CORNING INCORPORATED AND SUBSIDIARY COMPANIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Summary of Significant Accounting Policies

Basis of Presentation and Principles of Consolidation

In these notes, the terms "Corning," "Company," "we," "us," or "our" mean Corning Incorporated and its subsidiary companies.

The consolidated financial statements include the consolidated accounts of Corning Incorporated and its subsidiaries consolidated in conformity with accounting principles generally accepted in the United States of America ("GAAP"). In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments, which include normal recurring adjustments, necessary to state fairly the financial position, results of operations and cash flows for the periods presented. All intercompany accounts, transactions and profits have been eliminated. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been omitted pursuant to the rules and regulations of the United States Securities and Exchange Commission ("SEC"). These consolidated financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2023 ("2023 Form 10-K"). The results of operations for the interim periods are not necessarily indicative of results which may be expected for any other interim period or for the full year.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and the disclosure of contingent assets and liabilities in the consolidated financial statements and related notes. Significant estimates and assumptions in these consolidated financial statements require the exercise of judgment. Due to the inherent uncertainty involved in making estimates, actual results reported in future periods may be different from these estimates.

The non-controlling interest as recorded in the consolidated financial statements represents amounts attributable to the minority shareholders of Hemlock Semiconductor Group ("HSG") and other less-than-wholly-owned consolidated subsidiaries.

Certain prior year amounts have been reclassified to conform to the current year presentation. These reclassifications had no material impact on the results of operations, financial position or changes in shareholders' equity.

2. Restructuring, Impairment and Other Charges and Credits

During the three and six months ended June 30, 2024, we recorded \$138 million and \$129 million, respectively, in restructuring, impairment and other charges and credits, of which \$141 million and \$121 million, respectively, were reflected in cost of sales in the consolidated statements of income, primarily relating to asset write-offs in Q2 associated with the closure of a display manufacturing plant. Should the entity be substantially liquidated, the Company expects to recognize approximately \$72 million of non-cash foreign currency translation losses.

There were no material restructuring, impairment and other charges and credits for the three and six months ended June 30, 2023.

3. Revenue

Disaggregated Revenue

The following table presents revenues by product category (in millions):

	Three mo	nths e e 30,	nded	Six mont June	ded
	2024		2023	2024	2023
Telecommunication products	\$ 1,113	\$	1,066	\$ 2,043	\$ 2,191
Display products	704		725	1,336	1,334
Specialty glass products	497		420	947	824
Environmental substrate and filter products	404		433	831	840
Life science products	237		222	462	469
Polycrystalline silicon products	199		258	415	535
All other products	97		119	192	228
Total revenue	\$ 3,251	\$	3,243	\$ 6,226	\$ 6,421

Customer Deposits

As of June 30, 2024 and December 31, 2023, Corning had customer deposits of approximately \$1.2 billion. Most of these customer deposits were non-refundable and allowed customers to secure rights to produced by Corning under long-term supply agreements, generally over a period of up to ten years. As products are delivered to customers, Corning will recognize revenue and reduce the amount of the customer deposit liability.

For the three months ended June 30, 2024 and 2023, customer deposits recognized were \$11 million and \$12 million, respectively. For the six months ended June 30, 2024 and 2023, customer deposits recognized were \$91 million and \$82 million, respectively.

Refer to Note 7 (Other Liabilities) for additional information.

Deferred Revenue

As of June 30, 2024 and December 31, 2023, Corning had deferred revenue of approximately \$790 million and \$860 million, respectively. Deferred revenue was primarily related to the performance obligations of non-refundable consideration previously received by HSG from its customers under long-term supply agreements.

Deferred revenue is tracked on a per-customer contract-unit basis. As customers take delivery of the committed volumes under the terms of the contract, a perunit amount of deferred revenue is recognized when control of the promised goods is transferred to the customer based upon the units delivered compared to the remaining contractual units. For the three and six months ended June 30, 2024 and 2023, the amount of deferred revenue recognized in the consolidated statements of income was not material.

Refer to Note 7 (Other Liabilities) for additional information.

4. Income Taxes

The following table presents the provision for income taxes and the related effective tax rate (in millions, except percentages):

	Three months en June 30,	nded	Six months end June 30,	led
	 2024	2023	2024	2023
Provision for income taxes	\$ (50) \$	(106) \$	(121) \$	(143)
Effective tax rate	29.1%	25.9%	25.9%	22.4%

For the three and six months ended June 30, 2024, the effective tax rate differed from the United States ("U.S.") statutory rate of 21%, primarily due to certain pre-tax losses with no corresponding expected tax benefit. These losses were mostly driven by asset write-offs associated with the closure of a display manufacturing plant. Refer to Note 2 (Restructuring, Impairment and Other Charges and Credits) for additional information.

For the three and six months ended June 30, 2023, the effective tax rate differed from the U.S. statutory rate of 21%, primarily due to changes in valuation allowance assessments, partially offset by differences arising from foreign earnings, adjustments to share-based compensation, and a net benefit due to foreign derived intangible income.

Corning Precision Materials, a South Korean subsidiary, is currently appealing certain tax assessments and tax refund claims for tax years 2010 through 2019. The Company was required to deposit the disputed tax amounts with the South Korean government as a condition of its appeal of any tax assessment. During the second quarter of 2023, \$99 million was no longer under dispute and was refunded to the Company. The non-current receivable balance was \$256 million and \$261 million as of June 30, 2024 and December 31, 2023, respectively, for the amount on deposit with the South Korean government. Corning believes that it is more likely than not the Company will prevail in the appeals process relating to these matters.

5. Earnings Per Common Share

The following table presents the reconciliation of the amounts used to compute basic and diluted earnings per common share (in millions, except per share amounts):

	Three mo	nths e e 30,	nded	Six mon June	ths en e 30,	ded
	 2024		2023	2024		2023
Net income attributable to Corning Incorporated	\$ 104	\$	281	\$ 313	\$	457

Other current liabilities	1,145	1,327
Other accrued liabilities	\$ 2,684	\$ 2,533
Non-current liabilities:		
Defined benefit pension plan liabilities	\$ 724	\$ 721
Derivative instruments (Note 12)	156	31
Deferred revenue (Note 3)	597	679
Customer deposits (Note 3)	986	1,083
Deferred tax liabilities	167	218
Long-term operating leases	821	846
Other non-current liabilities	1,007	1,131
Other liabilities	\$ 4,458	\$ 4,709

8. Debt

Based on borrowing rates currently available to us for loans with similar terms and maturities, the fair value of long-term debt was \$6.5 billion and \$7.0 billion as of June 30, 2024 and December 31, 2023, respectively, compared to the carrying value of \$6.9 billion and \$7.2 billion as of June 30, 2024 and December 31, 2023, respectively. The Company measures the fair value of its long-term debt using Level 2 inputs based primarily on current market yields for its existing debt traded in the secondary market.

In Q2 2024, the Company entered into a \(\frac{4}{2}\)3 billion, or \(\frac{5}{2}\)15 million, fixed rate, three-year cross currency swap contract to economically lock in unrealized foreign exchange gains relating to a portion of the Company's Japanese yen-denominated debt due in 2027. Refer to Note 12 (Financial Instruments) for additional information.

On May 15, 2023, the Company issued €300 million 3.875% Notes due 2026 ("2026 Notes") and €550 million 4.125% Notes due 2031 ("2031 Notes"). The proceeds from the 2026 Notes and 2031 Notes were received in euros and converted to U.S. dollars on the date of issuance. The net proceeds received were approximately \$918 million and will be used for general corporate purposes. As of June 30, 2024, the U.S. dollar equivalent carrying value of the euro-denominated long-term debt was \$903 million. The full amounts of the 2026 Notes and 2031 Notes have been designated as net investment hedges against our investments in certain European subsidiaries with euro functional currencies. Refer to Note 12 (Financial Instruments) for additional information.

9. Employee Retirement Plans

The following table presents the components of net periodic pension and postretirement benefit expense (income) for employee retirement plans, which other than the service cost component is recorded in other income, net in the consolidated statements of income (in millions):

			Pension	ber	nefits						Postretire	nen	t benefits

10. Leases

On March 12, 2024, Corning entered into a synthetic lease ("Facility Lease") for a solar manufacturing facility in Hemlock, Michigan (the "Facility"), for which the Company is the construction agent on behalf of the lessor, with an estimated construction cost of approximately \$835 million.

The Facility Lease will commence upon completion of construction of the Facility, which is expected to be in the later part of 2025, and has a lease term of five years with options to renew the lease or purchase the facility. The Facility Lease is expected to be classified as a finance lease and the amount of right-of-use asset and lease liability will be determined and recorded upon lease commencement. The estimated undiscounted lease payments, inclusive of a residual value guarantee, are approximately \$1.1 billion, of which \$35 million, \$103 million, \$99 million and \$96 million is to be paid in 2025, 2026, 2027 and 2028, respectively, and \$780 million is to be paid thereafter.

