Item 1

RESMED INC. AND SUBSIDIARIES Notes to the Condensed Consolidated Financial Statements (Unaudited)

(1) Summary of Significant Accounting Policies

Organization and Basis of Presentation

ResMed Inc. (referred to herein as "we", "us", "our" or the "Company") is a Delaware corporation formed in March 1994 as a holding company for the ResMed Group. Through our subsidiaries, we design, manufacture and market equipment for the diagnosis and treatment of sleep-disordered breathing and other respiratory disorders, including obstructive sleep apnea. Our manufacturing operations are located in Australia, Singapore, France, Germany, Malaysia and the United States. Major distribution and sales sites are located in the United States, Germany, France, the United Kingdom, Switzerland, Australia, Japan, Norway and Sweden.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the U.S. Securities and Exchange Commission ("SEC"). Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all necessary adjustments, which consisted only of normal recurring items, have been included in the accompanying financial statements to present fairly the results of the interim periods. The results of operations for the interim periods presented are not necessarily indicative of the results that may be expected for the year ending June 30, 2016.

The condensed consolidated financial statements for the three months ended September 30, 2015 and 2014 are unaudited and should be read in conjunction with the consolidated financial statements and notes thereto included in our Form 10-K for the year ended June 30, 2015.

New Accounting Pronouncements

In May, 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, "Revenue from Contracts with Customers", which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard is effective for the Company beginning in the first quarter of fiscal year 2019. Early application is not permitted. We are currently assessing the impact of the adoption of ASU 2014-09 on our financial condition, results of operations and cash flows.

In April, 2015, the FASB issued ASU No. 2015-03, "Simplifying the Presentation of Debt Issuance Costs". ASU 2015-03 will more closely align the presentation of debt issuance costs under U.S. GAAP with the presentation under comparable International Financial Reporting Standards (IFRS) by requiring that debt issuance costs be presented on the balance sheet as a direct deduction from the carrying amount of the related debt liability. The new standard is effective for us beginning in the first quarter of fiscal 2017. We do not expect this updated standard to have a material impact on our consolidated financial statements and related disclosures.

In July 2015, the FASB issued ASU No. 2015-11, "Simplifying the Measurement of Inventory" which requires an entity to measure inventory within the scope of this ASU at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. The amendments in this guidance more closely align the measurement of inventory in GAAP with the measurement of inventory in IFRS. The new standard is effective for us beginning in the first quarter of fiscal 2018. We do not expect this updated standard to have a material impact on our consolidated financial statements and related disclosures.

(2) Earnings Per Share

Basic earnings per share is computed by dividing the net income available to common stockholders by the weighted average number of shares of common stock outstanding. For purposes of calculating diluted earnings per share, the denominator includes both the weighted average number of shares of common stock outstanding and the number of dilutive common stock equivalents such as stock options and restricted stock units.

Stock options and restricted stock units of 98,697 and 154,551, for the three months ended September 30, 2015 and 2014, respectively, were not included in the computation of diluted earnings per share as the effect would have been anti-dilutive.

Basic and diluted earnings per share for the three months ended September 30, 2015 and 2014 are calculated as follows (in thousands except per share data):

		Three Months Ended September 30,	
	2015	2014	
Numerator:			
Net Income	\$ 80,403	\$ 83,260	
Denominator:			
Basic weighted-average common shares outstanding	140,309	140,127	
Effect of dilutive securities:			
Stock options and restricted stock units	1,637	2,556	
Diluted weighted average shares	141,946	142,683	
Basic earnings per share	\$ 0.57	\$ 0.59	
Diluted earnings per share	\$ 0.57	\$ 0.58	

(3) Inventories

Inventories were comprised of the following at September 30, 2015 and June 30, 2015 (in thousands):

	Septer	nber 30, 2015	June 30, 2015
Raw materials	\$	75,490	\$ 74,416
Work in progress		2,215	2,550
Finished goods		180,904	169,893
Total inventories	\$	258,609	\$ 246,859

(4) Property, Plant and Equipment

Property, plant and equipment were comprised of the following as of September 30, 2015 and June 30, 2015 (in thousands):

	September 30, 2015	June 30, 2015
Machinery and equipment	\$ 188,059	\$ 198,047
Computer equipment	126,928	125,423
Furniture and fixtures	37,396	38,511
Vehicles	5,680	5,371
Clinical, demonstration and rental equipment	81,174	80,911
Leasehold improvements	30,915	31,553
Land	51,905	54,915
Buildings	223,423	235,515
	745,480	770,246
Accumulated depreciation and amortization	(376,496)	(382,488)
Property, plant and equipment, net	\$ 368,984	\$ 387,758

(5) Cost-Method Investments

The aggregate carrying amount of our cost-method investments at September 30, 2015 and June 30, 2015, was \$30.2 million and \$25.6 million, respectively, and is included in the non-current balance of other assets on the condensed consolidated balance sheets.

We periodically evaluate the carrying value of our cost-method investments, when events and circumstances indicate that the carrying amount of an asset may not be recovered. We estimate the fair value of our cost-method investments to assess whether impairment losses shall be recorded using Level 3 inputs. These investments include our holdings in privately held service and research companies that are not exchange traded and therefore not supported with observable market prices. However, these investments are valued by reference to their net asset values that can be market supported and unobservable inputs including future cash flows. During the three months ended September 30, 2015 and 2014, we did not recognize any impairment losses related to our cost-method investments. We have determined that the fair value of our investments exceed their carrying values.

