a) Accumulated Other Comprehensive Loss balances shown above are net of tax. The associated taxes were \$183 million and \$178 million as of first and second quarters 2020, respectively. For additional information, see Note 11, Other Comprehensive Income.

All prior period share and per share data along with certain other prior period data has been retroactively adjusted to reflect the stock split effective June 28, 2021. See accompanying notes to consolidated financial statements.

NOTE 1. Nature of Operations and Significant Accounting Policies

Background

CSX Corporation together with its subsidiaries ("CSX" or the "Company"), based in Jacksonville, Florida, is one of the nation's leading transportation companies. The Company provides rail-based transportation services including traditional rail service, the transport of intermodal containers and trailers, as well as other transportation services such as rail-to-truck transfers and bulk commodity operations.

CSX's principal operating subsidiary, CSX Transportation, Inc. ("CSXT"), provides an important link to the transportation supply chain through its approximately 19,500 route mile rail network, which serves major population centers in 23 states east of the Mississippi River, the District of Columbia and the Canadian provinces of Ontario and Quebec. The Company's intermodal business links customers to railroads via trucks and terminals.

CSXT is also responsible for the Company's real estate sales, leasing, acquisition and management and development activities. Substantially all of these activities are focused on supporting railroad operations.

Other entities

In addition to CSXT, the Company's subsidiaries include CSX Intermodal Terminals, Inc. ("CSX Intermodal Terminals"), Total Distribution Services, Inc. ("TDSI"), Transflo Terminal Services, Inc. ("Transflo"), CSX Technology, Inc. ("CSX Technology") and other subsidiaries. CSX Intermodal Terminals owns and operates a system of intermodal terminals, predominantly in the eastern United States and also performs drayage services (the pickup and delivery of intermodal shipments) for certain customers. TDSI serves the automotive industry with distribution centers and storage locations. Transflo connects non-rail served customers to the many benefits of rail by transferring products from rail to trucks. The biggest Transflo markets are chemicals and agriculture, which includes shipments of plastics and ethanol. CSX Technology and other subsidiaries provide support services for the Company.

Business Combinations

Acquisition of Quality Carriers, Inc.

On May 12, 2021, CSX entered into a definitive agreement to acquire Quality Carriers, Inc. ("Quality Carriers"), the largest provider of bulk liquid chemicals truck transportation in North America, from Quality Distribution, Inc. Through a network of over 100 company-owned and affiliate terminals and facilities in key locations throughout the United States, Canada and Mexico, Quality Carriers provides transportation services to many of the leading chemical producers and shippers in North America. Assets and facilities acquired include tractors and trailers, equipment, land, buildings, and other assets. This transaction, which closed on July 1, 2021, is expected to create a unique multimodal chemicals transportation solution. The purchase price was \$546 million in cash, subject to certain customary purchase price adjustments. This acquisition is not material with respect to the Company's financial statements when reviewed under the quantitative and qualitative considerations of Regulation S-X Article 11 and ASC 805, Business Combinations.

NOTE 1. Nature of Operations and Significant Accounting Policies, continued

Proposed Acquisition of Pan Am Systems, Inc.

On November 30, 2020, CSX signed a definitive agreement to acquire Pan Am Systems, Inc. ("Pan Am") which is the parent company of Pan Am Railways, Inc. who jointly owns Pan Am Southern, LLC with a subsidiary of Norfolk Southern Corporation. Pan Am owns and operates a highly integrated, nearly 1,200-mile rail network and has a joint interest in the more than 600-mile Pan Am Southern system. This acquisition, if approved, will expand CSX's reach in Connecticut, New York and Massachusetts while adding Vermont, New Hampshire and Maine to its existing network. Assets and facilities to be acquired as part of the proposed transaction include road and track assets, work equipment, land, buildings and other assets. On February 25, 2021, the Company began the process, which can take up to a year or more, of seeking approval from the Surface Transportation Board ("STB"). This proposed acquisition is not expected to be material with respect to the Company's financial statements when reviewed under the quantitative and qualitative considerations of Regulation S-X Article 11 and ASC 805, Business Combinations.

Other Transactions

Sale of Property Rights to the Commonwealth of Virginia

On March 26, 2021, the Company entered into a comprehensive agreement to sell certain property rights in three CSX-owned line segments to the Commonwealth of Virginia ("Commonwealth") over three phases for a total of \$525 million.

On April 14, 2021, in the first phase of the transaction, the Company closed on the conveyance of a permanent land easement for passenger rail operations, resulting in a \$349 million gain recognized in gains on property dispositions on the consolidated income statement. Upon closing of this phase, cash proceeds of \$200 million were received, with proceeds of \$168 million to be collected in fourth quarter 2021. Additional future proceeds and related gains attributable to this conveyance are subject to state funding.

The Company anticipates closing on the remaining conveyances over the next two years, which will result in future cash proceeds and gains. The timing of future gain recognition is dependent upon the timing of future conveyances as well as collectability. As of June 30, 2021, the carrying values of the remaining assets subject to this transaction were not material.

Basis of Presentation

In the opinion of management, the accompanying consolidated financial statements contain all normal, recurring adjustments necessary to fairly present the consolidated financial statements and accompanying notes. Where applicable, prior year information has been reclassified to conform to the current presentation. Pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"), certain information and disclosures normally included in the notes to the annual financial statements prepared in accordance with U.S. generally accepted accounting principles ("GAAP") have been omitted from these interim financial statements. CSX suggests that these financial statements be read in conjunction with the audited financial statements and the notes included in CSX's most recent annual report on Form 10-K and any subsequently filed current reports on Form 8-K.

NOTE 1. Nature of Operations and Significant Accounting Policies, continued

Common Stock Split

On June 4, 2021, CSX announced a three-for-one split of the Company's common stock in the form of a stock dividend. Each shareholder of record on June 18, 2021, received two additional shares of common stock for each share held as of this record date. The new shares were distributed after close of trading on June 28, 2021. All prior period share and per share amounts, common stock, other capital, and retained earnings presented herein have been retroactively adjusted to reflect the impact of the stock split.

Other Capital

As a result of the stock split during second quarter 2021, CSX's common stock balance was increased and its other capital balance was reduced commensurately. Because this adjustment brought the other capital balance below zero, \$1.0 billion was reclassified from retained earnings to other capital to bring the other capital balance to zero as of June 30, 2021. Prior period amounts have also been retroactively adjusted as needed to bring the other capital balance to zero.

Fiscal Year

The Company's fiscal periods are based upon the calendar year. Except as otherwise specified, references to "second quarter(s)" or "six months" indicate CSX's fiscal periods ending June 30, 2021 and June 30, 2020, and references to "year-end" indicate the fiscal year ended December 31, 2020.

New Accounting Pronouncements

In March 2020, the FASB issued ASU Facilitation of the Effects of Reference Rate Reform on Financial Reporting. As the London Interbank Offered Rate ("LIBOR") will no longer be available beginning July 2023, this standard update provides practical expedients for contract modifications made as part of the transition from LIBOR to alternative reference rates. CSX's revolving line of credit currently uses LIBOR as a reference rate. This standard update can be adopted prospectively through December 31, 2022. The Company continues to evaluate the impact of this standard update, but does not anticipate that adoption will have a material impact on the Company's results of operations or financial position.

NOTE 2. Earnings Per Share

The following table sets forth the computation of basic earnings per share and earnings per share, assuming dilution.

	Second Quarters			Six Months		
		2021	2020		2021	2020
Numerator (Dollars in millions):						
Net Earnings	\$	1,173 \$	499	\$	1,879 \$	1,269
Denominator (Units in millions):						
Average Common Shares Outstanding		2,270	2,297		2,276	2,306
Other Potentially Dilutive Common Shares		5	4		5	5
Average Common Shares Outstanding, Assuming Dilution		2,275	2,301	_	2,281	2,311
Net Earnings Per Share, Basic	\$	0.52 \$	0.22	\$	0.83 \$	0.55
Net Earnings Per Share, Assuming Dilution	\$	0.52 \$	0.22	\$	0.82 \$	0.55

Basic earnings per share is based on the weighted-average number of shares of common stock outstanding. Earnings per share, assuming dilution, is based on the weighted-average number of shares of common stock outstanding and common stock equivalents adjusted for the effects of common stock that may be issued as a result of potentially dilutive instruments. CSX's potentially dilutive instruments are made up of equity awards including performance units and employee stock options.

When calculating diluted earnings per share, the potential shares that would be outstanding if all outstanding stock options were exercised are included. This number is different from outstanding stock options because it is offset by shares CSX could repurchase using the proceeds from these hypothetical exercises to obtain the common stock equivalent. The total average outstanding stock options that were excluded from the diluted earnings per share calculation because their effect was antidilutive is in the table below.

