### UNITED STATES SECURITIES AND EXCHANGE COMMISSION WASHINGTON, D.C. 20549

#### FORM 10-Q

(X) QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the guarterly period ended June 26, 2015

OR

()	TRANSITION REPORT PURSUANT TO	SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 19	)34
F	or the transition period from	to	

Commission File Number 1-8022

## **CSX CORPORATION**

(Exact name of registrant as specified in its charter)

 Virginia
 62-1051971

 (State or other jurisdiction of incorporation or organization)
 (I.R.S. Employer Identification No.)

 500 Water Street, 15th Floor, Jacksonville, FL
 32202
 (904) 359-3200

 (Address of principal executive offices)
 (Zip Code)
 (Telephone number, including area code)

No Change

(Former name, former address and former fiscal year, if changed since last report.)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes (X) No ()

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes (X) No ()

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (check one)

Large Accelerated Filer (X)

Accelerated Filer ()

Non-accelerated Filer ()

Smaller Reporting Company ()

Indicate by a check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes () No (X)

There were 983,737,246 shares of common stock outstanding on June 26, 2015 (the latest practicable date that is closest to the filing date).

## NOTE 1. Nature of Operations and Significant Accounting Policies

### Background

CSX Corporation ("CSX"), and together with its subsidiaries (the "Company"), based in Jacksonville, Florida, is one of the nation's leading transportation companies. The Company provides rail-based transportation services including traditional rail service and the transport of intermodal containers and trailers.

CSX's principal operating subsidiary, CSX Transportation, Inc. ("CSXT"), provides an important link to the transportation supply chain through its approximately 21,000 route mile rail network, which serves major population centers in 23 states east of the Mississippi River, the District of Columbia and the Canadian provinces of Ontario and Quebec. The Company's intermodal business, also part of CSXT, links customers to railroads via trucks and terminals.

### Other entities

In addition to CSXT, the Company's subsidiaries include CSX Intermodal Terminals, Inc. ("CSX Intermodal Terminals"), Total Distribution Services, Inc. ("TDSI"), Transflo Terminal Services, Inc. ("Transflo"), CSX Technology, Inc. ("CSX Technology") and other subsidiaries. CSX Intermodal Terminals owns and operates a system of intermodal terminals, predominantly in the eastern United States and also performs drayage services (the pickup and delivery of intermodal shipments) for certain CSXT customers and trucking dispatch operations. TDSI serves the automotive industry with distribution centers and storage locations. Transflo connects non-rail served customers to the many benefits of rail by transferring products from rail to trucks. Today, the biggest Transflo markets are chemicals and agriculture, which include shipments of plastics and ethanol. CSX Technology and other subsidiaries provide support services for the Company.

CSX's other holdings include CSX Real Property, Inc., a subsidiary responsible for the Company's real estate sales, leasing, acquisition and management and development activities. These activities are classified in other income - net because they are not considered to be operating activities of the Company. Results of these activities fluctuate with the timing of real estate transactions.

#### Basis of Presentation

In the opinion of management, the accompanying consolidated financial statements contain all normal, recurring adjustments necessary to fairly present the following:

- Consolidated income statements for the quarters and six months ended June 26, 2015 and June 27, 2014;
- Consolidated comprehensive income statements for the quarters and six months ended June 26, 2015 and June 27, 2014:
- Consolidated balance sheets at June 26, 2015 and December 26, 2014; and
- Consolidated cash flow statements for the six months ended June 26, 2015 and June 27, 2014.

Pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"), certain information and disclosures normally included in the notes to the annual financial statements prepared in accordance with U.S. generally accepted accounting principles ("GAAP") have been omitted from these interim financial statements. CSX suggests that these financial statements be read in conjunction with the audited financial statements and the notes included in CSX's most recent annual report on Form 10-K and any subsequently filed current reports on Form 8-K.

## NOTE 1. Nature of Operations and Significant Accounting Policies, continued

#### Fiscal Year

CSX follows a 52 /53 week fiscal reporting calendar with the last day of each reporting period ending on a Friday:

- The second fiscal quarters of 2015 and 2014 consisted of 13 weeks ending on June 26, 2015 and June 27, 2014, respectively.
- Fiscal year 2015 and 2014 will each consist of 52 weeks ending on December 25, 2015 and December 26, 2014, respectively.

Except as otherwise specified, references to "second quarter(s)" or "six months" indicate CSX's fiscal periods ending June 26, 2015 and June 27, 2014, and references to "year-end" indicate the fiscal year ended December 26, 2014.

## Allowance for Doubtful Accounts

The Company maintains an allowance for doubtful accounts on uncollectible amounts related to freight receivables, government reimbursement receivables, claims for damages and other various receivables. The allowance is based upon the credit worthiness of customers, historical experience, the age of the receivable and current market and economic conditions. Uncollectible amounts are charged against the allowance account. Allowance for doubtful accounts of \$37 million and \$41 million is included in the consolidated balance sheets as of the end of second quarter 2015 and December 2014, respectively.

#### **New Accounting Pronouncements**

On April 7, 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update, *Interest - Imputation of Interest*, which changes the financial statement presentation of debt issuance costs to be a direct reduction to long-term debt, rather than presented as a long-term asset. The amortization of debt issuance costs will continue to be included in interest expense. This standard is effective for annual reporting periods beginning after December 15, 2015 and will not have a material effect on the Company's financial condition, results of operations or liquidity.

On July 9, 2015, the FASB approved a one-year deferral of the effective date of the Accounting Standards Update, Revenue from Contracts with Customers. This standard will now become effective for CSX beginning with the first quarter 2018 and can be adopted either retrospectively to each prior reporting period presented or as a cumulative effect adjustment as of the date of adoption. The Company is currently evaluating the impact of adopting this new guidance on the consolidated financial statements.

## NOTE 1. Nature of Operations and Significant Accounting Policies, continued

### Other items

Share Repurchases

In April 2015, the Company announced a new \$ 2 billion share repurchase program, which is expected to be completed by April 2017. During the second quarter of 2015 and 2014, the Company repurchased approximately \$157 million, or four million shares, and \$130 million, or four million shares, respectively. During the six months of 2015 and 2014, the Company repurchased \$284 million, or eight million shares, and \$257 million, or nine million shares, respectively. Management's assessment of market conditions and other factors guides the timing and volume of repurchases. Future share repurchases are expected to be funded by cash on hand, cash generated from operations and debt issuances. In accordance with the *Equity Topic* in the FASB's Accounting Standards Codification ("ASC"), the excess of repurchase price over par value is recorded in retained earnings. Generally, retained earnings is only impacted by net earnings and dividends.