The following table shows a reconciliation of the changes in our cost-method investments during the three months ended September 30, 2015 and 2014 (in thousands):

	Three Months Ended September 30,	
	2015	2014
Balance at the beginning of the period	\$ 25,600	\$ 14,850
Investments	4,582	500
Balance at the end of the period	\$ 30,182	\$ 15,350

(6) Goodwill and Other Intangible Assets, net

Goodwill

Changes in the carrying amount of goodwill for the three months ended September 30, 2015, and 2014 were as follows (in thousands):

	Three Months Ended September 30,	
	2015	2014
Balance at the beginning of the period	\$ 264,261	\$ 289,312
Business acquisition	-	6,454
Foreign currency translation adjustments	(1,443)	(18,502)
Balance at the end of the period	\$ 262,818	\$ 277,264

Other Intangible Assets

Other intangible assets were comprised of the following as of September 30, 2015, and June 30, 2015 (in thousands):

	September 30, 2015	June 30, 2015
Developed/core product technology	\$ 66,104	\$ 67,548
Accumulated amortization	(51,144)	(50,373)
Developed/core product technology, net	14,960	17,175
Trade names	2,478	2,500
Accumulated amortization	(2,214)	(2,206)
Trade names, net	264	294
Non-compete agreements	1,590	1,747
Accumulated amortization	(1,590)	(1,704)
Non compete agreements, net	ı	43
Customer relationships	29,102	30,538
Accumulated amortization	(19,532)	(19,308)
Customer relationships, net	9,570	11,230
Patents	63,533	66,585
Accumulated amortization	(45,727)	(48,185)
Patents, net	17,806	18,400
Total other intangibles, net	\$ 42,600	\$ 47,142

Intangible assets consist of patents, customer relationships, trade names, non-compete agreements and developed/core product technology. We amortize intangible assets over the estimated useful life of the assets, generally between two and nine years. There are no expected residual values related to these intangible assets.

(7) Long-Term Debt

Long-term debt at September 30, 2015 and June 30, 2015 consisted of the following (in thousands):

	September 30, 2015	June 30, 2015
Current long-term debt	\$ -	\$ -
Non-current long-term debt	500,587	300,594
Total long-term debt	\$ 500,587	\$ 300,594

Credit Facility

On October 31, 2013, we entered into a credit agreement, as borrower, with lenders, including Union Bank, N.A., as administrative agent, joint lead arranger, swing line lender and letters of credit issuer, and HSBC Bank USA, National Association, as syndication agent and joint lead arranger. Our obligations under the credit agreement are guaranteed by ResMed Corp. and ResMed Motor Technologies Inc., two of our U.S. subsidiaries.

The credit agreement provides a \$700 million senior unsecured five-year revolving credit facility, with an uncommitted option to increase the credit facility by an additional \$300 million. The credit facility also includes a \$25 million sublimit for letters of credit. The credit facility terminates on October 31, 2018, when all unpaid principal and interest under the loans must be repaid. The outstanding principal amount due under the credit facility will bear interest at a rate equal to LIBOR plus 1.0% to 2.0% (depending on the then-applicable leverage ratio). At September 30, 2015, the interest rate that was being charged on the outstanding principal amount was 1.2%. An applicable commitment fee of 0.15% to 0.25% (depending on the then-applicable leverage ratio) applies on the unused portion of the credit facility.

When we entered into the credit agreement, we used a portion of the proceeds from the initial funding of the credit facility to repay the outstanding balance under our previous revolving credit facility with Union Bank, N.A and other lenders. On that repayment, the previous credit agreement, dated as of February 10, 2011, between us and lenders (including Union Bank, N.A., as administrative agent, swing line lender and letter of credit issuer, HSBC Bank USA, National Association, as syndication agent and Union Bank, N.A., HSBC Bank USA, National Association, Commonwealth Bank of Australia and Wells Fargo Bank), was terminated and the commitments under the previous credit agreement were also terminated.

Our obligations under the current credit agreement are unsecured but are guaranteed by two of our U.S. subsidiaries. The credit agreement contains customary covenants, including certain financial covenants and an obligation that we maintain certain financial ratios, including a maximum leverage ratio of funded debt to EBITDA (as defined in the credit agreement) and an interest coverage ratio. The entire principal amount of the credit facility and any accrued but unpaid interest may be declared immediately due and payable if an event of default occurs, as defined in the credit agreement. Events of default under the credit agreement include failure to make payments when due, the occurrence of a default in the performance of any covenants in the credit agreement or related documents, or certain changes of control of ResMed Inc., ResMed Corp., ResMed Motor Technologies Inc., ResMed Holdings Ltd/LLC or ResMed EAP Holdings LLC.

At September 30, 2015, there was \$500.0 million outstanding under the credit agreement.

(8) Product Warranties

Changes in the liability for warranty costs, which is included in accrued expenses in our condensed consolidated balance sheets, for the three months ended September 30, 2015 and 2014 are as follows (in thousands):

	Т	hree Months	Ended Septe	mber 30,
		2015		2014
Balance at the beginning of the period	\$	9,823	\$	11,798
Warranty accruals for the period		1,790		3,376
Warranty costs incurred for the period		(2,039)		(1,567)
Foreign currency translation adjustments		(691)		(714)
Balance at the end of the period	\$	8,883	\$	12,893

(9) Stock-Based Employee Compensation

We measure the compensation expense of all stock-based awards at fair value on the grant date. We estimate the fair value of stock options and purchase rights granted under the employee stock purchase plan (the "ESPP") using the Black-Scholes valuation model. The fair value of restricted stock units is equal to the market value of the underlying shares as determined at the grant date less the fair value of dividends that holders are not entitled to, during the vesting period. The fair value of performance restricted stock units which contain a market condition, are estimated using a Monte-Carlo simulation model. We recognize the fair value as compensation expense using the straight-line method over the service period for awards expected to vest.

We estimate the fair value of purchase rights granted under the ESPP using the following assumptions:

	Three Months Ed	aded September 30,
Stock options:		
Weighted average grant date fair value	- \$	\$ -
Weighted average risk-free interest rate	-	-
Expected option life in years	-	-
Dividend yield	-	-
Expected volatility	-	-
ESPP purchase rights:		
Weighted average risk-free interest rate	0.1%	0.1%
Expected option life in years	6 months	6 months
Dividend yield	1.73%	2.00%
Expected volatility	26%	24%

(10) Stockholders' Equity

Common Stock. During the three months ended September 30, 2015 and 2014 we repurchased 1.2 million and 0.8 million shares at a cost of \$62.0 million and \$42.9 million, respectively. Since the inception of our share repurchase programs and through September 30, 2015, we have repurchased a total of 40.4 million shares at a cost of \$1.5 billion. Shares that are repurchased are classified as treasury stock pending future use and reduce the number of shares outstanding used in calculating earnings per share. At September 30, 2015, 14.3 million additional shares can be repurchased under the approved share repurchase program.

