**Intercontinental Exchange, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements**  
**(Unaudited)**

## **1. Description of Business**

### **Nature of Business and Organization**

Intercontinental Exchange, Inc. is a leading global provider of technology and data to a broad range of customers including financial institutions, corporations and government entities. Our products, which span major asset classes including futures, equities, fixed income and United States, or U.S., residential mortgages, provide our customers with access to mission critical tools that are designed to increase asset class transparency and workflow efficiency. Our business is conducted through three reportable business segments:

- **Exchanges:** We operate regulated marketplace technology for the listing, trading and clearing of a broad array of derivatives contracts and financial securities as well as data and connectivity services related to our exchanges and clearing houses.
- **Fixed Income and Data Services:** We provide fixed income pricing, reference data, indices, analytics and execution services as well as global credit default swap, or CDS, clearing and multi-asset class data delivery technology.
- **Mortgage Technology:** We provide a technology platform that offers customers comprehensive, digital workflow tools that aim to address inefficiencies and mitigate risks that exist in the U.S. residential mortgage market life cycle from application through closing, servicing and the secondary market.

We operate marketplaces, technology and provide data services in the U.S., United Kingdom, or U.K., European Union, or EU, Canada, Asia Pacific and the Middle East.

## **2. Summary of Significant Accounting Policies**

### **Basis of Presentation**

The unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles, or U.S. GAAP, pursuant to the rules and regulations of the Securities and Exchange Commission, or SEC, regarding interim financial reporting. Accordingly, the unaudited consolidated financial statements do not include all of the information and notes required by U.S. GAAP for complete financial statements and should be read in conjunction with our audited consolidated financial statements and related notes thereto for the year ended December 31, 2023. The unaudited consolidated financial statements reflect all adjustments that are, in our opinion, necessary for a fair presentation of results for the interim periods presented. We believe that these adjustments are of a normal recurring nature.

Preparing financial statements in conformity with U.S. GAAP requires us to make certain estimates and assumptions that affect the amounts that are reported in our consolidated financial statements and accompanying notes. Actual amounts could differ from those estimates. The results of operations for the six and three months ended June 30, 2024 are not necessarily indicative of the results to be expected for any future period or the full fiscal year.

These statements include the accounts of our wholly-owned and controlled subsidiaries. All intercompany balances and transactions between us and our wholly-owned and controlled subsidiaries have been eliminated in consolidation. For consolidated subsidiaries in which our ownership is less than 100% and for which we have control over the assets and liabilities and the management of the entity, the outside stockholders' interests are shown as non-controlling interests.

We have considered the impacts of macroeconomic conditions during the quarter, including interest rates, the inflationary environment, election outcomes, geopolitical events and military conflicts, including repercussions from the conflicts in Ukraine, Israel and Gaza and the impacts that any of the foregoing may have on the global economy and on our business. As of June 30, 2024, our businesses and operations, including our exchanges, clearing houses, listings venues, data services businesses and mortgage platforms, have not suffered a material negative impact as a result of these events. There continues to be uncertainty surrounding the current macroeconomic environment and the impact that it may have on the global economy and on our business.

### Recently Adopted Accounting Pronouncements

During the six months ended June 30, 2024, there were no significant changes to the new and recently adopted accounting pronouncements applicable to us from those disclosed in Note 2 to the consolidated financial statements in Part II, Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2023, or the 2023 Form 10-K.

### 3. Acquisitions and Divestitures

#### Black Knight, Inc.

On September 5, 2023, we acquired 100% of the equity interests in Black Knight, Inc., or Black Knight, for aggregate transaction consideration of approximately \$11.8 billion. The aggregate cash component of the transaction consideration was \$10.5 billion. We issued 10.9 million shares of ICE common stock to Black Knight stockholders, which was based on the market price of our common stock and the average of the volume weighted averages of the trading prices of our common stock on each of the ten consecutive trading days ending three trading days prior to the closing of the merger. We expect that this transaction will build on our position as a provider of end-to-end electronic workflow solutions for the rapidly evolving U.S. residential mortgage industry. We believe the Black Knight ecosystem adds value for clients of all sizes across the mortgage and real estate lifecycles by helping organizations lower costs, increase efficiencies, grow their businesses, and reduce risk.

On September 14, 2023, or the Divestiture Date, in connection with the merger agreement, we sold Black Knight's Optimal Blue and Empower loan origination system, or LOS, businesses, or the Divestitures, to subsidiaries of Constellation Software, Inc. The cash proceeds from the Divestitures were \$241 million. The structure of the Optimal Blue transaction also included a promissory note with a face value of \$500 million, or the Promissory Note, issued by the purchaser to Black Knight, as a subsidiary of ICE, at the closing of the transaction. The Promissory Note had a 40-year term with a maturity date of September 5, 2063, and a coupon interest rate of 7.0% per year. The Promissory Note was valued at \$235 million on the Divestiture Date. In accordance with Accounting Standards Codification, or ASC, 805, *Business Combinations*, or ASC 805, as well as ASC 360, *Impairment and Disposal of Long-Lived Assets*, we are required to measure an acquired long-lived asset or disposal group that is classified as held for sale at the acquisition date at fair value less cost to sell. Accordingly, there was no gain or loss recognized on the Divestitures.

For the period between the acquisition date of September 5, 2023 through the Divestiture Date, the discontinued operations of Empower and Optimal Blue were immaterial.

Pursuant to the Agreement Containing Consent Orders entered into between the Federal Trade Commission, or the FTC, and ICE and Black Knight, the Promissory Note was required to be sold within six months of the Divestiture Date. We elected the fair value option for the right to receive the net proceeds of the sale of the Promissory Note. As of December 31, 2023, we wrote down the value of the Promissory Note to \$75 million based on Level 3 inputs (Note 14), resulting in a fair value loss of \$160 million. In February 2024, the FTC approved the buyer of the Promissory Note, and we completed the sale of the Promissory Note and received the \$75 million of proceeds thereafter.

The estimated net fair value of the consideration transferred for Black Knight was approximately \$11.4 billion as of the acquisition date, which consisted of the following (in millions):

	<b>Transaction Consideration</b>
Cash	\$ 10,542
ICE common stock*	1,274
Converted vested Black Knight awards	22
Total preliminary purchase price	\$ 11,838
Less: Divestitures	(476)
Total net preliminary purchase price	\$ 11,362

\*Fair value of the ICE common stock is based on the ICE closing stock price on September 1, 2023, the last business day prior to the acquisition close.

The purchase price has been allocated to the net tangible and identifiable intangible assets and liabilities based on the preliminary respective estimated fair values on the date of acquisition. The excess of the purchase price over the net tangible and identifiable intangible assets has been recorded as goodwill, of which \$186 million is expected to be deductible for tax purposes. Goodwill represents potential revenue synergies related to new product development, various expense synergies and opportunities to enter new markets, and is assigned to our Mortgage Technology business segment. The preliminary net purchase price allocation is as follows (in millions):

	<b>Net Preliminary Purchase Price Allocation</b>
Cash and cash equivalents	\$ 108
Property and equipment	120
Goodwill	9,421
Identifiable intangibles	4,948
Debt acquired	(2,397)
Other assets and liabilities, net	62
Deferred tax liabilities on identifiable intangibles	(1,266)
Other deferred tax assets	366
<b>Net preliminary purchase price</b>	<b>\$ 11,362</b>

In performing the net preliminary purchase price allocation, we considered, among other factors, the intended future use of acquired assets, analysis of historical financial performance and estimates of future performance of the Black Knight business. For the identified intangible assets, the fair values have been preliminarily determined using the income and cost approaches and are partially based on inputs that are unobservable including forecasted future cash flows, revenue and margin growth rates, customer attrition rates and discount rates that require judgement and are subject to change. We have not yet obtained all of the information related to the fair value of the acquired assets and liabilities.

The primary areas of the preliminary purchase price allocation that are not yet finalized relate to the valuation of the identifiable intangible assets, income taxes and certain other tangible assets and liabilities. The allocation of the purchase price will be finalized upon the completion of the analysis of the acquired assets and liabilities within one year of the date of acquisition.

The following table sets forth the components of the preliminary intangible assets associated with the acquisition as of June 30, 2024 (in millions, except years):

	<b>Acquisition-Date Preliminary Fair Value</b>	<b>Weighted average life (Years)</b>
Developed Technology	\$ 1,176	10
Trademarks/Tradenames	159	19
Customer Relationships	3,034	13
Data and Databases	579	10
<b>Total</b>	<b>\$ 4,948</b>	<b>12</b>

Black Knight revenues of \$536 million and \$266 million and operating expenses of \$563 million and \$275 million were recorded in our consolidated statement of income for the six and three months ended June 30, 2024, respectively. Black Knight revenues are included in our mortgage technology revenues.

The financial information in the table below combines the historical results for us and Black Knight for the six and three months ended June 30, 2023, on a pro forma basis, as though the companies had been combined as of the beginning of the prior periods presented (in millions). The unaudited pro forma financial information is presented for informational purposes only and is not indicative of the results of operations that would have been achieved if the acquisition had taken place at the beginning of the periods presented. Such unaudited pro forma financial information is based on the historical financial statements of ICE and Black Knight. This unaudited pro forma financial information is based on estimates and assumptions that have been made solely for purposes of developing such unaudited pro forma information, including, without limitation, purchase accounting adjustments, interest expense on debt issued to finance the purchase price, acquisition-related transaction costs, the removal of historical Black Knight intangible asset amortization and the addition of intangible asset amortization related to this acquisition. The unaudited pro forma financial information does not reflect any synergies or operating cost reductions that have been and may be achieved from the combined operations.

	<b>Six Months Ended June 30, 2023</b>	<b>Three Months Ended June 30, 2023</b>
Total revenues, less transaction-based expenses	\$ 4,344	\$ 2,169
Net income attributable to ICE	\$ 1,281	\$ 737

Transaction-based expenses included within revenues, less transaction-based expenses in the table above were not impacted by pro forma adjustments and agree to the amounts presented historically in our consolidated statements of income as they relate solely to ICE and not to Black Knight.

## 4. Investments

### Equity Method Investments

Our equity method investments include the Options Clearing Corporation, or OCC, and Bakkt Holdings, Inc. and Bakkt Opco Holdings, LLC, or collectively, Bakkt, among others. Our equity method investments are included in other non-current assets in the consolidated balance sheets. We initially record our equity method investments at cost. At the end of each reporting period, we record our share of profits or losses of our equity method investments as equity earnings included in other income and adjust the carrying value of our equity method investment accordingly. In addition, if and when our equity method investments issue cash dividends to us, we deduct the amount of these dividends from the carrying amount of that investment. We assess the carrying value periodically if impairment indicators are present.

We recognized \$45 million and \$65 million as our share of estimated losses, net, from our equity method investments during the six months ended June 30, 2024 and 2023, respectively, and \$3 million and \$30 million as our share of estimated losses, net, from our equity method investments during the three months ended June 30, 2024 and 2023, respectively. The estimated losses are primarily related to our investment in Bakkt, partially offset by our share of OCC profits. Both periods include adjustments to reflect the difference between reported prior period actual results from our original estimates.

When performing our assessment of the carrying value of our investments, we consider, among other things, the length of time and the extent to which the market value has been less than our cost basis, if applicable, the investee's financial condition and near-term prospects, the economic or technological environment in which our investees operate, weakening of the general market condition of the related industry, whether an investee can continue as a going concern, any impairment charges recorded by an investee on goodwill, intangible or long-lived assets, and our intent and ability to retain the investment for a period of time sufficient to allow for any anticipated recovery in market value.

#### *OCC*

We own a 40% interest in OCC through a direct investment by the New York Stock Exchange, or NYSE. OCC is regulated by the SEC as a registered clearing agency and by the Commodity Futures Trading Commission, or CFTC, as a derivatives clearing organization. OCC serves as a clearing house for securities options, securities futures, commodity futures and options on futures traded on various independent exchanges. OCC clears securities options traded on NYSE Arca and NYSE Amex Options, along with other non-affiliated exchanges.

#### *Bakkt*

As of June 30, 2024 and December 31, 2023, we held an approximate 55% and 64% economic interest in Bakkt, respectively. As a result of limitations on ICE from the Bakkt voting agreement entered into in connection with Bakkt's merger with Victory Park Capital Impact Acquisition Holdings, or VIH, we hold a minority voting interest in Bakkt and treat it as an equity method investment. The decrease in ownership during the six months ended June 30, 2024 is related to Bakkt's offering of shares of its Class A common stock and warrants to purchase shares of its Class A common stock, which diluted our ownership. As part of the offering, on February 29, 2024, we entered into a securities purchase agreement to purchase shares of Bakkt's Class A common stock and warrants to purchase additional shares of Bakkt's Class A common stock for a total of \$10 million.

As of June 30, 2024, the carrying value of our investment in Bakkt was determined to be \$19 million. As Bakkt is a public company with a readily available market price, the fair value of our investment was \$141 million as of June 30, 2024, which was based on the quoted market price of Bakkt Class A common stock as of June 30, 2024.

## 5. Revenue Recognition

Substantially all of our revenues are considered to be revenues from contracts with customers. The related accounts receivable balances are recorded in our consolidated balance sheets as customer accounts receivable. We do not have obligations for warranties, returns or refunds to customers, other than rebates, which are settled each period and therefore do not result in variable consideration. We do not have significant revenue recognized from performance obligations that were satisfied in prior periods. Certain judgments and estimates are used in the identification and timing of satisfaction of performance obligations and the related allocation of transaction price. We believe that these represent a faithful depiction of the transfer of services to our customers.

Deferred revenue represents our contract liabilities related to our annual, original and other listings revenues, certain data services, clearing services, mortgage technology services and other revenues. See Note 7 for our discussion of deferred revenue balances, activity, and expected timing of recognition.

For all of our contracts with customers, except for listings and certain data, clearing and mortgage services, our performance obligations are short term in nature and there is no significant variable consideration. In addition, we have elected the practical expedient of excluding sales taxes from transaction prices.

Refer to Notes 2 and 5 to the consolidated financial statements included in Part II, Item 8 of our 2023 Form 10-K where we describe our revenue recognition accounting policies and our primary revenue contract classifications in detail.

### Disaggregation of Revenues

The following table depicts the disaggregation of our revenues according to business line and segment (in millions). Amounts here have been aggregated as they follow consistent revenue recognition patterns, and are consistent with the segment information in Note 15:

	Exchanges Segment	Fixed Income and Data Services Segment	Mortgage Technology Segment	Total Consolidated
<b>Six Months Ended June 30, 2024:</b>				
Total revenues <sup>(1)</sup>	\$ 3,560	\$ 1,133	\$ 1,005	\$ 5,698
Transaction-based expenses	1,091	—	—	1,091
Total revenues, less transaction-based expenses	<u>\$ 2,469</u>	<u>\$ 1,133</u>	<u>\$ 1,005</u>	<u>\$ 4,607</u>

### Timing of Revenue Recognition

Services transferred at a point in time	\$ 1,499	\$ 212	\$ 220	\$ 1,931
Services transferred over time	970	921	785	2,676
Total revenues, less transaction-based expenses	<u>\$ 2,469</u>	<u>\$ 1,133</u>	<u>\$ 1,005</u>	<u>\$ 4,607</u>

(1) Included in total revenues is revenue related to net interest income earned on cash margin received from clearing members at certain ICE clearing houses. These amounts were \$47 million and \$72 million recorded in Exchanges and Fixed Income and Data Services segments, respectively.

	Exchanges Segment	Fixed Income and Data Services Segment	Mortgage Technology Segment	Total Consolidated
<b>Three Months Ended June 30, 2024:</b>				
Total revenues <sup>(1)</sup>	\$ 1,826	\$ 565	\$ 506	\$ 2,897
Transaction-based expenses	580	—	—	580
Total revenues, less transaction-based expenses	<u>\$ 1,246</u>	<u>\$ 565</u>	<u>\$ 506</u>	<u>\$ 2,317</u>

### Timing of Revenue Recognition

Services transferred at a point in time	\$ 757	\$ 101	\$ 114	\$ 972
Services transferred over time	489	464	392	1,345
Total revenues, less transaction-based expenses	<u>\$ 1,246</u>	<u>\$ 565</u>	<u>\$ 506</u>	<u>\$ 2,317</u>

(1) Included in total revenues is revenue related to net interest income earned on cash margin received from clearing members at certain ICE clearing houses. These amounts were \$23 million and \$34 million recorded in Exchanges and Fixed Income and Data Services segments, respectively.

	Exchanges Segment	Fixed Income and Data Services Segment	Mortgage Technology Segment	Total Consolidated
<b>Six Months Ended June 30, 2023:</b>				
Total revenues <sup>(1)</sup>	\$ 3,214	\$ 1,109	\$ 485	\$ 4,808
Transaction-based expenses	1,024	—	—	1,024
Total revenues, less transaction-based expenses	<u>\$ 2,190</u>	<u>\$ 1,109</u>	<u>\$ 485</u>	<u>\$ 3,784</u>

#### Timing of Revenue Recognition

Services transferred at a point in time	\$ 1,263	\$ 229	\$ 148	\$ 1,640
Services transferred over time	927	880	337	2,144
Total revenues, less transaction-based expenses	<u>\$ 2,190</u>	<u>\$ 1,109</u>	<u>\$ 485</u>	<u>\$ 3,784</u>

(1) Included in total revenues is revenue related to net interest income earned on cash margin received from clearing members at certain ICE clearing houses. These amounts were \$44 million and \$78 million recorded in Exchanges and Fixed Income and Data Services segments, respectively.

	Exchanges Segment	Fixed Income and Data Services Segment	Mortgage Technology Segment	Total Consolidated
<b>Three Months Ended June 30, 2023:</b>				
Total revenues <sup>(1)</sup>	\$ 1,541	\$ 546	\$ 249	\$ 2,336
Transaction-based expenses	448	—	—	448
Total revenues, less transaction-based expenses	<u>\$ 1,093</u>	<u>\$ 546</u>	<u>\$ 249</u>	<u>\$ 1,888</u>

#### Timing of Revenue Recognition

Services transferred at a point in time	\$ 628	\$ 106	\$ 81	\$ 815
Services transferred over time	465	440	168	1,073
Total revenues, less transaction-based expenses	<u>\$ 1,093</u>	<u>\$ 546</u>	<u>\$ 249</u>	<u>\$ 1,888</u>

(1) Included in total revenues is revenue related to net interest income earned on cash margin received from clearing members at certain ICE clearing houses. These amounts were \$20 million and \$41 million recorded in Exchanges and Fixed Income and Data Services segments, respectively.

The Exchanges segment and the Fixed Income and Data Services segment revenues above include data services revenues. Our data services revenues are transferred over time, and a majority of those revenues are performed over a short period of time of one month or less and relate to subscription-based data services billed monthly, quarterly or annually in advance. These revenues are recognized ratably over time as our data delivery performance obligations are met consistently throughout the period.

The Exchanges segment revenues transferred over time in the tables above include services related to listings, risk management of open interest performance obligations and regulatory fees, trading permits, and software licenses.

The Fixed Income and Data Services segment revenues transferred over time in the tables above include services related to risk management of open interest performance obligations, primarily in our CDS business.

The Mortgage Technology segment revenues transferred over time in the tables above primarily relate to our origination and servicing technology revenue where performance obligations consist of a series of distinct services and are recognized over the contract terms as subscription performance obligations are satisfied and, to a lesser extent, professional services revenues and revenues from certain of our data and analytics offerings.