#### NOTE 2. Earnings Per Share

The following table sets forth the computation of basic earnings per share and earnings per share, assuming dilution:

	Second Quarters			hs		
		2015	2014		2015	2014
Numerator (Dollars in millions):						
Net Earnings	\$	553 \$	529	\$	995 \$	927
Denominator (Units in millions):						
Average Common Shares Outstanding		988	1,003		989	1,005
Other Potentially Dilutive Common Shares		1	_		1	1
Average Common Shares Outstanding, Assuming Dilution		989	1,003		990	1,006
Net Earnings Per Share, Basic	\$	0.56 \$	0.53	\$	1.01 \$	0.92
Net Earnings Per Share, Assuming Dilution	\$	0.56 \$	0.53	\$	1.00 \$	0.92

Basic earnings per share is based on the weighted-average number of shares of common stock outstanding. Earnings per share, assuming dilution, is based on the weighted-average number of shares of common stock equivalents outstanding adjusted for the effects of common stock that may be issued as a result of potentially dilutive instruments. CSX's potentially dilutive instruments are made up of equity awards, which include long-term incentive awards.

The Earnings Per Share Topic in the ASC requires CSX to include additional shares in the computation of earnings per share, assuming dilution. The additional shares included in diluted earnings per share represent the number of shares that would be issued if all of the above potentially dilutive instruments were converted into CSX common stock.

## NOTE 3. Share-Based Compensation

Under CSX's share-based compensation plans, awards primarily consist of performance grants, restricted stock awards, restricted stock units and stock grants for directors. Awards granted under the various programs are determined and approved by the Compensation Committee of the Board of Directors or, in certain circumstances, by the Chief Executive Officer for awards to management employees other than senior executives. The Board of Directors approves awards granted to the Company's non-management directors upon recommendation of the Governance Committee.

In February 2015, approximately 1 million performance units were granted to certain employees under a new long-term incentive plan ("2015-2017 LTIP") adopted under the CSX Stock and Incentive Award Plan. Payouts of performance units for the cycle ending with fiscal year 2017 will be based on the achievement of goals related to both operating ratio and return on assets in each case excluding non-recurring items as disclosed in the Company's financial statements. The cumulative operating ratio and average return on assets over the plan period will each comprise 50% of the payout and will be measured independently of the other.

Grants were made in performance units, with each unit representing the right to receive one share of CSX common stock, and payouts will be made in CSX common stock. The payout range for participants will be between 0% and 200% of the target awards depending on Company performance against predetermined goals. Payouts for certain executive officers are subject to downward adjustment by up to 30% based upon total shareholder return relative to specified comparable groups.

Additionally, as part of the new 2015-2017 LTIP, the Company granted approximately 312 thousand restricted stock units to certain employees in February 2015. The restricted stock units vest three years after the date of grant. Participants receive cash dividend equivalents on the unvested shares during the restriction period. These awards are time-based and are not based upon attainment of performance goals.

Both performance units and restricted stock units require participants to be employed through the final day of the respective vesting period except in the case of death, disability or retirement. For information related to the Company's other outstanding long-term incentive compensation, see CSX's most recent annual report on Form 10-K.

Total pre-tax expense associated with all share-based compensation and the related income tax benefit are as follows:

		Second Quart	Six Months			
(Dollars in millions)	2	015	2014	2	015	2014
Share-Based Compensation Expense	\$	10 \$	6	\$	18 \$	11
Income Tax Benefit		4	2		7	4

## NOTE 4. Casualty, Environmental and Other Reserves

Casualty, environmental and other reserves are considered critical accounting estimates due to the need for significant management judgment. They are provided for in the consolidated balance sheets as follows:

		June 26, 2015					December 26, 2014				
(Dollars in millions)	С	urrent	Long-term		Total		Current	L	ong-term	Total	
Casualty:											
Personal Injury	\$	58 \$	147	\$	205	\$	68	\$	123 \$	191	
Occupational		3	14		17		3		15	18	
Asbestos		5	50		55		5		51	56	
Total Casualty		66	211		277		76		189	265	
Environmental		58	37		95		48		46	94	
Other		22	32		54		18		41	59	
Total	\$	146 \$	280	\$	426	\$	142	\$	276 \$	418	

These liabilities are accrued when estimable and probable in accordance with the *Contingencies Topic* in the ASC. Actual settlements and claims received could differ, and final outcome of these matters cannot be predicted with certainty. Considering the legal defenses currently available, the liabilities that have been recorded and other factors, it is the opinion of management that none of these items individually, when finally resolved, will have a material effect on the Company's financial condition, results of operations or liquidity. Should a number of these items occur in the same period, however, they could have a material effect on the Company's financial condition, results of operations or liquidity in that particular period.

## Casualty

Casualty reserves of \$277 million as of the end of second quarter 2015 represent accruals for personal injury, occupational injury and asbestos claims. The Company's self-insured retention amount for these claims is \$ 50 million per occurrence. Currently, no individual claim is expected to exceed the self-insured retention amount. In accordance with the Contingencies Topic in the ASC, to the extent the value of an individual claim exceeds the self-insured retention amount, the Company would present the liability on a gross basis with a corresponding receivable for insurance recoveries. These reserves fluctuate based upon the timing of payments as well as changes in independent third-party estimates, which are reviewed by management. Actual results may vary from estimates due to the number, type and severity of the injury, costs of medical treatments and uncertainties in litigation. Most of the Company's casualty claims relate to CSXT unless otherwise noted below. Defense and processing costs, which historically have been insignificant and are anticipated to be insignificant in the future, are not included in the recorded liabilities.

## Personal Injury

Personal injury reserves represent liabilities for employee work-related and third-party injuries. Work-related injuries for CSXT employees are primarily subject to the Federal Employers' Liability Act ("FELA"). In addition to FELA liabilities, employees of other CSX subsidiaries are covered by various state workers' compensation laws, the Federal Longshore and Harbor Workers' Compensation Program or the Maritime Jones Act.

## NOTE 4. Casualty, Environmental and Other Reserves, continued

CSXT retains an independent actuary to assist management in assessing the value of personal injury claims. An analysis is performed by the actuary quarterly and is reviewed by management. The methodology used by the actuary includes a development factor to reflect growth or reduction in the value of these personal injury claims. It is based largely on CSXT's historical claims and settlement experience.

## Occupational & Asbestos

Occupational claims arise from allegations of exposures to certain materials in the workplace, such as solvents, soaps, chemicals (collectively referred to as "irritants") and diesel fuels (like exhaust fumes) or allegations of chronic physical injuries resulting from work conditions, such as repetitive stress injuries, carpal tunnel syndrome and hearing loss. The Company is also party to a number of asbestos claims by employees alleging exposure to asbestos in the workplace.

Occupational and asbestos claims are analyzed by an independent actuary or specialist, respectively, in order to determine the number of unasserted, or incurred but not reported ("IBNR"), claims. Occupational claims analyses are performed by the actuary quarterly and are reviewed by management. Since exposure to asbestos has been substantially eliminated, management reviews asserted asbestos claims quarterly and the review by the specialist is completed annually.