Preferred Stock. In April 1997, the board of directors designated 2,000,000 shares of our \$0.01 par value preferred stock as Series A Junior Participating Preferred Stock. No shares were issued or outstanding at September 30, 2015 and June 30, 2015.

Stock Options and Restricted Stock Units. We have granted stock options and restricted stock units to personnel, including officers and directors, in accordance with the ResMed Inc. 2009 Incentive Award Plan (the "2009 Plan"). These options and restricted stock units have expiration dates of seven years from the date of grant and vest over one to four years. We have granted the options with an exercise price equal to the market value as determined at the date of grant.

The maximum number of shares of our common stock authorized for issuance under the 2009 Plan is 43.7 million shares. The number of securities remaining available for future issuance under the 2009 Plan at September 30, 2015 is 13.8 million. The number of shares of our common stock available for issuance under the 2009 Plan will be reduced by (i) 2.8 shares for each one share of common stock delivered in settlement of any "full-value award," which is any award other than a stock option, stock appreciation right or other award for which the holder pays the intrinsic value and (ii) one share for each share of common stock delivered in settlement of all other awards. The maximum number of shares, that may be subject to awards granted under the 2009 Plan to any individual during any calendar year, may not exceed 3 million shares of our common stock (except in a participant's initial year of hiring, when up to 4.5 million shares of our common stock may be granted).

At September 30, 2015, there were \$57.1 million in unrecognized compensation costs related to unvested stock-based compensation arrangements. This is expected to be recognized over a weighted average period of 2.0 years. The aggregate intrinsic value of the stock-based compensation arrangements outstanding and exercisable at September 30, 2015 was \$168.5 million and \$46.3 million, respectively. The aggregate intrinsic value of the options exercised during the three months ended September 30, 2015 and 2014, was \$8.9 million and \$9.7 million, respectively.

The following table summarizes option activity during the three months ended September 30, 2015:

		ted Average rcise Price	Weighted Average Remaining Contractual Term in Years
Outstanding at beginning of period	2,809,238	\$ 29.63	2.5
Granted	-	-	
Exercised	(250,688)	18.34	
Forfeited	(12,546)	44.32	
Outstanding at end of period	2,546,004	\$ 30.65	2.5
Exercise price of granted options	\$ -		
Options exercisable at end of period	1,987,218	\$ 27.67	

The following table summarizes the activity of restricted stock units during the three months ended September 30, 2015:

		Weighted Average Grant- Date Fair Value	Weighted Average Remaining Contractual Term in Years
Outstanding at beginning of period	2,312,529	\$ 43.65	1.2
Granted	7,477	51.49	
Vested	(25,245)	31.30	
Forfeited	(5,839)	44.90	
Outstanding at end of period	2,288,922	\$ 43.81	0.9

Employee Stock Purchase Plan (the "ESPP"). Under the ESPP, we offer participants the right to purchase shares of our common stock at a discount during successive offering periods. Each offering period under the ESPP will be for a period of time determined by the board of directors' compensation committee of no less than 3 months and no more than 27 months. The purchase price for our common stock under the ESPP will be the lower of 85% of the fair market value of our common stock on the date of grant or 85% of the fair market value of our common stock on the date of purchase. An individual participant cannot subscribe for more than \$25,000 in common stock during any calendar year. At September 30, 2015, the number of shares remaining available for future issuance under the ESPP is 1.5 million shares.

(11) Fair Value Measurements

In determining the fair value measurements of our financial assets and liabilities, we consider the principal and most advantageous market in which we transact and consider assumptions that market participants would use when pricing the financial asset or liability. We maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The hierarchies of inputs are as follows:

- Level 1: Input prices quoted in an active market for identical financial assets or liabilities;
- Level 2: Inputs other than prices quoted in Level 1, such as prices quoted for similar financial assets and liabilities in active markets, prices for identical assets and liabilities in markets that are not active or other inputs that are observable or can be corroborated by observable market data; and
- Level 3: Input prices quoted that are significant to the fair value of the financial assets or liabilities which are not observable nor supported by an active
 market.

The following table summarizes our financial assets and liabilities, as at September 30, 2015 and June 30, 2015, using the valuation input hierarchy (in thousands):

	Level 1	Level 2	Level 3	Total
Balances at September 30, 2015				
Foreign currency hedging instruments, net	\$ -	\$1,664	\$ -	\$ 1,664
Business acquisition contingent consideration	\$ -	\$ -	\$(1,514)	\$(1,514)
Balances at June 30, 2015				
Foreign currency hedging instruments, net	\$ -	\$1,038	\$ -	\$ 1,038
Business acquisition contingent consideration	\$ -	\$ -	\$(1,584)	\$(1,584)

We determine the fair value of our financial assets and liabilities as follows:

- Foreign currency hedging instruments These financial instruments are valued using third-party valuation models based on market observable inputs, including interest rate curves, on-market spot currency prices, volatilities and credit risk.
- Contingent consideration These liabilities include the fair value estimates of additional future payments that may be required for some of our previous business acquisitions based on the achievement of certain performance milestones. Each potential future payment is valued using the estimated probability of achieving each milestone, which is then discounted to present value.

The following is a reconciliation of changes in the fair value of contingent consideration for the three months ended September 30, 2015 and 2014 (in thousands):

		Three Months Ended Septembe				
		2015		2014		
Balance at the beginning of the period	\$	(1,584)	\$	(480)		
Acquisition date fair value of contingent consideration		_		(905)		
Changes in fair value included in operating income		-		132		
Payments		-		458		
Foreign currency translation adjustments		70		(80)		
Balance at the end of the period	\$	(1.514)	\$	(875)		

We did not have any significant non-financial assets or liabilities measured at fair value on September 30, 2015 or June 30, 2015.

(12) Legal Actions and Contingencies

Litigation

In the normal course of business, we are subject to routine litigation incidental to our business. While the results of this litigation cannot be predicted with certainty, we believe that their final outcome will not, individually or in aggregate, have a material adverse effect on our consolidated financial statements taken as a whole.

