Disclaimer

Certain statements contained in this presentation constitute forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995. Forward-looking statements are statements that do not directly relate to any historical or current fact. When used herein, words such as "expects," "anticipates," "believes," "seeks," "estimates," "plans," "intends," "future," "will," "would," "could," "can," "may," "target," "goal" and similar words are intended to identify forward-looking statements. Examples of forward-looking statements include, but are not limited to, statements we make concerning our expectations as to our future growth, prospects, financial outlook and business strategy, including our expectations for our fiscal year 2024 adjusted EBITDA, adjusted EPS and reported free cash flow conversion, as well as our expectations for margin expansion, our fiscal year 2024 effective tax rates, and the expected timing for closing the proposed transaction to spin off and merge the Separated Businesses with Amentum (together the "Combined Company") in a proposed transaction that is intended to be tax-free to stockholders for U.S. federal income tax purposes (hereinafter referred to as the "Separation Transaction"), and any assumptions underlying any of the foregoing. Although such statements are based on management's current estimates and expectations, and/or currently available competitive, financial, and economic data, forward-looking statements are inherently uncertain, and you should not place undue reliance on such statements as actual results may differ materially. We caution the reader that there are a variety of risks, uncertainties and other factors that could cause actual results to differ materially from what is contained, projected or implied by our forward-looking statements. Such factors include the possibility that closing conditions for the Separation Transaction may not be satisfied or waived, on a timely basis or otherwise, uncertainties as to the impact of the Separation Transaction on Jacobs' and the Combined Company's businesses if the transaction is completed, including a possible impact on Jacobs' credit profile, and a possible decrease in the trading price of Jacobs' and/or the Combined Company's shares, the possibility that the Separation Transaction, if completed, may not qualify for the expected tax treatment, the ability to obtain all required regulatory approvals, the risk that any consents or approvals required in connection with the Separation Transaction may not be received, the risk that the Separation Transaction may not be completed on the terms or in the time-frame expected by the parties, uncertainties as to our and our stockholders' respective ownership percentages of the Combined Company and the value to be derived from the disposition of Jacobs' stake in the Combined Company, unexpected costs, charges or expenses resulting from the Separation Transaction, business and management strategies and the growth expectations of the Combined Company, the inability of Jacobs and the Combined Company to retain and hire key personnel, customers or suppliers while the Separation Transaction is pending or after it is completed, and the ability of the Company to eliminate all stranded costs, as well as other factors related to our business, such as our ability to fully execute on our three-year corporate strategy, including our ability to invest in the tools needed to implement our strategy, competition from existing and future competitors in our target markets, our ability to achieve the cost-savings and synergies contemplated by our recent acquisitions within the expected time frames or to achieve them fully and to successfully integrate acquired businesses, the impact of acquisitions, strategic alliances, divestitures, and other strategic events resulting from evolving business strategies, including on the Company's ability to maintain its culture and retain key personnel, the impact of any pandemic, and any resulting economic downturn on our results, prospects and opportunities, measures or restrictions imposed by governments and health officials in response to the pandemic, the timing of the award of projects and funding and potential changes to the amounts provided for under the Infrastructure Investment and Jobs Act, as well as other legislation related to governmental spending, any changes in U.S. or foreign tax laws, statutes, rules, regulations or ordinances that may adversely impact our future financial positions or results of operations, financial market risks that may affect the Company, including by affecting the Company's access to capital, the cost of such capital and/or the Company's funding obligations under defined benefit pension and postretirement plans, as well as general economic conditions, including inflation and the actions taken by monetary authorities in response to inflation, changes in interest rates, and foreign currency exchange rates, changes in capital markets, instability in the banking industry, or the impact of a possible recession or economic downturn on our results, prospects and opportunities, and geopolitical events and conflicts among others. The impact of such matters includes, but is not limited to, the possible reduction in demand for certain of our product solutions and services and the delay or abandonment of ongoing or anticipated projects due to the financial condition of our clients and suppliers or to governmental budget constraints or changes to governmental budgetary priorities; the inability of our clients to meet their payment obligations in a timely manner or at all; potential issues and risks related to a significant portion of our employees working remotely; illness, travel restrictions and other workforce disruptions that have and could continue to negatively affect our supply chain and our ability to timely and satisfactorily complete our clients' projects; difficulties associated with retaining and hiring additional employees; and the inability of governments in certain of the countries in which we operate to effectively mitigate the financial or other impacts of any future pandemics or infectious disease outbreaks on their economies and workforces and our operations therein. The foregoing factors and potential future developments are inherently uncertain, unpredictable and, in many cases, beyond our control. For a description of these and additional factors that may occur that could cause actual results to differ from our forward-looking statements see our Annual Report on Form 10-K for the year ended September 29, 2023, and in particular the discussions contained therein under Item 1 - Business; Item 1A - Risk Factors; Item 3 - Legal Proceedings; and Item 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations, and Part II, Item 1A - Risk Factors, in our most recently filed Quarterly Report on Form 10-Q, as well as the Company's other filings with the U.S. Securities and Exchange Commission. The Company is not under any duty to update any of the forward-looking statements after the date of this presentation to conform to actual results, except as required by applicable law.