	Second	Quarters	Si	Six Months	
	2021	2020	2021		2020
Antidilutive Stock Options Excluded from Diluted EPS (Millions)	2		7	2	5

NOTE 2. Earnings Per Share, continued

Share Repurchases

In January 2019, the Company announced a \$5 billion share repurchase program. During June 2021, this program was completed, and the Company began repurchasing shares under the \$5 billion share repurchase program announced on October 21, 2020. Total repurchase authority remaining was \$4.6 billion as of June 30, 2021. During second quarters and six months ended 2021 and 2020, the Company engaged in the following repurchase activities:

	Second Quarters		Six Me	onths
	 2021	2020	2021	2020
Shares Repurchased (Millions)(a)	 22	2	40	29
Cost of Shares (Dollars in millions)	\$ 701 \$	39	\$ 1,252	\$ 616

(a) For second quarter and six months 2021, shares repurchased includes 3 million shares that were purchased in June 2021, but were not retired until July 1st, 2021, due to timing of the stock split. These shares are reflected as outstanding as of June 30, 2021, on the consolidated statement of changes in shareholder's equity.

Share repurchases may be made through a variety of methods including, but not limited to, open market purchases, purchases pursuant to Rule 10b5-1 plans, accelerated share repurchases and negotiated block purchases. The timing of share repurchases depends upon management's assessment of marketplace conditions and other factors, and the program remains subject to the discretion of the Board of Directors. Future share repurchases are expected to be funded by cash on hand, cash generated from operations and debt issuances. Shares are retired immediately upon repurchase. In accordance with the *Equity Topic* in the Accounting Standards Codification ("ASC"), the excess of repurchase price over par value is recorded in retained earnings.

During the quarter, CSX entered into structured agreements for the repurchase of CSX shares. Upon execution of each agreement, the Company paid a fixed amount of cash in exchange for the right to receive either CSX stock or a predetermined amount of cash, including a premium. Shares acquired through these structured share repurchase agreements during second quarter 2021 were recorded in common stock and retained earnings and are included in the share repurchases table above. Premiums received were not material. During second quarter 2021, the Company paid a net total of approximately \$228 million and received approximately 7 million shares as a result of entering into and settling structured share repurchase agreements. As of June 30, 2021, no such agreements were outstanding.

Dividend Increase

In February 2021, the Company's Board of Directors authorized an 8% increase in the quarterly cash dividend effective March 2021. The current split-adjusted quarterly dividend on the Company's common stock is \$0.093 per common share.

NOTE 3. Stock Plans and Share-Based Compensation

Under CSX's share-based compensation plans, awards consist of performance units, stock options, restricted stock units and restricted stock awards for management and stock grants for directors. Awards granted under the various programs are determined and approved by the Compensation and Talent Management Committee of the Board of Directors. Awards to the Chief Executive Officer are approved by the full Board and awards to senior executives are approved by the Compensation and Talent Management Committee. In certain circumstances, the Chief Executive Officer or delegate approves awards to management employees other than senior executives. The Board of Directors approves awards granted to CSX's non-management directors upon recommendation of the Governance and Sustainability Committee.

Share-based compensation expense for awards under share-based compensation plans and purchases made as part of the employee stock purchase plan is measured using the fair value of the award on the grant date and is recognized on a straight-line basis over the service period of the respective award or upon grant date to certain retirement-eligible employees whose agreements allow for continued vesting upon retirement. Forfeitures are recognized as they occur. Total pre-tax expense and income tax benefits associated with share-based compensation are shown in the table below. Income tax benefits include impacts from option exercises and the vesting of other equity awards.

		Six Months				
(Dollars in millions)		2021	2020	20	21	2020
Share-Based Compensation Expense:						
Performance Units	\$	20 \$	(17)		38 \$	(8)
Stock Options		4	3		10	13
Restricted Stock Units and Awards		2	1		7	3
Stock Awards for Directors		_	1		2	2
Employee Stock Purchase Plan		1	_		2	2
Total Share-Based Compensation Expense	\$	27 \$	(12)	\$	59 \$	12
Income Tax Benefit	\$	6 \$	2	\$	15 \$	11

NOTE 3. Stock Plans and Share-Based Compensation, continued

Long-term Incentive Plan

In February 2021, the Company granted 566 thousand (split-adjusted) performance units to certain employees under a new long-term incentive plan ("LTIP") for the years 2021 through 2023, which was adopted under the CSX 2019 Stock and Incentive Award Plan.

Payouts of performance units for the cycle ending with fiscal year 2023 will be based on the achievement of goals related to both operating income and free cash flow, in each case excluding non-recurring items as disclosed in the Company's financial statements. The average annual operating income growth percentage and cumulative free cash flow measures over the plan period will each comprise 50% of the payout and will be measured independently of the other.

Grants were made in performance units, with each unit representing the right to receive one share of CSX common stock, and payouts will be made in CSX common stock. The payout range for participants will be between 0% and 200% of the target awards depending on Company performance against predetermined goals. Payouts for certain executive officers are subject to formulaic upward or downward adjustment by up to 25%, capped at an overall payout of 250%, based upon the Company's total shareholder return relative to specified comparable groups over the performance period. Participants will receive stock dividend equivalents declared over the performance period based on the number of performance units paid upon vesting. Other immaterial grants of performance units were made during second quarter 2021. No grants were made during second quarter 2020. The fair values of the performance units awarded during the six months ended 2021 and 2020 were primarily calculated using a Monte-Carlo simulation model with the following weighted-average assumptions:

	Second Quarters		Six Months		
	2021	2020	2021	2020	
Weighted-Average Assumptions Used:					
Risk-free Interest Rate	0.2 %	N/A	0.2 %	1.4 %	
Annualized Volatility	34.3 %	N/A	33.6 %	24.5 %	
Expected Life (in years)	2.6	N/A	2.9	2.9	

Stock Options

In February 2021, the Company granted approximately 1,831 thousand (split-adjusted) stock options along with the corresponding LTIP. The fair value of stock options was calculated using the Black-Scholes valuation model. These stock options were granted with ten-year terms and vest over three years in equal installments each year on the anniversary of the grant date. The exercise price for stock options granted equals the closing market price of the underlying stock on the date of grant. These awards are time-based and are not based upon attainment of performance goals. During second quarters 2021 and 2020, there were additional immaterial grants of stock options to certain members of management.

NOTE 3. Stock Plans and Share-Based Compensation, continued

The fair values of all stock option awards during the quarters and six months ended June 30, 2021 and June 30, 2020 were estimated at the grant date with the following weighted average assumptions:

	Second Quarters					Six Months				
		2021		2020			2021		2020	
Weighted-Average Grant Date Fair Value	\$,	9.18 \$		5.92	\$		7.89 \$		6.29
Weighted-Average Assumptions Used:										
Annual Dividend Yield		1.1	%	1.5	%		1.2	%	1.2	%
Risk-Free Interest Rate		1.0	%	0.5	%		0.7	%	1.4	%
Annualized Volatility		31.0	%	30.1	%		31.2	%	26.0	%
Expected Life (in years)		(6.0		6.5			6.0		6.0
Other Pricing Model Inputs: Weighted-Average Grant Date Market Price of CSX Stock (strike price)	¢	24	3.35 \$		3.62	¢	20	9. 53 \$	2	6.49
Stock (Strike price)	Ψ	3.	3.33 Þ	2	3.02	Ψ	23	7.33 Þ	2	0.49

Restricted Stock Units

In February 2021, the Company granted 490 thousand (split-adjusted) restricted stock units along with the corresponding LTIP. The restricted stock units vest three years after the date of grant. Participants will receive stock dividend equivalents on the vested shares upon vesting. These awards are time-based and are not based upon CSX's attainment of operational targets. Restricted stock units are paid out in CSX common stock on a one-for-one basis. For information related to the Company's other outstanding long-term incentive compensation, see CSX's most recent annual report on Form 10-K.

Employee Stock Purchase Plan

In May 2018, shareholders approved the 2018 CSX Employee Stock Purchase Plan ("ESPP") for the benefit of Company employees. The Company registered 12 million (split-adjusted) shares of common stock that may be issued pursuant to this plan. Under the ESPP, employees may contribute between 1% and 10% of base compensation, after-tax, to purchase up to \$25,000 of market value CSX common stock per year at 85% of the closing market price on either the grant date or the last day of the six-month offering period, whichever is lower. During the second quarter and six months ended June 30, 2021 and June 30, 2020, the Company issued the following shares under this program:

	Six Mont	hs
	 2021	2020
	 396	366
chase price per share	\$ 19.33 \$	20.50

NOTE 4. Casualty, Environmental and Other Reserves

Personal injury and environmental reserves are considered critical accounting estimates due to the need for management judgment. Casualty, environmental and other reserves are provided for in the consolidated balance sheets as shown in the table below.

			June	30, 2021					Decemb	oer 31, 2020)
(Dollars in millions)	Cı	urrent	Lon	g-term	7	otal	Cu	rrent	Lon	ıg-term	To
Casualty:											
Personal Injury	\$	44	\$	85	\$	129	\$	38	\$	93	\$
Occupational		7		55		62		11		54	
Total											
Casualty		51		140		191		49		147	
Environmental		30		47		77		23		53	
Other		21		23		44		18		24	
Total	\$	102	\$	210	\$	312	\$	90	\$	224	\$

These liabilities are accrued when probable and reasonably estimable in accordance with the *Contingencies Topic* in the ASC. Actual settlements and claims received could differ, and final outcomes of these matters cannot be predicted with certainty. Considering the legal defenses currently available, the liabilities that have been recorded and other factors, it is the opinion of management that none of these items individually, when finally resolved, will have a material adverse effect on the Company's financial condition, results of operations or liquidity. Should a number of these items occur in the same period, however, their combined effect could be material in that particular period.