Obligations Under Recourse Provisions

We use independent leasing companies to provide financing to certain customers for the purchase of our products. In some cases, we are liable in the event of a customer default, to the leasing companies, within certain limits, for unpaid installment receivables transferred to the leasing companies. The gross amount of receivables sold with recourse during the three months ended September 30, 2015 and 2014, amounted to \$16.1 million and \$2.0 million, respectively. The maximum potential amount of contingent liability under these arrangements at September 30, 2015 and June 30, 2015 were \$9.1 million, and \$7.2 million, respectively. The recourse liability recognized by us at September 30, 2015, in relation to these arrangements was \$0.5 million and \$0.5 million, respectively.

(13) Derivative Instruments and Hedging Activities

We transact business in various foreign currencies, including a number of major European currencies as well as the Australian and Singapore dollars. We have significant foreign currency exposure through both our Australian and Singaporean manufacturing activities, and international sales operations. We have established a foreign currency hedging program using purchased currency options and forward contracts to hedge foreign-currency-denominated financial assets, liabilities and manufacturing cash flows. The terms of such foreign currency hedging contracts generally do not exceed three years. The goal of this hedging program is to economically manage the financial impact of foreign currency exposures denominated mainly in Euros, and Australian and Singapore dollars. Under this program, increases or decreases in our foreign currency denominated financial assets, liabilities, and firm commitments are partially offset by gains and losses on the hedging instruments.

We do not designate these foreign currency contracts as hedges. We have determined our hedge program to be a non-effective hedge as defined under the FASB issued authoritative guidance. All movements in the fair value of the foreign currency instruments are recorded within other income, net in our condensed consolidated statements of income. We do not enter into financial instruments for trading or speculative purposes.

We held foreign currency instruments with notional amounts totaling \$620.2 million and \$576.5 million at September 30, 2015 and June 30, 2015, respectively, to hedge foreign currency fluctuations. These contracts mature at various dates prior to September 30, 2018.

The following table summarizes the amount and location of our derivative financial instruments as of September 30, 2015 and June 30, 2015 (in thousands):

	September 30, 20	5 June 30, 2015	Balance Sheet Caption
Foreign currency hedging instruments	\$ 3,68	4 \$ 1,644	Other assets - current
Foreign currency hedging instruments	1,57	4 1,348	Other assets - non current
Foreign currency hedging instruments	(79	0) (1,954)	Accrued expenses
Foreign currency hedging instruments	(2,80	4)	Other long-term liabilities
	\$ 1,66	4 \$ 1,038	

The following table summarizes the amount and location of gains (losses) associated with our derivative financial instruments for the three months ended September 30, 2015 and September 30, 2014, respectively (in thousands):

	Gain /(Loss) Recognized Income Statement Caption
	Three Months Ended September 30,
	2015 2014
Foreign currency hedging instruments	\$ (39,353) \$ (11,054) Other, net
Other foreign-currency-denominated transactions	37,081 12,148 Other, net
	\$ (2,272) \$ 1,094

We are exposed to credit-related losses in the event of non-performance by counter parties to financial instruments. We minimize counterparty credit risk by entering into derivative transactions with major financial institutions and we do not expect material losses as a result of default by our counterparties.

PART I – FINANCIAL INFORMATION Item 1

RESMED INC. AND SUBSIDIARIES Notes to the Condensed Consolidated Financial Statements (Unaudited)

(14) Subsequent Events

On October 2, 2015 we completed the acquisition of 100% of the shares in Curative Medical Technology Inc., a leading provider of non-invasive ventilation and sleep-disordered breathing medical devices and accessories in China. This acquisition will be accounted for as a business combination using purchase accounting and will be included in our condensed consolidated financial statements from the acquisition date. The acquisition is not considered a material business combination and was funded through cash on-hand. We have not incurred any material acquisition-related costs. The preliminary purchase price allocation will be completed during the quarter ending December 31, 2015.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Special Note Regarding Forward-Looking Statements

This report contains or may contain certain forward-looking statements and information that are based on the beliefs of our management as well as estimates and assumptions made by, and information currently available to, our management. All statements other than statements regarding historical facts are forward-looking statements. The words "believe," "expect," "anticipate," "will continue," "will," "estimate," "plan," "future" and other similar expressions, and negative statements of such expressions, generally identify forward-looking statements, including, in particular, statements regarding the development and approval of new products and product applications, market expansion, pending litigation and the development of new markets for our products, such as cardiovascular and stroke markets. These forward-looking statements are made in accordance with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. You are cautioned not to place undue reliance on these forward-looking statements. Forward-looking statements reflect the views of our management at the time the statements are made and are subject to a number of risks, uncertainties, estimates and assumptions, including, without limitation, and in addition to those identified in the text surrounding such statements, those identified in our annual report on Form 10-K for the fiscal year ended June 30, 2015 and elsewhere in this report.

In addition, important factors to consider in evaluating such forward-looking statements include changes or developments in healthcare reform, social, economic, market, legal or regulatory circumstances, changes in our business or growth strategy or an inability to execute our strategy due to changes in our industry or the economy generally, the emergence of new or growing competitors, the actions or omissions of third parties, including suppliers, customers, competitors and governmental authorities and various other factors. If any one or more of these risks or uncertainties materialize, or underlying estimates or assumptions prove incorrect, actual results may vary significantly from those expressed in our forward-looking statements, and there can be no assurance that the forward-looking statements contained in this report will in fact occur.

Before deciding to purchase, hold or sell our common stock, you should carefully consider the risks described in our annual report on Form 10-K, in addition to the other cautionary statements and risks described elsewhere in this report and in our other filings with the Securities and Exchange Commission (the SEC), including our subsequent reports on Forms 10-Q and 8-K. These risks and uncertainties are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our business. If any of these known or unknown risks or uncertainties actually occurs with material adverse effects on us, our business, financial condition and results of operations could be seriously harmed. In that event, the market price for our common stock will likely decline and you may lose all or part of your investment.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The following is an overview of our results of operations for the three months ended September 30, 2015. Management's discussion and analysis of financial condition and results of operations is intended to help the reader understand the results of operations and financial condition of ResMed Inc. Management's discussion and analysis is provided as a supplement to, and should be read in conjunction with, the selected financial data and condensed consolidated financial statements and notes, included in this report.

