See accompanying notes to consolidated financial statements.

#### NOTE 1. Nature of Operations and Significant Accounting Policies

#### Background

CSX Corporation together with its subsidiaries ("CSX" or the "Company"), based in Jacksonville, Florida, is one of the nation's leading transportation companies. The Company provides rail-based transportation services including traditional rail service, the transport of intermodal containers and trailers, as well as other transportation services such as rail-to-truck transfers and bulk commodity operations.

CSX's principal operating subsidiary, CSX Transportation, Inc. ("CSXT"), provides an important link to the transportation supply chain through its approximately 20,000 route mile rail network and serves major population centers in 26 states east of the Mississippi River, the District of Columbia and the Canadian provinces of Ontario and Quebec. The Company's intermodal business links customers to railroads via trucks and terminals. On June 1, 2022, CSX completed its acquisition of Pan Am Systems, Inc. ("Pan Am"), which is the parent company of Pan Am Railways, Inc. This acquisition expanded CSXT's reach in the Northeastern United States. CSXT is also responsible for the Company's real estate sales, leasing, acquisition and management and development activities, substantially all of which are focused on supporting railroad operations.

#### Other entities

In addition to CSXT, the Company's subsidiaries include Quality Carriers, Inc. ("Quality Carriers"), CSX Intermodal Terminals, Inc. ("CSX Intermodal Terminals"), Total Distribution Services, Inc. ("TDSI"), Transflo Terminal Services, Inc. ("Transflo"), CSX Technology, Inc. ("CSX Technology") and other subsidiaries. Quality Carriers is the largest provider of bulk liquid chemicals truck transportation in North America. CSX Intermodal Terminals owns and operates a system of intermodal terminals, predominantly in the eastern United States and also performs drayage services (the pickup and delivery of intermodal shipments) for certain customers. TDSI serves the automotive industry with distribution centers and storage locations. Transflo connects non-rail served customers to the many benefits of rail by transferring products from rail to trucks. The biggest Transflo markets are chemicals and agriculture, which includes shipments of plastics and ethanol. CSX Technology and other subsidiaries provide support services for the Company.

#### Sale of Property Rights to the Commonwealth of Virginia

On March 26, 2021, the Company entered into a comprehensive agreement to sell certain property rights in three CSX-owned line segments to the Commonwealth of Virginia ("Commonwealth") over three phases. The timing and amount of gains recognized were based on the allocation of fair value to each conveyance, the timing of conveyances and collectability. Over the course of this transaction, which was completed in 2022, total proceeds of \$525 million were collected and total gains of \$493 million were recognized. A gain of \$20 million was recognized in first quarter 2022 related to the closing of the second phase. During second quarter 2022, the final \$125 million of proceeds was approved by the Commonwealth, which resulted in a \$122 million gain related to property rights previously conveyed. These proceeds were collected during fourth quarter 2022 upon closing of the third phase.

#### NOTE 1. Nature of Operations and Significant Accounting Policies, continued

#### Basis of Presentation

In the opinion of management, the accompanying consolidated financial statements contain all normal, recurring adjustments necessary to fairly present the consolidated financial statements and accompanying notes. Where applicable, prior year information has been reclassified to conform to the current presentation. Pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"), certain information and disclosures normally included in the notes to the annual financial statements prepared in accordance with U.S. generally accepted accounting principles ("GAAP") have been omitted from these interim financial statements. CSX suggests that these financial statements be read in conjunction with the audited financial statements and the notes included in CSX's most recent annual report on Form 10-K and any subsequently filed current reports on Form 8-K.

#### Fiscal Year

The Company's fiscal periods are based upon the calendar year. Except as otherwise specified, references to "second quarter(s)" or "six months" indicate CSX's fiscal periods ending June 30, 2023 and June 30, 2022, and references to "year-end" indicate the fiscal year ended December 31, 2022.

#### **New Accounting Pronouncements**

In March 2020, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2020-04, Facilitation of the Effects of Reference Rate Reform on Financial Reporting. As the London Interbank Offered Rate ("LIBOR") will no longer be available beginning July 2023, this standard update provides practical expedients for contract modifications made as part of the transition from LIBOR to alternative reference rates. The guidance was effective upon issuance and at present can generally be applied through December 31, 2024. As of June 30, 2023, the Company applied the practical expedient to its forward starting interest rate swaps. See Note 7, Debt and Credit Agreements, for additional information. The Company does not have any other contracts that will be affected by a transition from LIBOR.

#### NOTE 2. Earnings Per Share

The following table sets forth the computation of basic earnings per share and earnings per share, assuming dilution.

	Second Quarters			Six Months		
		2023	2022		2023	2022
Numerator (Dollars in millions):						
Net Earnings	\$	996 \$	1,178	\$	1,983 \$	2,037
Denominator (Units in millions):						
Average Common Shares Outstanding		2,020	2,158		2,037	2,173
Other Potentially Dilutive Common Shares		5	5		5	5
Average Common Shares Outstanding, Assuming Dilution		2,025	2,163		2,042	2,178
Net Earnings Per Share, Basic	\$	0.49 \$	0.55	\$	0.97 \$	0.94
Net Earnings Per Share, Assuming Dilution	\$	0.49 \$	0.54	\$	0.97 \$	0.94

Basic earnings per share is based on the weighted-average number of shares of common stock outstanding. Earnings per share, assuming dilution, is based on the weighted-average number of shares of common stock outstanding and common stock equivalents adjusted for the effects of common stock that may be issued as a result of potentially dilutive instruments. CSX's potentially dilutive instruments are made up of equity awards including performance units and employee stock options.

When calculating diluted earnings per share, the potential shares that would be outstanding if all outstanding stock options were exercised are included. This number is different from outstanding stock options because it is offset by shares CSX could repurchase using the proceeds from these hypothetical exercises to obtain the common stock equivalent. The total average outstanding stock options that were excluded from the diluted earnings per share calculation because their effect was antidilutive is in the table below.

	Second (	Second Quarters		Months	
	2023	2022	2023	2022	_
Antidilutive Stock Options Excluded from Diluted EPS (Units in millions)	3		3	4 :	3

#### NOTE 2. Earnings Per Share, continued

#### Share Repurchases

In July 2022, the share repurchase program announced in October 2020 was completed and the Company announced a \$5 billion share repurchase program. Total repurchase authority remaining was \$1.3 billion as of June 30, 2023.

Share repurchases may be made through a variety of methods including, but not limited to, open market purchases, purchases pursuant to Rule 10b5-1 plans, accelerated share repurchases and negotiated block purchases. The timing of share repurchases depends upon management's assessment of marketplace conditions and other factors, and the program remains subject to the discretion of the Board of Directors. Future share repurchases are expected to be funded by cash on hand, cash generated from operations and debt issuances. Shares are retired immediately upon repurchase. In accordance with the *Equity Topic* in the Accounting Standards Codification ("ASC"), the excess of repurchase price over par value is recorded in retained earnings.

During second quarters and six months ended June 30, 2023, and June 30, 2022, the Company engaged in the following repurchase activities:

	Second Qua	Six Months			
	2023	2022	2023		2022
Shares Repurchased (Millions)	 28	47		63	76
Cost of Shares (Dollars in millions)	\$ 863 \$	1,499	\$ 1	,930 \$	2,515

#### Dividend Increase

In February 2023, the Company's Board of Directors authorized a 10% increase in the quarterly cash dividend to \$0.11 per common share.

