World Class Royalty Company

Cautionary Statement

Under the Private Securities Litigation Reform Act

This presentation contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties, and other factors that could cause actual results to differ materially from the projections and estimates contained herein and include, but are not limited to, the analysts' gold equivalent production estimates for the Company for years 2011 through 2013; the operators' estimates of production over the life of the mines; the operators' estimates of reserves and resources, and mine lives; estimated schedules of achieving production and other related mine development, construction and production start-up timetables; that our future principal properties will consist of Peñasquito, Andacollo, Pascua-Lama, Voisey's Bay, and Mt. Milligan. Factors that could cause actual results to differ materially from these forward-looking statements include, among others: the risks inherent in construction, development and ramp up of operations of a new mine at Mt. Milligan by an operator who has not previously operated gold mines; changes in gold and other metals prices; decisions and activities of the Company's management; decisions and activities of the operators at the properties where the Company holds royalties and similar interests; unanticipated grade, geological, metallurgical, processing or other problems at the properties; changes in project parameters as plans of the operators are refined; the results of current or planned exploration activities; economic and market conditions; operations in land subject to First Nations jurisdiction in Canada, the ability of operators to bring non-producing and not yet in development projects into production and operate in accordance with feasibility studies; future financial needs of the Company; the impact of future acquisitions and royalty financing transactions; changes in the Mining Law of 1872; risks associated with conducting business in foreign countries, including application of foreign laws to contract and other disputes, environmental laws, enforcement and uncertain political and economic environments; and customary closing conditions. These risks and other factors are discussed in more detail in the Company's public filings with the Securities and Exchange Commission. Statements made herein are as of the date hereof and should not be relied upon as of any subsequent date. The Company's past performance is not necessarily indicative of its future performance. The Company disclaims any obligation to update any forward-looking statements.

The Company and its affiliates, agents, directors and employees accept no liability whatsoever for any loss or damage of any kind arising out of the use of all or any part of this material.