Casualty

Casualty reserves of \$191 million and \$196 million as of June 30, 2021 and December 31, 2020, respectively, represent accruals for personal injury, occupational disease and occupational injury claims. Beginning June 1, 2021, the Company's self-insured retention amount for these claims increased to \$100 million per occurrence. Currently, no individual claim is expected to exceed the self-insured retention amount. In accordance with the *Contingencies Topic* in the ASC, to the extent the value of an individual claim exceeds the self-insured retention amount, the Company would present the liability on a gross basis with a corresponding receivable for insurance recoveries. These reserves fluctuate based upon the timing of payments as well as changes in estimate. Actual results may vary from estimates due to the number, type and severity of the injury, costs of medical treatments and uncertainties in litigation. Most of the Company's casualty claims relate to CSXT. Defense and processing costs, which historically have been insignificant and are anticipated to be insignificant in the future, are not included in the recorded liabilities.

Personal Injury

Personal injury reserves represent liabilities for employee work-related and third-party injuries. Work-related injuries for CSXT employees are primarily subject to the Federal Employers' Liability Act ("FELA"). CSXT retains an independent actuary to assist management in assessing the value of personal injury claims. An analysis is performed by the actuary quarterly and is reviewed by management. This analysis did not result in a material adjustment to the personal injury reserve in the quarter ended June 30, 2021 or June 30, 2020. The methodology used by the actuary includes a development factor to reflect growth or reduction in the value of these personal injury claims based largely on CSXT's historical claims and settlement experience.

NOTE 4. Casualty, Environmental and Other Reserves, continued

Occupational

Occupational reserves represent liabilities arising from allegations of exposure to certain materials in the workplace (such as solvents, soaps, chemicals and diesel fumes), past exposure to asbestos or allegations of chronic physical injuries resulting from work conditions (such as repetitive stress injuries). Beginning in second quarter 2020, the Company retains an independent actuary to analyze the Company's historical claim filings, settlement amounts, and dismissal rates to assist in determining future anticipated claim filing rates and average settlement values. This analysis is performed by the actuary and reviewed by management quarterly. Previously, the quarterly analysis was performed by management. There were no material adjustments to the occupational reserve in the quarter ended June 30, 2021 or June 30, 2020.

Environmental

Environmental reserves were \$77 million and \$76 million as of June 30, 2021 and December 31, 2020, respectively. The Company is a party to various proceedings related to environmental issues, including administrative and judicial proceedings involving private parties and regulatory agencies. The Company has been identified as a potentially responsible party at approximately 210 environmentally impaired sites. Many of these are, or may be, subject to remedial action under the federal Comprehensive Environmental Response, Compensation and Liability Act of 1980 ("CERCLA"), also known as the Superfund Law, or similar state statutes. Most of these proceedings arose from environmental conditions on properties used for ongoing or discontinued railroad operations. A number of these proceedings, however, are based on allegations that the Company, or its predecessors, sent hazardous substances to facilities owned or operated by others for treatment, recycling or disposal. In addition, some of the Company's land holdings were leased to others for commercial or industrial uses that may have resulted in releases of hazardous substances or other regulated materials onto the property and could give rise to proceedings against the Company.

In any such proceedings, the Company is subject to environmental clean-up and enforcement actions under the Superfund Law, as well as similar state laws that may impose joint and several liability for clean-up and enforcement costs on current and former owners and operators of a site without regard to fault or the legality of the original conduct. These costs could be substantial.

In accordance with the Asset Retirement and Environmental Obligations Topic in the ASC, the Company reviews its role with respect to each site identified at least quarterly, giving consideration to a number of factors such as:

- · type of clean-up required;
- nature of the Company's alleged connection to the location (e.g., generator of waste sent to the site or owner or operator of the site);
- extent of the Company's alleged connection (e.g., volume of waste sent to the location and other relevant factors); and
- number, connection and financial viability of other named and unnamed potentially responsible parties at the location.

NOTE 4. Casualty, Environmental and Other Reserves, continued

Based on management's review process, amounts have been recorded to cover contingent anticipated future environmental remediation costs with respect to each site to the extent such costs are reasonably estimable and probable. The recorded liabilities for estimated future environmental costs are undiscounted. The liability includes future costs for remediation and restoration of sites as well as any significant ongoing monitoring costs, but excludes any anticipated insurance recoveries. Payments related to these liabilities are expected to be made over the next several years. Environmental remediation costs are included in materials, supplies and other on the consolidated income statements.

Currently, the Company does not possess sufficient information to reasonably estimate the amounts of additional liabilities, if any, on some sites until completion of future environmental studies. In addition, conditions that are currently unknown could, at any given location, result in additional exposure, the amount and materiality of which cannot presently be reasonably estimated. Based upon information currently available, however, the Company believes its environmental reserves accurately reflect the estimated cost of remedial actions currently required.

Other

Other reserves were \$44 million and \$42 million as of June 30, 2021 and December 31, 2020, respectively. These reserves include liabilities for various claims, such as property, automobile and general liability. Also included in other reserves are longshoremen disability claims related to a previously owned international shipping business (these claims are in runoff) as well as claims for current port employees.

NOTE 5. Commitments and Contingencies

Insurance

The Company maintains insurance programs with substantial limits for property damage, including resulting business interruption, and third-party liability. A certain amount of risk is retained by the Company on each insurance program. Under its property insurance program, the Company retains all risk up to \$100 million per occurrence for losses from floods and named windstorms and \$75 million per occurrence for other property losses. For third-party liability claims, the Company retains all risk up to \$100 million per occurrence. As CSX negotiates insurance coverage above its full self-retention amounts, it retains a percentage of risk at various layers of coverage. While the Company believes its insurance coverage is adequate, future claims could exceed existing insurance coverage or insurance may not continue to be available at commercially reasonable rates.

NOTE 5. Commitments and Contingencies, continued

Legal

The Company is involved in litigation incidental to its business and is a party to a number of legal actions and claims, various governmental proceedings and private civil lawsuits, including, but not limited to, those related to fuel surcharge practices, tax matters, environmental and hazardous material exposure matters, FELA and labor claims by current or former employees, other personal injury or property claims and disputes and complaints involving certain transportation rates and charges. Some of the legal proceedings include claims for compensatory as well as punitive damages and others are, or are purported to be, class actions. While the final outcome of these matters cannot be predicted with certainty, considering, among other things, the legal defenses available and liabilities that have been recorded along with applicable insurance, it is currently the opinion of management that none of these pending items is likely to have a material adverse effect on the Company's financial condition, results of operations or liquidity. An unexpected adverse resolution of one or more of these items, however, could have a material adverse effect on the Company's financial condition, results of operations or liquidity in that particular period.

The Company is able to estimate a range of possible loss for certain legal proceedings for which a loss is reasonably possible in excess of reserves established. The Company has estimated this range to be \$2 million to \$23 million in aggregate at June 30, 2021. This estimated aggregate range is based upon currently available information and is subject to significant judgment and a variety of assumptions. Accordingly, the Company's estimate will change from time to time, and actual losses may vary significantly from the current estimate.

Fuel Surcharge Antitrust Litigation

In May 2007, class action lawsuits were filed against CSXT and three other U.S.-based Class I railroads alleging that the defendants' fuel surcharge practices relating to contract and unregulated traffic resulted from an illegal conspiracy in violation of antitrust laws. The class action lawsuits were consolidated into one case in federal court in the District of Columbia. In 2017, the District Court issued its decision denying class certification. On August 16, 2019, the U.S. Court of Appeals for the D.C. Circuit affirmed the District Court's ruling.

The consolidated case is now moving forward without class certification. Although a class was not certified, shippers other than those who brought the original lawsuit in 2007 must decide whether to bring their own individual claim against one or more railroads. Individual shipper claims filed to date have been consolidated into a separate case.

CSXT believes that its fuel surcharge practices were arrived at and applied lawfully and that the case is without merit. Accordingly, the Company intends to defend itself vigorously. However, penalties for violating antitrust laws can be severe, and resolution of these matters individually or when aggregated could have a material adverse effect on the Company's financial condition, results of operations or liquidity in that particular period.

NOTE 5. Commitments and Contingencies, continued

Environmental

CSXT is indemnifying Pharmacia LLC, formerly known as Monsanto Company, ("Pharmacia") for certain liabilities associated with real estate located in Kearny, New Jersey along the Lower Passaic River (the "Property"). The Property, which was formerly owned by Pharmacia, is now owned by CSXT. CSXT's indemnification and defense duties arise with respect to several matters. The U.S. Environmental Protection Agency ("EPA"), using its CERCLA authority, seeks the investigation and cleanup of hazardous substances in the 17-mile Lower Passaic River Study Area (the "Study Area"). CSXT, on behalf of Pharmacia, and a significant number of other potentially responsible parties are together conducting a Remedial Investigation and Feasibility Study of the Study Area pursuant to an Administrative Settlement Agreement and Order on Consent with the EPA. Pharmacia's share of responsibility, indemnified by CSXT, for the investigation and cleanup costs of the Study Area may be determined through various mechanisms including (a) an allocation and settlement with EPA; (b) litigation brought by EPA against non-settling parties; or (c) litigation among the responsible parties.

