NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended September 30, 2024 and 2023 (Unaudited, tabular amounts in millions of United States dollars, unless otherwise noted)

1. DESCRIPTION OF BUSINESS AND NATURE OF OPERATIONS

Kinross Gold Corporation and its subsidiaries and joint arrangements (collectively, "Kinross" or the "Company") are engaged in gold mining and related activities, including exploration and acquisition of gold-bearing properties, extraction and processing of gold-containing ore and reclamation of gold mining properties. Kinross Gold Corporation, the ultimate parent, is a public company incorporated and domiciled in Canada with its registered office at 25 York Street, 17th floor, Toronto, Ontario, Canada, M5J 2V5. Kinross' gold production and exploration activities are carried out principally in Canada, the United States, Brazil, Chile, Mauritania and Finland. Gold is produced in the form of doré, which is shipped to refineries for final processing. Kinross also produces and sells a quantity of silver. The Company is listed on the Toronto Stock Exchange and the New York Stock Exchange.

The unaudited interim condensed consolidated financial statements ("interim financial statements") of the Company for the period ended September 30, 2024 were authorized for issue in accordance with a resolution of the Board of Directors on November 5, 2024.

2. BASIS OF PRESENTATION

These interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 "Interim Financial Reporting" as issued by the International Accounting Standards Board ("IASB"). The accounting policies applied in these interim financial statements are consistent with those used in the annual audited consolidated financial statements for the year ended December 31, 2023, except for the adoption of amendments to IAS 1 "Presentation of Financial Statements" ("IAS 1"), IFRS 16 "Leases" ("IFRS 16") and IAS 7 "Statement of Cash Flows" ("IAS 7"). See Note 3.

These interim financial statements do not include all disclosures required by International Financial Reporting Standards ("IFRS") for annual audited consolidated financial statements and accordingly should be read in conjunction with the Company's annual audited consolidated financial statements for the year ended December 31, 2023, prepared in accordance with IFRS as issued by the IASB.

3. CHANGES IN MATERIAL ACCOUNTING POLICIES AND RECENT ACCOUNTING PRONOUNCEMENTS

i. Changes in Material Accounting Policies

On January 1, 2024, the Company adopted amendments to IAS 1 which clarify that the classification of liabilities as current or non-current should be based on rights that exist at the end of the reporting period and that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability. For liabilities with covenants, the amendments clarify that only covenants with which an entity is required to comply on or before the reporting date affect the classification as current or non-current. The amendments did not have an impact on the Company's interim financial statements and the comparative period on the date of adoption.

ii. Recent Accounting Pronouncements Adopted

On January 1, 2024, the Company adopted amendments to IFRS 16 which add subsequent measurement requirements for sale and leaseback transactions, particularly those with variable lease payments. The amendments require the seller-lessee to subsequently measure lease liabilities in a way such that it does not recognize any gain or loss relating to the right of use it retains. The amendments did not have an impact on the Company's interim financial statements on the date of adoption.

On January 1, 2024, the Company adopted amendments to IAS 7 requiring entities to provide qualitative and quantitative information about their supplier finance arrangements. In connection with the amendments to IAS 7, the IASB also issued amendments to IFRS 7 "Financial Instruments: Disclosures" ("IFRS 7") requiring entities to disclose whether they have accessed, or have access to, supplier finance arrangements that would provide the entity with extended payment terms or the suppliers with early payment terms. The amendments did not have an impact on the Company's interim financial statements on the date of adoption.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended September 30, 2024 and 2023 (Unaudited, tabular amounts in millions of United States dollars, unless otherwise noted)

iii. Recent Accounting Pronouncements Issued Not Yet Adopted

On August 15, 2023, the IASB issued amendments to IAS 21 "The Effects of Changes in Foreign Exchange" to specify how to assess whether a currency is exchangeable and how to determine the exchange rate when it is not exchangeable. The amendments specify that a currency is exchangeable when it can be exchanged through market or exchange mechanisms that create enforceable rights and obligations without undue delay at the measurement date and the specified purpose. For non-exchangeable currencies, an entity is required to estimate the spot exchange rate as the rate that would have applied to an orderly exchange transaction between market participants at the measurement date under prevailing economic conditions. The amendments are effective on January 1, 2025 and are not expected to have a significant impact on the Company's financial statements.