Non-GAAP Financial Measures and Operating Metrics

To supplement the financial results presented in accordance with generally accepted accounting principles in the United States ("GAAP"), we present certain non-GAAP financial measures within the meaning of Regulation G under the Securities Exchange Act of 1934, as amended. These measures are not, and should not be viewed as, substitutes for GAAP financial measures. More information about these non-GAAP financial measures and reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures can be found at the end of this presentation and in the supplemental disclosures package on our investor relations website at invest.jacobs.com.

Transformation to less volatile and higher value services and solutions

2015-2016

Assess and Focus

- New management team joins Jacobs
- Developed strategy aligned to secular growth opportunities

2017-2023

De-risk and Shift to Higher Value Services

- Acquired CH2M to accelerate growth in high value infrastructure
- Divested energy, chemical and resources business
- Acquired majority ownership in PA Consulting

Today & future

Challenging Today. Reinventing Tomorrow.

- Foundation of efficient, competitive businesses
- Global, premier high-end solutions provider
- Positioning two leading businesses for success
- Evolving existing culture to accelerate our strategy

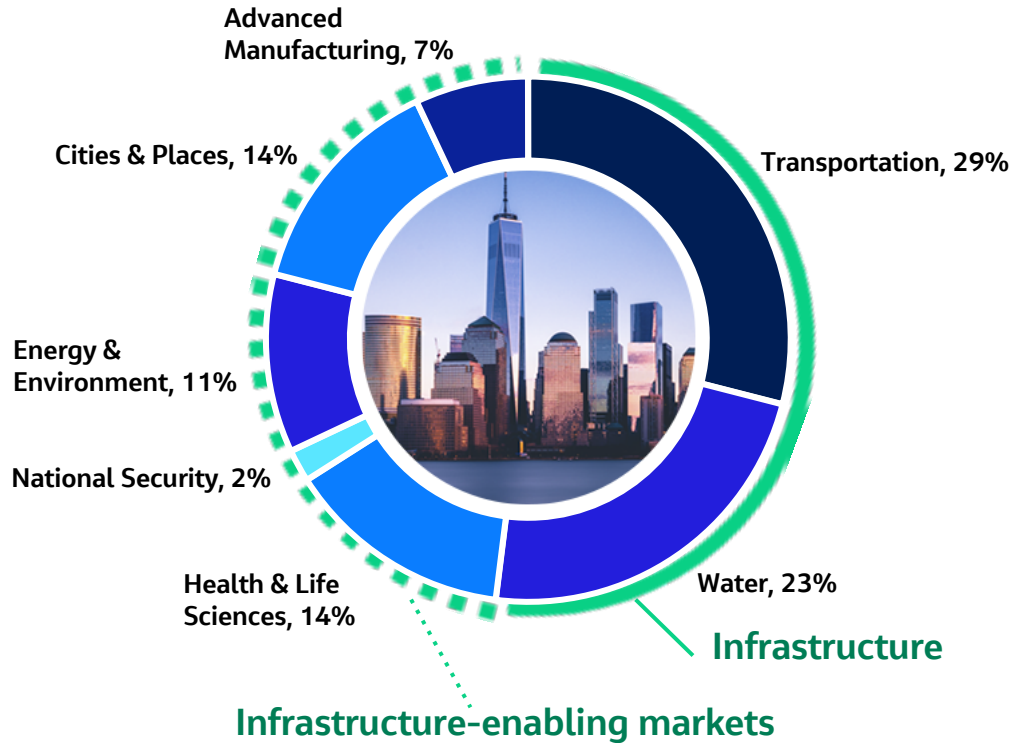

Note: See Use of Non-GAAP financial measures and operating metrics at the end of this presentation.