The components of services transferred over time for each of our segments are as follows:

	Six Months Ended June 30,		Three Months Ended June 30,	
	2024	2023	2024	2023
<b>Exchanges Segment:</b>				
Data services revenues	\$ 475	\$ 463	\$ 240	\$ 231
Services transferred over time related to risk management of open interest performance obligations	187	151	94	75
Services transferred over time related to listings	244	252	122	126
Services transferred over time related to regulatory fees, trading permits, and software licenses	64	61	33	33
<b>Total</b>	<b>\$ 970</b>	<b>\$ 927</b>	<b>\$ 489</b>	<b>\$ 465</b>
<b>Fixed Income Data Services Segment:</b>				
Data services revenues	\$ 906	\$ 864	\$ 457	\$ 434
Services transferred over time related to risk management of open interest performance obligations in our CDS business	15	16	7	6
<b>Total</b>	<b>\$ 921</b>	<b>\$ 880</b>	<b>\$ 464</b>	<b>\$ 440</b>
<b>Mortgage Technology Segment:</b>				
Recurring revenues	\$ 777	\$ 329	\$ 387	\$ 164
Other	8	8	5	4
<b>Total</b>	<b>\$ 785</b>	<b>\$ 337</b>	<b>\$ 392</b>	<b>\$ 168</b>
<b>Total consolidated revenues transferred over time</b>	<b>\$ 2,676</b>	<b>\$ 2,144</b>	<b>\$ 1,345</b>	<b>\$ 1,073</b>

### Transaction Price Allocated to Future Performance Obligations

Our disclosure of transaction price allocated to future performance obligations excludes the following:

- Volume-based fees in excess of contractual minimums and other usage-based fees to the extent they are part of a single performance obligation and meet certain variable consideration allocation criteria;
- Performance obligations that are part of a contract with an original expected duration of one year or less; and
- Transactional fees based on a fixed fee per transaction when we have the right to invoice once we have completed the performance obligation.

As of June 30, 2024, the aggregate amount of the transaction price that is allocated to our future performance obligations was approximately \$3.8 billion and was primarily related to contracts with customers in the Mortgage Technology segment. We expect this amount to be recognized as revenue as follows: 19% by December 31, 2024, 73% by December 31, 2026, 94% by December 31, 2028 and the rest thereafter.

### Contract Assets

A contract asset represents our expectation of receiving consideration in exchange for products or services that we have provided to our customers, but invoicing is contingent on our completion of other performance obligations or contractual milestones. Substantially all of our contract assets are related to contracts with customers in our Mortgage Technology segment. As of June 30, 2024 and December 31, 2023, the balance of our contract assets was \$83 million and \$80 million, respectively.

## 6. Goodwill and Other Intangible Assets

The following is a summary of the activity in our goodwill balance by segment for the six months ended June 30, 2024 (in millions):

	Exchanges Segment	Fixed Income and Data Services Segment	Mortgage Technology Segment	Total Consolidated
Goodwill balance at December 31, 2023	\$ 8,155	\$ 4,854	\$ 17,544	\$ 30,553
Acquisition	—	—	5	5
Foreign currency translation	(8)	(1)	—	(9)
Other activity, net	—	—	4	4
Goodwill balance at June 30, 2024	\$ 8,147	\$ 4,853	\$ 17,553	\$ 30,553

The following is a summary of the activity in our other intangible assets balance for the six months ended June 30, 2024 (in millions):

Other intangible assets balance at December 31, 2023	\$ 17,317
Acquisition	3
Foreign currency translation	(9)
Amortization of other intangible assets	(506)
Other intangible assets balance at June 30, 2024	\$ 16,805

Foreign currency translation adjustments result from a portion of our goodwill and other intangible assets being held at our U.K., EU and Canadian subsidiaries, whose functional currencies are not the U.S. dollar. The changes in other activity, net, in the table above primarily relate to adjustments to the fair value of the net tangible assets made within one year of acquisitions, with a corresponding adjustment to goodwill.

During the six months ended June 30, 2024, we considered potential indicators of impairment to goodwill and other intangible assets for each of our reporting units, which included continued global inflation concerns and changing interest rates, including their effect on our forecasts, among other things. As such, we performed this assessment to determine whether it was more-likely-than-not that goodwill and indefinite lived intangibles within each of our reporting units were impaired. Additionally, we evaluated whether the carrying value of the finite lived intangible assets within our reporting units may not be recoverable. After evaluating events, circumstances and factors which could affect the significant inputs used in our evaluation of cash flows and related fair value, we determined it was not more-likely-than-not that an impairment existed in our goodwill and indefinite lived intangible assets. With the exception of a \$3 million impairment of developed technology within our Exchanges Segment that we recorded in the first quarter of 2024, we determined it was not more-likely-than-not that the carrying amount of our finite lived intangible assets was not recoverable. We plan to perform our annual impairment testing in the fourth quarter. The \$3 million impairment is included in depreciation and amortization expense within the consolidated statement of income for the six months ended June 30, 2024.

## 7. Deferred Revenue

Our contract liabilities, or deferred revenue, represent consideration received that is yet to be recognized as revenue. Total deferred revenue was \$602 million as of June 30, 2024, including \$497 million in current deferred revenue and \$105 million in other non-current liabilities in our consolidated balance sheets. The changes in our deferred revenue during the six months ended June 30, 2024 are as follows (in millions):

	Listings Revenues	Data Services and Other Revenues	Mortgage Technology	Total
Deferred revenue balance at January 1, 2024	\$ 108	\$ 93	\$ 106	\$ 307
Additions	475	265	66	806
Amortization	(244)	(191)	(76)	(511)
Deferred revenue balance at June 30, 2024	\$ 339	\$ 167	\$ 96	\$ 602

The changes in our deferred revenue during the six months ended June 30, 2023 are as follows (in millions):

	Listings Revenues	Data Services and Other Revenues	Mortgage Technology	Total
Deferred revenue balance at January 1, 2023	\$ 115	\$ 88	\$ 51	\$ 254
Additions	474	236	32	742
Amortization	(252)	(175)	(40)	(467)
Deferred revenue balance at June 30, 2023	\$ 337	\$ 149	\$ 43	\$ 529

Included in the amortization recognized during the six and three months ended June 30, 2024 is \$130 million and \$46 million, respectively, related to the deferred revenue balance as of January 1, 2024. Included in the amortization recognized for the six and three months ended June 30, 2023 is \$103 million and \$36 million, respectively, related to the deferred revenue balance as of January 1, 2023. As of June 30, 2024, the remaining deferred revenue balance will be recognized over the period of time we satisfy our performance obligations as described in Note 5.

## 8. Debt

The carrying value of our total debt, including short-term and long-term debt, consisted of the following (in millions):

	As of June 30, 2024	As of December 31, 2023
Short-term debt:		
Commercial Paper	\$ 1,987	\$ 1,954
2025 Senior Notes (3.65%; unsecured due May 23, 2025)	1,247	—
Total short-term debt	3,234	1,954
Long-term debt:		
2025 Term Loan due August 31, 2025	—	1,600
2025 Senior Notes (3.65%; unsecured due May 23, 2025)	—	1,246
2025 Senior Notes (3.75%; unsecured due December 1, 2025)	1,249	1,248
2027 Senior Notes (4.00%; unsecured due September 15, 2027)	1,490	1,489
2027 Senior Notes (3.10%; unsecured due September 15, 2027)	498	498
2028 Senior Notes (3.625%; unsecured due September 1, 2028)	929	920
2028 Senior Notes (3.75%; unsecured due September 21, 2028)	596	596
2029 Senior Notes (4.35%; unsecured due June 15, 2029)	1,242	1,241
2030 Senior Notes (2.10%; unsecured due June 15, 2030)	1,239	1,238
2031 Senior Notes (5.25%; unsecured due June 15, 2031)	743	—
2032 Senior Notes (1.85%; unsecured due September 15, 2032)	1,487	1,486
2033 Senior Notes (4.60%; unsecured due March 15, 2033)	1,490	1,489
2040 Senior Notes (2.65%; unsecured due September 15, 2040)	1,233	1,232
2048 Senior Notes (4.25%; unsecured due September 21, 2048)	1,232	1,232
2050 Senior Notes (3.00%; unsecured due June 15, 2050)	1,223	1,222
2052 Senior Notes (4.95%; unsecured due June 15, 2052)	1,466	1,466
2060 Senior Notes (3.00%; unsecured due September 15, 2060)	1,472	1,472
2062 Senior Notes (5.20%; unsecured due June 15, 2062)	984	984
Total long-term debt	18,573	20,659
Total debt	\$ 21,807	\$ 22,613

As of June 30, 2024, our senior notes of \$19.8 billion had a weighted average maturity of 14 years and a weighted average cost of 3.7% per annum.

### Credit Facilities

We have a \$3.9 billion senior unsecured revolving credit facility, or the Credit Facility, with future capacity to increase our borrowings under the Credit Facility by an additional \$1.0 billion, subject to the consent of the lenders funding the increase and certain other conditions. On May 31, 2024, we agreed with the lenders to extend the maturity date of the Credit Facility from May 25, 2027, to May 31, 2029, among other items. We incurred new debt issuance costs of \$4 million

relating to the Credit Facility and these costs are represented in the accompanying consolidated balance sheet as Other non-current assets and will be amortized over the remaining life of the Credit Facility. No amounts were outstanding under the Credit Facility as of June 30, 2024.

As of June 30, 2024, of the \$3.9 billion that was available for borrowing under the Credit Facility, \$2.0 billion was required to back-stop the notes outstanding under our U.S. dollar commercial paper program, or the Commercial Paper Program, and \$172 million was required to support certain broker-dealer and other subsidiary commitments. Amounts required to back-stop notes outstanding under the Commercial Paper Program will fluctuate as we increase or decrease our commercial paper borrowings. The remaining \$1.7 billion is available for working capital and general corporate purposes including, but not limited to, acting as a back-stop to future amounts outstanding under the Commercial Paper Program.

We previously had a \$2.4 billion two-year senior unsecured delayed draw term loan facility, or the Term Loan, with a maturity date of August 31, 2025. Draws under the Term Loan bore interest on the principal amount outstanding at either (a) Term Secured Overnight Financing Rate, or Term SOFR, plus an applicable margin of 87.5 basis points plus a credit spread adjustment of 10 basis points or (b) a "base rate" plus an applicable margin. The applicable margin ranged from 0.625% to 1.125% for Term SOFR loans and from 0.000% to 0.125% for base rate loans, in each case, based on a ratings-based pricing grid. As of June 30, 2024, we fully repaid our outstanding obligations under the Term Loan. Debt issuance costs incurred in relation to the Term Loan were fully amortized at the time of repayment.

Our India subsidiaries maintain \$14 million of credit lines for their general corporate purposes. As of June 30, 2024, there were no amounts outstanding under these credit lines.

### **Commercial Paper Program**

Our Commercial Paper Program is currently backed by the borrowing capacity available under the Credit Facility, as described above. The effective interest rate of commercial paper issuances does not materially differ from short-term interest rates, which fluctuate due to market conditions and as a result may impact our interest expense. During the six months ended June 30, 2024, we had net borrowings of \$33 million under the Commercial Paper Program.

Commercial paper notes of \$2.0 billion with original maturities ranging from 3 to 45 days were outstanding as of June 30, 2024, with a weighted average interest rate of 5.5% per annum, and a weighted average remaining maturity of 29 days.

### **New Senior Notes**

On May 13, 2024, we issued \$750 million in aggregate principal amount of 5.25% senior notes due 2031, or the 2031 Notes. We intend to use \$500 million of the net proceeds from the offering of the 2031 Notes to repay a portion of the aggregate principal amount of the senior notes maturing in May 2025, or the 2025 Notes. The net proceeds intended to repay the 2025 Notes have been invested and recorded as short-term restricted investments in our consolidated balance sheet as of June 30, 2024. We used the remaining net proceeds to assist with the repayments of the outstanding borrowings under the Term Loan.

We incurred debt issuance costs of \$6 million relating to the issuance of the 2031 Notes and these costs are presented in the accompanying consolidated balance sheet as a deduction from the carrying amount of the related debt liability and will be amortized over the remaining term of the 2031 Notes.

### **Private Exchange Offer**

On June 5, 2024, we completed a private offer to exchange the \$1 billion aggregate principal amount of the outstanding 3.625% senior notes due 2028 issued by Black Knight InfoServ, LLC, or the Black Knight Notes, for new senior notes issued by ICE. As a result of the settlement of the private exchange offer, approximately \$998 million in aggregate principal amount of outstanding Black Knight Notes were cancelled, and ICE issued approximately \$998 million in aggregate principal amount of new senior notes with the same interest payment, maturity dates and interest rate as the Black Knight Notes. In the chart above, the newly issued approximately \$998 million aggregate principal amount of ICE senior notes and the remaining approximately \$2 million aggregate principal amount of outstanding Black Knight Notes are referred to together as the "2028 Senior Notes (3.625%; unsecured due September 1, 2028)".

## **9. Share-Based Compensation**

We currently have employee and non-employee director incentive plans from which we grant stock options, restricted shares, and restricted stock units with various service, performance, and/or market conditions. We also have an employee stock purchase plan available to our employees. Stock options and restricted stock are granted at the discretion of the Compensation Committee of our Board of Directors, or Board, based on the estimated fair value on the date of grant. The fair value of the stock options and restricted stock on the date of grant is recognized as expense over the vesting period, net of estimated forfeitures. The non-cash compensation expenses recognized in our consolidated statements of income for stock options, restricted stock and under our employee stock purchase plan, net of amounts classified as capitalized

software, were \$114 million and \$85 million for the six months ended June 30, 2024 and 2023, respectively, and \$57 million and \$45 million during the three months ended June 30, 2024 and 2023, respectively. For the six and three months ended June 30, 2024, \$10 million and \$4 million, respectively, of the total non-cash compensation expense was recorded within acquisition-related transaction and integration costs in the consolidated statement of income.

## Stock Options

We use the Black-Scholes option pricing model to value our stock option awards. During the six months ended June 30, 2024 and 2023, we used the assumptions in the table below to compute the value:

Assumptions:	Six Months Ended June 30,	
	2024	2023
Risk-free interest rate	4.14%	3.47%
Expected life in years	6.0	6.1
Expected volatility	24%	24%
Expected dividend yield	1.33%	1.56%
Estimated weighted-average fair value of options granted per share	\$37.56	\$27.39

The risk-free interest rate is based on the zero-coupon U.S. Treasury yield curve in effect at the date of grant. The expected life is derived from historical and anticipated future exercise patterns. Expected volatility is based on historical volatility data of our stock.

## Restricted Stock

Restricted shares are used as an incentive to attract and retain qualified employees and to align our and our stockholders' interests by linking actual performance to both short and long-term stockholder return. We issue awards that may contain a combination of time, performance and/or market conditions. The grant date fair value of each award is based on the closing stock price of our stock at the date of grant. The grant date fair value of time-based restricted stock is recognized as expense ratably over the vesting period, which is typically three or four years, net of forfeitures.

In February 2024, we reserved a maximum of 0.7 million restricted shares for potential issuance as performance-based restricted shares to certain of our employees. The number of shares ultimately granted under this award will be based on our actual financial performance as compared to financial performance targets set by our Board and the Compensation Committee for the year ending December 31, 2024. The maximum compensation expense to be recognized under these performance-based restricted shares is \$95 million if the maximum financial performance target is met and all 0.7 million shares vest. The compensation expense to be recognized under these performance-based restricted shares will be \$48 million if the target financial performance is met, which would result in 0.4 million shares vesting. For these awards with performance conditions, we recognize expense on an accelerated basis over the three-year vesting period based on our quarterly assessment of the probable 2024 actual financial performance as compared to the 2024 financial performance targets. As of June 30, 2024, our best estimate is that the financial performance level will be above target for 2024. Based on this assessment, we recorded non-cash compensation expense of \$14 million and \$10 million for the six and three months ended June 30, 2024, respectively, related to these awards and the remaining \$44 million in non-cash compensation expense will be recorded on an accelerated basis over the remaining vesting period, including \$17 million which will be recorded over the remainder of 2024.

We also issue awards with a market condition but no performance condition. The fair value of these awards is estimated based on a simulation of various outcomes and includes inputs such as our stock price on the grant date and the valuation of historical awards with market conditions.

## 10. Equity

### Stock Repurchase Program

In December 2021, our Board approved an aggregate of \$3.15 billion for future repurchases of our common stock with no fixed expiration date that became effective on January 1, 2022. The approval of our Board for the stock repurchases does not obligate us to acquire any particular amount of our common stock. In addition, our Board may increase or decrease the amount available for repurchases from time to time. We fund repurchases from our operating cash flow or borrowings under our debt facilities or our Commercial Paper Program. Repurchases may be made from time to time on the open market, through established trading plans, in privately-negotiated transactions or otherwise, in accordance with all applicable securities laws, rules and regulations. We may begin or discontinue stock repurchases at any time and may amend or terminate a Rule 10b5-1 trading plan at any time or enter into additional plans, subject to applicable rules.

In connection with our acquisition of Black Knight, on May 4, 2022 we terminated our Rule 10b5-1 trading plan and suspended share repurchases. Therefore, we did not have any share repurchases during the six and three months ended June 30, 2024 or 2023. As of June 30, 2024, the remaining balance of Board approved funds for future repurchases was \$2.5 billion.

### Dividends

During the six months ended June 30, 2024 and 2023, we declared and paid cash dividends per share of \$0.90 and \$0.84, respectively, for an aggregate payout of \$519 million and \$472 million, respectively. During the three months ended June 30, 2024 and 2023, we declared and paid cash dividends per share of \$0.45 and \$0.42, respectively, for an aggregate payout of \$261 million and \$236 million, respectively. Our Board has adopted a quarterly dividend declaration policy providing that the declaration of any dividends will be approved quarterly by the Board or the Audit Committee, taking into account such factors as our evolving business model, prevailing business conditions, our current and future planned strategic growth initiatives, our financial results and capital requirements and other considerations which our Board deems relevant, without a predetermined annual net income payout ratio.

### Accumulated Other Comprehensive Income/(Loss)

The following tables present changes in the accumulated balances for each component of other comprehensive income/ (loss) (in millions):

	Changes in Accumulated Other Comprehensive Income/(Loss) by Component			
	Foreign currency translation adjustments	Comprehensive income from equity method investment	Employee benefit plans adjustments	Total
Balance, as of December 31, 2023	\$ (230)	\$ 2	\$ (66)	\$ (294)
Other comprehensive income/(loss)	(22)	9	—	(13)
Income tax expense	—	(2)	—	(2)
Net current period other comprehensive income/(loss)	(22)	7	—	(15)
Balance, as of June 30, 2024	\$ (252)	\$ 9	\$ (66)	\$ (309)

	Changes in Accumulated Other Comprehensive Income/(Loss) by Component			
	Foreign currency translation adjustments	Comprehensive income from equity method investment	Employee benefit plans adjustments	Total
Balance, as of March 31, 2024	\$ (248)	\$ 9	\$ (66)	\$ (305)
Other comprehensive loss	(4)	—	—	(4)
Income tax expense	—	—	—	—
Net current period other comprehensive loss	(4)	—	—	(4)
Balance, as of June 30, 2024	\$ (252)	\$ 9	\$ (66)	\$ (309)

Net current period other comprehensive income	31	—	—	31
Balance, as of June 30, 2023	\$ (231)	\$ 2	\$ (55)	\$ (284)

## 11. Income Taxes

Our effective tax rate was 22% and 12% during the six months ended June 30, 2024 and 2023, respectively, and 26% and 4% during the three months ended June 30, 2024 and 2023, respectively. The effective tax rates for the six and three months ended June 30, 2024 were higher than the effective tax rates for the comparable periods in 2023 primarily due to tax benefits resulting from favorable audit settlements and state apportionment changes in the prior periods and the U.K. corporate income tax rate increase to 25% effective for the full year in 2024.

The Organisation for Economic Cooperation and Development, or OECD, Global Anti-Base Erosion Pillar Two minimum tax rules, or Pillar Two, which generally provide for a minimum effective tax rate of 15%, are intended to apply to tax years beginning in 2024. The EU member states and many other countries, including the U.K., our most significant non-U.S. jurisdiction, have committed to implement or have already enacted legislation adopting the Pillar Two rules. In July 2023, the U.K. enacted the U.K. Finance Act 2023, effective as of January 1, 2024, which includes provisions to implement certain portions of the Pillar Two minimum tax rules and includes an election to apply a transitional safe harbor to extend certain effective dates to accounting periods ending on or before June 30, 2028. These new U.K. Pillar Two rules did not have a material impact on our income tax provision as of June 30, 2024.

