

Third Quarter 2024 Earnings Review

November 5, 2024

ENPRO

Forward-Looking Statements

Statements in this presentation that express a belief, expectation or intention, including the 2024 guidance and other statements that are not historical fact, are forward-looking statements under the Private Securities Litigation Reform Act of 1995. They involve a number of risks and uncertainties that may cause actual events and results to differ materially from such forward-looking statements. These risks and uncertainties include, but are not limited to: economic conditions in the markets served by the company's businesses and the businesses of its customers, some of which are cyclical and experience periodic downturns; the impact of geopolitical activity on those markets, including instabilities associated with the armed conflicts in Ukraine and in the Middle East region and any conflict or threat of conflict that may affect Taiwan; uncertainties with respect to the imposition of government embargoes, tariffs and trade protection measures, such as "anti-dumping" duties applicable to classes of products, and import or export licensing requirements, as well as the imposition of trade sanctions against a class of products imported from or sold and exported to, or the loss of "normal trade relations" status with, countries in which the company conducts business, could significantly increase the company's cost of products or otherwise reduce its sales and harm its business; uncertainties with respect to prices and availability of raw materials, including as a result of instabilities from geopolitical conflicts; uncertainties with respect to the company's ability to achieve anticipated growth within the semiconductor, life sciences, and other technology-enabled markets, including uncertainties with respect to receipt of CHIPS Act support and the timing of completion of the new Arizona facility; the impact of fluctuations in relevant foreign currency exchange rates or unanticipated increases in applicable interest rates; unanticipated delays or problems in introducing new products; the impact of any labor disputes; announcements by competitors of new products, services or technological innovations; changes in the company's pricing policies or the pricing policies of its competitors; risks related to the reliance of the Advanced Surface Technologies segment on a small number of significant customers; uncertainties with respect to the company's ability to identify and complete business acquisitions consistent with its strategy and to successfully integrate any businesses that it acquires; and uncertainties with respect to the amount of any payments required to satisfy contingent liabilities, including those related to discontinued operations, other divested businesses and discontinued operations of the company's predecessors, including liabilities for certain products, environmental matters, employee benefit and statutory severance obligations and other matters. Enpro's filings with the Securities and Exchange Commission, including its most recent Form 10-K and Form 10-Q reports, describe these and other risks and uncertainties in more detail. Enpro does not undertake to update any forward-looking statements made in this press release to reflect any change in management's expectations or any change in the assumptions or circumstances on which such statements are based.

Full-year guidance is subject to the risks and uncertainties discussed above and specifically excludes changes in the number of shares outstanding, changes in long-term compensation expense due to changes in the company's common stock price, impacts from future and pending acquisitions, dispositions and related transaction costs, restructuring costs, incremental impacts of tariffs and trade tensions on market demand and costs, and the impact of changes in foreign exchange rates, in each case subsequent to September 30, 2024.

This presentation also contains certain non-GAAP financial measures (*) as defined by the Securities and Exchange Commission. Reconciliations of historical non-GAAP measures to the most directly comparable GAAP equivalents are included in the appendix to this presentation. Adjusted EBITDA, adjusted diluted earnings per share and free cash flow anticipated for the full-year 2024 are calculated in a manner consistent with the historical presentation of these measures in the appendix. Because of the forward-looking nature of these estimates, it is impractical to present quantitative reconciliations of such measures to comparable GAAP measures, and accordingly no such reconciliations are presented.

ENPRO

Third Quarter 2024 Financial Performance

\$ in millions, except per share data

Sales

- Strong general industrial and aerospace markets, firm nuclear demand, strategic pricing actions and the acquisition of AMI balanced slow semiconductor capital spending and a steep decline in commercial vehicle OEM sales
- Organic sales were up slightly

Gross Profit & Margin

- Favorable mix in Sealing Technologies, strategic pricing actions, supply chain efficiency and continuous improvement and the addition of AMI drove year-over-year gross margin expansion

Adjusted EBITDA* & Margin*

- Adjusted EBITDA* of \$64.1 million increased 11.1% over the prior-year period driven primarily by the same factors driving gross profit
- Adjusted EBITDA margin* of 24.6%, increased 160 bps

Adjusted Diluted EPS*

- Adjusted diluted earnings per share of \$1.74 increased 10.1% compared to the prior-year period driven by the factors impacting gross margin and adjusted EBITDA

Sealing Technologies – Third Quarter 2024 Performance

\$ in millions

Sales

- Strength in general industrial in North America and Europe, aerospace, strategic pricing initiatives, AMI and firm food and pharma and nuclear demand, offset commercial vehicle OEM declines of 33% and slow Asian industrial markets
- Organic sales essentially flat

Adjusted EBITDA & Margin

- Adjusted segment EBITDA of \$55.1 million increased 15.0%
- Favorable aftermarket mix, continuous improvement initiatives, contribution from AMI and strategic pricing actions expanded adjusted EBITDA margin by 300 bps to 32.7%
- Adjusted segment EBITDA increased 7.1% organically

