

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549**

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2023

or

TRANSITION REPORT PURSUANT TO SECTION 13 or 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File Number 000-51446

CONSOLIDATED COMMUNICATIONS HOLDINGS, INC.

(Exact name of registrant as specified in its charter)

<u>Delaware</u> (State or other jurisdiction of incorporation or organization)	<u>02-0636095</u> (IRS Employer Identification No.)
<u>2116 South 17th Street, Mattoon, Illinois</u> (Address of principal executive offices)	<u>61938-5973</u> (Zip Code)

(217) 235-3311

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Trading Symbol(s)</u>	<u>Name of each exchange on which registered</u>
Common Stock - \$0.01 par value	CNSL	The Nasdaq Global Select Market

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

On August 2, 2023, the registrant had 116,610,525 shares of Common Stock outstanding.

CONSOLIDATED COMMUNICATIONS HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business and Basis of Accounting

Consolidated Communications Holdings, Inc. (the “Company,” “we,” “our” or “us”) is a holding company with operating subsidiaries (collectively “Consolidated”) that provide communication solutions to consumer, commercial and carrier customers across a service area in over 20 states.

Leveraging our advanced fiber network spanning approximately 58,800 fiber route miles, we offer residential high-speed Internet, video, phone and home security services as well as a comprehensive business product suite including: data and Internet solutions, voice, data center services, security services, managed and IT services, and an expanded suite of cloud services.

In the opinion of management, the accompanying unaudited condensed consolidated balance sheets and related condensed consolidated statements of operations, comprehensive income (loss), mezzanine equity and shareholders’ equity and cash flows include all adjustments, consisting only of normal recurring items, necessary for their fair presentation in conformity with accounting principles generally accepted in the United States (“US GAAP” or “GAAP”) for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with US GAAP have been condensed or omitted pursuant to such SEC rules and regulations and accounting principles applicable for interim periods.

Events subsequent to the balance sheet date have been evaluated for inclusion in the accompanying condensed consolidated financial statements through the date of issuance. Management believes that the disclosures made are adequate to make the information presented not misleading. Interim results are not necessarily indicative of results for a full year. The information presented in this Form 10-Q should be read in conjunction with Management’s Discussion and Analysis of Financial Condition and Results of Operations and the consolidated financial statements and the accompanying notes to the financial statements (“Notes”) thereto included in our 2022 Annual Report on Form 10-K filed with the SEC.

Recent Developments

Take Private Proposal

On April 12, 2023, our board of directors (the “Board”) received a non-binding proposal letter from Searchlight Capital Partners, L.P. (“Searchlight”), together with its affiliated investment funds, and British Columbia Investment Management Corporation (“BCI” and together with Searchlight, the “Searchlight Group”) to acquire all of the outstanding common shares of Consolidated not already owned by the Searchlight Group for cash consideration of \$4.00 per share (the “Proposal”). The Proposal letter states that any potential transaction must be subject to the approval and recommendation by a special committee of independent and disinterested directors, advised by independent legal and financial advisors. The Proposal letter also indicates that any potential transaction would be subject to a non-waivable condition requiring the approval of the holders of a majority of the shares of Common Stock that are not owned by the Searchlight Group. The Board has formed a special committee of independent directors to evaluate and consider the Proposal.

The Proposal constitutes only an indication of interest by the Searchlight Group and does not constitute a binding commitment with respect to the proposed transaction or any other transaction. No agreement, arrangement or understanding between Consolidated and the Searchlight Group relating to any proposed transaction will be created unless definitive documentation is executed and delivered by the appropriate parties. There can be no assurance that the Proposal will result in a transaction occurring, its timing, or ultimate terms.

[Table of Contents](#)

On December 7, 2021, we closed on the final stage of the investment agreement (the “Investment Agreement”) entered into on September 13, 2020 with an affiliate of Searchlight. In connection with the Investment Agreement, affiliates of Searchlight have invested an aggregate of \$425.0 million in the Company and hold a combination of Series A perpetual preferred stock and approximately 34% of the Company’s outstanding common stock as of June 30, 2023. For a more complete discussion of the transaction, refer to Note 4.

Cost Savings Initiative

In July 2023, we initiated a business simplification and cost savings initiative plan intended to further align our company as a fiber-first provider, improve operating efficiencies, lower our cost structure and ultimately improve the overall customer experience. This initiative includes a reduction in workforce, consolidation and elimination of certain facilities and review of our product offerings. We anticipate incurring costs of approximately \$10.0 million to \$15.0 million during the next nine to twelve months to implement and execute the plan. The scope of the plan is expected to be finalized during the second half of 2023.

Discontinued Operations – Sale of Investment in Wireless Partnerships

On September 13, 2022, we completed the sale of our five limited wireless partnership interests to Cellco Partnership (“Cellco”) for an aggregate purchase price of \$490.0 million, other than a portion of the interest in one of the partnerships which was sold to a limited partner of such partnership pursuant to its right of first refusal. Cellco is the general partner for each of the five wireless partnerships and is an indirect, wholly-owned subsidiary of Verizon Communications, Inc. In accordance with Accounting Standards Codification (“ASC”) 205-20, *Presentation of Financial Statements – Discontinued Operations*, the sale of the limited partnership interests met the criteria for reporting as discontinued operations. As a result, the financial results of the limited partnership interests have been classified as discontinued operations in our consolidated financial statements for all prior periods presented. Refer to Note 6 for additional information on the transaction and the partnership interests.

Accounts Receivable and Allowance for Credit Losses

Accounts receivable (“AR”) consists primarily of amounts due to the Company from normal business activities. We maintain an allowance for credit losses (“ACL”) based on our historical loss experience, current conditions and forecasted changes including but not limited to changes related to the economy, our industry and business. Uncollectible accounts are written-off (removed from AR and charged against the ACL) when internal collection efforts have been unsuccessful. Subsequently, if payment is received from the customer, the recovery is credited to the ACL.

The following table summarizes the activity in ACL for the six months ended June 30, 2023 and 2022:

<i>(In thousands)</i>	Six Months Ended	
	June 30,	
	2023	2022
Balance at beginning of year	\$ 11,470	\$ 9,961
Provision charged to expense	4,140	4,230
Write-offs, less recoveries	(3,190)	(3,669)
Balance at end of year	<u>\$ 12,420</u>	<u>\$ 10,522</u>

Recent Accounting Pronouncements

In March 2020, the Financial Accounting Standards Board (“FASB”) issued ASU No. 2020-04 (“ASU 2020-04”), *Facilitation of the Effects of Reference Rate Reform on Financial Reporting*. ASU 2020-04 provides optional expedients and exceptions for applying GAAP to contracts, hedging relationships, and other transactions affected by reference rate reform if certain criteria are met. In January 2021, the FASB issued ASU No. 2021-01 (“ASU 2021-01”), *Reference Rate Reform (Topic 848): Scope*. ASU 2021-01 clarifies that certain optional expedients and exceptions in Topic 848 for contract modifications and hedge accounting apply to derivatives that are affected by the discounting transition. ASU 2020-04 and ASU 2021-01 are both elective and are effective upon issuance through December 31, 2022. In December 2022, the FASB issued ASU No. 2022-06, *Reference Rate Reform (Topic 848): Deferral of the Sunset Date of Topic 848*,

[Table of Contents](#)

to extend the optional relief guidance in Topic 848 from December 31, 2022 to December 31, 2024. The adoption of this guidance in 2023 did not have a material impact on our condensed consolidated financial statements and related disclosures.

Reclassifications

Certain amounts in our 2022 condensed consolidated financial statements have been reclassified to conform to the current year presentation which consists of the presentation of the financial results for our wireless partnership interests as discontinued operations.

2. REVENUE

Nature of Contracts with Customers

Our revenue contracts with customers may include a promise or promises to deliver goods such as equipment and/or services such as broadband, video or voice services. Promised goods and services are considered distinct as the customer can benefit from the goods or services either on their own or together with other resources that are readily available to the customer and the Company's promise to transfer a good or service to the customer is separately identifiable from other promises in the contract. The Company accounts for goods and services as separate performance obligations. Each service is considered a single performance obligation as it is providing a series of distinct services that are substantially the same and have the same pattern of transfer.

The transaction price is determined at contract inception and reflects the amount of consideration to which we expect to be entitled in exchange for transferring a good or service to the customer. This amount is generally equal to the market price of the goods and/or services promised in the contract and may include promotional discounts. The transaction price excludes amounts collected on behalf of third parties such as sales taxes and regulatory fees. Conversely, nonrefundable upfront fees, such as service activation and set-up fees, are included in the transaction price. In determining the transaction price, we consider our enforceable rights and obligations within the contract. We do not consider the possibility of a contract being cancelled, renewed or modified.

The transaction price is allocated to each performance obligation based on the standalone selling price of the good or service, net of the related discount, as applicable.

Revenue is recognized when or as performance obligations are satisfied by transferring control of the good or service to the customer.

Contract Assets and Liabilities

The following table provides information about receivables, contract assets and contract liabilities from our revenue contracts with customers:

<i>(In thousands)</i>	June 30,	
	2023	2022
Accounts receivable, net	\$ 100,827	\$ 117,479
Contract assets	30,071	24,928
Contract liabilities	56,963	56,659

Contract assets include costs that are incremental to the acquisition of a contract. Incremental costs are those that result directly from obtaining a contract or costs that would not have been incurred if the contract had not been obtained, which primarily relate to sales commissions and certain contract fulfillment costs. These costs are deferred and amortized over the expected customer life. We determined that the expected customer life is the expected period of benefit as the commission on the renewal contract is not commensurate with the commission on the initial contract. During the three months ended June 30, 2023 and 2022, the Company recognized expense of \$3.2 million and \$3.1 million, respectively, related to deferred contract acquisition costs. During the six months ended June 30, 2023 and 2022, the Company recognized expense of \$6.7 million and \$6.2 million, respectively, related to deferred contract acquisition costs.

Contract liabilities include deferred revenues related to advanced payments for services and nonrefundable, upfront service activation and set-up fees, which are generally deferred and amortized over the expected customer life as the option to renew without paying an upfront fee provides the customer with a material right. During the three months ended June 30, 2023 and 2022, the Company recognized previously deferred revenues of \$100.8 million and \$122.6 million, respectively.

[Table of Contents](#)

For the six months ended June 30, 2023 and 2022, the Company recognized previously deferred revenues of \$221.5 million and \$244.2 million, respectively.

A receivable is recognized in the period the Company provides goods or services when the Company's right to consideration is unconditional. Payment terms on invoiced amounts are generally 30 to 60 days.

Performance Obligations

Accounting Standards Codification ("ASC") Topic 606, *Revenue from Contracts with Customers* ("ASC 606"), requires that the Company disclose the aggregate amount of the transaction price that is allocated to remaining performance obligations that are unsatisfied as of June 30, 2023. The guidance provides certain practical expedients that limit this requirement. The service revenue contracts of the Company meet the following practical expedients provided by ASC 606:

1. The performance obligation is part of a contract that has an original expected duration of one year or less.
2. Revenue is recognized from the satisfaction of the performance obligations in the amount billable to the customer in accordance with ASC 606-10-55-18.

The Company has elected these practical expedients. Performance obligations related to our service revenue contracts are generally satisfied over time. For services transferred over time, revenue is recognized based on amounts invoiced to the customer as the Company has concluded that the invoice amount directly corresponds with the value of services provided to the customer. Management considers this a faithful depiction of the transfer of control as services are substantially the same and have the same pattern of transfer over the life of the contract. As such, revenue related to unsatisfied performance obligations that will be billed in future periods has not been disclosed.

3. EARNINGS (LOSS) PER SHARE

Basic and diluted earnings (loss) per common share ("EPS") are computed using the two-class method, which is an earnings allocation method that determines EPS for each class of common stock and participating securities considering dividends declared and participation rights in undistributed earnings. Common stock related to certain of the Company's restricted stock awards are considered participating securities because holders are entitled to receive non-forfeitable dividends, if declared, during the vesting term.

The potentially dilutive impact of the Company's restricted stock awards is determined using the treasury stock method. Under the treasury stock method, if the average market price during the period exceeds the exercise price, these instruments are treated as if they had been exercised with the proceeds of exercise used to repurchase common stock at the average market price during the period. Any incremental difference between the assumed number of shares issued and repurchased is included in the diluted share computation.

Diluted EPS includes securities that could potentially dilute basic EPS during a reporting period. Dilutive securities are not included in the computation of loss per share when a company reports a net loss from continuing operations as the impact would be anti-dilutive.

[Table of Contents](#)

The computation of basic and diluted EPS attributable to common shareholders computed using the two-class method is as follows:

<i>(In thousands, except per share amounts)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2023	2022	2023	2022
Loss from continuing operations	\$ (108,092)	\$ (10,591)	\$ (145,053)	\$ (129,687)
Less: dividends on Series A preferred stock	10,704	9,802	21,291	19,400
Less: net income attributable to noncontrolling interest	161	203	304	318
Loss from continuing operations attributable to common shareholders	(118,957)	(20,596)	(166,648)	(149,405)
Income from discontinued operations attributable to common shareholders	—	9,079	—	12,626
Net loss attributable to common shareholders	<u>\$ (118,957)</u>	<u>\$ (11,517)</u>	<u>\$ (166,648)</u>	<u>\$ (136,779)</u>
Weighted-average number of common shares outstanding	<u>113,050</u>	<u>111,697</u>	<u>112,995</u>	<u>111,694</u>
Basic and diluted earnings (loss) per common share:				
Loss from continuing operations	\$ (1.05)	\$ (0.18)	\$ (1.47)	\$ (1.33)
Income from discontinued operations	—	0.08	—	0.11
Net loss per common share attributable to common shareholders - basic and diluted	<u>\$ (1.05)</u>	<u>\$ (0.10)</u>	<u>\$ (1.47)</u>	<u>\$ (1.22)</u>

Diluted EPS attributable to common shareholders for the three months ended June 30, 2023 and 2022 excludes 3.6 million and 3.7 million potential common shares related to our share-based compensation plan, respectively, because the inclusion of the potential common shares would have an antidilutive effect. For the six months ended June 30, 2023 and 2022, diluted EPS attributable to common shareholders excludes 3.0 million and 3.1 million potential common shares, respectively.

4. SEARCHLIGHT INVESTMENT

In connection with the Investment Agreement entered into on September 13, 2020, affiliates of Searchlight committed to invest up to an aggregate of \$425.0 million in the Company. The investment commitment was structured in two stages. In the first stage of the transaction, which was completed on October 2, 2020, Searchlight invested \$350.0 million in the Company in exchange for 6,352,842 shares, or approximately 8%, of the Company's common stock and was issued a CPR that was convertible, upon the receipt of certain regulatory and shareholder approvals, into an additional 17,870,012 shares, or 16.9%, of the Company's common stock. In addition, Searchlight received the right to an unsecured subordinated note with an aggregate principal amount of approximately \$395.5 million (the "Note"), which was convertible into shares of a new series of perpetual preferred stock of the Company with an aggregate liquidation preference equal to the principal amount of the Note plus accrued interest as of the date of conversion.