In March 2016, EPA issued its Record of Decision detailing the agency's mandated remedial process for the lower 8 miles of the Study Area. Approximately 80 parties, including Pharmacia, are participating in an EPA-directed allocation and settlement process to assign responsibility for the remedy selected for the lower 8 miles of the Study Area. CSXT is participating in the EPA-directed allocation and settlement process on behalf of Pharmacia. At a later date, EPA will select a remedy for the remainder of the Study Area and is expected to again seek the participation of private parties to implement the selected remedy using EPA's CERCLA authority to compel such participation, if necessary.

CSXT is also defending and indemnifying Pharmacia with regard to the Property in litigation filed by Occidental Chemical Corporation ("Occidental"), which is seeking to recover various costs. These costs include costs for the remedial design of the lower 8 miles of the Study Area, as well as anticipated costs associated with the future remediation of the lower 8 miles of the Study Area and potentially the entire Study Area. Alternatively, Occidental seeks to compel some, or all of the defendants to participate in the remediation of the Study Area. Pharmacia is one of approximately 110 defendants in this federal lawsuit filed by Occidental on June 30, 2018.

CSXT is also defending and indemnifying Pharmacia in a cooperative natural resource damages assessment process related to the Property. Based on currently available information, the Company does not believe any indemnification or remediation costs potentially allocable to CSXT with respect to the Property and the Study Area would be material to the Company's financial condition, results of operations or liquidity.

NOTE 6. Employee Benefit Plans

The Company sponsors defined benefit pension plans principally for salaried, management personnel. Beginning in 2020, the CSX Pension Plan was closed to new participants.

CSX also sponsors a post-retirement medical plan and a life insurance plan that provide certain benefits to eligible employees hired prior to January 1, 2003. Beginning in 2019, both the life insurance benefit and health savings account contributions made by the Company to eligible retirees younger than 65 were eliminated for those retiring on or after January 1, 2019. Beginning in 2020, the employer-funded health reimbursement arrangements and life insurance benefit for eligible retirees 65 years or older were eliminated. Independent actuaries compute the amounts of liabilities and expenses relating to these plans subject to the assumptions that the Company determines are appropriate based on historical trends, current market rates and future projections. These amounts are reviewed by management.

Only the service cost component of net periodic benefit costs is included in labor and fringe expense on the consolidated income statement. All other components of net periodic benefit cost are included in other income - net.

Second Quarters

Pension Benefits Cost

Qualified pension plan obligations are funded in accordance with regulatory requirements and with an objective of meeting or exceeding minimum funding requirements necessary to avoid restrictions on flexibility of plan operation and benefit payments. No contributions to the Company's qualified pension plans are expected in 2021.

NOTE 7. Debt and Credit Agreements

Total activity related to long-term debt as of the end of second quarter 2021 is shown in the table below. For fair value information related to the Company's long-term debt, see Note 10, Fair Value Measurements.

(Dollars in millions)	Current Portion Long-te		term Portion	Total	
Long-term Debt as of December 31, 2020	\$	401 \$	16,304 \$	16,705

Discount, Premium and Other Activity		_	6	6	
Long-term Debt as of June 30, 2021	\$	122 \$	16,229 \$	16,351	

Interest Rate Derivatives

On both April 29, 2020, and July 9, 2020, the Company executed a forward starting interest rate swap with a notional value of \$250 million for an aggregate notional value of \$500 million. These swaps were effected to hedge the benchmark interest rate associated with future interest payments related to the anticipated refinancing of \$850 million of 3.25% notes due in 2027. In accordance with the *Derivatives and Hedging Topic* in the ASC, the Company has designated these swaps as cash flow hedges. As of June 30, 2021, the asset value of the forward starting interest rate swaps was \$108 million and was recorded in other long-term assets on the consolidated balance sheet.

Unrealized gains or losses associated with changes in the fair value of the hedge are recorded net of tax in accumulated other comprehensive income ("AOCI") on the consolidated balance sheet. Unless settled early, the swaps will expire in 2027 and the unrealized gain or loss in AOCI will be recognized in earnings as an adjustment to interest expense over the same period during which the hedged transaction affects earnings. Unrealized amounts, recorded net of tax in other comprehensive income, related to the hedge were a loss of \$35 million and gain of \$9 million for second quarters ended 2021 and 2020 and gains of \$21 million and \$9 million for the six months 2021 and 2020, respectively.

Credit Facility

CSX has a \$1.2 billion unsecured, revolving credit facility backed by a diverse syndicate of banks. This facility allows same-day borrowings at floating interest rates, based on LIBOR or an agreed-upon replacement reference rate, plus a spread that depends upon CSX's senior unsecured debt ratings. This facility expires in March 2024, and at June 30, 2021, the Company had no outstanding balances under this facility.

Commitment fees and interest rates payable under the facility were similar to fees and rates available to comparably rated investment-grade borrowers. As of second quarter 2021, CSX was in compliance with all covenant requirements under this facility.

Commercial Paper

Under its commercial paper program, which is backed by the revolving credit facility, the Company may issue unsecured commercial paper notes up to a maximum aggregate principal amount of \$1.0 billion outstanding at any one time. Proceeds from issuances of the notes are expected to be used for general corporate purposes. At June 30, 2021, the Company had no outstanding debt under the commercial paper program.

NOTE 8. Revenues

The Company's revenues are primarily derived from the transportation of freight as performance obligations that arise from its contracts with customers are satisfied. The following table presents the Company's revenues disaggregated by market as this best depicts how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors:

	Second Quarters				Six Months			
(Dollars in millions)		2021		2020		2021		2020

Total	\$	2,990	\$	2,255	\$	5,803	\$	

⁽a) Effective first quarter 2021, changes were made in the categorization of certain lines of business, impacting Forest Products and Fertilizers. The impacts were not material and prior periods have been reclassified to conform to the current presentation.

Revenue Recognition

The Company generates revenue from freight billings under contracts with customers generally on a rate per carload, container or ton-basis based on length of haul and commodities carried. The Company's performance obligation arises when it receives a bill of lading ("BOL") to transport a customer's commodities at a negotiated price contained in a transportation services agreement or a publicly disclosed tariff rate. Once a BOL is received, a contract is formed whereby the parties are committed to perform, collectability of consideration is probable and the rights of the parties, shipping terms and conditions, and payment terms are identified. A customer may submit several BOLs for transportation services at various times throughout a service agreement term but each shipment represents a distinct service that is a separately identified performance obligation.

NOTE 8. Revenues, continued

The average transit time to complete a shipment is between 2 to 8 days depending on market. Payments for transportation services are normally billed once a BOL is received and are generally due within 15 days after the invoice date. The Company recognizes revenue over transit time of freight as it moves from origin to destination. Revenue for services started but not completed at the reporting date is allocated based on the relative transit time in each reporting period, with the portion allocated for services subsequent to the reporting date considered remaining performance obligations.

The certain key estimates included in the recognition and measurement of revenue and related accounts receivable are as follows:

- Revenue associated with shipments in transit is recognized ratably over transit time and is based on average cycle times to move commodities and products from their origin to their final destination or interchange;
- · Adjustments to revenue for billing corrections and billing discounts;
- Adjustments to revenue for overcharge claims filed by customers, which are based on historical payments to customers for rate overcharges as a
 percentage of total billing; and
- Incentive-based refunds to customers, which are primarily volume-related, are recorded as a reduction to revenue on the basis of the projected liability (this estimate is based on historical activity, current volume levels and forecasted future volume).

Revenue related to interline transportation services that involve the services of another party, such as another railroad, is reported on a net basis. The portion of the gross amount billed to customers that is remitted by the Company to another party is not reflected as revenue.

Other revenue is comprised of revenue from regional subsidiary railroads and incidental charges, including demurrage and switching. It is recorded upon completion of the service and accounts for an immaterial percentage of the Company's total revenue. Revenue from regional subsidiary railroads includes shipments by railroads that the Company does not directly operate. Demurrage represents charges assessed when freight cars are held by a customer beyond a specified period of time. Switching represents charges assessed when a railroad switches cars for a customer or another railroad.

During the second quarters and six months ended 2021 and 2020, revenue recognized from performance obligations related to prior periods (for example, due to changes in transaction price) was not material.

Remaining Performance Obligations

Remaining performance obligations represent the transaction price allocated to future reporting periods for freight services started but not completed at the reporting date. This includes the unearned portion of billed and unbilled amounts for cancellable freight shipments in transit. The Company expects to recognize the unearned portion of revenue for freight services in transit within one week of the reporting date. As of June 30, 2021, remaining performance obligations were not material.

NOTE 8. Revenues, continued

Contract Balances and Accounts Receivable

The timing of revenue recognition, billings and cash collections results in accounts receivable and customer advances and deposits (contract liabilities) on the consolidated balance sheets. Contract assets, contract liabilities and deferred contract costs recorded on the consolidated balance sheet as of June 30, 2021, were not material.