The actuary and specialist analyze CSXT's historical claim filings, settlement amounts, and dismissal rates to determine future anticipated claim filing rates and average settlement values for occupational and asbestos claims reserves. The potentially exposed population is estimated by using CSXT's employment records and industry data. From this analysis, the actuary and specialist provide estimates of the IBNR claims liabilities.

#### Environmental

Environmental reserves were \$95 million as of the end of second quarter 2015. The Company is a party to various proceedings related to environmental issues, including administrative and judicial proceedings involving private parties and regulatory agencies. The Company has been identified as a potentially responsible party at approximately 254 environmentally impaired sites. Many of these are, or may be, subject to remedial action under the federal Comprehensive Environmental Response, Compensation and Liability Act of 1980 ("CERCLA"), also known as the Superfund Law, or similar state statutes. Most of these proceedings arose from environmental conditions on properties used for ongoing or discontinued railroad operations. A number of these proceedings, however, are based on allegations that the Company, or its predecessors, sent hazardous substances to facilities owned or operated by others for treatment, recycling or disposal. In addition, some of the Company's land holdings were leased to others for commercial or industrial uses that may have resulted in releases of hazardous substances or other regulated materials onto the property and could give rise to proceedings against the Company.

In any such proceedings, the Company is subject to environmental clean-up and enforcement actions under the Superfund Law, as well as similar state laws that may impose joint and several liability for clean-up and enforcement costs on current and former owners and operators of a site without regard to fault or the legality of the original conduct. These costs could be substantial.

## NOTE 4. Casualty, Environmental and Other Reserves, continued

In accordance with the Asset Retirement and Environmental Obligations Topic in the ASC, the Company reviews its role with respect to each site identified at least quarterly, giving consideration to a number of factors such as:

- type of clean-up required;
- nature of the Company's alleged connection to the location (e.g., generator of waste sent to the site or owner or operator of the site);
- extent of the Company's alleged connection (e.g., volume of waste sent to the location and other relevant factors); and
- number, connection and financial viability of other named and unnamed potentially responsible parties at the location.

Based on the review process, the Company has recorded amounts to cover contingent anticipated future environmental remediation costs with respect to each site to the extent such costs are estimable and probable. The recorded liabilities for estimated future environmental costs are undiscounted. The liability includes future costs for remediation and restoration of sites as well as any significant ongoing monitoring costs, but excludes any anticipated insurance recoveries. Payments related to these liabilities are expected to be made over the next several years. Environmental remediation costs are included in materials, supplies and other on the consolidated income statement.

Currently, the Company does not possess sufficient information to reasonably estimate the amounts of additional liabilities, if any, on some sites until completion of future environmental studies. In addition, conditions that are currently unknown could, at any given location, result in additional exposure, the amount and materiality of which cannot presently be reasonably estimated. Based upon information currently available, however, the Company believes its environmental reserves accurately reflect the cost of remedial actions currently required.

#### Other

Other reserves of \$54 million as of the end of second quarter 2015 include liabilities for various claims, such as property, automobile and general liability. Also included in other reserves are longshoremen disability claims related to a previously owned international shipping business (these claims are in runoff) as well as claims for current port employees.

## NOTE 5. Commitments and Contingencies

## Insurance

The Company maintains numerous insurance programs with substantial limits for property damage (which includes business interruption) and third-party liability. A certain amount of risk is retained by the Company on each of the property and liability programs. The Company has a \$ 25 million retention per occurrence for the non-catastrophic property program (such as a derailment) and a \$ 50 million retention per occurrence for the liability and catastrophic property programs (such as hurricanes and floods). While the Company believes its insurance coverage is adequate, future claims could exceed existing insurance coverage or insurance may not continue to be available at commercially reasonable rates.

### NOTE 5. Commitments and Contingencies, continued

### Legal

The Company is involved in litigation incidental to its business and is a party to a number of legal actions and claims, various governmental proceedings and private civil lawsuits, including, but not limited to, those related to fuel surcharge practices, environmental and hazardous material exposure matters, FELA claims by employees, other personal injury or property claims and disputes and complaints involving certain transportation rates and charges. Some of the legal proceedings include claims for compensatory as well as punitive damages and others are, or are purported to be, class actions. While the final outcome of these matters cannot be reasonably determined, considering, among other things, the legal defenses available and liabilities that have been recorded along with applicable insurance, it is currently the opinion of CSX management that none of these pending items is likely to have a material adverse effect on the Company's financial condition, results of operations or liquidity. An unexpected adverse resolution of one or more of these items, however, could have a material adverse effect on the Company's financial condition, results of operations or liquidity in that particular period.

The Company is able to estimate a range of possible loss for certain legal proceedings for which a loss is reasonably possible in excess of reserves established. The Company has estimated this range to be \$3 million to \$49 million in aggregate at June 26, 2015. This estimated aggregate range is based upon currently available information and is subject to significant judgment and a variety of assumptions. Accordingly, the Company's estimate will change from time to time, and actual losses may vary significantly from the current estimate.

## Fuel Surcharge Antitrust Litigation

In May 2007, class action lawsuits were filed against CSXT and three other U.S.-based Class I railroads alleging that the defendants' fuel surcharge practices relating to contract and unregulated traffic resulted from an illegal conspiracy in violation of antitrust laws. In November 2007, the class action lawsuits were consolidated in federal court in the District of Columbia, where they are now pending. The suit seeks treble damages allegedly sustained by purported class members as well as attorneys' fees and other relief. Plaintiffs are expected to allege damages at least equal to the fuel surcharges at issue.

In June 2012, the District Court certified the case as a class action. The decision was not a ruling on the merits of plaintiffs' claims, but rather a decision to allow the plaintiffs to seek to prove the case as a class. The defendant railroads petitioned the U.S. Court of Appeals for the D.C. Circuit for permission to appeal the District Court's class certification decision. In August 2013, the D.C. Circuit issued a decision vacating the class certification decision and remanded the case to the District Court to reconsider its class certification decision. The District Court remand proceedings are underway and a class certification hearing has been scheduled for early November 2015. The District Court has delayed proceedings on the merits of the case pending the outcome of the class certification remand proceedings.

CSXT believes that its fuel surcharge practices were arrived at and applied lawfully and that the case is without merit. Accordingly, the Company intends to defend itself vigorously. However, penalties for violating antitrust laws can be severe, and an unexpected adverse decision on the merits could have a material adverse effect on the Company's financial condition, results of operations or liquidity in that particular period or for the full year.