On July 15, 2021, the Company received all required state public utility commission regulatory approvals necessary for the conversion of the CPR into 16.9% additional shares of the Company's common stock. As a result, the CPR was converted into 17,870,012 shares of common stock, which were issued to Searchlight on July 16, 2021.

In the second stage of the transaction, which was completed on December 7, 2021 following the receipt of Federal Communications Commission ("FCC") and certain regulatory approvals and the satisfaction of certain other customary closing conditions, Searchlight invested an additional \$75.0 million and was issued the Note. On December 7, 2021, Searchlight elected to convert the Note into 434,266 shares of Series A Perpetual Preferred Stock, par value \$0.01 per share (the "Series A Preferred Stock"). In addition, the CPR converted into an additional 15,115,899 shares, or an additional 10.1%, of the Company's common stock. As of June 30, 2023 and December 31, 2022, the total shares of common stock issued to Searchlight represent approximately 34% of the Company's outstanding common stock.

[Table of Contents](#)

On December 7, 2021, Searchlight exercised its option to convert the Note and the net carrying value of the Note of \$285.9 million, net of unamortized discount and issuance costs of \$139.7 million and \$8.7 million, respectively, was converted into 434,266 shares of Series A Preferred Stock at a liquidation preference of \$1,000 per share. Dividends on the Series A Preferred Stock accrue daily on the liquidation preference at a rate of 9.0% per annum, payable semi-annually in arrears. See Note 11 for more information on the terms of the Series A Preferred Stock.

With the strategic investment from Searchlight, we intend to enhance our fiber infrastructure and accelerate the investment in our network, which will include the upgrade of approximately 1.6 million passings across select service areas to enable multi-Gig capable services to these homes and small businesses. Our fiber build plan includes the upgrade of approximately 225,000 homes and small businesses in 2023.

5. DIVESTITURES

Washington Operations

On July 10, 2023, we entered into a definitive agreement to sell all of the issued and outstanding stock of our business located in Washington, Consolidated Communications of Comercio Company (“CCCC”), which directly owns all of the issued and outstanding shares of Consolidated Communications of Washington Company (“CCWC” and together with CCCC, the “Washington operations”), for gross cash proceeds of approximately \$73.0 million, subject to customary working capital adjustments and other post-closing purchase price adjustments. The transaction is expected to close in the second half of 2024 and is subject to the receipt of all customary regulatory approvals and the satisfaction of other closing conditions. The asset sale aligns with our ongoing strategic asset review and focus on our fiber expansion plans in our core broadband regions.

At June 30, 2023, the major classes of assets and liabilities to be sold were classified as held for sale in the condensed consolidated balance sheet and consisted of the following:

<i>(In thousands)</i>	
Current assets	\$ 1,018
Property, plant and equipment	29,219
Goodwill	114,946
Other long-term assets	1,569
Impairment to net realizable value	(77,755)
Total assets	\$ 68,997
Current liabilities	\$ 1,983
Other long-term liabilities	1,314
Total liabilities	\$ 3,297

During the three months ended June 30, 2023, the carrying value of the net assets to be sold were reduced to their estimated fair value of approximately \$65.7 million, which was determined based on the estimated selling price less costs to sell and were classified as Level 2 within the fair value hierarchy. As a result, we recognized an impairment loss of \$77.8 million during the three and six months ended June 30, 2023.

Kansas City Operations

On March 2, 2022, we entered into a definitive agreement to sell substantially all the assets of our business located in the Kansas City market (the “Kansas City operations”). The Kansas City operations provide data, voice and video services to customers within the Kansas City metropolitan area and surrounding counties and includes approximately 17,100 consumer customers and 1,600 commercial customers. The sale closed on November 30, 2022 for gross cash proceeds of

[Table of Contents](#)

\$82.1 million, subject to the finalization of certain working capital and other post-closing purchase price adjustments. We expect to utilize the proceeds from the sale to support our fiber expansion plan in our core regions.

In connection with the classification as assets held for sale during the three months ended March 31, 2022, the carrying value of the net assets was reduced to their estimated fair value and we recognized an impairment loss of \$126.5 million during the six months ended June 30, 2022. During the three months ended September 30, 2022, we recognized an additional impairment loss of \$5.2 million as a result of an increase in net assets held for sale and estimated selling costs during the period. During the three months ended December 31, 2022, we recognized an additional loss on the sale of \$16.8 million as a result of purchase price adjustments and an increase in net assets held for sale and estimated selling costs during the period. During the six months ended June 30, 2023, we recognized an additional loss on sale of \$2.1 million as a result of expected purchase price adjustments and changes in working capital.

Ohio Operations

On September 22, 2021, we entered into a definitive agreement to sell substantially all of the assets of our non-core, rural ILEC business located in Ohio, Consolidated Communications of Ohio Company (“CCOC” or the “Ohio Operations”). CCOC provides telecommunications and data services to residential and business customers in 11 rural communities in Ohio and surrounding areas and included approximately 3,800 access lines and 3,900 data connections. The sale was completed on January 31, 2022 for gross cash proceeds of \$26.1 million, including customary working capital adjustments. The asset sale aligns with our strategic asset review and focus on our core broadband regions. In September 2021, in connection with the expected sale, the carrying value of the net assets were reduced to their estimated fair value and we recognized an impairment loss of \$5.7 million during the three months ended September 30, 2021. During the six months ended June 30, 2022, we recognized an additional loss on the sale of \$0.5 million, which is included in selling, general and administrative expense in the condensed consolidated statement of operations as a result of changes in estimated selling costs.

6. INVESTMENTS

Our investments are as follows:

<i>(In thousands)</i>	June 30, 2023	December 31, 2022
Short-term investments:		
Held-to-maturity debt securities	\$ —	\$ 87,951
Long-term investments:		
Cash surrender value of life insurance policies	\$ 3,067	\$ 2,774
CoBank, ACB Stock	5,755	7,250
Other	273	273
	<u>\$ 9,095</u>	<u>\$ 10,297</u>

Held-to-Maturity Debt Securities

Investments in debt securities that we have the positive intent and ability to hold until maturity are classified as held-to-maturity. We consider all highly liquid investments with original maturities of three months or less to be cash equivalents. Investments with original maturities of more than three months and less than one year are classified as short-term investments.

Held-to maturity debt securities are recorded at amortized cost, which approximates fair value, and realized gains or losses are recognized in earnings. Our held-to-maturity debt securities consist of investments in commercial paper and certificate of deposits. At June 30, 2023, we had no held-to-maturity investments. At December 31, 2022, we had \$88.0 million of investments in commercial paper included in short-term investments. The investments have original maturities of less than one year. As of December 31, 2022, the amortized cost of the investments approximated their fair value and the gross unrecognized gains and losses were not material.

Long-Term Investments

CoBank, ACB (“CoBank”) is a cooperative bank owned by its customers. On an annual basis, CoBank distributes patronage in the form of cash and stock in the cooperative based on the Company’s outstanding loan balance with CoBank, which has traditionally been a significant lender in the Company’s credit facility. The investment in CoBank represents the accumulation of the equity patronage paid by CoBank to the Company.

Discontinued Operations

Investments at Cost

We owned 2.34% of GTE Mobilnet of South Texas Limited Partnership (the “Mobilnet South Partnership”). The principal activity of the Mobilnet South Partnership is providing cellular service in the Houston, Galveston and Beaumont, Texas metropolitan areas. We also owned 3.60% of Pittsburgh SMSA Limited Partnership, which provides cellular service in and around the Pittsburgh metropolitan area. Because of our limited influence over these partnerships, we accounted for these investments at our initial cost less any impairment because fair value was not readily available for these investments. For these investments, we adjusted the carrying value for any purchases or sales of our ownership interests, if any. Prior to classification as discontinued operations, we recorded distributions received from these investments as investment income in non-operating income (expense). For the three and six months ended June 30, 2022, we received cash distributions from these partnerships of \$5.2 million and \$9.0 million, respectively.

Equity Method

We owned 20.51% of GTE Mobilnet of Texas RSA #17 Limited Partnership (“RSA #17”), 16.67% of Pennsylvania RSA 6(I) Limited Partnership (“RSA 6(I)”) and 23.67% of Pennsylvania RSA 6(II) Limited Partnership (“RSA 6(II)”). RSA #17 provides cellular service to a limited rural area in Texas. RSA 6(I) and RSA 6(II) provide cellular service in and around our Pennsylvania service territory. Because we had significant influence over the operating and financial policies of these three entities, we accounted for the investments using the equity method. Prior to classification as discontinued operations, income was recognized as investment income in non-operating income (expense) on our proportionate share of earnings and cash distributions were recorded as a reduction in our investment. For the three and six months ended June 30, 2022, we received cash distributions from these partnerships of \$6.1 million and \$10.5 million, respectively.

On September 13, 2022, we completed the sale of our five limited wireless partnership interests to Celco for an aggregate purchase price of \$490.0 million. Celco is the general partner for each of the five wireless partnerships and is an indirect, wholly-owned subsidiary of Verizon Communications, Inc. A portion of the interest in one of the partnerships was sold to a limited partner of such partnership, pursuant to its right of first refusal. We intend to use the proceeds from the sale to support our fiber expansion plan. The financial results of the limited partnership interests have been reported as discontinued operations in our condensed consolidated statements of operations for prior periods presented.

The results of discontinued operations included in the condensed consolidated statements of operations consisted of the following:

<i>(In thousands)</i>	Three Months Ended June 30, 2022	Six Months Ended June 30, 2022
Investment income	\$ 9,821	\$ 17,884
Gain on sale of discontinued operations	—	—
Income from discontinued operations, before income taxes	9,821	17,884
Income tax expense	742	5,258
Net income from discontinued operations	\$ 9,079	\$ 12,626

In connection with the sale of the partnership interests, we expect to recognize a taxable gain of approximately of \$477.7 million on the transaction. For federal income tax purposes, we expect to utilize our available net operating loss carryforwards to offset the taxable gain. For state income tax purposes, we are estimating approximately \$8.0 million in state tax liabilities.

[Table of Contents](#)

In the statement of cash flows, we have elected to combine cash flows from discontinued operations with cash flows from continuing operations. During the three and six months ended June 30, 2022, cash provided by operating activities for discontinued operations was \$11.3 million and \$19.5 million, respectively.

7. FAIR VALUE MEASUREMENTS

Our derivative instruments related to interest rate swap agreements are required to be measured at fair value on a recurring basis. The fair values of the interest rate swaps are determined using valuation models and are categorized within Level 2 of the fair value hierarchy as the valuation inputs are based on quoted prices and observable market data of similar instruments. See Note 9 for further discussion regarding our interest rate swap agreements.

Our interest rate swap agreements measured at fair value on a recurring basis as of June 30, 2023 and December 31, 2022 were as follows:

<i>(In thousands)</i>	Total	As of June 30, 2023		
		Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Current interest rate swap assets	\$ 1,039	\$ —	\$ 1,039	\$ —
Long-term interest rate swap assets	3,998	—	3,998	—
Total	\$ 5,037	\$ —	\$ 5,037	\$ —

<i>(In thousands)</i>	Total	As of December 31, 2022		
		Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Current interest rate swap assets	\$ 5,959	\$ —	\$ 5,959	\$ —

We have not elected the fair value option for any of our other assets or liabilities. The carrying value of other financial instruments, including cash and cash equivalents, short-term investments, accounts receivable, accounts payable and accrued liabilities approximate fair value due to their short maturities. The following table presents the other financial instruments that are not carried at fair value but which require fair value disclosure as of June 30, 2023 and December 31, 2022.

<i>(In thousands)</i>	As of June 30, 2023		As of December 31, 2022	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Long-term debt, excluding finance leases	\$ 2,142,007	\$ 1,771,411	\$ 2,141,176	\$ 1,759,430

Investments

Our investments as of June 30, 2023 and December 31, 2022 accounted for at cost consisted primarily of our investment in CoBank. It is impracticable to determine the fair value of this investment.

Long-term Debt

The fair value of our senior notes was based on quoted market prices, and the fair value of borrowings under our credit facility was determined using current market rates for similar types of borrowing arrangements. We have categorized the long-term debt as Level 2 within the fair value hierarchy.

8. LONG-TERM DEBT

Long-term debt, presented net of unamortized discounts, consisted of the following:

<i>(In thousands)</i>	June 30, 2023	December 31, 2022
Senior secured credit facility:		
Term loans, net of discounts of \$7,868 and \$8,699 at June 30, 2023 and December 31, 2022, respectively	\$ 992,007	\$ 991,176
6.50% Senior notes due 2028	750,000	750,000
5.00% Senior notes due 2028	400,000	400,000
Finance leases	41,894	35,746
	<u>2,183,901</u>	<u>2,176,922</u>
Less: current portion of long-term debt and finance leases	(16,821)	(12,834)
Less: deferred debt issuance costs	(31,736)	(34,626)
Total long-term debt	<u>\$ 2,135,344</u>	<u>\$ 2,129,462</u>

Credit Agreement

On October 2, 2020, the Company, through certain of its wholly-owned subsidiaries, entered into a Credit Agreement with various financial institutions (as amended, the “Credit Agreement”) to replace the Company’s previous credit agreement in its entirety. The Credit Agreement consisted of term loans in an original aggregate amount of \$1,250.0 million (the “Initial Term Loans”) and a revolving loan facility of \$250.0 million. The Credit Agreement also includes an incremental loan facility which provides the ability to borrow, subject to certain terms and conditions, incremental loans in an aggregate amount of up to the greater of (a) \$300.0 million plus (b) an amount which would not cause its senior secured leverage ratio not to exceed 3.70:1.00 (the “Incremental Facility”). Borrowings under the Credit Agreement are secured by substantially all of the assets of the Company and its subsidiaries, subject to certain exceptions.

The Initial Term Loans were issued in an original aggregate principal amount of \$1,250.0 million with a maturity date of October 2, 2027 and contained an original issuance discount of 1.5% or \$18.8 million, which is being amortized over the term of the loan. Prior to amendments to the Credit Agreement, as described below, the Initial Term Loans required quarterly principal payments of \$3.1 million, which commenced December 31, 2020, and bore interest at a rate of 4.75% plus the London Interbank Offered Rate (“LIBOR”) subject to a 1.00% LIBOR floor.

On January 15, 2021, the Company entered into Amendment No. 1 to the Credit Agreement in which we borrowed an additional \$150.0 million aggregate principal amount of incremental term loans (the “Incremental Term Loans”). The Incremental Term Loans have terms and conditions identical to the Initial Term Loans including the same maturity date and interest rate. The Initial Term Loans and Incremental Term Loans, collectively (the “Term Loans”), comprise a single class of term loans under the Credit Agreement.

