<sup>2</sup> Reserves as of December 31, 2009.

<sup>3</sup> Royalty is subject to a buy-down right for \$1.0 to \$1.5 million depending on the price of gold and is exercisable at any time for one-half of the royalty. NSR sliding-scale schedule (price of gold per ounce – royalty rate): \$0.00 to \$350 – 2.0%; above \$350 – 3.0%.

<sup>4</sup> Reserves as of December 31, 2008.

<sup>5</sup> Gold and silver royalty rate is based on the price of silver per ounce. NSR sliding-scale schedule (price of silver per ounce – royalty rate) below \$5.00 – 0.0%; \$5.00 to \$7.50 – 3.778%; >\$7.50 – \$9.445%.

<sup>6</sup> Reserves as of October 2007.

<sup>7</sup> In November 2008, the operator made application to the Ontario Superior Court of Justice for a declaration that it is not obligated to pay the entire royalty defined under the royalty agreement and to dispute the royalty rate. The operator claimed that its predecessor in interest is responsible for payment of some or all of the royalty. On July 23, 2009, the Court held that Royal Gold is entitled to payment from the predecessor of the full amount of the NSR sliding-scale royalty and that the operator's obligation is to reimburse the predecessor for payment of the royalty up to a flat rate of 0.013% NSR. On August 21, 2009, the predecessor appealed the portion of the judgment holding it responsible for paying the royalty. On December 9, 2009, Royal Gold was made a party to the appeal.

<sup>8</sup> The Company's royalty is subject to a 2.0 million ounce cap on gold production. There have been approximately 610,000 ounces of cumulative production, as of September 30, 2010. NSR sliding-scale schedule (price of gold per ounce – royalty rate): \$0.00 to \$299.99 – 1.0%; \$300 to \$324.99 – 1.50%; \$325 to \$349.99 – 2.0%; \$350 to \$374.99 – 3.0%; \$375 to \$399.99 – 4.0%; \$400 or higher – 5.0%.

<sup>9</sup> Reserves as of June 2009.

<sup>10</sup> The TB-MR1 royalty applies to ore that is mined outside of the defined area of the Taparko-Bouroum project that is processed through the Taparko facilities up to a maximum of 1.1 million tons per year.

### PAGE 19: WORLD CLASS PORTFOLIO – GROWTH PIPELINE
