# STRATEGIC REVIEW

# STRATEGIC INITIATIVES

1

## Stabilize Lease-ups and Developments

- ✓ Five multifamily properties stabilized in Q2-24 adding **\$16M in Estimated Annual NOI**
- ✓ Incremental NOI of **~\$75 million** from development and lease-up portfolio once stabilized

2

## Strategic Asset Disposition Plan

- ✓ Disposal of non-core assets expected to **generate \$550M-\$750M** in cash to KW; approx. 50% complete
- ✓ Proceeds to be recycled into **Investment Management platforms** and **unsecured debt reduction**

3

## Investment Management Platform Growth

- ✓ Centered around key themes of **rental housing** and **logistics**
- ✓ Leverage long-standing relationships with **global institutional capital partners**
- ✓ Invest across both real estate **equity and debt** opportunities

# INVESTMENT MANAGEMENT PLATFORM

# INVESTMENT MANAGEMENT GROWTH STRATEGY TODAY

## 1 Relationships

KW has developed deep relationships with well-capitalized institutional investors across Asia, Canada, Europe, the Middle East, and the U.S.

## 2 Strategies

Focus on launching new strategies as capital deployment opportunities strengthen

## 3 Growth Opportunity

Significant opportunity to grow AUM through broadening existing relationships and adding new investors

# GROWING PLATFORMS FOCUSED ON MULTIFAMILY, CREDIT, AND INDUSTRIAL

## Rental Housing

### Opportunity Today

- ✓ Continued structural shortage of rental housing in the U.S., UK, and Ireland
- ✓ Stressed capital structures, misaligned leverage, and debt maturities provide opportunity to acquire well below replacement cost
- ✓ Significant decline in new construction to lead to limited new supply in the coming years
- ✓ Boots on the ground investment teams provides local knowledge and expertise

## Debt Platform

### Opportunity Today

- ✓ Certain banks/non-bank lenders are largely out of the market due to capital and liquidity issues
- ✓ Originate lower leverage construction mortgage at attractive risk-adjusted yields
- ✓ Focus primarily on rental housing with top developers in MSAs demonstrating solid fundamentals and continued job growth/household formation
- ✓ Leverage relationships with institutional sponsors and banks to source credit opportunities

## Logistics

### Opportunity Today

- ✓ Supply and demand imbalances in strong urban logistics locations near major centers
- ✓ Banks and funds disposing of value-add assets
- ✓ Continued occupier demand and incremental income growth through granularity of lease events
- ✓ Reposition to green to capture next gen occupiers

**Multifamily:** Whitewater Park  
Boise, ID

**Multifamily Construction Loan:** Sand Canyon Plaza  
Santa Clarita, CA

**Logistics:** Royal Mail

## ESG OVERVIEW

# OUR ESG PROGRAM FOCUSES ON FOUR PILLARS

## Optimizing Resources

for a healthy environment and a productive business

We **optimize resources** with a focus on environmental stewardship and optimizing returns, ensuring that energy, water, and waste resources are carefully measured, managed, and reduced. Through this program, we also reduce greenhouse gas emissions and future-proof our assets.

## Creating Great Places

for people to live, work and thrive

We **create great places** for people to live, work and thrive, focusing on purposeful construction that enriches our tenants' experiences by bridging the gap between home, workplace, and community. We make buildings more productive so they are greener, more resilient, and enhance people's wellbeing and productivity.

## Building Communities

for a prosperous society

We **build communities** that are accessible, healthy, and sustainable within and around our assets and in major cities where we operate. We support communities to prosper and grow through building community spaces, creating resident interaction, community engagement, charitable giving, and collaborating with local partners.

## Operating Responsibly

for a healthy work environment built on transparency and accountability

We **operate responsibly** to ensure business-wide transparency and accountability, with a clear focus on diversity and inclusion (D&I), empowering people and providing a healthy and safe environment for our employees, customers, and building users.

# APPENDIX

## DEFINITIONS:

**Adjusted EBITDA** represents net income before interest expense, loss (gain) on early extinguishment of debt, our share of interest expense included in unconsolidated investments, depreciation and amortization, our share of depreciation and amortization included in unconsolidated investments, provision for (benefit from) income taxes, our share of taxes included in unconsolidated investments, share-based compensation expense for the Company, and EBITDA attributable to noncontrolling interests.