### NOTE 5. Commitments and Contingencies, continued

#### Environmental

CSXT has indemnified Pharmacia LLC (formerly known as Monsanto Company) for certain liabilities associated with real estate located in Kearny, New Jersey along the Lower Passaic River (the "Property"). The Property, which was formerly owned by Pharmacia, is now owned by CSXT. The indemnification and defense duties arise with respect to several matters. CSXT, on behalf of Pharmacia, is conducting a Remedial Investigation and Feasibility Study of the 17 -mile Lower Passaic River Study Area with approximately 60 other parties pursuant to an Administrative Settlement Agreement and Order on Consent with the U.S. Environmental Protection Agency ("EPA"). The EPA, using its CERCLA authority, seeks cleanup and removal costs and other damages associated with the presence of hazardous substances in the Lower Passaic River. In April 2014, the EPA announced its proposed plan to remediate the lower eight miles of the Lower Passaic River. The proposed plan, based on a Focused Feasibility Study, informs the public of EPA's preferred remedial alternative. EPA's proposed plan solicited public comments, which were due in August 2014. After review of comments, EPA is expected to issue its final cleanup plan in 2015. CSXT is also defending and indemnifying Pharmacia in a cooperative natural resource damages assessment process related to the Property. Based on currently available information, the Company does not believe any remediation costs potentially allocable to CSXT would be material to the Company's financial condition, results of operations or liquidity.

## NOTE 6. Employee Benefit Plans

The Company sponsors defined benefit pension plans principally for salaried, management personnel. For employees hired prior to January 1, 2003, the plans provide eligible employees with retirement benefits based predominantly on years of service and compensation rates near retirement. For employees hired in 2003 or thereafter, benefits are determined based on a cash balance formula, which provides benefits by utilizing interest and pay credits based upon age, service and compensation.

In addition to these plans, the Company sponsors a post-retirement medical plan and a life insurance plan that provide benefits to full-time, salaried, management employees, hired prior to January 1, 2003, upon their retirement if certain eligibility requirements are met. Eligible retirees who are age 65 years or older (Medicare-eligible) are covered by a health reimbursement arrangement, which is an employer-funded account that can be used for reimbursement of eligible medical expenses. Eligible retirees younger than 65 years (non-Medicare eligible) are covered by a self-insured program partially funded by participating retirees. The life insurance plan is non-contributory.

The Company engages independent actuaries to compute the amounts of liabilities and expenses relating to these plans subject to the assumptions that the Company selects. These amounts are reviewed by management. The following table describes the components of expense / (income) related to net benefit expense recorded in labor and fringe on the income statement.

## NOTE 6. Employee Benefit Plans, continued

#### **Pension Benefits**

(Dollars in millions)	Second Qua	Six Months			
	 2015	2014		2015	2014
Service Cost	\$ 11 \$	11	\$	22 \$	22

Net Periodic Benefit Cost	 17	14		34	29
Special Termination Employee Benefits (a)	_	_		7	_
Total Expense	\$ 17 \$	14	\$	41 \$	29

#### Other Post-retirement Benefits

(Dollars in millions)		Second Quart	Six Months			
	20	15	2014		2015	2014
Service Cost	\$	<b>—</b> \$	_	\$	1 \$	1
Interest Cost		3	4		7	7
Amortization of Net Loss		1	2		2	3
Amortization of Prior Service Costs		_	(1)		_	(1)
Total Expense	\$	4 \$	5	\$	10 \$	10

<sup>(</sup>a) These charges result from a management workforce reduction program that was initiated in 2014 and was completed during the first quarter 2015.

Qualified pension plan obligations are funded in accordance with regulatory requirements and with an objective of meeting minimum funding requirements necessary to avoid restrictions on flexibility of plan operation and benefit payments. No significant contributions to the Company's qualified pension plans are expected in 2015.

## NOTE 7. Debt and Credit Agreements

Total activity related to long-term debt as of the end of second quarter 2015 is shown in the table below. For fair value information related to the Company's long-term debt, see Note 9, Fair Value Measurements.

Long-term							
Curre	nt Portion	Portion	Total				
\$	228 \$	9,514 \$	9,742				
	_	600	600

## NOTE 7. Debt and Credit Agreements, continued

#### Debt Issuance

On April 21, 2015, CSX issued \$600 million of 3.95% notes due 2050. These notes are included in the consolidated balance sheets under long-term debt and may be redeemed by the Company at any time. The net proceeds may be used for general corporate purposes, which may include repurchases of CSX's common stock, capital investment, working capital requirements, improvement in productivity and other cost reduction initiatives.

#### Credit Facility

On May 21, 2015, CSX replaced its existing \$1 billion unsecured, revolving credit facility backed by a diverse syndicate of banks which was set to expire in September 2016. This new facility expires in May 2020, and as of the date of this filing, the Company has no outstanding balances under this facility. The facility allows borrowings at floating (LIBOR-based) interest rates, plus a spread, depending upon CSX's senior unsecured debt ratings. LIBOR is the London Interbank Offered Rate which is a daily reference rate based on the interest rates at which banks offer to lend unsecured funds. As of second quarter 2015, CSX was in compliance with all covenant requirements under this facility.

## Receivables Securitization Facility

The Company has a receivables securitization facility with a three -year term expiring in June 2017. The purpose of this facility is to provide an alternative to commercial paper and a low cost source of short-term liquidity of up to \$250 million, depending on eligible receivables balances. As of the date of this filing, the Company has no outstanding balances under this facility.

#### NOTE 8. Income Taxes

There have been no material changes to the balance of unrecognized tax benefits on the consolidated balance sheet during second quarters 2015 and 2014.

#### NOTE 9. Fair Value Measurements

The Financial Instruments Topic in the ASC requires disclosures about fair value of financial instruments in annual reports as well as in quarterly reports. For CSX, this statement applies to certain investments and long-term debt. Disclosure of the fair value of pension plan assets is only required annually. Also, this rule clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

Various inputs are considered when determining the value of the Company's investments, pension plan assets and long-term debt. The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in these securities. These inputs are summarized in the three broad levels listed below.

- Level 1 observable market inputs that are unadjusted quoted prices for identical assets or liabilities in active markets
- Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Company's own assumptions about the assumptions market participants would use in determining the fair value of investments)

## NOTE 9. Fair Value Measurements, continued

The valuation methods described below may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

#### Investments

The Company's investment assets, valued with assistance from a third-party trustee, consist of certificates of deposits, commercial paper, corporate bonds, government securities and auction rate securities and are carried at fair value on the consolidated balance sheet per the *Fair Value Measurements and Disclosures Topic* in the ASC. There are several valuation methodologies used for those assets as described below.

- Certificates of Deposit and Commercial Paper (Level 2): Valued at amortized cost, which approximates fair value.
- Corporate Bonds and Government Securities (Level 2): Valued using broker quotes that utilize observable market inputs.
- Auction Rate Securities (Level 3): Valued using pricing models for which the assumptions utilize management's estimates of market participant assumptions, because there is currently no active market for trading.

The Company's investment assets are carried at fair value on the consolidated balance sheets as summarized in the table below. Additionally, the amortized cost basis of these investments was \$777 million and \$453 million as of June 26, 2015 and December 26, 2014, respectively.