¹ Based on Revenue per applicable 10K filing

² Projected Adj. EBITDA Margin, dependent on successful completion of CMS separation. Reconciliation of fiscal year 2025 adjusted EBITDA Margin to the most directly comparable GAAP measure is not available without unreasonable efforts because the Company cannot predict with sufficient certainty all of the components required to provide such reconciliation.

Creating a New Government Services Leader

Jacobs To Spin-off and Merge Its CMS and C&I Businesses with Amentum

Transaction rationale

- Jacobs to **spin-off and merge its CMS business with Amentum**, creating a new independent, publicly-traded company
- Transaction perimeter includes **Jacobs CMS segment plus the closely related Cyber and Intelligence unit (“C&I”)** from Divergent Solutions (“DVS”)
- Culmination of a **comprehensive review to determine highest value alternative for Jacobs’ shareholders** following inbound inquiries received after spin-off announcement of the CMS segment on May 9th
 - Creates a **scaled pure-play government services engineering and technology leader** with an enhanced strategic and financial profile
 - Drives higher growth by combining portfolios with **complementary capabilities and client sets**
 - Benefits from **~\$50-70M of expected net cost synergies**
 - Preserves **tax efficiency** of a spin for Jacobs’ shareholders
- Transaction marks a **critical milestone in Jacobs’ strategic portfolio transformation** to a more focused, higher margin portfolio aligned to critical infrastructure tailwinds
- Achieves objective of **creating two independent companies** after the separation, each positioned for greater success

Transaction summary

Transaction Structure

- **Reverse Morris Trust** that is intended to be tax-free to shareholders for U.S. federal income tax purposes
- Jacobs and Jacobs shareholders to own up to **63%** of combined company
 - **Jacobs shareholders: 51% - 55%**
 - **Jacobs company retained stake: 7.5% - 8%** depending on the achievement of certain fiscal year 2024 operating profit targets of the CMS and C&I businesses
- **\$1.0B** cash dividend to Jacobs at closing
- Combined FY24 Adj. EBITDA of approximately \$1.1B including **~\$50-70M of expected net cost synergies**
- Additional value to Jacobs through disposition of retained stake in combined company
- ~\$4.7B of expected net debt at close, implying ~4x net leverage at close with clear path to deleveraging below 3x

Management

- **Steve Demetriou** will serve as Executive Chair of the combined company
- **John Heller** (current CEO of Amentum) will serve as CEO of the combined company
- **Dr. Steve Arnette** (EVP and President of CMS) will serve as COO of the combined company
- **Travis Johnson** (current CFO of Amentum) will serve as CFO of the combined company
- Additional members of the combined company's senior management team will be drawn from both companies

Timing

- Transaction expected to **close in second half of September 2024**
- Closing will be subject to regulatory approvals and other customary closing conditions
- Post-closing, combined company will be publicly traded

Separation Transaction Updates

- An updated Form 10 was publicly filed on August 5, 2024 with the U.S. Securities and Exchange Commission, but not yet declared effective.
- This filing is part of the planned spin-off of Critical Mission Solutions business and parts of Divergent Solutions business, including Cyber & Intelligence, and merger of the separated businesses with Amentum.
- Filed under “Amazon Holdco Inc”. Upon closing, the merged entity will be named Amentum Holdings, Inc.
- Closing now expected in the second half of September 2024, subject to satisfaction of remaining closing conditions.
- Amentum hosted a Capital Markets Day on Tuesday, August 13, 2024 at the New York Stock Exchange in New York City. For more details, visit www.amentum.com/investor-relations.