## 12. Clearing Operations

We operate six clearing houses, each of which acts as a central counterparty that becomes the buyer to every seller and the seller to every buyer for its clearing members or participants, or Members. Through this central counterparty function, the clearing houses provide financial security for each transaction for the duration of the position by limiting counterparty credit risk.

Our clearing houses are responsible for providing clearing services to each of our futures exchanges, and in some cases to third-party execution venues, and are as follows, referred to herein collectively as "the ICE Clearing Houses":

Clearing House	Products Cleared	Exchange where Executed	Location
ICE Clear Europe	Energy, agricultural, interest rates and equity index futures and options contracts	ICE Futures Europe, ICE Futures U.S., ICE Endex, ICE Futures Abu Dhabi and third-party venues	U.K.
ICE Clear U.S.	Agricultural, metals, foreign exchange, or FX, interest rate and equity index futures and/or options contracts	ICE Futures U.S.	U.S.
ICE Clear Credit	OTC North American, European, Asian-Pacific and Emerging Market CDS instruments	Creditex and third-party venues	U.S.
ICE Clear Netherlands	Derivatives on equities and equity indices traded on regulated markets	ICE Endex	The Netherlands
ICE Clear Singapore	Energy, metals and financial futures products	ICE Futures Singapore	Singapore
ICE NGX	Physical North American natural gas, environmental commodities and physical and financial electricity	ICE NGX	Canada

### Original and Variation Margin

Each of the ICE Clearing Houses generally requires all Members to deposit collateral in cash or certain pledged assets. The collateral deposits are known as “original margin.” In addition, the ICE Clearing Houses may make intraday original margin calls in circumstances where market conditions require additional protection. The daily profits and losses to and from the ICE Clearing Houses due to the marking-to-market of open contracts is known as “variation margin.” The ICE Clearing Houses mark all outstanding contracts to market, and, with the exception of ICE NGX’s physical natural gas, physical environmental and physical power products discussed separately below, pay and collect variation margin at least once daily.

The amounts that Members are required to maintain are determined by proprietary risk models established by each ICE Clearing House and reviewed by the relevant regulators, independent model validators, risk committees and the boards of directors of the respective ICE Clearing House. The amounts required may fluctuate over time. Each of the ICE Clearing Houses is a separate legal entity and is not subject to the liabilities of the others, or the obligations of Members of the other ICE Clearing Houses.

Should a particular Member fail to deposit its original margin or fail to make a variation margin payment, when and as required, the relevant ICE Clearing House may liquidate or hedge the defaulting Member’s open positions and use their original margin and guaranty fund deposits to pay any amount owed. In the event that the defaulting Member’s deposits are not sufficient to pay the amount owed in full, the ICE Clearing Houses will first use their respective contributions to the guaranty fund, often referred to as Skin In The Game, or SITG, to pay any remaining amount owed. In the event that the SITG is not sufficient, the ICE Clearing Houses may utilize the respective guaranty fund deposits and default insurance or collect limited additional funds from their respective non-defaulting Members on a pro-rata basis, to pay any remaining amount owed.

As of June 30, 2024 and December 31, 2023, the ICE Clearing Houses had received or had been pledged \$179.0 billion and \$175.9 billion, respectively, in cash and non-cash collateral in original margin and guaranty fund deposits to cover price movements of underlying contracts for both periods.

### Guaranty Funds and ICE Contribution

As described above, mechanisms have been created, called guaranty funds, to provide partial protection in the event of a Member default. With the exception of ICE NGX, each of the ICE Clearing Houses requires that each Member make deposits into a guaranty fund.

In addition, we have contributed our own capital that could be used if a defaulting Member’s original margin and guaranty fund deposits are insufficient. Such amounts are recorded as long-term restricted cash and cash equivalents in our balance sheets and are as follows (in millions):

Clearing House	ICE Portion of Guaranty Fund Contribution		Default insurance	
	As of June 30, 2024	As of December 31, 2023	As of June 30, 2024	As of December 31, 2023
ICE Clear Europe	\$197	\$197	\$100	\$100
ICE Clear U.S.	75	75	25	25
ICE Clear Credit	50	50	75	75
ICE Clear Netherlands	2	2	N/A	N/A
ICE Clear Singapore	1	1	N/A	N/A
ICE NGX	45	15	200	200
<b>Total</b>	<b>\$370</b>	<b>\$340</b>	<b>\$400</b>	<b>\$400</b>

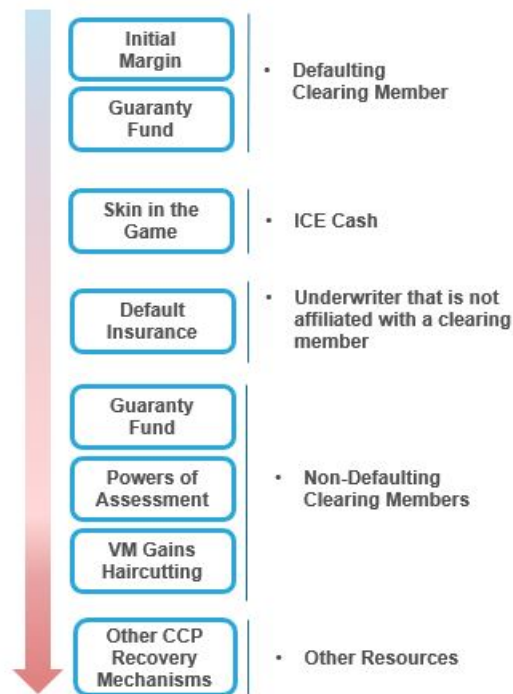

We also maintain default insurance at ICE Clear Europe, ICE Clear U.S. and ICE Clear Credit as an additional layer of clearing member default protection, which is reflected in the table above. The default insurance was renewed in September 2022 and has a three-year term. The default insurance layer resides after and in addition to the ICE Clear Europe, ICE Clear U.S. and ICE Clear Credit SITG contributions and before the guaranty fund contributions of the non-defaulting Members.

Similar to SITG, the default insurance layer is not intended to replace or reduce the position risk-based amount of the guaranty fund. As a result, the default insurance layer is not a factor that is included in the calculation of the Members' guaranty fund contribution requirement. Instead, it serves as an additional, distinct, and separate default resource that should serve to further protect the non-defaulting Members' guaranty fund contributions from being mutualized in the event of a default.

As of June 30, 2024, ICE NGX maintained a guaranty fund of \$215 million, comprised of \$15 million in cash and a \$200 million letter of credit backed by a default insurance policy of the same amount, discussed below. Separately, ICE NGX has also set aside \$30 million of its own capital that could be used for liquidity purposes if a direct participant of the ICE NGX clearinghouse, or Contracting Party, defaulted.

Below is a depiction of our Default Waterfall which summarizes the lines of defense and layers of protection we maintain for our mutualized clearing houses.

#### ICE Clearing House Default Waterfall

## Cash and Invested Margin Deposits

We have recorded cash and invested margin and guaranty fund deposits and amounts due in our balance sheets as current assets with corresponding current liabilities to the Members. As of June 30, 2024, our cash and invested margin deposits were as follows (in millions):

	ICE Clear Europe	ICE Clear Credit	ICE Clear U.S.	ICE NGX	Other ICE Clearing Houses	Total
Original margin	\$ 43,777	\$ 24,477	\$ 5,580	\$ —	\$ 5	\$ 73,839
Unsettled variation margin, net	—	—	—	1,506	—	1,506
Guaranty fund	2,474	3,288	621	—	5	6,388
Delivery contracts receivable/payable, net	—	—	—	396	—	396
<b>Total</b>	<b>\$ 46,251</b>	<b>\$ 27,765</b>	<b>\$ 6,201</b>	<b>\$ 1,902</b>	<b>\$ 10</b>	<b>\$ 82,129</b>

As of December 31, 2023, our cash and invested margin deposits were as follows (in millions):

	ICE Clear Europe	ICE Clear Credit	ICE Clear U.S.	ICE NGX	Other ICE Clearing Houses	Total
Original margin	\$ 40,170	\$ 28,353	\$ 4,693	\$ —	\$ 5	\$ 73,221
Unsettled variation margin, net	—	—	—	984	—	984
Guaranty fund	2,358	3,017	609	—	5	5,989
Delivery contracts receivable/payable, net	—	—	—	600	—	600
<b>Total</b>	<b>\$ 42,528</b>	<b>\$ 31,370</b>	<b>\$ 5,302</b>	<b>\$ 1,584</b>	<b>\$ 10</b>	<b>\$ 80,794</b>

Our cash and invested margin and guaranty fund deposits are maintained in accounts with national banks and highly-rated financial institutions or secured through direct investments, primarily in U.S. Treasury and other highly-rated foreign government securities, or reverse repurchase agreements with primarily overnight maturities. Reverse repos are valued daily and are subject to collateral maintenance provisions pursuant to which the counterparty must provide additional collateral if the underlying securities lose value, in an amount sufficient to maintain collateralization of at least 102%. We primarily use Level 1 inputs when evaluating the fair value of the non-cash equivalent direct investments, as highly-rated government securities are quoted in active markets. The carrying value of these deposits is deemed to approximate fair value.

To provide a tool to address the liquidity needs of our clearing houses and manage the liquidation of margin and guaranty fund deposits held in the form of cash and high quality sovereign debt, ICE Clear Europe, ICE Clear Credit and ICE Clear U.S. have entered into Committed Repurchase Agreement Facilities, or Committed Repo. Additionally, ICE Clear Credit and ICE Clear Netherlands have entered into Committed FX Facilities to support these liquidity needs. As of June 30, 2024, the following facilities were in place:

- **ICE Clear Europe:** \$1.0 billion in Committed Repo to have the ability to convert securities held as collateral into U.S. dollar, euro and pound sterling deposits with same day liquidity.
- **ICE Clear Credit:** \$300 million in Committed Repo (U.S. dollar based) to have the ability to convert U.S. dollar/euro denominated sovereign debt held as collateral into U.S. dollar/euro deposits with same day liquidity, €250 million in Committed Repo (euro based) to have the ability to convert euro/U.S. dollar denominated sovereign debt deposits held as collateral into euro/U.S. dollar denominated deposits with same day liquidity, and €1.9 billion in Committed FX Facilities to have the ability to convert available U.S. dollar denominated cash into euro denominated cash to meet a euro denominated payment obligation with same day liquidity.
- **ICE Clear U.S.:** \$250 million in Committed Repo to have the ability to convert U.S. dollar denominated sovereign debt deposits held as collateral into U.S. dollar deposits with same day liquidity.
- **ICE Clear Netherlands:** €10 million in Committed FX Facilities to have the ability to convert available non-euro denominated cash into euro denominated cash to meet euro denominated payment obligations with same day liquidity.

Details of our deposits are as follows (in millions):

Cash and Cash Equivalent Margin Deposits and Guaranty Funds				
Clearing House	Investment Type	As of June 30, 2024		As of December 31, 2023
ICE Clear Europe	National bank account <sup>(1)</sup>	\$	5,721	\$ 5,819
ICE Clear Europe	Reverse repo		36,480	32,695
ICE Clear Europe	Sovereign debt		3,888	3,745
ICE Clear Europe	Demand deposits		64	40
ICE Clear Credit	National bank account		20,157	22,754
ICE Clear Credit	Reverse repo		4,687	5,381
ICE Clear Credit	Demand deposits		2,921	3,235
ICE Clear U.S.	Reverse repo		5,854	4,955
ICE Clear U.S.	Sovereign Debt		347	347
Other ICE Clearing Houses	Demand deposits		10	9
Total cash and cash equivalent margin deposits and guaranty funds		\$	80,129	\$ 78,980

Invested Deposits, Delivery Contracts Receivable and Unsettled Variation Margin				
Clearing House	Investment Type	As of June 30, 2024		As of December 31, 2023
ICE NGX	Unsettled variation margin and delivery contracts receivable	\$	1,902	\$ 1,584
ICE Clear Europe	Invested deposits - sovereign debt		98	230
Total invested deposits, delivery contracts receivable and unsettled variation margin		\$	2,000	\$ 1,814

(1) As of June 30, 2024, ICE Clear Europe held £4.5 billion (\$5.7 billion based on the pound sterling/U.S. dollar exchange rate of 1.2645 as of June 30, 2024) at the Bank of England, or BOE. As of December 31, 2023, ICE Clear Europe held €11 million (\$12 million based on the euro/U.S. dollar exchange rate of 1.1037 as of December 31, 2023) at the ECB, £4.6 billion (\$5.8 billion based on the pound sterling/U.S. dollar exchange rate of 1.2732 as of December 31, 2023) at the BOE and €10 million (\$11 million based on the above exchange rate) at the BOE.

#### Other Deposits

In addition to the cash and invested deposits above, the ICE Clearing Houses have also received other assets from Members, which include government obligations, and may include other non-cash collateral such as letters of credit at ICE NGX, European emission allowance certificates or gold on rare occasions at ICE Clear Europe, to mitigate credit risk. For certain deposits, we may impose discount or "haircut" rates to ensure adequate collateral if market values fluctuate. These other deposits are not reflected in the consolidated balance sheets as the risks and rewards of these assets remain with the Members unless the clearing houses have sold or re-pledged the assets or in the event of a clearing member default, where the Member is no longer entitled to redeem the assets. Any income, gain or loss accrues to the Members. The ICE Clearing Houses do not, in the ordinary course, rehypothecate or re-pledge these assets. These pledged assets are not reflected in our balance sheets, and are as follows (in millions):

	As of June 30, 2024				
	ICE Clear Europe	ICE Clear Credit	ICE Clear U.S.	ICE NGX	Total
Original margin:					
Government securities at face value	\$ 43,819	\$ 30,143	\$ 13,589	\$ —	\$ 87,551

## ICE NGX

ICE NGX owns a clearing house which administers the physical delivery of energy and environmental trading contracts. ICE NGX is the central counterparty to Members on opposite sides of its physically-settled contracts, and the balance related to delivered but unpaid contracts is recorded as a delivery contract net receivable, with an offsetting delivery contract net payable in our balance sheets. Unsettled variation margin equal to the fair value of open contracts is recorded as of each balance sheet date. There is no impact on our consolidated statements of income as an equal amount is recognized as both an asset and a liability. ICE NGX marks all of its outstanding physical natural gas, physical environmental and physical power contracts to market daily, and requires full collateralization of net accrued variation losses. Due to the highly liquid nature and the short period of time to maturity, the fair values of our delivery contract net payable and net receivable are determined to approximate carrying value.

ICE NGX requires Members to maintain cash or letters of credit to serve as collateral in the event of default. The cash is maintained in a segregated bank account for the benefit of the Member, and remains the property of the Member and, therefore, it is not included in our consolidated balance sheets. ICE NGX maintains a committed daylight-overnight liquidity facility in the amount of \$100 million with an additional \$200 million uncommitted with a third-party Canadian chartered bank which provides liquidity in the event of a settlement shortfall, subject to certain conditions.

As of June 30, 2024, ICE NGX maintains a guaranty fund of \$215 million funded by a \$200 million letter of credit issued by a major Canadian chartered bank and backed by default insurance underwritten by Export Development Canada, or EDC, a Crown corporation operated at arm's length from the Canadian government, plus \$15 million held as restricted cash to fund the first loss amount that ICE NGX is responsible for under the default insurance policy. In the event of a participant default where the Member's collateral is depleted, the shortfall would be covered by a draw down on the letter of credit following which ICE NGX would file a claim under the default insurance to recover additional losses up to \$200 million beyond the \$15 million first-loss amount that ICE NGX is responsible for under the default insurance policy. ICE NGX has also set aside \$30 million of its own capital that could be used for liquidity purposes in the event of a Contracting Party default.

## Clearing House Exposure

The net notional value of unsettled contracts was \$2.2 trillion as of June 30, 2024. Each ICE Clearing House bears financial counterparty credit risk and provides a central counterparty guarantee, or performance guarantee, to its Members. In its guarantor role, each ICE Clearing House has equal and offsetting claims to and from Members on opposite sides of each contract, standing as an intermediary on every contract cleared. To reduce their exposure, the ICE Clearing Houses have a risk management program with both initial and ongoing membership standards. With the exception of ICE NGX, the ICE Clearing Houses mark all outstanding contracts to market and pay and collect variation margin at least once daily.

Excluding the effects of original and variation margin, guaranty fund and collateral requirements and default insurance, the ICE Clearing Houses' maximum estimated exposure for this guarantee would be the intra-day or full day change in fair value if all Members who have open positions with unrealized losses simultaneously defaulted, which is an extremely unlikely scenario. The levels of original margin are calibrated such that a portfolio the ICE Clearing House may be required to liquidate post Member default can be closed or auctioned without recourse to resources other than those deposited by the defaulting Member, assuming an appropriate risk confidence level and liquidation period. In addition to the base margin model, each ICE Clearing House, depending on its products, employs a number of margin add-ons related to position concentration, clearing member capital, volatility, spread responses, recovery rate sensitivity, jump-to-default, and wrong way risk.

We also performed calculations to determine the fair value of our counterparty performance guarantee taking into consideration factors such as daily settlement of contracts, margining and collateral requirements, other elements of our risk management program, historical evidence of default payments, and estimated probability of potential default payouts by the ICE Clearing Houses. Based on these analyses, the estimated counterparty performance guarantee liability was determined to be nominal, and no liability was recorded as of June 30, 2024. The ICE Clearing Houses have never experienced an incident of a clearing member default which has required the use of the guaranty funds of non-defaulting clearing members or the assets of the ICE Clearing Houses.

### 13. Legal Proceedings

In the ordinary course of our business, from time to time we are subject to legal proceedings, lawsuits, government investigations and other claims with respect to a variety of matters. In addition, we are subject to periodic reviews, inspections, examinations and investigations by regulators in the U.S. and other jurisdictions, any of which may result in claims, legal proceedings, assessments, fines, penalties, restrictions on our business or other sanctions. We record estimated expenses and reserves for legal or regulatory matters or other claims when these matters present loss contingencies that are probable and the related amount is reasonably estimable. Any such accruals may be adjusted as circumstances change. Assessments of losses are inherently subjective and involve unpredictable factors. While the outcome of legal and regulatory matters is inherently difficult to predict and/or the range of loss often cannot be reasonably estimable, we do not believe that the liabilities, if any, which may ultimately result from the resolution of the various legal and regulatory matters that arise in the ordinary course of our business, including the PennyMac Arbitration matter described below and those described in Note 16 to the consolidated financial statements in Part II, Item 8 of our 2023 Form 10-K, are likely to have a material adverse effect on our consolidated financial condition, results of operations, or liquidity. It is possible, however, that future results of operations for any particular quarterly or annual period could be materially and adversely affected by any developments relating to these legal and regulatory matters. A range of possible losses related to certain cases cannot be reasonably estimated at this time, except as otherwise disclosed below and in Note 16 to the consolidated financial statements in Part II, Item 8 of our 2023 Form 10-K. Individual matter disclosures in this Form 10-Q are limited to new significant matters or significant updates on existing matters since the 2023 Form 10-K.

#### PennyMac Arbitration Update

In this matter, an American Arbitration Association arbitrator found, among other things, that PennyMac, in developing its Servicing Systems Environment, or SSE, software, engaged in the unauthorized use of Black Knight's confidential information and granted Black Knight's breach of contract claim on this basis. The arbitrator entered a final award of \$157 million in favor of Black Knight on January 12, 2024. On February 14, 2024, PennyMac paid Black Knight \$160 million in satisfaction of the final award (inclusive of applicable interest). In the same arbitration, PennyMac also brought claims under the Sherman and Clayton Acts, seeking \$65 million in damages, subject to trebling. The arbitrator awarded PennyMac zero dollars in damages on its claims. The arbitrator also found unenforceable a legacy provision in Black Knight contracts preventing clients from servicing loans on multiple systems simultaneously. Black Knight never enforced that provision against any customer and has alerted current customers that this provision will not be enforced in the future.