On March 18, 2021, the Company repaid \$397.0 million of the outstanding Term Loans with the net proceeds received from the issuance of \$400.0 million aggregate principal amount of 5.00% senior secured notes due 2028 (the “5.00% Senior Notes”), as described below. The repayment of the Term Loans was applied to the remaining principal payments in direct order of maturity, thereby eliminating the required quarterly principal payments through the remaining term of the loan.

On April 5, 2021, the Company, entered into Amendment No. 2 to the Credit Agreement (the “Second Amendment”) to refinance the outstanding Term Loans of \$999.9 million. The terms and conditions of the Credit Agreement remain substantially similar and unchanged except with respect to the interest rate applicable to the Term Loans and certain other provisions. As a result of the Second Amendment, the interest rate of the Term Loans was reduced to 3.50% plus LIBOR subject to a 0.75% LIBOR floor. The maturity date of the Term Loans of October 2, 2027 remained unchanged.

On November 22, 2022, the Company, entered into Amendment No. 3 to the Credit Agreement (the “Third Amendment”) to, among other things, extend the maturity of the revolving credit facility by two years from October 2, 2025 to October

[Table of Contents](#)

2, 2027, subject to springing maturity on April 2, 2027 if the Term Loans, as of April 1, 2027, are scheduled to mature earlier than March 31, 2028. The Third Amendment also relaxed the revolving credit facility's consolidated first lien leverage maintenance covenant, as described below, through June 30, 2025 to 6.35:1.00 from 5.85:1.00.

On April 17, 2023, the Company entered into Amendment No. 4 to the Credit Agreement (the "Fourth Amendment") to replace remaining LIBOR-based benchmark rates with Secured Overnight Financing Rate ("SOFR")-based benchmark rates. As part of the replacement to SOFR-benchmark rates, borrowings will include an adjustment of 0.11%, 0.26% and 0.43% for borrowings of one, three and six month loans, respectively. With the amendment, the interest rate of the Term Loans is 3.50% plus SOFR plus the SOFR adjustment (subject to a 0.75% SOFR floor).

The revolving credit facility has a maturity date of October 2, 2027 and an applicable margin (at our election) of 4.00% for SOFR-based borrowings or 3.00% for alternate base rate borrowings, with a 0.25% reduction in each case if the consolidated first lien leverage ratio, as defined in the Credit Agreement, does not exceed 3.20 to 1.00. At June 30, 2023 and December 31, 2022, there were no borrowings outstanding under the revolving credit facility. Stand-by letters of credit of \$35.4 million were outstanding under our revolving credit facility as of June 30, 2023. The stand-by letters of credit are renewable annually and reduce the borrowing availability under the revolving credit facility. As of June 30, 2023, \$214.6 million was available for borrowing under the revolving credit facility, subject to certain covenants.

The weighted-average interest rate on outstanding borrowings under our credit facility was 8.77% and 7.63% as of June 30, 2023 and December 31, 2022, respectively. Interest is payable at least quarterly.

Credit Agreement Covenant Compliance

The Credit Agreement contains various provisions and covenants, including, among other items, restrictions on the ability to pay dividends, incur additional indebtedness, and issue certain capital stock. We have agreed to maintain certain financial ratios, including a maximum consolidated first lien leverage ratio, as defined in the Credit Agreement. Among other things, it will be an event of default, with respect to the revolving credit facility only, if our consolidated first lien leverage ratio is greater than 6.35:1.00 as of the end of any fiscal quarter, if on such date the testing threshold is met. The testing threshold is met if the aggregate amount of our borrowings outstanding under the revolving credit facility exceeds 35%. As of June 30, 2023, the testing threshold was not met and our consolidated first lien leverage ratio under the Credit Agreement was 5.59:1.00. As of June 30, 2023, we were in compliance with the Credit Agreement covenants.

Senior Notes

On October 2, 2020, we completed an offering of \$750.0 million aggregate principal amount of 6.50% unsubordinated secured notes due 2028 (the "6.50% Senior Notes"). The 6.50% Senior Notes were priced at par and bear interest at a rate of 6.50%, payable semi-annually on April 1 and October 1 of each year. The 6.50% Senior Notes mature on October 1, 2028.

On March 18, 2021, we issued \$400.0 million aggregate principal amount 5.00% Senior Notes, together with the 6.50% Senior Notes (the "Senior Notes"). The 5.00% Senior Notes were priced at par and bear interest at a rate of 5.00% per year, payable semi-annually on April 1 and October 1 of each year, beginning on October 1, 2021. The 5.00% Senior Notes mature on October 1, 2028. The net proceeds from the issuance of the 5.00% Senior Notes were used to repay \$397.0 million of the Term Loans outstanding under the Credit Agreement.

The Senior Notes are unsubordinated secured obligations of the Company, secured by a first priority lien on the collateral that secures the Company's obligations under the Credit Agreement. The Senior Notes are fully and unconditionally guaranteed on a first priority secured basis by the Company and the majority of our wholly-owned subsidiaries. The offerings of the Senior Notes have not been registered under the Securities Act of 1933, as amended or any state securities laws.

Senior Notes Covenant Compliance

Subject to certain exceptions and qualifications, the indentures governing the Senior Notes contain customary covenants that, among other things, limits the Company and its restricted subsidiaries' ability to: incur additional debt or issue certain preferred stock; pay dividends or make other distributions on capital stock or prepay subordinated indebtedness; purchase or redeem any equity interests; make investments; create liens; sell assets; enter into agreements that restrict dividends or other payments by restricted subsidiaries; consolidate, merge or transfer all or substantially all of its assets; engage in transactions with its affiliates; or enter into any sale and leaseback transactions. The indentures also contain customary events of default.

As of June 30, 2023, the Company was in compliance with all terms, conditions and covenants under the indentures governing the Senior Notes.

9. DERIVATIVE FINANCIAL INSTRUMENTS

We use derivative financial instruments to manage our exposure to the risks associated with fluctuations in interest rates. Our interest rate swap agreements effectively convert a portion of our floating-rate debt to a fixed-rate basis, thereby reducing the impact of interest rate changes on future cash interest payments. Derivative financial instruments are recorded at fair value in our condensed consolidated balance sheets. We may designate certain of our interest rate swaps as cash flow hedges of our expected future interest payments. For derivative instruments designated as a cash flow hedge, the change in the fair value is recognized as a component of accumulated other comprehensive income (loss) ("AOCI") and is recognized as an adjustment to earnings over the period in which the hedged item impacts earnings. When an interest rate swap agreement terminates, any resulting gain or loss is recognized over the shorter of the remaining original term of the hedging instrument or the remaining life of the underlying debt obligation. If a derivative instrument is de-designated, the remaining gain or loss in AOCI on the date of de-designation is amortized to earnings over the remaining term of the hedging instrument. For derivative financial instruments that are not designated as a hedge, including those that have been de-designated, changes in fair value are recognized on a current basis in earnings. Cash flows from hedging activities are classified under the same category as the cash flows from the hedged items in our condensed consolidated statements of cash flows.

The following interest rate swaps were outstanding as of June 30, 2023:

<i>(In thousands)</i>	<u>Notional Amount</u>	<u>2023 Balance Sheet Location</u>	<u>Fair Value</u>
Cash Flow Hedges:			
Fixed to 1-month floating LIBOR (with floor)	\$ 500,000	Prepaid expenses and other current assets	\$ 1,039
Forward starting fixed to 1-month floating SOFR	\$ 500,000	Other long-term assets	3,998
Total Fair Values			<u>\$ 5,037</u>

Our fixed to 1-month floating LIBOR interest rate swap agreements matured on July 31, 2023. The forward-starting interest rate swap agreements, which became effective July 31, 2023, have a fixed rate of 3.941% and mature on September 30, 2026.

The following interest rate swaps were outstanding as of December 31, 2022:

<i>(In thousands)</i>	<u>Notional Amount</u>	<u>2022 Balance Sheet Location</u>	<u>Fair Value</u>
Cash Flow Hedges:			
Fixed to 1-month floating LIBOR (with floor)	\$ 500,000	Prepaid expenses and other current assets	\$ 5,959

The counterparties to our various swaps are highly rated financial institutions. None of the swap agreements provide for either us or the counterparties to post collateral nor do the agreements include any covenants related to the financial condition of Consolidated or the counterparties. The swaps of any counterparty that is a lender, as defined in our credit facility, are secured along with the other creditors under the credit facility. Each of the swap agreements provides that in the event of a bankruptcy filing by either Consolidated or the counterparty, any amounts owed between the two parties would be offset in order to determine the net amount due between parties.

[Table of Contents](#)

As of June 30, 2023 and December 31, 2022, the total pre-tax unrealized gain related to our interest rate swap agreements included in AOCI was \$5.1 million and \$6.9 million, respectively. From the balance in AOCI as of June 30, 2023, we expect to recognize a gain of approximately \$7.4 million in earnings in the next twelve months.

Information regarding our cash flow hedge transactions is as follows:

<i>(In thousands)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2023	2022	2023	2022
Unrealized gain recognized in AOCI, pretax	\$ 4,180	\$ 3,899	\$ 4,133	\$ 10,172
Deferred gain (loss) reclassified from AOCI to interest expense	\$ 3,231	\$ (1,791)	\$ 5,909	\$ (3,602)

10. LEASES

Lessor

We have various arrangements for use of our network assets for which we are the lessor, including tower space, certain colocation, conduit and dark fiber arrangements. These leases meet the criteria for operating lease classification. Lease income associated with these types of leases is not material. Occasionally, we enter into arrangements where the term may be for a major part of the asset's remaining economic life such as in indefeasible right of use ("IRU") arrangements for dark fiber or conduit, which meet the criteria for sales-type lease classification. During the three months ended June 30, 2022, we entered into a dark fiber IRU arrangement for exclusive access to and unrestricted use of specific assets. The arrangement was recognized as a sale-type lease as the term of the arrangement is for a major part of the assets' remaining economic life. During the three months ended June 30, 2022, we recognized revenue of \$3.1 million and a gain of \$0.9 million related to this arrangement. During the three and six months ended June 30, 2023, we did not enter into any such arrangements.

11. MEZZANINE EQUITY

Series A Preferred Stock

The Company is authorized to issue up to 10,000,000 shares of Series A Perpetual Preferred Stock with a par value of \$0.01 per share. The Series A Preferred Stock ranks senior to the Company's common stock with respect to dividend rights and rights on the distribution of assets on any voluntary or involuntary liquidation, dissolution or winding up of the affairs of the Company and redemption rights. The following is a summary of certain provisions under the Certificate of Designations of the Series A Perpetual Preferred Stock ("Certificate of Designations").

Dividends

Dividends on each share of Series A Preferred Stock accrue daily on the liquidation preference at a rate of 9.0% per annum and will be payable semi-annually in arrears on January 1 and July 1 of each year. Subsequent to a waiver issued by Searchlight in November 2022 as described below, dividends are payable until October 2, 2027 at our election, either in cash or in-kind through an accrual of unpaid dividends, which are automatically added to the liquidation preference; and after October 2, 2027, solely in cash. The liquidation preference at any given time is \$1,000 per share. In the event that the Company's Board of Directors fails to declare and pay dividends in cash after October 2, 2027, among other conditions, the dividend rate applicable to each subsequent dividend period will increase to 11.0%.

On November 22, 2022, in connection with entering into the Third Amendment to the Credit Agreement, Searchlight waived for two years, until October 2, 2027, the obligation under the Certificate of Designations to begin paying in cash after October 2, 2025 rather than being permitted to accrue dividends on the Series A Preferred Stock. Any dividend not declared and fully paid in cash during the waiver period or otherwise, will continue to accrue in accordance with the Certificate of Designations.

[Table of Contents](#)

Redemption

Upon a fundamental change such as a change of control, liquidation, dissolution or winding up event, holders of the Series A Preferred Stock will have the right to require the Company to repurchase all or any part of the outstanding Series A Preferred Stock for cash at a price equal the liquidation preference and accrued and unpaid dividends through and including the fundamental change date.

The Company may, at its option redeem all or any part of the outstanding shares of Series A Preferred Stock at a purchase price per share in cash equal to the sum of the liquidation preference and accrued and unpaid dividends. A premium may also be payable in connection with any such redemption.

Voting Rights

Holders of Series A Preferred Stock are entitled to one vote per share on matters specifically related to the Series A Preferred Stock. The holders do not otherwise have any voting rights. If preferred dividends have not been paid in cash in full for two dividend periods after October 2, 2027, whether or not consecutive, then the holders of the Series A Preferred Stock, voting together as a single class, will be entitled to elect two additional directors to the board of directors.

In accordance with ASC 480, *Distinguishing Liabilities from Equity*, the Series A Preferred Stock is classified as mezzanine equity in the consolidated balance sheets due to a deemed liquidation feature, which gives holders the right to require the Company to redeem all or any part of the holders' Series A Preferred Stock for cash in the event of a fundamental change or change in control. We have not adjusted the carrying value of the Series A Preferred Stock to its liquidation value since the securities are not currently redeemable nor is it probable that they will become redeemable. Subsequent adjustments to increase the carrying value to the liquidation value will be made only if and when it becomes probable that such a deemed liquidation event will occur.

On December 7, 2021, upon the completion of the Searchlight investment as described in Note 4, we issued 434,266 shares of Series A Preferred Stock with a carrying value of \$285.9 million. As of December 31, 2022, the liquidation preference of the Series A Preferred Stock was \$477.0 million, which included accrued and unpaid dividends of \$20.7 million. On January 1, 2023, the Company paid dividends in-kind of \$20.7 million or 20,704 shares. As of June 30, 2023, the liquidation preference of the Series A Preferred Stock was \$498.3 million, which includes accrued and unpaid dividends of \$21.3 million. Searchlight is the sole holder of all of the issued and outstanding shares of the Company's Series A Preferred Stock. The Company intends to exercise the paid-in-kind dividend option on the Series A Preferred Stock through at least 2025.

12. SHAREHOLDERS' EQUITY

Share-Based Compensation

Our Board of Directors (or its Compensation Committee) may grant share-based awards from our shareholder approved Consolidated Communications Holdings, Inc. Long-Term Incentive Plan, as amended and/or restated (the "Plan"). The Plan permits the issuance of awards in the form of stock options, stock appreciation rights, stock grants, and stock unit grants to eligible directors and employees at the discretion of the Compensation Committee of the Board of Directors. On February 26, 2023, our Board of Directors adopted, and on May 1, 2023, the shareholders approved an amendment to the Plan to increase by 5,280,000 shares the number of shares of our common stock authorized for issuance under the Plan. With the amendment, approximately 15,330,000 shares of our common stock are authorized for issuance under the Plan, provided that in any calendar year an eligible employee may be granted no more than 300,000 stock options or 300,000 stock appreciation rights, and a non-employee director may be granted no more than 25,000 stock options or 25,000 stock appreciation rights. In addition, stock awards and stock unit awards granted to an employee in any calendar year may not cover shares having a fair market value on the date of grant that exceeds \$6,000,000 (\$500,000 in the case of a non-employee director). Unless terminated sooner, the Plan will continue in effect until April 30, 2028.

