# **FY2024 1**st Half Financial Results (Six Months Ended August 31, 2024)

#### Notes:

- From FY2024, we revise the segment classification of PV inverter, which had been included in the System Engineering segment, to be included in the Motion Control segment. As a result, the figures for FY2024 are shown based on the revised information. Figures for FY2023 are also presented based on the revised information. (See page 21.)

## FY2024 1H Financial Results by Business Segment

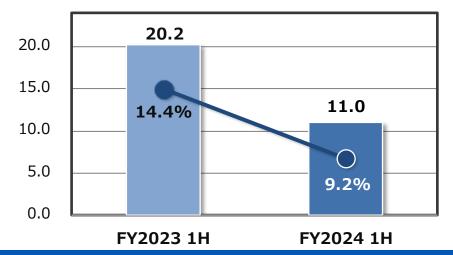

- In Motion Control, operating profit decreased due to the large impact of a decline in revenue mainly in AC servo & controller business.
- In Robotics, revenue slightly decreased because investment was held down in China, despite firm demand in the automobile market and general industries.
   Operating profit decreased mainly due to upfront investment and the impact of a decrease in revenue.

## **Business Segment Overview: Motion Control**

## Operating profit (Billions of yen) Operating profit ratio (%)

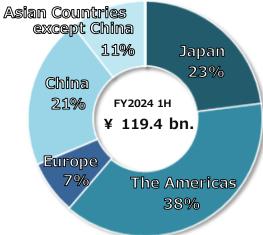

#### [Revenue]

- In AC servo & controller business, revenue decreased due to sluggish market conditions in China and Europe, and a delayed recovery in semiconductor-related demand in Japan.
- In Drives business, although demand related to data centers and infrastructure-related demand in ASEAN countries and India remained firm, revenue decreased due to inventory adjustments.

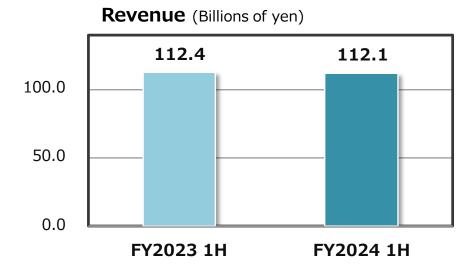

#### [Operating Profit]

 Although progress was made in curbing expenses and improving added value, operating profit decreased due to the large impact of a decline in profit resulting from a decrease in revenue.

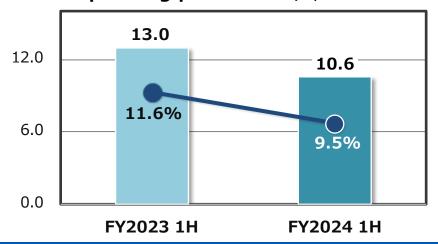

Revenue breakdown by region

## Business Segment Overview: Robotics

## Operating profit (Billions of yen) Operating profit ratio (%)

#### [Revenue]

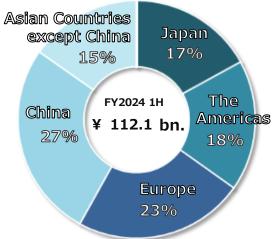

- In the automobile market, demand increased in Japan, Europe, the U.S., and India.
- In the general industry, demand for automation remained firm in the U.S. and China.
- Revenue slightly decreased because investment was held down in automobile market in China.

#### [Operating Profit]

 Operating profit decreased mainly due to the impact of upfront investment to strengthen system responsiveness and a decrease in profits due to a decrease in revenue.

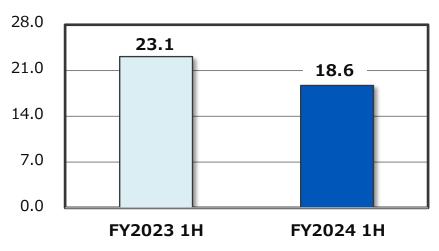

Revenue breakdown

by region

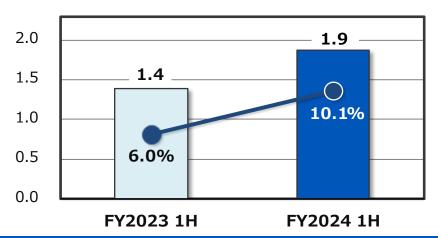

## Business Segment Overview: System Engineering

#### **Revenue** (Billions of yen)

# Operating profit (Billions of yen) Operating profit ratio (%)

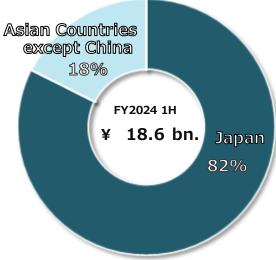

#### [Revenue]

 Although port crane-related sales remained firm, revenue decreased due to the impact of the sale of a subsidiary related to large-scale wind turbines in the second half of the previous fiscal year.

#### [Operating Profit]

 Operating profit increased due to the effects of business structural reforms, as well as an increase in revenue of mainstay steel and crane related products.