#### NOTE 3. Stock Plans and Share-Based Compensation

Under CSX's share-based compensation plans, awards consist of performance units, stock options and restricted stock units for management and stock grants for directors. Share-based compensation expense for awards under share-based compensation plans is measured using the fair value of the award on the grant date and is recognized on a straight-line basis over the service period of the respective award. Alternatively, expense is recognized upon death or over an accelerated service period for retirement-eligible employees whose agreements allow for continued vesting upon retirement. Forfeitures are recognized as they occur. Total pre-tax expense and income tax benefits associated with share-based compensation are shown in the table below. Income tax benefits include impacts from option exercises and the vesting of other equity awards.

	Second Qu	arters	Six Mon	ths
(Dollars in millions)	 2023	2022	 2023	2022
Share-Based Compensation Expense:				
Performance Units	\$ 6 \$	6	\$ 9 \$	26
Restricted Stock Units	5	3	9	9
Stock Options	3	3	6	10
Employee Stock Purchase Plan	3	1	4	2
Stock Awards for Directors	 _		 2	2
Total Share-Based Compensation Expense	\$ 17 \$	13	\$ 30 \$	49
Income Tax Benefit	\$ 3 \$	3	\$ 7 \$	12

#### Long-term Incentive Plan

In February 2023, the Company granted the following awards under a new long-term incentive plan ("LTIP") for the years 2023 through 2025, which was adopted under the CSX 2019 Stock and Incentive Award Plan.

	Granted (in Thousands)	Weighted Avg. Fair Value
Performance Units	680 9	\$ 32.77
Restricted Stock Units	648	31.67
Stock Options	1.067	9.86

#### NOTE 3. Stock Plans and Share-Based Compensation, continued

#### Performance Units

Payouts will be made in CSX common stock with a payout range for most participants between 0% and 200% of the target awards depending on Company performance against predetermined goals. Payouts for certain executive officers are subject to formulaic upward or downward adjustment by up to 25%, capped at an overall payout of 250%, based upon the Company's total shareholder return relative to specified comparable groups over the performance period. The fair values of performance units granted to certain executive officers were calculated using a Monte-Carlo simulation model.

Measurement against goals related to both average annual operating income growth and CSX Cash Earnings ("CCE"), in each case excluding non-recurring items as defined in the plan, will each comprise 50% of the payout. As defined under the plan, CCE is a cash-flow based measure of economic profit that incentivizes strategic investments earning more than the required return and is calculated as CSX's gross cash earnings (after-tax EBITDA) minus the required return on gross operating assets.

#### Stock Options

Stock options were granted with ten-year terms and vest over three years in equal installments each year on the anniversary of the grant date. These awards are time-based and are not based upon attainment of performance goals. The fair values of stock option awards were estimated at the grant date using the Black-Scholes valuation model.

#### Restricted Stock Units

The restricted stock units awarded vest over three years in equal installments each year on the anniversary of the grant date and are settled in CSX common stock on a one-for-one basis. These awards are time-based and are not based upon CSX's attainment of performance goals.

For more information related to the Company's outstanding long-term incentive compensation, see CSX's most recent annual report on Form 10-K.

#### NOTE 4. Casualty, Environmental and Other Reserves

Personal injury and environmental reserves are considered critical accounting estimates due to the need for management judgment. Casualty, environmental and other reserves are provided for in the consolidated balance sheets as shown in the table below.

	June 30, 2023					Dec	cember 31, 2022					
(Dollars in millions)	Current Long-		Current Long-term Total		Current Long-term Total Current Long-term		Current Long-term Total Current Long-		Current		Long-term	Total
Casualty:												
Personal Injury	\$	40 \$	86 \$	126	\$	40 \$	\$ 86 \$	126				
Occupational		7	59	66		10	58	68				
Total Casualty		47	145	192		50	144	194				
Environmental		44	116	160		53	108	161				
Other		47	38	85		41	40	81				
Total	\$	138 \$	299 \$	437	\$	144 \$	\$ 292 \$	436				

These liabilities are accrued when probable and reasonably estimable in accordance with the *Contingencies Topic* in the ASC. Actual settlements and claims received could differ, and final outcomes of these matters cannot be predicted with certainty. Considering the legal defenses currently available, the liabilities that have been recorded and other factors, it is the opinion of management that none of these items individually, when finally resolved, will have a material adverse effect on the Company's financial condition, results of operations or liquidity. Should a number of these items occur in the same period, however, their combined effect could be material in that particular period.

#### Casualty

Casualty reserves of \$192 million and \$194 million as of June 30, 2023, and December 31, 2022, respectively, represent accruals for personal injury, occupational disease and occupational injury claims primarily related to railroad operations. The Company's self-insured retention amount for casualty claims is \$100 million per occurrence. Currently, no individual claim is expected to exceed the self-insured retention amount.

#### Personal Injury

Personal injury reserves represent liabilities for employee work-related and third-party injuries. Work-related injuries for CSXT employees are primarily subject to the Federal Employers' Liability Act ("FELA"). CSXT retains an independent actuary to assist management in assessing the value of personal injury claims. An analysis is performed by the actuary quarterly and is reviewed by management. This analysis did not result in a material adjustment to the personal injury reserve in the quarters and six months ended June 30, 2023, or June 30, 2022.

#### NOTE 4. Casualty, Environmental and Other Reserves, continued

#### Occupational

Occupational reserves represent liabilities arising from allegations of exposure to certain materials in the workplace (such as solvents, soaps, chemicals and diesel fumes), past exposure to asbestos or allegations of chronic physical injuries resulting from work conditions (such as repetitive stress injuries). The Company retains an independent actuary to analyze the Company's historical claim filings, settlement amounts, and dismissal rates to assist in determining future anticipated claim filing rates and average settlement values. This analysis is performed by the actuary and reviewed by management quarterly. The analysis did not result in a material adjustment to the occupational reserve in the quarters and six months ended June 30, 2023, or June 30, 2022.

#### **Environmental**

Environmental reserves were \$160 million and \$161 million as of June 30, 2023, and December 31, 2022, respectively. The Company is a party to various proceedings related to environmental issues, including administrative and judicial proceedings involving private parties and regulatory agencies. The Company has been identified as a potentially responsible party at approximately 240 environmentally impaired sites. Many of these are, or may be, subject to remedial action under the federal Comprehensive Environmental Response, Compensation and Liability Act of 1980 ("CERCLA"), also known as the Superfund Law, or similar state statutes. Most of these proceedings arose from environmental conditions on properties used for ongoing or discontinued railroad operations. A number of these proceedings, however, are based on allegations that the Company, or its predecessors, sent hazardous substances to facilities owned or operated by others for treatment, recycling or disposal. In addition, some of the Company's land holdings were leased to others for commercial or industrial uses that may have resulted in releases of hazardous substances or other regulated materials onto the property and could give rise to proceedings against the Company.

In any such proceedings, the Company is subject to environmental clean-up and enforcement actions under the Superfund Law, as well as similar state laws that may impose joint and several liability for clean-up and enforcement costs on current and former owners and operators of a site without regard to fault or the legality of the original conduct. These costs could be substantial.

The Company reviews its role with respect to each site identified at least quarterly. Based on management's review process, amounts have been recorded to cover contingent anticipated future environmental remediation costs with respect to each site to the extent such costs are reasonably estimable and probable. Payments related to these liabilities are expected to be made over the next several years. Environmental remediation costs are included in purchased services and other on the consolidated income statements.