	June 26, 2015						December 26, 2014			
(Dollars in Millions)	Level 2 Level 3 Total			Total	Le	evel 2	Level 3	Total		
Certificates of Deposit and Commercial Paper	\$	670	\$	<b>— \$</b>	670	\$	250	\$ - \$	250	
Corporate Bonds		71		_	71		141	_	141	
Government Securities		32		_	32		51	_	51	
Auction Rate Securities		_		4	4			11	11	
Total investments at fair value	\$	773	\$	4 \$	777	\$	442	\$ 11 \$	453	

These investments have the following maturities:

(Dollars in millions)	ne 26, 015	December 26, 2014
Less than 1 year	\$ 680	\$ 292
1 - 2 years	14	45
2 - 5 years	74	100
Greater than 5 years	9	16
Total	\$ 777	\$ 453

## NOTE 9. Fair Value Measurements, continued

### Long-term Debt

Long-term debt is reported at carrying amount on the consolidated balance sheets and is the Company's only financial instrument with fair values significantly different from their carrying amounts. The majority of the Company's long-term debt is valued with assistance from an independent third party adviser that utilizes closing transactions, market quotes or market values of comparable debt. For those instruments not valued by the independent adviser, the fair value has been estimated by applying market rates of similar instruments to the scheduled contractual debt payments and maturities. These market rates are provided by the same independent adviser. All of the inputs used to determine the fair value of the Company's long-term debt are Level 2 inputs.

The fair value of outstanding debt fluctuates with changes in a number of factors. Such factors include, but are not limited to, interest rates, market conditions, values of similar financial instruments, size of the transaction, cash flow projections and comparable trades. Fair value will exceed carrying value when the current market interest rate is lower than the interest rate at which the debt was originally issued. The fair value of a company's debt is a measure of its current value under present market conditions. It does not impact the financial statements under current accounting rules.

The fair value and carrying value of the Company's long-term debt is as follows:

(Dollars in millions)	J	June 26, 2015		
Long-term Debt (Including Current Maturities):				
Fair Value	\$	10,788	\$	11,042
Carrying Value		10,125		9,742

### NOTE 10. Other Comprehensive Income / (Loss)

CSX reports comprehensive earnings or loss in accordance with the *Comprehensive Income Topic* in the ASC in the Consolidated Comprehensive Income Statement. Total comprehensive earnings are defined as all changes in shareholders' equity during a period, other than those resulting from investments by and distributions to shareholders (e.g. issuance of equity securities and dividends). Generally, for CSX, total comprehensive earnings equal net earnings plus or minus adjustments for pension and other post-retirement liabilities. Total comprehensive earnings represent the activity for a period net of tax and were \$565 million and \$544 million for second guarters, and \$1 billion and \$958 million for six months 2015 and 2014, respectively.

While total comprehensive earnings is the activity in a period and is largely driven by net earnings in that period, accumulated other comprehensive income or loss ("AOCI") represents the cumulative balance of other comprehensive income, net of tax, as of the balance sheet date. For CSX, AOCI is primarily the cumulative balance related to pension and other post-retirement benefit adjustments and CSX's share of AOCI of equity method investees.

Changes in the AOCI balance by component are shown in the table below. Amounts reclassified in pension and other post-employment benefits to net earnings relate to the amortization of actuarial losses and are included in labor and fringe on the consolidated income statements. See Note 6. Employee Benefit Plans for further information. Other primarily represents CSX's share of AOCI of equity method investees. Amounts reclassified in other to net earnings are included in materials, supplies and other on the consolidated income statements.

## NOTE 11. Summarized Consolidating Financial Data

In 2007, CSXT, a wholly-owned subsidiary of CSX Corporation, sold secured equipment notes maturing in 2023 in a registered public offering. CSX has fully and unconditionally guaranteed the notes. In connection with the notes, the Company is providing the following condensed consolidating financial information in accordance with SEC disclosure requirements. Each entity in the consolidating financial information follows the same accounting policies as described in the consolidated financial statements, except for the use of the equity method of accounting to reflect ownership interests in subsidiaries which are eliminated upon consolidation and the allocation of certain expenses of CSX incurred for the benefit of its subsidiaries. Condensed consolidating financial information for the obligor, CSXT, and parent guarantor, CSX, is shown in the tables below.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### **SECOND QUARTER 2015 HIGHLIGHTS**

- Revenue declined \$180 million to \$3.1 billion from the prior year's second quarter reflecting lower fuel surcharge recoveries
  of \$183 million. Excluding this impact, revenue was relatively flat as continued pricing gains were offset with a slight volume
  decline and negative portfolio mix.
- Expenses of \$2.0 billion decreased \$200 million or 9% year over year primarily driven by lower fuel costs of \$153 million. Also included in the guarter were efficiency savings and lower volume-related costs.
- Operating income exceeded \$1.0 billion for the first time in a quarter in the Company's history, representing an increase of \$20 million or 2% year over year.
- Operating ratio of 66.8% improved 250 basis points.
- Earnings per share of \$0.56 increased \$0.03 or 6% year over year.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

## Second Quarter 2015

## Revenue

Revenue declined \$180 million to \$3.1 billion from the prior year's second quarter reflecting lower fuel surcharge recoveries of \$183 million. Excluding this impact, revenue was relatively flat as continued pricing gains were offset with a slight volume decline and negative portfolio mix.

#### Merchandise

## Agricultural Sector

<u>Agricultural Products</u> - Volume decline was driven by decreased ethanol shipments due to over-supply in the eastern ethanol markets. Declines were partially offset by strength in the feed grain market from the continued effects of the prior strong harvest.

<u>Phosphates and Fertilizers</u> - Volume is down reflecting continued weak international demand, partially due to the strong dollar, and weak domestic demand, due to lower commodity prices. This coupled with sufficient inventories held domestic production low and reduced shipments.

<u>Food and Consumer</u> - Volume is down as a result of weakness in the canned goods market reflecting changing consumer preferences. In addition, fresh food shipments declined due to drought conditions negatively impacting the West Coast crop.

#### Industrial Sector

<u>Chemicals</u> - Volume increased slightly due to energy-related markets, where gains in LPG and modest crude oil growth were mostly offset by frac sand declines, reflecting reduced drilling activity for natural gas this year.

Automotive - Finished vehicle volume grew as North American light vehicle production increased.

<u>Metals</u> - Volume declined due to a strong U.S. dollar, which encouraged higher imports, and lower domestic demand predominantly within the energy sector.

## Housing and Construction Sector

<u>Forest Products</u> - Volume declines driven by reduction in demand for paper products, particularly printing paper due to electronic substitution, and high inventories of building products available to satisfy new construction.

<u>Minerals</u> - Growth in aggregates, which includes crushed stone, sand, and gravel, resulted from more infrastructure development projects in CSX's territory.

<u>Waste and Equipment</u> - Volume increased as a result of new rail consumer waste business and increased shipments of newly manufactured railcars.

## Coal

<u>Domestic Utility Coal</u> - Volume declined primarily due to low natural gas prices favoring increased natural gas power generation and higher overall stockpiles.