For further information on our legal and regulatory matters, please see Note 16 to the consolidated financial statements in Part II, Item 8 of our 2023 Form 10-K.

### 14. Fair Value Measurements

Fair value is the price that would be received from selling an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Our financial instruments consist primarily of certain short-term and long-term assets and liabilities, customer accounts receivable, margin deposits and guaranty funds, equity and equity method investments, and short-term and long-term debt.

The fair value of our financial instruments is measured based on a three-level hierarchy:

- **Level 1 inputs** — quoted prices for identical assets or liabilities in active markets.
- **Level 2 inputs** — observable inputs other than Level 1 inputs such as quoted prices for similar assets and liabilities in active markets or inputs other than quoted prices that are directly observable.
- **Level 3 inputs** — unobservable inputs supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Financial assets and liabilities recorded or disclosed at fair value in the consolidated balance sheets as of June 30, 2024 and December 31, 2023 were classified in their entirety based on the lowest level of input that is significant to the asset or liability's fair value measurement.

### **Recurring Fair Value Measurements**

Our mutual funds are equity and fixed income mutual funds held for the purpose of providing future payments for our supplemental executive savings plan and our supplemental executive retirement plan. These mutual funds are classified as equity investments and measured at fair value using Level 1 inputs with adjustments recorded in net income.

Excluding our equity investments without a readily determinable fair value, all other financial instruments are determined to approximate carrying value due to the short period of time to their maturities.

As described in Note 3, we measured the right to receive the net proceeds of the sale of the Promissory Note obtained in connection with the Optimal Blue sale using Level 3 inputs. In February 2024, the FTC approved the buyer of the Promissory Note, and we completed the sale of the Promissory Note and received the \$75 million of proceeds thereafter. Subsequent to the sale and as of June 30, 2024, we did not use Level 3 inputs to determine the fair value of assets or liabilities measured at fair value on a recurring basis.

See Note 12 for the fair value considerations related to our margin deposits, guaranty funds and delivery contracts receivable.

### **Non-Recurring Fair Value Measurements**

We measure certain assets, such as intangible assets and equity investments, including equity method investments, at fair value on a non-recurring basis. These assets are recognized at fair value if they are deemed to be impaired. As of December 31, 2023, certain equity method investments were measured at fair value on a non-recurring basis. As of June 30, 2024, with the exception of a \$3 million impairment of a developed technology intangible asset recorded during the three months ended March 31, 2024 within the Exchanges segment, none of our intangible assets or equity method investments were required to be recorded at fair value since no impairments were recorded.

We measure certain equity investments at fair value on a non-recurring basis using our policy election under ASC 321, *Investments - Equity Securities*. During the six months ended June 30, 2024, we evaluated these investments and determined that with the exception of a fair value loss on our investments of \$3 million, which we recorded during the three months ended March 31, 2024 within other income/(expense), net, in the consolidated statement of income, no other adjustments were necessary. As of June 30, 2024, the carrying amount of our investments without readily determinable fair values was \$91 million.

### **Financial Instruments Not Measured at Fair Value**

The table below displays the fair value of our debt as of June 30, 2024. The fair values of our fixed rate notes were estimated using Level 2 inputs including quoted market prices for these instruments. The fair value of other short-term debt approximates par value since the interest rates on this short-term debt approximate market rates as of June 30, 2024.

Debt:	As of June 30, 2024	
	(in millions)	
	Carrying Amount	Fair value
Commercial Paper	\$ 1,987	\$ 1,987
2025 Senior Notes (3.65%; unsecured due May 23, 2025)	1,247	1,230
2025 Senior Notes (3.75%; unsecured due December 1, 2025)	1,249	1,222
2027 Senior Notes (4.00%; unsecured due September 15, 2027)	1,490	1,451
2027 Senior Notes (3.10%; unsecured due September 15, 2027)	498	470
2028 Senior Notes (3.625%; unsecured due September 1, 2028)	929	943
2028 Senior Notes (3.75%; unsecured due September 21, 2028)	596	572
2029 Senior Notes (4.35%; unsecured due June 15, 2029)	1,242	1,211
2030 Senior Notes (2.10%; unsecured due June 15, 2030)	1,239	1,061
2031 Senior Notes (5.25%; unsecured due June 15, 2031)	743	756
2032 Senior Notes (1.85%; unsecured due September 15, 2032)	1,487	1,164
2033 Senior Notes (4.60%; unsecured due March 15, 2033)	1,490	1,433
2040 Senior Notes (2.65%; unsecured due September 15, 2040)	1,233	869
2048 Senior Notes (4.25%; unsecured due September 21, 2048)	1,232	1,026
2050 Senior Notes (3.00%; unsecured due June 15, 2050)	1,223	813
2052 Senior Notes (4.95%; unsecured due June 15, 2052)	1,466	1,367
2060 Senior Notes (3.00%; unsecured due September 15, 2060)	1,472	898
2062 Senior Notes (5.20%; unsecured due June 15, 2062)	984	933
<b>Total debt</b>	<b>\$ 21,807</b>	<b>\$ 19,406</b>

## 15. Segment Reporting

Our business is conducted through three reportable business segments:

- **Exchanges:** We operate regulated marketplace technology for the listing, trading and clearing of a broad array of derivatives contracts and financial securities as well as data and connectivity services related to our exchanges and clearing houses;
- **Fixed Income and Data Services:** We provide fixed income pricing, reference data, indices, analytics and execution services as well as global CDS clearing and multi-asset class data delivery technology; and
- **Mortgage Technology:** We provide a technology platform that offers customers comprehensive, digital workflow tools that aim to address inefficiencies and mitigate risks that exist in the U.S. residential mortgage market life cycle from application through closing, servicing and the secondary market.

While revenues are recorded specifically in the segment in which they are earned or to which they relate, a significant portion of our operating expenses are not solely related to a specific segment because the expenses serve functions that are necessary for the operation of more than one segment. We directly allocate expenses when reasonably possible to do so. Otherwise, we use a pro-rata revenue approach as the allocation method for the expenses that do not relate solely to one segment and serve functions that are necessary for the operation of all segments.

Our chief operating decision maker does not review total assets or statements of income below operating income by segments; therefore, such information is not presented below. Our three segments do not engage in intersegment transactions.

Financial data for our business segments is as follows for the six and three months ended June 30, 2024 and 2023 (in millions):

	<b>Six Months Ended June 30, 2024</b>			
	<b>Exchanges</b>	<b>Fixed Income and Data Services</b>	<b>Mortgage Technology</b>	<b>Consolidated</b>
Revenues:

	<b>Three Months Ended June 30, 2023</b>			
	<b>Exchanges</b>	<b>Fixed Income and Data Services</b>	<b>Mortgage Technology</b>	<b>Consolidated</b>
<b>Revenues:</b>				
Energy futures and options	\$ 355	\$ —	\$ —	\$ 355
Agricultural and metals futures and options	77	—	—	77
Financial futures and options	104	—	—	104
Cash equities and equity options	544	—	—	544
OTC and other	104	—	—	104
Data and connectivity services	231	—	—	231
Listings	126	—	—	126
Fixed income execution	—	28	—	28
CDS clearing	—	84	—	84
Fixed income data and analytics	—	277	—	277
Other data and network services	—	157	—	157
Origination technology	—	—	178	178
Closing solutions	—	—	47	47
Servicing software	—	—	—	—
Data and analytics	—	—	24	24
<b>Revenues</b>	<b>1,541</b>	<b>546</b>	<b>249</b>	<b>2,336</b>
<b>Transaction-based expenses</b>	<b>448</b>	<b>—</b>	<b>—</b>	<b>448</b>
<b>Revenues, less transaction-based expenses</b>	<b>1,093</b>	<b>546</b>	<b>249</b>	<b>1,888</b>
<b>Operating expenses</b>	<b>311</b>	<b>356</b>	<b>266</b>	<b>933</b>
<b>Operating income/(loss)</b>	<b>\$ 782</b>	<b>\$ 190</b>	<b>\$ (17)</b>	<b>\$ 955</b>

Revenues from one member of the Exchanges segment comprised \$274 million, or 11%, and \$117 million, or 9%, of our Exchange revenues, less transaction-based expenses for the six and three months ended June 30, 2024, respectively. Revenues from one member of the Exchanges segment comprised \$254 million, or 12%, and \$130 million, or 12%, of our Exchange revenues, less transaction-based expenses for the six and three months ended June 30, 2023, respectively. Clearing members are primarily intermediaries and represent a broad range of principal trading firms. If a clearing member ceased its operations, we believe that the trading firms would continue to conduct transactions and would clear those transactions through another clearing member firm. No additional customers or clearing members accounted for more than 10% of our segment revenues or consolidated revenues during the six and three months ended June 30, 2024 or 2023.

## 16. Earnings Per Common Share

The following is a reconciliation of the numerators and denominators of the basic and diluted earnings per common share computations for the six and three months ended June 30, 2024 and 2023 (in millions, except per share amounts):

	Six Months Ended June 30,		Three Months Ended June 30,	
	2024	2023	2024	2023
<b>Basic:</b>				
Net income attributable to Intercontinental Exchange, Inc.	\$ 1,399	\$ 1,454	\$ 632	\$ 799
Weighted average common shares outstanding	573	560	573	560
Basic earnings per common share	\$ 2.44	\$ 2.60	\$ 1.10	\$ 1.43
<b>Diluted:</b>				
Weighted average common shares outstanding	573	560	573	560
Effect of dilutive securities - stock options and restricted stock	2	1	2	1
Diluted weighted average common shares outstanding	575	561	575	561
Diluted earnings per common share	\$ 2.43	\$ 2.59	\$ 1.10	\$ 1.42

Basic earnings per common share is calculated using the weighted average common shares outstanding during the period.

Common equivalent shares from stock options and restricted stock awards, calculated using the treasury stock method, are included in the diluted per share calculations unless the effect of their inclusion would be antidilutive. During both the six months ended June 30, 2024 and 2023, 1 million outstanding stock options and restricted stock awards were not included in the computation of diluted earnings per common share, because to do so would have had an antidilutive effect.

## 17. Subsequent Events

We have evaluated subsequent events and determined that no events or transactions met the definition of a subsequent event for purposes of recognition or disclosure in the consolidated financial statements.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

In this Quarterly Report on Form 10-Q, or this Quarterly Report, and unless otherwise indicated, the terms "Intercontinental Exchange," "ICE," "we," "us," "our," "our company" and "our business" refer to Intercontinental Exchange, Inc., together with its consolidated subsidiaries. All references to "options" or "options contracts" in the context of our futures products refer to options on futures contracts. Solely for convenience, references in this Quarterly Report to any trademarks, service marks and trade names owned by ICE are listed without the ®, ™ and © symbols, but we will assert, to the fullest extent under applicable law, our rights to these trademarks, service marks and trade names.

We also include references to third-party trademarks, trade names and service marks in this Quarterly Report. Except as otherwise expressly noted, our use or display of any such trademarks, trade names or service marks is not an endorsement or sponsorship and does not indicate any relationship between us and the parties that own such marks and names.

The following discussion should be read in conjunction with our consolidated financial statements and related notes included elsewhere in this Quarterly Report. Due to rounding, figures in tables may not sum exactly.

### Forward-Looking Statements

This Quarterly Report, including the sections entitled "Notes to Consolidated Financial Statements," "Legal Proceedings" and "Management's Discussion and Analysis of Financial Condition and Results of Operations," contains "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. Any statements contained herein that are not statements of historical fact may be forward-looking statements.

These forward-looking statements relate to future events or our future financial performance and are based on our present beliefs and assumptions as well as the information currently available to us. They involve known and unknown risks, uncertainties and other factors that may cause our results, levels of activity, performance, cash flows, financial position or achievements to differ materially from those expressed or implied by these statements.

Forward-looking statements may be introduced by or contain terminology such as "may," "will," "should," "could," "would," "targets," "goal," "expect," "intend," "plan," "anticipate," "believe," "estimate," "predict," "potential," "continue," or the antonyms of these terms or other comparable terminology. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance, cash flows, financial position or achievements. Accordingly, we caution you not to place undue reliance on any forward-looking statements we may make.

Factors that may affect our performance and the accuracy of any forward-looking statements include, but are not limited to, those listed below:

- conditions in global financial markets and domestic and international economic and social conditions, including inflation, risk of recession, political uncertainty and discord, geopolitical events or conflicts (including the conflicts in Ukraine, Israel and Gaza), international trade policies and sanctions laws;
- global political conditions including the presidential election in the United States, or U.S., and general elections in many jurisdictions in the U.S. and the United Kingdom, or U.K.;
- the impact of the introduction of, or any changes to, laws, regulations, rules or government policies with respect to, among other things, financial markets and climate change, as well as increased regulatory scrutiny or enforcement actions;
- volatility in commodity prices and equity prices, and price volatility of financial benchmarks and instruments such as interest rates, credit spreads, equity indices, foreign exchange rates, and mortgage industry trends;
- the impact of climate change and the transition to renewable energy;
- the business environment in which we operate and trends in our industries, including trading volumes, prevalence of clearing, demand for data services, mortgage lending and servicing activity, mortgage delinquencies, fees, changing regulations, competition and consolidation;
- our ability to minimize the risks associated with operating clearing houses in multiple jurisdictions;
- our exchanges' and clearing houses' compliance with their respective regulatory and oversight responsibilities;
- the resilience of our electronic platforms and soundness of our business continuity and disaster recovery plans;
- our ability to realize the expected benefits of our acquisitions and our investments, including our acquisition of Black Knight, Inc., or Black Knight, and our ability to remain in compliance with the Federal Trade Commission consent order to resolve antitrust concerns regarding our acquisition of Black Knight;

- our ability to execute our growth strategy, identify and effectively pursue, implement and integrate acquisitions, including that of Black Knight, and strategic alliances and realize the synergies and benefits of such transactions within the expected time frame;
- the impacts of computer and communications systems failures and delays, inclusive of the performance and reliability of our trading, clearing, data services and mortgage technologies and those of third-party service providers;
- our ability to keep pace with technological developments and client preferences;
- our ability to ensure that the technology we utilize is not vulnerable to cyberattacks, hacking and other cybersecurity risks or other disruptive events or to minimize the impact of any such events;
- our ability to keep information and data relating to the customers of the users of the software and services provided by our ICE Mortgage Technology business confidential;
- the impacts of a public health emergency or pandemic, including a re-emergence of the COVID-19 pandemic, on our business, results of operations and financial condition as well as the broader business environment;
- our ability to identify trends and adjust our business to benefit from such trends, including trends in the U.S. mortgage industry such as inflation rates, interest rates, new home purchases, refinancing activity, servicing activity, delinquencies and home builder and buyer sentiment, among others;
- our ability to evolve our benchmarks and indices in a manner that maintains or enhances their reliability and relevance;
- the accuracy of our cost and other financial estimates and our belief that cash flows from operations will be sufficient to service our debt and to fund our operational and capital expenditure needs;
- our ability to incur additional debt and pay off our existing debt in a timely manner;
- our ability to maintain existing market participants and data and mortgage technology customers, and to attract new ones;
- our ability to offer additional products and services, leverage our risk management capabilities and enhance our technology in a timely and cost-effective fashion;
- our ability to attract, develop and retain key talent;
- our ability to protect our intellectual property rights and to operate our business without violating the intellectual property rights of others; and
- potential adverse results of threatened or pending litigation and regulatory actions and proceedings.

These risks and other factors include, among others, those set forth in Part 1, Item 1(A) under the caption “Risk Factors” in our 2023 Form 10-K, as filed with the SEC on February 8, 2024. Due to the uncertain nature of these factors, management cannot assess the impact of each factor on the business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to update any of these statements to reflect events or circumstances occurring after the date of this Quarterly Report. New factors may emerge, and it is not possible to predict all factors that may affect our business and prospects.

## Overview

We are a leading global provider of technology and data to a broad range of customers including financial institutions, corporations and government entities. These products, which span major asset classes including futures, equities, fixed income and U.S. residential mortgages, provide our customers with access to mission critical tools that are designed to increase asset class transparency and workflow efficiency. Although we report our results in three reportable business segments, we operate as one business, leveraging the collective expertise, particularly in data services and technology, that exists across our platforms to inform and enhance our operations. Our segments are as follows:

- **Exchanges:** We operate regulated marketplace technology for the listing, trading and clearing of a broad array of derivatives contracts and financial securities as well as data and connectivity services related to our exchanges and clearing houses.
- **Fixed Income and Data Services:** We provide fixed income pricing, reference data, indices, analytics and execution services as well as global CDS clearing and multi-asset class data delivery technology.
- **Mortgage Technology:** We provide a technology platform that offers customers comprehensive, digital workflow tools that aim to address inefficiencies and mitigate risks that exist in the U.S. residential mortgage market life cycle from application through closing, servicing and the secondary market.

## Recent Developments

### Global Market Conditions

Our results of operations are affected by global economic conditions, including macroeconomic conditions and geopolitical events or conflicts. Since 2022, macroeconomic conditions, including rising interest rates, inflation and significant market volatility, along with geopolitical concerns, have created ongoing uncertainty and volatility in the global economy and resulted in a dynamic operating environment.

Our business has been impacted positively and negatively by these global economic conditions. For instance, due to market and interest rate volatility, we have seen increased trading across a number of our products, such as interest rate and equity futures, credit default swaps and bonds. Conversely, increases in mortgage interest rates in 2022, 2023 and, to a lesser extent, the first half of 2024, have resulted in reduced consumer and investor demand for mortgages and adversely impacted the transaction-based revenues in our Mortgage Technology segment. If mortgage rates remain high or further increase, or if banks change their mortgage lending practices, our Mortgage Technology segment revenues may be further impacted. In addition, higher interest rates have resulted, and may continue to result, in higher interest rates for our debt instruments as we refinance our existing indebtedness.

From an operational perspective, our businesses, including our exchanges, clearing houses, listings venues, data services businesses and mortgage platforms, have not suffered a material negative impact as a result of the events in Ukraine, Israel, Gaza and surrounding regions.

We expect the macroeconomic environment to remain dynamic in the near-term, and we continue to monitor macroeconomic conditions, including interest rates, the inflationary environment, geopolitical events and military conflicts, including election outcomes and repercussions from the conflicts in Ukraine, Israel and Gaza and the impact that any of the foregoing may have on the global economy and on our business. We also continue to closely monitor credit worthiness of our counterparties, clearing members and our financial service providers and take risk management measures in line with established risk management frameworks.

### Regulation

Our activities and the markets in which we operate are subject to regulations that impact us as well as our customers, and, in turn, meaningfully influence our activities, the manner in which we operate and our strategy. We are primarily subject to the jurisdiction of regulatory agencies in the U.S., U.K., EU, Canada, Singapore and Abu Dhabi. Failure to satisfy regulatory requirements can or may give rise to sanctions by the applicable regulator.

Global policy makers have undertaken reviews of their existing legal framework governing financial markets in connection with regulatory reform, and have either passed new laws and regulations, or are in the process of debating and/or enacting new laws and regulations that apply to our business and to our customers' businesses. Legislative and regulatory actions may impact the way in which we or our customers conduct business and may create uncertainty, which could affect trading volumes or demand for market data. See Part 1, Item 1 "Business — Regulation" and Part 1, Item 1(A) "Risk Factors" included in our 2023 Form 10-K for a discussion of the primary regulations applicable to our business and certain risks associated with those regulations.

Domestic and foreign policy makers continue to review their legal frameworks governing financial markets, and periodically change the laws and regulations that apply to our business and to our customers' businesses. Our key areas of focus on these evolving efforts are:

- **Increased Bank Capital Requirements.** The Board of Governors of the Federal Reserve, or the Federal Reserve, the Office of the Comptroller of the Currency and the Federal Deposit Insurance Corporation proposed to implement various Basel Committee standards which would increase U.S. bank capital requirements (Basel III Endgame). The Basel III Endgame would apply credit valuation adjustment risk capital requirements to bank-affiliated clearing members' exposures to their clearing clients. The Federal Reserve also proposes to revise the risk-based capital surcharge for global systemically important bank holding companies to include bank-affiliated clearing members' exposures to their clearing clients in additional aspects of the surcharge calculation. Both proposals would increase capital requirements for client clearing activities, which could increase costs for clearing services, decrease clearing members' clearing capacity, and result in a reduction of cleared volumes at ICE clearing houses. The Basel III Endgame proposal could also discourage participation in mortgage lending and servicing, resulting in a reduction of mortgage volumes at ICE Mortgage Technology, negatively impact U.S. capital markets, and users' ability to hedge and raise financing through public markets and degrade liquidity.

