Customer share of wallet could shift back to the home.

Why We're Confident

+

OUR KEY DIFFERENTIATORS

We stand out in the market for our in-house design, our digital-first (not digital-only) strategy, and our values.

OUR GROWTH DRIVERS

+

We have substantial opportunities in the B2B space, emerging brands (Rejuvenation, Mark & Graham, and GreenRow), global, and our large brands.

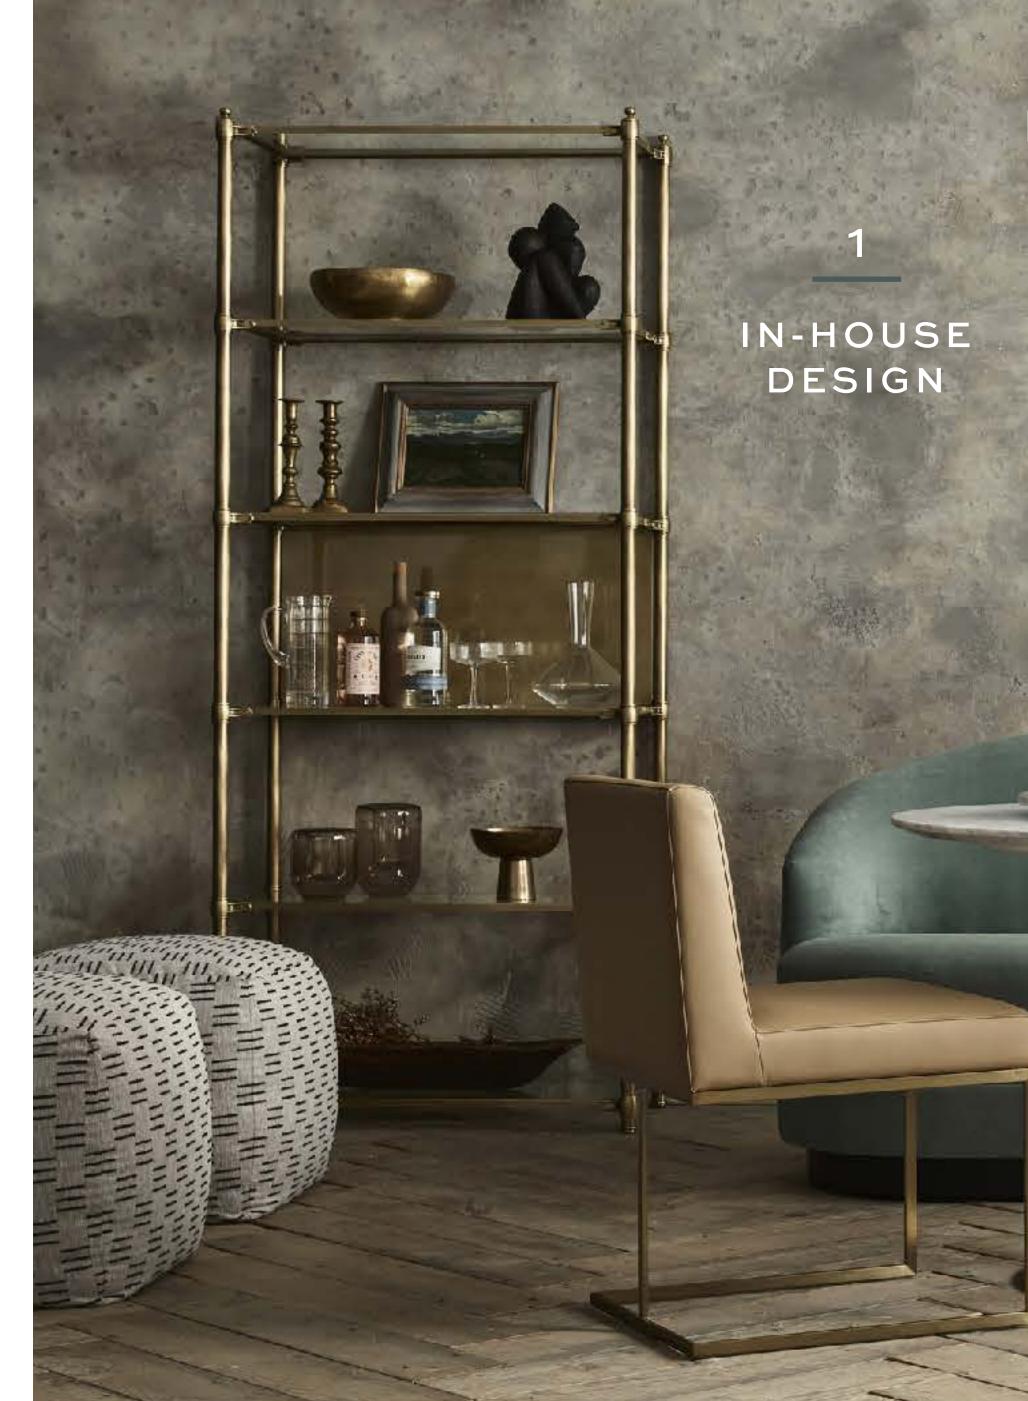

ABILITY TO TAKE SHARE & GROW

We're well-positioned to increase market share and spend per customer.