In conjunction with the Facility Lease, Corning entered into an equipment lease ("Equipment Lease") on June 17, 2024, with an estimated purchase and installation cost of \$365 million, for the equipment to be installed and operated within the Facility. The Company is the procurement and installation agent on behalf of the lessor.

The Equipment Lease will commence upon completion of the equipment installation, which is expected to be in the later part of 2025, and has a lease term of five years with obligations to purchase the equipment at lease maturity. The Equipment Lease is expected to be classified as a finance lease and the amount of right-of-use asset and lease liability will be determined and recorded upon lease commencement. The estimated undiscounted lease payments are approximately \$446 million, of which \$25 million, \$100 million, \$95 million and \$89 million is to be paid in 2025, 2026, 2027 and 2028, respectively, and \$137 million is to be paid thereafter.

The transaction agreements for both the Facility Lease and Equipment Lease contain covenants that are consistent with our Revolving Credit Agreement as disclosed in the 2023 Form 10-K.

11. Commitments and Contingencies

Corning is a defendant in various lawsuits and is subject to various claims that arise in the normal course of business, the most significant of which are summarized below. In the opinion of management, the likelihood that the ultimate disposition of these matters will have a material adverse effect on Corning's consolidated financial position, liquidity or results of operations, is remote.

Dow Corning Chapter 11 Related Matters

Until June 1, 2016, Corning and The Dow Chemical Company ("Dow") each owned 50% of the common stock of Dow Corning Corporation ("Dow Corning"). On May 31, 2016, Corning and Dow realigned their ownership interest in Dow Corning. Following the realignment, Corning no longer owned any interest in Dow Corning. With the realignment, Corning agreed to indemnify Dow for 50% of Dow Corning's non-ordinary course, pre-closing liabilities to the extent such liabilities exceed the amounts reserved for them by Dow Corning as of May 31, 2016, subject to certain conditions and limits. In January 2024, we entered into an agreement to settle the Dow Corning Chapter 11 Related Matters and the settlement amount was not material.

Dow Corning Environmental Claims

Beginning in September 2019, Dow formally notified Corning of certain environmental matters for which Dow asserts that it has or will experience losses arising from remediation and response at a number of sites. Subject to certain conditions and limits, Corning may be required to indemnify Dow for up to 50% of such losses. As of June 30, 2024, Corning has determined a potential liability for these environmental matters is probable and the amount reserved was not material.

Environmental Litigation

Corning has been designated by federal or state governments under environmental laws, including Superfund, as a potentially responsible party that may be liable for cleanup costs associated with 19 hazardous waste sites. It is Corning's policy to accrue for its estimated liability related to such hazardous waste sites and other environmental liabilities related to property owned by Corning based on expert analysis and continual monitoring by both internal and external consultants. As of June 30, 2024 and December 31, 2023, Corning had accrued approximately \$83 million and \$88 million, respectively, for the estimated undiscounted liability for environmental cleanup and related litigation. Based upon the information developed to date, management believes that the accrued reserve is a reasonable estimate of the Company's liability.

12. Financial Instruments

The following table summarizes the notional amounts and respective fair values of Corning's derivative financial instruments on a gross basis (in millions):

			J	fune 30, 2024			December 31, 2023						
				Fair value		Fair value				Fair value		Fair value	
	Notion	al amount		asset (1)		liability (1)	No	otional amount		asset (1)		liability (1)	
Derivatives designated as hedging													
instruments (2):													
Foreign exchange and precious													
metals lease contracts (3)	\$	721	\$	179	\$	(19)	\$	241	\$	287			
Derivatives not designated as hedging													
instruments:													
Foreign exchange contracts		1,964		22		(34)		1,988		20	\$	(17)	
Translated earnings contracts		5,437		406		(207)		5,042		324		(80)	
Cross currency swap contracts		215				(75)							
Total derivatives	\$	8,337	\$	607	\$	(335)	\$	7,271	\$	631	\$	(97)	
Current			\$	520	\$	(179)			\$	501	\$	(66)	
Non-current				87		(156)				130		(31)	
Total derivatives			\$	607	\$	(335)			\$	631	\$	(97)	

All of the Company's derivative contracts are measured at fair value and are classified as Level 2 within the fair value hierarchy. Derivative assets are presented in Other current assets or Other assets. Derivative liabilities are presented in Other current liabilities or Other liabilities.
 The amounts above do not include €850 million of euro-denominated debt (\$903 million carrying value as of June 30, 2024), which is a non-derivative financial instrument designated as a net

investment hedge.

(3) As of June 30, 2024 and December 31, 2023, derivatives designated as hedging instruments include foreign exchange cash flow hedges with total notional amounts of \$721 million and \$241 million, respectively, and fair value hedges of leased precious metals with total notional amounts of 13,762 troy ounces and 20,160 troy ounces, respectively. Fair value assets include designated derivatives pertaining to precious metals lease contracts in the amounts of \$146 million and \$229 million as of June 30, 2024 and December 31, 2023, respectively.

The following table summarizes the total gross notional values for translated earnings contracts (in millions):

	June 30,	De	cember 31,
	2024		2023
Average rate forward contracts:			
Chinese yuan-denominated	\$ 748	\$	684
Japanese yen-denominated	358		463
South Korean won-denominated	1,301		1,609
New Taiwan dollar-denominated	423		198
Other foreign currencies (1)	336		
Option contracts:			
Japanese yen-denominated (2)	2,271		2,088
Total notional amount for translated earnings contracts	\$ 5,437	\$	5,042

(1) Denominational currencies for other average rate forward contracts include the Mexican Peso and euro.

(2) Japanese yen-denominated option contracts include purchased put options and zero-cost collars. With respect to the zero-cost collars, the gross notional amount includes the value of the put and call options. However, due to the nature of the zero-cost collars, only the put or the call option can be exercised at maturity.

The following tables summarize the effect in the consolidated statements of income relating to Corning's derivative financial instruments (in millions). The accumulated derivative gain included in accumulated other comprehensive loss on the consolidated balance sheets as of June 30, 2024 and December 31, 2023 is \$43 million and \$54 million, respectively.

Cross Currency Swap Contracts

Since inception of the Company's Japanese yen-denominated debt, the Japanese yen has weakened and the US dollar value of these liabilities has decreased, generating unrealized foreign exchange gains that have been recognized over time in the consolidated statements of income. During Q2 2024, to economically lock in unrealized foreign exchange gains, the Company entered into a ¥23 billion, or \$215 million, fixed rate, three-year cross currency swap contract relating to a portion of the Company's Japanese yen-denominated debt due in 2027. At inception of this instrument, Corning received a net \$68 million from the counterparty, representing an exchange of the notional amounts at a fixed foreign exchange rate of Japanese yen to US dollar and was initially recorded as a derivative liability. As of June 30, 2024, the fair value of this derivative liability is \$75 million.

Net Investment Hedges

In May 2023, the Company designated the full amount of its 2026 Notes and 2031 Notes with a total notional amount of €850 million, which are non-derivative financial instruments, as net investment hedges against our investments in certain European subsidiaries with euro functional currencies. As of June 30, 2024, the net investment hedges are deemed to be effective. During the three and six months ended June 30, 2024 foreign currency gain of \$8 million and \$30 million, respectively, associated with these net investment hedges were recognized in other comprehensive loss. During the three and six months ended June 30, 2023, the loss recognized in other comprehensive loss was not material.

Leased Precious Metals Contracts

The carrying amount of the leased precious metals pool, which is included within property, plant and equipment, net of accumulated depreciation in the consolidated balance sheets, is \$65 million and \$90 million as of June 30, 2024 and December 31, 2023, respectively. The carrying amount of the leased precious metals pool includes cumulative fair value loss of \$153 million and \$239 million as of June 30, 2024 and December 31, 2023, respectively. These losses are offset by changes in the fair value of hedges.

13. Shareholders' Equity

Common Stock Dividends

On June 26, 2024, Corning's Board of Directors declared a quarterly dividend of \$0.28 per share of common stock. The dividend will be payable on September 27, 2024.

Fixed Rate Cumulative Convertible Preferred Stock, Series A

The Company had 2,300 outstanding shares of Fixed Rate Cumulative Convertible Preferred Stock, Series A (the "Preferred Stock") as of December 31, 2020. On January 16, 2021, the Preferred Stock became convertible into 115 million common shares. On April 5, 2021 Corning executed the Share Repurchase Agreement ("SRA") with Samsung Display Co., Ltd. ("SDC") and the Preferred Stock was fully converted as of April 8, 2021. Immediately following the conversion, we repurchased and retired 35 million of the common shares held by SDC for an aggregate purchase price of approximately \$1.5 billion, of which approximately \$507 million was paid in April in each of 2023, 2022 and 2021.