Currently, the Company does not possess sufficient information to reasonably estimate the amounts of additional liabilities, if any, on some sites until completion of future environmental studies. In addition, conditions that are currently unknown could, at any given location, result in additional exposure, the amount and materiality of which cannot presently be reasonably estimated. Based upon information currently available, however, the Company believes its environmental reserves accurately reflect the estimated cost of remedial actions currently required.

#### Other

Other reserves were \$85 million and \$81 million as of June 30, 2023, and December 31, 2022, respectively. Other reserves include liabilities for various claims, such as automobile, property, general liability, workers' compensation and longshoremen disability claims.

#### NOTE 5. Commitments and Contingencies

#### Insurance

The Company maintains insurance programs with substantial limits for property damage, including resulting business interruption, and third-party liability. A certain amount of risk is retained by the Company on each insurance program. Under its property insurance program, the Company retains all risk up to \$100 million per occurrence for losses from floods and named windstorms and up to \$75 million per occurrence for other property losses. For third-party liability claims, the Company retains all risk up to \$100 million per occurrence. As CSX negotiates insurance coverage above its full self-retention amounts, it retains a percentage of risk at various layers of coverage. While the Company believes its insurance coverage is adequate, future claims could exceed existing insurance coverage or insurance may not continue to be available at commercially reasonable rates.

#### Legal

The Company is involved in litigation incidental to its business and is a party to a number of legal actions and claims, various governmental proceedings and private civil lawsuits, including, but not limited to, those related to fuel surcharge practices, tax matters, environmental and hazardous material exposure matters, FELA and labor claims by current or former employees, other personal injury or property claims and disputes and complaints involving certain transportation rates and charges. Some of the legal proceedings include claims for compensatory as well as punitive damages and others are, or are purported to be, class actions. While the final outcome of these matters cannot be predicted with certainty, considering, among other things, the legal defenses available and liabilities that have been recorded along with applicable insurance, it is currently the opinion of management that none of these pending items is likely to have a material adverse effect on the Company's financial condition, results of operations or liquidity. An unexpected adverse resolution of one or more of these items, however, could have a material adverse effect on the Company's financial condition, results of operations or liquidity in that particular period.

The Company is able to estimate a range of possible loss for certain legal proceedings for which a loss is reasonably possible in excess of reserves established. The Company has estimated this range to be \$3 million to \$23 million in aggregate at June 30, 2023. This estimated aggregate range is based upon currently available information and is subject to significant judgment and a variety of assumptions. Accordingly, the Company's estimate will change from time to time, and actual losses may vary significantly from the current estimate.

#### Fuel Surcharge Antitrust Litigation

In May 2007, class action lawsuits were filed against CSXT and three other U.S.-based Class I railroads alleging that the defendants' fuel surcharge practices relating to contract and unregulated traffic resulted from an illegal conspiracy in violation of antitrust laws. The class action lawsuits were consolidated into one case in federal court in the District of Columbia. In 2017, the District Court issued its decision denying class certification. On August 16, 2019, the U.S. Court of Appeals for the D.C. Circuit affirmed the District Court's ruling. The consolidated case is now moving forward without class certification. Although the class was not certified, individual shippers have since brought claims against the railroads, which have been consolidated into a separate case.

CSXT believes that its fuel surcharge practices were arrived at and applied lawfully and that the case is without merit. Accordingly, the Company intends to defend itself vigorously. However, penalties for violating antitrust laws can be severe, and resolution of these matters individually or when aggregated could have a material adverse effect on the Company's financial condition, results of operations or liquidity in that particular period.

#### NOTE 5. Commitments and Contingencies, continued

#### Environmental

CSXT is indemnifying Pharmacia LLC, formerly known as Monsanto Company, ("Pharmacia") for certain liabilities associated with real estate located in Kearny, New Jersey along the Lower Passaic River (the "Property"). The Property, which was formerly owned by Pharmacia, is now owned by CSXT. CSXT's indemnification and defense duties arise with respect to several matters. The U.S. Environmental Protection Agency ("EPA"), using its CERCLA authority, seeks the investigation and cleanup of hazardous substances in the 17-mile Lower Passaic River Study Area (the "Study Area"). CSXT, on behalf of Pharmacia, and a significant number of other potentially responsible parties are together conducting a Remedial Investigation and Feasibility Study of the Study Area pursuant to an Administrative Settlement Agreement and Order on Consent with the EPA. Pharmacia's share of responsibility, indemnified by CSXT, for the investigation and cleanup costs of the Study Area may be determined through various mechanisms including (a) an allocation and settlement with EPA: (b) litigation brought by EPA against non-settling parties; or (c) litigation among the responsible parties.

For the lower eight miles of the Study Area, EPA issued its Record of Decision detailing the agency's mandated remedial process in March 2016. Occidental Chemical Corporation ("Occidental") is performing the remedial design for the lower eight-mile portion of the Study Area pursuant to a consent order with EPA.

For the remaining upper nine miles of the Study Area, EPA selected an interim remedy in a Record of Decision dated September 28, 2021. On March 2, 2023, EPA issued an administrative order requiring Occidental to design the interim remedy for the upper nine miles of the Study Area.

Approximately 80 parties, including Pharmacia, participated in an EPA-directed allocation and settlement process to assign responsibility. CSXT participated in the EPA-directed allocation and settlement process on behalf of Pharmacia. On March 2, 2022, EPA issued a Notice Letter to Pharmacia, Occidental and eight other parties alleging they are liable under Section 107(a) of CERCLA for releases or threatened releases of hazardous substances and requesting each party, individually or collectively, submit good faith offers to EPA in connection with the entire Study Area. CSXT, on behalf of Pharmacia, responded to the Notice Letter and submitted a good faith offer to EPA on June 27, 2022, following meetings with a mediator from EPA's Conflict Prevention and Resolution Center. Negotiations with EPA and other parties to resolve this matter continue.

CSXT is also defending and indemnifying Pharmacia with regard to the Property in litigation filed by Occidental, which is seeking to recover its past and future costs associated with the remediation of the entire Study Area. Alternatively, Occidental seeks to compel some, or all, of the defendants to participate in the remediation of the Study Area. Pharmacia is one of approximately 110 defendants in a federal lawsuit filed by Occidental on June 30, 2018, and one of 37 defendants in a federal lawsuit filed by Occidental on March 24, 2023. CSXT is also defending and indemnifying Pharmacia in a cooperative natural resource damages assessment process related to the Property.

Based on currently available information, the Company does not believe its share of remediation costs as determined by the EPA-directed allocation with respect to the Property and the Study Area would be material to the Company's financial condition, results of operations or liquidity.

#### NOTE 6. Employee Benefit Plans

The Company sponsors defined benefit pension plans principally for salaried, management personnel. The CSX Pension Plan, the largest plan based on benefit obligation, was closed to new participants beginning in 2020.

Independent actuaries compute the amounts of liabilities and expenses relating to these plans subject to the assumptions that the Company determines are appropriate based on historical trends, current market rates and future projections. These amounts are reviewed by management. Only the service cost component of net periodic benefit costs is included in labor and fringe expense on the consolidated income statement. All other components of net periodic benefit cost are included in other income - net.

#### Pension Benefits Cost

	Second Quarters					Six Months			
(Dollars in millions)	2	023		2022		2023		2022	
Service Cost Included in Labor and Fringe	\$	6	\$	8	\$	12	\$	16	
Interest Cost		28		16		56		32	
Expected Return on Plan Assets		(41)		(47)		(82)		(94)	
Amortization of Net Loss		7		13		14		25	
Total Included in Other Income - Net		(6)		(18)		(12)		(37)	
Net Periodic Benefit Credit	\$	_	\$	(10)	\$	_	\$	(21)	

Qualified pension plan obligations are funded in accordance with regulatory requirements and with an objective of meeting or exceeding minimum funding requirements necessary to avoid restrictions on flexibility of plan operation and benefit payments. No contributions to the Company's qualified pension plans are expected in 2023.