On April 9, 2024, the IASB issued IFRS 18 "Presentation and Disclosure in the Financial Statements" ("IFRS 18") replacing IAS 1. IFRS 18 introduces categories and defined subtotals in the statement of profit or loss, disclosures on management-defined performance measures, and requirements to improve the aggregation and disaggregation of information in the financial statements. As a result of IFRS 18, amendments to IAS 7 were also issued to require that entities use the operating profit subtotal as the starting point for the indirect method of reporting cash flows from operating activities and also to remove presentation alternatives for interest and dividends paid and received. Similarly, amendments to IAS 33 "Earnings per Share" were issued to permit disclosure of additional earnings per share figures using any other component of the statement of profit or loss, provided the numerator is a total or subtotal defined under IFRS 18. IFRS 18 is effective for annual reporting periods beginning on or after January 1, 2027, and is to be applied retrospectively, with early adoption permitted. The Company is currently assessing the impact of the standard on its financial statements.

On May 30, 2024, the IASB issued narrow scope amendments to IFRS 9 "Financial Instruments" and IFRS 7. The amendments include the clarification of the date of initial recognition or derecognition of financial liabilities, including financial liabilities that are settled in cash using an electronic payment system. The amendments also introduce additional disclosure requirements to enhance transparency regarding investments in equity instruments designated at FVOCI and financial instruments with contingent features. The amendments are effective for annual periods beginning on or after January 1, 2026, with early adoption permitted. The Company is currently assessing the impact of the amendments on its financial statements.

4. SIGNIFICANT JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of these interim financial statements requires the use of certain significant accounting estimates and judgments by management in applying the Company's accounting policies. The areas involving significant judgments, estimates and assumptions have been set out in and are consistent with Note 5 of the Company's annual audited consolidated financial statements for the year ended December 31, 2023.

	\$	(74.1) \$	- \$	(74.1)	\$ -		

i. Property, plant and equipment

At September 30, 2024, the Company identified the increase in the Company's future gold price estimates as an indicator of impairment reversal and performed an assessment to determine the recoverable amount of the Round Mountain cash generating unit ("CGU"). The recoverable amount was determined to be greater than the carrying amount, and as such, an impairment reversal of \$74.1 million was recorded to property, plant and equipment. The reversal was limited to the carrying value that would have been determined, net of any applicable depreciation, had no impairment charge been recognized previously, and represents the full reversal of the impairment charge previously recorded. The tax impact of the impairment reversal at Round Mountain was an income tax expense of \$2.6 million. After giving effect to the impairment reversal, the carrying value of Round Mountain was \$464.5 million as at September 30, 2024.

Key assumptions used in determining the recoverable amount included estimated 2024, 2025, 2026 and long-term gold prices of \$2,300, \$2,300, \$2,200 and \$2,000 per ounce, respectively, and short-term and long-term oil prices of \$80 per barrel and \$70 per barrel. The discount rate applied to present value the net future cash flows, based on a real weighted average cost of capital, was 5.02%. The discount rate applied for the previously recorded impairment charge in 2022 was 5.20%.

7. FAIR VALUE MEASUREMENT

i. Recurring fair value measurement

Carrying values for financial instruments carried at amortized cost, including cash and cash equivalents, restricted cash, short-term investments, accounts receivable, and accounts payable and accrued liabilities, approximate fair values due to their short-term maturities.

Assets (liabilities) measured at fair value on a recurring basis as at September 30, 2024 include:

	Level 1	Level 2	Level 3	Aggregate Fair Value
Equity investments at FVOCI	\$ 64.7 \$	- \$	- \$	64.7

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended September 30, 2024 and 2023 (Unaudited, tabular amounts in millions of United States dollars, unless otherwise noted)

The valuation techniques that are used to measure fair value are as follows:

Equity investments at FVOCI

Equity investments at FVOCI include shares in publicly traded companies listed on a stock exchange. The fair value of equity investments at FVOCI for shares in publicly traded companies is determined based on a market approach reflecting the closing price of each particular security at the consolidated balance sheet date. The closing price is a quoted market price obtained from the exchange that is the principal active market for the particular security, and therefore these equity instruments are classified within Level 1 of the fair value hierarchy.

Derivative contracts

The Company's derivative contracts are valued using pricing models and the Company generally uses similar models to value similar instruments. Such pricing models require a variety of inputs, including contractual cash flows, quoted market prices, applicable yield curves and credit spreads. The fair value of derivative contracts is based on quoted market prices for comparable contracts and represents the amount the Company would have received from, or paid to, a counterparty to unwind the contract at the quoted market rates in effect at the consolidated balance sheet date and therefore derivative contracts are classified within Level 2 of the fair value hierarchy.

ii. Fair value measurements related to non-financial assets

The Company recorded a reversal of a previously recorded impairment charge related to the property, plant and equipment at Round Mountain at September 30, 2024, mainly due to changes in the estimates of future gold prices used to determine the recoverable amount of the Round Mountain CGU. The recoverable amount was determined on a fair value less cost of disposal basis using certain unobservable assumptions and as a result was classified within Level 3 of the fair value hierarchy. See Note 6.

iii. Fair value of financial assets and liabilities not measured and recognized at fair value

Long-term debt is measured at amortized cost. The fair value of long-term debt is primarily measured using market determined variables, and therefore is classified within Level 2 of the fair value hierarchy. See Note 8.