Pursuant to the SRA, with respect to the remaining 80 million common shares outstanding held by SDC:

- 58 million of the common shares SDC holds are subject to a seven-year lock-up period expiring in 2027.
- SDC has the option to offer to sell 22 million common shares to Corning in specified tranches from time to time in calendar years 2024 through 2027. Corning may, at its sole discretion, elect to repurchase such common shares. If Corning elects not to repurchase the common shares and SDC sells the common shares on the open market, Corning will be required to pay SDC a make-whole payment, subject to a 5% cap of the repurchase proceeds that otherwise would have been paid by Corning. As of June 30, 2024 and December 31, 2023, the fair value of the liability associated with this option was not material.

Share Repurchase Program

In 2019, the Board authorized the repurchase of up to \$5.0 billion of common stock ("2019 Authorization"). As of June 30, 2024, approximately \$3.2 billion remains available under the Company's 2019 Authorization.

During the three and six months ended June 30, 2024, the Company repurchased 3 million common shares for \$105.4 million, pursuant to the terms of the SRA, as discussed above. No shares were repurchased under our 2019 Authorization during the three and six months ended June 30, 2023.

Accumulated Other Comprehensive Loss

For the three and six months ended June 30, 2024 and 2023, the change in accumulated other comprehensive loss was primarily related to the foreign currency translation adjustments.

The following table presents the changes in the foreign currency translation adjustment component of accumulated other comprehensive loss, including the proportionate share of equity method affiliates' accumulated other comprehensive loss (in millions):

	Three mon June		Six mont June	ded		
	 2024		2023	2024	2024	
Beginning balance	\$ (2,272)	\$	(1,796)	\$ (1,942)	\$	(1,712)
Loss on foreign currency translation, net of tax benefit - \$6, \$3, \$29, \$27	(212)		(310)	(543)		(393)
Equity method affiliates	(10)		(8)	(9)		(9)
Net current-period other comprehensive loss, net of tax	(222)		(318)	(552)		(402)
Ending balance	\$ (2,494)	\$	(2,114)	\$ (2,494)	\$	(2,114)

14. Share-Based Compensation

Total share-based compensation expense was \$66 million and \$126 million for the three and six months ended June 30, 2024 respectively, and \$59 million and \$111 million for the three and six months ended June 30, 2023, respectively.

Incentive Stock Plans

Time-Based Restricted Stock and Restricted Stock Units

The following table summarizes the changes in non-vested time-based restricted stock and restricted stock units for the six months ended June 30, 2024:

		Weighted
	Number	average
	of shares	grant-date

Options vested and exercisable as of June 30, 2024	5,957	24.28	4.64		86,768	

15. Reportable Segments

The Company has determined that it has five reportable segments for financial reporting purposes, as follows:

- Optical Communications manufactures carrier network and enterprise network components for the telecommunications industry; the carrier network
 group consists primarily of products and solutions for optical-based communications infrastructure for services such as video, data and voice
 communications, and the enterprise network group consists primarily of optical-based communication networks sold to businesses, governments and
 individuals for their own use.
- Display Technologies manufactures high quality glass substrates for flat panel displays, including liquid crystal displays and organic light-emitting diodes that are used primarily in televisions, notebook computers, desktop monitors, tablets and handheld devices.
- Specialty Materials manufactures products that provide material formulations for glass, glass ceramics and fluoride crystals to meet demand for unique
 customer needs across a wide variety of commercial and industrial markets, including materials optimized for mobile consumer electronics, semiconductor
 equipment optics and consumables, aerospace and defense optics, radiation shielding products, sunglasses and telecommunications components.
- Environmental Technologies manufactures ceramic substrates and filter products for emissions control systems in mobile applications.
- Life Sciences develops, manufactures, and supplies laboratory products, including labware, equipment, media, serum and reagents, enabling workflow solutions for drug discovery and bioproduction.

All other businesses that do not meet the quantitative threshold for separate reporting have been grouped as Hemlock and Emerging Growth Businesses. Net sales for this group are mainly attributable to HSG, an operating segment that produces solar and semiconductor products. The emerging growth businesses primarily consist of Pharmaceutical Technologies, Auto Glass Solutions and the Emerging Innovations Group.

Financial results for the reportable segments and Hemlock and Emerging Growth Businesses are prepared on a basis consistent with the internal disaggregation of financial information to assist the chief operating decision maker ("CODM") in making internal operating decisions. As a significant portion of segment revenues and expenses are denominated in currencies other than the U.S. dollar, management believes it is important to understand the impact on segment net sales and segment net income (loss) of translating these currencies into U.S. dollars. Therefore, the Company utilizes constant-currency reporting for the Display Technologies, Specialty Materials, Environmental Technologies and Life Sciences segments to exclude the impact on segment sales and segment net income from the Japanese yen, South Korean won, Chinese yuan, New Taiwan dollar and euro, as applicable to the segment. In addition, effective January 1, 2024, the Company began utilizing constant-currency reporting for the Optical Communications segment to exclude the impact from the Mexican peso on segment results. Prior periods were not recast as the impact was not material. The most significant constant-currency adjustment relates to the Japanese yen exposure within the Display Technologies segment.

The constant-currency rates established for our core performance measures are internally derived long-term management estimates, which are closely aligned with our hedging instrument rates. These hedging instruments may include, but are not limited to, foreign exchange forward or option contracts and foreign-denominated debt. The Company believes that the use of constant-currency reporting allows management to understand segment results without the volatility of currency fluctuation, analyze underlying trends in the businesses and establish operational goals and forecasts.

Constant-currency rates used are as follows and are applied to all periods presented and to all foreign exchange exposures during the period, even though we may be less than 100% hedged:

Currency	Japanese yen	Korean won	Chinese yuan	New Taiwan dollar	Euro	Mexican peso
Rate	¥107	₩1,175	¥6.7	NT\$31	€0.81	MX\$20

In addition, certain income and expenses are excluded from segment net income (loss) and included in the unallocated amounts in the reconciliation of reportable segment net income (loss) to net income attributable to Corning Incorporated. These items are not used by the CODM in allocating resources or evaluating the results of the segments and include the following: the impact of translating the Japanese yen-denominated debt; the impact of the translated earnings contracts; acquisition-related costs; certain discrete tax items and other tax-related adjustments; restructuring, impairment and other charges and credits; certain litigation, regulatory and other legal matters; pension mark-to-market adjustments; and other non-recurring non-operational items. Although these amounts are excluded from segment results, they are included in reported consolidated results.

Corning's administrative and staff functions are performed on a centralized basis and such costs and expenses are allocated among the segments differently than they would be for stand-alone financial reporting purposes. These include certain costs and expenses of shared services, such as information technology, human resources, legal, finance and supply chain management. Expenses that are not allocated to the segments are included in the reconciliation of reportable segment net income (loss) to net income attributable to Corning Incorporated. Segment net income (loss) may not be consistent with measures used by other companies.

The following provides selected segment information as described above:

Amount does not include research, development and engineering expense related to severance charges.
 Amount includes charges associated with impairment losses, asset write-offs, accelerated depreciation, disposal costs and inventory write-downs. Refer to Note 2 (Restructuring, Impairment and Other Charges and Credits) for additional information.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Corning Incorporated and its consolidated subsidiaries are hereinafter sometimes referred to as the "Company," the "Registrant," "Corning," "we," "our," or "us."

This report contains forward-looking statements that involve a number of risks and uncertainties. These statements relate to plans, objectives, expectations and estimates and may contain words such as "will," "believe," "anticipate," "expect," "intend," "plan," "seek," "see," "would," "target," "estimate," "forecast," or similar expressions. Actual results could differ materially from what is expressed or forecasted in forward-looking statements. Some of the factors that could contribute to these differences include those discussed under "Forward-Looking Statements," "Risk Factors," "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in this report.

ORGANIZATION OF INFORMATION

The following Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") was prepared to provide a historical and prospective narrative on our financial condition and results of operations through the eyes of management and should be read in conjunction with our MD&A of our Annual Report on Form 10-K for the year ended December 31, 2023 ("2023 Form 10-K").

Our MD&A is organized as follows:

- Overview
- Results of Operations
- Segment Analysis
- Core Performance Measures
- Liquidity and Capital Resources
- Environment
- Critical Accounting Estimates
- Forward-Looking Statements

OVERVIEW

Corning is vital to progress. We are the world leaders in glass science, ceramic science and optical physics – along with four proprietary manufacturing and engineering platforms – and we apply our capabilities to invent and make category-defining, highly engineered products; drive profitable and durable growth; and create long-term value. Today, our markets include optical communications, mobile consumer electronics, display, automotive, solar, semiconductor and life sciences.

The Company has outlined a plan called "Springboard," – to add more than \$3 billion in annualized core sales with strong incremental profit and cash flow in the next three years as cyclical factors and secular trends converge.