The Company's accounts receivable - net consists of freight and non-freight receivables, reduced by an allowance for credit losses.

(Dollars in millions)	 June 30, 2021	December 31, 2020
Freight Receivables	\$ 821 \$	716
Freight Allowance for Credit Losses	 (14)	(16)
Freight Receivables, net	807	700
Non-Freight Receivables	397	224
Non-Freight Allowance for Credit Losses	 (12)	(12)
Non-Freight Receivables, net	 385	212
Total Accounts Receivable, net	\$ 1,192 \$	912

Freight receivables include amounts earned, billed and unbilled, and currently due from customers for transportation-related services. Non-freight receivables include amounts billed and unbilled and currently due related to government reimbursement receivables and other non-revenue receivables. At June 30, 2021, non-freight receivables include a \$168 million receivable related to the conveyance of an easement to the Commonwealth of Virginia. See Note 1, Nature of Operations and Significant Accounting Policies, for more details about this transaction. The Company maintains an allowance for credit losses to provide for the estimated amount of receivables that will not be collected. The allowance is based upon an assessment of risk characteristics, historical payment experience, and the age of outstanding receivables adjusted for forward-looking economic conditions as necessary. Credit losses recognized on the Company's accounts receivable were not material in the second quarters or six months ended 2021 and 2020.

NOTE 9. Income Taxes

There have been no material changes to the balance of unrecognized tax benefits reported at December 31, 2020.

NOTE 10. Fair Value Measurements

The Financial Instruments Topic in the ASC requires disclosures about fair value of financial instruments in annual reports as well as in quarterly reports. For CSX, this statement applies to certain investments, long-term debt and interest rate derivatives. Disclosure of the fair value of pension plan assets is only required annually. Also, this rule clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

Various inputs are considered when determining the value of the Company's investments, pension plan assets, long-term debt and interest rate derivatives. The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in these securities. These inputs are summarized in the three broad levels listed below.

- Level 1 observable market inputs that are unadjusted quoted prices for identical assets or liabilities in active markets;
- · Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, credit risk, etc.); and
- Level 3 significant unobservable inputs (including the Company's own assumptions about the assumptions market participants would use in determining the fair value of investments).

The valuation methods described below may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments

The Company's investment assets, valued with assistance from a third-party trustee, consist of certificates of deposits, commercial paper, corporate bonds and government securities and are carried at fair value on the consolidated balance sheet per the *Fair Value Measurements and Disclosures Topic* in the ASC. There are several valuation methodologies used for those assets as described below.

- · Commercial Paper and Certificates of Deposit (Level 2): Valued at amortized cost, which approximates fair value; and
- · Corporate Bonds and Government Securities (Level 2): Valued using broker quotes that utilize observable market inputs.

The Company's investment assets are carried at fair value on the consolidated balance sheets as summarized in the following table. All of the inputs used to determine the fair value of the Company's investments are Level 2 inputs.

luna 20

Docombor 21

(Dollars in Millions)	2021		2020
Corporate Bonds	\$	66 \$	68
Government Securities		30	33
Total investments at fair value	<u>\$</u>	96 \$	101
Total investments at amortized cost	\$	86 \$	89

NOTE 10. Fair Value Measurements, continued

These investments have the following maturities:

(Dollars in millions)	 2021	2020
Less than 1 year	\$ 4	\$ 2
1 - 5 years	23	22
5 - 10 years	17	23
Greater than 10 years	 52	54
Total investments at fair value	\$ 96	\$ 101

Docombor 21

Long-term Debt

Long-term debt is reported at carrying amount on the consolidated balance sheets and is the Company's only financial instrument with fair values significantly different from their carrying amounts. The majority of the Company's long-term debt is valued with assistance from a third party that utilizes closing transactions, market quotes or market values of comparable debt. For those instruments not valued by the third party, the fair value has been estimated by applying market rates of similar instruments to the scheduled contractual debt payments and maturities. These market rates are provided by the same third party. All of the inputs used to determine the fair value of the Company's long-term debt are Level 2 inputs.

The fair value of outstanding debt fluctuates with changes in a number of factors. Such factors include, but are not limited to, interest rates, market conditions, credit ratings, values of similar financial instruments, size of the transaction, cash flow projections and comparable trades. Fair value will exceed carrying value when the current market interest rate is lower than the interest rate at which the debt was originally issued. The fair value of a company's debt is a measure of its current value under present market conditions. It does not impact the financial statements under current accounting rules. The fair value and carrying value of the Company's long-term debt is as follows:

(Dollars in millions)	June 20	e 30, 121	December 31, 2020		
Long-term Debt (Including Current Maturities):					
Fair Value	\$	19,619 \$	21,076		
Carrying Value		16,351	16,705		

Interest Rate Derivatives

The Company's forward starting interest rate swaps are carried at fair value and valued with assistance from a third party based upon pricing models using inputs observed from actively quoted markets. All of the inputs used to determine the fair value of the swaps are Level 2 inputs. The fair value of the Company's forward starting interest rate swap asset was \$108 million at June 30, 2021. See Note 7, Debt and Credit Agreements, for further information.

NOTE 11. Other Comprehensive Income (Loss)

CSX reports comprehensive earnings or loss in accordance with the *Comprehensive Income Topic* in the ASC in the Consolidated Comprehensive Income Statement. Total comprehensive earnings are defined as all changes in shareholders' equity during a period, other than those resulting from investments by and distributions to shareholders (e.g. issuance of equity securities and dividends). Generally, for CSX, total comprehensive earnings equal net earnings plus or minus adjustments for pension and other post-retirement liabilities as well as other adjustments. Total comprehensive earnings represent the activity for a period net of tax and were \$1.2 billion and \$519 million for second quarters 2021 and 2020 and \$1.9 billion and \$1.3 billion for the six months 2021 and 2020, respectively.

While total comprehensive earnings is the activity in a period and is largely driven by net earnings in that period, accumulated other comprehensive income or loss ("AOCI") represents the cumulative balance of other comprehensive income, net of tax, as of the balance sheet date. For CSX, AOCI is primarily the cumulative balance related to pension and other post-retirement benefit adjustments, interest rate derivatives and CSX's share of AOCI of equity method investees.

Changes in the AOCI balance by component are shown in the following table. Amounts reclassified in pension and other post-employment benefits to net earnings relate to the amortization of actuarial losses and are included in other income - net on the consolidated income statements. See Note 6, Employee Benefit Plans, for further information. Interest rate derivatives consist of forward starting interest rate swaps classified as cash flow hedges. See Note 7, Debt and Credit Agreements, for further information. Other primarily represents CSX's share of AOCI of equity method investees. Amounts reclassified in other to net earnings are included in materials, supplies and other or equipment and other rents on the consolidated income statements.

CSX CORPORATION ANALYSIS OF FINANCIAL CONDITION AND DESLUTE OF ODERATIONS

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

SECOND QUARTER 2021 HIGHLIGHTS

- · Revenue increased \$735 million, or 33% year over year.
- Expenses decreased \$128 million, or 9% year over year.
- Operating income of \$1.7 billion increased \$863 million, or 104%, year over year.
- Operating ratio of 43.4% improved 1,990 basis points versus last year's quarter.
- Earnings per diluted share of \$0.52 increased \$0.30, or 136% year over year.

	Second Quarters						Six Months						
		2021 ^(a)		2020		Fav / (Unfav)	% Change		2021 ^(a)	2020	Fav / (Unfav)	% Change	
Volume (in thousands)		1,591		1,257		334	27%		3,120	2,771	349	13%	
(in millions)													
Revenue	\$	2,990	\$	2,255	\$	735	33	\$	5,803 \$	5,110 \$	693	14	
Expense		1,299		1,427		128	9		3,011	3,104	93	3	
Operating Income	\$	1,691	\$	828	\$	863	104%	\$	2,792 \$	2,006 \$	786	39%	
Operating Ratio		43.4	%	63.3	%	1,990	bps		51.9 %	60.7 %	880	bps	
Earnings Per Diluted Share	\$	0.52	\$	0.22	\$	0.30	136%	\$	0.82 \$	0.55 \$	0.27	49%	

(a) Operating results for second quarter and six months 2021 include the impact of a \$349 million gain related to the conveyance of a permanent land easement to the Commonwealth of Virginia.

Demand for rail services has improved from steep declines in the first half of 2020, but the effects of the disruption of global manufacturing, supply chains and consumer spending as a result of the COVID-19 global pandemic are ongoing. Future impacts of the pandemic on the Company's financial and operating results will be determined by its duration, effects on the demand for the Company's transportation services and the supply chain, as well as the effect of governmental regulations imposed and legislative stimulus packages passed in response to the pandemic. The duration of the pandemic is dependent on several factors, including the impacts of virus mutations and case resurgences across the country.

CSX employees that provide efficient and reliable rail service are essential to keeping supply chains fluid in response to this challenge. Accordingly, business operations have been modified to ensure the safety of employees across the network while continuing to provide a high level of service to customers. A cross-functional task force continues to monitor and coordinate the Company's response to COVID-19.