- **EMIR 3.0.** In February 2024, the European Commission, European Parliament, and Council of the EU reached agreement on the final text of the European Market Infrastructure Regulation, or EMIR, known as EMIR 3.0. EMIR 3.0 contains provisions requiring EU market participants to establish accounts for euro-denominated short-term interest rate derivatives, or STIRs, at an EU central counterparty, or CCP, and a requirement to clear a certain number of trades in an EU account. At this time, the number of trades required to be cleared in an EU account is not finalized; however, these requirements could result in a reduction of traded and cleared contracts at ICE Futures Europe and ICE Clear Europe.
- **Policy intervention to address high energy prices.** Various legislative proposals in the EU have been adopted to address high energy prices and impact ICE Endex, the primary European exchange for the benchmark European gas contract, and ICE Clear Europe, which clears ICE Endex contracts. These policy interventions include price limiting mechanisms for exchange-traded gas products and a new liquefied natural gas, or LNG, import benchmark. In December 2023, the EU extended until January 31, 2025, the price cap on certain Dutch Title Transfer Facility, or TTF, derivatives traded on ICE Endex. In December 2022, a coalition of G7 and other nations set the price of certain Russian crude oil at or below \$60 a barrel, which remains in place and impacts the services we offer to clients.
- **Benchmarks Regulation.** Most London Interbank Offered Rate, or LIBOR, settings have ceased to be published; however, the Financial Conduct Authority, or FCA, has required ICE Benchmark Administration, or IBA, as the administrator of LIBOR, to continue publishing certain LIBOR settings for a temporary period using a changed "synthetic" methodology. "Synthetic" LIBOR settings are not representative of the underlying market or economic reality the settings were previously intended to measure. The last remaining "synthetic" LIBOR settings are expected to cease publication in September 2024.

In addition, certain benchmarks provided by our index businesses may continue to be used by supervised entities in the EU under the EU Benchmarks Regulation until December 31, 2025.

- **EU Deforestation Regulation.** Effective in December 2024, the EU Deforestation Regulation, or EUDR, requires that certain commodities (including cocoa and coffee) and their products be from deforestation-free land and meet other requirements before they can be placed or made available on the EU market, or exported from it. The EUDR requirements may decelerate the physical trade of cocoa and coffee, impact the usability of EU coffee and cocoa physical inventories, and reduce trading volumes on ICE Futures Europe of the Robusta Coffee Contract and London Cocoa Contract and on ICE Futures U.S. of the Coffee C Contract (Arabica). Several EU Member States and U.S. cabinet members have urged the EU Commission to revise the EUDR and temporarily suspend implementation. We are monitoring the impact of these developments on ICE Futures Europe and ICE Futures U.S.
- **U.K. Deforestation Regulation.** In December 2023, the U.K. Government announced its intent to implement a regulation which would require that certain commodities (including cocoa) and their products be from deforestation-free land and meet other requirements. We are monitoring the impact of these developments and any impact on ICE Futures Europe.
- **U.K. Commodity Derivatives Reform.** In December 2023, the FCA published a consultation proposing to revise the U.K. commodity derivatives framework. The Financial Services and Markets Act 2023, or FSMA 2023, reformed the U.K.'s commodity derivatives regulatory regime including revoking the Markets in Financial Instruments Directive II, or MIFID II, requirement to set position limits on all exchange traded and over-the-counter contracts and transferring the powers to set position limits from the FCA to trading venue operators. The FCA's current proposals would require that trading venues set position limits for critical and related contracts including ICE's softs, agricultural and energy contracts such as Brent, WTI, gasoil and natural gas, to establish accountability thresholds and to report enhanced position data. These requirements could make trading on ICE Futures Europe more difficult and could result in a reduction in volumes and liquidity.
- **EU DORA Regulation.** The Digital Operational Resilience Act, or DORA, is an EU regulation that establishes an information and communication technology risk management framework for the EU financial sector. DORA establishes technical standards that financial entities and their critical third-party technology service providers must implement by January 2025 and imposes requirements relating to risk management, reporting, and information and communications technology service provider oversight. Some of our businesses are likely to be impacted by DORA as EU financial entities or critical third-party service providers to EU financial entities.
- **Regulation of ESG Data and Ratings.** Many jurisdictions have adopted or are proposing or considering proposals to regulate environmental, social or governance, or ESG, data providers, as well as ESG ratings. In April 2024, the EU adopted a regulation on the transparency and integrity of ESG rating activities which aims to enhance the integrity, transparency, governance, and independence of ESG ratings provided in the EU. The regulation will impact certain ICE Data Service offerings and may require authorization and supervision by the European Securities and Markets Authority.

## **Tax Policy Changes**

The Organisation for Economic Cooperation and Development, or OECD, Pillar Two minimum tax rules, which generally provide for a minimum effective tax rate of 15%, are intended to apply to tax years beginning in 2024. In 2023, the OECD issued administrative guidance providing transitional safe harbor rules concerning the implementation of the Pillar Two framework, which will apply to fiscal years ending on or before December 31, 2026. The EU member states and many other countries, including the U.K., have committed to implement or have already enacted legislation adopting the Pillar Two rules. We are monitoring developments and evaluating the impacts of these new rules on our tax rate, including our ability to qualify for the safe harbor rules as implemented by each jurisdiction; however, we do not expect a material impact to our effective tax rate given our current tax profile.

## Consolidated Financial Highlights

The following summarizes our results and significant changes in our consolidated financial performance for the periods presented (dollars in millions, except per share amounts).

- (1) Operating loss from our Mortgage Technology segment was \$80 million and \$45 million for the six months ended June 30, 2024 and 2023, respectively.  
(2) The adjusted figures exclude items that are not reflective of our ongoing core operations and business performance. Adjusted net income attributable to ICE is presented net of taxes. These adjusted numbers are not calculated in accordance with U.S. GAAP. See “—Non-GAAP Financial Measures” below.

	Six Months Ended June 30,			Three Months Ended June 30,		
	2024	2023	Change	2024	2023	Change <sup>(4)</sup>
Revenues, less transaction-based expenses	\$ 4,607	\$ 3,784	22 %	\$ 2,317	\$ 1,888	23 %
Recurring revenues <sup>(1)</sup>	\$ 2,402	\$ 1,908	26 %	\$ 1,206	\$ 955	26 %
Transaction revenues, net <sup>(1)</sup>	\$ 2,205	\$ 1,876	18 %	\$ 1,111	\$ 933	19 %

Adjusted diluted earnings per share attributable to ICE common stockholders <sup>(2)</sup>	\$ 3.00	\$ 2.84	6 %	\$ 1.52	\$ 1.43	6 %
Cash flows from operating activities	\$ 2,205	\$ 1,805	22 %			
Free cash flow <sup>(3)</sup>	\$ 1,895	\$ 1,602	18 %			
Adjusted free cash flow <sup>(3)</sup>	\$ 1,771	\$ 1,652	7 %			

<sup>(1)</sup> We define recurring revenues as the portion of our revenues that are generally predictable, stable, and can be expected to occur at regular intervals in the future with a relatively high degree of certainty and visibility. We define transaction revenues as those associated with a more specific point-in-time service, such as a trade execution.

<sup>(2)</sup> The adjusted figures exclude items that are not reflective of our ongoing core operations and business performance. Adjusted net income attributable to ICE and adjusted diluted earnings per share attributable to ICE common stockholders are presented net of taxes. These adjusted figures are not calculated in accordance with U.S. GAAP. See "—Non-GAAP Financial Measures" below.

<sup>(3)</sup> We believe these non-GAAP liquidity measures provide useful information to management and investors to analyze cash resources generated from our operations. We believe that free cash flow is useful as one of the bases for comparing our performance with our competitors and demonstrates our ability to convert the reinvestment of capital expenditures and capitalized software development costs required to maintain and grow our business. We believe that adjusted free cash flow eliminates the impact of timing differences related to the payment of section 31 fees. These figures are not calculated in accordance with U.S. GAAP. See "—Non-GAAP Liquidity Measures" below.

<sup>(4)</sup> Percentage changes in the table above deemed "n/a" are not meaningful.

- Revenues, less transaction-based expenses, increased \$823 million and \$429 million for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023. See "—Exchanges Segment", "—Fixed Income and Data Services Segment" and "—Mortgage Technology Segment" below for a discussion of the significant changes in our revenues. The change in revenues during the six and three months ended June 30, 2024 includes \$8 million in favorable and \$1 million in unfavorable, respectively, foreign exchange effects arising from fluctuations in the U.S. dollar from the comparable periods in 2023.
- Operating expenses increased \$618 million and \$318 million for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023. See "—Consolidated Operating Expenses" below for a discussion of the significant changes in our operating expenses. The increase in operating expenses during the six and three months ended June 30, 2024 includes \$4 million and \$1 million, respectively, in unfavorable foreign exchange effects arising from fluctuations in the U.S. dollar from the comparable periods in 2023.

## Variability in Quarterly Comparisons

Our business environment has been characterized by:

- globalization of marketplaces, customers and competitors;
- growing customer demand for workflow efficiency and automation;

- commodity, interest rate, inflation rate and financial markets volatility and uncertainty;
- growing demand for data to inform customers' risk management and investment decisions;
- evolving, increasing and disparate regulation across multiple jurisdictions;
- price volatility increasing customers' demand for risk management services;
- increasing focus on capital and cost efficiencies;
- customers' preference to manage risk in markets demonstrating the greatest depth of liquidity and product diversity;
- the evolution of existing products and new product innovation to serve emerging customer needs and changing industry agreements;
- rising demand for speed, data, data capacity and connectivity by market participants, necessitating increased investment in technology; and
- consolidation and increasing competition among global markets for trading, clearing and listings.

For additional information regarding the factors that affect our results of operations, see Item 1(A) "Risk Factors" included in our 2023 Form 10-K.

## Segment Results

Our business is conducted through three reportable business segments:

- **Exchanges:** We operate regulated marketplace technology for the listing, trading and clearing of a broad array of derivatives contracts and financial securities as well as data and connectivity services related to our exchanges and clearing houses;
- **Fixed Income and Data Services:** We provide fixed income pricing, reference data, indices, analytics and execution services as well as global CDS clearing and multi-asset class data delivery technology; and
- **Mortgage Technology:** We provide a technology platform that offers customers comprehensive, digital workflow tools that aim to address inefficiencies and mitigate risks that exist in the U.S. residential mortgage market life cycle, from application through closing, servicing and the secondary market.

While revenues are recorded specifically in the segment in which they are earned or to which they relate, a significant portion of our operating expenses are not solely related to a specific segment because the expenses serve functions that are necessary for the operation of more than one segment. We directly allocate expenses when reasonably possible to do so. Otherwise, we use a pro-rata revenue approach as the allocation method for the expenses that do not relate solely to one segment and serve functions that are necessary for the operation of all segments. Our segments do not engage in intersegment transactions.

## Exchanges Segment

The following presents selected statements of income data for our Exchanges segment (dollars in millions):

(1) The adjusted figures in the charts above are calculated by excluding items that are not reflective of our cash operations and core business performance. As a result, these adjusted figures are not calculated in accordance with U.S. GAAP. See "—Non-GAAP Financial Measures" below.

	Six Months Ended June 30,			Three Months Ended June 30,		
	2024	2023	Change	2024	2023	Change
<b>Revenues:</b>						
Energy futures and options	\$ 926	\$ 700	32 %	\$ 469	\$ 355	32 %
Agricultural and metals futures and options	143	147	(3)	71	77	(8)
Financial futures and options	267	232	15	132	104	26
Futures and options	1,336	1,079	24	672	536	25
Cash equities and equity options	1,301	1,215	7	691	544	27
OTC and other	204	205	(1)	101	104	(3)
Transaction and clearing, net	2,841	2,499	14	1,464	1,184	24
Data and connectivity services	475	463	3	240	231	4
Listings	244	252	(3)	122	126	(3)
Revenues	3,560	3,214	11	1,826	1,541	18
Transaction-based expenses <sup>(1)</sup>	1,091	1,024	7	580	448	29
Revenues, less transaction-based expenses	2,469	2,190	13	1,246	1,093	14
Other operating expenses	550	508	8	294	249	18
Depreciation and amortization	132	123	8	62	62	3
Operating expenses	682	631	8	356	311	15
Operating income	\$ 1,787	\$ 1,559	15 %	\$ 890	\$ 782	14 %
Recurring revenues	\$ 719	\$ 715	— %	\$ 362	\$ 357	1 %
Transaction revenues, net	\$ 1,750	\$ 1,475	19 %	\$ 884	\$ 736	20 %

(1) Transaction-based expenses are largely attributable to our cash equities and options business.

## Exchanges Revenues

Our Exchanges segment includes transaction and clearing revenues from our futures and NYSE exchanges, related data and connectivity services, and our listings business. Transaction and clearing revenues consist of fees collected from derivatives, cash equities and equity options trading and derivatives clearing, and are reported on a net basis, except for the NYSE transaction-based expenses discussed below. Rates per-contract, or RPC, are driven by the number of contracts or securities traded and the fees charged per contract, net of certain rebates. Our per-contract transaction and clearing revenues will depend upon many factors, including, but not limited to, market conditions, transaction and clearing volume, product mix, pricing, applicable revenue sharing and market making agreements, and new product introductions.

Transaction and clearing revenues are generally assessed on a per-contract basis and revenues and profitability fluctuate with changes in contract volume and product mix. We consider data and connectivity services revenues and listings revenues to be recurring revenues. Our data and connectivity services revenues are recurring subscription fees related to the various data and connectivity services that we provide which are directly attributable to our exchange venues. Our listings revenues are also recurring subscription fees that we earn for the provision of NYSE listings services for public companies and exchange-traded funds, or ETFs, and related corporate actions for listed companies.

For the six and three months ended June 30, 2024, 23% and 22%, respectively, of our Exchanges segment revenues, less transaction-based expenses, were billed in pounds sterling or euros, and for both of the six and three months ended June 30, 2023, 19% of our Exchanges segment revenues, less transaction-based expenses, were billed in pounds sterling or euros. Due to the fluctuations of the pound sterling and euro compared to the U.S. dollar, our Exchanges segment revenues, less transaction-based expenses, were higher by \$7 million for the six months ended June 30, 2024, and flat for the three months ended June 30, 2024, respectively, from the comparable periods in 2023.

Our exchange transaction and clearing revenues are presented net of rebates. We recorded rebates of \$616 million and \$488 million for the six months ended June 30, 2024 and 2023, respectively, and \$319 million and \$236 million for the three months ended June 30, 2024 and 2023, respectively. We offer rebates in certain of our markets primarily to support market liquidity and trading volume by providing qualified participants in those markets a discount to the applicable commission rate. Such rebates are calculated based on volumes traded. The increase in rebates for the six and three months ended June 30, 2024 is primarily due to higher volumes traded as compared to the comparable periods in 2023.

- **Energy Futures and Options:** Total energy volume increased 29% and revenues increased 32% for the six months ended June 30, 2024 from the comparable period in 2023 and volume increased 33% and revenues increased 32% for the three months ended June 30, 2024 from the comparable period in 2023.
  - Total oil futures and options volume increased 26% and 30% for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023, in part due to ongoing geopolitical issues in the Middle East as well as supply/demand dynamics.
  - Our global natural gas futures and options volume increased 35% and 38% for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023, due to continued growth in our TTF and Asian JKM products as natural gas continues to globalize, as well as strength in our North American natural gas products driven by increased volatility related to shifting weather and fundamentals.
  - Our environmentals and other futures and options volume increased 35% and 58% for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023, due to higher environmentals and power volumes versus the year ago period.
  
- **Agricultural and Metals Futures and Options:** Total volumes in our agricultural and metals futures and options markets increased 1% for the six months ended June 30, 2024 and decreased 6% for the three months ended June 30, 2024 from the comparable periods in 2023 and revenues decreased 3% and 8% for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023. The overall decrease in agricultural volumes for the three months ended June 30, 2024 was primarily driven by lower commodity price volatility than in the prior year period.
  - Sugar futures and options volumes decreased 17% and 20% for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023.
  - Other agricultural and metal futures and options volume increased 16% and 6% for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023.
  
- **Financial Futures and Options:** Total volumes in our financial futures and options markets increased 21% and 46% for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023 and revenues increased 15% and 26% for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023, including the impacts of foreign exchange effects. The six and three months ended June 30, 2024 benefited from interest rate volatility related to central bank activity speculation.
  - Interest rate futures and options volume increased 28% and 56% for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023 and revenue increased 27% and 41% for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023. The six and three months ended June 30, 2024 benefited from interest rate volatility related to increased central bank activity speculation.
  - Other financial futures and options volume, which includes our MSCI®, FTSE® and NYSE FANG+ equity index products, decreased 12% for the six months ended June 30, 2024, and were flat for the three months ended June 30, 2024, from the comparable periods in 2023. Revenue decreased 6% and increased 3% for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023. The decrease in other financial futures and options volume was primarily due to lower equity market volatility than during the comparable period in 2023.
  
- **Cash Equities and Equity Options:** Cash equities volume increased 8% and 15% for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023, due to increased market share as compared to the same prior year period. Cash equities revenues, net of transaction-based expenses, were \$151 million and \$134 million for the six months ended June 30, 2024 and 2023, respectively, and \$80 million and \$67 million for the three months ended June 30, 2024 and 2023, respectively. Equity options volume increased 14% and 22% for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023, driven by increased participation and higher market share. Equity options revenues, net of transaction-based expenses, were \$59 million and \$57 million for the six months ended June 30, 2024 and 2023, respectively, and \$31 million and \$29 million for the three months ended June 30, 2024 and 2023, respectively.
  
- **OTC and Other:** OTC and other transactions include revenues from our OTC energy business and other trade confirmation services, as well as net interest income and fees on certain clearing margin deposits, regulatory penalties and fines, fees for use of our facilities, regulatory fees charged to member organizations of our U.S.

securities exchanges, designated market maker service fees, exchange membership fees and agricultural grading and certification fees. Our OTC and other revenues decreased 1% and 3% for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023.

- **Data and Connectivity Services:** Our data and connectivity services revenues increased 3% and 4% for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023. The increase in revenue was driven by the strong retention rate of existing customers, the addition of new customers and increased purchases by existing customers.
- **Listings Revenues:** Through NYSE, NYSE American and NYSE Arca, we generate listings revenue related to the provision of listings services for public companies and ETFs, and related corporate actions for listed companies. Listings revenues decreased 3% for both the six and three months ended June 30, 2024 from the comparable periods in 2023 due to the roll off of initial listing fees from the strong initial public offering, or IPO, market in 2021. All listings fees are billed upfront, and revenues are recognized over time as the identified performance obligations are satisfied.

### Selected Operating Data

Volume of contracts traded, futures and options rate per contract and open interest are measures that we use in analyzing the performance of our futures and options contracts. Handled volume, matched volume and cash equities and equity options rate per contract are measures that we use in analyzing our NYSE cash equities and equity options performance. We believe each of these measures provides useful information for management and investors in understanding our performance. Management considers these metrics when making financial and operating decisions. Our calculation of these metrics may not be comparable to similarly titled measures used by other companies.

