### Myers Industries Reports 2014 Fourth Quarter and Full Year Results

Company completes strategic initiative to focus business; Positioned for incremental success in 2015 as end markets improve

**February 25, 2015**, Akron, Ohio - Myers Industries, Inc. (NYSE: MYE) today announced results for the fourth quarter and full year ended December 31, 2014.

#### Financial Highlights

- Net sales increased 9.4% in the fourth quarter of 2014 and 6.7% for the full year of 2014, due mainly to the acquisition of Scepter
- Income per diluted share from continuing operations as adjusted was \$0.13 in the fourth quarter of 2014 and \$0.60 for fiscal 2014, versus \$0.15 and \$0.75 for the comparable 2013 periods
- Completed strategic initiative to focus the business through the sale of WEK Industries in June 2014, the sale of the Lawn and Garden business in February 2015 and the acquisition of Scepter in July 2014
- Returned \$70.6 million of cash to shareholders through dividends and repurchases of common stock in 2014

President and Chief Executive Officer John C. Orr commented, "As we anticipated, sales in the fourth quarter improved over the previous year's fourth quarter. However, weakened demand for our Material Handling Segment's agricultural and food processing products, together with a challenging Brazilian economy, led to lower profitability versus last year. We continued to streamline our business portfolio in 2014 to realize our strategic goal to strengthen our leadership position in the Material Handling Segment, while preserving a strong market position in our Distribution Segment. To accomplish this, we sold WEK Industries and acquired Scepter Products. The Scepter acquisition continued our strategic growth and profitability improvement plan for the Material Handling Segment. Scepter provides an expansion of product assortment, added global reach and has already expanded our customer base through cross-selling opportunities. In February of this year, we completed the previously announced sale of the Lawn and Garden business for \$110 million. In 2014, we continued our balanced approach to capital allocation. We generated \$28 million of free cash flow and returned \$70.6 million of cash to shareholders through dividends and repurchases of common stock. The result of all of these transactions is a streamlined, more focused Myers Industries with strong cash generating business segments that we believe will continue to generate sustainable returns for shareholders."

#### Segment Results

The results below are as *adjusted* and *exclude restructuring and other unusual pre-tax charges* as detailed on the *Reconciliation of Non-GAAP Financial Measures* included in this release.

Net sales in the **Material Handling Segment** for the fourth quarter of 2014 were \$110.1 million compared to \$95.6 million for the fourth quarter of 2013. Incremental sales from the Scepter acquisition were offset by sales declines in the agriculture and food processing end markets as compared to the fourth quarter of 2013. Material Handling's adjusted income before taxes was \$11.5 million for the fourth quarter of 2014 compared to \$10.5 million for the fourth quarter of 2013. Although adjusted income before taxes increased year-over-year, it was adversely impacted by the decline in sales of agricultural and food processing products and a change in product mix that resulted from those declines. Reductions in labor costs, overhead and selling, general and administrative expenses partially offset those impacts.

The **Material Handling Segment's** net sales for the full year of 2014 were \$432.1 million compared to \$380.6 million for the full year of 2013. The increase in net sales as compared to last year was due mostly to incremental sales from the Scepter acquisition. Strong sales in the marine, recreational vehicle and industrial end markets also contributed to the increase in net sales year-over-year, but were partially offset by sales decreases in the agriculture, distribution and food processing end markets. Material Handling's adjusted income before taxes was \$44.9 million for the full year of 2014 compared to \$47.6 million for the full year of 2013. The decline in adjusted income before taxes year-over-year was due to a change in both customer and product mix.

Net sales in the **Distribution Segment** for the fourth quarter of 2014 were \$48.3 million compared to \$49.2 million for the fourth quarter of 2013. Organic growth in sales of supplies and equipment in the U.S. were more than offset by lower sales in Canada due to the closure of the Canadian branches in the first quarter of 2014, and a decline in custom sales as compared to the fourth quarter of last year. Distribution's adjusted income before taxes for the fourth quarter of 2014 was \$3.1 million compared to \$4.2 million for the fourth quarter of 2013. The year-over-year decline in adjusted income before taxes resulted from a change in product mix which more than offset operational excellence initiatives that were executed during the quarter.

The **Distribution Segment's** net sales for the full year of 2014 were \$191.9 million compared to \$204.5 million for the full year of 2013. The decrease in sales compared to 2013 was due to a decline in custom sales and lower Canadian sales due to the closure of the Canadian branches in the first quarter of 2014. Distribution's adjusted income before taxes for the full year of 2014 was \$16.8 million compared to \$21.9 million for the full year of 2013. The decrease in adjusted income before taxes year-over-year was due mostly to the lower custom sales volumes, a change in product mix and higher freight costs, which were partially offset by lower general and administrative expenses and other cost reductions.

#### **Other Financial Items**

For the year ended December 31, 2014, cash flow provided by continuing operations was \$52.1 million compared to \$74.9 million for the year ended December 31, 2013, reflecting lower earnings and a one-time benefit that the Company realized in 2013 due to an improvement in accounts payable terms.

Capital expenditures totaled \$24.2 million for the year ended December 31, 2014 and are forecasted to be approximately \$25 to \$30 million in 2015.

The Company purchased \$54.9 million of common stock during the year ended December 31, 2014. Approximately 4.4 million shares were available for repurchase at December 31, 2014 under the Company's current board authorization.

#### **Outlook**

Early indicators from the first quarter of 2015 have shown a continuation of some of the challenges in the Material Handling segment that were experienced in the fourth quarter of 2014. However, for the remainder of 2015, the Company expects to see the benefit of increased sales, incremental profit improvement driven by last year's strategic initiatives that focused on structural changes, cross-selling opportunities, new products and cost reduction measures across both operating segments. As a result, the Company expects full year 2015 sales and profits to exceed 2014's results.

The Company remains fully committed to its balanced approach to capital allocation, which may include a mix of capital investment, debt reduction, dividends and share repurchases.
