WINTER HAVEN, FL - January 24, 2022 - SouthState Corporation (NASDAQ: SSB) today released its unaudited results of operations and other financial information for the three-month and twelve-month periods ended December 31, 2021.

The Company reported consolidated net income of $\$ 1.52$ per diluted common share for the three months ended December 31, 2021, compared to $\$ 1.74$ per diluted common share for the three months ended September 30, 2021, and compared to $\$ 1.21$ per diluted common share one year ago.

Adjusted net income (non-GAAP) totaled $\$ 1.59$ per diluted share for the three months ended December 31, 2021, compared to $\$ 1.94$ per diluted share for the three months ended September 30, 2021, and compared to $\$ 1.44$ per diluted share one year ago. Adjusted net income in the fourth quarter of 2021 excludes $\$ 5.3$ million of merger-related costs (after-tax).
"We are pleased to report a solid fourth quarter to end the year," said John C. Corbett, Chief Executive Officer. "Our teams generated another record quarter for loan production with the fourth quarter's $\$ 3.1$ billion, topping the previous record of $\$ 2.6$ billion from the third quarter and leading to another quarter of strong loan growth. We reported net interest income of $\$ 258.1$ million and core net interest income of $\$ 244.7$ million, which we are pleased to report is a $\$ 6.4$ million increase from the prior quarter. The combination of our growth momentum, surplus cash position, strong asset quality, and our location in growing markets makes us optimistic about our future."

Highlights of the fourth quarter of 2021 include:

## Returns

- Reported and adjusted diluted Earnings per Share ("EPS") of $\$ 1.52$ and $\$ 1.59$ (Non-GAAP), respectively
- Net income and adjusted net income of $\$ 106.8$ million and $\$ 112.1$ million (Non-GAAP), respectively

- Noninterest income of $\$ 91.9$ million, up $\$ 4.9$ million compared to the prior quarter, primarily due to a $\$ 5.1$ million increase in correspondent banking and capital market income and $\$ 4.2$ million increase in deposit fee income, offset by a $\$ 3.5$ million decrease in mortgage banking income
- Noninterest expense excluding merger-related cost (Non-GAAP) increased $\$ 2.7$ million compared to the prior quarter due primarily to an increase in incentive accruals, commissions, charitable donations, operational charge-offs, and higher FDIC assessment expense

- Loans, excluding PPP loans, increased $\$ 395.8$ million, or $6.7 \%$ annualized, centered in $\$ 279.4$ million growth in investor commercial real estate, commercial owner occupied real estate, and single family construction to permanent loans (which are included in the construction and land development loans category) and $\$ 73.4$ million growth in consumer real estate loans

Certain prior period information has been reclassified to conform to the current period presentation, and these reclassifications had no impact on net income or equity as previously reported.

## Footnotes to tables:

(1) Includes loan accretion (interest) income related to the discount on acquired loans of $\$ 7.7$ million, $\$ 5.2$ million, $\$ 6.3$ million, $\$ 10.4$ million, and $\$ 12.7$ million, respectively, during the five quarters above.
(2) Adjusted earnings, adjusted return on average assets, adjusted EPS, and adjusted return on average equity are non-GAAP measures and exclude the gains or losses on sales of securities, FHLB Advances prepayment penalty, initial provision for credit losses on non-PCD loans and unfunded commitments, income tax benefit related to the carryback of tax losses under the CARES Act, swap termination expense, extinguishment of debt cost and merger and branch consolidation related expense. Management believes that non-GAAP adjusted measures provide additional useful information that allows readers to evaluate the ongoing performance of the company. Non-GAAP measures should not be considered as an alternative to any measure of performance or financial condition as promulgated under GAAP, and investors should consider the company's performance and financial condition as reported under GAAP and all other relevant information when assessing the performance or financial condition of the company. Non-GAAP measures have limitations as analytical tools, and investors should not consider them in isolation or as a substitute for analysis of the company's results or financial condition as reported under GAAP. Adjusted earnings and the related adjusted return measures (non-GAAP) exclude the following from net income (GAAP) on an after-tax basis: (a) pretax merger and branch consolidation related expense of $\$ 6.6$ million, $\$ 17.6$ million, $\$ 33.0$ million, $\$ 10.0$ million, and $\$ 19.8$ million for the quarters ended December 31, 2021, September 30, 2021, June 30, 2021, March 31, 2021, and December 31, 2020, respectively; (b) net securities gains of $\$ 2,000, \$ 64,000, \$ 36,000$, and $\$ 35,000$ for the quarters ended December 31, 2021, September 30, 2021, June 30, 2021, and December 31,2020 , respectively; (c) FHLB prepayment penalty of $\$ 56,000$ for the quarter ended December 31, 2020; and (d) swap termination expense of $\$ 38.8$ million for the quarter ended December 31, 2020; (e) tax carryback losses under the CARES Act of $\$ 31.5$ million for the quarter ended December 31, 2020.
(3) The tangible measures are non-GAAP measures and exclude the effect of period end or average balance of intangible assets. The tangible returns on equity and common equity measures also add back the after-tax amortization of intangibles to GAAP basis net income. Management believes that these non-GAAP tangible measures provide additional useful information, particularly since these measures are widely used by industry analysts for companies with prior merger and acquisition activities. Non-GAAP measures should not be considered as an alternative to any measure of performance or financial condition as promulgated under GAAP, and investors should consider the company's performance and financial condition as reported under GAAP and all other relevant information when assessing the performance or financial condition of the company. Non-GAAP measures have limitations as analytical tools, and investors should not consider them in isolation or as a substitute for analysis of the company's results or financial condition as reported under GAAP. The sections titled "Reconciliation of Non-GAAP to GAAP" provide tables that reconcile non-GAAP measures to GAAP.
(4) Adjusted efficiency ratio is calculated by taking the noninterest expense excluding swap termination expense, branch consolidation cost and merger cost, extinguishment of debt cost, tax carryback losses under the CARES Act, amortization of intangible assets, and the FHLB prepayment penalty divided by net interest income and noninterest income excluding securities gains (losses). The pre-tax amortization expenses of intangible assets were $\$ 8.5$ million, $\$ 8.5$ million, $\$ 9.0$ million, $\$ 9.2$ million, and $\$ 9.8$ million, for the quarters ended December 31, 2021, September 30, 2021, June 30, 2021, March 31, 2021, and December 31, 2020, respectively.
(5) The dividend payout ratio is calculated by dividing total dividends paid during the period by the total net income for the same period.
(6) December 31, 2021 ratios are estimated and may be subject to change pending the final filing of the FR Y-9C; all other periods are presented as filed.
(7) Loan data excludes mortgage loans held for sale.