The following charts and tables present trading activity in our futures and options markets by commodity type based on the total number of contracts traded, as well as futures and options rate per contract (in millions, except for percentages and rate per contract amounts):

## Volume and Rate per Contract

	Six Months Ended June 30,			Three Months Ended June 30,		
	2024	2023	Change	2024	2023	Change
<b>Number of contracts traded (in millions):</b>						
Energy futures and options	541	419	29 %	275	206	33 %
Agricultural and metals futures and options	64	63	1	31	33	(6)
Financial futures and options	400	330	21	200	137	46
Total	1,005	812	24 %	506	376	35 %
<b>Average daily volume of contracts traded (in thousands):</b>						
Energy futures and options	4,361	3,377	29 %	4,354	3,315	31 %
Agricultural and metals futures and options	516	510	1	490	530	(7)
Financial futures and options	3,158	2,605	21	3,130	2,182	43
Total	8,035	6,492	24 %	7,974	6,027	32 %
<b>Rate per contract:</b>						
Energy futures and options	\$ 1.71	\$ 1.67	3 %	\$ 1.71	\$ 1.73	(1)%
Agricultural and metals futures and options	\$ 2.23	\$ 2.33	(4)%	\$ 2.31	\$ 2.36	(2)%
Financial futures and options	\$ 0.66	\$ 0.69	(5)%	\$ 0.65	\$ 0.75	(13)%

Open interest is the aggregate number of contracts (long or short) that clearing members hold either for their own account or on behalf of their clients. Open interest refers to the total number of contracts that are currently “open,” in other words, contracts that have been entered into but not yet liquidated by either an offsetting trade, exercise, expiration or assignment. Open interest represents a measure that we believe is useful for management and investors in understanding future activity remaining to be closed out in terms of the number of contracts that members and their clients continue to hold in the particular contract and by the number of contracts held for each contract month listed by the exchange. The following charts and table present our quarter-end open interest for our futures and options contracts (in thousands, except for percentages):

## Open Interest

	As of June 30,		
	2024	2023	Change
<b>Open interest — in thousands of contracts:</b>			
Energy futures and options	61,674	49,247	25 %
Agricultural and metals futures and options	3,785	4,182	(9)
Financial futures and options	24,894	20,995	19
Total	90,353	74,424	21 %

The following charts and tables present selected cash and equity options trading data. All trading volume below is presented as average net daily trading volume, or ADV, and is single counted:

	Six Months Ended June 30,			Three Months Ended June 30,		
	2024	2023	Change	2024	2023	Change
<b>NYSE cash equities (shares in millions):</b>						
Total cash handled volume (ADV)	2,464	2,275	8 %	2,489	2,169	15 %
Total cash market share matched	20.6 %	19.8 %	0.8 pt	20.8 %	19.8 %	1 pt
<b>NYSE equity options (contracts in thousands):</b>						
NYSE equity options volume (ADV)	9,366	8,204	14 %	9,405	7,701	22 %
Total equity options volume (ADV)	42,675	40,839	4 %	42,059	39,244	7 %
NYSE share of total equity options	21.9 %	20.1 %	1.8 pts	22.4 %	19.6 %	2.8 pts
<b>Revenue capture or rate per contract:</b>						
Cash equities rate per contract (per 100 shares)	\$0.050	\$0.048	5 %	\$0.052	\$0.050	4 %
Equity options rate per contract	\$0.05	\$0.06	(10)%	\$0.05	\$0.06	(16)%

Handled volume represents the total number of shares of equity securities, ETFs and crossing session activity internally matched on our exchanges or routed to and executed on an external market center. Matched volume represents the total number of shares of equity securities, ETFs and crossing session activity executed on our exchanges.

### Transaction-Based Expenses

Our equities and equity options markets pay fees to the SEC pursuant to Section 31 of the Exchange Act. Section 31 fees are recorded on a gross basis as a component of transaction and clearing fee revenue. These Section 31 fees are assessed to recover the government's costs of supervising and regulating the securities markets and professionals and are subject to change. We, in turn, collect corresponding activity assessment fees from member organizations clearing or settling trades on the equities and options exchanges, and recognize these amounts in our transaction and clearing revenues when invoiced. The activity assessment fees are designed to equal the Section 31 fees. As a result, activity assessment fees and the corresponding Section 31 fees do not have an impact on our net income, although the timing of

payment by us will vary from collections. Section 31 fees were \$205 million and \$175 million for the six months ended June 30, 2024 and 2023, respectively, and \$138 million and \$56 million for the three months ended June 30, 2024 and 2023, respectively. The increase in Section 31 fees during the six and three months ended June 30, 2024 was primarily due to an increase in rates. The fees we collect are included in cash at the time of receipt and we remit the amounts to the SEC twice a year as required. The total amount of Section 31 fees payable is included in current liabilities and was \$203 million as of June 30, 2024.

We make liquidity payments to cash and options trading customers, as well as routing charges made to other exchanges which are included in transaction-based expenses. We incur routing charges when we do not have the best bid or offer in the market for a security that a customer is trying to buy or sell on one of our securities exchanges. In that case, we route the customer's order to the external market center that displays the best bid or offer. The external market center charges us a fee per share (denominated in tenths of a cent per share) for routing to its system. We record routing charges on a gross basis as a component of transaction and clearing fee revenue. Cash liquidity payments, routing and clearing fees were \$886 million and \$849 million for the six months ended June 30, 2024 and 2023, respectively, and \$442 million and \$392 million for the three months ended June 30, 2024 and 2023, respectively.

### Operating Expenses, Operating Income and Operating Margin

The following chart summarizes our Exchanges segment's operating expenses, operating income and operating margin (dollars in millions). See "—Consolidated Operating Expenses" below for a discussion of the significant changes in our operating expenses.

Exchanges Segment:	Six Months Ended June 30,			Three Months Ended June 30,		
	2024	2023	Change	2024	2023	Change
Operating expenses	\$ 682	\$ 631	8 %	\$ 356	\$ 311	15 %
Adjusted operating expenses <sup>(1)</sup>	\$ 618	\$ 581	6 %	\$ 311	\$ 293	6 %
Operating income	\$ 1,787	\$ 1,559	15 %	\$ 890	\$ 782	14 %
Adjusted operating income <sup>(1)</sup>	\$ 1,851	\$ 1,609	15 %	\$ 935	\$ 800	17 %
Operating margin	72 %	71 %	1 pt	71 %	72 %	(1 pt)
Adjusted operating margin <sup>(1)</sup>	75 %	73 %	2 pts	75 %	73 %	2 pts

(1) The adjusted figures exclude items that are not reflective of our ongoing core operations and business performance. These adjusted numbers are not calculated in accordance with U.S. GAAP. See "—Non-GAAP Financial Measures" below.

## Fixed Income and Data Services Segment

The following charts and table present our selected statements of income data for our Fixed Income and Data Services segment (dollars in millions):

(1) The adjusted figures in the charts above are calculated by excluding items that are not reflective of our cash operations and core business performance. As a result, these adjusted numbers are not calculated in accordance with U.S. GAAP. See “—Non-GAAP Financial Measures” below.

	Six Months Ended June 30,			Three Months Ended June 30,		
	2024	2023	Change	2024	2023	Change
Revenues:						
Fixed income execution	\$ 56	\$ 60	(7)%	\$ 30	\$ 28	3 %
CDS clearing	171	185	(7)	78	84	(6)
Fixed income data and analytics	581	553	5	293	277	6
Fixed income and credit	808	798	1	401	389	3
Other data and network services	325	311	5	164	157	5
Revenues	1,133	1,109	2	565	546	4
Other operating expenses	550	525	5	276	267	3
Depreciation and amortization	161	174	(8)	81	89	(10)
Operating expenses	711	699	2	357	356	—
Operating income	\$ 422	\$ 410	3 %	\$ 208	\$ 190	10 %
Recurring revenues	\$ 906	\$ 864	5 %	\$ 457	\$ 434	5 %
Transaction revenues	\$ 227	\$ 245	(7)%	\$ 108	\$ 112	(4)%

In the table above, we consider fixed income data and analytics revenues and other data and network services revenues to be recurring revenues.

For both of the six and three months ended June 30, 2024, 11% of our Fixed Income and Data Services segment revenues were billed in pounds sterling or euros, and for both of the six and three months ended June 30, 2023, 12% of our Fixed Income and Data Services segment revenues were billed in pounds sterling or euros. As the pound sterling or euro exchange rate changes, the U.S. equivalent of revenues denominated in foreign currencies changes accordingly. Due to the fluctuations of the pound sterling and euro compared to the U.S. dollar, our Fixed Income and Data Services revenues were higher by \$1 million and lower by \$1 million for the six and three months ended June 30, 2024, respectively, than the comparable periods in 2023.

### Fixed Income and Data Services Revenues

Our Fixed Income and Data Services revenues increased 2% and 4% for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023, primarily due to strength in our fixed income data and analytics products and our other data and network services.

- **Fixed Income Execution:** Fixed income execution includes revenues from ICE Bonds. Execution fees are reported net of rebates, which were \$5 million and \$2 million for the six and three months ended June 30, 2024, respectively, and \$2 million and \$1 million for the six and three months ended June 30, 2023, respectively. Our fixed income execution revenues decreased 7% for the six months ended June 30, 2024 and increased and 3% for the three months ended June 30, 2024, respectively, from the comparable periods in 2023. Revenues for the six months ended June 30, 2024 decreased as higher revenues from corporate bond trading were more than offset by lower levels of U.S. treasury activity. Revenues increased in the three months ended June 30, 2024 due to higher corporate and municipal bond activity.
- **CDS Clearing:** CDS clearing revenues decreased 7% and 6% for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023. The notional value of CDS cleared was \$9.0 trillion and \$10.2 trillion for the six months ended June 30, 2024 and 2023, respectively, and \$4.0 trillion and \$3.4 trillion for the three months ended June 30, 2024 and 2023, respectively. The decrease in revenues is primarily due to lower net interest income on collateral balances.
- **Fixed Income Data and Analytics:** Our fixed income data and analytics revenues increased 5% and 6% for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023 due to growth in our pricing and reference data business and strength in our index business.
- **Other Data and Network Services:** Our other data and network services revenues increased 5% for both the six and three months ended June 30, 2024, from the comparable periods in 2023. The increase in revenues was driven by growth in our ICE Global Network offering, coupled with strength in our consolidated feeds and desktop revenues.

Annual Subscription Value, or ASV, represents, at a point in time, data services revenues, which include Fixed Income Data and Analytics as well as Other Data and Network Services, subscribed for the succeeding 12 months. ASV does not include new sales, contract terminations or price changes that may occur during that 12-month period. However, while it is an indicative forward-looking metric, it does not provide a precise growth forecast of the next 12 months of data services revenues. Management considers ASV metrics when making financial and operating decisions and believes ASV is useful for management and investors in understanding our data services business performance.

As of June 30, 2024, ASV was \$1.795 billion, which increased 4.1% compared to the ASV as of June 30, 2023. ASV represents nearly 100% of total data services revenues for this segment. This does not adjust for year-over-year foreign exchange fluctuations.

### Operating Expenses, Operating Income and Operating Margin

The following chart summarizes our Fixed Income and Data Services segment's operating expenses, operating income and operating margin (dollars in millions). See "—Consolidated Operating Expenses" below for a discussion of the significant changes in our operating expenses.

Fixed Income and Data Services Segment:	Six Months Ended June 30,			Three Months Ended June 30,		
	2024	2023	Change	2024	2023	Change
Operating expenses	\$ 711	\$ 699	2 %	\$ 357	\$ 356	— %
Adjusted operating expenses <sup>(1)</sup>	\$ 620	\$ 614	1 %	\$ 311	\$ 313	(1) %
Operating income	\$ 422	\$ 410	3 %	\$ 208	\$ 190	10 %
Adjusted operating income <sup>(1)</sup>	\$ 513	\$ 495	4 %	\$ 254	\$ 233	9 %
Operating margin	37 %	37 %	—	37 %	35 %	2 pts
Adjusted operating margin <sup>(1)</sup>	45 %	45 %	—	45 %	43 %	2 pts

(1) The adjusted figures exclude items that are not reflective of our ongoing core operations and business performance. These adjusted figures are not calculated in accordance with U.S. GAAP. See "—Non-GAAP Financial Measures" below.

## Mortgage Technology Segment

The following charts and table present our selected statements of income data for our Mortgage Technology segment (dollars in millions):

(1) Servicing Software is a new revenue category following completion of the Black Knight acquisition.

(2) The adjusted figures in the charts above are calculated by excluding items that are not reflective of our cash operations and core business performance. As a result, these adjusted figures are not calculated in accordance with U.S. GAAP. See "—Non-GAAP Financial Measures" below.

	Six Months Ended June 30,			Three Months Ended June 30,		
	2024	2023	Change	2024	2023	Change
Revenues:						
Origination technology	\$ 354	\$ 352	— %	\$ 180	\$ 178	1 %
Closing solutions	96	88	9	52	47	9
Servicing software	426	—	n/a	212	—	n/a
Data and analytics	129	45	187	62	24	165
Revenues	1,005	485	107	506	249	103
Other operating expenses	565	254	122	285	125	128
Depreciation and amortization	469	230	104	238	116	105
Acquisition-related transaction and integration costs	51	46	12	15	25	(39)
Operating expenses	1,085	530	105	538	266	103
Operating loss	\$ (80)	\$ (45)	78 %	\$ (32)	\$ (17)	90 %
Recurring revenues	\$ 777	\$ 329	137 %	\$ 387	\$ 164	137 %
Transaction revenues	\$ 228	\$ 156	45 %	\$ 119	\$ 85	39 %

\*Percentage changes in the table above deemed "n/a" are not meaningful.

In the table above, we consider subscription fees to be recurring revenues. Each revenue classification above contains a mix of recurring and transaction revenues based on the various service offerings described in more detail below.

### Mortgage Technology Revenues

Our mortgage technology revenues are derived from our comprehensive, end-to-end U.S. residential mortgage platform. Our mortgage technology business is intended to enable greater workflow efficiency and mitigate risks for customers throughout the mortgage life cycle. Mortgage technology revenues increased \$520 million and \$257 million for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023, primarily due the Black Knight acquisition.

- **Origination technology:** Our origination technology revenues were flat for the six months ended June 30, 2024 and increased 1% during the three months ended June 30, 2024 from the comparable periods in 2023. Our origination technology acts as a system of record for the mortgage transaction, automating the gathering, reviewing, and verifying of mortgage-related information and enabling automated enforcement of rules and business practices designed to help ensure that each completed loan transaction is of high quality and adheres to secondary market standards. These revenues are based on recurring Software as a Service, or SaaS, subscription fees, with an additive transaction-based or success-based pricing fee as lenders exceed the number of loans closed that are included with their monthly base subscription, as well as professional services.

In addition, the ICE Mortgage Technology network provides originators connectivity to the mortgage supply chain and facilitates the secure exchange of information between our customers and a broad ecosystem of third-party service providers, as well as lenders and investors that are critical to consummating the millions of loan transactions that occur on our origination network each year. Revenue from the ICE Mortgage Technology network is largely transaction-based.

- **Closing solutions:** Our closing solutions revenues increased 9% during both of the six and three months ended June 30, 2024 from the comparable periods in 2023, driven by increased market share and continued adoption of digital solutions. Our closing solutions connect key participants, such as lenders, title and settlement agents and individual county recorders, to digitize the closing and recording process. Closing solutions also include revenues from our MERSCORP Holdings, Inc., or MERS, database, which provides a system of record for recording and tracking changes, servicing rights and beneficial ownership interests in loans secured by U.S. residential real estate. Revenues from closing solutions are largely transaction-based and are based on the volume of loans closed.
- **Servicing software:** Our servicing software revenues include integrated mortgage servicing solutions, which help automate all areas of the servicing process, from loan boarding to final payment or default, to help lower costs, reduce risk and improve financial performance. Our servicing solutions support first lien mortgages, home equity loans and lines of credit on a single platform to manage all servicing processes, including loan setup and maintenance, escrow administration, investor reporting, and regulatory requirements. We also provide solutions that provide consumers with

access to customized, timely information about their mortgages and allow our clients' customer service representatives to access the same customer information, which is key to increasing borrower retention. Another servicing solution provides clients, third-party providers and their developers access to our growing catalog of application programming interfaces, or APIs, across the mortgage life cycle.

Our default servicing solutions help simplify the complex process for loans that move into default, while supporting servicers with their compliance requirements and to facilitate more efficient loss mitigation processes.

We also offer advanced technology to support the bankruptcy and foreclosure process, and more efficiently manage claims related to properties in foreclosure, as well as tools to support loss analysis, to help servicers make the right decisions at the right time.

- **Data and analytics:** Our Data and Analytics revenues increased 187% and 165% during the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023, primarily due to the revenue contribution from Black Knight during the six and three months ended June 30, 2024. Revenues include those related to ICE Mortgage Technology's Data & Document Automation and Mortgage Analyzer solutions, or Analyzer, which offers customers greater efficiency by streamlining data collection and validation through our automated document recognition and data extraction capabilities. Analyzer revenues can be both recurring and transaction-based in nature. In addition, our data offerings include real-time industry and peer benchmarking tools, which provide originators a granular view into the real-time trends of the U.S. residential mortgage market, as well as credit and prepayment models, custom and proprietary analytics, valuation, and MLS solutions. We also provide a Data as a Service, or DaaS, for lenders and industry participants to access industry data and origination information. Revenues related to our data products are largely subscription-based and recurring in nature. The data and insights from these solutions inform, support and enhance our other solutions to help lenders and servicers make more informed decisions, improve performance, identify and predict risk and generate more qualified leads. Revenues related to our data products are largely subscription-based and recurring in nature.

### Operating Expenses, Operating Income/(Loss) and Operating Margin

The following chart summarizes our Mortgage Technology segment's operating expenses, operating loss and operating margin (dollars in millions). See "—Consolidated Operating Expenses" below for a discussion of the significant changes in our operating expenses.

Mortgage Technology Segment:	Six Months Ended June 30,			Three Months Ended June 30,		
	2024	2023	Change	2024	2023	Change
Operating expenses	\$ 1,085	\$ 530	105 %	\$ 538	\$ 266	103 %
Adjusted operating expenses <sup>(1)</sup>	\$ 639	\$ 301	112 %	\$ 325	\$ 150	118 %
Operating loss	\$ (80)	\$ (45)	78 %	\$ (32)	\$ (17)	90 %
Adjusted operating income <sup>(1)</sup>	\$ 366	\$ 184	99 %	\$ 181	\$ 99	82 %
Operating margin	(8) %	(9) %	1 pt	(6) %	(7) %	1 pt
Adjusted operating margin <sup>(1)</sup>	36 %	38 %	(2 pts)	36 %	40 %	(4 pts)

(1) The adjusted figures exclude items that are not reflective of our ongoing core operations and business performance. These adjusted numbers are not calculated in accordance with GAAP. See "—Non-GAAP Financial Measures".

## Consolidated Operating Expenses

The following presents our consolidated operating expenses (dollars in millions):

	Six Months Ended June 30,			Three Months Ended June 30,		
	2024	2023	Change	2024	2023	Change
Compensation and benefits	\$ 935	\$ 703	33 %	\$ 473	\$ 351	35 %
Professional services	74	57	29	38	29	30
Acquisition-related transaction and integration costs	51	46	12	15	25	(39)
Technology and communication	419	345	21	214	173	24
Rent and occupancy	59	45	31	30	25	20
Selling, general and administrative	178	137	30	100	63	59
Depreciation and amortization	762	527	45	381	267	43
<b>Total operating expenses</b>	<b>\$ 2,478</b>	<b>\$ 1,860</b>	<b>33 %</b>	<b>\$ 1,251</b>	<b>\$ 933</b>	<b>34 %</b>

The majority of our operating expenses do not vary directly with changes in our volume and revenues, except for certain technology and communication expenses, including data acquisition costs, licensing and other fee-related arrangements and a portion of our compensation expense that is tied directly to our data sales or overall financial performance.

We expect our operating expenses to increase in absolute terms in future periods in connection with the growth of our business, and to vary from year-to-year based on the type and level of our acquisitions, integration of acquisitions and other investments.

Included in the total consolidated operating expenses for the six and three months ended June 30, 2024 was \$563 million and \$275 million, respectively, related to Black Knight.