Core Components of Springboard:

- Management believes that first-quarter 2024 will be the lowest quarter for the year.
- The Company expects to grow by more than \$3 billion in annualized core sales in the next three years, driven by a combination of cyclical factors and secular trends. The outlook in each of the Company's markets is positive, and its market positions are strong. Innovative products and deep customer relationships position Corning well to capitalize on these opportunities.
- As Corning captures this growth, management expects to deliver powerful incremental profit and cash flow. The Company already has the required production capacity and technical capabilities in place, and the cost and capital are already reflected in its financials.
- With the success of the Springboard plan, the Company expects to be able to accelerate the return of cash to shareholders.

Corning expects a number of upward cyclical factors and secular trends to drive growth across our Market-Access Platforms. In Optical Communications, generative artificial intelligence is expected to create a significant amount of growth; additionally, our carrier customers are reaching the end of their inventory drawdowns and beginning to order closer to their current deployment levels; and government efforts to bring high-speed internet to rural communities through the Broadband Equity Access and Deployment program will contribute to growth beginning in 2025 and add significant sales over the next several years. In Display, we expect to capitalize on the trend of larger screens, with about 1 inch of screen-size growth per year to add low-to-mid-single-digit volume growth. In Automotive, we have a triple-digit automotive glass business today, and we expect sales in that business to almost triple by 2026; additionally, recently announced U.S. EPA regulations will require the adoption of gasoline particulate filters in the U.S. starting with model-year 2027 – this adoption offers hundreds of millions of dollars of growth for us in the U.S. alone, even in the face of BEV adoption, and we expect sales to start in 2026. Finally, we expect to leverage the Inflation Reduction Act to support the build out of a U.S. solar supply chain.

Overall, Corning is energized by the tremendous opportunity for value creation we have built for our shareholders.

2024 Corporate Outlook

We expect core net sales of approximately \$3.7 billion for the third quarter of 2024.

RESULTS OF OPERATIONS

The following table presents selected highlights from our operations (in millions):

	Three mon June	ended	% change	Six mont June	nded	% change
	 2024	2023	24 vs. 23	2024	2023	24 vs. 23

^{*} Not meaningful

Net sales

For the three months ended June 30, 2024, net sales were up slightly when compared to the same period in 2023. This was primarily driven by increases in specialty glass product sales of \$77 million and telecommunication product sales of \$47 million, offset by decreases in polycrystalline silicon product sales of \$59 million, environmental substrate and filter product sales of \$29 million and display product sales of \$21 million.

For the six months ended June 30, 2024, net sales decreased \$195 million, or 3%, when compared to the same period in 2023. This was primarily driven by decreases in telecommunication product sales of \$148 and polycrystalline silicon product sales of \$120 million, partially offset by increases in specialty glass product sales of \$123 million.

Cost of sales / Gross margin

The types of expenses included in cost of sales are: raw materials consumption, including direct and indirect materials; salaries, wages and benefits; depreciation and amortization; production utilities; production-related purchasing; warehousing (including receiving and inspection); repairs and maintenance; inter-location inventory transfer costs; production and warehousing facility property insurance; rent for production facilities; freight and logistics costs; and other production overhead.

For the three months ended June 30, 2024, gross margin decreased \$64 million, or 6%, and decreased as a percentage of sales by 2 percentage points when compared to the same period in 2023. This is primarily driven by a \$62 million increase in restructuring and asset write-off charges, as discussed in Note 2 (Restructuring, Impairment and Other Charges and Credits) in the accompanying notes to the consolidated financial statements.

For the six months ended June 30, 2024, gross margin decreased \$74 million, or 4%, and remained consistent as a percentage of sales when compared to the same period in 2023.

Selling, general and administrative expenses

The types of expenses included in the selling, general and administrative expenses line item are salaries, wages and benefits; share-based compensation expense; travel; sales commissions; professional fees; and depreciation and amortization, utilities and rent for administrative facilities.

For the three months ended June 30, 2024, selling, general and administrative expenses increased \$31 million, or 7%, and remained consistent as a percentage of sales when compared to the same period in 2023. For the six months ended June 30, 2024, selling, general and administrative expense increased \$61 million, or 7%, and increased as a percentage of sales due to the lower sales in the current period as compared to the same period in 2023.

Research, development and engineering expenses

For the three and six months ended June 30, 2024, research, development and engineering expenses remained relatively flat and consistent as a percentage of sales when compared to the same periods in 2023.

Translated earnings contract gain, net

Included in translated earnings contract gain, net, is the impact of foreign currency contracts which economically hedge the translation exposure arising from movements in the Japanese yen, South Korean won, new Taiwan dollar, euro, Chinese yuan and Mexican peso and its impact on net income.

The following table provides detailed information on the impact of translated earnings contract gain, net (in millions):

	Three months ended June 30, 2024					ee mo				Cha 2024 v	inge s. 202	23
	Income before tax		Net income		Income before tax		Net income		Inco befo	ore		Net income
Hedges related to translated earnings:												
Realized gain, net (1)(2)	\$ 48	\$	37	\$		71	\$ 5	7	\$	(23)	\$	(20)
Unrealized (loss) gain, net (3)	(21)		(16))		45	3	6		(66)		(52)
Total translated earnings contract gain, net	\$ 27	\$	21	\$		116	\$ 9	3	\$	(89)	\$	(72)

	Six mont June 30		mont une 30		Cha 2024 v	inge s. 20	23	
	Income before	Net	 Income before		Net	 Income before		Net
Hedges related to translated earnings:	tax	ıncome	tax		ıncome	tax		income
Realized gain, net (1)(2)	\$ 111	\$ 85	\$	138	\$ 109	\$ (27)	\$	(24)
Unrealized loss, net (4)	(45)	(34)		(30)	(22)	(15)		(12)
Total translated earnings contract gain, net	\$ 66	\$ 51	\$	108	\$ 87	\$ (42)	\$	(36)

⁽¹⁾ Amount includes pre-tax losses of \$26 million and \$57 million for the three and six months ended June 30, 2024, respectively, and pre-tax realized losses of \$14 million and \$28 million for the three and six months ended June 30, 2023, respectively, related to the expiration of option contracts. These amounts were reflected within operating activities in the consolidated statements of cash

⁽²⁾ For the three and six months ended June 30, 2023, amount excludes \$11 million related to a forward contract designated as a net investment hedge, which was reflected within investing activities in the consolidated statements of cash flows.

⁽³⁾ The impact to income for the three months ended June 30, 2024 was primarily driven by unrealized losses from our South Korean won, and new Taiwan dollar-denominated hedges, partially offset

The impact to income for the six months ended June 30, 2024 was primarily driven by unrealized losses from our Japanese yen-denominated hedges. The impact to income for the three months ended June 30, 2023 was primarily driven by unrealized gains from our Japanese yen-denominated hedges. The impact to income for the six months ended June 30, 2024 was primarily driven by unrealized losses from our South Korean won, new Taiwan dollar and Chinese yuan-denominated hedges, partially offset by unrealized gains from our Japanese yen-denominated hedges. The impact to income for the six months ended June 30, 2024 was primarily driven by unrealized losses from our South Korean won, new Taiwan dollar and Chinese yuan-denominated hedges, partially offset by unrealized gains from our Japanese yen-denominated hedges. The impact to income for the six months ended June 30, 2023 was primarily driven by unrealized losses from our South Korean-won and Chinese-yuan denominated hedges, partially offset by unrealized gains from our Japanese yen-denominated hedges.

Income before income taxes

For the three and six months ended June 30, 2024, income before income taxes decreased \$237 million and \$169 million, respectively, when compared to the same periods in 2023, which is primarily driven by less gains on our translated earnings contracts and a decline in our gross margin, as discussed above, when compared to the same periods in 2023.

Provision for Income Taxes

For the three and six months ended June 30, 2024, the effective tax rate differed from the United States ("U.S.") statutory rate of 21%, primarily due to certain pre-tax losses with no corresponding expected tax benefit. These losses were mostly driven by asset write-offs associated with the closure of a display manufacturing plant. Refer to Note 2 (Restructuring, Impairment and Other Charges and Credits) in the accompanying notes to the consolidated financial statements for additional information.

For the three and six months ended June 30, 2023, the effective tax rate differed from the U.S. statutory rate of 21%, primarily due to changes in valuation allowance assessments, partially offset by differences arising from foreign earnings, adjustments to share-based compensation, and a net benefit due to foreign derived intangible income.

The effective tax rate for the three and six months ended June 30, 2024 increased when compared to the same periods in 2023 primarily due to certain pre-tax losses during the three and six months ended June 30, 2024 with no corresponding expected tax benefit and a reduction in the net benefit due to foreign derived intangible income.