#### NOTE 7. Debt and Credit Agreements

Total activity related to long-term debt as of the end of second quarter 2023 is shown in the table below. For fair value information related to the Company's long-term debt, see Note 9, Fair Value Measurements.

			Long-term	
(Dollars in millions)	Curre	nt Portion	Portion	Total
Long-term Debt as of December 31, 2022	\$	151 \$	17,896 \$	18,047
2023 Activity:				
Long-term Debt Repaid		(146)	_	(146)
Reclassifications		4	(4)	_
Hedging, Discount, Premium and Other Activity		1	6	7
Long-term Debt as of June 30, 2023	\$	10 \$	17,898 \$	17,908

#### Interest Rate Derivatives

Fair Value Hedges

In first quarter 2022, CSX entered into five separate fixed-to-floating interest rate swaps classified as fair value hedges. The swaps are designed to hedge 10 years of interest rate risk associated with market fluctuations attributable to the Secured Overnight Financing Rate ("SOFR") on a cumulative \$800 million of fixed rate outstanding notes which are due between 2036 and 2040. The cumulative fair value of these swaps, which is included in other long-term liabilities on the consolidated balance sheet, was a liability of \$119 million and \$118 million as of June 30, 2023, and December 31, 2022, respectively. The associated cumulative adjustment to the hedged notes is included in long-term debt. Gains and losses resulting from changes in fair value of the interest rate swaps offset changes in the fair value of the hedged portion of the underlying debt with no gain or loss recognized due to hedge ineffectiveness. The difference in the net fixed-to-float interest settlement on the derivatives is recognized in interest expense and was not material in the second quarters or six months ended June 30, 2023, or June 30, 2022. The swaps will expire in 2032. If settled early, the remaining cumulative fair value adjustment to the hedged notes will be amortized over the remaining life of the associated notes. The amounts recorded in long-term debt on the consolidated balance sheet related to these fair value hedges are summarized in the table below.

(Dollars in millions)	June	30, 2023 D	ecember 31, 2022
Notional Value of Hedged Notes	\$	800 \$	800
Cumulative Fair Value Adjustment to Hedged Notes		(119)	(118)
Carrying Amount of Hedged Notes	\$	681 \$	682

#### NOTE 7. Debt and Credit Agreements, continued

#### Cash Flow Hedges

The unsettled aggregate notional value of forward starting interest rate swaps, classified as cash flow hedges, executed in 2020 is \$227 million. These swaps, which had a notional value of \$500 million at inception, were effected to hedge the benchmark interest rate associated with future interest payments related to the anticipated refinancing of \$850 million of 3.25% notes due in 2027. In accordance with the *Derivatives and Hedging Topic* in the ASC, the Company has designated these swaps as cash flow hedges. Under the terms of the Adjustable Interest Rate (LIBOR) Act, the reference rate on the swaps were automatically replaced with daily compounded SOFR plus the fallback spread on July 1, 2023, the LIBOR replacement date. As of June 30, 2023, and December 31, 2022, the asset value of the forward starting interest rate swaps was \$86 million and \$127 million, respectively, and was recorded in other long-term assets on the consolidated balance sheet. Unrealized gains or losses associated with changes in the fair value of the hedge are recorded net of tax in accumulated other comprehensive income ("AOCI") on the consolidated balance sheet.

In second quarter 2023, CSX executed a partial settlement equal to \$113 million notional value of the cash flow hedges, which resulted in CSX receiving a cash payment of \$44 million included in other operating activities on the consolidated cash flow statement. The unrealized gain associated with the settled portion of the hedges will continue to be classified in AOCI until the associated debt instrument is issued in the future. Unless settled early, the remainder of the swaps will expire in 2027 and the unrealized gain or loss in AOCI will be recognized in earnings as an adjustment to interest expense over the same period during which the hedged transaction affects earnings. Unrealized amounts related to the hedge, recorded net of tax in other comprehensive income, are summarized in the table below.

	Second Quarters				Six Months		
(Dollars in millions)	2023		2022		2023		2022
Unrealized Gain (Loss) - Net	\$	(7) \$	33	\$	(10)	\$	54

See Note 9, Fair Value Measurements, and Note 10, Other Comprehensive Income (Loss), for additional information about the Company's hedges.

#### **Credit Facility**

In February 2023, CSX replaced its existing \$1.2 billion unsecured revolving credit facility with a new \$1.2 billion unsecured revolving credit facility backed by a diverse syndicate of banks. This facility allows same-day borrowings at floating interest rates, based on SOFR or an agreed-upon replacement reference rate, plus a spread that depends upon CSX's senior unsecured debt ratings. This facility expires in February 2028. As of June 30, 2023, the Company had no outstanding balances under this facility.

Commitment fees and interest rates payable under the facility were similar to fees and rates available to comparably rated investment-grade borrowers. As of second quarter 2023, CSX was in compliance with all covenant requirements under this facility.

#### Commercial Paper

Under its commercial paper program, which is backed by the revolving credit facility, the Company may issue unsecured commercial paper notes up to a maximum aggregate principal amount of \$1.0 billion outstanding at any one time. Proceeds from issuances of the notes are expected to be used for general corporate purposes. At June 30, 2023, the Company had no outstanding debt under the commercial paper program.

#### NOTE 8. Revenues

The Company's revenues are primarily derived from the transportation of freight as performance obligations that arise from its contracts with customers are satisfied. The following table presents the Company's revenues disaggregated by market as this best depicts how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors:

	 Second Qua	rters	Six Months			
(Dollars in millions)	2023	2022		2023	2022	
Chemicals	\$ 642 \$	666	\$	1,292 \$	1,284	
Agricultural and Food Products	415	412		852	799	
Automotive	323	268		597	495	
Forest Products	257	251		518	479	
Metals and Equipment	240	216		479	413	
Minerals	191	170		364	314	
Fertilizers	128	118		257	238	
Total Merchandise	 2,196	2,101		4,359	4,022	
Coal	637	651		1,270	1,184	
Intermodal	492	602		991	1,129	
Trucking	227	259		460	489	
Other	147	202		325	404	
Total	\$ 3,699 \$	3,815	\$	7,405 \$	7,228	

The Company's accounts receivable - net consists of freight and non-freight receivables, reduced by an allowance for credit losses. Freight receivables include amounts earned, billed and unbilled, and currently due from customers for transportation-related services. Non-freight receivables include amounts billed and unbilled and currently due related to government reimbursement receivables and other non-revenue receivables.

(Dollars in millions)	 June 30, 2023	December 31, 2022
Freight Receivables	\$ 1,020 \$	1,067
Freight Allowance for Credit Losses	(17)	(16)
Freight Receivables, net	1,003	1,051
Non-Freight Receivables	342	279
Non-Freight Allowance for Credit Losses	 (18)	(17)
Non-Freight Receivables, net	 324	262
Total Accounts Receivable, net	\$ 1,327 \$	1,313

The Company maintains an allowance for credit losses to provide for the estimated amount of receivables that will not be collected. The allowance is based upon an assessment of risk characteristics, historical payment experience, and the age of outstanding receivables adjusted for forward-looking economic conditions as necessary. Credit losses recognized on the Company's accounts receivable were not material in the second quarters or six months ended June 30, 2023, and 2022.