[Table of Contents](#)

The following table summarizes total compensation costs recognized for share-based payments during the three and six months ended June 30, 2023 and 2022:

<i>(In thousands)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2023	2022	2023	2022
Restricted stock	\$ 1,240	\$ 1,411	\$ 2,163	\$ 2,441
Performance shares	1,148	1,422	1,024	2,591
Total	\$ 2,388	\$ 2,833	\$ 3,187	\$ 5,032

Share-based compensation expense is included in selling, general and administrative expenses in the accompanying condensed consolidated statements of operations.

As of June 30, 2023, total unrecognized compensation cost related to non-vested Restricted Stock Awards (“RSAs”) and Performance Share Awards (“PSAs”) was \$15.7 million and will be recognized over a weighted-average period of approximately 1.6 years.

The following table summarizes the RSA and PSA activity for the six-month period ended June 30, 2023:

	RSAs		PSAs	
	Shares	Weighted Average Grant Date Fair Value	Shares	Weighted Average Grant Date Fair Value
Non-vested shares outstanding - December 31, 2022	1,185,980	\$ 5.84	1,464,058	\$ 7.07
Shares granted	1,695,071	\$ 3.02	370,667	\$ 5.41
Shares vested	(82,644)	\$ 6.28	(705,432)	\$ 7.64
Shares forfeited, cancelled or retired	(204,121)	\$ 5.76	(162,609)	\$ 8.20
Non-vested shares outstanding - June 30, 2023	2,594,286	\$ 3.99	966,684	\$ 7.06

Accumulated Other Comprehensive Loss

The following table summarizes the changes in accumulated other comprehensive loss, net of tax, by component for the six-month period ended June 30, 2023:

<i>(In thousands)</i>	Pension and Post-Retirement Obligations	Derivative Instruments	Total
Balance at December 31, 2022	\$ (5,738)	\$ 5,128	\$ (610)
Other comprehensive gain before reclassifications	—	3,055	3,055
Amounts reclassified from accumulated other comprehensive loss	(1,998)	(4,366)	(6,364)
Net current period other comprehensive income	(1,998)	(1,311)	(3,309)
Balance at June 30, 2023	\$ (7,736)	\$ 3,817	\$ (3,919)

[Table of Contents](#)

The following table summarizes reclassifications from accumulated other comprehensive loss for the three and six months ended June 30, 2023 and 2022:

<i>(In thousands)</i>	<u>Three Months Ended June 30,</u>		<u>Six Months Ended June 30,</u>		<u>Affected Line Item in the Statement of Income</u>
	<u>2023</u>	<u>2022</u>	<u>2023</u>	<u>2022</u>	
Amortization of pension and post-retirement items:					
Prior service credit	\$ 133	\$ 195	\$ 265	\$ 389	(a)
Actuarial gain (loss)	1,223	(123)	2,446	(246)	(a)
	1,356	72	2,711	143	Total before tax
	(357)	(20)	(713)	(39)	Tax expense
	<u>\$ 999</u>	<u>\$ 52</u>	<u>\$ 1,998</u>	<u>\$ 104</u>	Net of tax
Gain (loss) on cash flow hedges:					
Interest rate derivatives	\$ 3,231	\$ (1,791)	\$ 5,909	\$ (3,602)	Interest expense
	(844)	467	(1,543)	939	Tax (expense) benefit
	<u>\$ 2,387</u>	<u>\$ (1,324)</u>	<u>\$ 4,366</u>	<u>\$ (2,663)</u>	Net of tax

- (a) These items are included in the components of net periodic benefit cost for our pension and other post-retirement benefit plans. See Note 13 for further discussion regarding our pension and other post-retirement benefit plans.

13. PENSION PLAN AND OTHER POST-RETIREMENT BENEFITS

Defined Benefit Plans

We sponsor qualified defined benefit pension plans that are non-contributory covering substantially all of our hourly employees under collective bargaining agreements who fulfill minimum age and service requirements and certain salaried employees. The defined benefit pension plans are closed to all new entrants. All of our defined benefit pension plans are now frozen to all current employees, and no additional monthly pension benefits will accrue under those plans.

We also maintain non-qualified supplemental retirement plans (the “Supplemental Plans” and, together with the defined benefit pension plans, the “Pension Plans”). The Supplemental Plans provide supplemental retirement benefits to certain former employees by providing for incremental pension payments to partially offset the reduction of the amount that would have been payable under the qualified defined benefit pension plans if it were not for limitations imposed by federal income tax regulations. The Supplemental Plans are closed to all new entrants. These plans are unfunded and have no assets. The benefits paid under the Supplemental Plans are paid from the general operating funds of the Company.

The following table summarizes the components of net periodic pension benefit for our Pension Plans for the three and six months ended June 30, 2023 and 2022:

<i>(In thousands)</i>	<u>Three Months Ended June 30,</u>		<u>Six Months Ended June 30,</u>	
	<u>2023</u>	<u>2022</u>	<u>2023</u>	<u>2022</u>
Interest cost	\$ 7,357	\$ 5,558	\$ 14,713	\$ 11,116
Expected return on plan assets	(7,850)	(9,206)	(15,700)	(18,412)
Net amortization loss	72	154	144	308
Net prior service cost amortization	30	30	61	61
Net periodic pension benefit	<u>\$ (391)</u>	<u>\$ (3,464)</u>	<u>\$ (782)</u>	<u>\$ (6,927)</u>

The components of net periodic pension benefit other than the service cost component are included in other, net within other income (expense) in the condensed consolidated statements of operations.

Post-retirement Benefit Obligations

We sponsor various healthcare and life insurance plans (“Post-retirement Plans”) that provide post-retirement medical and life insurance benefits to certain groups of retired employees. Certain plans are frozen so that no person is eligible to become a new participant. Retirees share in the cost of healthcare benefits, making contributions that are adjusted periodically—either based upon collective bargaining agreements or because total costs of the program have changed. Covered expenses for retiree health benefits are paid as they are incurred. Post-retirement life insurance benefits are fully insured. A majority of the healthcare plans are unfunded and have no assets, and benefits are paid from the general operating funds of the Company.

However, a certain healthcare plan is funded by assets that are separately designated within the Pension Plans for the sole purpose of providing payments of retiree medical benefits for this specific plan.

The following table summarizes the components of the net periodic cost for our Post-retirement Plans for the three and six months ended June 30, 2023 and 2022:

<i>(In thousands)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2023	2022	2023	2022
Service cost	\$ 19	\$ 145	\$ 38	\$ 290
Interest cost	750	677	1,500	1,354
Expected return on plan assets	(47)	(53)	(94)	(106)
Net amortization gain	(1,295)	(31)	(2,590)	(62)
Net prior service credit amortization	(163)	(225)	(326)	(450)
Net periodic post-retirement cost (benefit)	<u>\$ (736)</u>	<u>\$ 513</u>	<u>\$ (1,472)</u>	<u>\$ 1,026</u>

The components of net periodic post-retirement benefit cost other than the service cost component are included in other, net within other income (expense) in the condensed consolidated statements of operations.

Contributions

We elected to participate in the American Rescue Plan Act of 2021 (“ARPA”) beginning with the 2021 plan year. ARPA, which was signed into law in March 2021, included changes to the employer funding requirements and is designed to reduce the amounts of required contributions to provide funding relief for employers. During 2021 and the six months ended June 30, 2022, we elected to fund our pension contributions at the pre-ARPA levels, which has created a pre-funded balance. We expect that for the year ended December 31, 2023, no pension contributions will be required as we will use our current pre-funded balance to satisfy the minimum contribution requirements under ARPA. We expect to contribute approximately \$6.2 million to our Post-retirement Plans in 2023. As of June 30, 2023, we have contributed \$3.2 million of the annual contribution to the Post-retirement Plans.

14. INCOME TAXES

Our unrecognized tax benefits as of June 30, 2023 and December 31, 2022 were \$4.9 million. The net amount of unrecognized tax benefits that, if recognized, would result in an impact to the effective tax rate is \$4.7 million as of June 30, 2023 and December 31, 2022. We do not expect any material change in our unrecognized tax benefits during the remainder of 2023.

Our practice is to recognize interest and penalties related to income tax matters in interest expense and selling, general and administrative expenses, respectively. As of June 30, 2023, we did not have a material liability for interest or penalties and had no material interest or penalty expense.

The periods subject to examination for our federal return are years 2019 through 2021. The periods subject to examination for our state returns are years 2018 through 2021. In addition, prior tax years may be subject to examination by federal or state taxing authorities if the Company’s net operating loss carryovers from those prior years are utilized in the future. We are currently under examination by certain state taxing authorities. We do not expect any settlement or payment that may result from the examinations to have a material effect on our results or cash flows.

Our effective tax rate was 14.6% and 16.0% for the three months ended June 30, 2023 and 2022, respectively and 17.5% and 11.5% for the six months ended June 30, 2023 and 2022, respectively. On July 10, 2023, we entered into a definitive agreement to sell our Washington operations. As a result, we recorded an increase of \$14.3 million to our current tax expense for the three and six months ended June 30, 2023 related to the \$77.8 million impairment loss of noncash goodwill that is not deductible for tax purposes. On March 2, 2022, we entered into a definitive agreement to sell substantially all the assets of our Kansas City operations. As a result, we recorded an increase to our current tax expense of \$1.0 million and \$17.9 million for the three and six months ended June 30, 2022, respectively, related to the \$83.7 million impairment loss of noncash goodwill that is not deductible for tax purposes. The transaction to sell substantially all of the assets of our non-core, rural ILEC business located in Ohio closed on January 31, 2022. As a result, we recorded an increase of \$0.2 million and \$3.4 million to our current tax expense for the three and six months ended June 30, 2022, respectively, related to \$16.3 million of noncash goodwill included in the sale that is not deductible for tax purposes. The Company does not consider these sales transactions and related goodwill adjustments unusual or infrequent and therefore the corresponding tax impact is recorded through continuing operations. Exclusive of these divestiture related adjustments, our effective tax rate for the three months ended June 30, 2023 and 2022 would have been approximately 25.7% and 25.5%, respectively, and approximately 25.5% and 26.0% for the six months ended June 30, 2023 and 2022, respectively. In addition, the effective tax rate differed from the federal and state statutory rates due to various permanent income tax differences and differences in allocable income for the Company's state tax filings.

15. COMMITMENTS AND CONTINGENCIES

Litigation, Regulatory Proceedings and Other Contingencies

Gross Receipts Tax

Two of our subsidiaries, Consolidated Communications of Pennsylvania Company LLC ("CCPA") and Consolidated Communications Enterprise Services, Inc. ("CCES"), have, at various times, received Assessment Notices and/or Audit Assessment Notices from the Commonwealth of Pennsylvania Department of Revenue ("DOR") increasing the amounts owed for the Pennsylvania Gross Receipts Tax, and have had audits performed for the tax years 2008 through 2018 (CCPA and CCES) and 2019 through 2020 (CCPA). We filed Petitions for Reassessment with the DOR's Board of Appeals contesting these audit assessments. These cases remain pending and are in various stages of appeal.

In May 2017, we entered into an agreement to guarantee any potential liabilities to the DOR up to \$5.0 million. We believe that certain of the DOR's findings regarding CCPA's and CCES's additional tax liabilities for the tax years 2008 through 2018, for which we have filed appeals, continue to lack merit. However, in 2019, CCPA and CCES finalized a settlement of the intrastate and interstate tax liabilities for the tax years 2008 through 2013, except for the 2010 CCPA appeals, bringing the appeals to a conclusion. The additional tax liabilities calculated by the DOR for these tax years for CCPA and CCES were approximately \$3.4 million and \$4.0 million, respectively. The settlement resulted in a payment from us to the DOR of \$2.1 million, including interest, which the Company previously reserved for.

The additional tax liabilities calculated by the DOR for CCPA and CCES for the remaining unsettled tax years 2010 (CCPA) and 2014 through 2022 (CCPA and CCES) are approximately \$5.3 million and \$2.6 million, respectively. Based on the initial settlement offers for the tax years 2008 through 2013 and the Company's best estimate of the potential additional tax liabilities for the remaining unsettled tax years 2010 (CCPA) and 2014 through 2022 (CCPA and CCES), we have reserved \$0.9 million and \$2.0 million, including interest, for our CCPA and CCES subsidiaries, respectively. We expect the filings for the tax years 2014 through 2022 to be settled at a later date similar to the initial settlement. While we continue to believe a settlement of all remaining disputed claims is possible, we cannot anticipate at this time what the ultimate resolution of these cases will be, nor can we evaluate the likelihood of a favorable or unfavorable outcome or the potential losses (or gains) should such an outcome occur. We do not believe that the outcome of these claims will have a material adverse impact on our financial statements.

[Table of Contents](#)

Pole Sale

On December 30, 2020, the Company reached an agreement to sell to Public Service Company of New Hampshire d/b/a Eversource Energy (“Eversource”) its joint ownership interest in approximately 343,000 poles and its sole ownership interest in approximately 3,800 poles located in the Eversource electric service area. The agreement also included the settlement of all vegetation maintenance costs disputed between the Company and Eversource through December 2020. The Company recognized a net loss of \$1.9 million during the quarter ended December 31, 2020 associated with the execution of this agreement. Upon the closing of the sale, the Company would become a tenant on the poles and will pay pole attachment fees to Eversource. The Company would also no longer have any future obligations associated with vegetation maintenance. The purchase and sale transaction required regulatory approval by the New Hampshire Public Utilities Commission (“NHPUC”) and was submitted for approval by the parties in 2021. Formal hearings on the transaction concluded in May 2022. The NHPUC issued its order on November 18, 2022. The New England Cable and Telecommunications Alliance filed a motion for reconsideration and both parties filed a motion for clarification. During the three months ended December 31, 2022, the Company recorded an additional loss on the proposed sale of \$8.3 million as a result of the November 18, 2022 NHPUC order which included certain adjustments to components of the purchase price and expense allocations between Eversource and the Company. The Company also increased its estimated closing costs necessary to complete the sale. The sale of the poles closed on May 1, 2023. During the three and six months ended June 30, 2023, we recognized an additional loss on the sale of \$2.4 million and \$3.6 million, respectively.

