acquisitions, divestitures, or business strategies;
- Ford may not realize the anticipated benefits of restructuring actions and such actions may cause Ford to incur significant charges, disrupt our operations, or harm our reputation;
- Operational information systems, security systems, vehicles, and services could be affected by cybersecurity incidents, ransomware attacks, and other disruptions and impact Ford and Ford Credit as well as their suppliers and dealers;
- Ford's production, as well as Ford's suppliers' production, and/or the ability to deliver products to consumers could be disrupted by labor issues, public health issues, natural or man-made disasters, adverse effects of climate change, financial distress, production difficulties, capacity limitations, or other factors:
- Failure to develop and deploy secure digital services that appeal to customers could have a negative impact on Ford's business;
- Ford's ability to maintain a competitive cost structure could be affected by labor or other constraints;
- Ford's ability to attract, develop, grow, and reward talent is critical to its success and competitiveness;
- Ford's new and existing products and digital, software, and physical services are subject to
 market acceptance and face significant competition from existing and new entrants in the
 automotive and digital and software services industries, and its reputation may be harmed if it is
 unable to achieve the initiatives it has announced;
- Ford's results are dependent on sales of larger, more profitable vehicles, particularly in the United States;
- With a global footprint and supply chain, Ford's results and operations could be adversely
 affected by economic or geopolitical developments, including protectionist trade policies such as
 tariffs, or other events;
- Industry sales volume can be volatile and could decline if there is a financial crisis, recession, public health emergency, or significant geopolitical event;

- Ford may face increased price competition or a reduction in demand for its products resulting from industry excess capacity, currency fluctuations, competitive actions, or other factors, particularly for electric vehicles;
- Inflationary pressure and fluctuations in commodity and energy prices, foreign currency exchange rates, interest rates, and market value of Ford or Ford Credit's investments, including marketable securities, can have a significant effect on results;
- Ford and Ford Credit's access to debt, securitization, or derivative markets around the world at competitive rates or in sufficient amounts could be affected by credit rating downgrades, market volatility, market disruption, regulatory requirements, or other factors;
- The impact of government incentives on Ford's business could be significant, and Ford's receipt of government incentives could be subject to reduction, termination, or clawback;
- Ford Credit could experience higher-than-expected credit losses, lower-than-anticipated residual values, or higher-than-expected return volumes for leased vehicles;
- Economic and demographic experience for pension and OPEB plans (e.g., discount rates or investment returns) could be worse than Ford has assumed;
- Pension and other postretirement liabilities could adversely affect Ford's liquidity and financial condition;
- Ford and Ford Credit could experience unusual or significant litigation, governmental investigations, or adverse publicity arising out of alleged defects in products, services, perceived environmental impacts, or otherwise;
- Ford may need to substantially modify its product plans and facilities to comply with safety, emissions, fuel economy, autonomous driving technology, environmental, and other regulations;
- Ford and Ford Credit could be affected by the continued development of more stringent privacy, data use, data protection, and artificial intelligence laws and regulations as well as consumers' heightened expectations to safeguard their personal information; and
- Ford Credit could be subject to new or increased credit regulations, consumer protection regulations, or other regulations.

We cannot be certain that any expectation, forecast, or assumption made in preparing forward-looking statements will prove accurate, or that any projection will be realized. It is to be expected that there may be differences between projected and actual results. Our forward-looking statements speak only as of the date of their initial issuance, and we do not undertake any obligation to update or revise publicly any forward-looking statement, whether as a result of new information, future events, or otherwise. For additional discussion, see "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2023, as updated by our subsequent Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.