Advanced Surface Technologies – Third Quarter 2024 Performance

\$ in millions

Sales

- Growth in precision cleaning solutions for advanced chip production offset slow wafer fab equipment demand and optical filters sales

Adjusted EBITDA & Margin

- Adjusted segment EBITDA margin narrowed 80 basis points due to under absorption of capacity resulting from slower wafer fab equipment demand and increased operating expenses tied to growth opportunities, particularly for precision cleaning solutions

Balance Sheet, Cash Flow & Capital Allocation

\$ in millions

Net Leverage			Commentary
<i>Reported September 30, 2024</i>			
	Term Loans ^(1,2)	\$ 293	<ul style="list-style-type: none"> • Strong balance sheet; ample liquidity consisting of \$206.9M in cash and \$390.0M³ available under revolver • Free cash flow* for the nine months ended September 30, 2024 was \$82.8M, down from \$133.8M from the prior year due to timing of working capital and higher cash tax payments • Paid \$19.0M in dividends for the nine months ended September 30, 2024 • Free cash flow* expected to exceed \$110 million for 2024
	Senior Notes ⁽¹⁾	\$ 350	
	Capital Lease Obligations	\$ 1

¹ In connection with the sale of GGB, accounted for as a discontinued operation, in the fourth quarter of 2022, we issued an intercompany note between a domestic and foreign entity that is denominated in a foreign currency. As a result of this note, we have recorded losses due to the changes in the foreign exchange rate. The outstanding note is hedged in order to minimize related gains or losses.

² We issued a long-term promissory note in connection to the sale of a divested business. As part of our regular review of the note, in the first quarter of 2024 we concluded a reserve was needed for expected credit losses. We will continue to monitor the note regularly and make adjustments to the reserve as needed based on known facts and circumstances.

Other expense	1.1	1.9	8.7	4.3
Adjusted Segment EBITDA	\$ 74.3	\$ 67.2	\$ 229.1	\$ 226.7

Adjusted Segment EBITDA is total segment revenue reduced by operating expenses and other costs identifiable with the segment, excluding acquisition and divestiture expenses, restructuring and impairment expense, non-controlling interest compensation, amortization of the fair value adjustment to acquisition date inventory, and depreciation and amortization.

Corporate expenses include general corporate administrative costs. Non-operating expenses not directly attributable to the segments, corporate expenses, net interest expense, and income taxes are not included in the computation of Adjusted Segment EBITDA. The accounting policies of the reportable segments are the same as those for the Company.

In 2024, we refined our definition of Adjusted Segment EBITDA and corporate expenses to include certain other income or expenses previously reported in other expense, net. These items were primarily comprised of bank fees and certain foreign exchange transaction gains and losses. As a result of this change, for the quarter ended September 30, 2023, we recast our results to decrease Sealing Technologies Adjusted Segment EBITDA by \$0.1 million, increase Advanced Surface Technologies Adjusted Segment EBITDA by \$0.3 million, and increase corporate expenses by \$0.4 million. For the nine months ended September 30, 2023, we increased Advanced Surface Technologies Adjusted Segment EBITDA by \$0.2 million and increased corporate expenses by \$1.3 million.

Management of the Company believes that it would be helpful to the readers of the financial statements to understand the impact of certain selected items on the Company's reported income from continuing operations and diluted earnings per share, including items that may recur from time to time. The items adjusted for in this schedule are those that are excluded by management in budgeting or projecting for performance in future periods, as they typically relate to events specific to the period in which they occur. This presentation enables readers to better compare Enpro Inc. to other diversified industrial technology companies that do not incur the sporadic impact of restructuring activities, costs associated with previously disposed of businesses, acquisitions and divestitures, or other selected items. The adjustments in the table above relate solely to expenses attributable to Enpro Inc. and have been adjusted to remove any amounts attributable to non-controlling interests. Management acknowledges that there are many items that impact a company's reported results and this list is not intended to present all items that may have impacted these results. Other adjustments are included in selling, general, and administrative, cost of sales, and other operating expenses on the consolidated statements of operations. The adjusted income tax expense presented above is calculated using a normalized company-wide effective tax rate excluding discrete items of 25.0%. Per share amounts were calculated by dividing by the weighted-average shares of diluted common stock outstanding during the periods.

¹ In connection with the sale of GGB, accounted for as a discontinued operation, in the fourth quarter of 2022, we issued an intercompany note between a domestic and foreign entity that is denominated in a foreign currency. As a result of this note, we have recorded losses due to the changes in the foreign exchange rate. The outstanding note is hedged in order to minimize related gains or losses.

² We issued a long-term promissory note in connection to the sale of a divested business. As part of our regular review of the note, in the first quarter of 2024 we concluded a reserve was needed for expected future credit losses. We will continue to monitor the note regularly and make adjustments to the reserve as needed based on known facts and circumstances.

³ Adjusted diluted earnings per share.