<u>Domestic Coke, Iron Ore and Other</u> - Volume increased as a result of iron ore shipments associated with a new customer facility and continued stronger river coal shipments.

<u>Export Coal</u> - Metallurgical and thermal coal volume was down as global market conditions remained weak due to global oversupply and the strength of the U.S. dollar.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Intermodal

<u>Domestic</u> - Domestic volume increased 9%, driven by continued success with CSX's highway-to-rail (H2R) conversion program, growth with existing customers and new service offerings.

<u>International</u> - International volume declined 1% as the continued recovery from West Coast port disruptions was more than offset by competitive losses.

#### Other

Other revenue increased \$46 million versus the prior year primarily due to changes in the required in-transit reserve. Prior year revenue was negatively impacted by the in-transit reserve by \$21 million, while the current year revenue was positively impacted by \$19 million as a result of improved network performance. In addition, incidental revenue increased by \$13 million, partially offset by a decline of \$7 million in revenue recognized from customers who did not meet minimum contractual volumes.

## **Expenses**

Expenses in the second quarter 2015 decreased 9% or \$200 million from the prior year's second quarter. Significant variances are described below.

<u>Labor and Fringe</u> expense increased \$16 million due to the following:

- Inflation resulted in \$30 million of additional cost driven by union and management wages partially offset by reduced health and welfare costs.
- Labor costs were \$12 million higher due to an amended locomotive maintenance agreement in mid-2014 where CSX now
  provides oversight of the labor force. As a result, outside service costs shifted from materials, supplies and other to labor and
  fringe, but overall expense for this change is neutral for the guarter.
- Efficiency savings of \$11 million were primarily due to reduced management headcount as a result of the Q4 2014 restructuring initiative and reduced overtime across operating functions.
- Volume-related costs were \$10 million lower.
- Other costs decreased \$5 million primarily related to lower incentive compensation.

## Materials, Supplies and Other expense decreased \$62 million due to the following:

- Inflation resulted in \$11 million of additional cost.
- Efficiency savings of \$25 million were driven by general and administrative initiatives as well as a reduction in operating support costs.
- A gain of \$17 million was recognized on the sale of an operating rail corridor.
- The amended locomotive maintenance agreement shifted \$12 million to labor and fringe as referenced above.
- Volume-related costs were \$7 million lower.
- Other costs decreased \$12 million primarily due to prior year train accident costs that did not repeat in the current period.

## Fuel expense decreased \$153 million due to the following:

- Locomotive fuel price decreased 35% and reduced expense by \$129 million.
- Volume-related costs were \$12 million lower.
- Locomotive fuel reduction technology and improved processes helped drive \$4 million of efficiency.
- Other fuel savings of \$8 million were primarily due to lower non-locomotive fuel costs.

Depreciation expense increased \$12 million due to a larger asset base.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Equipment and Other Rents expense decreased \$13 million due to the following:

- Efficiency savings of \$5 million were due to improved car cycle times.
- Volume-related costs were \$3 million lower.
- Other net costs decreased \$5 million.

Interest expense decreased \$1 million primarily due to lower average interest rates partially offset by higher average debt balances.

Other income - net increased \$16 million primarily as a result of a prior year environmental cleanup costs related to non-operating activities that did not recur in the current year.

Income tax expense increased \$13 million primarily due to higher earnings.

## Six Months Results of Operations

<u>Revenue</u> decreased \$165 million on flat volume, reflecting significantly lower fuel surcharge recoveries of \$273 million. This decline was partially offset by price gains as well as other revenue, which increased \$70 million primarily due to revenue recognized from customers who did not meet minimum contractual volumes.

<u>Expenses</u> were lower by \$289 million driven by a decline in fuel costs of \$329 million, mostly due to a 38% reduction in price per gallon from the prior year, and efficiency savings of \$82 million. Partially offsetting this decrease was higher inflation of \$95 million.

<u>Operating income</u> increased \$124 million primarily due to continued strong pricing gains and efficiency savings resulting from general and administrative initiatives and lower operating costs. These savings were partially offset by higher inflation costs.

<u>Interest expense</u> decreased \$7 million primarily due to lower average interest rates partially offset by higher average debt balances.

Other income - net increased \$11 million primarily as a result of prior year environmental cleanup costs related to non-operating activities that did not recur in the current year.

<u>Income tax expense</u> increased \$74 million primarily due to higher earnings as well as a prior year benefit related to a change in state tax legislation that did not repeat in the current year.

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

## **Operating Statistics** (Estimated)

	5	Second Qua	arters	Six Months					
	2015	2014	Improvement/ (Deterioration)	2015	2014	Improvement/ (Deterioration)			
Safety and Service Measurements									
FRA Personal Injury Frequency									
Index	0.75	0.96	22%	0.76	0.96	21 %			
FRA Train Accident Rate	1.81	2.17	17%	1.94	2.35	17 %			
On-Time Originations	66%	56%	18%	58%	59%	(2)%			
On-Time Arrivals	48%	42%	14%	45%	46%	(2)%			
Train Velocity	20.3	19.3	5%	20.2	19.9	2 %			
Dwell	25.0	25.9	3%	26.3	26.3	—%			
Cars-On-Line	205,239	207,141	1%	207,088	202,005	(3)%			

Key Performance Measures Definitions

FRA Personal Injury Frequency Index - Number of FRA-reportable injuries per 200,000 man-hours.

FRA Train Accident Rate - Number of FRA-reportable train accidents per million train-miles.

On-Time Originations - Percent of scheduled road trains that depart the origin yard on-time or ahead of schedule.

On-Time Arrivals - Percent of scheduled road trains that arrive at the destination yard on-time to two hours late (30 minutes for intermodal trains).

<u>Train Velocity</u> - Average train speed between terminals in miles per hour (does not include locals, yard jobs, work trains or passenger trains).

<u>Dwell</u> - Average amount of time in hours between car arrival at and departure from the yard. It does not include cars moving through the yard on the same train.

<u>Cars-On-Line</u> - An average count of all cars on the network (does not include locomotives, cabooses, trailers, containers or maintenance equipment).

The Company measures and reports safety and service performance. The Company strives for continuous improvement in these measures through training, innovation and investment. For example, the Company's safety and train accident prevention programs rely on the latest tools, programs and employee participation that strengthen the safety culture in a supportive environment that allows each employee to be successful at CSX. Continued capital investment in the Company's assets, including track, bridges, signals, equipment and detection technology also supports safety performance. CSX safety programs are designed to prevent incidents that can impact employees, customers and the communities we serve.

The Company constantly collaborates with the FRA and industry organizations as well as federal, state and local governments on safety innovations and initiatives. For example, CSX and other freight railroads have actively worked with the U.S. Department of Transportation ("DOT") and other key stakeholders to evaluate and implement far-reaching safety enhancements for transportation of certain flammable materials, including essential energy products, on the nation's freight railroad network.