From time to time we may be involved in litigation that we believe is of the type common to companies in our industry, including regulatory issues. While the outcome of these claims cannot be predicted with certainty, we do not believe that the outcome of any of these legal matters will have a material adverse impact on our financial statements.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Certain statements in this Quarterly Report on Form 10-Q, including those relating to the Take Private Proposal, the impact on future revenue sources, pending and future regulatory orders, continued expansion of the telecommunications network and expected changes in the sources of our revenue and cost structure resulting from our entrance into new markets, are forward-looking statements and are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements reflect, among other things, our current expectations, plans, strategies and anticipated financial results. Moreover, forward-looking statements necessarily involve assumptions on our part. These forward-looking statements generally are identified by the words “believe,” “expect,” “anticipate,” “estimate,” “project,” “intend,” “plan,” “should,” “may,” “will,” “would,” “will be,” “will continue” or similar expressions. There are a number of risks, uncertainties and conditions that may cause the actual results of Consolidated Communications Holdings, Inc. and its subsidiaries (“Consolidated,” the “Company,” “we” or “our”) to differ materially from those expressed or implied by these forward-looking statements including: (1) significant competition in all parts of our business and among our customer channels; (2) our ability to adapt to rapid technological changes; (3) shifts in our product mix that may result in a decline in operating profitability; (4) public health threats, including the novel coronavirus (“COVID-19”) pandemic; (5) continued receipt of support from various funds established under federal and state laws; (6) disruptions in our networks and infrastructure and any related service delays or disruptions could cause us to lose customers and incur additional expenses; (7) cyber-attacks may lead to unauthorized access to confidential customer, personnel and business information that could adversely affect our business; (8) our ability to fund capital expenditures required for our operations; (9) our ability to obtain and maintain necessary rights-of-way for our networks; (10) our ability to obtain necessary hardware, software and operational support from third-party vendors; (11) the impact of rising video content costs; (12) our ability to enter into new collective bargaining agreements or renew existing agreements; (13) our ability to attract and/or retain certain key management and other personnel in the future; (14) risks associated with acquisitions and the realization of anticipated benefits from such acquisitions; (15) increasing attention to, and evolving expectations for, environmental, social and governance initiatives; (16) the impact of unfavorable changes in financial markets on our pension plan investments; (17) weak economic conditions, and (18) the other risk factors described in Part I, Item 1A of Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2022. Many of these circumstances are beyond our ability to control or predict. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements that appear throughout this report. Furthermore, undue reliance should not be placed on forward-looking statements, which are based on the information currently available to us and speak only as of the date they are made. Except as required under federal securities laws or the rules and regulations of the Securities and Exchange Commission (the “SEC”), we disclaim any intention or obligation to update or revise publicly any forward-looking statements. Management’s Discussion and Analysis (“MD&A”) should be read in conjunction with our unaudited condensed consolidated financial statements and accompanying notes to the financial statements (“Notes”) as of and for the three and six months ended June 30, 2023 included in Item 1 of Part I of this Quarterly Report on Form 10-Q.

Throughout this MD&A, we refer to certain measures that are not measures of financial performance in accordance with accounting principles generally accepted in the United States (“US GAAP” or “GAAP”). We believe the use of these non-GAAP measures on a consolidated basis provides the reader with additional information that is useful in understanding our operating results and trends. These measures should be viewed in addition to, rather than as a substitute for, those measures prepared in accordance with GAAP. See the “Non-GAAP Measures” section below for a more detailed discussion on the use and calculation of these measures.

Overview

Consolidated is a broadband and business communications provider offering a wide range of communication solutions to consumer, commercial and carrier customers across a service area in over 20 states. We operate an advanced fiber network spanning over 58,800 fiber route miles across many rural areas and metro communities. We offer residential high-speed Internet, video, phone and home security services as well as multi-service residential and small business bundles. Our business product suite includes: data and Internet solutions, voice, data center services, security services, managed and IT services, and an expanded suite of cloud services. We provide wholesale solutions to wireless and wireline carriers and other service providers including data, voice, network connections and custom fiber builds and last mile connections.

[Table of Contents](#)

We generate the majority of our consolidated operating revenues primarily from monthly subscriptions to our broadband, data and transport services (collectively “broadband services”) marketed to residential and business customers. As consumer demands for bandwidth continue to increase, our focus is on expanding our fiber broadband services and upgrading data speeds in order to offer a highly competitive fiber product. Our investment in more competitive broadband speeds is critical to our long-term success. Our strategic investment with Searchlight Capital Partners L.P. (“Searchlight”) combined with the refinancing of our capital structure in 2020 provided us with additional capital that has enabled us to accelerate our fiber expansion plans and provided significant benefits to our consumer, commercial and carrier customers. With this strategic investment, we are enhancing our fiber infrastructure and accelerating our investments in high-growth and competitive areas.

By leveraging our existing dense core fiber network and an accelerated build plan, we expect to be able to significantly increase data speeds, expand our multi-Gig coverage and strategically extend our network across our strong existing commercial and carrier footprint to attract more on-net and near-net opportunities. As part of our multi-year fiber expansion plan, we plan to upgrade approximately 1.6 million passings to fiber across select service areas to enable multi-Gig capable services to these homes and small businesses including more than 1 million passings within our northern New England service areas. The ultimate total passings will be dependent upon, amongst other things, our ability to secure Public Private Partnership grant arrangement opportunities.

Our fiber build plan includes the upgrade of approximately 225,000 homes and small businesses in 2023. During the three and six months ended June 30, 2023, we upgraded approximately 57,440 and 111,300 passings, respectively and added approximately 18,650 and 30,990 consumer fiber Gig-capable subscribers, respectively. During the year ended December 31, 2022, we upgraded approximately 403,000 passings. As of June 30, 2023, approximately 43% of our passings were at least 1 Gig capable, as compared to 22% at December 31, 2021.

Fidium Fiber, our new Gigabit consumer fiber internet product with an all-new customer experience, launched in November 2021 in select northern New England markets, reinforces our broadband-first strategy. In May 2022, Fidium Fiber was expanded to additional markets in California, Illinois, Minnesota, Pennsylvania and Texas. In June 2022, we launched symmetrical 2 Gig speeds across the entire Fidium fiber network. Our Fidium plans offer symmetrical speeds from 50 Mbps to 2 Gbps over the latest WiFi 6 technology with no data caps. We expect to continue to expand the availability of Fidium Fiber further into communities within our markets in 2023. In February 2023, we launched Fidium@Work and expanded our Fidium Fiber service to small businesses everywhere Fidium internet is available. Fidium@Work is ideal for small businesses that have outgrown residential or traditional internet service, but do not require an enterprise solution.

As we continue to increase broadband speeds, we believe that we will also be able to simultaneously enhance our commercial product offerings to meet the needs of our business customers. By leveraging our advanced fiber network, we can tailor our services for business customers by developing solutions to fit their specific needs. We offer fiber broadband connectivity and cloud-based services to deliver differentiated solutions targeting customers ranging from small businesses to large enterprises and carriers. We are focused on driving fiber connectivity, achieving data services growth and standardizing our commercial product portfolio, which increases efficiency and enables greater scalability and reliability for businesses.

Operating revenues continue to be impacted by the industry-wide trend of declines in voice services, access lines and related network access revenue. Many customers are choosing to subscribe to alternative communication services, and competition for these subscribers continues to increase. Total voice connections decreased 14% as of June 30, 2023 compared to the same period in 2022. We have been able to mitigate some of the access line losses through alternative product offerings, such as our VoIP service.

Our competitive multi-gig broadband speeds enable us to meet consumer demand for higher bandwidth for streaming programming or on-demand content on any device. The consumers demand for streaming services, either to augment their current video subscription plan or to entirely replace their linear video subscription may impact our future video subscriber base and, accordingly, reduce our video revenue as well as our video programming costs. Total video connections decreased 48% as of June 30, 2023 compared to the same period in 2022 as a result of a divestiture in November 2022, which accounted for approximately 19% of the decline, and our plan to de-emphasize our linear video services and transition customers to streaming and over-the-top video services. We believe the trend in changing consumer viewing habits will

[Table of Contents](#)

continue to impact our business results and complement our strategy of providing consumers with higher broadband speeds to facilitate streaming content including services offered through our streaming partnerships.

Our operating revenues are impacted by legislative or regulatory changes at the federal and state levels, which could reduce or eliminate the current subsidies revenue we receive. A number of proceedings and recent orders relate to universal service reform, inter-carrier compensation (“ICC”) and network access charges. See the “Regulatory Matters” section below for a further discussion of the subsidies we receive.

Recent Developments

Take Private Proposal

On April 12, 2023, our board of directors (the “Board”) received a non-binding proposal letter from Searchlight, together with its affiliated investment funds, and British Columbia Investment Management Corporation (“BCI” and together with Searchlight, the “Searchlight Group”) to acquire all of the outstanding common shares of Consolidated not already owned by the Searchlight Group for cash consideration of \$4.00 per share (the “Proposal”). The Proposal letter states that any potential transaction must be subject to the approval and recommendation by a special committee of independent and disinterested directors, advised by independent legal and financial advisors. The Proposal letter also indicates that any potential transaction would be subject to a non-waivable condition requiring the approval of the holders of a majority of the shares of Common Stock that are not owned by the Searchlight Group. The Board has formed a special committee of independent directors to evaluate and consider the Proposal.

The Proposal constitutes only an indication of interest by the Searchlight Group and does not constitute a binding commitment with respect to the proposed transaction or any other transaction. No agreement, arrangement or understanding between Consolidated and the Searchlight Group relating to any proposed transaction will be created unless definitive documentation is executed and delivered by the appropriate parties. There can be no assurance that the Proposal will result in a transaction occurring, its timing, or ultimate terms.

In connection with an investment agreement entered into with an affiliate of Searchlight on September 13, 2020, affiliates of Searchlight have invested an aggregate of \$425.0 million in the Company and hold a combination of Series A perpetual preferred stock and approximately 34% of the Company’s outstanding common stock as June 30, 2023. Searchlight is the sole holder of all of the issued and outstanding shares of the Company’s Series A Preferred Stock.

Cost Savings Initiative

In July 2023, we initiated a business simplification and cost savings initiative plan intended to further align our company as a fiber-first provider, improve operating efficiencies, lower our cost structure and ultimately improve the overall customer experience. This initiative includes a reduction in workforce, consolidation and elimination of certain facilities and review of our product offerings. These cost savings initiatives are expected to result in annualized savings of approximately \$30.0 million commencing in the second half of 2023. We anticipate incurring costs of approximately \$10.0 million to \$15.0 million during the next nine to twelve months to implement and execute the plan. The scope of the plan is expected to be finalized during the second half of 2023.

Discontinued Operations - Sale of Investment in Wireless Partnerships

On September 13, 2022, we completed the sale of our five limited wireless partnership interests to Celco Partnership (“Celco”) for an aggregate purchase price of \$490.0 million. Celco is the general partner for each of the five wireless partnerships and is an indirect, wholly-owned subsidiary of Verizon Communications, Inc. Our wireless partnership investment consisted of ownership in five wireless partnerships: 2.34% of GTE Mobilnet of South Texas Limited Partnership, 20.51% of GTE Mobilnet of Texas RSA #17 Limited Partnership, 3.60% of Pittsburgh SMSA Limited Partnership, 16.67% of Pennsylvania RSA No. 6(I) Limited Partnership and 23.67% of Pennsylvania RSA No. 6(II) Limited Partnership. We intend to use the proceeds from the sale to support our fiber expansion plan. The financial results of the limited partnership interests have been reported as discontinued operations in our condensed consolidated financial statements for all prior periods presented. In the statement of cash flows, we have elected to combine cash flows from

[Table of Contents](#)

discontinued operations with cash flows from continuing operations. For the three and six months ended June 30, 2022, we recognized investment income of \$9.8 million and \$17.9 million, respectively, and received cash distributions of \$11.3 million and \$19.5 million, respectively, from these wireless partnerships.

Divestitures

On July 10, 2023, we entered into a definitive agreement to sell our business located in the Washington market (“the “Washington operations”), for gross cash proceeds of approximately \$73.0 million, subject to customary working capital adjustments and other post-closing purchase price adjustments. At June 30, 2023, the assets and liabilities to be sold were classified as assets held for sale in the condensed consolidated balance sheet. During the three months ended June 30, 2023, in connection with the expected sale, the carrying value of the net assets to be sold were reduced to their estimated fair value of approximately \$65.7 million, which was determined based on the estimated selling price less costs to sell. As a result, we recognized an impairment loss of \$77.8 million during the three and six months ended June 30, 2023. The transaction is expected to close in the second half of 2024 and is subject to the receipt of all customary regulatory approvals and the satisfaction of other closing conditions.

On March 2, 2022, we entered into a definitive agreement to sell substantially all the assets of our business located in the Kansas City market (the “Kansas City operations”). The Kansas City operations provide data, voice and video services to customers within the Kansas City metropolitan area and surrounding counties and included approximately 17,100 consumer customers and 1,600 commercial customers. For the three and six months ended June 30, 2022, operating revenues for the Kansas City operations were \$14.7 million or 4.9% and \$26.4 million or 4.4%, respectively, of total consolidated operating revenues. In connection with the sale, the carrying value of the net assets to be sold was reduced to their estimated fair value and we recognized an impairment loss of \$126.5 million and \$5.2 million during the three months ended March 31, 2022 and September 30, 2022, respectively. The sale closed on November 30, 2022 for gross cash proceeds of \$82.1 million, subject to the finalization of certain working capital and other post-closing purchase price adjustments. During the quarter ended December 31, 2022, we recognized a loss on the sale of \$16.8 million as a result of purchase price adjustments and an increase in net assets held for sale and estimated selling costs during the period. During the six months ended June 30, 2023, we recognized an additional loss on the sale of \$2.1 million as a result of expected purchase price adjustments and changes in working capital.

On January 31, 2022, we completed the sale of substantially all of the assets of our non-core, rural ILEC business located in Ohio, Consolidated Communications of Ohio Company (“CCOC” or the “Ohio operation”) for gross cash proceeds of \$26.1 million, including customary working capital adjustments. CCOC provides telecommunications and data services to residential and business customers in 11 rural communities in Ohio and surrounding areas and included approximately 3,800 access lines, 3,900 data connections and 1,400 video connections. The asset sales align with our strategic asset review and focus on our core broadband regions. We intend to use the proceeds from the asset sales to further our fiber expansion plans.

- (1) Adjusted EBITDA from continuing operations and Adjusted EBITDA are non-GAAP measures. See the “Non-GAAP Measures” section below for additional information and reconciliation to the most directly comparable GAAP measure. Adjusted EBITDA includes investment distributions from discontinued operations.

Key Operating Statistics

	As of June 30,			
	2023	2022	Change	% Change
Consumer customers	487,680	505,614	(17,934)	(4)%
Fiber Gig+ capable	153,860	103,455	50,405	49
DSL/Copper	222,969	277,758	(54,789)	(20)
Consumer data connections	376,829	381,213	(4,384)	(1)
Consumer voice connections	258,680	306,458	(47,778)	(16)
Video connections	28,934	55,225	(26,291)	(48)

As of June 30, 2022, the operating statistics included approximately 3,380 fiber consumer data connections, 11,244 DSL/Copper consumer data connections, 7,052 consumer voice connections and 14,246 video connections for our Kansas City operations, which was sold on November 30, 2022. Prior period amounts have not been adjusted to reflect the sale.

