Cal Water Announces Second Quarter 2007 Results and Company Declares 251st Consecutive Quarterly Dividend

SAN JOSE, Calif.--(BUSINESS WIRE)--

California Water Service Group (NYSE:CWT) today announced net income of \$7.7 million and earnings per common share of \$0.37 for the second quarter of 2007, compared to net income of \$5.7 million and earnings of \$0.31 per common share in the second quarter of 2006.

Revenues increased by \$14.7 million, or 18%, to \$95.8 million, benefiting from a \$9.9 million increase in water sales to existing customers, a \$4.0 million increase in rates, and \$0.8 million in sales to new customers.

Total operating expenses for the second quarter of 2007 increased by \$12.9 million, or 18%, to \$84.4 million. Included in this category is a \$7.1 million increase in water production costs, due largely to the increase in customer water usage and higher costs for wholesale water purchases.

Other operations expenses increased \$1.9 million, or 8%, to \$25.3 million, due partially to an increase of \$0.7 million in outside services for various initiatives, including preparation for the 2007 General Rate Case; \$0.3 million for California Public Utilities Commission fees, which are based upon revenues; and an increase of \$0.2 million in general payroll increases that took effect January 2007.

Maintenance expense increased by \$1.8 million, or 53%, to \$5.2 million for the quarter, due to an increase in repairs to water mains and services.

Depreciation expense increased \$0.7 million, or 10%, to \$8.4 million, as a result of increases in 2006 utility plant.

Property and taxes other than income taxes increased \$0.4 million, or 13%, to \$3.4 million, as a result of higher franchise fees and property taxes, while total income taxes increased \$1.3 million, or 32%, to \$5.4 million because of higher pre-tax income.

Other income increased \$0.4 million, or 88%, to \$0.8 million, mainly due to interest on short-term and other investments. There were no property sales in the second quarter of 2007, compared to property sales of \$0.3 million in the second quarter of 2006.

For the six months ended June 30, 2007, net income increased \$2.8 million, or 42%, to \$9.3 million, compared to \$6.5 million for the same period in the previous year. Earnings per share increased \$0.10, or 27%, to \$0.45, compared to \$0.35 for the same period. Revenues for the six months increased \$21.0 million, or 14%, to \$167.4 million, compared to \$146.3 million for the same period in the previous year.

"Continuing dry weather boosted our revenues in the second quarter of 2007, as did our continued efforts to improve the process to recover cost increases in water rates," said Peter C. Nelson, President and Chief Executive Officer.

Nelson noted that during the quarter, the company prepared its 2007 General Rate Case (GRC) for its company headquarters and eight districts. As part of this filing, the company requested that it be allowed to recover certain corporate costs associated with health care and employee welfare programs, Sarbanes-Oxley compliance, and general administration expenses. If the company headquarters or centralized services application is approved and adopted by the Commission, Cal Water will be allowed to recover these costs across all districts at once, thus greatly reducing the delay in recovery that occurred previously when company headquarters costs were phased into rates only as districts filed separate General Rates Cases on a three-year schedule.

Among the programs proposed by Cal Water in the centralized services filing were additional programs to promote conservation. "We share the Commission's commitment to encouraging wise water use, and with the recent dry weather, our conservation efforts are more important than ever," Nelson said.

At their meeting on July 25, 2007, the Directors of California Water Service Group (NYSE:CWT) declared the Company's 251st consecutive quarterly dividend on common stock. The quarterly dividend of \$0.2900 will be payable on August 17, 2007, to stockholders of record on August 6, 2007. The Board also declared a regular dividend on Series C preferred stock.