**Adjusted Net Income** represents net income (loss) before depreciation and amortization, our share of depreciation and amortization included in unconsolidated investments, share-based compensation, and excluding net income attributable to noncontrolling interests, before depreciation and amortization and preferred dividends.

**Estimated Annual NOI** is a property-level non-GAAP measure representing the estimated annual net operating income from each property as of the date shown, inclusive of rent abatements (if applicable). The calculation excludes depreciation and amortization expense, and does not capture the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures, tenant improvements, and leasing commissions necessary to maintain the operating performance of our properties. For assets wholly-owned and fully occupied by KW, the Company provides an estimated NOI for valuation purposes of \$4.3 million, which includes an assumption for applicable market rents. Any of the enumerated items above could have a material effect on the performance of our properties. Also, where specifically noted, for properties purchased in 2024, the NOI represents estimated Year 1 NOI from our original underwriting. Estimated year 1 NOI for properties purchased in 2024 may not be indicative of the actual results for those properties. Estimated Annual NOI is not an indicator of the actual annual net operating income that the Company will or expects to realize in any period. Please also see the definition of "Net operating income" below. Please also see the reconciliation to GAAP in the Company's supplemental financial information included in this release and also available at [www.kennedywilson.com](http://www.kennedywilson.com).

**Fee-Bearing Capital** represents total third-party committed or invested capital that we manage in our joint-ventures, commingled funds, and debt platform that entitle us to earn fees, including without limitation, asset management fees, construction management fees, acquisition and disposition fees and/or promoted interest, if applicable.

**Gross Asset Value** refers to the gross carrying value of assets, before debt, depreciation and amortization, and net of noncontrolling interests.

**Property-level NOI** is a non-GAAP measure calculated by deducting the Company's Pro-Rata share of rental and hotel property expenses from the Company's Pro-Rata rental and hotel revenues and includes income from loan investments.

**Real Estate AUM ("AUM")** generally refers to the properties and other assets with respect to which the Company provides (or participates in) oversight, investment management services and other advice, and which generally consist of real estate properties or loans, and investments in joint ventures. AUM is principally intended to reflect the extent of the Company's presence in the real estate market, not the basis for determining management fees. AUM consists of the total estimated fair value of the real estate properties, total loan commitments made through our debt investment platform, inclusive of both currently outstanding loan amounts and contractual future fundings, and other real estate-related assets either owned by third parties, wholly-owned by the Company or held by joint ventures and other entities in which its sponsored funds or investment vehicles and client accounts have invested. The estimated value of development properties is included at estimated completion cost. The accuracy of estimating fair value for investments cannot be determined with precision and cannot be substantiated by comparison to quoted prices in active markets and may not be realized in a current sale or immediate settlement of the asset or liability (particularly given the ongoing macroeconomic conditions such as, but not limited to recent adverse developments affecting regional banks and other financial institutions, and ongoing military conflicts around the world and uncertainty with respect to fluctuating interest rates continue to fuel recessionary fears and create volatility in Kennedy Wilson's business results and operations). Recently, there has also been a lack of liquidity in the capital markets as well as limited transactions which has had an impact on the inputs associated with fair values. Additionally, there are inherent uncertainties in any fair value measurement technique, and changes in the underlying assumptions used, including capitalization rates, discount rates, liquidity risks, and estimates of future cash flows could significantly affect the fair value measurement amounts. All valuations of real estate involve subjective judgments.

## FOOTNOTES (as referenced on Components of Value slide):

(1) Please see above for a definition of Estimated Annual NOI and a description of its limitations. The Company does not provide a reconciliation for Estimated Annual NOI to its most directly comparable forward looking GAAP financial measure, because it is unable to provide a meaningful or accurate estimation of each of the component reconciling items, and the information is not available without unreasonable effort. This is due to the inherent difficulty of forecasting the timing and/or amount of various items that would impact Estimated Annual NOI, including, for example, gains on sales of depreciable real estate and other items that have not yet occurred and are out of the Company's control. For the same reasons, the Company is unable to meaningfully address the probable significance of the unavailable information and believes that providing a reconciliation for estimated annual NOI would imply a degree of precision as to its forward-looking net operating income that would be confusing or misleading to investors.

(2) Based on weighted-average ownership figures held by KW.

(3) Annual figures are representative of the trailing 12 months and are not indicators of the actual results that the Company will or expects to realize in any period.