We are a leading developer, manufacturer and distributor of medical equipment for treating, diagnosing, and managing sleep-disordered breathing ("SDB") and other respiratory disorders. During the three months ended September 30, 2015, we continued our efforts to build awareness of the consequences of untreated SDB, and to grow our business in this market. In our efforts, we have endeavored to raise awareness through market and clinical initiatives highlighting the relationship between SDB/obstructive sleep apnea and co-morbidities, such as cardiac disease, diabetes, hypertension and obesity, as well as the dangers of sleep apnea in regard to occupational health and safety, especially in the transport industry.

We are committed to ongoing investment in research and development and product enhancements. During the three months ended September 30, 2015, we invested \$27.2 million on research and development activities. Since the development of continuous positive airway pressure ("CPAP") therapy, we have developed a number of innovative products for SDB and other respiratory disorders including airflow generators, diagnostic products, mask systems, headgear and other accessories. Our new product release schedule remains active across both our mask and flow generator categories.

Net revenue in North and Latin America for the three months ended September 30, 2015 increased by 23%, including a 39% increase for flow generators and a 9% increase for masks and accessories, compared to the three months ended September 30, 2014. Since the launch of our Air Solutions Platform and connected medical devices, in August 2014, we have over one million cloud-connected devices on bedside tables, providing actionable data every day for patients, customers, providers and payors. Our informatics capabilities enable our global team to enhance and deliver innovative products and solutions that improve patient outcomes, create efficiencies for our customers, help providers better manage chronic disease and lower healthcare costs.

In October 2015, we completed the acquisition of Curative Medical Technology Inc., a leading provider of non-invasive ventilation and sleep-disordered breathing medical devices and accessories in China. ResMed and Curative are now the combined market leader in sleep-disordered breathing and respiratory care in China.

During the three months ended September 30, 2015, our net revenue increased by 8% when compared to the three months ended September 30, 2014. Gross margin was 58.0% for the three months ended September 30, 2015 compared to 62.4% for the three months ended September 30, 2014. Diluted earnings per share for the three months ended September 30, 2015 was \$0.57 per share, compared to \$0.58 per share for the three months ended September 30, 2014.

At September 30, 2015, our cash and cash equivalents totaled \$822.1 million, our total assets were \$2.3 billion and our stockholders' equity was \$1.5 billion.

In order to provide a framework for assessing how our underlying businesses performed excluding the effect of foreign currency fluctuations, we provide certain financial information on a "constant currency basis", which is in addition to the actual financial information presented. In order to calculate our constant currency information, we translate the current period financial information using the foreign currency exchange rates that were in effect during the previous comparable period. However, constant currency measures should not be considered in isolation or as an alternative to U.S. dollar measures that reflect current period exchange rates, or to other financial measures calculated and presented in accordance with U.S. GAAP.

RESMED INC. AND SUBSIDIARIES

Management's Discussion and Analysis of Financial Condition and Results of Operations

Net Revenue

Net revenue increased for the three months ended September 30, 2015 to \$411.6 million compared to \$380.4 million for the three months ended September 30, 2014, an increase of \$31.2 million or 8% (a 15% increase on a constant currency basis). The increase in net revenue is primarily attributable to an increase in unit sales of our flow generators, masks and accessories, partially offset by a decline in average selling prices. Movements in international currencies against the U.S. dollar unfavorably impacted revenues by approximately \$26.8 million for the three months ended September 30, 2015.

Net revenue in North and Latin America for the three months ended September 30, 2015 was \$254.1 million, compared to \$207.2 million for the three months ended September 30, 2014, an increase of \$46.9 million, or 23%. The increase in net revenue is primarily attributable to an increase in unit sales of our flow generators, masks and accessories, partially offset by a decline in average selling prices. Net revenue in markets outside North and Latin America, for the three months ended September 30, 2015, decreased to \$157.5 million compared to \$173.2 million for the three months ended September 30, 2014, a decrease of 9% (a 5% increase in constant currency terms).

Net revenue from the sales of flow generators, including humidifiers, for the three months ended September 30, 2015 totaled \$239.6 million, an increase of 12% compared to the three months ended September 30, 2014 of \$214.3 million, including an increase of 39% in North and Latin America and a decrease of 10% elsewhere (a 5% increase in constant currency terms). Net revenue from the sales of masks and other accessories for the three months ended September 30, 2015 totaled \$172.0 million, an increase of 4% compared to the three months ended September 30, 2014 of \$166.1 million, reflecting an increase of 9% in North and Latin America and a decrease of 8% elsewhere (a 7% increase in constant currency terms).

The following table summarizes the percentage movements in our net revenue for the three months ended September 30, 2015 compared to the three months ended September 30, 2014:

	North and	International	Total	International	Total
	Latin America			(Constant	(Constant
				Currency)*	Currency)*
Flow generators	39%	-10%	12%	5%	20%
Masks and other accessories	9%	-8%	4%	7%	9%
Total	23%	-9%	8%	5%	15%

^{*} Constant currency numbers exclude the impact of movements in international currencies.

Gross Profit

Gross profit increased for the three months ended September 30, 2015 to \$238.6 million from \$237.3 million for the three months ended September 30, 2014, an increase of \$1.3 million or 1%. Gross profit as a percentage of net revenue for the three months ended September 30, 2015 decreased to 58.0% from 62.4% for the three months ended September 30, 2014.

The decline in gross margins was primarily due to an unfavorable product mix as sales of our lower margin products represented a higher proportion of our sales, declines in our average selling prices and an unfavorable geographic mix with sales in our lower margin geographic areas representing a higher proportion of our overall sales.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased for the three months ended September 30, 2015 to \$111.1 million from \$110.5 million for the three months ended September 30, 2014, an increase of \$0.6 million or 1%. Selling, general and administrative expenses were favorably impacted by the movement of international currencies against the U.S. dollar, which decreased our expenses by approximately \$12.1 million, as reported in U.S. dollars. Excluding the impact of foreign currency movements, selling, general and administrative expenses for the three months ended September 30, 2015 increased by 11% compared to the three months ended September 30, 2014. The increase in selling, general and administrative expenses was primarily due to additional personnel to support our commercial activities, increased legal expenses and the impact of recent acquisitions. Selling, general and administrative expenses, as a percentage of net revenue, were 27.0% for the three months ended September 30, 2015, compared to 29.1% for the three months ended September 30, 2014.