The Company's senior notes consist of \$500.0 million principal amount of 4.50% notes due in 2027, \$500.0 million principal amount of 6.250% notes due in 2033 and \$250.0 million principal amount of 6.875% notes due in 2041.

ii. Revolving credit facility and term loan

As at September 30, 2024, the Company had utilized \$6.9 million (December 31, 2023 - \$6.8 million) of its \$1,500.0 million revolving credit facility, entirely for letters of credit.

On October 28, 2024, the Company amended its \$1,500 million revolving credit facility to extend the maturity by two years to October 2029, restoring a five-year term.

The term loan, maturing on March 7, 2025, has no mandatory amortization payments, includes a three-year extension option upon approval of the lenders, and can be repaid at any time prior to maturity. During the three and nine months ended September 30, 2024, the Company repaid \$350.0 million and \$550.0 million, respectively, of the outstanding balance on the

⁽b) The fair value of senior notes is primarily determined using quoted market determined variables.

term loan, with \$450.0 million in principal outstanding as of September 30, 2024. On November 1, 2024, the Company repaid an additional \$100.0 million of the outstanding balance on the term loan.

Loan interest on the revolving credit facility and term loan is variable and is dependent on the Company's credit rating. Based on the Company's credit rating at September 30, 2024, interest charges and fees are as follows:

Type of credit	
Revolving credit facility	SOFR plus 1.45%
Term loan	SOFR plus 1.25%
Letters of credit	0.967-1.45%
Standby fee applicable to unused availability	0.29%

The revolving credit facility agreement and the term loan agreement contain various covenants including limits on indebtedness, asset sales and liens. The Company was in compliance with its financial covenant in the credit agreements as at September 30, 2024.

iii. Other

Effective July 1, 2024, the Company entered into an amendment to increase the Letter of Credit guarantee facility with Export Development Canada ("EDC") from \$300.0 million to \$400.0 million and extended the maturity date from June 30, 2024 to June 30, 2026. Total fees related to letters of credit under this facility were 0.75% of the utilized amount. As at September 30, 2024, \$236.0 million (December 31, 2023 - \$235.7 million) was utilized under this facility.

At September 30, 2024, the Company also had \$258.6 million (December 31, 2023 - \$241.8 million) in letters of credit and surety bonds outstanding in respect of its operations in Brazil, Mauritania, the United States and Chile, as well as its discontinued operations in Ghana, which have been issued pursuant to arrangements with certain international banks and incur average fees of 0.76%.

In addition, as at September 30, 2024, \$403.9 million (December 31, 2023 - \$376.1 million) of surety bonds were outstanding, of which \$402.9 million (December 31, 2023 - \$375.1 million) were in respect of security over reclamation and remediation obligations related to Kinross' properties in the United States. These surety bonds were issued pursuant to arrangements with international insurance companies and incur average fees of 0.54%.

i. Reclamation and remediation obligations

The Company conducts its operations so as to protect the public health and the environment, and to comply with all applicable laws and regulations governing protection of the environment. Reclamation and remediation obligations arise throughout the life of each mine. The Company estimates future reclamation costs based on the level of current mining activity and estimates of costs required to fulfill the Company's future obligations. The above table details the items that affect the reclamation and remediation obligations.

The majority of the estimated expenditures are expected to occur between 2024 and 2045. The discount rates used in estimating the site restoration cost obligation were between 3.8% and 8.4% as at September 30, 2024 and December 31, 2023, and the inflation rates used were between 2.0% and 4.5% as at September 30, 2024 and December 31, 2023.

Regulatory authorities in certain jurisdictions require that security be provided to cover the estimated reclamation and remediation obligations. As at September 30, 2024, letters of credit totaling \$460.4 million (December 31, 2023 - \$440.8 million) had been issued to various regulatory agencies to satisfy financial assurance requirements for this purpose. The letters of credit were issued against the Company's Letter of Credit guarantee facility with EDC, the revolving credit facility, and pursuant to arrangements with certain international banks. The Company is in compliance with all applicable requirements under these facilities. In addition, as at September 30, 2024, \$402.9 million (December 31, 2023 - \$375.1 million) of surety bonds were outstanding as security over reclamation and remediation obligations with respect to Kinross' properties in the United States. The surety bonds were issued pursuant to arrangements with international insurance companies.