Operating Revenues

Consumer

Broadband Services

Broadband services include revenues from residential customers for subscriptions to our data and VoIP products. We offer high-speed Internet access at speeds of up to 2 Gbps, depending on the network facilities that are available, the level of service selected and the location. Our VoIP digital phone service is also available in certain markets as an alternative to the traditional telephone line.

Broadband services revenues increased \$3.7 million and \$5.8 million during the three and six months ended June 30, 2023, respectively, compared to the same periods in 2022. The change in broadband services revenue was reduced in part by the sale of substantially all of the assets of our Kansas City and Ohio operations in 2022, which resulted in a decrease of broadband services revenues of \$1.8 million and \$3.8 million for the three and six months ended June 30, 2023 compared to 2022, respectively. Broadband services revenue continued to increase primarily as a result of price increases and growth in fiber Internet services as fiber data connections continue to increase. In addition, a greater mix of our subscribers are shifting towards higher broadband speeds and electing to subscribe to our 1 Gig or higher product.

Voice Services

We offer several different basic local phone service packages and long-distance calling plans, including unlimited flat-rate calling plans. The plans include options for voicemail and other custom calling features such as caller ID, call forwarding and call waiting. Voice services revenues decreased \$5.3 million and \$10.5 million during the three and six months ended June 30, 2023, respectively, compared to the same periods in 2022 primarily due to a 17% decline in access lines. In addition, the sale of our Kansas City and Ohio operations in 2022 accounted for \$0.5 million and \$1.2 million of the decrease during the three and six months ended June 30, 2023, respectively. The number of local access lines in service directly affects the recurring revenues we generate from end users and continues to be impacted by the industry-wide decline in access lines. We expect to continue to experience erosion in voice connections due to competition from alternative technologies.

[Table of Contents](#)

Video Services

Depending on geographic market availability, our video services range from limited basic service to advanced digital television, which includes several plans, each with hundreds of local, national and music channels including premium and Pay-Per-View channels as well as video On-Demand service. Certain customers may also subscribe to our advanced video services, which consist of high-definition television, digital video recorders (“DVR”) and/or a whole home DVR. Our video subscribers can also watch their favorite shows, movies and livestreams on any device. In addition, we offer other on-demand streaming TV services, which provide endless entertainment options.

Video services revenues decreased \$4.9 million and \$9.7 million during the three and six months ended June 30, 2023, respectively, compared to the same periods in 2022 primarily due to the continued decline in connections as well as the sale of our Kansas City and Ohio operations in 2022, which accounted for \$2.7 million and \$5.4 million of the decrease, respectively. We expect to continue to experience a decline in video connections as we de-emphasize our linear video subscriptions and transition customers to streaming services, which may amplify the demand for higher broadband speeds to facilitate streaming content.

Commercial

Data Services

We provide a variety of business communication services to business customers of all sizes, including voice and data services over our advanced fiber network. The services we offer include scalable high-speed broadband Internet access and VoIP phone services, which range from basic service plans to virtual hosted systems. In addition to Internet and VoIP services, we also offer a variety of commercial data connectivity services in select markets including Ethernet services; private line data services; software defined wide area network (“SD-WAN”) and multi-protocol label switching. Our networking services include point-to-point and multi-point deployments from 2.5 Mbps to 10 Gbps to accommodate the growth patterns of our business customers. We offer a suite of cloud-based services, which includes a hosted unified communications solution that replaces the customer’s on-site phone systems and data networks, managed network security services and data protection services. Data center and disaster recovery solutions provide a reliable and local colocation option for commercial customers.

Data services revenues decreased \$3.8 million and \$8.6 million during the three and six months ended June 30, 2023, respectively, compared to the same periods in 2022, of which \$4.1 million and \$8.4 million, respectively, is due to the sale of the Kansas City operations in 2022. The remaining change was due to continued growth in dedicated Internet access, which was reduced by declines in Metro Ethernet as a result of customer churn. In recent years, the growth in data services revenues has been impacted by customer churn from increased competition and price compression as customers are migrating from legacy data connection products to more competitive products with a lower average revenue per user.

Voice Services

Voice services include basic local phone and long-distance service packages for business customers. The plans include options for voicemail, conference calling, linking multiple office locations and other custom calling features such as caller ID, call forwarding, speed dialing and call waiting. Services can be charged at a fixed monthly rate, a measured rate or can be bundled with selected services at a discounted rate. Voice services revenues decreased \$3.5 million and \$7.2 million during the three and six months ended June 30, 2023, respectively, compared to the same periods in 2022 primarily due to a 15% decline in access lines as commercial customers are increasingly choosing alternative technologies and the broad range of features that Internet based voice services can offer. The sale of our Kansas City and Ohio operations in 2022 accounted for \$1.3 million and \$2.8 million of the decrease for the three and six months ended June 30, 2023, respectively.

Other

Other services include business equipment sales and related hardware and maintenance support, video services and other miscellaneous revenues, including 911 service revenues. Other services revenues decreased \$1.0 million and \$2.8 million

[Table of Contents](#)

during the three and six months ended June 30, 2023, respectively, compared to the same periods in 2022 primarily due to a decline in business equipment sales and custom construction revenues.

Carrier

Data and Transport Services

We provide high-speed fiber data transmission services to regional and national interexchange and wireless carriers including Ethernet, cellular backhaul, dark fiber and colocation services. Data and transport services revenues decreased \$5.1 million and \$5.7 million during the three and six months ended June 30, 2023, respectively, compared to the same periods in 2022, of which \$3.4 million and \$3.6 million, respectively, is due to the sale of the Kansas City operations in 2022. The remaining decline was due to a decrease in Ethernet services as a result of customer churn. Colocation and cellular backhaul revenue also declined from prior year periods as a result of a reduction in pricing of recent contract renewals with our wireless backhaul partners. We expect to recognize further declines in cellular backhaul revenue as a result of new pricing in 2023 and ongoing contract renewals.

Voice Services

We provide basic local phone service packages with customized features for resell by wholesale customers. The plans include options for voicemail, conference calling, linking multiple office locations and other custom calling features. Voice services revenues increased \$0.5 million and \$1.1 million during the three and six months ended June 30, 2023, respectively, compared to the same periods in 2022 primarily as a result of rate increases in 2023 for business data services.

Other

Other services revenues include conduit and other asset lease revenue as well as other miscellaneous revenue. Other services revenues decreased \$0.1 million during the six months ended June 30, 2023 compared to the same period in 2022 due to a decline in conduit lease revenue.

Subsidies

Subsidies consist of both federal and state subsidies, which are designed to promote widely available, quality broadband services at affordable prices with higher data speeds in rural areas. Subsidies revenues increased \$0.6 million and \$1.0 million during the three and six months ended June 30, 2023, respectively, compared to the same periods in 2022 primarily due to an increase in state subsidies support. See the “Regulatory Matters” section below for a further discussion of the subsidies we receive.

Network Access Services

Network access services include interstate and intrastate switched access, network special access and end user access. Switched access revenues include access services to other communications carriers to terminate or originate long-distance calls on our network. Special access circuits provide dedicated lines and trunks to business customers and interexchange carriers. Network access services revenues decreased \$2.1 million and \$3.9 million during the three and six months ended June 30, 2023, respectively, compared to the same periods in 2022 primarily due to the continuing decline in minutes of use, voice connections and carrier circuits as carriers transition to Ethernet based transport solutions. However, end user access revenue increased due to an increase in the Federal and State Universal Service Fund Contribution Factors as compared to the same periods in 2022.

Other Products and Services

Other products and services include revenues from telephone directory publishing, video advertising, billing and support services and other miscellaneous revenues. We have entered into numerous Public Private Partnership agreements with several towns in New Hampshire to build new fiber to the premise (“FTTP”) Internet networks. The new town networks provide multi-gigabit broadband speeds to residential and commercial customers. Public Private Partnerships are a key component of Consolidated’s commitment to expand rural broadband access.

[Table of Contents](#)

Other products and services revenues decreased \$2.3 million and \$6.8 million during the three and six months ended June 30, 2023, respectively, compared to the same periods in 2022 primarily due to the recognition of Public Private Partnership construction projects in 2022.

Operating Expenses

Cost of Services and Products

Cost of services and products decreased \$8.9 million and \$12.9 million during the three and six months ended June 30, 2023, respectively, compared to the same periods in 2022. Video programming costs decreased as a result of a decline in video connections and the sale of the Kansas City operations in late 2022. Access expense decreased related to additional fiber costs in 2022 for Public Private Partnership agreements. However, required contributions to the Federal and State Universal Service Funds (“USF”) increased as a result of an increase in the annual funding rates in 2023. Utility and fuel costs also increased in the current year.

Selling, General and Administrative Costs

Selling, general and administrative costs increased \$8.0 million and \$16.0 million during the three and six months ended June 30, 2023, respectively, compared to the same periods in 2022. Professional fees increased for various system enhancements and customer service improvement initiatives. Advertising expense increased due to greater promotional activities surrounding the continued marketing of our new fiber broadband products. In addition, employee labor costs increased from the prior year period due to additional headcount and severance costs incurred in the six months ended June 30, 2023. However, selling, general and administrative costs were reduced in part by a decline in property and real estate taxes in 2023.

Loss on Impairment of Assets Held for Sale

In connection with the classification of the Washington operations as held for sale in 2023, the carrying value of the net assets to be sold was reduced to their estimated fair value and we recognized an impairment loss of \$77.8 million during the three and six months ended June 30, 2023. During the six months ended June 30, 2022, we recognized an impairment loss of \$126.5 million on the classification of substantially all of the assets of the Kansas City operations as held for sale in 2022.

Loss on Disposal of Assets

As described above, we recognized an additional loss of \$2.1 million during the six months ended June 30, 2023 on the sale of substantially all of the assets of our Kansas City operations as a result of purchase price adjustments and working capital changes. We also recognized a loss of \$2.4 million and \$3.6 million related to the sale of certain utility poles during the three and six months ended June 30, 2023, respectively.

Depreciation and Amortization

Depreciation and amortization expense increased \$7.0 million and \$12.3 million during the three and six months ended June 30, 2023, respectively, compared to the same periods in 2022 primarily due to ongoing capital expenditures related to the fiber network expansion and customer service improvements as well as success-based capital projects for consumer and commercial services. However, amortization expense declined for customer relationships, which are amortized under the accelerated method. Depreciation expense also declined due to the classification of the Kansas City assets as held for sale in the first quarter of 2022.

Reclassifications

Certain amounts in our 2022 condensed consolidated financial statements have been reclassified to conform to the current year presentation, primarily related to the presentation of the financial results for our wireless partnership interests as discontinued operations.

Regulatory Matters

Our revenues are subject to broad federal and/or state regulations, which include such telecommunications services as local telephone service, network access service and toll service. The telecommunications industry is subject to extensive federal, state and local regulation. Under the Telecommunications Act of 1996, federal and state regulators share responsibility for implementing and enforcing statutes and regulations designed to encourage competition and to preserve and advance widely available, quality telephone service at affordable prices.

At the federal level, the FCC generally exercises jurisdiction over facilities and services of local exchange carriers, such as our rural telephone companies, to the extent they are used to provide, originate or terminate interstate or international communications. The FCC has the authority to condition, modify, cancel, terminate or revoke our operating authority for failure to comply with applicable federal laws or FCC rules, regulations and policies. Fines or penalties also may be imposed for any of these violations.

State regulatory commissions generally exercise jurisdiction over carriers' facilities and services to the extent they are used to provide, originate or terminate intrastate communications. In particular, state regulatory agencies have substantial oversight over interconnection and network access by competitors of our rural telephone companies. In addition, municipalities and other local government agencies regulate the public rights-of-way necessary to install and operate networks. State regulators can sanction our rural telephone companies or revoke our certifications if we violate relevant laws or regulations.

FCC Matters

In general, telecommunications service in rural areas is costlier to provide than service in urban areas. The lower customer density means that switching and other facilities serve fewer customers and loops are typically longer, requiring greater expenditures per customer to build and maintain. By supporting the high-cost of operations in rural markets, USF subsidies promote widely available, quality telephone service at affordable prices in rural areas.

In April 2019, the FCC announced plans for the Rural Digital Opportunity Fund ("RDOF"), the next phase of the Connect America Fund ("CAF") program. The RDOF is a \$20.4 billion fund to bring speeds of 25 Mbps downstream and 3 Mbps upstream to unserved and underserved areas of America. The FCC issued a Notice of Proposed Rulemaking at their August 2019 Open Commission Meeting. The order prioritizes terrestrial broadband as a bridge to rural 5G networks by providing a significant weight advantage to traditional broadband providers. Funding will occur in two phases with the first phase auctioning \$16.0 billion and the second phase auctioning \$4.4 billion, each to be distributed over 10 years. The minimum speed required to receive funding is 25 Mbps downstream and 3 Mbps upstream. Consolidated won 246 census block groups serving in seven states in the auction. The bids we won are at the 1 Gbps downstream and 500 Mbps upstream speed tier to approximately 27,000 locations at an annual funding level of \$5.9 million as of January 1, 2022 through December 31, 2031. Consolidated began receiving RDOF funding in January 2022.

The annual FCC price cap filing was made on June 16, 2023 and became effective on July 3, 2023. The net impact is an increase of approximately \$1.9 million in network access and CAF ICC support funding for the July 2023 through June 2024 tariff period.

[Table of Contents](#)

State Matters

Texas

The Texas Universal Service Fund (“TUSF”) is administered by the National Exchange Carrier Association (“NECA”). The Texas Public Utilities Regulatory Act directs the Public Utilities Commission of Texas (“PUCT”) to adopt and enforce rules requiring local exchange carriers to contribute to a state universal service fund that helps telecommunications providers offer basic local telecommunications service at reasonable rates in high-cost rural areas. The TUSF is also used to reimburse telecommunications providers for revenues lost by providing reduced-cost services to low-income consumers. Our Texas rural telephone companies receive disbursements from this fund.

Our Texas Incumbent Local Exchange Carriers (“ILECs”) have historically received support from two state funds, the small and rural incumbent local exchange company plan High Cost Fund (“HCF”) and the High Cost Assistance Fund (“HCAF”). In December 2020, the PUCT announced a TUSF funding shortfall and would be reducing all funded carriers support by 64% beginning January 15, 2021. The potential impact of the decision by the PUCT was a reduction in support we receive of approximately \$4.0 million annually. The Texas Telephone Association (“TTA”), of which Consolidated is a member, and the Texas Statewide Telephone Cooperative, Inc. (“TSTCI”), filed a lawsuit seeking to overturn the PUCT decision as well as a temporary injunction on the funding reduction. On June 7, 2021, the court ruled in favor of the PUCT. The TTA and TSTCI filed a notice to appeal on July 2, 2021. We filed our brief on September 18, 2021, along with a Motion to Expedite. The motion to expedite was granted. On June 30, 2022, the Third Court of Appeals in Austin ruled in favor of the rural phone companies requiring the state to increase the state surcharge to fully fund the TUSF and reimburse rural phone companies for the shortfall. The state had 45 days from the ruling date to decide whether to appeal the decision. The state did not appeal the ruling and in October 2022, the TTA, TSTCI and PUCT reached an agreement on how the outstanding funding would be repaid. Monthly support payments resumed in full in October 2022 and the funding shortfall for the periods from January 2021 through September 2022 is being reimbursed to carriers evenly over a 15-month period. All reimbursements, including interest, have been completed by the PUCT.