RESMED INC. AND SUBSIDIARIES

Management's Discussion and Analysis of Financial Condition and Results of Operations

Research and Development Expenses

Research and development expenses decreased for the three months ended September 30, 2015 to \$27.2 million from \$30.0 million for the three months ended September 30, 2014, a decrease of \$2.8 million, or 9%. Research and development expenses were favorably impacted by the movement of international currencies against the U.S. dollar, which decreased our expenses by approximately \$6.6 million for the three months ended September 30, 2015, as reported in U.S. dollars. Excluding the impact of foreign currency movements, research and development expenses increased by 12% compared to the three months ended September 30, 2014. The increase in research and development expenses in constant currency terms was primarily due to an increase in the number of research and development personnel and an increase in materials and tooling costs incurred to facilitate development of new products. Research and development expenses, as a percentage of net revenue, were 6.6% for the three months ended September 30, 2015, compared to 7.9% for the three months ended September 30, 2014.

Amortization of Acquired Intangible Assets

Amortization of acquired intangible assets for the three months ended September 30, 2015 totaled \$2.3 million compared to \$2.1 million for the three months ended September 30, 2014.

Total Other Income, Net

Total other income, net for the three months ended September 30, 2015 was \$1.4 million, compared to \$7.3 million, for the three months ended September 30, 2014. The decrease in total other income, net, was due primarily to losses on foreign currency hedging instruments, lower interest income resulting from lower interest rates on cash balances held and the depreciation of the Australian dollar against the U.S. dollar.

Income Taxes

Our effective income tax rate for the three months ended September 30, 2015 was 19.1% compared to 18.3% for the three months ended September 30, 2014. Our effective income tax rate is affected by the geographic mix of our taxable income, including the lower taxes associated with our Singapore and Malaysia manufacturing operations. Our Singapore and Malaysia operations operate under certain tax holidays and tax incentive programs that will expire in whole or in part at various dates through June 30, 2020. As of September 30, 2015, we have not provided for U.S. income taxes for the undistributed earnings of our foreign subsidiaries. We intend these earnings to be permanently reinvested outside the United States.

Net Income and Earnings per Share

As a result of the factors above, our net income for the three months ended September 30, 2015 was \$80.4 million compared to net income of \$83.3 million for the three months ended September 30, 2014, a decrease of 3% over the three months ended September 30, 2014.

As a result of the decrease in our net income partially offset by the lower share count due to our stock repurchases, our diluted earnings per share for the three months ended September 30, 2015 were \$0.57, compared to \$0.58 for the three months ended September 30, 2014, a decrease of 2%.

RESMED INC. AND SUBSIDIARIES

Management's Discussion and Analysis of Financial Condition and Results of Operations

Liquidity and Capital Resources

As of September 30, 2015 and June 30, 2015, we had cash and cash equivalents of \$822.1 million and \$717.2 million, respectively. Working capital was \$1.3 billion and \$1.2 billion, at September 30, 2015 and June 30, 2015, respectively.

As of September 30, 2015 and June 30, 2015, our cash and cash equivalent balances held within the United States amounted to \$32.1 million and \$32.0 million, respectively. Our remaining cash and cash equivalent balances at September 30, 2015 and June 30, 2015, of \$790.0 million and \$685.2 million, respectively, were held by our non-U.S. subsidiaries and would be subject to tax if repatriated. If these funds were needed for our operations in the United States, we would be required to accrue and pay United States taxes to repatriate these funds. However, we intend to permanently reinvest these funds outside of the United States and our current plans do not demonstrate a need to repatriate them to fund our United States operations. Our cash and cash equivalent balances are held at highly rated financial institutions.

Inventories at September 30, 2015 were \$258.6 million, an increase of \$61.4 million or 31% from the September 30, 2014 balance of \$197.2 million. The increase in inventories was mainly associated with our new product introductions and to support the increase in unit sales.

Accounts receivable at September 30, 2015 were \$327.2 million, a decrease of \$1.4 million or 0.4% over the September 30, 2014 accounts receivable balance of \$328.6 million. Accounts receivable days outstanding of 75 days at September 30, 2015 was lower than the 78 days at September 30, 2014. Our allowance for doubtful accounts as a percentage of total accounts receivable at September 30, 2015 was 3.9%, compared to 3.3% at June 30, 2015.

During the three months ended September 30, 2015, we generated cash of \$122.1 million from operations compared to \$86.5 million for the three months ended September 30, 2014. Movements in foreign currency exchange rates during the three months ended September 30, 2015 had the effect of decreasing our cash and cash equivalents by \$61.5 million, as reported in U.S. dollars. During the three months ended September 30, 2015 and 2014, we repurchased 1.2 million and 0.8 million shares at a cost of \$62.0 million and \$42.9 million, respectively. During the three months ended September 30, 2015 and 2014, we also paid dividends totaling \$42.1 million and \$39.2 million, respectively.

Capital expenditures for the three months ended September 30, 2015 and 2014 amounted to \$16.4 million and \$20.7 million, respectively. The capital expenditures for the three months ended September 30, 2015 primarily reflected investment in production tooling, equipment and machinery, computer hardware and software, and rental and loan equipment. At September 30, 2015, our balance sheet reflects net property, plant and equipment of \$369.0 million compared to \$387.8 million at June 30, 2015. At September 30, 2015, no capital lease obligations exist. Details of contractual obligations at September 30, 2015 are as follows:

		Payments Due by September 30,					
In \$000's	Total	2016	2017	2018	2019	2020	Thereafter
Long Term Debt	\$500,587	\$ -	\$ -	\$ -	\$500,000	\$ -	\$ 587
Interest on Long Term Debt	19,493	6,300	6,300	6,300	551	28	14
Operating Leases	56,062	16,551	11,984	8,280	4,431	3,375	11,441
Purchase Obligations	114,694	113,956	738	-	ı	-	-
Total	\$690,836	\$136,807	\$19,022	\$14,580	\$504,982	\$3,403	\$12,042

Details of other commercial commitments as at September 30, 2015 are as follows:

		Amount of Commitment Expiration Per Period					
In \$000's	Total	2016	2017	2018	2019	2020	Thereafter
Standby Letter of Credit	\$ 8,506	\$ -	\$ 1,486	\$ 6,318	\$ -	\$ -	\$ 702
Guarantees*	9,088	172	115	-	2	66	8,733
Total	\$ 17,594	\$ 172	\$ 1,601	\$ 6,318	\$ 2	\$ 66	\$ 9,435

^{*} The above guarantees mainly relate to requirements under contractual obligations with insurance companies transacting with our German subsidiaries and guarantees provided under our facility leasing obligations.