#### NOTE 9. Fair Value Measurements

#### Investments

The Company's investment assets are carried at fair value on the consolidated balance sheet in accordance with the Fair Value Measurements and Disclosures Topic in the ASC. They are valued with assistance from a third-party trustee and consist of fixed income mutual funds, corporate bonds and government securities. The fixed income mutual funds are valued at the net asset value of shares held based on quoted market prices determined in an active market, which are Level 1 inputs. The corporate bonds and government securities are valued using broker quotes that utilize observable market inputs, which are Level 2 inputs. Unrealized losses as of June 30, 2023, were not material. The Company believes any impairment of investments held with gross unrealized losses to be temporary and not the result of credit risk.

The Company's investment assets are carried at fair value on the consolidated balance sheets as summarized in the following table.

	June 30, 2023				December 31, 2022			
(Dollars in millions)	Le	vel 1	Level 2	Total	Le	evel 1	Level 2	Total
Fixed Income Mutual Funds	\$	77 \$	<b>-</b> \$	77	\$	89 \$	<b>—</b> \$	89
Corporate Bonds		_	49	49		_	49	49
Government Securities	<u></u> .	_	17	17		_	58	58
Total investments at fair value	\$	77 \$	66 \$	143	\$	89 \$	107 \$	196
Total investments at amortized cost			\$	148			\$	201

These investments have the following maturities:

(Dollars in millions)	ne 30, 023	December 31, 2022
Less than 1 year	\$ 78 \$	129
1 - 5 years	24	24
5 - 10 years	9	10
Greater than 10 years	 32	33
Total investments at fair value	\$ 143 \$	196

#### NOTE 9. Fair Value Measurements, continued

#### Long-term Debt

Long-term debt is reported at carrying amount on the consolidated balance sheets and is the Company's only financial instrument with fair values significantly different from their carrying amounts. The fair value of a company's debt is a measure of its current value under present market conditions. It does not impact the financial statements under current accounting rules. The majority of the Company's long-term debt is valued with assistance from a third party that utilizes closing transactions, market quotes or market values of comparable debt. For those instruments not valued by the third party, the fair value has been estimated by applying market rates of similar instruments to the scheduled contractual debt payments and maturities. These market rates are provided by the same third party. All of the inputs used to determine the fair value of the Company's long-term debt are Level 2 inputs.

The fair value and carrying value of the Company's long-term debt is as follows:

(Dollars in millions)	June 30, 2023			December 31, 2022		
Long-term Debt (Including Current Maturities):						
Fair Value	\$	16,313	\$	16,135		
Carrying Value		17,908		18,047		

#### Interest Rate Derivatives

The Company's fixed-to-floating and forward starting interest rate swaps are carried at their respective fair values, which are determined with assistance from a third party based upon pricing models using inputs observed from actively quoted markets. All of the inputs used to determine the fair value of the swaps are Level 2 inputs. The fair value of the Company's fixed-to-floating interest rate swaps was a liability of \$119 million and \$118 million as of June 30, 2023, and December 31, 2022, respectively. The fair value of the Company's forward starting interest rate swap asset was \$86 million and \$127 million as of June 30, 2023, and December 31, 2022, respectively. See Note 7, Debt and Credit Agreements, for further information.

#### NOTE 10. Other Comprehensive Income (Loss)

Total comprehensive earnings are defined as all changes in shareholders' equity during a period, other than those resulting from investments by and distributions to shareholders (e.g. issuance of equity securities and dividends). Generally, for CSX, total comprehensive earnings equal net earnings plus or minus adjustments for pension and other post-retirement liabilities as well as derivative activity and other adjustments. Total comprehensive earnings represent the activity for a period net of tax and was \$992 million and \$1.2 billion for second quarters 2023 and 2022, respectively, and \$2.0 billion and \$2.1 billion for the six months ended June 30, 2023, and 2022, respectively.

While total comprehensive earnings is the activity in a period and is largely driven by net earnings in that period, AOCI represents the cumulative balance of other comprehensive income, net of tax, as of the balance sheet date. Changes in the AOCI balance by component are shown in the following table. Amounts reclassified in pension and other post-employment benefits to net earnings relate to the amortization of actuarial losses and are included in other income - net on the consolidated income statements. See Note 6, *Employee Benefit Plans*, for further information. Interest rate derivatives consist of forward starting interest rate swaps classified as cash flow hedges. See Note 7, *Debt and Credit Agreements*, for further information. Other primarily represents CSX's share of AOCI of equity method investees. Amounts reclassified in other to net earnings are included in purchased services and other or equipment and other rents on the consolidated income statements.

	Post-E	n and Other mployment enefits	Interest Rate Derivatives	Other	Accumulated Other Comprehensive Income (Loss)
(Dollars in millions)

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### **SECOND QUARTER 2023 HIGHLIGHTS**

- Revenue decreased \$116 million, or 3% year over year.
- Expenses increased \$105 million, or 5% year over year.
- Operating income of \$1.5 billion decreased \$221 million, or 13%, year over year.
- Operating ratio of 59.9% increased 450 basis points versus prior year.
- Earnings per diluted share of \$0.49 decreased \$0.05, or 9%, year over year.

	Second Quarters					Six Months

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Second Quarter 2023

#### Revenue

Total revenue decreased 3% in second quarter 2023 when compared to second quarter 2022 primarily due to lower fuel recovery, decreases in other revenue, pricing declines in export coal due to the impact of lower benchmark rates, and lower intermodal volume. These decreases were partially offset by pricing and volume gains in merchandise as well as higher coal volumes.

#### Merchandise Volume

<u>Chemicals</u> - Decreased primarily due to lower shipments of materials used in making plastics, partially offset by higher shipments of waste.

<u>Agricultural and Food Products</u> - Decreased due to lower shipments of export grain, partially offset by higher shipments of feed grain for the domestic market.

Automotive - Increased due to higher North American vehicle production as well as new business wins.

<u>Minerals</u> - Increased due to higher shipments of aggregates and cement driven by increased road construction and other infrastructure-related activities.

Metals and Equipment - Increased due to higher scrap and steel shipments, as well as stronger equipment shipments.

<u>Forest Products</u> - Decreased primarily due to lower shipments of pulpboard, partially offset by higher shipments of building products.

<u>Fertilizers</u> - Increased due to higher shipments of potash and nitrogen, partially offset by declines in short-haul phosphate shipments.

#### Intermodal Volume

Lower volume was primarily due to decreased international shipments driven by high inventory levels and lower imports. Domestic shipments also decreased primarily due to the impacts of a softening truck market.

#### Coal Volume

Export coal increased due to higher shipments of metallurgical and thermal coal. Domestic coal decreased due to lower shipments of coal to northern utility plants.

#### Trucking Revenue

Trucking revenue decreased \$32 million versus the prior year due to lower fuel and capacity surcharges.

#### Other Revenue

Other revenue was \$55 million lower, primarily resulting from lower intermodal storage and equipment usage, partially offset by adjustments to revenue reserves.

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### **Expenses**

Expenses of \$2.2 billion increased \$105 million, or 5%, in second quarter 2023 when compared to the second quarter 2022.

Labor and Fringe expense increased \$57 million due to the following:

- · An increase of \$44 million was driven by inflation.
- Other costs increased \$13 million, as the impact of increased headcount in 2023 was partially offset by prior year Pan Am acquisition-related costs of \$7 million.