Net income attributable to Corning Incorporated

As a result of the items discussed above, net income attributable to Corning Incorporated and per share data were as follows (in millions, except per share amounts):

	Three mo	nths e	ended	Six mon Jun	ths en e 30,	ded
	 2024		2023	2024		2023
Net income attributable to Corning Incorporated	\$ 104	\$	281	\$ 313	\$	457
Basic earnings per common share	\$ 0.12	\$	0.33	\$ 0.37	\$	0.54
Diluted earnings per common share	\$ 0.12	\$	0.33	\$ 0.36	\$	0.53
Weighted-average common shares outstanding - basic	853		848	853		846
Weighted-average common shares outstanding - diluted	864		859	865		859

Comprehensive (loss) income attributable to Corning Incorporated

Comprehensive loss attributable to Corning Incorporated for the three months ended June 30, 2024 was \$113 million compared to comprehensive loss of \$21 million for the three months ended June 30, 2023. This movement is driven by the decrease in net losses on foreign currency translation adjustments of \$96 million, primarily driven by gains in the Japanese yen and Chinese yuan, partially offset by losses in the Korean won and euro.

Comprehensive loss attributable to Corning Incorporated for the six months ended June 30, 2024 was \$231 million compared to comprehensive income of \$88 million for the three months ended June 30, 2023. This movement is driven by the increase in net losses on foreign currency translation adjustments of \$150 million, primarily driven by losses in the Japanese yen, euro and Korean won, partially offset by gains in the Chinese yuan.

SEGMENT ANALYSIS

Financial results for the reportable segments and Hemlock and Emerging Growth Businesses are prepared on a basis consistent with the internal disaggregation of financial information to assist the chief operating decision maker ("CODM") in making internal operating decisions, which is more fully discussed within Note 15 (Reportable Segments) in the accompanying notes to the consolidated financial statements and includes a reconciliation of our segment information to the corresponding amounts in our consolidated statements of income.

Segment net income may not be consistent with measures used by other companies.

The following table presents segment net sales by reportable segment and Hemlock and Emerging Growth Businesses (in millions):

	Three mo	nths (ended		\$	%	Six mont	ths e	nded		\$	%
	June	e 30,		(change	change	June	e 30,		C	hange	change
	2024		2023	24	4 vs. 23	24 vs. 23	2024		2023	24	4 vs. 23	24 vs. 23

and Emerging Growth Businesses (1)	\$ 3,604	\$	3,482	\$	122	4%	\$ 6,862	\$	6,849	\$	13	

⁽¹⁾ Refer to Note 15 (Reportable Segments) in the accompanying notes to the consolidated financial statements for the reconciliation to consolidated net sales.

Optical Communications

The increase in segment net sales for the three month period was primarily driven by an increase in sales volume due to higher demand driven by AI-related connectivity solutions, partially offset by lower carrier demand as customers continue to draw down their inventory. The decrease in segment net sales for the six month period was primarily driven by the decline in sales volume due to lower carrier demand as customers continued to drawdown their inventory, partially offset by the increase in sales driven by AI-related connectivity solutions.

Display Technologies

The increase in segment net sales for both the three and six month periods was due to higher sales volume, attributable to increased panel maker utilization driven by growth in retail demand, as well as pricing actions taken in the second half of 2023.

Specialty Materials

The increase in segment net sales for both the three and six month periods was due to continued strong demand for premium glass for mobile devices as well as semiconductor-related products.

Environmental Technologies

The decrease in segment net sales for both the three and six month periods was primarily due to a decline in heavy-duty diesel, reflecting the impact of the Class 8 truck downcycle in North America.

Life Sciences

The increase in segment net sales for the three month period was primarily due to increased demand as customers are completing their inventory drawdowns. Segment net sales for the six month period was relatively flat with the prior year.

Hemlock and Emerging Growth Businesses

The decrease in segment net sales for both the three and six month periods was primarily due to a decrease in our HSG business driven by lower pricing for solar-grade polysilicon and lower sales in our Pharmaceutical Technologies business due to the completion of volume commitments for COVID-related products.

The following table presents segment net income by reportable segment and Hemlock and Emerging Growth Businesses (in millions):

		Three mor		nded	\$		%	Six mont		nded		\$	%

^{*} Not meaningful

Optical Communications

The increase in segment net income for the three month period was primarily driven by the increase in sales volume, as outlined above. The decrease in segment net income for the six month period was primarily driven by a decline in sales volume, as outlined above.

Display Technologies

The increase in segment net income for both the three and six month periods was primarily driven by the increase in sales, as outlined above.

Specialty Materials

The increase in segment net income for both the three and six month periods was primarily driven by the increase in sales, as outlined above, and manufacturing improvements.

Environmental Technologies

The decrease in segment net income for the three month period was primarily driven by the decrease in sales, as outlined above. The increase in segment net income for the six month period was primarily driven by improved operating performance.

Life Sciences

The increase in segment net income for the three month period was primarily driven by the increase in sales, as outlined above. The increase in segment net income for the six month period was primarily driven by profitability improvements from productivity actions taken.

Hemlock and Emerging Growth Businesses

The decrease in segment net income was primarily driven by our HSG and Pharmaceutical Technologies businesses due to lower sales, as outlined above.

⁽¹⁾ Refer to Note 15 (Reportable Segments) in the accompanying notes to the consolidated financial statements for the reconciliation to net income attributable to Corning Incorporated.

CORE PERFORMANCE MEASURES

In managing the Company and assessing our financial performance, we adjust certain measures included in our consolidated financial statements to exclude specific items to arrive at our core performance measures. These items include the impact of translating the Japanese yen-denominated debt, the impact of the translated earnings contracts, acquisition-related costs, certain discrete tax items and other tax-related adjustments, restructuring, impairment and other charges and credits, certain litigation, regulatory and other legal matters, pension mark-to-market adjustments and other items which do not reflect the ongoing operating results of the Company.

In addition, because a significant portion of our revenues and expenses are denominated in currencies other than the U.S. dollar, management believes it is important to understand the impact on sales and net income of translating these currencies into U.S. dollars. Therefore, management utilizes constant-currency reporting for the Display Technologies, Specialty Materials, Environmental Technologies and Life Sciences segments to exclude the impact from the Japanese yen, South Korean won, Chinese yuan, New Taiwan dollar and euro, as applicable to the segment. In addition, effective January 1, 2024, the Company began utilizing constant-currency reporting for the Optical Communications segment to exclude the impact from the Mexican peso on segment results. Prior periods were not recast as the impact was not material. The most significant constant-currency adjustment relates to the Japanese yen exposure within the Display Technologies segment.

The constant-currency rates established for our core performance measures are internally derived long-term management estimates, which are closely aligned with our hedging instrument rates. These hedging instruments may include, but are not limited to, foreign exchange forward or option contracts and foreign-denominated debt. For details of the rates used, please see the footnotes to the "Reconciliation of Non-GAAP Measures" section. We believe that the use of constant-currency reporting allows management to understand our results without the volatility of currency fluctuations, analyze underlying trends in the businesses and establish operational goals and forecasts.

Core performance measures are not prepared in accordance with GAAP. We provide investors with these non-GAAP measures to evaluate our results as we believe they are indicative of our core operating performance and provide greater transparency to how management evaluates our results and trends and makes financial and operational decisions. These measures are not, and should not be viewed as a substitute for, GAAP reporting measures. With respect to the outlook for future periods, it is not possible to provide reconciliations for these non-GAAP measures because management does not forecast the movement of foreign currencies against the U.S. dollar, or other items that do not reflect ongoing operations, nor does it forecast items that have not yet occurred or are out of management's control. As a result, management is unable to provide outlook information on a GAAP basis.

For a reconciliation of non-GAAP performance measures to their most directly comparable GAAP financial measure, please see "Reconciliation of Non-GAAP Measures."

Results of Operations – Core Performance Measures

The following table presents selected highlights from our operations, excluding certain items (in millions, except per share amounts):

	Three mor	nths e	ended	% change	Six mon June	ths en	ided	% change
	 2024		2023	24 vs. 23	 2024		2023	24 vs. 23
Core net sales	\$ 3,604	\$	3,482	4%	\$ 6,862	\$	6,849	_
Core net income	\$ 407	\$	388	5%	\$ 737	\$	738	_
Core earnings per share	\$ 0.47	\$	0.45	4%	\$ 0.85	\$	0.86	(1)%

Core Net Sales

For the three months ended June 30, 2024, we generated core net sales of \$3.6 billion compared to core net sales of \$3.5 billion for the same period in 2023. The increase in core net sales of \$122 million was primarily driven by increased segment sales of \$86 million in Display, \$78 million in Specialty Materials and \$47 million in Optical Communications, partially offset by decreased segment sales of \$81 million in Hemlock and Emerging Growth Businesses. Net sales by reportable segment and Hemlock and Emerging Growth Businesses are discussed in detail in the "Segment Analysis" section of our MD&A.

For the six months ended June 30, 2024, we generated core net sales of \$6.9 billion compared to core net sales of \$6.8 billion for the same period in 2023. The increase in core net sales of \$13 million was primarily driven by increased segment sales of \$195 million in Display and \$126 million in Specialty Materials, offset by decreased segment sales of \$156 million in Hemlock and Emerging Growth Businesses and \$148 million in Optical Communications. Net sales by reportable segment and Hemlock and Emerging Growth Businesses are discussed in detail in the "Segment Analysis" section of our MD&A.