14. COMMITMENTS AND CONTINGENCIES

i. Commitments

Leases

The Company has a number of lease agreements involving office space, buildings, vehicles and equipment. Many of the leases for equipment provide that the Company may, after the initial lease term, renew the lease for successive yearly periods or may purchase the equipment at its fair market value. Leases for certain office facilities contain escalation clauses for increases in operating costs and property taxes. A majority of these leases are cancelable and are renewable on a yearly basis. Total lease liabilities of \$20.0 million were recorded as at September 30, 2024.

Purchase commitments

At September 30, 2024, the Company had future commitments of approximately \$450.0 million for capital expenditures, which have not been accrued.

ii. Contingencies

General

Estimated losses from contingencies are accrued by a charge to earnings when information available prior to the issuance of the financial statements indicates that it is likely that a future event will confirm that an asset has been impaired or a liability incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

Other legal matters

The Company is from time to time involved in legal proceedings, arising in the ordinary course of its business. Typically, the amount of ultimate liability with respect to these actions will not, in the opinion of management, materially affect Kinross' financial position, results of operations or cash flows.

Maricunga regulatory proceedings

In May 2015, Chilean environmental enforcement authority ("SMA") commenced an administrative proceeding against Compania Minera Maricunga ("CMM") alleging that pumping of groundwater to support the Maricunga operation had impacted area wetlands and, on March 18, 2016, issued a resolution alleging that CMM's pumping was impacting the "Valle Ancho" wetland. Beginning in May 2016, the SMA issued a series of resolutions ordering CMM to temporarily curtail pumping from its wells.

In response, CMM suspended mining and crushing activities and reduced water consumption to minimal levels. CMM contested these resolutions, but its efforts were unsuccessful and, except for a short period of time in July 2016, CMM's operations have remained suspended. On June 24, 2016, the SMA amended its initial sanction (the "Amended Sanction") and effectively required CMM to cease operations and close the mine, with water use from its wells curtailed to minimal levels. On July 9, 2016, CMM appealed the sanctions and, on August 30, 2016, submitted a request to the Environmental Tribunal that it issue an injunction suspending the effectiveness of the Amended Sanction pending a final decision on the merits of CMM's appeal. On September 16, 2016, the Environmental Tribunal rejected CMM's injunction request and on August 7, 2017, upheld the SMA's Amended Sanction and curtailment orders on procedural grounds. On October 9, 2018, the Supreme Court affirmed the Environmental Tribunal's ruling on procedural grounds and dismissed CMM's appeal.

On June 2, 2016, CMM was served with two separate lawsuits filed by the Chilean State Defense Counsel ("CDE"). Both lawsuits, filed with the Environmental Tribunal, alleged that pumping from the Maricunga groundwater wells caused environmental damage to area wetlands. One action relates to the "Pantanillo" wetland and the other action relates to the Valle Ancho wetland (described above). On November 23, 2018, the Tribunal ruled in favor of CMM in the Pantanillo case and against CMM in the Valle Ancho case. In the Valle Ancho case, the Tribunal required CMM to, among other things, submit a restoration plan to the SMA for approval. CMM appealed the Valle Ancho ruling to the Supreme Court. The CDE appealed to the Supreme Court in both cases and asserted in the Valle Ancho matter that the Environmental Tribunal erred by not ordering a complete shutdown of Maricunga's groundwater wells. On January 7, 2022, the Supreme Court annulled the Tribunal's rulings in both cases on procedural grounds and remanded the matters to the Tribunal for further proceedings. In parallel, in December 2020, CMM began discussions with the CDE to resolve the case through the filing of a reparation plan ("PdR"). The PdR is aimed at supporting the natural recovery that the wetlands have sustained since pumping stopped,

as well as implementing other supplemental value enhancement actions in the basin. The cases before the Tribunal are currently stayed pending ongoing settlement discussions.