⁽a) Effective first quarter 2021, changes were made in the categorization of certain lines of business, impacting Forest Products and Fertilizers. The impacts were not material and prior periods have been reclassified to conform to the current presentation.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Second Quarter 2021

Revenue

Total revenue increased 33% in second quarter 2021 when compared to second quarter 2020 due to volume growth, higher fuel recovery, increases in other revenue and pricing gains. Volumes in second quarter 2020 were significantly impacted by the effects of the COVID-19 pandemic.

Merchandise Volume

Chemicals - Increased due to higher shipments of plastics, waste and other core chemicals, partially offset by lower shipments of crude oil.

Agricultural and Food Products - Increased as a result of higher shipments of ethanol, food and consumer products, domestic grain, and feed ingredients.

Minerals - Increased primarily as a result of higher shipments of cement, lime and limestone.

<u>Automotive</u> - Increased due to higher North American vehicle production, which was unfavorably impacted in second quarter 2020 by temporary plant closures resulting from COVID-19.

Forest Products - Increased primarily due to higher shipments of building products and pulpboard.

Metals and Equipment - Increased due to higher shipments across the metals markets, partially offset by reduced equipment shipments.

Fertilizers - Increased due to higher long-haul fertilizer shipments, partially offset by lower short-haul phosphate shipments.

Intermodal Volume

Increases in both domestic and international shipments resulted from tight truck capacity, inventory replenishments and growth in rail volumes from east coast ports.

Coal Volume

The increase in export coal was driven by higher international shipments of both thermal coal and metallurgical coal. Domestic coal increased due to higher shipments of utility coal as well as higher steel and industrial shipments.

Other Revenue

Other revenue increased \$52 million versus prior year due to increases in revenue for intermodal storage and equipment usage as well as higher affiliate revenue.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Expenses

Expenses of \$1.3 billion decreased \$128 million, or 9%, in second quarter 2021 when compared to second quarter 2020.

Labor and Fringe expense increased \$89 million due to the following:

- Higher volume and inflation resulted in \$75 million of increased expenses.
- Total incentive compensation increased \$60 million primarily due to higher expected annual incentive award payouts in the current year compared with downward adjustments in the prior year.
- Efficiency savings of \$22 million were primarily driven by operating support, terminal, and train crew productivity.
- Other expenses decreased \$24 million primarily due to \$10 million of severance expense in the prior year as well as other non-significant items.

Materials, Supplies and Other expense increased \$23 million due to the following:

- Higher volume and inflation resulted in \$54 million of increased expenses.
- · Efficiency savings of \$17 million resulted from asset maintenance and terminal cost productivity.
- · Other savings of \$14 million were primarily due to \$9 million in COVID-19 supplies expense in the prior year.

<u>Depreciation</u> expense increased \$4 million primarily due to a larger asset base.

<u>Fuel</u> expense increased \$103 million primarily resulting from a 93% increase in fuel prices and higher volumes, partially offset by an \$18 million benefit related to a state fuel tax matter.

Equipment and Other Rents expense increased \$9 million as higher volumes resulted in increased car hire costs, which were partially offset by higher net earnings at TTX.

Gains on Property Dispositions increased \$356 million primarily due to a \$349 million gain recognized related to the conveyance of a land easement to the Commonwealth of Virginia.

Interest Expense

Interest expense decreased \$10 million primarily due to lower average interest rates and lower average debt balances.

Other Income - Net

Other income - net increased \$5 million primarily due to an increase in net pension benefit credits.

Income Tax Expense

Income tax expense increased \$204 million primarily due to higher earnings before income taxes, partially offset by the favorable impacts of a state legislative change.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Six Months Results of Operations

Revenue increased \$693 million due to volume growth, increases in other revenue driven by intermodal storage and equipment usage, higher fuel recovery and pricing gains in merchandise and intermodal.

<u>Total expense</u> decreased \$93 million primarily driven by higher gains on property dispositions as well as labor and materials efficiencies. These favorable impacts were partially offset by higher volume-related costs, rising fuel prices, increased incentive compensation and inflation.

Interest expense decreased \$13 million primarily as a result of lower average interest rates.

Other income - net increased \$3 million primarily due to an increase in net pension benefit credits, partially offset by lower interest income.

<u>Income tax expense</u> increased \$192 million primarily due to higher earnings before income taxes, partially offset by the net favorable impacts of state legislative changes.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Non-GAAP Measures - Unaudited

CSX reports its financial results in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). CSX also uses certain non-GAAP measures that fall within the meaning of Securities and Exchange Commission Regulation G and Regulation S-K Item 10(e), which may provide users of the financial information with additional meaningful comparison to prior reported results. Non-GAAP measures do not have standardized definitions and are not defined by U.S. GAAP. Therefore, CSX's non-GAAP measures are unlikely to be comparable to similar measures presented by other companies. The presentation of these non-GAAP measures should not be considered in isolation from, as a substitute for, or as superior to the financial information presented in accordance with GAAP. Reconciliations of non-GAAP measures to corresponding GAAP measures are below.

Free Cash Flow

Management believes that free cash flow is supplemental information useful to investors as it is important in evaluating the Company's financial performance. More specifically, free cash flow measures cash generated by the business after reinvestment. This measure represents cash available for both equity and bond investors to be used for dividends, share repurchases or principal reduction on outstanding debt. Free cash flow is calculated by using net cash from operations and adjusting for property additions and certain other investing activities, which includes proceeds from property dispositions. Free cash flow should be considered in addition to, rather than a substitute for, cash provided by operating activities. The increase in free cash flow before dividends from the prior year of \$485 million is primarily due to higher cash from operating activities and increased proceeds from property dispositions. For the six months 2021, other investing activities include \$200 million related to the conveyance of a permanent land easement to the Commonwealth of Virginia.

The following table reconciles cash provided by operating activities (GAAP measure) to free cash flow, before dividends (non-GAAP measure).

		<u> </u>	
(Dollars in millions)	<u> </u>	2021	2020
Net cash provided by operating activities	\$	2,399 \$	2,184
Property Additions		(754)	(801)
Other Investing Activities		226	3
Free Cash Flow (before payment of dividends)	\$	1,871 \$	1,386

Six Months

Operating Statistics (Estimated)

The Company is committed to continuous improvement in safety and service performance through training, innovation and investment. Training and safety programs are designed to prevent incidents that can adversely impact employees, customers and communities. Technological innovations that can detect and avoid many types of human factor incidents are designed to serve as an additional layer of protection for the Company's employees. Continued capital investment in the Company's assets, including track, bridges, signals, equipment and detection technology also supports safety performance.

In second quarter 2021, velocity decreased by 16% and dwell increased by 18% versus prior year results. CSX expects network fluidity to improve throughout the year commensurate with ongoing hiring efforts.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The FRA train accident rate of 1.98 in second quarter 2021 improved 34% year over year. The personal injury frequency index of 1.00 improved 13% versus the prior year. Safety remains a top priority at CSX, and the Company is committed to reducing risk and enhancing the overall safety of its employees, customers and communities in which the Company operates.

⁽a) The methodologies for calculating train velocity, dwell and cars online differ from those prescribed by the STB as the Company believes these numbers more accurately reflect railroad performance. CSXT will continue to report these metrics, using the prescribed methodology, to the STB on a weekly basis. See additional discussion on the Company's website.

Certain operating statistics are estimated and can continue to be updated as actuals settle

Key Performance Measures Definitions

Train Velocity - Average train speed between origin and destination in miles per hour (does not include locals, yard jobs, work trains or passenger trains). Train velocity measures the profiled schedule of trains (from departure to arrival and all interim time), and train profiles are periodically updated to align with a changing operation.

<u>Dwell</u> - Average amount of time in hours between car arrival to and departure from the yard.

Cars Online - Average number of active freight rail cars on lines operated by CSX, excluding rail cars that are being repaired, in storage, those that have been sold, or private cars dwelling at a customer location more than one day. On-Time Originations - Percent of scheduled road trains that depart the origin yard on-time or ahead of schedule.

On-Time Arrivals - Percent of scheduled road trains that arrive at the destination yard on-time to within two hours of scheduled arrival. Carload Trip Plan Performance - Percent of measured cars destined for a customer that arrive at or ahead of the original estimated time of arrival, notification or interchange (as applicable).

Intermodal Trip Plan Performance - Percent of measured containers destined for a customer that arrive at or ahead of the original estimated time of arrival, notification or interchange (as applicable).

Fuel Efficiency - Gallons of locomotive fuel per 1,000 gross ton-miles.

Revenue Ton-Miles (RTM's) - The movement of one revenue-producing ton of freight over a distance of one mile.

Gross Ton-Miles (GTM's) - The movement of one ton of train weight over one mile. GTM's are calculated by multiplying total train weight by distance the train moved. Total train weight is comprised of the weight of the freight cars and their contents.