Core Net Income

For the three months ended June 30, 2024, we generated core net income of \$407 million compared to core net income generated of \$388 million for the same period in 2023. The increase of \$19 million was primarily due to higher segment net income of \$50 million in Display and \$30 million in Specialty Materials, partially offset by lower segment net income of \$49 million in Hemlock and Emerging Growth Businesses. Net income by reportable segment and Hemlock and Emerging Growth Businesses are discussed in detail in the "Segment Analysis" section of our MD&A.

For the six months ended June 30, 2024, we generated core net income of \$737 million compared to core net income of \$738 million for the same period in 2023. The decrease of \$1 million was primarily due to lower segment net income of \$56 million in Optical Communications and \$75 million in Hemlock and Emerging Growth Businesses, offset by higher segment net income of \$91 million in Display Technologies and \$35 million in Specialty Materials. Net income by reportable segment and Hemlock and Emerging Growth Businesses are discussed in detail in the "Segment Analysis" section of our MD&A.

Core Earnings per Share

Core earnings per share increased for the three months ended June 30, 2024 to \$0.47 per share, primarily as a result of the changes in core net income, outlined above.

Core earnings per share decreased for the six months ended June 30, 2024 to \$0.85 per share, primarily as a result of the changes in core net income, outlined above.

The following table sets forth the computation of core earnings per share (in millions, except per share amounts):

	Three months ended June 30,			Six months ended June 30,			
	 2024		2023		2024		2023
Core net income	\$ 407	\$	388	\$	737	\$	738

Weighted-average common shares outstanding - diluted	864		859		865		859
Core earnings per share	\$ 0.47	\$	0.45	\$	0.85	\$	0.86

Reconciliation of Non-GAAP Measures

We utilize certain financial measures and key performance indicators that are not calculated in accordance with GAAP to assess our financial and operating performance. A non-GAAP financial measure is defined as a numerical measure of a company's financial performance that (i) excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the comparable measure calculated and presented in accordance with GAAP in the consolidated statements of income or statements of cash flows, or (ii) includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the comparable measure as calculated and presented in accordance with GAAP in the consolidated statements of income or statements of cash flows.

Core net sales, core net income and core earnings per share are non-GAAP financial measures utilized by our management to analyze financial performance without the impact of items that are driven by general economic conditions and events that do not reflect the underlying fundamentals and trends in our operations.

The following tables reconcile our non-GAAP financial measures to their most directly comparable GAAP financial measure (amounts in millions, except percentages and per share amounts):

		Three	e mo	onths ended June 30, 2	024	
	 Net	Income before		Net income attributable to Corning	Effective tax	Per

See "Items Adjusted from GAAP Measures" for the descriptions of the footnoted reconciling items.

Items Adjusted from GAAP Measures

Items adjusted from GAAP measures to arrive at core performance measures are as follows:

(1) <u>Constant-currency adjustment</u>: As a significant portion of revenues and expenses are denominated in currencies other than the U.S. dollar, management believes it is important to understand the impact on sales and net income of translating these currencies into U.S. dollars. The Company utilizes constant-currency reporting for Display Technologies, Specialty Materials, Environmental Technologies and Life Sciences segments for the Japanese yen, Korean won, Chinese yuan, New Taiwan dollar and euro, as applicable to the segment. In addition, effective January 1, 2024, the Company began utilizing constant-currency reporting for the Optical Communications segment to exclude the impact from the Mexican peso on segment results. Prior periods were not recast as the impact was not material.

The constant-currency rates established for our core performance measures are internally derived long-term management estimates, which are closely aligned with our hedging instrument rates. These hedging instruments may include, but are not limited to, foreign exchange forward or option contracts and foreign-denominated debt. For the six months ended June 30, 2024, the adjustment primarily relates to our Japanese yen exposure due to the difference in the average spot rate compared to our core rate.

We believe that the use of constant-currency reporting allows management to understand our results without the volatility of currency fluctuation, analyze underlying trends in the businesses and establish operational goals and forecasts.

Constant-currency rates used are as follows and are applied to all periods presented and to all foreign exchange exposures during the period, even though we may be less than 100% hedged:

Currency	Japanese yen	Korean won	Chinese yuan	New Taiwan dollar	Euro	Mexican peso
Rate	¥107	₩ 1,175	¥6.7	NT\$31	€0.81	MX\$20

- (2) <u>Translation of Japanese yen-denominated debt, net</u>: Amount reflects the gain or loss on the translation of our yen-denominated debt to U.S. dollars, net of a \$7 million loss for the three and six months ended June 30, 2024, related to the change in the fair value of our cross currency swap contracts.
- (3) <u>Translated earnings contract</u>: Amount reflects the impact of the realized and unrealized gains and losses from the Japanese yen, South Korean won, Chinese yuan, euro and New Taiwan dollar-denominated foreign currency hedges related to translated earnings, as well as the unrealized gains and losses of our British pound and Mexican peso-denominated foreign currency hedges related to translated earnings.
- (4) <u>Acquisition-related costs</u>: Amount reflects intangible amortization, inventory valuation adjustments and external acquisition-related deal costs, as well as other transaction related costs.
- (5) <u>Discrete tax items and other tax-related adjustments</u>: Amount reflects certain discrete period tax items such as changes in tax law, the impact of tax audits, changes in tax reserves and changes in deferred tax asset valuation allowances, as well as other tax-related adjustments.
- (6) Restructuring, impairment and other charges and credits: Amount reflects certain restructuring, impairment losses and other charges and credits, as well as other expenses, including severance, accelerated depreciation, asset write-offs and facility repairs resulting from power outages, which are not related to ongoing operations.
- (7) <u>Pension mark-to-market adjustment</u>: Amount primarily reflects defined benefit pension mark-to-market gains and losses, which arise from changes in actuarial assumptions and the difference between actual and expected returns on plan assets and discount rates.
- (8) <u>Loss on investments</u>: Amount reflects the loss recognized on investments due to mark-to-market adjustments for the change in fair value or the disposition of an investment.
- (9) Loss (gain) on sale of assets: Amount represents the loss or gain recognized for the sale of assets.
- (10) <u>Litigation, regulatory and other legal matters</u>: Amount reflects developments in commercial litigation, intellectual property disputes, adjustments to our estimated liability for environmental-related items and other legal matters.

LIQUIDITY AND CAPITAL RESOURCES

Our financial condition and liquidity are strong. We are not aware of any known trends, demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in a material decrease in our liquidity. In addition, other than items discussed, there are no known material trends, favorable or unfavorable, in our capital resources and no expected material changes in the mix of such resources.

Our major sources of funding for 2024 and beyond will be our operating cash flow, our existing balances of cash and cash equivalents and proceeds from any issuances of debt. We believe we have sufficient liquidity to fund operations and meet our obligations for the foreseeable future. Such obligations may include requirements for acquisitions, capital expenditures, debt repayments, dividend payments and share repurchases. We will continue to generate cash from operations and maintain access to our revolving credit facilities and commercial paper programs as discussed in more detail below.

Key Balance Sheet Data

We fund our working capital with cash from operations and, periodically, short-term and long-term borrowings. In addition, from time to time, we receive upfront cash from customers relating to long-term supply agreements, as well as cash incentives from government entities generally for capital expansion and related expenses.

The following table presents balance sheet and working capital measures (in millions):

	June 30, 2024	Ι	December 31, 2023
Working capital	\$ 2,595	\$	2,893
Current ratio	1.6:1		1.7:1
Trade accounts receivable, net of doubtful accounts	\$ 1,721	\$	1,572
Days sales outstanding	48		47
Inventories	\$ 2,682	\$	2,666
Inventory turns	3.2		3.2
Days payable outstanding (1)	55		52
Long-term debt	\$ 6,908	\$	7,206
Total debt	\$ 7,284	\$	7,526
Total debt to total capital	40%		39%

(1) Includes trade payables only.

We perform comprehensive reviews of our significant customers and their creditworthiness by analyzing their financial strength at least annually or more frequently for customers where we have identified a measure of increased risk. We closely monitor payments and developments to identify potential customer credit issues. We are not aware of any customer credit issues that could have a material impact on our liquidity.

We participate in accounts receivable management programs, including factoring arrangements to sell certain accounts receivable to third-party financial institutions or accelerate collections through our customer's supply chain financing arrangements. Sales of accounts receivable are reflected as a reduction of accounts receivable in the consolidated balance sheets and the proceeds are included in cash flows from operating activities in the consolidated statements of cash flows. By utilizing these types of programs, we have accelerated the collection of \$380 million and \$389 million of accounts receivable during the three months ended March 31, 2024 and June 30, 2024, respectively. We believe these accounts receivables would have been collected during the normal course of business in the following quarter.