Purchased Services and Other expense increased \$37 million due to the following:

- Operating support costs increased \$53 million primarily as a result of higher repair and maintenance costs as well as inflation. These increases were partially offset by lower intermodal expenses.
- Other costs decreased \$16 million due to several non-significant items, including the impact of prior year Pan Am acquisition-related costs of \$11 million.

<u>Depreciation and Amortization</u> expense increased \$33 million primarily as the result of a 2022 equipment depreciation study as well as a larger asset base.

<u>Fuel</u> costs decreased \$134 million primarily resulting from a 32% decrease in locomotive fuel prices, partially offset by higher fuel consumption.

<u>Equipment and Other Rents</u> expense decreased \$5 million driven by lower net car hire costs, as savings from improved days per load were partially offset by higher volume from automotive and other merchandise markets.

Gains on Property Dispositions decreased to \$12 million from \$129 million in the prior year. Second quarter 2022 included a gain of \$122 million related to the sale of property rights to the Commonwealth of Virginia under a multi-phase agreement.

#### Interest Expense

Interest expense increased \$30 million primarily due to higher average debt balances and higher interest rates.

#### Other Income - Net

Other income - net increased \$5 million primarily due to higher interest income, partially offset by a decrease in net pension benefit credits.

#### Income Tax Expense

Income tax expense decreased \$64 million mostly due to lower earnings before income taxes.

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Six Months Results of Operations

<u>Revenue</u> increased \$177 million primarily due to volume and pricing gains in merchandise as well as higher coal volumes, partially offset by lower intermodal volumes, pricing declines in export coal and decreases in other revenue.

<u>Total expense</u> increased \$216 million primarily due to lower gains on property dispositions, increased inflation and higher operating support costs, partially offset by lower fuel prices.

Interest expense increased \$52 million primarily as a result of higher average debt balances and higher effective interest rates.

Other income - net increased \$20 million largely due to higher interest income, partially offset by a decrease in net pension benefit credits.

Income tax expense decreased \$17 million primarily due to lower earnings before income taxes.

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Non-GAAP Measures - Unaudited

CSX reports its financial results in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). CSX also uses certain non-GAAP measures that fall within the meaning of Securities and Exchange Commission Regulation G and Regulation S-K Item 10(e), which may provide users of the financial information with additional meaningful comparison to prior reported results. Non-GAAP measures do not have standardized definitions and are not defined by U.S. GAAP. Therefore, CSX's non-GAAP measures are unlikely to be comparable to similar measures presented by other companies. The presentation of these non-GAAP measures should not be considered in isolation from, as a substitute for, or as superior to the financial information presented in accordance with GAAP. Reconciliations of non-GAAP measures to corresponding GAAP measures are below.

#### Free Cash Flow

Management believes that free cash flow is supplemental information useful to investors as it is important in evaluating the Company's financial performance. More specifically, free cash flow measures cash generated by the business after reinvestment. This measure represents cash available for both equity and bond investors to be used for dividends, share repurchases or principal reduction on outstanding debt. Free cash flow is calculated by using net cash from operations and adjusting for property additions and proceeds and advances from property dispositions. Free cash flow should be considered in addition to, rather than a substitute for, cash provided by operating activities. The decrease in free cash flow before dividends from the prior year of \$245 million is due to higher property additions and less cash from operating activities.

The following table reconciles cash provided by operating activities (GAAP measure) to free cash flow, before dividends (non-GAAP measure).

	Six Month	S
(Dollars in millions)	 2023	2022
Net cash provided by operating activities (a)	\$ 2,483 \$	2,530
Property Additions	(1,015)	(811)
Proceeds and Advances from Property Dispositions	35	29
Free Cash Flow (before payment of dividends)	\$ 1,503 \$	1,748

(a) Net Cash Provided by Operating Activities for six months ended June 30, 2023, includes the impact of \$238 million in payments of retroactive wages and bonuses related to finalized labor agreements.

#### **Operating Statistics** (Estimated)

The Company is committed to continuous improvement in safety and service performance through training, innovation and investment. Training and safety programs are designed to prevent incidents that can adversely impact employees, customers and communities. Technological innovations that can detect and avoid many types of human factor incidents are designed to serve as an additional layer of protection for the Company's employees. Continued capital investment in the Company's assets, including track, bridges, signals, equipment and detection technology also supports safety performance.

In second quarter 2023, velocity increased by 16% and dwell improved by 21% versus prior year. Carload trip plan performance increased to 84% compared to 59% in the prior year while intermodal trip plan performance increased to 96% compared to 90% in the prior year.

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The FRA train accident rate of 3.25 in second quarter 2023 decreased by 16% compared to prior year. The personal injury frequency index of 0.81 decreased 24% compared to prior year. Safety is a guiding principle at CSX, and the Company remains focused on instilling safety culture, especially in new hires. CSX is committed to reducing risk and enhancing the overall safety of its employees, customers and communities in which the Company operates.

		Second Quarte	rs	Six Months

Total Revenue Ton-Miles	48.5	48.2	1 %	96.9	94.6	2 %			
Total Gross Ton-Miles (Billions)	95.7	95.0	1 %	190.1	186.4	2 %			
Safety (b)									
FRA Personal Injury Frequency Index	0.81	1.07	24 %	0.94	0.94	— %			
FRA Train Accident Rate	3.25	3.87	16 %	3.48	3.34	(4)%			

- (a) Beginning second quarter 2023, all operations performance metrics include results from the network acquired from Pan Am. The impact of including Pan Am data was insignificant.
- (b) Safety metrics do not include results from the network acquired from Pan Am. These metrics will be updated to include the Pan Am network results as integration completes.

Certain operating statistics are estimated and can continue to be updated as actuals settle. The methodology for calculating train velocity, dwell, cars online and trip plan performance differs from that used by the Surface Transportation Board. The Company will continue to report these metrics to the Surface Transportation Board using the prescribed methodology.

#### Key Performance Measures Definitions

<u>Train Velocity</u> - Average train speed between origin and destination in miles per hour (does not include locals, yard jobs, work trains or passenger trains). Train velocity measures actual train miles and times of a train movement on CSX's network.

Dwell - Average amount of time in hours between car arrival to and departure from the yard.

Cars Online - Average number of active freight rail cars on lines operated by CSX, excluding rail cars that are being repaired, in storage, those that have been sold, or private cars dwelling at a customer location more than one day.

On-Time Originations - Percent of scheduled road trains that depart the origin yard on-time or ahead of schedule.

On-Time Arrivals - Percent of scheduled road trains that arrive at the destination yard on-time to within two hours of scheduled arrival.

Carload Trip Plan Performance - Percent of measured cars destined for a customer that arrive at or ahead of the original estimated time of arrival, notification or interchange (as applicable).

Intermodal Trip Plan Performance - Percent of measured containers destined for a customer that arrive at or ahead of the original estimated time of arrival, notification or interchange (as applicable).

Fuel Efficiency - Gallons of locomotive fuel per 1,000 gross ton-miles.

Revenue Ton-Miles (RTM's) - The movement of one revenue-producing ton of freight over a distance of one mile.

Gross Ton-Miles (GTM's) - The movement of one ton of train weight over one mile. GTM's are calculated by multiplying total train weight by distance the train moved. Total train weight is comprised of the weight of the freight cars and their contents.

FRA Personal Injury Frequency Index - Number of FRA-reportable injuries per 200,000 man-hours. FRA Train Accident Rate - Number of FRA-reportable train accidents per million train-miles.