Driving Earnings

З

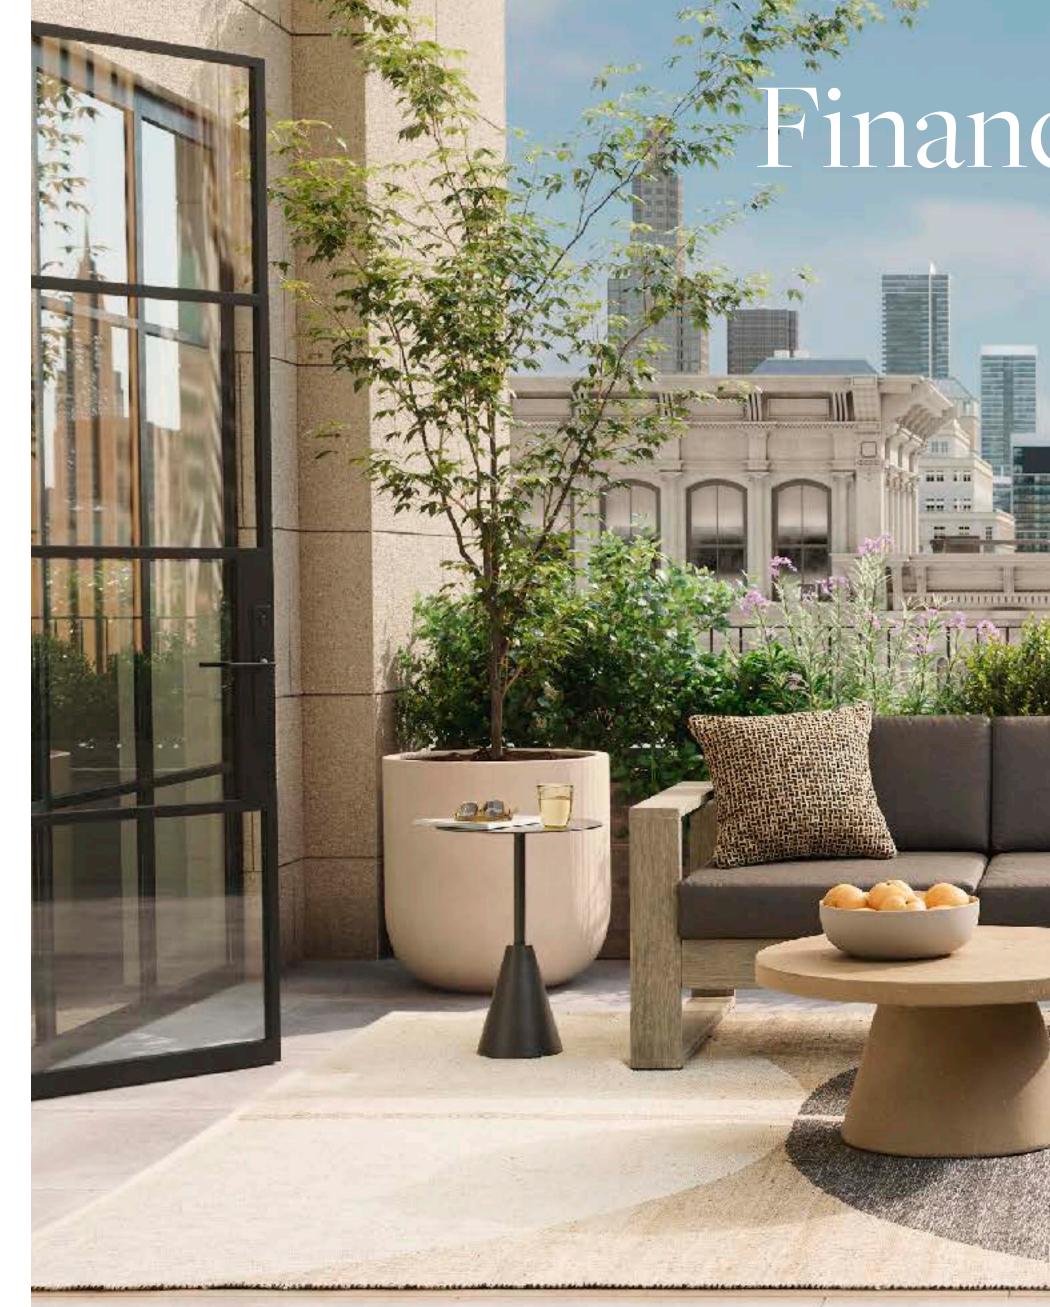

¹ Excludes the impact of the out-of-period adjustment of 60BPS. The out-of-period adjustment relates to over-recognized freight expense in fiscal years 2021, 2022 and 2023 for a cumulative amount of \$49 million. The Company evaluated the error, both qualitatively and quantitatively, and determined that no prior, interim or annual periods were materially misstated. The Company then evaluated whether the cumulative amount of the over-accrual was material to its projected fiscal 2024 results, and determined the cumulative amount was not material. Including the impact of the out-of-period adjustment, we expect our operating margin to be between 18.4% - 18.8%.

SONOMA, INC. rn | pottery barn kids | pottery barn teen | west elm | greenrow noma | williams sonoma home | rejuvenation | mark & graham ARN ONO WILLIAMS POTTERY BA WILLIAMS SO

We expect operating margin to be in the range of 17.8% – 18.2% in FY24, and in the mid-to-high teens in the long term.

GAAP TO NON-GAAP RECONCILIATIONS

This presentation includes non-GAAP financial measures. The following slides provide reconciliations of these non-GAAP financial measures to the most comparable financial measures calculated and presented in accordance with accounting principles generally accepted in the U.S. ("GAAP"). We have not provided a reconciliation of non-GAAP guidance measures to the corresponding GAAP measures on a forward-looking basis due to the potential variability and limited visibility of excluded items; these excluded items may include reduction-in-force initiatives, exit costs associated with our West Coast manufacturing facility and Aperture, impairment charges for certain hardware and software and goodwill of Aperture, expenses related to the acquisition and operations of Outward, Inc., employment-related expense, tax legislation, a deferred tax asset and liability adjustment, impact of inventory write-offs, and impairment and early termination charges. We believe that these non-GAAP financial measures, when reviewed in conjunction with GAAP financial measures, can provide meaningful supplemental information for investors regarding the performance of our business and facilitate a meaningful evaluation of current period performance on a comparable basis with prior periods. Our management uses these non-GAAP financial measures in order to have comparable financial results to analyze changes in our underlying business from quarter to quarter. In addition, certain other items may be excluded from non-GAAP financial measures when the company believes this provides greater clarity to management and investors. These non-GAAP financial measures should be considered as a supplement to, and not as a substitute for or superior to the GAAP financial measures presented in this presentation and our financial statements and other publicly filed reports. Non-GAAP measures as presented herein may not be comparable to similarly titled measures used by other companies.