Kinross Brasil Mineração S.A. ("KBM")

On February 27, 2023, the State Public Attorney ("SPA") in Brazil filed a civil action against KBM seeking, among other things, to compel KBM to cease depositing mine tailings into its two onsite tailings facilities ("TSFs"), decommission the TSFs and to obtain 100 million Brazilian Reals (approximately \$20.0 million) from KBM to ensure money is available to address the requested relief. The SPA sought an immediate injunction to obtain this relief, which was denied by the Lower Court. In its ruling, the Lower Court found that the TSFs are properly permitted, regularly monitored and inspected, and that the SPA produced no evidence, technical or otherwise, that the TSFs are unsafe. The Lower Court further noted that a generalized concern about the size of the TSFs does not provide a legal basis for the relief sought. On March 17, 2023, the SPA filed an interlocutory appeal before the Appellate Court of the State of Minas Gerais challenging the Lower Court's Decision. The interlocutory appeal was denied by the Appellate Court on March 27, 2023. Thereafter, proceedings were stayed at the request of the parties to allow them to discuss a potential resolution of the matter. KBM and the SPA recently reached a settlement. Under the settlement agreement, KBM agrees to: (i) confirm its timeline for de-characterization (closure) of the TSFs; (ii) hire a third-party expert for the SPA and other relevant authorities to keep them informed about KBM's execution of the de-characterization projects and (iii) pay a total of approximately \$7 million, to be paid in annual installments over a 10-year period to support socio-environmental projects. In the third quarter of 2024, a judge ratified the settlement agreement and this matter is now closed.

Income and other taxes

The Company operates in numerous countries around the world and accordingly is subject to and pays taxes under the various regimes in countries in which it operates. These tax regimes are determined under general corporate tax laws of the country. The Company has historically filed, and continues to file, all required tax returns and to pay the taxes reasonably determined to be due. The tax rules and regulations in many countries are complex and subject to interpretation. Changes in tax law or changes in the way that tax law is interpreted may also impact the Company's effective tax rate as well as its business and operations.

Kinross' tax records, transactions and filing positions may be subject to examination by the tax authorities in the countries in which the Company has operations. The tax authorities may review the Company's transactions in respect of the year, or multiple years, which they have chosen for examination. The tax authorities may interpret the tax implications of a transaction in form or in fact, differently from the interpretation reached by the Company. In circumstances where the Company and the tax authority cannot reach a consensus on the tax impact, there are processes and procedures which both parties may undertake in order to reach a resolution, which may span many years in the future. Uncertainty in the interpretation and application of applicable tax laws, regulations or the relevant sections of Mining Conventions by the tax authorities, or the failure of relevant Governments or tax authorities to honour tax laws, regulations or the relevant sections of Mining Conventions could adversely affect Kinross.

Global minimum top-up tax

On August 4, 2023, the Government of Canada released for consultation draft legislation to implement the Global Minimum Tax Act ("GMTA"), which includes the introduction of a 15% global minimum tax ("top-up tax") that applies to large multinational enterprise groups with global consolidated revenues over €750 million. The GMTA received royal assent on June 20, 2024, and was enacted substantially as drafted. As a result, the Company will be subject to the top-up tax rules for its 2024 taxation year. The GMTA did not have a material impact on the Company for the nine months ended September 30, 2024 as none of our current jurisdictions were subject to any material top up tax amount.

In accordance with the amendments to IAS 12 "Income Taxes" issued by the IASB on May 23, 2023, the Company has applied a temporary mandatory exception from deferred tax accounting for the impacts of the top-up tax and will account for it as a current tax when incurred.

15. CONSOLIDATING SUMMARY FINANCIAL INFORMATION

The obligations of the Company under the senior notes are guaranteed by the following 100% owned subsidiaries of the Company (the "guarantor subsidiaries"): Round Mountain Gold Corporation, Kinross Brasil Mineração S.A., Fairbanks Gold Mining, Inc., Melba Creek Mining, Inc., KG Mining (Round Mountain) Inc., KG Mining (Bald Mountain) Inc., Great Bear Resources Ltd, and Compania Minera Mantos de Oro. All guarantees by the guarantor subsidiaries are joint and several, and full and unconditional, subject to certain customary release provisions contained in the indenture governing the senior notes. The guarantees are unsecured senior obligations of the respective guarantor subsidiaries and rank equally with all other unsecured senior obligations. The guarantees are effectively subordinated to any secured indebtedness and other secured liabilities of the respective guarantor subsidiaries. The obligations of each guarantor subsidiary under its respective guarantee is limited to an amount not to exceed the maximum amount that can be guaranteed by law or without resulting in its obligations under such guarantee being voidable or unenforceable under applicable laws relating to fraudulent transfer, or under similar laws affecting the rights of creditors generally.

The following tables contain consolidating summary financial information related to the guarantor subsidiaries. For purposes of this information, the financial statements of Kinross Gold Corporation and of the guarantor subsidiaries reflect investments in subsidiary companies on an equity accounting basis.