RESMED INC. AND SUBSIDIARIES

Management's Discussion and Analysis of Financial Condition and Results of Operations

Credit Facility

On October 31, 2013, we entered into a credit agreement, as borrower, with lenders, including Union Bank, N.A., as administrative agent, joint lead arranger, swing line lender and letters of credit issuer, and HSBC Bank USA, National Association, as syndication agent and joint lead arranger. Our obligations under the credit agreement are guaranteed by ResMed Corp. and ResMed Motor Technologies Inc., two of our U.S. subsidiaries.

The credit agreement provides a \$700 million senior unsecured five-year revolving credit facility, with an uncommitted option to increase the credit facility by an additional \$300 million. The credit facility also includes a \$25 million sublimit for letters of credit. The credit facility terminates on October 31, 2018, when all unpaid principal and interest under the loans must be repaid. The outstanding principal amount due under the credit facility will bear interest at a rate equal to LIBOR plus 1.0% to 2.0% (depending on the then-applicable leverage ratio). At September 30, 2015, the interest rate that was being charged on the outstanding principal amount was 1.2%. An applicable commitment fee of 0.15% to 0.25% (depending on the then-applicable leverage ratio) applies on the unused portion of the credit facility.

When we entered into the credit agreement, we used a portion of the proceeds from the initial funding of the credit facility to repay the outstanding balance under our previous revolving credit facility with Union Bank, N.A and other lenders. On that repayment, the previous credit agreement, dated as of February 10, 2011, between us and lenders (including Union Bank, N.A., as administrative agent, swing line lender and L/C Issuer, HSBC Bank USA, National Association, as syndication agent and Union Bank, N.A., HSBC Bank USA, National Association, Commonwealth Bank of Australia and Wells Fargo Bank), was terminated and the commitments under that previous credit agreement were also terminated.

Our obligations under the current credit agreement are unsecured but are guaranteed by two of our U.S. subsidiaries. The credit agreement contains customary covenants, including certain financial covenants and an obligation that we maintain certain financial ratios, including a maximum leverage ratio of funded debt to EBITDA (as defined in the credit agreement) and an interest coverage ratio. The entire principal amount of the credit facility and any accrued but unpaid interest may be declared immediately due and payable if an event of default occurs, as defined in the credit agreement. Events of default under the credit agreement include failure to make payments when due, the occurrence of a default in the performance of any covenants in the credit agreement or related documents, or certain changes of control of ResMed Inc., ResMed Corp., ResMed Motor Technologies Inc., ResMed Limited, ResMed Holdings Ltd/LLC or ResMed EAP Holdings LLC.

At September 30, 2015, we were in compliance with our debt covenants and there was \$500.0 million outstanding under the credit agreement.

We expect to satisfy all of our liquidity requirements through a combination of cash on hand, cash generated from operations and debt facilities.

RESMED INC. AND SUBSIDIARIES

Management's Discussion and Analysis of Financial Condition and Results of Operations

Common Stock

During the three months ended September 30, 2015, we repurchased 1.2 million shares at a cost of \$62.0 million. At September 30, 2015, we have repurchased a total of 40.4 million shares at a cost of \$1.5 billion. Shares that are repurchased are classified as treasury stock pending future use and reduce the number of shares outstanding used in calculating earnings per share. At September 30, 2015, 14.3 million additional shares can be repurchased under the current share repurchase program.

Critical Accounting Principles and Estimates

The preparation of financial statements in conformity with U.S. GAAP requires us to make estimates and judgments that affect our reported amounts of assets and liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. On an ongoing basis we evaluate our estimates, including those related to allowance for doubtful accounts, inventory reserves, warranty obligations, goodwill, potentially impaired assets, intangible assets, income taxes and contingencies.

We state these accounting policies in the notes to the financial statements and at relevant sections in this discussion and analysis. The estimates are based on the information that is currently available to us and on various other assumptions that we believe to be reasonable under the circumstances. Actual results could vary from those estimates under different assumptions or conditions.

For a full discussion of our critical accounting policies, see our Annual Report on Form 10-K for the year ended June 30, 2015.

Recently Issued Accounting Pronouncements

See note 1 to the condensed consolidated financial statements for a description of recently issued accounting pronouncements, including the expected dates of adoption and estimated effects on our results of operations, financial positions and cash flows.

Off-Balance Sheet Arrangements

As of September 30, 2015, we are not involved in any significant off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of Regulation S-K promulgated by the SEC.

RESMED INC. AND SUBSIDIARIES

Quantitative and Qualitative Disclosures About Market Risk

Foreign Currency Market Risk

Our reporting currency is the U.S. dollar, although the financial statements of our non-U.S. subsidiaries are maintained in their respective local currencies. We transact business in various foreign currencies, including a number of major European currencies as well as the Australian and Singapore dollar. We have significant foreign currency exposure through our Australian and Singapore manufacturing activities and our international sales operations. We have established a foreign currency hedging program using purchased currency options and forward contracts to hedge foreign-currency-denominated financial assets, liabilities and manufacturing cash flows. The goal of this hedging program is to economically manage the financial impact of foreign currency exposures predominantly denominated in euros, Australian dollars and Singapore dollars. Under this program, increases or decreases in our foreign-currency-denominated financial assets, liabilities, and firm commitments are partially offset by gains and losses on the hedging instruments. We do not enter into financial instruments for trading or speculative purposes. The foreign currency derivatives portfolio is recorded in the condensed consolidated balance sheets at fair value and included in other assets or other liabilities. All movements in the fair value of the foreign currency derivatives are recorded within other income, net, on our condensed consolidated statements of income.