American Rescue Plan Act Funding

President Biden signed the American Rescue Plan Act of 2021 (“ARPA”) on March 11, 2021. States have been allocated federal funds to be utilized for capital infrastructure, including broadband deployment, and are in various stages of implementation. We are working with the states and municipalities to participate in this broadband grant program. In January 2023, we were awarded \$9.2 million in funding from ARPA to build to approximately 14,000 unserved homes in Skowhegan and Greater East Grand Bay Maine and in February 2023, we were awarded \$40.0 million in funding from ARPA to build nearly 25,000 unserved homes throughout New Hampshire. Construction is expected to begin for both projects in 2023 and be largely completed by the end of 2024. The grants will be accounted for as a contribution in aid of construction given the nature of the arrangement.

Affordable Connectivity Program

The Affordable Connectivity Program (“ACP”) is a permanent broadband affordability program set up to replace the EBB. The ACP program helps ensure that households can afford the broadband access they need for work, school, healthcare and more. The benefit provides a discount of up to \$30 per month toward internet service for eligible households and up to \$75 per month for households on qualifying Tribal lands. Eligible households can also receive a one-time discount of up to \$100 to purchase a laptop, desktop computer, or tablet from participating providers if they contribute more than \$10 and less than \$50 toward the purchase price. The ACP is limited to one monthly service discount and one device discount per household. The program began funding March 1, 2022. Consolidated is participating in this program.

Infrastructure Investment and Jobs Act

The Infrastructure Investment and Jobs Act (the “Infrastructure Act”) signed on November 15, 2021 included \$65.0 billion toward broadband. The broadband internet portion of the Infrastructure Act is aimed at increasing internet coverage for more universal access, including for rural, low-income, and tribal communities. 65% of this funding is set aside specifically

[Table of Contents](#)

for underserved communities. Additionally, this measure is designed to help make internet access more affordable and increase digital literacy.

The Infrastructure Act set aside \$42.5 billion for Broadband Equity, Access and Deployment (“BEAD”) grants. The National Telecommunications and Information Administration (“NTIA”) administers the BEAD program and has awarded grants to jurisdictions across the country, which in turn will use the funding to support service providers’ broadband deployment and access initiatives. The FCC has released its broadband availability and quality map allowing NTIA to move forward with releasing the final BEAD funding allocation to the states. The states have 180 days to submit their BEAD plan for approval from NTIA.

Other Regulatory Matters

We are also subject to a number of regulatory proceedings occurring at the federal and state levels that may have a material impact on our operations. The FCC and state commissions have authority to conduct audits and issue and interpret rules and regulations related to our business. A number of proceedings and findings are pending or anticipated that are related to such telecommunications issues as competition, interconnection, access charges, ICC, broadband deployment, rural subsidy programs, consumer protection and universal service reform. Some proceedings may authorize new services to compete with our existing services. Proceedings that relate to our cable television operations include rulemakings on set top boxes, carriage of programming, industry consolidation and ways to promote additional competition. There are various on-going legal challenges to the scope or validity of FCC orders that have been issued. As a result, it is not yet possible to fully determine the impact of the related FCC rules and regulations on our operations.

Non-Operating Items

Interest Expense, Net

Interest expense, net of interest income, increased \$6.7 million and \$11.1 million during the three and six months ended June 30, 2023, respectively, compared to the same periods in 2022 primarily due to an increase in variable interest rates on our outstanding term loan. Interest capitalized for the construction of assets also declined \$1.3 million and \$2.7 million, during the three and six months ended June 30, 2023, respectively. These increases in interest expense were reduced in part by an increase in interest income of \$0.7 million and \$3.4 million from additional cash equivalents and short-term investments during the three and six months ended June 30, 2023, respectively.

Other Income

Other income increased \$2.3 million and \$1.7 million during the three and six months ended June 30, 2023, respectively, compared to the same periods in 2022. Investment income increased \$3.2 million during each of the three and six month periods ended June 30, 2023 as a result of earnings from short-term investments. However, during the three and six month periods ended June 30, 2023, pension and post-retirement expense increased \$1.9 million and \$3.9 million, respectively. See Note 13 to the condensed consolidated financial statements for a more detailed discussion regarding our pension and post-retirement plans.

Income Taxes

Income taxes decreased \$16.5 million and \$13.9 million during the three and six months ended June 30, 2023, respectively, compared to the same periods in 2022. Our effective tax rate was 14.6% and 16.0% for the three months ended June 30, 2023 and 2022, respectively and 17.5% and 11.5% for the six months ended June 30, 2023 and 2022, respectively. On July 10, 2023, we entered into a definitive agreement to sell our Washington operations. As a result, we recorded an increase of \$14.3 million to our current tax expense for the three and six months ended June 30, 2023 related to the \$77.8 million impairment loss of noncash goodwill that is not deductible for tax purposes. As a result of the Kansas City and Ohio transactions, we recorded an increase of \$1.2 million and \$21.3 million to our current tax expense for the three and six months ended June 30, 2022, respectively, related to the impairment loss of noncash goodwill included in each transaction that is not deductible for tax purposes. The Company does not consider these sales transactions and related goodwill adjustments unusual or infrequent and therefore the corresponding tax impact is recorded through continuing operations.

[Table of Contents](#)

Exclusive of these divestiture related adjustments, our effective tax rate for the three months ended June 30, 2023 and 2022 would have been approximately 25.7% and 25.5%, respectively and approximately 25.5% and 26.0% for the six months ended June 30, 2023 and 2022, respectively. In addition, the effective tax rate differed from the federal and state statutory rates due to various permanent income tax differences and differences in allocable income for the Company's state tax filings.

Non-GAAP Measures

In addition to the results reported in accordance with US GAAP, we also use certain non-GAAP measures such as EBITDA, Adjusted EBITDA from continuing operations and Adjusted EBITDA to evaluate operating performance and to facilitate the comparison of our historical results and trends. These financial measures are not measures of financial performance under US GAAP and should not be considered in isolation or as a substitute for net income (loss) as a measure of performance and net cash provided by operating activities as a measure of liquidity. They are not, on their own, necessarily indicative of cash available to fund cash needs as determined in accordance with GAAP. The calculation of these non-GAAP measures may not be comparable to similarly titled measures used by other companies. Reconciliations of these non-GAAP measures to the most directly comparable financial measures presented in accordance with GAAP are provided below.

EBITDA is defined as net earnings before interest expense, income taxes and depreciation and amortization. Adjusted EBITDA is comprised of EBITDA, adjusted for certain items as permitted or required under our credit facility as described in the reconciliations below. These measures are a common measure of operating performance in the telecommunications industry and are useful, with other data, as a means to evaluate our ability to fund our estimated uses of cash.

The following table is a reconciliation of loss from continuing operations to adjusted EBITDA for the three and six months ended June 30, 2023 and 2022:

<i>(In thousands, unaudited)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2023	2022	2023	2022
Loss from continuing operations	\$ (108,092)	\$ (10,591)	\$ (145,053)	\$ (129,687)
Add (subtract):				
Interest expense, net of interest income	36,903	30,156	70,763	59,671
Income tax benefit	(18,448)	(2,017)	(30,688)	(16,836)
Depreciation and amortization	79,538	72,543	157,237	144,893
EBITDA	(10,099)	90,091	52,259	58,041
Adjustments to EBITDA:				
Other, net ⁽¹⁾	4,510	3,280	13,399	5,621
Loss on disposal of assets	2,384	—	5,688	—
Loss on impairment	77,755	—	77,755	126,490
Non-cash, stock-based compensation	2,388	2,833	3,187	5,032
Adjusted EBITDA from continuing operations	76,938	96,204	152,288	195,184
Investment distributions from discontinued operations	—	11,329	—	19,545
Adjusted EBITDA	\$ 76,938	\$ 107,533	\$ 152,288	\$ 214,729

⁽¹⁾ Includes dividend income, income attributable to noncontrolling interests in subsidiaries, acquisition and transaction related costs including integration and severance, non-cash pension and post-retirement benefits and certain other miscellaneous items.

Liquidity and Capital Resources

Outlook and Overview

Our operating requirements have historically been funded from cash flows generated from our business and borrowings under our credit facilities. We expect that our future operating requirements will continue to be funded from cash flows from operating activities, existing cash and cash equivalents, proceeds from sales of nonstrategic assets and, if needed, borrowings under our revolving credit facility and our ability to obtain future external financing. We anticipate that we will continue to use a substantial portion of our cash flow to fund capital expenditures for our accelerated fiber network expansion and growth plan and invest in future business opportunities.

The following table summarizes our cash flows:

<i>(In thousands)</i>	Six Months Ended June 30,	
	2023	2022
Cash flows provided by (used in):		
Operating activities		
Continuing operations	\$ 67,319	\$ 121,960
Discontinued operations	—	19,545
Investing activities	(182,436)	(218,483)
Financing activities	(8,157)	(4,638)
Change in cash and cash equivalents	<u>\$ (123,274)</u>	<u>\$ (81,616)</u>

Cash Flows Provided by Operating Activities

Net cash provided by operating activities from continuing operations was \$67.3 million during the six months ended June 30, 2023, a decrease of \$54.6 million compared to the same period in 2022. Cash flows provided by operating activities decreased in part due to a decline in earnings as a result of a decrease in operating revenue. Cash paid for interest also increased \$11.1 million during the six months ended June 30, 2023 compared to the same period in 2022. These reductions in cash provided by operating activities were offset in part by a decrease in cash contributions to our defined benefit pension plan of \$10.0 million during the six months ended June 30, 2023 compared to the same period in 2022.

Cash Flows Used In Investing Activities

Net cash used in investing activities from continuing operations was \$182.4 million and \$218.5 million during the six months ended June 30, 2023 and 2022, respectively, and consisted primarily of cash used for capital expenditures, the purchase and maturity of short-term investments and proceeds received from business dispositions and the sale of assets.

Capital expenditures continue to be our primary recurring investing activity and were \$280.9 million and \$332.9 million during the six months ended June 30, 2023 and 2022, respectively. Capital expenditures for 2023 are expected to be approximately \$495.0 million, which will be used for our planned fiber projects and broadband network expansion, including the upgrade in 2023 of approximately 225,000 fiber passings, and to support success-based capital projects for commercial, carrier and consumer initiatives. This is an increase from our previous outlook of \$425.0 million to \$445.0 million to reflect additional planned expenditures associated with our fiber build plan. We expect to continue to invest in the enhancement and expansion of our fiber network in order to retain and acquire more customers through a broader set of products and an expanded network footprint.

During the six months ended June 30, 2023, we received proceeds from the maturity and sale of investments of \$91.6 million. During the six months ended June 30, 2022, we received proceeds from the maturity and sale of investments of \$126.6 million, which was offset in part by the purchase of \$40.0 million in short-term investments consisting primarily of held-to-maturity debt securities with original maturities of three to twelve months.

During the six months ended June 30, 2022, we completed the sale of substantially all of the assets of CCOC, our non-core, rural ILEC business located in Ohio, for cash proceeds of \$26.0 million.

[Table of Contents](#)

Cash Flows Used In Financing Activities

Net cash used in financing activities consists primarily of our proceeds from and principal payments on long-term borrowings.

Long-term Debt

Credit Agreement

On October 2, 2020, the Company, through certain of its wholly-owned subsidiaries, entered into a Credit Agreement with various financial institutions (as amended, the “Credit Agreement”) to replace the Company’s previous credit agreement in its entirety. The Credit Agreement consisted of term loans in an original aggregate amount of \$1,250.0 million (the “Initial Term Loans”) and a revolving loan facility of \$250.0 million. The Credit Agreement also includes an incremental loan facility which provides the ability to borrow, subject to certain terms and conditions, incremental loans in an aggregate amount of up to the greater of (a) \$300.0 million plus (b) an amount which would not cause its senior secured leverage ratio not to exceed 3.70:1.00 (the “Incremental Facility”). Borrowings under the Credit Agreement are secured by substantially all of the assets of the Company and its subsidiaries, subject to certain exceptions.

The Initial Term Loans were issued in an original aggregate principal amount of \$1,250.0 million with a maturity date of October 2, 2027 and contained an original issuance discount of 1.5% or \$18.8 million, which is being amortized over the term of the loan. Prior to amendments to the Credit Agreement, as described below, the Initial Term Loans required quarterly principal payments of \$3.1 million, which commenced December 31, 2020, and bore interest at a rate of 4.75% plus the London Interbank Offered Rate (“LIBOR”) subject to a 1.00% LIBOR floor.

On January 15, 2021, the Company entered into Amendment No. 1 to the Credit Agreement in which we borrowed an additional \$150.0 million aggregate principal amount of incremental term loans (the “Incremental Term Loans”). The Incremental Term Loans have terms and conditions identical to the Initial Term Loans including the same maturity date and interest rate. The Initial Term Loans and Incremental Term Loans, collectively (the “Term Loans”), comprise a single class of term loans under the Credit Agreement.

On March 18, 2021, the Company repaid \$397.0 million of the outstanding Term Loans with the net proceeds received from the issuance of \$400.0 million aggregate principal amount of 5.00% senior secured notes due 2028 (the “5.00% Senior Notes”), as described below. The repayment of the Term Loans was applied to the remaining principal payments in direct order of maturity, thereby eliminating the required quarterly principal payments through the remaining term of the loan.

On April 5, 2021, the Company, entered into Amendment No. 2 to the Credit Agreement (the “Second Amendment”) to refinance the outstanding Term Loans of \$999.9 million. The terms and conditions of the Credit Agreement remain substantially similar and unchanged except with respect to the interest rate applicable to the Term Loans and certain other provisions. As a result of the Second Amendment, the interest rate of the Term Loans was reduced to 3.50% plus LIBOR subject to a 0.75% LIBOR floor. The maturity date of the Term Loans of October 2, 2027 remained unchanged.

On November 22, 2022, the Company, entered into Amendment No. 3 to the Credit Agreement (the “Third Amendment”) to, among other things, extend the maturity of the revolving credit facility by two years from October 2, 2025 to October 2, 2027, subject to springing maturity on April 2, 2027 if the Term Loans, as of April 1, 2027, are scheduled to mature earlier than March 31, 2028. The Third Amendment also relaxed the revolving credit facility’s consolidated first lien leverage maintenance covenant, as described below, through June 30, 2025 to 6.35:1.00 from 5.85:1.00.