FRA Personal Injury Frequency Index - Number of FRA-reportable injuries per 200,000 man-hours. FRA Train Accident Rate - Number of FRA-reportable train accidents per million train-miles.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

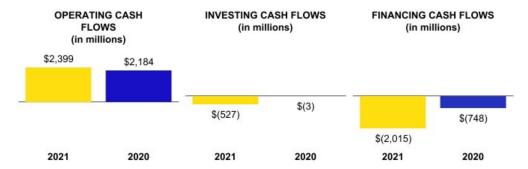

LIQUIDITY AND CAPITAL RESOURCES

The following are material changes in the significant cash flows, sources of cash and liquidity, capital investments, consolidated balance sheets and working capital, which provide an update to the discussion included in CSX's most recent annual report on Form 10-K.

Material Changes in Significant Cash Flows

Significant Cash Flows

The following chart highlights the operating, investing and financing components of the net decrease of \$143 million and net increase of \$1.4 billion in cash and cash equivalents for six months ended 2021 and 2020, respectively.

- Cash provided by operating activities increased \$215 million primarily driven by higher cash-generating income, partially offset by lower net favorable working capital activities.
- Cash used in investing activities increased \$524 million primarily as a result of decreased net sales of short-term investments, partially offset by higher proceeds from property dispositions. For the six months ended 2021, proceeds from property dispositions include \$200 million in proceeds related to the conveyance of a permanent land easement to the Commonwealth of Virginia.
- Cash used in financing activities increased \$1.3 billion driven by higher share repurchases, lower proceeds from debt issuances and higher long-term debt repayments.

Sources of Cash and Liquidity and Uses of Cash

As of the end of second quarter 2021, CSX had nearly \$3.0 billion of cash, cash equivalents and short-term investments. CSX uses current cash balances for general corporate purposes, which may include capital expenditures, working capital requirements, reduction or refinancing of outstanding indebtedness, contributions to the Company's qualified pension plan, redemptions and repurchases of CSX common stock and dividends to shareholders. See Note 7, Debt and Credit Agreements.

The Company has multiple sources of liquidity, including cash generated from operations and financing sources. The Company filed a shelf registration statement with the SEC on February 12, 2019, which is unlimited as to amount and may be used to issue debt or equity securities at CSX's discretion, subject to market conditions and CSX Board authorization. While CSX seeks to give itself flexibility with respect to cash requirements, there can be no assurance that market conditions would permit CSX to sell such securities on acceptable terms at any given time, or at all. During the six months ended 2021, CSX did not issue any new long-term debt.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

CSX has a \$1.2 billion unsecured, revolving credit facility backed by a diverse syndicate of banks that expires in March 2024. At June 30, 2021, the Company had no outstanding balances under this facility. The Company also has a commercial paper program, backed by the revolving credit facility, under which the Company may issue unsecured commercial paper notes up to a maximum aggregate principal amount of \$1.0 billion outstanding at any one time. At June 30, 2021, the Company had no outstanding debt under the commercial paper program.

Planned capital investments for 2021 are expected to be between \$1.7 billion and \$1.8 billion. Of the total 2021 investment, the majority will be used to sustain the core infrastructure and the remaining amounts will be allocated to projects supporting service enhancements, productivity initiatives and profitable growth. CSX intends to fund capital investments through cash generated from operations.

Material Changes in the Consolidated Balance Sheets and Working Capital

Consolidated Balance Sheets

Total assets increased \$222 million from year end primarily due to an increase in accounts receivable of \$280 million driven by a \$168 million receivable related to the conveyance of an easement to the Commonwealth of Virginia and increased trade accounts receivable commensurate with higher revenue. This increase was offset by a \$143 million decrease in cash described above.

Total liabilities decreased \$102 million from year end primarily due to debt repayments of \$360 million, partially offset by an increase in income and other taxes payable of \$169 million primarily driven by the timing of estimated income tax payments. Total shareholders' equity increased \$324 million from year end primarily driven by total comprehensive earnings of \$1.9 billion, mostly offset by share repurchases of \$1.3 billion and dividends paid of \$425 million.

Working capital is considered a measure of a company's ability to meet its short-term needs. CSX had a working capital surplus of \$2.6 billion as of June 30, 2021 and \$2.4 billion as of December 31, 2020, an increase of \$200 million since year end. The increase in current assets was primarily due to a \$280 million increase in accounts receivable driven by a \$168 million receivable related to the conveyance of an easement to the Commonwealth of Virginia, partially offset by the \$143 million net reduction of cash and cash equivalents described above. The decrease in current liabilities was primarily the result of a \$279 million decrease in current maturities of long-term debt, partially offset by a \$169 million increase in income and other taxes payable. The Company's working capital balance varies due to factors such as the timing of scheduled debt payments and changes in cash and cash equivalent balances as discussed above. The Company continues to maintain adequate liquidity to satisfy current liabilities and maturing obligations when they come due. CSX has sufficient financial capacity, including its revolving credit facility, commercial paper program and shelf registration statement to manage its day-to-day cash requirements and any anticipated obligations. The Company from time to time accesses the credit markets for additional liquidity.

CSX is committed to returning cash to shareholders and maintaining an investment-grade credit profile. Capital structure, capital investments and cash distributions, including dividends and share repurchases, are reviewed at least annually by the Board of Directors. Management's assessment of market conditions and other factors guides the timing and volume of repurchases. Future share repurchases are expected to be funded by cash on hand, cash generated from operations and debt issuances.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Completed and Pending Transactions

Proposed Acquisition of Pan Am Systems, Inc.

On November 30, 2020, CSX signed a definitive agreement to acquire Pan Am Systems, Inc. ("Pan Am") which is the parent company of Pan Am Railways, Inc. who jointly owns Pan Am Southern, LLC with a subsidiary of Norfolk Southern Corporation. Pan Am owns and operates a highly integrated, nearly 1,200-mile rail network and has a joint interest in the more than 600-mile Pan Am Southern system. This acquisition, if approved, will expand CSX's reach in Connecticut, New York and Massachusetts while adding Vermont, New Hampshire and Maine to its existing network. Assets and facilities to be acquired as part of the proposed transaction include road and track assets, work equipment, land, buildings and other assets. On February 25, 2021, the Company began the process, which can take up to a year or more, of seeking approval from the Surface Transportation Board ("STB"). This proposed acquisition is not expected to be material with respect to the Company's financial statements when reviewed under the quantitative and qualitative considerations of Regulation S-X Article 11 and ASC 805, Business Combinations.

Sale of Property Rights to the Commonwealth of Virginia

On March 26, 2021, the Company entered into a comprehensive agreement to sell certain property rights in three CSX-owned line segments to the Commonwealth of Virginia ("Commonwealth") over three phases for a total of \$525 million.

On April 14, 2021, in the first phase of the transaction, the Company closed on the conveyance of a permanent land easement for passenger rail operations, resulting in a \$349 million gain recognized in gains on property dispositions on the consolidated income statement. Upon closing of this phase, cash proceeds of \$200 million were received, with proceeds of \$168 million to be collected in fourth quarter 2021. Additional future proceeds and related gains attributable to this conveyance are subject to state funding.

The Company anticipates closing on the remaining conveyances over the next two years, which will result in future cash proceeds and gains. The timing of future gain recognition is dependent upon the timing of future conveyances as well as collectability. As of June 30, 2021, the carrying values of the remaining assets subject to this transaction were not material.

Acquisition of Quality Carriers, Inc.

On May 12, 2021, CSX entered into a definitive agreement to acquire Quality Carriers, Inc. (Quality Carriers"), the largest provider of bulk liquid chemicals truck transportation in North America, from Quality Distribution, Inc. Through a network of over 100 company-owned and affiliate terminals and facilities in key locations throughout the United States, Canada and Mexico, Quality Carriers provides transportation services to many of the leading chemical producers and shippers in North America. Assets and facilities acquired included tractors and trailers, equipment, land, buildings, and other assets. This transaction, which closed on July 1, 2021, is expected to create a unique multimodal chemicals transportation solution. The purchase price was \$546 million in cash, subject to certain customary purchase price adjustments. This acquisition is not material with respect to the Company's financial statements when reviewed under the quantitative and qualitative considerations of Regulation S-X Article 11 and ASC 805, Business Combinations.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Guaranteed Notes Issued By CSXT

In 2007, CSXT, a wholly-owned subsidiary of CSX Corporation, issued \$381 million of secured equipment notes maturing in 2023 in a registered public offering. CSX Corporation has fully and unconditionally guaranteed the notes. At CSXT's option, CSXT may redeem any or all of the notes, in whole or in part, at any time, at the redemption price including premium. In the case of loss or destruction of any item of equipment securing the notes, if CSXT does not substitute another item of equipment for the item suffering such loss or destruction, CSXT will be required to redeem the notes in part at par. The guarantee of the notes will rank equally in right of payment with all existing and future senior obligations of CSX Corporation and will be effectively subordinated to all future secured indebtedness of CSX Corporation to the extent of the assets securing such indebtedness. The guarantee is subject to release in limited circumstances only upon the occurrence of certain customary conditions. At June 30, 2021, the principal balance of these secured equipment notes was \$160 million.

In accordance with SEC rules, including amendments adopted in 2020, CSX is not required to present separate condensed consolidating financial information for wholly-owned subsidiaries who issued or guaranteed notes. Additionally, presentation of combined summary financial information regarding subsidiary issuers and guarantors is not required because the assets, liabilities and results of operations of the combined issuers and guarantors of the notes are not materially different from the corresponding amounts presented in the consolidated financial statements.