Operating expenses of 7% for both the six and three months ended June 30, 2024 and 9% for both the six and three months ended June 30, 2023 were billed in pounds sterling or euros. Due to fluctuations in the U.S. dollar compared to the pound sterling and euro, our consolidated operating expenses were higher by \$4 million and \$1 million, respectively, for the six and three months ended June 30, 2024, than in the comparable periods in 2023.

## Compensation and Benefits Expenses

Compensation and benefits expense is our most significant operating expense and includes non-capitalized employee wages, bonuses, non-cash or stock compensation, certain severance costs, benefits and employer taxes. The bonus and stock compensation components of our compensation and benefits expense is based on both our financial performance and individual employee performance. Therefore, our compensation and benefits expense will vary year-to-year based on our financial performance and fluctuations in our number of employees. The below chart summarizes the significant drivers of our compensation and benefits expense results for the periods presented (dollars in millions, except employee headcount).

	Six Months Ended June 30,			Three Months Ended June 30,		
	2024	2023	Change	2024	2023	Change
Employee headcount	12,937	9,116	42 %			
Stock-based compensation expenses	\$ 104	\$ 83	25 %	\$ 53	\$ 43	23 %

Employee headcount increased during the six and three months ended June 30, 2024 from the comparable periods in 2023 primarily due to our acquisition of Black Knight. Compensation and benefits expense increased \$232 million and \$122 million for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023, primarily due to \$209 million and \$101 million attributable to our acquisition of Black Knight for the six and three months ended June 30, 2024 periods, respectively, and higher payroll and bonus accrual from the impact of prior year merit increases, partially offset by higher capitalized labor. The stock-based compensation expenses in the table above relate to employee stock option and restricted stock awards and exclude stock-based compensation related to acquisition-related transaction and integration costs.

## Professional Services Expenses

Professional services expense includes fees for consulting services received on strategic and technology initiatives, temporary labor, as well as regulatory, legal and accounting fees, and may fluctuate as a result of changes in our use of these services in our business.

Professional services expenses increased \$17 million and \$9 million for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023, primarily due to our acquisition of Black Knight combined with increases in consulting and legal expenses.

## Acquisition-Related Transaction and Integration Costs

We incurred \$51 million and \$15 million in acquisition-related transaction and integration costs during the six and three months ended June 30, 2024, respectively, primarily due to integration expenses related to Black Knight. We incurred \$46 million and \$25 million in acquisition-related transaction and integration costs during the six and three months ended June 30, 2023, respectively, primarily due to legal and consulting expenses related to our acquisition of Black Knight and our integration of Ellie Mae.

We expect to continue to explore and pursue various potential acquisitions and other strategic opportunities to strengthen our competitive position and support our growth. As a result, we may incur acquisition-related transaction costs in future periods.

## Technology and Communication Expenses

Technology support services consist of costs for running our wholly-owned data centers, hosting costs paid to third-party data centers and maintenance of our computer hardware and software required to support our technology and cybersecurity. These costs are driven by system capacity, functionality and redundancy requirements. Communication expenses consist of costs or network connections for our electronic platforms and telecommunications costs.

Technology and communications expense also includes fees paid for access to external market data, licensing and other fee agreement expenses. Technology and communications expenses may be impacted by growth in electronic contract

volume, our capacity requirements, changes in the number of telecommunications hubs and connections with customers to access our electronic platforms directly.

Technology and communications expenses increased \$74 million and \$41 million for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023 primarily due to hardware and software support costs mainly at Black Knight and license expense.

### **Rent and Occupancy Expenses**

Rent and occupancy expense relates to leased and owned property and includes rent, maintenance, real estate taxes, utilities and other related costs. We have significant operations located in the U.S., U.K., and India, with smaller offices located throughout the world.

Rent and occupancy expenses increased \$14 million and \$5 million for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023 primarily due to \$14 million and \$7 million of duplicate rent expenses related to our new London and New York leased offices incurred during the six and three months ended June 30, 2024, respectively, and increases attributable to Black Knight locations.

### **Selling, General and Administrative Expenses**

Selling, general and administrative expenses include marketing, advertising, public relations, insurance, bank service charges, dues and subscriptions, travel and entertainment, non-income taxes and other general and administrative costs.

Selling, general and administrative expenses increased \$41 million and \$37 million for the six and three months ended June 30, 2024, respectively, from the comparable periods in 2023. For the six months ended June 30, 2024, the increase was primarily due to \$12 million attributable to Black Knight, \$30 million of expense for valid claims made following an equity trading issue at NYSE that occurred in June 2024 and increases in other underlying costs, including customer acquisition costs from higher IPO activity, marketing, travel and entertainment. This was partially offset by lower credit losses as well as \$6 million of expense for claims made following a NYSE system outage in January 2023 and a \$10 million regulatory matter expense that both occurred during the six months ended June 30, 2023.

For the three months ended June 30, 2024, the increase was primarily due to \$5 million attributable to Black Knight, \$30 million of expense for valid claims made following an equity trading issue at NYSE that occurred in June 2024 and increases in other underlying costs, including customer acquisition costs from higher IPO activity, travel and entertainment, partially offset by lower credit losses.

### **Depreciation and Amortization Expenses**

Depreciation and amortization expense results from depreciation of long-lived assets such as buildings, leasehold improvements, aircraft, hardware and networking equipment, purchased software, internally-developed software, furniture, fixtures and equipment over their estimated useful lives. This expense includes amortization of intangible assets obtained in our acquisitions of businesses over their estimated useful lives. Intangible assets subject to amortization consist primarily of customer relationships, technology, data & databases and trademarks & trade names.

We recorded amortization expenses on intangible assets acquired as part of our acquisitions, as well as on other intangible assets of \$506 million, inclusive of a \$3 million impairment of a developed technology intangible asset, and \$301 million for the six months ended June 30, 2024 and 2023, respectively, and \$252 million and \$151 million for the three months ended June 30, 2024 and 2023, respectively. During the six and three months ended June 30, 2024, \$212 million and \$107 million, respectively, of amortization expense was related to intangible assets acquired in connection with the Black Knight acquisition.

We recorded depreciation expenses on our fixed assets of \$256 million and \$226 million for the six months ended June 30, 2024 and 2023, respectively, and \$129 million and \$116 million for the three months ended June 30, 2024 and 2023, respectively. This increase was primarily due to \$16 million and \$10 million related to Black Knight for the six and three months ended June 30, 2024, respectively, and increases in internally developed software assets and leasehold improvements.

## Consolidated Non-Operating Income/(Expense)

Income and expenses incurred through activities outside of our core operations are considered non-operating. The following tables present our non-operating income/(expenses) (dollars in millions):

	Six Months Ended June 30,			Three Months Ended June 30,		
	2024	2023	Change*	2024	2023	Change
Other income/(expense):						
Interest income	\$ 66	\$ 193	(66)%	\$ 36	\$ 102	(64)%
Interest expense	(474)	(351)	35	(233)	(175)	33
Other income/(expense), net	104	(70)	n/a	(8)	(35)	(78)
Total other income/(expense), net	\$ (304)	\$ (228)	33 %	\$ (205)	\$ (108)	88 %
Net income attributable to non-controlling interest	\$ (23)	\$ (35)	(34)%	\$ (7)	\$ (16)	(55)%

\*Percentage changes in the table above deemed "n/a" are not meaningful.

### Interest Income

Interest income decreased during the six and three months ended June 30, 2024, from the same periods in 2023 primarily due to decreased investment balances following the Black Knight acquisition. During both the six and three months ended June 30, 2024, we earned \$4 million in interest income on short-term investments related to \$500 million of the net proceeds from the 2031 Notes which we intend to use to repay a portion of the aggregate principal amount of the 2025 Notes at their maturity. For the six and three months ended June 30, 2023, we earned \$147 million and \$78 million, respectively, in interest income on the short term investments related to the \$5.0 billion of senior notes issued in connection with, and the operating cash accumulated for, the Black Knight acquisition. In addition, our clearing houses earned interest income of \$47 million and \$24 million during the six and three months ended June 30, 2024, respectively, and \$38 million and \$19 million during the six and three months ended June 30, 2023, respectively. The remainder primarily relates to interest earned on various unrestricted and restricted cash balances held within our group entities.

### Interest Expense

During the six and three months ended June 30, 2024, we incurred interest expense of \$474 million and \$233 million, respectively. During the six and three months ended June 30, 2023, we incurred interest expense of \$351 million and \$175 million, respectively. The increase in interest expense during the six and three months ended June 30, 2024, from the comparable periods in 2023 primarily relates to increased borrowings raised to fund the Black Knight acquisition. Interest expense incurred on borrowings under our Commercial Paper program and Term Loan (each as defined in “—Liquidity and Capital Resources—Debt”) during the six and three months ended June 30, 2024, was \$91 million and \$39 million, respectively and zero during the comparable periods in 2023. During the six and three months ended June 30, 2024, we also incurred interest expense of \$27 million and \$14 million, respectively, on the \$1.0 billion of senior notes assumed as part of the Black Knight acquisition. In addition, during both the six and three months ended June 30, 2024, we incurred interest expense of \$5 million on the 2031 Notes issued on May 13, 2024.

### Other Income/(Expense), net

Our equity method investments include OCC and Bakkt, among others. We recognized \$45 million and \$65 million during the six months ended June 30, 2024 and 2023, respectively, and \$3 million and \$30 million during the three months ended June 30, 2024 and 2023, respectively, of our share of estimated equity method investment losses, net, which are included in other income/(expense), net. The estimated losses for both the six and three months ended June 30, 2024 and 2023 are primarily related to our investment in Bakkt, partially offset by our share of net profits of OCC. Both the six month periods ended June 30, 2024 and 2023 include adjustments to reflect the difference between reported prior period actual results from our original estimates.

During the six months ended June 30, 2024, we recorded a fair value loss of \$3 million on our equity investments that do not have readily determinable fair values.

During the six months ended June 30, 2024, we recorded a gain of \$160 million related to the PennyMac arbitration final award payment.

We incurred foreign currency transaction losses of \$7 million and \$5 million for the six months ended June 30, 2024 and 2023, respectively, and \$3 million and \$4 million for the three months ended June 30, 2024 and 2023, respectively, primarily attributable to the fluctuations of the pound sterling and euro relative to the U.S. dollar. Foreign currency

transaction gains and losses are recorded in other income/(expense), net, when the settlement of foreign currency assets, liabilities and payables occur in non-functional currencies and there is an increase or decrease in the period-end foreign currency exchange rates between periods.

## Non-controlling Interest

For consolidated subsidiaries in which our ownership is less than 100%, and for which we have control over the assets, liabilities and management of the entity, the outside stockholders' interests are shown as non-controlling interests. As of June 30, 2024, our non-controlling interests included those related to the non-ICE limited partners' interest in our CDS clearing subsidiaries and non-controlling interests in ICE Futures Abu Dhabi.

## Consolidated Income Tax Provision

Consolidated income tax expense was \$403 million and \$207 million for the six months ended June 30, 2024 and 2023, respectively, and \$222 million and \$32 million for the three months ended June 30, 2024 and 2023, respectively. The change in consolidated income tax expense between periods is primarily due to the tax impact of changes in our pre-tax income and the changes in our effective tax rate each period.

Our effective tax rate was 22% and 12% during the six months ended June 30, 2024 and 2023, respectively, and 26% and 4% during the three months ended June 30, 2024 and 2023, respectively. The effective tax rates for the six and three months ended June 30, 2024 were higher than the effective tax rates for the comparable periods in 2023 primarily due to tax benefits resulting from favorable audit settlements and state apportionment changes in the prior periods and the U.K. corporate income tax rate increase to 25% effective for the full year in 2024.

The OECD Pillar Two minimum tax rules, which generally provide for a minimum effective tax rate of 15%, are intended to apply to tax years beginning in 2024. The European Union member states and many other countries, including the U.K., our most significant non-U.S. jurisdiction, have committed to implement or have already enacted legislation adopting the Pillar Two rules. In July 2023, the U.K. enacted the U.K. Finance Act 2023, effective as of January 1, 2024, which included provisions to implement certain portions of the Pillar Two minimum tax rules and included an election to apply a transitional safe harbor to extend certain effective dates to accounting periods ending on or before June 30, 2028. These new U.K. Pillar Two rules did not have a material impact on our income tax provision as of June 30, 2024.

## Foreign Currency Exchange Rate Impact

As an international business, our financial statements are impacted by changes in foreign currency exchange rates. Our exposure to foreign denominated earnings for the six and three months ended June 30, 2024 is presented by primary foreign currency in the following table (dollars in millions, except exchange rates):

	Six Months Ended June 30, 2024		Three Months Ended June 30, 2024	
	Pound Sterling	Euro	Pound Sterling	Euro
Average exchange rate to the U.S. dollar in the current year period	1.2653	1.0813	1.2623	1.0766
Average exchange rate to the U.S. dollar in the same period in the prior year	1.2336	1.0812	1.2522	1.0893
Average exchange rate increase/(decrease)	3 %	— %	1 %	(1)%
Foreign denominated percentage of:				
Revenues, less transaction-based expenses	7 %	8 %	7 %	8 %
Operating expenses	6 %	1 %	6 %	1 %
Operating income	8 %	15 %	7 %	15 %
Impact of the currency fluctuations <sup>(1)</sup> on:				
Revenues, less transaction-based expenses	\$ 8	\$ —	\$ 1	\$ (2)
Operating expenses	\$ 4	\$ —	\$ 1	\$ —
Operating income	\$ 4	\$ —	\$ —	\$ (2)

(1) Represents the impact of currency fluctuation for the six and three months ended June 30, 2024 compared to the same periods in the prior year.

During both the six and three months ended June 30, 2024, 15% of our consolidated revenues, less transaction-based expenses, and 7% of our consolidated operating expenses were denominated in pounds sterling or euros. As the pound sterling or euro exchange rate changes, the U.S. equivalent of revenues and expenses denominated in foreign currencies changes accordingly.

## Liquidity and Capital Resources

Below are charts that reflect our outstanding debt and capital allocation. The acquisition and integration costs in the chart below include cash paid for equity method investments and acquisition-related transaction and integration costs in each period.

We have financed our operations, growth and cash needs primarily through income from operations and borrowings under our various debt facilities. Our principal capital requirements have been to fund capital expenditures, working capital, strategic acquisitions and investments, stock repurchases, dividends and the development of our technology platforms. We believe that our cash on hand and cash flows from operations will be sufficient to repay our outstanding debt, but we may also need to incur additional debt or issue additional equity securities in the future. See “Future Capital Requirements” below.

See “– Cash Flow” below for a discussion of our capital expenditures and capitalized software development costs.

Consolidated cash and cash equivalents were \$885 million and \$899 million as of June 30, 2024 and December 31, 2023, respectively. We had \$1.6 billion and \$871 million in short-term and long-term restricted cash and cash equivalents as of June 30, 2024 and December 31, 2023, respectively. We had \$500 million and \$680 million in short-term restricted investments as of June 30, 2024 and December 31, 2023, respectively. We had \$80.1 billion and \$79.0 billion of cash and cash equivalent margin deposits and guaranty funds as of June 30, 2024 and December 31, 2023, respectively.

As of June 30, 2024, the amount of unrestricted cash held by our non-U.S. subsidiaries was \$399 million. Due to the application of Global Intangible Low-Taxed Income as of January 1, 2018, the majority of our foreign earnings as of December 31, 2022 have been subject to immediate U.S. income taxation and can be distributed to the U.S. in the future with no material additional U.S. income tax consequences. We intend to apply the high tax exception to Global Intangible Low-Taxed Income in 2023 and 2024, thus the majority of our foreign earnings in 2023 and 2024 are not expected to be subject to immediate U.S. income taxation. These foreign earnings can also generally be distributed to the U.S. with no additional material U.S. income tax consequences, primarily due to the availability of dividend received deductions.

Our cash and cash equivalents and financial investments are managed as a global treasury portfolio of non-speculative financial instruments that are readily convertible into cash, such as overnight deposits, term deposits, money market funds, mutual funds for treasury investments, short duration fixed income investments and other money market instruments, thus ensuring high liquidity of financial assets. We may invest a portion of our cash in excess of short-term operating needs in investment-grade marketable debt securities, including government or government-sponsored agencies and corporate debt securities.

## Cash Flow

The following table presents the major components of net changes in cash and cash equivalents, and restricted cash and cash equivalents (in millions):

	Six Months Ended June 30,	
	2024	2023
Net cash provided by/(used in):		
Operating activities	\$ 2,205	\$ 1,805
Investing activities	72	1,144
Financing activities	(386)	(57,886)
Effect of exchange rate changes	(5)	6
Net decrease in cash and cash equivalents, restricted cash and cash equivalents, and cash and cash equivalent margin deposits and guaranty funds	\$ 1,886	\$ (54,931)

### Operating Activities

Net cash provided by operating activities primarily consists of net income adjusted for certain items, including depreciation and amortization, deferred taxes, stock-based compensation and the effects of changes in working capital.

The \$400 million increase in net cash provided by operating activities during the six months ended June 30, 2024 from the comparable period in 2023 was primarily driven by the adjustments to net income for depreciation and amortization and deferred income taxes, the \$160 million gain related to the PennyMac arbitration final award payment and an increase in working capital. The increases in working capital were primarily driven by lower Section 31 fee payments, partially offset by a decrease in other current and non-current liabilities due to timing of payments.

### Investing Activities

Consolidated net cash provided by investing activities for the six months ended June 30, 2024 primarily relates to \$856 million in proceeds from the sale of restricted investments, \$990 million in proceeds from sales of invested margin deposits and \$75 million in proceeds from the sale of the Promissory Note, partially offset by \$858 million of purchases of invested margin deposits, \$655 million of purchases of restricted investments, \$133 million of capital expenditures and \$177 million of capitalized software development costs.

Consolidated net cash provided by investing activities for the six months ended June 30, 2023 primarily relates to \$3.1 billion in proceeds from the sale of invested margin deposits, partially offset by \$949 million of purchases of investments, \$771 million of purchases of invested margin deposits, \$61 million of capital expenditures and \$142 million of capitalized software development costs.

The capital expenditures primarily relate to hardware and software purchases to continue the development and expansion of our electronic platforms, data services and clearing houses, and leasehold improvements. The software development expenditures primarily relate to the development and expansion of our electronic trading platforms, data services, mortgage services and clearing houses.

### Financing Activities

Consolidated net cash used in financing activities for the six months ended June 30, 2024 primarily relates to \$1.6 billion in repayments on our debt facilities, \$519 million in dividend payments to stockholders and \$73 million in cash payments related to treasury shares received for restricted stock tax payments and stock option exercises, partially offset by an increase in our cash and cash equivalent margin deposits and guaranty fund balances of \$1.0 billion, proceeds from debt issuances of \$739 million and \$33 million in net issuances under our Commercial Paper Program.

Consolidated net cash used in financing activities for the six months ended June 30, 2023 primarily relates to a decrease in our cash and cash equivalent margin deposits and guaranty fund balances of \$57.4 billion due to lower commodity prices and reduced volatility, \$472 million in dividend payments to stockholders and \$50 million in cash payments related to treasury shares received for restricted stock tax payments and stock option exercises.

## Debt

As of June 30, 2024, we had \$21.8 billion in outstanding debt, consisting of \$19.8 billion of unsecured senior notes and \$2.0 billion under our Commercial Paper Program. Our senior notes of \$19.8 billion have a weighted average maturity of 14 years and a weighted average cost of 3.7% per annum. Our commercial paper notes had original maturities ranging from 3 to 45 days as of June 30, 2024, with a weighted average interest rate of 5.5% per annum and a weighted average remaining maturity of 29 days.

We have a \$3.9 billion senior unsecured revolving credit facility, or the Credit Facility, with a maturity date of May 31, 2029. As of June 30, 2024, of the \$3.9 billion that was available for borrowing under the Credit Facility, \$2.0 billion was required to back-stop the amount outstanding under our U.S. dollar commercial paper program, or the Commercial Paper Program, and \$172 million was required to support certain broker-dealer and other subsidiary commitments. The remaining \$1.7 billion is available for working capital and general corporate purposes including, but not limited to, acting as a backstop to future increases in the amounts outstanding under the Commercial Paper Program.

