

Investor Overview

November–December 2024

ENPRO

Statements in this presentation that express a belief, expectation or intention, including the 2024 guidance and other statements that are not historical fact, are forward-looking statements under the Private Securities Litigation Reform Act of 1995. They involve a number of risks and uncertainties that may cause actual events and results to differ materially from such forward-looking statements. These risks and uncertainties include, but are not limited to: economic conditions in the markets served by the company's businesses and the businesses of its customers, some of which are cyclical and experience periodic downturns; the impact of geopolitical activity on those markets, including instabilities associated with the armed conflicts in Ukraine and in the Middle East region and any conflict or threat of conflict that may affect Taiwan; uncertainties with respect to the imposition of government embargoes, tariffs and trade protection measures, such as "anti-dumping" duties applicable to classes of products, and import or export licensing requirements, as well as the imposition of trade sanctions against a class of products imported from or sold and exported to, or the loss of "normal trade relations" status with, countries in which the company conducts business, could significantly increase the company's cost of products or otherwise reduce its sales and harm its business; uncertainties with respect to prices and availability of raw materials, including as a result of instabilities from geopolitical conflicts; uncertainties with respect to the company's ability to achieve anticipated growth within the semiconductor, life sciences, and other technology-enabled markets, including uncertainties with respect to receipt of CHIPS Act support and the timing of completion of the new Arizona facility; the impact of fluctuations in relevant foreign currency exchange rates or unanticipated increases in applicable interest rates; unanticipated delays or problems in introducing new products; the impact of any labor disputes; announcements by competitors of new products, services or technological innovations; changes in the company's pricing policies or the pricing policies of its competitors; risks related to the reliance of the Advanced Surface Technologies segment on a small number of significant customers; uncertainties with respect to the company's ability to identify and complete business acquisitions consistent with its strategy and to successfully integrate any businesses that it acquires; and uncertainties with respect to the amount of any payments required to satisfy contingent liabilities, including those related to discontinued operations, other divested businesses and discontinued operations of the company's predecessors, including liabilities for certain products, environmental matters, employee benefit and statutory severance obligations and other matters. Enpro's filings with the Securities and Exchange Commission, including its most recent Form 10-K and Form 10-Q reports, describe these and other risks and uncertainties in more detail. Enpro does not undertake to update any forward-looking statements made in this press release to reflect any change in management's expectations or any change in the assumptions or circumstances on which such statements are based.

Full-year guidance is subject to the risks and uncertainties discussed above and specifically excludes changes in the number of shares outstanding, changes in long-term compensation expense due to changes in the company's common stock price, impacts from future and pending acquisitions, dispositions and related transaction costs, restructuring costs, incremental impacts of tariffs and trade tensions on market demand and costs, and the impact of changes in foreign exchange rates, in each case subsequent to September 30, 2024.

This presentation also contains certain non-GAAP financial measures (*) as defined by the Securities and Exchange Commission. Reconciliations of historical non-GAAP measures to the most directly comparable GAAP equivalents are included in the appendix to this presentation. Adjusted EBITDA and adjusted diluted earnings per share anticipated for the full-year 2024 are calculated in a manner consistent with the historical presentation of these measures in the appendix. Because of the forward-looking nature of these estimates, it is impractical to present quantitative reconciliations of such measures to comparable GAAP measures, and accordingly no such reconciliations are presented.

Positioned to Deliver Significant Shareholder Value

1

Transformed portfolio to accelerate growth in leading-edge, industrial technology-related businesses with high margins and strong cash flow, both organically and through strategic acquisitions

2

Strong aftermarket exposure with critical applications, serving faster growth end markets

3

Increasing cash flow return on investment through portfolio reshaping actions, a focus on high-margin top line growth and continuous improvement initiatives

4

Maximizing long-term shareholder returns through a commitment to disciplined capital allocation, sustainability, diversity, and community involvement

5

Empowering our colleagues with a mindful, collaborative culture that values safety, inclusion, authenticity and respect

Disciplined, Value-Enhancing Growth Strategy

Strong Balance Sheet Supports Optionality

- ✓ Net leverage approximately 1.8x following the \$210M AMI acquisition in January 2024.
- ✓ \$390 million of availability under our revolving credit facility and continued future free cash flow generation provide ample financial flexibility to execute on long-term strategic growth initiatives

