Forward-Looking Statements and Non-GAAP Financial Measures

These slides contain forward-looking statements that are subject to risks and uncertainties. These statements often include words such as “believe”, “anticipate”, “plan”, “expect”, “intend”, “will”, “should”, “could”, “would”, “project”, “continue”, “likely”, and similar expressions. In particular, these slides may contain forward-looking statements about the Company’s expectations for future periods with respect to its plans to improve financial results, the future of the Company’s end markets, including the short-term and long-term impact of the COVID-19 pandemic on our business, changes in the Class 8 and Class 5-7 North America truck build rates, performance of the global construction equipment business, the Company’s prospects in the wire harness, warehouse automation and electric vehicle markets, the Company’s initiatives to address customer needs, organic growth, the Company’s strategic plans and plans to focus on certain segments, competition faced by the Company, volatility in and disruption to the global economic environment and the Company’s financial position or other financial information. These statements are based on certain assumptions that the Company has made in light of its experience as well as its perspective on historical trends, current conditions, expected future developments and other factors it believes are appropriate under the circumstances. Actual results may differ materially from the anticipated results because of certain risks and uncertainties, including those included in the Company’s filings with the SEC. There can be no assurance that statements made in these slides relating to future events will be achieved. The Company undertakes no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results over time. All subsequent written and oral forward-looking statements attributable to the Company or persons acting on behalf of the Company are expressly qualified in their entirety by such cautionary statements.

Supplemental Information

Use Of Non-GAAP Financial Measures

This earnings presentation contains financial measures that are not calculated in accordance with U.S. generally accepted accounting principles (“GAAP”). In general, the non-GAAP measures exclude items that (i) management believes reflect the Company’s multi-year corporate activities; or (ii) relate to activities or actions that may have occurred over multiple or in prior periods without predictable trends. Management uses these non-GAAP financial measures internally to evaluate the Company’s performance, engage in financial and operational planning and to determine incentive compensation.

Management provides these non-GAAP financial measures to investors as supplemental metrics to assist readers in assessing the effects of items and events on the Company’s financial and operating results and in comparing the Company’s performance to that of its competitors and to comparable reporting periods. The non-GAAP financial measures used by the Company may be calculated differently from, and therefore may not be comparable to, similarly titled measures used by other companies.

The non-GAAP financial measures disclosed by the Company should not be considered a substitute for, or superior to, financial measures calculated in accordance with GAAP. The financial results calculated in accordance with GAAP and reconciliations to those financial statements are set forth in the supplemental information.