We previously had a \$2.4 billion two-year senior unsecured delayed draw term loan facility, or the Term Loan, with a maturity date of August 31, 2025. We borrowed the Term Loan in full on August 31, 2023 in connection with the Black Knight acquisition, and, through the period ended June 30, 2024, we fully repaid the amounts borrowed under the Term Loan.

Our Commercial Paper Program enables us to borrow efficiently at reasonable short-term interest rates and provides us with the flexibility to de-lever using our strong annual cash flows from operating activities whenever our leverage becomes elevated as a result of investment or acquisition activities.

Upon maturity of our commercial paper and to the extent old issuances are not repaid by cash on hand, we are exposed to the rollover risk of not being able to issue new commercial paper. To mitigate this risk, we maintain the Credit Facility for an aggregate amount which meets or exceeds the amount issued under our Commercial Paper Program at any time. If we were not able to issue new commercial paper, we have the option of drawing on the backstop revolving facility. However, electing to do so would result in higher interest expense.

On February 20, 2024, we commenced a consent solicitation with respect to the outstanding notes of a subsidiary of Black Knight, or the Black Knight Notes, pursuant to which we solicited consents from eligible holders to amend the Black Knight Notes and the related indenture, under which they were issued to eliminate certain of the covenants, restrictive provisions and events of default from such indenture. The consent solicitation expired February 28, 2024, at which time the requisite majority of consents had been received. On February 29, 2024, we paid the consenting holders aggregate cash consideration of \$2.5 million and the amendment to eliminate the covenant to furnish certain reports, documents and information to holders of the Black Knight notes and the trustee under the indenture governing the Black Knight Notes took effect. On June 5, 2024, we completed a private offer to exchange 99.75% of the \$1 billion aggregate principal amount of the outstanding Black Knight Notes for new senior notes issued by ICE and the remaining amendments took effect at that time.

On May 13, 2024, we issued \$750 million in aggregate principal amount of 5.25% senior notes due 2031, or the 2031 Notes. We intend to use \$500 million of the net proceeds from the offering of the 2031 Notes to repay a portion of the aggregate principal amount of the senior notes maturing in May 2025, or the 2025 Notes. The net proceeds intended to repay the 2025 Notes have been invested and recorded as short-term restricted investments in our consolidated balance sheet as of June 30, 2024. We used the remaining net proceeds to assist with the repayments of the outstanding borrowings under the Term Loan.

For additional details of our debt instruments, refer to Note 8 to our unaudited consolidated financial statements, included in this Quarterly Report, and Note 10 to our consolidated financial statements included in our 2023 Form 10-K.

## Capital Return

In December 2021, our Board approved an aggregate of \$3.15 billion for future repurchases of our common stock with no fixed expiration date that became effective January 1, 2022. The approval of our Board for stock repurchases does not obligate us to acquire any particular amount of our common stock. In addition, our Board may increase or decrease the amount available for repurchases from time to time. We did not have any share repurchases during the six months ended June 30, 2024 or 2023. Shares repurchased are held in treasury stock.

In December 2021, we entered into a Rule 10b5-1 trading plan that became effective in February 2022. In connection with our acquisition of Black Knight, on May 4, 2022, we terminated our Rule 10b5-1 trading plan and suspended share repurchases. The remaining balance of Board approved funds for future repurchases as of June 30, 2024 was \$2.5 billion.

From time to time, we enter into Rule 10b5-1 trading plans, as authorized by our Board, to govern some or all of the repurchases of our shares of common stock. We may discontinue stock repurchases at any time and may amend or terminate a Rule 10b5-1 trading plan at any time, subject to applicable rules. We expect funding for any stock repurchases to come from our operating cash flow or borrowings under our Commercial Paper Program or our debt facilities. The timing and extent of future repurchases that are not made pursuant to a Rule 10b5-1 trading plan will be at our discretion and will depend upon many conditions. In making a determination regarding any stock repurchases, management considers multiple factors, including overall stock market conditions, our common stock price performance, the remaining amount authorized for repurchases by our Board, the potential impact of a stock repurchase program on our corporate debt ratings, our expected free cash flow and working capital needs, our current and future planned strategic growth initiatives, and other potential uses of our cash and capital resources.

During the three months ended June 30, 2024, we paid a quarterly dividend of \$0.45 per share of our common stock for an aggregate payout of \$261 million, which includes the payment of dividend equivalents on unvested employee restricted stock units.

## Future Capital Requirements

Our future capital requirements will depend on many factors, including the rate of growth across our segments, strategic plans and acquisitions, available sources for financing activities, required and discretionary technology and clearing initiatives, regulatory requirements, the timing and introduction of new products and enhancements to existing products, the geographic mix of our business and potential stock repurchases.

We currently expect to incur capital expenditures (including operational and real estate capital expenditures) and to incur software development costs that are eligible for capitalization ranging in the aggregate between \$600 million and \$650 million in 2024, which we believe will support the enhancement of our technology, business integration and the continued growth of our businesses.

As of June 30, 2024, we had \$2.5 billion authorized for future repurchases of our common stock. We may resume repurchases of our common stock, subject to achieving certain debt leverage ratio targets. Refer to Note 10 to our consolidated financial statements included in this Quarterly Report for additional details on our stock repurchase program.

Our Board has adopted a quarterly dividend policy providing that dividends will be approved quarterly by the Board or the Audit Committee taking into account factors such as our evolving business model, prevailing business conditions, our current and future planned strategic growth initiatives and our financial results and capital requirements, without a predetermined net income payout ratio. On August 1, 2024, we announced a \$0.45 per share dividend for the third quarter of 2024 with the dividend payable on September 30, 2024 to stockholders of record as of September 16, 2024.

Other than the facilities for the ICE Clearing Houses, our Credit Facility and our Commercial Paper Program are currently the only significant agreements or arrangements that we have for liquidity and capital resources with third parties. See Notes 8 and 12 to our consolidated financial statements included in this Quarterly Report for further discussion. In the event of any strategic acquisitions, mergers or investments, or if we are required to raise capital for any reason or desire to return capital to our stockholders, we may incur additional debt, issue additional equity to raise necessary funds, repurchase additional shares of our common stock or pay a dividend. However, we cannot provide assurance that such financing or transactions will be favorable to us. See “—Debt” above.

## Non-GAAP Measures

### Non-GAAP Financial Measures

We use certain financial measures internally to evaluate our performance and make financial and operational decisions that are presented in a manner that adjusts from their equivalent GAAP measures or that supplement the information provided by our GAAP measures. We use these adjusted results because we believe they more clearly highlight trends in our business that may not otherwise be apparent when relying solely on GAAP financial measures, since these measures eliminate from our results specific financial items that have less bearing on our core operating performance.

We use these measures in communicating certain aspects of our results and performance, including in this Quarterly Report, and believe that these measures, when viewed in conjunction with our GAAP results and the accompanying reconciliation, can provide investors with greater transparency and a greater understanding of factors affecting our financial condition and results of operations than GAAP measures alone. In addition, we believe the presentation of these measures is useful to investors for making period-to-period comparisons of results because the adjustments to GAAP are not reflective of our core business performance.

These financial measures are not presented in accordance with, or as an alternative to, GAAP financial measures and may be different from non-GAAP measures used by other companies. We encourage investors to review the GAAP financial measures included in this Quarterly Report, including our consolidated financial statements, to aid in their analysis and understanding of our performance and in making comparisons.

The tables below outline our adjusted operating expenses, adjusted operating income, adjusted operating margin, adjusted net income attributable to ICE common stockholders, and adjusted diluted earnings per share, which are non-GAAP measures that are calculated by making adjustments for items we view as not reflective of our cash operations and core business performance. These measures, including the adjustments and their related income tax effect and other tax adjustments (in millions, except for percentages and per share amounts), are as follows:

	Exchanges Segment		Fixed Income and Data Services Segment		Mortgage Technology Segment		Consolidated	
	Six Months Ended June 30,							
	2024	2023	2024	2023	2024	2023	2024	2023
<b>Operating income adjustments:</b>								
Total revenues, less transaction-based expenses	\$ 2,469	\$ 2,190	\$ 1,133	\$ 1,109	\$ 1,005	\$ 485	\$ 4,607	\$ 3,784

Adjusted net income attributable to ICE common stockholders							\$ 876	\$ 802
Diluted earnings per share attributable to ICE common stockholders							\$ 1.10	\$ 1.42
Adjusted diluted earnings per share attributable to ICE common stockholders							\$ 1.52	\$ 1.43
Diluted weighted average common shares outstanding							575	561

Amortization of acquisition-related intangibles are included in non-GAAP adjustments as excluding these non-cash expenses provides greater clarity regarding our financial strength and stability of cash operating results. For the six months ended June 30, 2024, included in amortization of acquisition-related intangibles is \$3 million of impairment related to developed technology within our Exchanges Segment.

Transaction and integration costs are included as part of our core business expenses, except for those that are directly related to the announcement, closing, financing, or termination of a transaction. However, we adjust for the acquisition-related transaction and integration costs for acquisitions such as Black Knight and Ellie Mae given the magnitude of the \$11.8 billion and \$11.4 billion, respectively, purchase prices of the acquisitions.

Litigation and regulatory matters during the six months ended June 30, 2024 include the \$160 million gain related to the PennyMac arbitration award resolution and payment received. Litigation and regulatory matters during the six months ended June 30, 2023 include an accrual related to a regulatory settlement of \$11 million. We do not consider events of this type to be reflective of our core business.

We adjust for our share of net gains/(losses) related to our equity method investments, which primarily include OCC and Bakkt. In addition, during the six months ended June 30, 2024, we excluded a \$3 million fair value adjustment on our equity investments. We believe these adjustments provide greater clarity of our performance, given that equity and equity method investments are non-cash and not a part of our core operations.

During the six and three months ended June 30, 2023, we excluded \$12 million and \$6 million, respectively, of net interest income on interest earned on investments from the pre-acquisition debt proceeds, net of interest expense on pre-acquisition-related debt from our May 2022 debt refinancing related to the Black Knight acquisition.

Other adjustments not considered to be a part of our core business operations include:

- Duplicate rent expense of \$14 million and \$7 million incurred during the six and three months ended June 30, 2024, respectively, related to our new London and New York leased offices. We took possession of the new London and New York leases during the fourth quarter of 2023 and first quarter 2024, respectively, and expect the spaces to be completed in the third quarter of 2024. We view these duplicate non-cash rent expenses of the new offices during the transition to be incremental, non-recurring, and not related to the normal operations of the Company.
- During the six months ended June 30, 2024, \$30 million of expense for valid claims made following an equity trading issue at NYSE that occurred in June 2024.
- During the six months ended June 30, 2023, \$6 million of expense for claims made following a NYSE system outage that occurred in January 2023.

Non-GAAP tax adjustments include the tax impacts of the pre-tax non-GAAP adjustments, deferred tax adjustments on acquisition-related intangibles, and other tax adjustments. The deferred tax adjustments on acquisition-related intangibles of \$(35) million and \$16 million for the six and three months ended June 30, 2024, respectively, and \$(85) million and \$(86) million for the six and three months ended June 30, 2023, respectively, are primarily related to U.S. state apportionment changes. Other tax adjustments of \$(81) million and \$(57) million during the six and three months ended June 30, 2023, respectively, are primarily related to audit settlements for pre-acquisition tax matters as well as state apportionment changes in prior years.

### Non-GAAP Liquidity Measures

We consider free cash flow and adjusted free cash flow to be non-GAAP liquidity measures that provide useful information to management and investors to analyze cash resources generated from our operations. We believe that free cash flow and adjusted free cash flow are also useful when comparing our performance to that of our competitors, and demonstrates our ability to convert the reinvestment of capital expenditures and capitalized software development costs required to maintain and grow our business, as well as adjust for timing differences related to the payment of section 31 fees. These non-GAAP liquidity measures are not presented in accordance with, or as an alternative to, GAAP liquidity measures and may be different from non-GAAP measures used by other companies. Free cash flow and adjusted free cash flow, including the related adjustments are as follows (in millions):

	<b>Six Months Ended June 30,</b>	
	<b>2024</b>	<b>2023</b>
Net cash provided by operating activities	\$ 2,205	\$ 1,805
Less: Capital expenditures	(133)	(61)
Less: Capitalized software development costs	(177)	(142)
Free cash flow	1,895	1,602
Add/(less): Section 31 fees, net	(124)	50
Adjusted free cash flow	\$ 1,771	\$ 1,652

For additional information on these items, refer to our consolidated financial statements included in this Quarterly Report and “—Consolidated Operating Expenses” above.

### Off-Balance Sheet Arrangements

As described in Note 12 to our consolidated financial statements, which are included elsewhere in this Quarterly Report, certain clearing house collateral is reported off-balance sheet. We do not have any relationships with unconsolidated entities or financial partnerships, often referred to as structured finance or special purpose entities.

### Contractual Obligations and Commercial Commitments

During the six months ended June 30, 2024, we entered into a 15 year lease in New York City resulting in an initial net lease liability of \$71 million. Other than this lease, there were no significant changes to our contractual obligations and commercial commitments from those disclosed in the section “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our 2023 Form 10-K.

## New and Recently Adopted Accounting Pronouncements

During the six months ended June 30, 2024, there were no significant changes to the new and recently adopted accounting pronouncements applicable to us from those disclosed in Note 2 of our 2023 Form 10-K.

## Critical Accounting Policies

During the six months ended June 30, 2024, there were no significant changes to our critical accounting policies and estimates from those disclosed in the section "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our 2023 Form 10-K.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a result of our operating and financing activities, we are exposed to market risks such as interest rate risk, foreign currency exchange rate risk and credit risk. We have implemented policies and procedures designed to measure, manage, monitor and report risk exposures, which are regularly reviewed by the appropriate management and supervisory bodies. There have been no material changes to the Company's exposure to market risks from those disclosed in Part II, Item 7A, "Quantitative and Qualitative Disclosures About Market Risk" in our 2023 Form 10-K.

### ITEM 4. CONTROLS AND PROCEDURES

(a) *Evaluation of Disclosure Controls and Procedures.* As of the end of the period covered by this report, an evaluation was carried out by our management, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that these disclosure controls and procedures were effective as of the end of the period covered by this report.

(b) *Changes in Internal Controls over Financial Reporting.* There were no changes in our internal controls over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

## PART II. Other Information

### ITEM 1. LEGAL PROCEEDINGS

See Note 13 to the consolidated financial statements and related notes, which is incorporated by reference herein.

### ITEM 1(A). RISK FACTORS

During the six months ended June 30, 2024, there were no significant new risk factors from those disclosed in Part I, Item 1A, "Risk Factors" in our 2023 Form 10-K. In addition to the other information set forth in this Quarterly Report, including the information in the "—Regulation" section of Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations, you should carefully consider the factors discussed under "Risk Factors" and the regulation discussion under "Business—Regulation" in our 2023 Form 10-K. These risks could materially and adversely affect our business, financial condition and results of operations. The risks and uncertainties in our 2023 Form 10-K are not the only ones facing us. Additional risks and uncertainties not presently known to us, or that we currently believe to be immaterial, may also adversely affect our business.

### ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

#### Stock Repurchases

During the six months ended June 30, 2024, there were no purchases made by or on behalf of ICE or any "affiliated purchaser" (as defined in Rule 10b-18(a)(3) under the Exchange Act) of our common stock.

Refer to Note 10 to our consolidated financial statements and related notes, which are included elsewhere in this Quarterly Report, for details on our stock repurchase program.

### ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

### ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

### ITEM 5. OTHER INFORMATION

The following officers and directors adopted plans intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) under the Exchange Act:

(a) On May 28, 2024, Judith A. Sprieser, one of our directors, adopted a trading plan for the sale of shares of ICE common stock, which is intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) under the Exchange Act. The plan expires on the earlier of (i) December 31, 2024 or (ii) upon the completion of the sale of the maximum number of shares under the plan. The aggregate number of shares to be sold under the plan is 2,600 shares.

(b) On May 24, 2024, Martha A. Tirinnanzi, one of our directors, adopted a trading plan for the sale of shares of ICE common stock, which is intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) under the Exchange Act. The plan expires on the earlier of (i) April 30, 2025 or (ii) upon the completion of the sale of the maximum number of shares under the plan. The aggregate number of shares to be sold under the plan is 1,018 shares.

(c) On June 7, 2024, Jeffrey C. Sprecher, our Chair and Chief Executive Officer, adopted a trading plan for the sale of shares of ICE common stock for himself and Continental Power Exchange, Inc., or CPEX, of which he owns 100% of the equity interests. The plan is intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) under the Exchange Act. The plan expires on the earlier of (i) August 31, 2025; or (ii) upon the completion of the sale of the maximum number of shares under the plan. The aggregate number of shares held by Mr. Sprecher directly to be sold under the plan is 203,206 shares plus an undetermined number of shares to be sold resulting from the vesting of performance-based restricted stock units less the amount of shares that will be withheld to satisfy the payment of Mr. Sprecher's tax withholding obligations. The aggregate number of shares held by CPEX to be sold under the plan is 600,000 shares.

(d) On June 10, 2024, Stuart G. Williams, our Chief Operating Officer, adopted a trading plan for the sale of shares of ICE common stock, which is intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) under the Exchange Act. The plan expires on the earlier of (i) December 31, 2024 or (ii) upon the completion of the sale of the maximum number of shares under the plan. The aggregate number of shares to be sold under the plan is 750 shares plus an undetermined number of shares to be sold resulting from the vesting of performance-based restricted stock units less the amount of shares that will be withheld to satisfy the payment of Mr. Williams' tax withholding obligations.

Certain of our officers or directors have made elections to participate in, and are participating in, our dividend reinvestment plan and employee stock purchase plan and have made, and may from time to time, make elections to have shares withheld to cover withholding taxes or pay the exercise price of options, which may be designed to satisfy the affirmative defense conditions of Rule 10b5-1 under the Exchange Act or may constitute non-Rule 10b5-1 trading arrangements (as defined in Item 408(c) of Regulation S-K).

### ITEM 6. EXHIBITS

Exhibit Number		Description of Document
3.1	—	<a href="#">Sixth Amended and Restated Certificate of Incorporation of Intercontinental Exchange, Inc., effective August 22, 2022 (incorporated by reference to Exhibit 3.1 to Intercontinental Exchange, Inc.'s Current Report on Form 8-K filed with the SEC on August 22, 2022, File No. 001-36198).</a>
3.2	—	<a href="#">Ninth Amended and Restated Bylaws of Intercontinental Exchange, Inc., effective August 22, 2022 (incorporated by reference to Exhibit 3.2 to Intercontinental Exchange, Inc.'s Current Report on Form 8-K filed with the SEC on August 22, 2022, File No. 001-36198).</a>

101	—	The following materials from Intercontinental Exchange, Inc.'s Quarterly Report on Form 10-Q for the quarter ended June 30, 2024, formatted in Inline XBRL (Extensible Business Reporting Language): (i) the Consolidated Balance Sheets, (ii) the Consolidated Statements of Income, (iii) the Consolidated Statements of Comprehensive Income, (iv) the Consolidated Statements of Changes in Equity (v) Consolidated Statements of Cash Flows and (vi) Notes to Consolidated Financial Statements, tagged as blocks of text.
104	—	The cover page from Intercontinental Exchange, Inc.'s Quarterly Report on Form 10-Q for the quarter ended June 30, 2024 formatted in Inline XBRL.

\* Filed herewith.

\*\* Furnished herewith. These exhibits shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, or otherwise subject to the liability of that Section. Such exhibits shall not be deemed incorporated into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934.

## SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the Registrant has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized.

Date: August 1, 2024

Intercontinental Exchange, Inc.  
(Registrant)

By: /s/ A. Warren Gardiner  
A. Warren Gardiner  
Chief Financial Officer  
(Principal Financial Officer)

## CERTIFICATION

I, Jeffrey C. Sprecher, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Intercontinental Exchange, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