LABOR AGREEMENTS

Approximately 15,500 of the Company's approximately 19,000 employees are members of a labor union. For the 13 rail unions that participate in national bargaining, a round of negotiations for benefits, wages and work rules is underway. Typically, these negotiations take several years. Current agreements remain in place until modified by new agreements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires that management make estimates in reporting the amounts of certain assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and certain revenues and expenses during the reporting period. Actual results may differ from those estimates. These estimates and assumptions are discussed with the Audit Committee of the Board of Directors on a regular basis. Consistent with the prior year, significant estimates using management judgment are made for the areas below. For further discussion of CSX's critical accounting estimates, see the Company's most recent annual report on Form 10-K.

- · personal injury, environmental and legal reserves;
- · pension and post-retirement medical plan accounting; and
- · depreciation policies for assets under the group-life method.

FORWARD-LOOKING STATEMENTS

Certain statements in this report and in other materials filed with the Securities and Exchange Commission, as well as information included in oral statements or other written statements made by the Company, are forward-looking statements. The Company intends for all such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and the provisions of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements within the meaning of the Private Securities Litigation Reform Act may contain, among others, statements regarding:

- · projections and estimates of earnings, revenues, margins, volumes, rates, cost-savings, expenses, taxes or other financial items;
- · expectations as to results of operations and operational initiatives;
- expectations as to the effect of claims, lawsuits, environmental costs, commitments, contingent liabilities, labor negotiations or agreements on the Company's financial condition, results of operations or liquidity;
- management's plans, strategies and objectives for future operations, capital expenditures, workforce levels, dividends, share repurchases, safety and service performance, proposed new services and other matters that are not historical facts, and management's expectations as to future performance and operations and the time by which objectives will be achieved; and
- future economic, industry or market conditions or performance and their effect on the Company's financial condition, results of operations or liquidity.

Forward-looking statements are typically identified by words or phrases such as "will," "should," "believe," "expect," "anticipate," "project," "estimate," "preliminary" and similar expressions. The Company cautions against placing undue reliance on forward-looking statements, which reflect its good faith beliefs with respect to future events and are based on information currently available to it as of the date the forward-looking statement is made. Forward-looking statements should not be read as a guarantee of future performance or results and will not necessarily be accurate indications of the timing when, or by which, such performance or results will be achieved.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-looking statements are subject to a number of risks and uncertainties and actual performance or results could differ materially from those anticipated by any forward-looking statements. The Company undertakes no obligation to update or revise any forward-looking statement. If the Company does update any forward-looking statement, no inference should be drawn that the Company will make additional updates with respect to that statement or any other forward-looking statements. The following important factors, in addition to those discussed in Part I, Item 1A Risk Factors of CSX's most recent annual report on Form 10-K and elsewhere in this report, may cause actual results to differ materially from those contemplated by any forward-looking statements:

- legislative, regulatory or legal developments involving transportation, including rail or intermodal transportation, the environment, hazardous materials, taxation, international trade and initiatives to further regulate the rail industry;
- the outcome of litigation, claims and other contingent liabilities, including, but not limited to, those related to fuel surcharge, environmental matters, taxes, shipper and rate claims subject to adjudication, personal injuries and occupational illnesses;
- changes in domestic or international economic, political or business conditions, including those affecting the transportation industry (such as the impact of industry competition, conditions, performance and consolidation) and the level of demand for products carried by CSXT;
- natural events such as severe weather conditions, including floods, fire, hurricanes and earthquakes, a pandemic crisis, including the
 outbreak of COVID-19, affecting the health of the Company's employees, its shippers or the consumers of goods, or other unforeseen
 disruptions of the Company's operations, systems, property, equipment or supply chain;
- competition from other modes of freight transportation, such as trucking and competition and consolidation or financial distress within the transportation industry generally;
- the cost of compliance with laws and regulations that differ from expectations as well as costs, penalties and operational and liquidity impacts associated with noncompliance with applicable laws or regulations;
- the impact of increased passenger activities in capacity-constrained areas, including potential effects of high speed rail initiatives, or regulatory changes affecting when CSXT can transport freight or service routes:
- unanticipated conditions in the financial markets that may affect timely access to capital markets and the cost of capital, as well as management's decisions regarding share repurchases;
- changes in fuel prices, surcharges for fuel and the availability of fuel;
- the impact of natural gas prices on coal-fired electricity generation;
- the impact of global supply and price of seaborne coal on CSXT's export coal market;

CSX CORPORATION ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

- availability of insurance coverage at commercially reasonable rates or insufficient insurance coverage to cover claims or damages;
 the integrant business risks associated with safety and security including the transportation of bazardous materials or a subgreecurity and security.
- the inherent business risks associated with safety and security, including the transportation of hazardous materials or a cybersecurity attack which would threaten the availability and vulnerability of information technology;
- · adverse economic or operational effects from actual or threatened war or terrorist activities and any governmental response;
- loss of key personnel or the inability to hire and retain qualified employees;
- labor and benefit costs and labor difficulties, including stoppages affecting either the Company's operations or customers' ability to deliver goods to the Company for shipment;
- the Company's success in implementing its strategic, financial and operational initiatives;
- the impact of conditions in the real estate market on the Company's ability to sell assets;
- · changes in operating conditions and costs or commodity concentrations;
- the continued and uncertain impact of the COVID-19 pandemic; and
- the inherent uncertainty associated with projecting economic and business conditions.

Other important assumptions and factors that could cause actual results to differ materially from those in the forward-looking statements are specified elsewhere in this report and in CSX's other SEC reports, which are accessible on the SEC's website at www.sec.gov and the Company's website is not part of this quarterly report on Form 10-Q.

CSX CORPORATION ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in market risk from the information provided under Part II, Item 7A (Quantitative and Qualitative Disclosures about Market Risk) of CSX's most recent annual report on Form 10-K.

ITEM 4. CONTROLS AND PROCEDURES

As of June 30, 2021, under the supervision and with the participation of CSX's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), management has evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the CEO and CFO concluded that, as of June 30, 2021, the Company's disclosure controls and procedures were effective at the reasonable assurance level in timely alerting them to material information required to be included in CSX's periodic SEC reports. There were no changes in the Company's internal controls over financial reporting during the second quarter of 2021 that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

CSX CORPORATION PART II - OTHER INFORMATION

Item 1. Legal Proceedings

Item 103 of SEC Regulation S-K requires disclosure of certain environmental matters when a governmental authority is a party to the proceedings and such proceedings involve potential monetary sanctions that the Company reasonably believes will exceed a specified threshold. Pursuant to recent SEC amendments to this Item, the Company will be using a threshold of \$1 million for such proceedings. For further details, please refer to Note 5, Commitments and Contingencies of this quarterly report on Form 10-Q. Also refer to Part I, Item 3, Legal Proceedings in CSX's most recent annual report on Form 10-K.

Item 1A. Risk Factors

For information regarding factors that could affect the Company's results of operations, financial condition and liquidity, see the risk factors discussed under Part I, Item 1A (Risk Factors) of CSX's most recent annual report on Form 10-K. See also Part I, Item 2 (Forward-Looking Statements) of this quarterly report on Form 10-Q.

Item 2. CSX Purchases of Equity Securities

During June 2021, the \$5 billion share repurchase program announced in January 2019 was completed, and the Company began repurchasing shares under the \$5 billion share repurchase program announced in October 2020. Total repurchase authority remaining as of June 30, 2021, was \$4.6 billion. For more information about share repurchases, see Note 2, Earnings Per Share. Share repurchase activity for the second quarter 2021 was as follows:

CSX Purchases of Equity Securities

	for the Quarter			
Second Quarter	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
Beginning Balance				\$ 5,338,616,483
April 1 - April 30, 2021	— \$	-	_	5,338,616,483
May 1 - May 31, 2021	3,776,655	33.35	3,776,655	5,212,671,322
June 1 - June 30, 2021 ^(a)	17,926,359	32.11	17,926,359	4,637,085,325
Ending Balance	21,703,014 \$	32.32	21,703,014	\$ 4,637,085,325

⁽a) For June 2021, shares repurchased includes 3 million shares that were purchased in June 2021, but were not retired until July 1st, 2021, due to timing of the stock split. These shares are reflected as outstanding as of June 30, 2021, on the consolidated statement of changes in shareholder's equity.

Item 3. Defaults Upon Senior Securities

None

Item 4. Mine Safety Disclosures

Not Applicable

Item 5. Other Information

None

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

CSX CORPORATION (Registrant)

By: /s/ ANGELA C. WILLIAMS Angela C. Williams Vice President and Chief Accounting Officer (Principal Accounting Officer)

Dated: July 21, 2021

CERTIFICATION OF CEO AND CFO PURSUANT TO EXCHANGE ACT RULE 13a - 14(a) OR RULE 15d-14(a)

I, James M. Foote, certify that:

- 1. I have reviewed this Quarterly Report on Form 10-Q of CSX Corporation;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
