Forward looking statements & non-GAAP financial information

This communication contains “forward-looking” statements as that term is defined in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended by the Private Securities Litigation Reform Act of 1995, including statements regarding the acquisition by Wabtec of GE Transportation (the “GE Transportation merger”), statements regarding Wabtec’s expectations about future sales and earnings and statements about the impact of evolving global conditions on Wabtec’s business. All statements, other than historical facts, including statements synergies from the GE Transportation merger; statements regarding Wabtec’s plans, objectives, expectations and intentions; and statements regarding macro-economic conditions and evolving production and demand conditions; and any assumptions underlying any of the foregoing, are forward-looking statements. Forward-looking statements concern future circumstances and results and other statements that are not historical facts and are sometimes identified by the words “may,” “will,” “should,” “potential,” “intend,” “expect,” “endeavor,” “seek,” “anticipate,” “estimate,” “overestimate,” “underestimate,” “believe,” “could,” “project,” “predict,” “continue,” “target” or other similar words or expressions. Forward-looking statements are based upon current plans, estimates and expectations that are subject to risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those indicated or anticipated by such forward-looking statements. The inclusion of such statements should not be regarded as a representation that such plans, estimates or expectations will be achieved. Important factors that could cause actual results to differ materially from such plans, estimates or expectations include, among others, (1) unexpected costs, charges or expenses resulting from acquisitions, including the GE Transportation merger; (2) uncertainty of Wabtec’s expected financial performance; (3) failure to realize the anticipated benefits of acquisitions, including as a result of integrating acquired targets into Wabtec; (4) Wabtec’s ability to implement its business strategy; (5) difficulties and delays in achieving revenue and cost synergies; (6) inability to retain and hire key personnel; (7) evolving legal, regulatory and tax regimes; (8) changes in general economic and/or industry specific conditions, including the impacts of tax and tariff programs, supply chain disruptions, industry consolidation and changes in the financial condition or operating strategies of our customers; (9) changes in the expected timing of projects; (10) a decrease in freight or passenger rail traffic; (11) an increase in manufacturing costs; (12) actions by third parties, including government agencies; (13) the severity and duration of the evolving COVID-19 pandemic and the resulting impact on the global economy and, in particular, our customers, suppliers and end-markets; and (14) other risk factors as detailed from time to time in Wabtec’s reports filed with the SEC, including Wabtec’s annual report on Form 10-K, periodic quarterly reports on Form 10-Q, periodic current reports on Form 8-K and other documents filed with the SEC. The foregoing list of important factors is not exclusive. Any forward-looking statements speak only as of the date of this communication. Wabtec does not undertake any obligation to update any forward-looking statements, whether as a result of new information or development, future events or otherwise, except as required by law. Readers are cautioned not to place undue reliance on any of these forward-looking statements.

This presentation as well as Wabtec’s earnings release and 2021 financial guidance mention certain non-GAAP financial performance measures, including adjusted gross profit, adjusted operating expenses, adjusted income from operations, adjusted interest and other expense, adjusted operating margin, adjusted income tax expense, adjusted effective tax rate, adjusted earnings per diluted share, EBITDA and adjusted EBITDA, net debt, cash conversion rate and book-to-bill ratio. Wabtec defines EBITDA as earnings before interest, taxes, depreciation and amortization. Wabtec defines book-to-bill ratio as new orders divided by sales. While Wabtec believes these are useful supplemental measures for investors, they are not presented in accordance with GAAP. Investors should not consider non-GAAP measures in isolation or as a substitute for net income, cash flows from operations, or any other items calculated in accordance with GAAP. In addition, the non-GAAP financial measures included in this presentation have inherent material limitations as performance measures because they add back certain expenses incurred by the company to GAAP financial measures, resulting in those expenses not being taken into account in the applicable non-GAAP financial measure. Because not all companies use identical calculations, Wabtec’s presentation of non-GAAP financial measures may not be comparable to other similarly titled measures of other companies. Included in this presentation are reconciliation tables that provide details about how adjusted results relate to GAAP results.

3Q 2021 HIGHLIGHTS

Positive momentum ... executing on long-term strategy

- Delivered 130 bps of adj. margin expansion ... improvement across both segments despite significant increase in costs
- Achieved \$250M synergy run-rate ... continued focus on lean & cost initiatives to help mitigate broad based inflation
- Robust YTD cash flow from operations of \$759M ... 103% cash conversion
- Returning capital to shareholders ... executed \$199M share buyback & \$23M in dividends
- Strong backlog provides visibility

Solid execution ... margin expansion & strong cash flow

(1) 3rd quarter cash from operations was positively impacted by securitization of accounts receivable of \$2M.