Investing in Long-Term Organic Growth & Pursuing Strategic Acquisitions

- ✓ Investing in multiple sources of long-term organic growth across the company, while encouraging innovation and market development
- ✓ Pursuing businesses in secular growth markets with high cash flow return on operating capital and recurring revenue
- ✓ Concentrating on products and solutions that safeguard critical environments with high barriers to entry, transferable intellectual property, high switching costs and stringent customer qualifications

Disciplined and Balanced Capital Allocation

- ✓ Prudent allocation of capital for growth opportunities and selective acquisitions that fit our strategic and financial criteria
- ✓ 2024 increase in quarterly dividend marks the 9th consecutive year of dividend increases
- ✓ \$50 million share repurchase authorization renewed in October 2024

Adjusted EBITDA	\$ 64.1	\$ 57.7	\$ 196.6	\$ 191.1

¹ In connection with the sale of GGB, accounted for as a discontinued operation, in the fourth quarter of 2022, we issued an intercompany note between a domestic and foreign entity that is denominated in a foreign currency. As a result of this note, we have recorded losses due to the changes in the foreign exchange rate. The outstanding note is hedged in order to minimize related gains or losses.

² We issued a long-term promissory note in connection to the sale of a divested business. As part of our regular review of the note, in the first quarter of 2024 we concluded a reserve was needed for expected credit losses. We will continue to monitor the note regularly and make adjustments to the reserve as needed based on known facts and circumstances.

Other expense	1.1	1.9	8.7	4.3
Adjusted Segment EBITDA	\$ 74.3	\$ 67.2	\$ 229.1	\$ 226.7

Adjusted Segment EBITDA is total segment revenue reduced by operating expenses and other costs identifiable with the segment, excluding acquisition and divestiture expenses, restructuring and impairment expense, non-controlling interest compensation, amortization of the fair value adjustment to acquisition date inventory, and depreciation and amortization.

Corporate expenses include general corporate administrative costs. Non-operating expenses not directly attributable to the segments, corporate expenses, net interest expense, goodwill impairment and income taxes are not included in the computation of Adjusted Segment EBITDA. The accounting policies of the reportable segments are the same as those for the Company.

In 2024, we refined our definition of Adjusted Segment EBITDA and corporate expenses to include certain other income or expenses previously reported in other expense, net. These items were primarily comprised of bank fees and certain foreign exchange transaction gains and losses. As a result of this change, for the quarter ended September 30, 2023, we recast our results to decrease Sealing Technologies Adjusted Segment EBITDA by \$0.1 million, increase Advanced Surface Technologies Adjusted Segment EBITDA by \$0.3 million, and increase corporate expenses by \$0.4 million. For the nine months ended September 30, 2023, we increased Advanced Surface Technologies Adjusted Segment EBITDA by \$0.2 million and increased corporate expenses by \$1.3 million.

Management of the Company believes that it would be helpful to the readers of the financial statements to understand the impact of certain selected items on the Company's reported income from continuing operations and diluted earnings per share, including items that may recur from time to time. The items adjusted for in this schedule are those that are excluded by management in budgeting or projecting for performance in future periods, as they typically relate to events specific to the period in which they occur. This presentation enables readers to better compare Enpro Inc. to other diversified industrial technology companies that do not incur the sporadic impact of restructuring activities, costs associated with previously disposed of businesses, acquisitions and divestitures, or other selected items. The adjustments in the table above relate solely to expenses attributable to Enpro Inc. and have been adjusted to remove any amounts attributable to non-controlling interests. Management acknowledges that there are many items that impact a company's reported results and this list is not intended to present all items that may have impacted these results. Other adjustments are included in selling, general, and administrative, cost of sales, and other operating expenses on the consolidated statements of operations. The adjusted income tax expense presented above is calculated using a normalized company-wide effective tax rate excluding discrete items of 25.0%. Per share amounts were calculated by dividing by the weighted-average shares of diluted common stock outstanding during the periods.

¹ In connection with the sale of GGB, accounted for as a discontinued operation, in the fourth quarter of 2022, we issued an intercompany note between a domestic and foreign entity that is denominated in a foreign currency. As a result of this note, we have recorded losses due to the changes in the foreign exchange rate. The outstanding note is hedged in order to minimize related gains or losses.

² We issued a long-term promissory note in connection to the sale of a divested business. As part of our regular review of the note, in the first quarter of 2024 we concluded a reserve was needed for expected future credit losses. We will continue to monitor the note regularly and make adjustments to the reserve as needed based on known facts and circumstances.

³ Adjusted diluted earnings per share.