Cash Flows

The following table presents a summary of cash flow data (in millions):

	Six mont	hs end	ded	
	June	30,		
	 2024		2023	
Net cash provided by operating activities	\$ 617	\$		570
Net cash used in investing activities	\$ (338)	\$		(515)
Net cash used in financing activities	\$ (612)	\$		(164)

Net cash provided by operating activities for the six months ended June 30, 2024 increased \$47 million when compared to the same period in the prior year primarily driven by improvements in working capital.

Net cash used in investing activities for the six months ended June 30, 2024 improved by \$177 million when compared to the same period last year, primarily driven by lower capital expenditures of \$276 million, partially offset by \$67 million in proceeds from the sale of equipment in the prior period.

Net cash used in financing activities for the six months ended June 30, 2024 increased by \$448 million when compared to the same period last year, primarily driven by the \$918 million in proceeds from the issuance of euro-denominated notes in 2023, partially offset by \$507 million in payments for the redemption of preferred stock in 2023. Additionally, we repurchased 3 million common shares for \$105 million in 2024 compared to no share repurchases made in the same period last year.

Sources of Liquidity

As of June 30, 2024, our cash and cash equivalents and available credit capacity included (in millions):

	June 30, 2024
Cash and cash equivalents	\$ 1,419
Available credit capacity:	
U.S. dollar revolving credit facility	\$ 1,500
Chinese yuan facilities	\$ 150

Cash and Cash Equivalents

As of June 30, 2024, we had \$1.4 billion of cash and cash equivalents. Our cash and cash equivalents are held in various locations throughout the world and are generally unrestricted. We utilize a variety of strategies to ensure that our worldwide cash is available in the locations in which it is needed. As of June 30, 2024, approximately 48% of the consolidated cash and cash equivalents were held outside the U.S.

As of December 31, 2023, Corning had approximately \$1.4 billion of indefinitely reinvested foreign earnings. If we distribute our foreign cash balances to the U.S. or to other foreign subsidiaries, we could be required to accrue and pay withholding taxes. We do not foresee a need to repatriate any earnings for which we asserted permanent reinvestment. However, to help fund cash needs of the U.S. or other international subsidiaries as they arise, we repatriate available cash from certain foreign subsidiaries whose earnings are not permanently reinvested.

Debt Facilities and Other Sources of Liquidity

We have a commercial paper program pursuant to which we may issue short-term, unsecured commercial paper notes up to a maximum aggregate principal amount outstanding at any one time of \$1.5 billion. Under this program, we may issue commercial paper from time to time and will use the proceeds for general corporate purposes. As of June 30, 2024, we did not have outstanding commercial paper.

Our \$1.5 billion Revolving Credit Agreement is available to support obligations under the commercial paper program and for general corporate purposes, if needed. As of June 30, 2024, there were no amounts outstanding under this facility.

Our Revolving Credit Agreement includes affirmative and negative covenants with which we must comply, including a leverage (debt to capital ratio) financial covenant. The required leverage ratio is a maximum of 60%. As of June 30, 2024, our leverage using this measure was approximately 40%. As of June 30, 2024, we were in compliance.

Our debt instruments contain customary event of default provisions, which allow the lenders the option of accelerating all obligations upon the occurrence of certain events. In addition, some of our debt instruments contain a cross default provision, whereby an uncured default exceeding a specified amount on one debt obligation, also would be considered a default under the terms of another debt instrument. As of June 30, 2024, we were in compliance with all such provisions.

We have access to certain Chinese yuan-denominated unsecured variable rate loan facilities, whose proceeds are used for capital investment and general corporate purposes. As of June 30, 2024, borrowings totaled \$249 million and these facilities had variable interest rates ranging from 2.9% to 4.1% and maturities ranging from 2024 to 2032. As of June 30, 2024, Corning had 1.1 billion Chinese yuan of unused capacity, equivalent to approximately \$150 million.

As a well-known seasoned issuer, we filed an automatic shelf registration with the SEC on December 1, 2023. Under this shelf registration we may offer, from time to time, debt securities, common stock, preferred stock, depositary shares and warrants.

On May 15, 2023, the Company issued €300 million 3.875% Notes due 2026 ("2026 Notes") and €550 million 4.125% Notes due 2031 ("2031 Notes"). The proceeds from the 2026 Notes and 2031 Notes were received in euros and converted to U.S. dollars on the date of issuance. The net proceeds received were approximately \$918 million and will be used for general corporate purposes. As of June 30, 2024, the U.S. dollar equivalent carrying value of the eurodenominated long-term debt was \$903 million.

Uses of Cash

Share Repurchase Agreement

Pursuant to the Share Repurchase Agreement ("SRA") with Samsung Display Co., Ltd. ("SDC"), SDC has the option to offer to sell 22 million common shares to Corning in specified tranches from time to time in calendar years 2024 through 2027. Corning may, at its sole discretion, elect to repurchase such common shares. If Corning elects not to repurchase the common shares and SDC sells the common shares on the open market, Corning will be required to pay SDC a make-whole payment, subject to a 5% cap of the repurchase proceeds that otherwise would have been paid by Corning. As of June 30, 2024 and December 31, 2023, the fair value of the liability associated with this option was not material.

Refer to Note 14 (Shareholders' Equity) in the notes to the consolidated financial statements within the 2023 Form 10-K for additional information.

Share Repurchases

In 2019, the Board authorized the repurchase of up to \$5.0 billion of common stock ("2019 Authorization"). As of June 30, 2024, approximately \$3.2 billion remains available under our 2019 Authorization, which does not have an expiration date and may be amended or terminated by the Board of Directors at any time without prior notice.

During the three and six months ended June 30, 2024, the Company repurchased 3 million common shares for \$105.4 million, pursuant to the terms of the SRA, as discussed above. No shares were repurchased under our 2019 Authorization during the three and six months ended June 30, 2023.

Common Stock Dividends

On June 26, 2024, Corning's Board of Directors declared a quarterly dividend of \$0.28 per share of common stock. The dividend will be payable on September 27, 2024. The Board's decision to declare and pay future dividends will depend on our income and liquidity position, among other factors. We expect to declare quarterly dividends and fund payments with cash from operations.

Capital Expenditures

Capital expenditures were \$0.5 billion for the six months ended June 30, 2024. We expect our 2024 full year capital expenditures to be lower than 2023.

Current Maturities of Short and Long-Term Debt

As of June 30, 2024, we had \$376 million of long-term debt that is due in less than one year.

Refer to Note 10 (Debt) in the notes to the consolidated financial statements within the 2023 Form 10-K for additional information, including a summary of our debt maturities by year.

Defined Benefit Pension Plans

Our global pension plans, including our unfunded and non-qualified plans, were 81% funded as of December 31, 2023. Our largest single pension plan is our U.S. qualified plan, which accounted for 77% of our consolidated defined benefit pension plans' projected benefit obligation, was 92% funded as of December 31, 2023. The funded status of our pension plans is dependent upon multiple factors including actuarial assumptions, interest rates at year-end, prior investment returns and contributions made to the plans.

During 2024, the Company anticipates making cash contributions of \$11 million to its international pension plans.

Commitments, Contingencies and Guarantees

On March 12, 2024, Corning entered into a synthetic lease ("Facility Lease") for a solar manufacturing facility in Hemlock, Michigan (the "Facility"), for which the Company is the construction agent on behalf of the lessor, with an estimated construction cost of approximately \$835 million.

The Facility Lease will commence upon completion of construction of the Facility, which is expected to be in the later part of 2025, and has a lease term of five years with options to renew the lease or purchase the facility. The Facility Lease is expected to be classified as a finance lease and the amount of right-of-use asset and lease liability will be determined and recorded upon lease commencement. The estimated undiscounted lease payments, inclusive of a residual value guarantee, are approximately \$1.1 billion, of which \$35 million, \$103 million, \$99 million and \$96 million is to be paid in 2025, 2026, 2027 and 2028, respectively, and \$780 million is to be paid thereafter.

In conjunction with the Facility Lease, Corning entered into an equipment lease ("Equipment Lease") on June 17, 2024, with an estimated purchase and installation cost of \$365 million, for the equipment to be installed and operated within the Facility. The Company is the procurement and installation agent on behalf of the lessor.

The Equipment Lease will commence upon completion of the equipment installation, which is expected to be in the later part of 2025, and has a lease term of five years with obligations to purchase the equipment at lease maturity. The Equipment Lease is expected to be classified as a finance lease and the amount of right-of-use asset and lease liability will be determined and recorded upon lease commencement. The estimated undiscounted lease payments are approximately \$446 million, of which \$25 million, \$100 million, \$95 million and \$89 million is to be paid in 2025, 2026, 2027 and 2028, respectively, and \$137 million is to be paid thereafter.

The transaction agreements for both the Facility Lease and Equipment Lease contain covenants that are consistent with our Revolving Credit Agreement as disclosed in the 2023 Form 10-K.

Other than the above matters, there were no material changes outside the ordinary course of business in the obligations disclosed in the 2023 Form 10-K under the caption "Commitments, Contingencies and Guarantees."