GAAP TO NON-GAAP RECONCILIATIONS Fiscal Year 2023 & 2022

(Dollars in thousands except per share data)

Footnotes:

- During Q1 2023, we incurred exit costs of \$17.9 million, including \$9.3 million associated with the closure of our West Coast manufacturing facility and \$8.6 million associated with the exiting of Aperture, a division of our Outward, Inc. subsidiary.
- 2. During Q1 2023, we incurred costs related to reduction-in-force initiatives of \$8.3 million primarily in our corporate functions.
- 3. During FY 2022, we incurred an impairment charge of approximately \$17.7 million, including \$9.7 million related to the impairment of software and hardware and \$8.0 million related to the impairment of goodwill, associated with Aperture, a division of our Outward, Inc. subsidiary.
- 4. On July 9, 2024, the Company effected a 2-for-1 stock split of its common stock through a stock dividend. All historical share and per share amounts have been retroactively adjusted to reflect the stock split.

GAAP TO NON-GAAP RECONCILIATIONS Fiscal Year 2021 & 2020

(Dollars in thousands except per share data)

Footnotes:

- During FY2020, we incurred approximately \$11.4 million of inventory write-offs for inventory with minor damage that we could not liquidate through our outlets due to store closures resulting from COVID-19.
- 2. During FY 2021, we incurred approximately \$9.2 million associated with acquisition-related compensation expense and the amortization of acquired intangibles for Outward, Inc. During FY2020, we incurred approximately \$12.1 million associated with acquisition-related compensation expense and the amortization of acquired intangibles for Outward, Inc.
- 3. During FY2O2O, we incurred approximately \$27.1 million of expense associated with store asset impairments due to the impact that COVID-19 had on our retail stores.
- 4. During FY2O2O, we recorded approximately \$5.0 million of tax benefit resulting from a nonrecurring adjustment to certain deferred tax assets and liabilities.
- 5. On July 9, 2024, the Company effected a 2-for-1 stock split of its common stock through a stock dividend. All historical share and per share amounts have been retroactively adjusted to reflect the stock split.

GAAP TO NON-GAAP RECONCILIATIONS Return on Invested Capital (ROIC)

We believe ROIC is a useful financial measure for investors in evaluating the efficient and effective use of capital, and is an important component of long-term shareholder return. The following table presents the calculation of ROIC, together with a reconciliation of net earnings to non-GAAP net operating profit after tax ("NOPAT").

SEC REGULATION G – NON-GAAP INFORMATION:

These tables include non-GAAP occupancy costs, gross profit, gross margin, selling, general and administrative expense, operating income, Adjusted Operating Income, operating margin, income taxes, effective tax rate and diluted EPS. We believe that these non-GAAP financial measures provide meaningful supplemental information for investors regarding the performance of our business and facilitate a meaningful evaluation of our quarterly actual results on a comparable basis with prior periods. Our management uses these non-GAAP financial measures in order to have comparable financial results to analyze changes in our underlying business from quarter to quarter. These non-GAAP financial measures should be considered as a supplement to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP.

Footnotes:

- 1. During Q1 2023, we incurred exit costs of \$17.9 million, including \$9.3 million associated with the closure of our West Coast manufacturing facility and \$8.6 million associated with the exiting of Aperture, a division of our Outward, Inc. subsidiary. Additionally, during Q1 2023, we incurred costs related to reduction-in-force initiatives of \$8.3 million primarily in our corporate functions.
- 2. Adjustment reflects a hypothetical provision for income taxes on adjusted operating income, using the Company's effective tax rate of 25.4%.
