September 4, 2024

# Recent Commercial Activity since July 31, 2024 report

## Floaters

Noble Tom Madden  
Noble Sam Croft  
Noble Don Taylor  
Noble Bob Douglas

ExxonMobil has awarded 4.8 additional rig years of backlog under the Commercial Enabling Agreement (CEA) in Guyana which has been assigned evenly across the four drillships, extending each rig's contract duration from June 2027 to August 2028.

Ocean BlackHawk  
Ocean BlackHornet  
Ocean BlackLion  
Ocean BlackRhino  
Ocean GreatWhite  
Ocean Courage  
Ocean Apex  
Ocean Endeavor  
Ocean Patriot  
Ocean Onyx

The ten floaters (four drillships and six semisubmersibles) from the Diamond Offshore fleet have been incorporated into this report, with contract status changes since Diamond's fleet status report published on August 6, 2024 denoted in bold text.

## Jackups

No new activity.

### **Commercial activity listed reflects all publicly announced contracts and option exercises since prior Fleet Status Report dated July 31, 2024.**

The information contained in this fleet status report is as of the date of the report only and is subject to change without notice to the recipient, and we assume no duty to update any portion of the information contained herein. This fleet status report contains statements that are not historical facts, which are "forward-looking statements" within the meaning of the U.S. federal securities laws. Forward-looking statements include, but are not limited to, statements about the estimated duration of client contracts, contract dayrate amounts, future contract commencement dates, shipyard projects, our business, financial performance, and prospects. Although we believe that the expectations reflected in such forward-looking statements are reasonable, we cannot assure you that such expectations will prove to have been correct. Various factors could cause actual results to differ materially.

The following information should be read in conjunction with Noble Corporation plc's ("Noble") filings with the Securities & Exchange Commission (the "SEC"), including its annual report on Form 10-K and its subsequent quarterly reports on Form 10-Q, and in particular the description of, and assumptions with respect to, Noble's backlog and the associated risks as well as the other risk factors contained therein. Such filings are available on Noble's website at [www.noblecorp.com](http://www.noblecorp.com) and on the SEC's website at [www.sec.gov](http://www.sec.gov).

### **Contract Backlog**

The duration and timing (including both starting and ending dates) of the customer contracts are estimates only, and customer contracts are subject to cancellation, suspension, delays for a variety of reasons, and for certain customers, reallocation of term among contracted rigs, including some beyond Noble's control. The contract backlog represents the maximum contract drilling revenues that can be earned considering the contractual operating dayrate in effect during the firm contract period. The actual average dayrate will depend upon a number of factors (rig downtime, suspension of operations, etc.) including some beyond Noble's control. The dayrates do not include revenue for mobilizations, demobilizations, upgrades, contract preparation, shipyards or recharges.