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

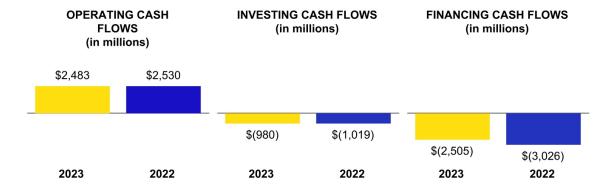

#### LIQUIDITY AND CAPITAL RESOURCES

The following are material changes in the significant cash flows, sources of cash and liquidity, capital investments, consolidated balance sheets and working capital, which provide an update to the discussion included in CSX's most recent annual report on Form 10-K.

#### Material Changes in Significant Cash Flows

Significant Cash Flows

The following chart highlights the operating, investing and financing components of the net decreases of \$1.0 billion and \$1.5 billion in cash and cash equivalents for six months ended June 30, 2023 and June 30, 2022, respectively.

- The Company generated \$47 million less cash from operating activities primarily driven by unfavorable working capital activities, including the payments of \$238 million for retroactive wages and bonuses related to finalized labor agreements. This decrease was partially offset by higher cash-generating income.
- CSX used \$39 million less cash for investing activities primarily as a result of decreased acquisition spending and higher net sales of short-term investments, partially offset by higher property additions.
- The Company used \$521 million less cash for financing activities, driven by lower share repurchases.

#### Sources of Cash and Liquidity and Uses of Cash

As of the end of second quarter 2023, CSX had \$956 million of cash and cash equivalents. CSX uses current cash balances for general corporate purposes, which may include capital expenditures, working capital requirements, reduction or refinancing of outstanding indebtedness, redemptions and repurchases of CSX common stock, dividends to shareholders, acquisitions and other business opportunities, and contributions to the Company's qualified pension plan. See Note 7, *Debt and Credit Agreements*.

The Company has multiple sources of liquidity, including cash generated from operations and financing sources. The Company filed a shelf registration statement with the SEC on February 16, 2022, which may be used to issue debt or equity securities at CSX's discretion, subject to market conditions and CSX Board authorization. While CSX seeks to give itself flexibility with respect to cash requirements, there can be no assurance that market conditions would permit CSX to sell such securities on acceptable terms at any given time, or at all. During the six months ended June 30, 2023, CSX did not issue any long-term debt.

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

CSX has a \$1.2 billion unsecured, revolving credit facility backed by a diverse syndicate of banks that expires in February 2028. At June 30, 2023, the Company had no outstanding balances under this facility. The Company also has a commercial paper program, backed by the revolving credit facility, under which the Company may issue unsecured commercial paper notes up to a maximum aggregate principal amount of \$1.0 billion outstanding at any one time. At June 30, 2023, the Company had no outstanding debt under the commercial paper program.

Planned capital investments for 2023 are expected to be approximately \$2.3 billion. Of the 2023 investment, approximately 75% is expected to be used to sustain the core infrastructure and operating equipment. The remaining amounts will be used to promote profitable growth, including projects supporting service enhancements and productivity. CSX intends to fund capital investments primarily through cash generated from operations.

#### Material Changes in the Consolidated Balance Sheets and Working Capital

Consolidated Balance Sheets

Total assets decreased \$695 million from year end primarily due to the \$1.0 billion decrease in cash as noted above. This decrease was partially offset by a \$235 million increase in net property consistent with planned capital expenditures.

Total liabilities decreased \$344 million from year end primarily due to a \$263 million decrease in labor and fringe benefits payable and a \$141 million decrease in current debt driven by the maturity of secured equipment notes in first quarter 2023. The decrease in labor and fringe benefits payable was driven by payouts of accrued retroactive wages and bonuses as well as incentive compensation. Total shareholders' equity decreased \$351 million from year end primarily driven by share repurchases of \$1.9 billion and dividends paid of \$448 million, partially offset by net earnings of \$2.0 billion.

Working capital is considered a measure of a company's ability to meet its short-term needs. CSX had a working capital surplus of \$856 million as of June 30, 2023, and \$1.4 billion as of December 31, 2022. This decrease of \$522 million since year end is primarily due to cash paid for share repurchases of \$1.9 billion and property additions of \$1.0 billion, partially offset by cash earned from operations. The Company's working capital balance varies due to factors such as the timing of scheduled debt payments and changes in cash and cash equivalent balances as discussed above. The Company continues to maintain adequate liquidity to satisfy current liabilities and maturing obligations when they come due. CSX has sufficient financial capacity, including its revolving credit facility, commercial paper program and shelf registration statement to manage its day-to-day cash requirements and any anticipated obligations. The Company from time to time accesses the credit markets for additional liquidity.

CSX is committed to returning cash to shareholders and maintaining an investment-grade credit profile. Capital structure, capital investments and cash distributions, including dividends and share repurchases, are reviewed at least annually by the Board of Directors. Management's assessment of market conditions and other factors guides the timing and volume of repurchases. Future share repurchases are expected to be funded by cash on hand, cash generated from operations and debt issuances.

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### **Completed Transactions**

Acquisition of Pan Am Systems, Inc.

On June 1, 2022, CSX acquired Pan Am for a purchase price of \$600 million. The results of Pan Am's operations and its cash flows were consolidated prospectively.

#### Sale of Property Rights to the Commonwealth of Virginia

On March 26, 2021, the Company entered into a comprehensive agreement to sell certain property rights in three CSX-owned line segments to the Commonwealth of Virginia ("Commonwealth") over three phases. Over the course of this transaction, which was completed in 2022, total proceeds of \$525 million were collected and total gains of \$493 million were recognized. A gain of \$20 million was recognized in first quarter 2022 related to the closing of the second phase. During second quarter 2022, the final \$125 million of proceeds was approved by the Commonwealth, which resulted in a \$122 million gain related to property rights previously conveyed. These proceeds were collected during fourth quarter 2022 upon closing of the third phase.

#### Guaranteed Notes Issued By CSXT

In 2007, CSXT, a wholly-owned subsidiary of CSX Corporation, issued in a registered public offering \$381 million of equipment notes, which were fully and unconditionally guaranteed by CSX Corporation. These notes matured on January 15, 2023.

#### **LABOR AGREEMENTS**

Approximately 17,400 of the Company's approximately 22,700 employees are members of a rail labor union. As of December 2, 2022, all 12 rail unions at CSX that participated in national bargaining were covered by national agreements with the Class I railroads and CSX-specific agreements that will remain in effect through December 31, 2024.

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires that management make estimates in reporting the amounts of certain assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and certain revenues and expenses during the reporting period. Actual results may differ from those estimates. These estimates and assumptions are discussed with the Audit Committee of the Board of Directors on a regular basis. Consistent with the prior year, significant estimates using management judgment are made for the areas below. For further discussion of CSX's critical accounting estimates, see the Company's most recent annual report on Form 10-K.

- personal injury and environmental reserves;
- · pension plan accounting;
- · depreciation policies for assets under the group-life method; and
- · goodwill and other intangible assets.

#### FORWARD-LOOKING STATEMENTS

Certain statements in this report and in other materials filed with the Securities and Exchange Commission, as well as information included in oral statements or other written statements made by the Company, are forward-looking statements. The Company intends for all such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and the provisions of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements within the meaning of the Private Securities Litigation Reform Act may contain, among others, statements regarding:

- projections and estimates of earnings, revenues, margins, volumes, rates, cost-savings, expenses, taxes or other financial items;
- expectations as to results of operations and operational initiatives;
- expectations as to the effect of claims, lawsuits, environmental costs, commitments, contingent liabilities, labor negotiations or agreements on the Company's financial condition, results of operations or liquidity;
- management's plans, strategies and objectives for future operations, capital expenditures, workforce levels, dividends, share repurchases, safety and service performance, proposed new services and other matters that are not historical facts, and management's expectations as to future performance and operations and the time by which objectives will be achieved; and
- future economic, industry or market conditions or performance and their effect on the Company's financial condition, results of operations or liquidity.