The table below provides information (in U.S. dollars) on our significant foreign-currency-denominated balances by legal entity functional currency as of September 30, 2015 (in thousands):

	Australian	U.S.		Singapore	Canadian	Great Britain	Chinese

Quantitative and Qualitative Disclosures About Market Risk

The table below provides information about our foreign currency derivative financial instruments and presents the information in U.S. dollar equivalents. The table summarizes information on instruments and transactions that are sensitive to foreign currency exchange rates, including foreign currency call options, collars and forward contracts held at September 30, 2015. The table presents the notional amounts and weighted average exchange rates by contractual maturity dates for our foreign currency derivative financial instruments, including the forward contracts used to hedge our foreign currency denominated assets and liabilities. These notional amounts generally are used to calculate payments to be exchanged under the contracts (in thousands, except exchange rates).

Interest Rate Risk

We are exposed to risk associated with changes in interest rates affecting the return on our cash and cash equivalents and debt. At September 30, 2015, we held cash and cash equivalents of \$822.1 million, principally comprised of bank term deposits and at-call accounts, and they are invested at short-term fixed and variable interest rates. At September 30, 2015, we had total long-term debt, including the current portion of those obligations of \$500.6 million, of which \$500.0 million is subject to variable interest rates. A hypothetical 10% change in interest rates during the three months ended September 30, 2015, would not have had a material impact on pretax income. We have no interest rate hedging agreements.

PART I – FINANCIAL INFORMATION

Item 4

RESMED INC. AND SUBSIDIARIES

Controls and Procedures

We maintain disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in our reports made pursuant to the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and in reaching a reasonable level of assurance management necessarily was required to apply its judgment in evaluating the cost benefit relationship of possible controls and procedures.

As required by Rule 13a-15(b) of the Exchange Act, we carried out an evaluation, under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of September 30, 2015.

There has been no change in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION Item 1-6

RESMED INC. AND SUBSIDIARIES

Item 1 Legal Proceedings

We are involved in various legal proceedings and claims. Litigation is inherently uncertain. Accordingly, we cannot predict the outcome of these matters. But we do not expect the outcome of these matters to have a material adverse effect on our consolidated financial statements when taken as a whole.

In 2013, we filed actions in the U.S. and Germany against Chinese manufacturer BMC Medical Co., Ltd and its U.S. distributor, 3B Medical, Inc. to stop the infringement of several ResMed patents. The U.S. International Trade Commission initiated an investigation, and in December 2014, ruled that certain of BMC's masks infringed ResMed's patents and should be excluded from importation or sale in the US. BMC subsequently notified the Commission that it discontinued US sales of the mask products affected by the Commission's order. The International Trade Commission also ruled that the claims of the patent against BMC's humidifier patent were anticipated by prior art, invalidated those claims, and declined to exclude BMC's humidifier products from importation or sale. Each party has appealed the International Trade Commission's ruling. A companion case in the United States District Court for the Southern District of California remains stayed pending those appeals. In 2013, we obtained preliminary injunctions prohibiting BMC from marketing and selling certain flow generators and mask assemblies accused of patent infringement in Germany. The preliminary injunction against BMC's mask assemblies remains in effect, but in November 2014 the court dissolved the preliminary injunction against the sale of BMC's flow generators, and the court's action dissolving that preliminary injunction was affirmed on appeal. ResMed continues to pursue the underlying German patent infringement action against BMCs flow generators and mask assemblies.

In 2015, BMC's U.S. distributor, 3B Medical, Inc., filed suit in the United States District Court for the Middle District of Florida against ResMed Inc. and ResMed Corp. for alleged federal and state antitrust violations. Specifically, 3B Medical alleges that in addition to enforcing its patents, ResMed has entered into exclusive dealing arrangements with customers, tied sales of masks to sales of flow generators, and spread false information that 3B would go out of business due to ResMed's patent infringement action. 3B Medical seeks damages and an injunction. ResMed Inc. has been dismissed from the case, and ResMed Corp. has denied the allegations.

Item 1A Risk Factors

The discussion of our business and operations should be read together with the risk factors contained in our annual report on Form 10-K for the fiscal year ended June 30, 2015, which was filed with the SEC and describes the various risks and uncertainties to which we are or may become subject. As of September 30, 2015, there have been no material changes to the risk factors set forth in our Annual Report on Form 10-K for the year ended June 30, 2015 with the exception of the following:

Laws regulating consumer contacts could adversely affect our business operations or create liabilities. Our business activities include contacts with consumers in different parts of the world. Certain laws, such as the US Telephone Consumer Protection Act, regulate telemarketing practices and certain automated outbound contacts with consumers, such as phone calls, texts or emails. Our use of outbound contacts may be restricted by existing laws, or by laws, regulations, or regulatory decisions that may be adopted in the future. If we are found to have violated these laws or regulations, we may be subjected to substantial fines, penalties, or liabilities to consumers.

Item 2 Unregistered Sales of Equity Securities and Use of Proceeds

Purchases of equity securities. The following table summarizes purchases by us of our common stock during the three months ended September 30, 2015:

Period	Total Number of Shares Purchased	rice Paid per (USD)	Total Number of Shares Purchased as Part of Publicly Announced Programs (1)	Maximum Number of Shares that May Yet Be Purchased Under the Program ⁽¹⁾
July 1 - 31, 2015	0	-	39,186,234	15,529,779
August 1 - 31, 2015	445,000	52.92	39,631,234	15,084,779
September 1 - 30, 2015	755,000	50.91	40,386,234	14,329,779
Total	1,200,000	\$ 51.66	40,386,234	14,329,779

(1) On February 21, 2014, our board of directors approved our current share repurchase program, authorizing us to acquire up to an aggregate of 20.0 million shares of our common stock. The program allows us to repurchase shares of our common stock from time to time for cash in the open market, or in negotiated or block transactions, as market and business conditions warrant and subject to applicable legal requirements. There is no expiration date for this program, and the program may be accelerated, suspended, delayed or discontinued at any time at the discretion of our board of directors. All share repurchases after February 21, 2014 have been executed under this program. Since the inception of the share buyback programs, we have repurchased 40.4 million shares at a total cost of \$1.5 billion.

RESMED INC. AND SUBSIDIARIES CERTIFICATION OF CHIEF EXECUTIVE OFFICER Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Michael J. Farrell, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of ResMed Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal controls over financial reporting, or caused such internal controls over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

RESMED INC. AND SUBSIDIARIES CERTIFICATION OF CHIEF FINANCIAL OFFICER Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Brett A. Sandercock, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of ResMed Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal controls over financial reporting, or caused such internal controls over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