CSX remains an industry leader in key safety measures. The FRA reportable personal injury frequency index improved 22 percent year over year to 0.75, and the reported FRA train accident frequency rate improved 17 percent to 1.81. These results highlight the Company's commitment to safety and focus on avoidance of catastrophic events.

### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

CSX's operating performance has improved significantly in the second quarter. On-time originations increased 18 percent year over year to 66 percent, and on-time arrivals increased to 48 percent, a 14 percent increase year over year. Average train velocity was 20.3 miles per hour, a 5 percent improvement from last year. Terminal dwell was 25.0 hours, a 3 percent improvement from last year, and is continuously improving as the year progresses. The Company expects to sustain or improve this level of performance while driving continued service gains and productivity savings. Productivity gains will result from the improved fluidity and the Company's continued focus on increasing train length.

### LIQUIDITY AND CAPITAL RESOURCES

The following are material changes in the consolidated balance sheets and sources of liquidity and capital, which provide an update to the discussion included in CSX's most recent annual report on Form 10-K.

## Material Changes in Consolidated Balance Sheets and Significant Cash Flows

Consolidated Balance Sheets

Total assets as well as total liabilities and shareholders' equity increased \$724 million from year end. The increase in assets was primarily driven by higher net properties of \$666 million resulting from capital investments. The increase in liabilities and shareholders' equity was primarily driven by net earnings of \$995 million and net debt issued of \$390 million (net of debt repayments). These increases were partially offset by dividends paid of \$336 million and share repurchases of \$284 million.

#### Significant Cash Flows

The following table highlights net cash activity for operating, investing and financing activities for six months ended 2015 and 2014.

	SIX WIOII	1115	
Dollars in millions	2015	2014	\$ Var
Net cash provided by operating activities	\$ 1,582 \$	1,445	\$ 137
Net cash used in investing activities	\$ (1,574) \$	(650)	\$ (924)
Net cash used in financing activities	\$ (239) \$	(814)	\$ 575

Civ Months

Cash and cash equivalents decreased in both years. However, the decrease in the current year was \$212 million more than in the prior year primarily due to the following:

- Cash provided by operating activities increased \$137 million primarily due to higher collections of accounts receivable.
- Cash used in investing activities increased \$924 million primarily due to higher net purchases of short term investments as well as higher property additions.
- Cash used in financing activities decreased \$575 million primarily due to higher net debt issued (net of debt repayments).

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Planned capital investments for 2015 are expected to be \$2.5 billion, including expected spending of approximately \$300 million for Positive Train Control ("PTC"). This \$2.5 billion excludes investments related to partially or wholly reimbursable public-private partnerships where reimbursements may not be fully received in a given year. Approximately half of the 2015 investment will be used to sustain the core infrastructure. The remaining amounts will be allocated to locomotives, freight cars and high return projects supporting long-term profitable growth, productivity initiatives and service improvements to optimize performance. CSX intends to fund capital investments through cash generated from operations.

The Company has incurred significant capital costs in connection with the implementation of PTC and has substantial work ahead. CSX estimates that the total multi-year cost of PTC implementation will be at least \$1.9 billion. This estimate includes costs for installing the new system along tracks, upgrading locomotives, adding communication equipment and developing new technologies. Total PTC spending through June 2015 was \$1.3 billion.

## Liquidity and Working Capital

As of the end of second quarter 2015, CSX had \$1.1 billion of cash, cash equivalents and short-term investments. CSX has a \$1 billion unsecured revolving credit facility backed by a diverse syndicate of banks. This facility expires in May 2020 and as of the date of this filing, the Company has no outstanding balances under this facility. CSX uses current cash balances for general corporate purposes, which may include reduction or refinancing of outstanding indebtedness, capital expenditures, working capital requirements, contributions to the Company's qualified pension plan, redemptions and repurchases of CSX common stock and dividends to shareholders. See Note 7, Debt and Credit Agreements.

The Company has a receivables securitization facility with a three -year term expiring in June 2017. The purpose of this facility is to provide an alternative to commercial paper and a low cost source of short-term liquidity of up to \$250 million, depending on eligible receivables balances. As of the date of this filing, the Company has no outstanding balances under this facility.

Working capital can also be considered a measure of a company's ability to meet its short-term needs. CSX had a working capital surplus of \$ 891 million and \$ 465 million as of June 2015 and December 2014, respectively. This increase since year end is primarily due to the net proceeds from a debt issuance partially offset by a debt payment.

The Company's working capital balance varies due to factors such as the timing of scheduled debt payments and changes in cash and cash equivalent balances as discussed above. The Company continues to maintain adequate liquidity to satisfy current liabilities and maturing obligations when they come due. Furthermore, CSX has sufficient financial capacity, including its revolving credit facility, trade receivable facility and shelf registration statement to manage its day-to-day cash requirements and any anticipated obligations. The Company from time to time accesses the credit markets for additional liquidity.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

## **CRITICAL ACCOUNTING ESTIMATES**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires that management make estimates in reporting the amounts of certain assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and certain revenues and expenses during the reporting period. Actual results may differ from those estimates. These estimates and assumptions are discussed with the Audit Committee of the Board of Directors on a regular basis. Consistent with the prior year, significant estimates using management judgment are made for the areas below. For further discussion of CSX's critical accounting estimates, see the Company's most recent annual report on Form 10-K.

- casualty, environmental and legal reserves;
- pension and post-retirement medical plan accounting;
- depreciation policies for assets under the group-life method; and
- income taxes.

### FORWARD-LOOKING STATEMENTS

Certain statements in this report and in other materials filed with the SEC, as well as information included in oral statements or other written statements made by the Company, are forward-looking statements. The Company intends for all such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and the provisions of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements within the meaning of the Private Securities Litigation Reform Act may contain, among others, statements regarding:

- projections and estimates of earnings, revenues, margins, volumes, rates, cost-savings, expenses, taxes or other financial items;
- expectations as to results of operations and operational initiatives;
- expectations as to the effect of claims, lawsuits, environmental costs, commitments, contingent liabilities, labor negotiations or agreements on the Company's financial condition, results of operations or liquidity;
- management's plans, strategies and objectives for future operations, capital expenditures, dividends, share repurchases, safety and service performance, proposed new services and other matters that are not historical facts, and management's expectations as to future performance and operations and the time by which objectives will be achieved; and
- future economic, industry or market conditions or performance and their effect on the Company's financial condition, results of operations or liquidity.