Off Balance Sheet Arrangements

There were no material changes outside the ordinary course of business in off balance sheet arrangements as disclosed in the 2023 Form 10-K under the caption "Off Balance Sheet Arrangements."

ENVIRONMENT

Refer to Item 1. Legal Proceedings or Note 11 (Commitments and Contingencies) in the accompanying notes to the consolidated financial statements for information.

CRITICAL ACCOUNTING ESTIMATES

Our consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States of America. This requires us to make estimates and assumptions that affect reported amounts and related disclosures. Actual results could differ from those estimates. The estimates that are considered by management to be the most critical to the understanding of the consolidated financial statements as they require significant judgments that could materially impact our results of operations, financial position and cash flows are described in Management's Discussion and Analysis of Financial Condition and Results of Operations included in the Company's Annual Report on Form 10-K for the year ended December 31, 2023. Since the date of the Company's most recent Annual Report, there were no material changes in the Company's critical accounting estimates or assumptions.

FORWARD-LOOKING STATEMENTS

The statements in this Quarterly Report on Form 10-Q, in reports subsequently filed by Corning with the Securities and Exchange Commission ("SEC") on Forms 10-Q and 8-K and related comments by management that are not historical facts or information and contain words such as "will," "believe," "anticipate," "expect," "intend," "plan," "seek," "see," "would," "target," "estimate," "forecast" or similar expressions are forward-looking statements. Such statements relate to future events that by their nature address matters that are, to different degrees, uncertain. These forward-looking statements relate to, among other things, the Company's future operating performance, the Company's share of new and existing markets, the Company's revenue and earnings growth rates, the Company's ability to innovate and commercialize new products, the Company's expected capital expenditure and the Company's implementation of cost-reduction initiatives and measures to improve pricing, including the optimization of the Company's manufacturing capacity.

Although the Company believes that these forward-looking statements are based upon reasonable assumptions regarding, among other things, current estimates and forecasts, general economic conditions, its knowledge of its business and key performance indicators that impact the Company, there can be no assurance that these forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. The Company undertakes no obligation to update forward-looking statements if circumstances or management's estimates or opinions should change except as required by applicable securities laws.

Some of the risks, uncertainties and other factors that could cause actual results to differ materially from those expressed in or implied by the forward-looking statements include, but are not limited to:

- global economic trends, competition and geopolitical risks, or an escalation of sanctions, tariffs or other trade tensions between the U.S. and China or other countries, and related impacts on our businesses' global supply chains and strategies;
- changes in macroeconomic and market conditions and market volatility, including developments and volatility arising from health crisis events, inflation, interest rates, the value of securities and other financial assets, precious metals, oil, natural gas, raw materials and other commodity prices and exchange rates (particularly between the U.S. dollar and the Japanese yen, New Taiwan dollar, euro, Chinese yuan and South Korean won), the availability of government incentives, decreases or sudden increases of consumer demand, and the impact of such changes and volatility on our financial position and businesses;
- the duration and severity of health crisis events, such as an epidemic or pandemic, and its impact across our businesses on demand, personnel, operations, our global supply chains and stock price;
- possible disruption in commercial activities or our supply chain due to terrorist activity, cyber-attack, armed conflict, political or financial instability, natural disasters, international trade disputes or major health concerns;
- loss of intellectual property due to theft, cyber-attack, or disruption to our information technology infrastructure;
- ability to enforce patents and protect intellectual property and trade secrets;
- disruption to Corning's, our suppliers' and manufacturers' supply chain, equipment, facilities, IT systems or operations;
- product demand and industry capacity;
- competitive products and pricing;
- $-\ availability\ and\ costs\ of\ critical\ components,\ materials,\ equipment,\ natural\ resources\ and\ utilities;$
- new product development and commercialization;
- order activity and demand from major customers;
- the amount and timing of our cash flows and earnings and other conditions, which may affect our ability to pay our quarterly dividend at the planned level or to repurchase shares at planned levels;
- the amount and timing of any future dividends;
- the effects of acquisitions, dispositions and other similar transactions;
- the effect of regulatory and legal developments;
- ability to pace capital spending to anticipated levels of customer demand;
- our ability to increase margins through implementation of operational changes, pricing actions and cost reduction measures;
- rate of technology change;
- adverse litigation;
- product and component performance issues;
- retention of key personnel;
- customer ability to maintain profitable operations and obtain financing to fund ongoing operations and manufacturing expansions and pay receivables when due;
- loss of significant customers;
- changes in tax laws, regulations and international tax standards;
- the impacts of audits by taxing authorities; and
- the potential impact of legislation, government regulations, and other government action and investigations.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As noted in the 2023 Form 10-K, we operate and conduct business in many foreign countries and as a result are exposed to movements in foreign currency exchange rates. Our exposure to exchange rates has the following effects:

- Exchange rate movements on financial instruments and transactions denominated in foreign currencies that impact earnings; and
- Exchange rate movements upon conversion of net assets and net income of foreign subsidiaries for which the functional currency is not the U.S. dollar.

For a discussion of the Company's exposure to market risk and how we mitigate that risk, refer to Part II, Item 7A, Quantitative and Qualitative Disclosures About Market Risks, contained in the 2023 Form 10-K.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Under the supervision of and with the participation of Corning's management, including the chief executive officer and chief financial officer, we evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended), as of June 30, 2024, the end of the period covered by this report. Based on that evaluation, we have concluded that the Company's disclosure controls and procedures were effective as of that date. Corning's disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by Corning in the reports that it files or submits under the Exchange Act is accumulated and communicated to Corning's management, including Corning's principal executive and principal financial officers, or other persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Internal Control Over Financial Reporting

An evaluation of internal controls over financial reporting was performed to determine whether any changes have occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, the internal control over financial reporting. The chief executive officer and chief financial officer concluded that there was no change in Corning's internal control over financial reporting that materially affected, or is reasonably likely to materially affect, internal control over financial reporting.

PART II

Item 1. Legal Proceedings

Corning is a defendant in various lawsuits and is subject to various claims that arise in the normal course of business, the most significant of which are summarized in Note 11 (Commitments and Contingencies) in the accompanying notes to the consolidated financial statements. In the opinion of management, the likelihood that the ultimate disposition of these matters will have a material adverse effect on the Company's consolidated financial position, liquidity, or results of operations, is remote.

Item 1A. Risk Factors

In addition to other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in Corning's 2023 Form 10-K, which could materially impact the Company's business, financial condition or future results. Risks disclosed in the 2023 Form 10-K are not the only risks facing the Company. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may materially adversely impact Corning's business, financial condition or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

This table provides information about purchases of common stock during the second quarter of 2024:

Issuer Purchases of Equity Securities

				Approximate
			Number of	dollar value of
			shares	shares that may
			purchased	be purchased
			as part of	under the
	Total number	Average	publicly	publicly
	of shares	price paid	announced	announced
Period	purchased (1)	per share (2)	programs	programs
April 1-30, 2024	580,940	\$ 31.42		
May 1-31, 2024	2,836	37.11		
Shares repurchased (3)	3,000,000	35.14	3,000,000	
June 1-30, 2024	198,480	37.49		
Total	3,782,256	\$ 34.69	3,000,000	\$ 3,195,661,103

⁽¹⁾ This column reflects: (i) 410,588 shares of common stock related to the vesting of employee restricted stock units; (ii) 303,055 shares of common stock related to the vesting of employee performance stock units; (iii) 68,478 shares of common stock related to the vesting of employee restricted stock; (iv) 135 shares of common stock related to the exercise of employee stock options and payment of the exercise price; and (v) the purchase of 3 million shares of common stock under the 2019 Repurchase Program.

Represents the stock price at the time of surrender.

Item 5. Other Information

During the three months ended June 30, 2024, none of our Section 16 reporting persons adopted, modified or terminated any contract, instruction or written plan for the purchase or sale of our securities that was intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) or any non-Rule 10b5-1 trading arrangement.

⁽²⁾ Represents the stock price at the time of surrender.
(3) Pursuant to the Share Repurchase Agreement dated April 5, 2021, 3 million shares were repurchased at \$35.1401 per share. Refer to Note 13 (Shareholders' Equity) to the consolidated financial statements for additional information.

CHIEF EXECUTIVE OFFICER CERTIFICATION

I, Wendell P. Weeks, certify that:

- 1. I have reviewed this Quarterly Report on Form 10-Q of Corning Incorporated;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(f)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION PURSUANT TO 18 U.S.C. SECTION 1350, AS ADOPTED PURSUANT TO SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report of Corning Incorporated (the Company) on Form 10-Q for the period ended June 30, 2024, as filed with the Securities and Exchange Commission on the date hereof (the Report), we, Wendell P. Weeks, Chairman and Chief Executive Officer and Edward A. Schlesinger, Executive Vice President and Chief Financial Officer, of the Company, certify, pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, 18 U.S.C. Section 1350, that:

- (1) The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