¹Reconciliation of reported free cash flow conversion for fiscal year 2024 to the most directly comparable GAAP measure is not available without unreasonable efforts because the Company cannot predict with sufficient certainty all the components required to provide such reconciliation, including with respect to the costs and charges relating to transaction expenses, restructuring and integration and other non-recurring or unusual items to be incurred in such periods.

Cost Optimization Plan and Outlook

Cost Optimization Plan

Driving >300 bps in margin expansion

Standalone Jacobs Adj. EBITDA Margin

Over 300 bps of expected Adj. EBITDA Margin expansion achieved through:

- Separation of lower margin business
- \$140M of cost optimization initiatives
- Operating leverage

Total Cost Optimization: > \$140M

¹Assumes successful completion of CMS separation in FY24.

Outlook & Summary

Consolidated Fiscal 2024 Outlook

	FY23	FY24E ¹	Y/Y Growth (at mid-point)
FY Adjusted EBITDA	\$1.44B	\$1.540B - \$1.585B	9%
FY Adjusted EPS	\$7.20	\$7.85 - \$8.05	10%
Net Interest Expense	\$142M	\$130M - \$140M	(5%)
Adj. Non-Controlling Interest	\$80M	\$75M - \$85M	—
FY Effective Tax Rate	21.6%	22.0%	

Additional Considerations

- Remain committed to double-digit multi-year earnings growth driven by accelerating revenue, improving margin performance, strong backlog and a robust global sales pipeline aligned with our strategic accelerators.
- Incorporates full-year contribution of businesses to be separated.

Fiscal Year 2024 Assumptions

- Fully diluted average share count: ~126M
- FY adjusted effective tax rate: ~22%
- Q4 adjusted effective tax rate: ~27%
- Annual CAPEX: ~1% of net revenue
- Depreciation: ~\$100M
- Reported FCF conversion > 100%
- FY P&PS Adj. OP margin > 14.9%

Note: See Use of Non-GAAP financial measures and operating metrics at the end of this presentation.

¹Reconciliation of expected fiscal year 2024 adjusted EPS and adjusted EBITDA, net interest expense, adjusted non-controlling interests, adjusted effective tax rate for the full year and fourth quarter, and reported free cash flow conversion for fiscal year 2024 to the most directly comparable GAAP measure is not available without unreasonable efforts because the Company cannot predict with sufficient certainty all the components required to provide such reconciliation, including with respect to the costs and charges relating to transaction expenses, restructuring and integration and other non-recurring or unusual items to be incurred in such periods.

Use of Non-GAAP financial measures and operating metrics

In this presentation, the Company has included certain non-GAAP financial measures as defined in Regulation G promulgated under the Securities Exchange Act of 1934, as amended. These non-GAAP measures are described below.

Adjusted net revenue is calculated excluding pass through revenue of the Company's People & Places Solutions and Divergent Solutions segments from the Company's revenue from continuing operations. Pass through revenues are amounts we bill to clients on projects where we are procuring subcontract labor or third-party materials and equipment on behalf of the client. These amounts are considered pass throughs because we receive no or only a minimal mark-up associated with the billed amounts. We have amended our name and convention for revenue, excluding pass-through costs from "net revenue" to "adjusted net revenue." Note, this is simply a name change intended to make the non-GAAP nature of this measure more prominent and does not impact measurement.

Adjusted earnings from continuing operations before taxes, adjusted income taxes from continuing operations, adjusted net earnings from continuing operations and adjusted EPS from continuing operations are calculated by:

1. Excluding items collectively referred to as Restructuring, Transaction and Other Charges, which include:
 - a. costs and other charges associated with our Focus 2023 transformation initiatives, including activities associated with the re-scaling and repurposing of physical office space, employee separations, contractual termination fees and related expenses, referred to as "Focus 2023 Transformation, mainly real estate rescaling efforts";
 - b. transaction costs and other charges incurred in connection with the Separation Transaction and acquisitions of BlackLynx and StreetLight and the strategic investment in PA Consulting, including advisor fees, change in control payments, and the impact of the quarterly adjustment to the estimated performance based payout of contingent consideration to the sellers in connection with certain acquisitions; impacts resulting from the EPS numerator adjustment relating to the redeemable noncontrolling interests preference share repurchase and reissuance activities and similar transaction costs and expenses (collectively referred to as "Transaction Costs");
 - c. recoveries, costs and other charges associated with restructuring activities implemented in connection with the Separation Transaction, including advisor fees, involuntary terminations and related costs, the acquisitions of CH2M, BlackLynx, and StreetLight, the strategic investment in PA Consulting, the sale of the ECR business and other cost reduction and restructuring initiatives, which included involuntary terminations of officers and employees, costs associated with co-locating offices of acquired companies, separating physical locations of continuing operations, professional services and personnel costs, amounts relating to certain commitments and contingencies relating to discontinued operations of the CH2M business, including the final settlement charges relating to the Legacy CH2M Matter, net of previously recorded reserves, third party recoveries recorded as receivables reducing SG&A, and charges associated with the impairment and final closing activities of our AWE ML joint venture (collectively referred to as "Restructuring, integration, separation and other charges").
2. Excluding items collectively referred to as "Other adjustments",¹ which include:
 - a. adding back intangible assets amortization and impairment charges;
 - b. impact of certain subsidiary level contingent equity-based agreements in connection with the transaction structure of our PA Consulting investment; and
 - c. impacts related to tax rate increases in the UK in a prior period.

Use of Non-GAAP financial measures and operating metrics (cont.)

Adjustments to derive adjusted net earnings from continuing operations and adjusted EPS from continuing operations are calculated on an after-tax basis.

Free cash flow (FCF) is calculated as net cash provided by operating activities as reported on the statement of cash flows less additions to property and equipment.

Adjusted EBITDA is calculated by adding income tax expense, depreciation expense and interest expense to, and deducting interest income from, adjusted net earnings from continuing operations.

P&PS Adjusted Operating Margin is a ratio of the GAAP operating profit for the segment to the segment's adjusted net revenue. For a reconciliation of revenue to adjusted net revenue, see "Segment Information".

Certain percentage changes are quantified on a constant currency basis, which provides information assuming that foreign currency exchange rates have not changed between the prior and current periods. For purposes of constant currency calculations, we use the prior period average exchange rates as applied to the current period adjusted amounts.

We believe that the measures listed above are useful to management, investors and other users of our financial information in evaluating the Company's operating results and understanding the Company's operating trends by excluding or adding back the effects of the items described above and below, the inclusion or exclusion of which can obscure underlying trends. Additionally, management uses such measures in its own evaluation of the Company's performance, particularly when comparing performance to past periods, and believes these measures are useful for investors because they facilitate a comparison of our financial results from period to period.

This presentation also contains certain financial and operating metrics which management believes are useful in evaluating the Company's performance. Backlog represents revenue or gross profit, as applicable, we expect to realize for work to be completed by our consolidated subsidiaries and our proportionate share of work to be performed by unconsolidated joint ventures. Gross margin in backlog refers to the ratio of gross profit in backlog to gross revenue in backlog. For more information on how we determine our backlog, see our Backlog Information in our most recent annual report filed with the Securities and Exchange Commission. Cash conversion refers to a ratio of cash flow from operations to GAAP net earnings from continuing operations. Reported FCF conversion refers to a ratio of FCF to GAAP net earnings from continuing operations. We regularly monitor these operating metrics to evaluate our business, identify trends affecting our business, and make strategic decisions.

The Company provides non-GAAP measures to supplement U.S. GAAP measures, as they provide additional insight into the Company's financial results. However, non-GAAP measures have limitations as analytical tools and should not be considered in isolation and are not in accordance with, or a substitute for, U.S. GAAP measures. In addition, other companies may define non-GAAP measures differently, which limits the ability of investors to compare non-GAAP measures of the Company to those used by our peer companies.

The following tables reconcile the components and values of U.S. GAAP earnings from continuing operations before taxes, income taxes from continuing operations, net earnings attributable to Jacobs from continuing operations, Diluted Net Earnings from Continuing Operations Per Share (which we refer to as EPS from continuing operations), to the corresponding "adjusted" amount, net cash provided by operating activities to reported free cash flow and revenue to adjusted net revenue. For the comparable period presented below, such adjustments consist of amounts incurred in connection with the items described above. Amounts are shown in thousands, except for per-share data (note: earnings per share amounts may not total due to rounding).