Forward-looking statements are typically identified by words or phrases such as "will," "should," "believe," "expect," "anticipate," "project," "estimate," "preliminary" and similar expressions. The Company cautions against placing undue reliance on forward-looking statements, which reflect its good faith beliefs with respect to future events and are based on information currently available to it as of the date the forward-looking statement is made. Forward-looking statements should not be read as a guarantee of future performance or results and will not necessarily be accurate indications of the timing when, or by which, such performance or results will be achieved.

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-looking statements are subject to a number of risks and uncertainties and actual performance or results could differ materially from those anticipated by any forward-looking statements. The Company undertakes no obligation to update or revise any forward-looking statement. If the Company does update any forward-looking statement, no inference should be drawn that the Company will make additional updates with respect to that statement or any other forward-looking statements. The following important factors, in addition to those discussed in Part I, Item 1A Risk Factors of CSX's most recent annual report on Form 10-K and elsewhere in this report, may cause actual results to differ materially from those contemplated by any forward-looking statements:

- legislative, regulatory or legal developments involving transportation, including rail or intermodal transportation, the environment, hazardous materials, taxation, international trade and initiatives to further regulate the rail industry;
- the outcome of litigation, claims and other contingent liabilities, including, but not limited to, those related to fuel surcharge, environmental matters, taxes, shipper and rate claims subject to adjudication, personal injuries and occupational illnesses;
- changes in domestic or international economic, political or business conditions, including those affecting the transportation industry (such as the impact of industry competition, conditions, performance and consolidation) and the level of demand for products carried by CSXT;
- natural events such as severe weather conditions, including floods, fire, hurricanes and earthquakes, a pandemic crisis
  affecting the health of the Company's employees, its shippers or the consumers of goods, or other unforeseen disruptions
  of the Company's operations, systems, property, equipment or supply chain;
- competition from other modes of freight transportation, such as trucking and competition and consolidation or financial distress within the transportation industry generally;
- the cost of compliance with laws and regulations that differ from expectations as well as costs, penalties and operational and liquidity impacts associated with noncompliance with applicable laws or regulations;
- the impact of increased passenger activities in capacity-constrained areas, including potential effects of high speed rail initiatives, or regulatory changes affecting when CSXT can transport freight or service routes;
- unanticipated conditions in the financial markets that may affect timely access to capital markets and the cost of capital, as well as management's decisions regarding share repurchases;
- changes in fuel prices, surcharges for fuel and the availability of fuel;
- the impact of natural gas prices on coal-fired electricity generation;
- the impact of global supply and price of seaborne coal on CSXT's export coal market;
- availability of insurance coverage at commercially reasonable rates or insufficient insurance coverage to cover claims or damages;
- the inherent business risks associated with safety and security, including the transportation of hazardous materials or a cybersecurity attack which would threaten the availability and vulnerability of information technology;
- adverse economic or operational effects from actual or threatened war or terrorist activities and any governmental response;
- loss of key personnel or the inability to hire and retain qualified employees;
- labor and benefit costs and labor difficulties, including stoppages affecting either the Company's operations or customers' ability to deliver goods to the Company for shipment;

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

- the Company's success in implementing its strategic, financial and operational initiatives, including acquisitions;
- the impact of conditions in the real estate market on the Company's ability to sell assets;
- changes in operating conditions and costs, including the impacts of inflation, or commodity concentrations;
- the impacts of a public health crisis and any policies or initiatives instituted in response; and
- the inherent uncertainty associated with projecting economic and business conditions.

Other important assumptions and factors that could cause actual results to differ materially from those in the forward-looking statements are specified elsewhere in this report and in CSX's other SEC reports, which are accessible on the SEC's website at <a href="https://www.sec.gov">www.sec.gov</a> and the Company's website at <a href="https://www.sex.com">www.csx.com</a>. The information on the CSX website is not part of this quarterly report on Form 10-Q.

### CSX CORPORATION ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

#### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in market risk from the information provided under Part II, Item 7A (Quantitative and Qualitative Disclosures about Market Risk) of CSX's most recent annual report on Form 10-K, except as provided below.

Changes in interest rates may impact the cost of future long-term debt issued by the Company, and as a result, represent interest rate risk to the Company. In an effort to manage this risk, CSX may use certain financial instruments such as interest rate forward contracts. The following information together with information included in *Note 7, Debt and Credit Agreements*, describes changes to those contracts since CSX's most recent annual report on Form 10-K and the related market risk to CSX.

In second quarter 2023, CSX settled a portion of its forward starting interest rate swaps equal to \$113 million notional value and received a cash payment of \$44 million. The gain associated with the settled portion of these cash flow hedges will continue to be classified in AOCI until the associated debt instrument is issued in the future. As of June 30, 2023, these cash flow hedges had an aggregate notional value of \$227 million and an asset value of \$86 million.

Changes in interest rates could impact the fair value of the Company's forward starting interest rate swaps. As of June 30, 2023, the potential change in fair value resulting from a hypothetical 10% change in interest rates would not be material.

#### ITEM 4. CONTROLS AND PROCEDURES

As of June 30, 2023, under the supervision and with the participation of CSX's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), management has evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the CEO and CFO concluded that, as of June 30, 2023, the Company's disclosure controls and procedures were effective at the reasonable assurance level in timely alerting them to material information required to be included in CSX's periodic SEC reports. There were no changes in the Company's internal controls over financial reporting during the second quarter of 2023 that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

### CSX CORPORATION PART II - OTHER INFORMATION

#### Item 1. Legal Proceedings

Item 103 of SEC Regulation S-K requires disclosure of certain environmental matters when a governmental authority is a party to the proceedings and such proceedings involve potential monetary sanctions that the Company reasonably believes will exceed a specified threshold. Pursuant to SEC amendments to this Item, the Company will be using a threshold of \$1 million for such proceedings. For further details, refer to Note 5, *Commitments and Contingencies*, of this quarterly report on Form 10-Q. Also refer to Part I, Item 3, Legal Proceedings in CSX's most recent annual report on Form 10-K.

#### Item 1A. Risk Factors

For information regarding factors that could affect the Company's results of operations, financial condition and liquidity, see the risk factors discussed under Part I, Item 1A (Risk Factors) of CSX's most recent annual report on Form 10-K. See also Part I, Item 2 (Forward-Looking Statements) of this quarterly report on Form 10-Q.

#### Item 2. CSX Purchases of Equity Securities

The Company continues to repurchase shares under the \$5 billion program announced in July 2022. Total repurchase authority remaining as of June 30, 2023 was \$1.3 billion. For more information about share repurchases, see Note 2, *Earnings Per Share*. Share repurchase activity for the second quarter 2023 was as follows:

#### CSX Purchases of Equity Securities for the Quarter

		for the Qu	<u>.</u>

### CERTIFICATION OF CEO AND CFO PURSUANT TO EXCHANGE ACT RULE 13a - 14(a) OR RULE 15d-14(a)

I, Joseph R. Hinrichs, certify that:

- 1. I have reviewed this Quarterly Report on Form 10-Q of CSX Corporation;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
