(3) Represents non-cash amortization expense associated with acquisition related identifiable intangible assets.

(4) Represents amounts recorded to a liability for employee termination costs associated with workforce reduction actions taken in the fourth quarter of fiscal year 2014.

(5) Represents a charge for plaintiff's attorneys' fees associated with the unfavorable verdict in the antitrust and false advertising lawsuit filed against BD by RTI.

(6) Represents the dilutive impact of BD shares issued as part of purchase consideration for CareFusion acquisition prior to the consolidation of its operating results beginning on April 1, 2015. The year-to-date adjusted diluted average shares outstanding (in thousands) is 206,833.

(7) Includes a \$6 million charge associated with the decision to terminate a research and development program in the Medical segment; the charge relates to program asset write-offs and obligations. Also includes a \$20 million charge associated with the write-off of capitalized product software and, to a lesser extent, fixed assets primarily resulting from the discontinuance of an instrument product development program in the Life Sciences segment.

(8) Primarily represents non-cash pension settlement charges associated with lump sum benefit payments made primarily from the Company's U.S. supplemental pension plan, as such payments exceeded the service and interest components of the plan's pension cost in each year. The charges also included settlement losses associated with certain foreign pension plans.

(9) Represents the cost associated with the decision to early terminate a European distributor arrangement in the Life Sciences segment of \$11 million pre-tax and a charge resulting from the adjustment to the carrying amount of an asset that is being held for sale of \$5 million pre-tax, which were largely offset by a gain from a cash distribution received from the sale of a company, of which BD had a small equity ownership, of \$8 million pre-tax.
