Armstrong World Industries Investor Presentation

August 2024

Safe Harbor Statement

Disclosures in this presentation contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including without limitation, those relating to future financial and operational results, expected savings from cost management initiatives, the performance of our WAVE¹ joint venture, market and broader economic conditions and guidance. Those statements provide our future expectations or forecasts and can be identified by our use of words such as “anticipate,” “estimate,” “expect,” “project,” “intend,” “plan,” “believe,” “outlook,” “target,” “predict,” “may,” “will,” “would,” “could,” “should,” “seek,” and other words or phrases of similar meaning in connection with any discussion of future operating or financial performance. This includes annual guidance. Forward-looking statements, by their nature, address matters that are uncertain and involve risks because they relate to events and depend on circumstances that may or may not occur in the future. As a result, our actual results may differ materially from our expected results and from those expressed in our forward-looking statements. A more detailed discussion of the risks and uncertainties that could cause our actual results to differ materially from those projected, anticipated or implied is included in the “Risk Factors” and “Management’s Discussion and Analysis” sections of our reports on Form 10-K and Form 10-Q filed with the U.S. Securities and Exchange Commission (“SEC”), including our report for the quarterly period ended June 30, 2024. Forward-looking statements speak only as of the date they are made. We undertake no obligation to update any forward-looking statements beyond what is required under applicable securities law.

In addition, we will be referring to non-Generally Accepted Accounting Principles in the United States (“GAAP”) financial measures within the meaning of SEC Regulation G.

A reconciliation of the differences between these measures with the most directly comparable financial measures calculated in accordance with GAAP is included within this presentation and available on the Investor Relations page of our website at www.armstrongceilings.com.

The guidance in this presentation is only effective as of the date given, July 30, 2024, and will not be updated or affirmed unless and until we publicly announce updated or affirmed guidance.

1. Worthington Armstrong Joint Venture (“WAVE”).

Basis of Presentation Explanation

Results throughout this presentation are presented on a normalized basis.

We remove the impact of certain discrete expenses and income in certain measures including adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (“EBITDA”), adjusted diluted earnings per share (“EPS”) and adjusted free cash flow. The Company excludes certain acquisition related expenses (i.e. – impact of adjustments related to the fair value of inventory, contingent third-party professional fees, changes in the fair value of contingent consideration and deferred compensation accruals¹ for acquisitions). The Company also excludes all acquisition-related amortization from adjusted net earnings and in calculations of adjusted diluted EPS. Examples of other excluded items have included plant closures, restructuring charges and related costs, impairments, separation costs and other cost reduction initiatives, environmental site expenses and environmental insurance recoveries, endowment level charitable contributions, the impact of defined benefit plan settlements, and certain other gains and losses. The Company also excludes income/expense from its U.S. Retirement Income Plan (“RIP”) in the non-GAAP results as it represents the actuarial net periodic benefit credit/cost recorded. For all periods presented, the Company was not required to and did not make cash contributions to the RIP based on guidelines established by the Pension Benefit Guaranty Corporation, nor does the Company expect to make cash contributions to the plan in 2024.

Our tax rate may be adjusted for certain discrete items, which are identified in the footnotes.

Investors should not consider non-GAAP measures as a substitute for GAAP measures.

Excluding adjusted diluted EPS, non-GAAP figures are rounded to the nearest million and corresponding percentages are based on unrounded figures.

Operating Segments: “MF”: Mineral Fiber, “AS”: Architectural Specialties, “UC”: Unallocated Corporate

All dollar figures throughout the presentation are in \$ millions, except per share data, and all comparisons are versus the applicable prior-year period unless otherwise noted. Figures may not sum due to rounding.

1. The deferred compensation accruals were for cash and stock awards that are recorded over each awards' respective vesting period, as such payments were subject to the sellers' and employees' continued employment with the Company.

PLAY

It matters to us, and it matters to our stakeholders

Sustainability is Integral to Our Success

Our Approach

Three Pillars guide our sustainability program, each with specific goals and targets. We aim to lead a transformation in the design and building of spaces so that occupants, owners, operators and communities can thrive.

Healthy and Circular Products

We are committed to responsible sourcing and to providing transparency in our products. In addition, we will design our products to minimize waste and pollution, support circularity and contribute to the regeneration of natural systems.

Healthy Planet

Our electricity will be either directly or indirectly sourced through renewable energy, and we will reduce carbon, GHG waste and water impacts of our products and solutions.

Thriving People and Communities

Our workforce will be safe, diverse, inclusive and fulfilled, and we will actively contribute to our local communities.

Value Creation for Shareholders

Uniquely Positioned to Win in an Attractive Category

Ceiling and wall solutions matter in designing high-performing spaces

Attractive Category

Ceilings and wall category has distinctive attributes in the building products industry

Consolidated industry structure with exposure to diverse end markets

Large Mineral Fiber installed base (est. at ~39 Billion ft²)* generates stable and repeating repair & remodel demand

Highly specified, high-value products with few cost-effective substitutes

Customers demonstrate brand loyalty; rewarding performance, service and innovation

Ceilings are an integral part of evolving solutions to meet increasing demand for total indoor environmental quality

Why We Win

As the industry leader, AWI is advantageously positioned to win within this category

Strong and trusted brand

Broadest, most innovative product portfolio

Specification excellence through deep and long-standing relationships with architects and designers

Large manufacturing scale with strong exclusive distribution partners

Operational excellence supporting best-in-class service and quality

A culture that fosters empowerment, innovation, teamwork and execution across functional areas