On April 17, 2023, the Company entered into Amendment No. 4 to the Credit Agreement (the “Fourth Amendment”) to replace remaining LIBOR-based benchmark rates with Secured Overnight Financing Rate (“SOFR”)-based benchmark rates. As part of the replacement to SOFR-benchmark rates, borrowings will include an adjustment of 0.11%, 0.26% and 0.43% for borrowings of one, three and six month loans, respectively. With the amendment, the interest rate of the Term Loans is 3.50% plus SOFR plus the SOFR adjustment (subject to a 0.75% SOFR floor).

[Table of Contents](#)

The revolving credit facility has a maturity date of October 2, 2027 and an applicable margin (at our election) of 4.00% for SOFR-based borrowings or 3.00% for alternate base rate borrowings, with a 0.25% reduction in each case if the consolidated first lien leverage ratio, as defined in the Credit Agreement, does not exceed 3.20 to 1.00. At June 30, 2023 and December 31, 2022, there were no borrowings outstanding under the revolving credit facility. Stand-by letters of credit of \$35.4 million were outstanding under our revolving credit facility as of June 30, 2023. The stand-by letters of credit are renewable annually and reduce the borrowing availability under the revolving credit facility. As of June 30, 2023, \$214.6 million was available for borrowing under the revolving credit facility, subject to certain covenants.

The weighted-average interest rate on outstanding borrowings under our credit facility was 8.77% and 7.63% as of June 30, 2023 and December 31, 2022, respectively. Interest is payable at least quarterly.

Credit Agreement Covenant Compliance

The Credit Agreement contains various provisions and covenants, including, among other items, restrictions on the ability to pay dividends, incur additional indebtedness, and issue certain capital stock. We have agreed to maintain certain financial ratios, including a maximum consolidated first lien leverage ratio, as defined in the Credit Agreement. Among other things, it will be an event of default, with respect to the revolving credit facility only, if our consolidated first lien leverage ratio is greater than 6.35:1.00 as of the end of any fiscal quarter, if on such date the testing threshold is met. The testing threshold is met if the aggregate amount of our borrowings outstanding under the revolving credit facility exceeds 35%. As of June 30, 2023, the testing threshold was not met and our consolidated first lien leverage ratio under the Credit Agreement was 5.59:1.00. As of June 30, 2023, we were in compliance with the Credit Agreement covenants.

Senior Notes

On October 2, 2020, we completed an offering of \$750.0 million aggregate principal amount of 6.50% unsubordinated secured notes due 2028 (the “6.50% Senior Notes”). The 6.50% Senior Notes were priced at par and bear interest at a rate of 6.50%, payable semi-annually on April 1 and October 1 of each year. The 6.50% Senior Notes mature on October 1, 2028.

On March 18, 2021, we issued \$400.0 million aggregate principal amount 5.00% Senior Notes, together with the 6.50% Senior Notes (the “Senior Notes”). The 5.00% Senior Notes were priced at par and bear interest at a rate of 5.00% per year, payable semi-annually on April 1 and October 1 of each year. The 5.00% Senior Notes mature on October 1, 2028. The net proceeds from the issuance of the 5.00% Senior Notes were used to repay \$397.0 million of the Term Loans outstanding under the Credit Agreement.

The Senior Notes are unsubordinated secured obligations of the Company, secured by a first priority lien on the collateral that secures the Company’s obligations under the Credit Agreement. The Senior Notes are fully and unconditionally guaranteed on a first priority secured basis by the Company and the majority of our wholly-owned subsidiaries. The offerings of the Senior Notes have not been registered under the Securities Act of 1933, as amended or any state securities laws.

Senior Notes Covenant Compliance

Subject to certain exceptions and qualifications, the indentures governing the Senior Notes contain customary covenants that, among other things, limits the Company and its restricted subsidiaries’ ability to: incur additional debt or issue certain preferred stock; pay dividends or make other distributions on capital stock or prepay subordinated indebtedness; purchase or redeem any equity interests; make investments; create liens; sell assets; enter into agreements that restrict dividends or other payments by restricted subsidiaries; consolidate, merge or transfer all or substantially all of its assets; engage in transactions with its affiliates; or enter into any sale and leaseback transactions. The indentures also contain customary events of default.

As of June 30, 2023, the Company was in compliance with all terms, conditions and covenants under the indentures governing the Senior Notes.

Finance Leases

We lease certain facilities and equipment under various finance leases which expire between 2023 and 2040. As of June 30, 2023, the present value of the minimum remaining lease commitments was approximately \$41.9 million, of which \$16.8 million was due and payable within the next twelve months. The leases require total remaining rental payments of \$47.3 million as of June 30, 2023.

Sufficiency of Cash Resources

The following table sets forth selected information regarding our financial condition.

<i>(In thousands, except for ratio)</i>	June 30, 2023	December 31, 2022
Cash and cash equivalents and short-term investments	\$ 202,578	\$ 413,803
Working capital	123,322	331,240
Current ratio	1.39	2.24

Our net working capital decreased \$207.9 million as of June 30, 2023 compared to December 31, 2022. Cash, cash equivalents and short-term investments decreased \$211.2 million primarily as a result of capital expenditures for the fiber build plan during 2023. Working capital was reduced by an increase in accounts payable and accrued expense of \$17.2 million and \$31.0 million at June 30, 2023, respectively, related to the timing of expenditures. A decline in accounts receivable of \$18.8 million also reduced working capital related to the timing of cash receipts for special projects, grant funding and amounts collected from the TUSF settlement. However, at June 30, 2023, working capital included net assets classified as held for sale of \$65.7 million related to the pending sale of the Washington operations.

Our most significant use of funds for the remainder of 2023 is expected to be for: (i) capital expenditures of approximately \$185.0 million; and (ii) interest payments on our indebtedness of between \$72.0 million and \$82.0 million. We have historically funded certain core network capacity equipment with finance leases and it remains our intent to continue such arrangements with our leasing partners. In the event we are unable to secure such financing, we may be required to make cash expenditures for this capital. The refinancing of our capital structure in recent years including the availability of approximately \$214.6 million on our revolving credit facility combined with the net proceeds from asset divestitures in 2022 provides us the capital and financial flexibility to re-invest in our fiber network expansion and growth plans. In the future, our ability to use cash may be limited by our other expected uses of cash and our ability to incur additional debt will be limited by our existing and future debt agreements.

We believe that cash flows from operating activities, together with our existing cash and borrowings available under our revolving credit facility, will be sufficient for at least the next twelve months to fund our current anticipated uses of cash.

After that, our ability to fund expected uses of cash and to comply with the financial covenants under our debt agreements will depend on the results of future operations, performance, cash flow and potential additional divestitures of non-core assets. Our ability to fund expected uses from the results of future operations will be subject to prevailing economic conditions and to financial, business, regulatory, legislative and other factors, many of which are beyond our control.

To the extent that our business plans or projections change or prove to be inaccurate, we may require additional financing or require financing sooner than we currently anticipate. Sources of additional financing may include commercial bank borrowings, other strategic debt financing, sales of nonstrategic assets, vendor financing or the private or public sales of equity and debt securities. There can be no assurance that we will be able to generate sufficient cash flows from operations in the future, that anticipated revenue growth will be realized or that future borrowings or equity issuances will be available in amounts sufficient to provide adequate sources of cash to fund our expected uses of cash. Failure to obtain adequate financing, if necessary, could require us to significantly reduce our operations or level of capital expenditures which could have a material adverse effect on our financial condition and the results of operations.

We may be unable to access the cash flows of our subsidiaries since certain of our subsidiaries are parties to credit or other borrowing agreements, or are subject to statutory or regulatory restrictions, that restrict the payment of dividends or making intercompany loans and investments, and those subsidiaries are likely to continue to be subject to such restrictions and

[Table of Contents](#)

prohibitions for the foreseeable future. In addition, future agreements that our subsidiaries may enter into governing the terms of indebtedness may restrict our subsidiaries' ability to pay dividends or advance cash in any other manner to us.

Surety Bonds

In the ordinary course of business, we enter into surety, performance and similar bonds as required by certain jurisdictions in which we provide services. As of June 30, 2023, we had approximately \$46.1 million of these bonds outstanding.

Defined Benefit Pension Plans

As required, we contribute to qualified defined pension plans and non-qualified supplemental retirement plans (collectively the "Pension Plans") and other post-retirement benefit plans, which provide retirement benefits to certain eligible employees as described in the Note 13 to the Condensed Consolidated Financial Statements, included in this report in Part I – Item 1 "Financial Statements". Contributions are intended to provide for benefits attributed to service to date. Our funding policy is to contribute annually an actuarially determined amount consistent with applicable federal income tax regulations.

The cost to maintain our Pension Plans and future funding requirements are affected by several factors including the expected return on investment of the assets held by the Pension Plans, changes in the discount rate used to calculate pension expense and the amortization of unrecognized gains and losses. Returns generated on the Pension Plans assets have historically funded a significant portion of the benefits paid under the Pension Plans. We estimate the long-term rate of return on assets will be 7.00%. The Pension Plans invest in marketable equity securities which are exposed to changes in the financial markets. If the financial markets experience a sustained downturn and returns fall below our estimate, we could be required to make material contributions to the Pension Plans, which could adversely affect our cash flows from operations.

Our contribution amounts meet the minimum funding requirements as set forth in employee benefit and tax laws. We elected to participate in ARPA beginning with the 2021 plan year. ARPA, which was signed into law in March 2021, included changes to the employer funding requirements and is designed to reduce the amounts of required contributions as a relief. During 2021 and the six months ended June 30, 2022, we elected to fund our pension contributions at the pre-ARPA levels, which has created a pre-funded balance. We expect that for 2023 and 2024, no pension contributions will be required under the ARPA minimum required contributions and we intend use our current pre-funded balance to satisfy the minimum contribution requirements. As of June 30, 2023, we have contributed \$3.2 million to our other post-retirement benefit plans, and expect to make contributions to our other post-retirement benefit plans totaling approximately \$3.0 million during the remainder of 2023.

Income Taxes

The timing of cash payments for income taxes, which is governed by the Internal Revenue Service and other taxing jurisdictions, will differ from the timing of recording tax expense and deferred income taxes, which are reported in accordance with GAAP. For example, tax laws in effect regarding accelerated or "bonus" depreciation for tax reporting resulted in less cash payments than the GAAP tax expense. Acceleration of tax deductions could eventually result in situations where cash payments will exceed GAAP tax expense.

Critical Accounting Estimates

Our condensed consolidated financial statements and accompanying notes are prepared in accordance with US GAAP. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. These estimates and assumptions are affected by management's application of accounting policies. Our judgments are based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making estimates about the carrying values of assets and liabilities that are not readily apparent from other sources. For a full discussion of our accounting estimates and assumptions that we have identified as critical in the preparation of our condensed consolidated financial statements, refer to our 2022 Annual Report on Form 10-K filed with the SEC.

Recent Accounting Pronouncements

For information regarding the impact of certain recent accounting pronouncements, see Note 1 “Summary of Significant Accounting Policies” to the Condensed Consolidated Financial Statements, included in this report in Part I - Item 1 “Financial Statements”.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our exposure to market risk is primarily related to the impact of interest rate fluctuations on our debt obligations. Market risk is the potential loss arising from adverse changes in market interest rates on our variable rate obligations. In order to manage the volatility relating to changes in interest rates, we utilize derivative financial instruments such as interest rate swaps to maintain a mix of fixed and variable rate debt. We do not use derivatives for trading or speculative purposes. Our interest rate swap agreements effectively convert a portion of our floating-rate debt to a fixed-rate basis, thereby reducing the impact of interest rate changes on future cash interest payments. We calculate the potential change in interest expense caused by changes in market interest rates by determining the effect of the hypothetical rate increase on the portion of our variable rate debt that is not subject to a variable rate floor or hedged through the interest rate swap agreements. Based on our variable rate debt outstanding as of June 30, 2023, a 1.00% change in market interest rates would increase or decrease annual interest expense by approximately \$5.0 million.

As of June 30, 2023, the fair value of our interest rate swap agreements amounted to a net asset of \$5.0 million. Total pre-tax deferred gains related to our interest rate swap agreements included in accumulated other comprehensive loss was \$5.1 million as of June 30, 2023.

ITEM 4. CONTROLS AND PROCEDURES

Limitations on Effectiveness of Disclosure Controls and Procedures

We maintain disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (“Exchange Act”) that are designed to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and (ii) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

Evaluation of Disclosure Controls and Procedures

In connection with the filing of this Form 10-Q, management evaluated, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of the design to provide reasonable assurance of achieving their objectives and operation of our disclosure controls and procedures as of June 30, 2023. Based upon that evaluation and subject to the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective as of June 30, 2023.

Changes in Internal Control Over Financial Reporting

Based upon the evaluation performed by our management, which was conducted with the participation of our Chief Executive Officer and Chief Financial Officer, there have been no changes in our internal controls over financial reporting during the quarter ended June 30, 2023 that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

Limitations on the Effectiveness of Controls

We are responsible for establishing and maintaining adequate internal control over financial reporting. Our internal control systems are designed to provide reasonable assurance to the Company’s management, Board of Directors and Audit

[Table of Contents](#)

Committee regarding the reliability of financial reporting and the preparation of published financial statements in accordance with generally accepted accounting principles.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time we may be involved in litigation that we believe is of the type common to companies in our industry, including regulatory issues. While the outcome of these claims cannot be predicted with certainty, we do not believe that the outcome of any of these legal matters will have a material adverse impact on our business, results of operations, financial condition or cash flows. See Note 15 to the Condensed Consolidated Financial Statements, included in this report in Part I - Item 1 “Financial Statements” for a discussion of recent developments related to these legal proceedings.

ITEM 1A. RISK FACTORS

Investing in our common stock involves a level of risk. You should carefully consider the risks described under the heading “Risk Factors” in Part I, Item 1A. of our Form 10-K for the year ended December 31, 2022, the other information in this Quarterly Report on Form 10-Q, including our unaudited condensed consolidated financial statements and the related notes, as well as our other public filings with the SEC, before deciding to invest in our common stock. There have been no material changes to the Company’s risk factors previously disclosed in our Form 10-K for the year ended December 31, 2022. The occurrence of any of the events described therein could harm our business, financial condition, results of operations, liquidity or prospects. In such an event, the market price of our common stock could decline, and you may lose all or part of your investment.

ITEM 5. OTHER INFORMATION

During the three months ended June 30, 2023, no director or officer of the Company adopted or terminated a “Rule 10b5-1 trading arrangement” or “non-Rule 10b5-1 trading arrangement,” as each term is defined in Item 408(a) of Regulation S-K.

CHIEF EXECUTIVE OFFICER CERTIFICATION

I, C. Robert Udell Jr., certify that:

1. I have reviewed this quarterly report on Form 10-Q of Consolidated Communications Holdings, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