Forward-looking statements are typically identified by words or phrases such as "will," "should," "believe," "expect," "anticipate," "project," "estimate," "preliminary" and similar expressions. The Company cautions against placing undue reliance on forward-looking statements, which reflect its good faith beliefs with respect to future events and are based on information currently available to it as of the date the forward-looking statement is made. Forward-looking statements should not be read as a guarantee of future performance or results and will not necessarily be accurate indications of the timing when, or by which, such performance or results will be achieved.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-looking statements are subject to a number of risks and uncertainties and actual performance or results could differ materially from those anticipated by any forward-looking statements. The Company undertakes no obligation to update or revise any forward-looking statement. If the Company does update any forward-looking statement, no inference should be drawn that the Company will make additional updates with respect to that statement or any other forward-looking statements. The following important factors, in addition to those discussed in Part II, Item 1A (Risk Factors) of CSX's most recent annual report on Form 10-K and elsewhere in this report, may cause actual results to differ materially from those contemplated by any forward-looking statements:

- legislative, regulatory or legal developments involving transportation, including rail or intermodal transportation, the environment, hazardous materials, taxation and initiatives to further regulate the rail industry;
- the outcome of litigation, claims and other contingent liabilities, including, but not limited to, those related to fuel surcharge, environmental matters, taxes, shipper and rate claims subject to adjudication, personal injuries and occupational illnesses;
- changes in domestic or international economic, political or business conditions, including those affecting the transportation industry (such as the impact of industry competition, conditions, performance and consolidation) and the level of demand for products carried by CSXT;
- natural events such as severe weather conditions, including floods, fire, hurricanes and earthquakes, a pandemic
  crisis affecting the health of the Company's employees, its shippers or the consumers of goods, or other unforeseen
  disruptions of the Company's operations, systems, property or equipment;
- competition from other modes of freight transportation, such as trucking and competition and consolidation within the transportation industry generally;
- the cost of compliance with laws and regulations that differ from expectations (including those associated with PTC implementation), as well as costs, penalties and operational and liquidity impacts associated with noncompliance with applicable laws or regulations;
- the impact of increased passenger activities in capacity-constrained areas, including potential effects of high speed rail initiatives, or regulatory changes affecting when CSXT can transport freight or service routes;
- unanticipated conditions in the financial markets that may affect timely access to capital markets and the cost of capital, as well as management's decisions regarding share repurchases;
- changes in fuel prices, surcharges for fuel and the availability of fuel;
- the impact of natural gas prices on coal-fired electricity generation;
- availability of insurance coverage at commercially reasonable rates or insufficient insurance coverage to cover claims or damages;
- the inherent business risks associated with safety and security, including the transportation of hazardous materials
  or a cybersecurity attack which would threaten the availability and vulnerability of information technology;

### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

- adverse economic or operational effects from actual or threatened war or terrorist activities and any governmental response;
- labor and benefit costs and labor difficulties, including stoppages affecting either the Company's operations or customers' ability to deliver goods to the Company for shipment;
- the Company's success in implementing its strategic, financial and operational initiatives;
- changes in operating conditions and costs or commodity concentrations; and
- the inherent uncertainty associated with projecting economic and business conditions.

Other important assumptions and factors that could cause actual results to differ materially from those in the forward-looking statements are specified elsewhere in this report and in CSX's other SEC reports, which are accessible on the SEC's website at <a href="https://www.sec.gov">www.sec.gov</a> and the Company's web

#### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in market risk from the information provided under Part II, Item 7A (Quantitative and Qualitative Disclosures about Market Risk) of CSX's most recent annual report on Form 10-K.

### **ITEM 4. CONTROLS AND PROCEDURES**

As of June 26, 2015, under the supervision and with the participation of CSX's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), management has evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the CEO and CFO concluded that, as of June 26, 2015, the Company's disclosure controls and procedures were effective at the reasonable assurance level in timely alerting them to material information required to be included in CSX's periodic SEC reports. There were no changes in the Company's internal controls over financial reporting during the second quarter of 2015 that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

### **PART II - OTHER INFORMATION**

### Item 1. Legal Proceedings

For further details, please refer to Note 5. Commitments and Contingencies of this quarterly report on Form 10-Q. Also refer to Part I, Item 3. Legal Proceedings in CSX's most recent annual report on Form 10-K.

## Item 1A. Risk Factors

For information regarding factors that could affect the Company's results of operations, financial condition and liquidity, see the risk factors discussed under Part II, Item 7 (Management's Discussion and Analysis of Financial Condition and Results of Operations) of CSX's most recent annual report on Form 10-K. See also Part I, Item 2 (Forward-Looking Statements) of this quarterly report on Form 10-Q. There have been no material changes from the risk factors previously disclosed in CSX's most recent annual report on Form 10-K.

## CSX CORPORATION PART II

## Item 2. CSX Purchases of Equity Securities

CSX is required to disclose any purchases of its own common stock for the most recent quarter. CSX purchases its own shares for two primary reasons: (1) to further its goals under its share repurchase program and (2) to fund the Company's contribution required to be paid in CSX common stock under a 401(k) plan that covers certain union employees.

In April 2015, the Company announced a new \$ 2 billion share repurchase program, which is expected to be completed by April 2017. During the second quarter of 2015 and 2014, the Company repurchased approximately \$157 million, or four million shares, and \$130 million, or four million shares, respectively. During the six months of 2015 and 2014, the Company repurchased \$284 million, or eight million shares, and \$257 million, or nine million shares, respectively.

Management's assessment of market conditions and other factors guides the timing and volume of repurchases. Future share repurchases are expected to be funded by cash on hand, cash generated from operations and debt issuances. In accordance with the *Equity Topic* in the ASC, the excess of repurchase price over par value is recorded in retained earnings. Generally, retained earnings is only impacted by net earnings and dividends.

Share repurchase activity for the second quarter 2015 was as follows:

## CSX Purchases of Equity Securities for the Quarter

Second Quarter <sup>(a)</sup>	Total Number of Shares Purchased	Average Pric Paid per Shai	•	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
Beginning Balance				\$ 4,077,224
April	146,150	\$ 33.3	122,100	2,000,000,000
May	1,506,470	35.8	1,506,000	1,945,950,230
June	2,875,300	34.7	2,875,300	1,846,154,758
Ending Balance	4,527,920	\$ 35.0	6 4,503,400	\$ 1,846,154,758

<sup>(</sup>a) Second quarter 2015 consisted of the following fiscal periods: April (March 28, 2015 - April 24, 2015), May (April 25, 2015 - May 22, 2015), June (May 23, 2015 - June 26, 2015).

### Item 3. Defaults Upon Senior Securities

None

## Item 4. Mine Safety Disclosures

Not Applicable

#### Item 5. Other Information

None

<sup>(</sup>b) The difference of 24,520 shares between the "Total Number of Shares Purchased" and the "Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs" for the quarter represents shares purchased to fund the Company's contribution to a 401(k) plan that covers certain union employees.

## CERTIFICATION OF CEO AND CFO PURSUANT TO EXCHANGE ACT RULE 13a - 14(a) OR RULE 15d-14(a)

- I, Michael J. Ward, certify that:
- 1. I have reviewed this Quarterly Report on Form 10-Q of CSX Corporation:
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Date: July 15, 2015
