## Post-Award Indexed REC Process Second Workshop: Contract Terms that Stakeholders Would Like To Be Negotiable Post-Award

August 19, 2024

The IPA's 2024 Long-Term Plan outlined a process for exploring post-award REC delivery contract term changes for utility-scale wind and utility-scale solar projects. The IPA is now conducting a series of workshops running through November 2024 with the goal that an Indexed REC contract post-award negotiation process may be finalized for inclusion in a compliance filing with the ICC by mid-February 2025.

Building on the discussion from the first workshop, the IPA announces the second workshop with the details below:

### Second Workshop Topic: "Contract Terms that Stakeholders Would Like To Be Negotiable Post-Award"
